2	Exhibit 'TDM-3'	-	24 - 701

I, Timothy David Mableson of Level 7, 151 Pirie Street, Adelaide, South Australia 5000, Registered Liquidator, do truly and solemnly affirm that:

1. I am one of the First Plaintiffs. The other First Plaintiff, David Alexander Hardy is joint Deed Administrator of the Second to Fourth Plaintiffs.

2. I am a Partner of KPMG Australia in the service line of Turnaround & Restructuring and I am also the National Leader for the Agriculture and Wine sectors for KPMG Australia. I am a registered liquidator and have been an insolvency practitioner for over 30 years (including over 15 years as a registered liquidator).

3. I make this affidavit on my own behalf in my capacity as a Deed Administrator of the Second to Fourth Plaintiffs.

4. Save as otherwise stated, I make this affidavit from my own knowledge and based on my review of the books, records and circumstances of TasFoods.

5. I am authorised to make this affidavit on behalf of Mr Hardy (**together with me, the Deed Administrators**). Mr Hardy has reviewed a draft of this affidavit and informed me that he agrees with its contents.

Documents

6. Exhibited to me at the time of affirming this affidavit and marked **'TDM-3'** is a bundle of documents which I refer to in this affidavit. Where I refer to a page number, I am referring to a document in the Exhibit commencing at that page.

7. As a part of our investigations, the Deed Administrators have caused to be prepared a number of tables and graphs to summarise information and data that has been extracted from the books and records (including electronic records) of the Second to Fourth Plaintiffs. Where tables and graphs have been included in this affidavit, these have been prepared by members of my staff under my supervision and I have referenced the table or graph with the words "Source: KPMG Analysis".

Appointment

8. On 11 March 2026 (**Date of Appointment**), David Alexander Hardy, Sarah Emily Seeckts and I were appointed as joint and several Administrators of each of the following companies pursuant to section 436A of the *Corporations Act 2001* (Cth) (**Act**) by the directors of the following companies:

   (a) TasFoods Limited (Subject to Deed of Company Arrangement) ACN 084 800 902 (**TasFoods**);

   (b) Nichols Poultry Pty Ltd (Subject to Deed of Company Arrangement) ACN 092 929 890 (**Nichols Poultry**);

   (c) Nichols Hatchery Pty Ltd (Subject to Deed of Company Arrangement) ACN 671 683 284 (**Nichols Hatchery**);

   (d) JJJBSM Pty Ltd (In Liquidation) ACN 128 404 777 (**JJJBSM**);

   (e) Tasmanian Food Co. Dairy Pty Ltd (In Liquidation) ACN 621 829 856 (**Tasmanian Food Co.**); and

   (f) Van Diemen's Land Dairy Pty Ltd (In Liquidation) ACN 608 847 016 (**Van Diemen's Land**),

   (**together, the Group**).

9. Commencing at **page 25 to 26** of **exhibit 'TDM-3'** is a true copy of each of the instruments of appointment of the Administrators dated 11 March 2026 for each of the above companies.

10. At **page 27 to 297** of **exhibit 'TDM-3'** is an extract of each of the above companies obtained from the records maintained by the Australian Securities and Investments Commission (**ASIC**) as at the Date of Appointment.

11. The first meeting of creditors of each of the above companies required pursuant to section 436E of the Act was held concurrently on 23 March 2026 (**First Meeting**). I was the Chairperson of the First Meeting. At **page 298 to 309** of **exhibit 'TDM-3'** is a true copy of the minutes of the First Meeting, which truly reflects the business of the First Meeting and the resolutions passed at the First Meeting, including the appointment of a Committee of Inspection (**COI**) in respect of Nichols Poultry.

EMMALEE LOUISE PACILLO

In the Supreme Court of South Australia

12. On 24 April 2026, the Administrators (as we were then) convened a concurrent second meeting of creditors in respect of JJJBSM, Tasmanian Food Co. and Van Diemen's Land. I was the Chairperson of this meeting. At this meeting, creditors resolved that JJJBSM, Tasmanian Food Co. and Van Diemen's Land be wound up. At **page 310 to 317** of **exhibit 'TDM-3'** is a true copy of the minutes of this meeting, which truly reflects the business of this meeting and the resolutions passed.

13. On 9 April 2026, the Administrators (as we were then) of TasFoods, Nichols Poultry and Nichols Hatchery, (**together the Companies**) made an application for an extension of the period in which the second meeting of creditors of the Companies was required to be convened (**Convening Period**).

14. On 14 April 2026, this Honourable Court made orders extending the Convening Period to 17 October 2026. At **page 318 to 321** of **exhibit 'TDM-3'** is a true copy of the orders.

15. On 21 May 2026, the Administrators finalised and issued a report to creditors pursuant to section *75-225 of the Insolvency Practice Rules (Corporations) 2016* (**Second Report**). A true copy of the Second Report is at **page 376 to 524** of **exhibit 'TDM-3'**.

16. On 29 May 2026, the Administrators (as we were then) convened a concurrent second meeting of creditors in respect of the Companies (**Second Meeting**). I was the Chairperson of the Second Meeting. At the Second Meeting, creditors resolved that the Companies execute a deed of company arrangement (**DOCA**). At **page 322 to 332** of **exhibit 'TDM-3'** is a true copy of the minutes of the Second Meeting, which truly reflects the business of the Second Meeting and the resolutions passed.

17. A true copy of the DOCA executed by the Companies, the Administrators and RAMP Tasmania Poultry Pty Ltd ACN 698 304 531 (**Proponent**) is at **page 526 to 563** of **exhibit 'TDM-3'**.

18. Pursuant to the terms of the DOCA, David Alexander Hardy, Sarah Emily Seeckts and I were appointed as joint and several Deed Administrators of the Companies.

19. On 11 August 2026, Sarah Emily Seeckts resigned as Deed Administrator of the Companies. A true copy of this resignation is at **page 333 to 338** of **exhibit 'TDM-3'**.

Background

20. TasFoods is a public company listed on the ASX with 302,397,710 ordinary shares on issue.

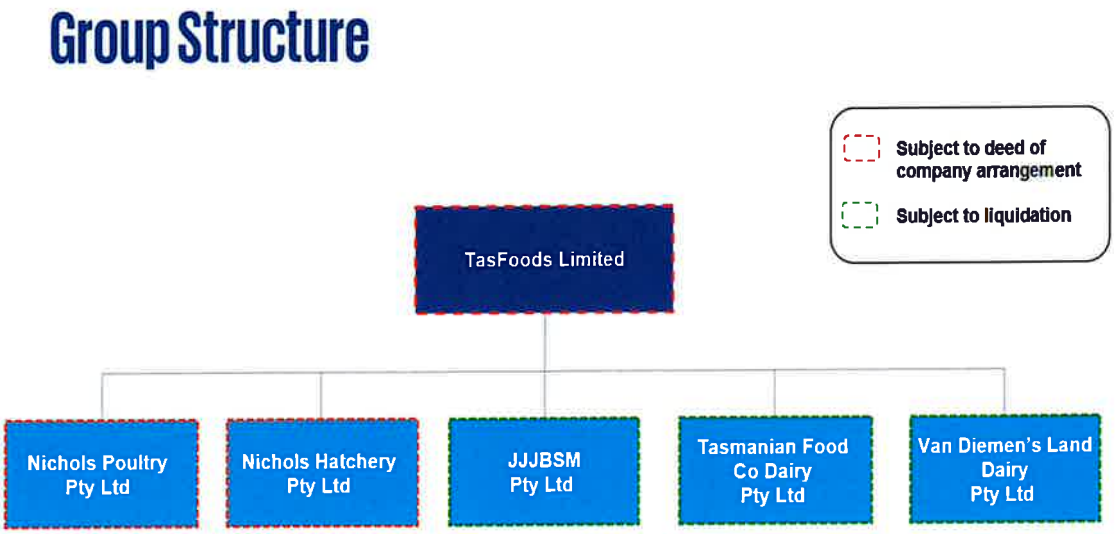
In the Supreme Court of South Australia

21. TasFoods is the ultimate holding company of Nichols Poultry Pty Ltd, Nichols Hatchery, JJJBSM, Tasmanian Food Co. and Van Diemen's Land.

22. From the records obtained from ASIC, I have caused the following diagram to be prepared to illustrate the corporate structure of the group:



Source: KPMG Analysis

23. Nichols Poultry was established in 1988 and is the largest Tasmanian meat poultry producer and operates its processing business from a facility located at Sassafras, Tasmania 7307.

24. Nichols Poultry is renowned as a market leader in the industry for quality, sustainability and animal welfare. Nichols Poultry's business practices include air chilled chlorine free chicken processing, onsite wind power generation and a high animal welfare standard with RSPCA accreditation.

25. Nichols Hatchery operates a breeder and hatchery business located at Sisters Creek, Tasmania 7325 approximately 100 kilometres from the Nichols Poultry facility and supports Nichols Poultry as an end-to-end meat poultry business by supplying day-old chicks to Nichols Poultry.

26. In 2023, Nichols Poultry launched a 'planet friendly' pet nutrition brand 'Isle & Sky' which manufactures products from Nichols Poultry waste cuts in an effort to reduce environmental footprint.

27. As at the Date of Appointment, the Companies employed 172 full-time equivalent, permanent employees, casual employees and contractors. Since the Date of

EMMALEE LOUISE PACILLO

Appointment, 4 full time equivalent employees have been made redundant from their employment with TasFoods and several casual employees have exited the business. A summary of employees employed by the Companies (by entity) at the Date of Appointment is contained in the table below:

Company	Description	# Employees
TasFoods	Employs 8 full time equivalent staff; 4 part time staff; and 3 casual staff.	15
Nichols Hatchery	Employs 5 full time equivalent staff and 7 casual staff.	12
Nichols Poultry	Employs 66 full time equivalent staff, 4 part time staff; 67 casual staff and 8 contractors.	145
Total Employees		**172**

28. As set out above, we were also appointed to JJJBSM, Van Diemen's Land and Tasmanian Food Co. As at the Date of Appointment, these entities were essentially dormant as a result of their businesses having been divested as part of a strategy to improve the financial performance of the Group set out further below.

29. As at the Date of Appointment, National Australia Bank Ltd (**NAB**) held (and continues to hold) an ALLPAAP registration on the Personal Property Securities Register (**PPSR**) over five of the six entities in the Group, (including each of the Companies) pursuant to its cross collateralised securities. We estimate the NAB debt payable will be in the amount circa $3.97million (**NAB Security**) based on accrued interest to the DOCA Sunset Date (refer to paragraph 64(m) below).

30. As at the Date of Appointment, Research Corporation Pty Ltd as trustee for the Anthony Hall Family Trust (ABN 21515015075) (**Anthony Hall**) (a private lender and member of TasFoods) held (and continues to hold) a second ranking ALLPAAP registration on the PPSR in respect of a debt owed of circa $0.8 million (**Anthony Hall Security**).

31. A summary of the Deed Administrators' estimate of unsecured creditors of the Companies (including inter-company loans) as at the Date of Appointment are listed in the table below:

32. As at the Date of Appointment, Ridley Agriproducts Pty Ltd (ACN 006544145) (**Ridley**) held (and continues to hold) a caveat over land owned by Nichols Poultry in respect of a debt in the amount of $3.3million (**Ridley Security**). This debt owing to Ridley is included in the Deed Administrators' estimate of unsecured creditors of Nichols Poultry in the above table.

33. From our investigations, TasFoods together with the following entities are parties to a deed of cross guarantee dated 23 October 2017 (**Deed of Cross Guarantee**):

    (a) Nichols Poultry;

    (b) Tasmanian Food Co.;

    (c) Van Diemen's Land;

    (d) JJJBSM; and

    (e) Marketsmart International Pty Ltd (deregistered on 6 June 2018 under section 601AA of the Act).

34. From our investigations, Nichols Hatchery, is not a party to the Deed of Cross Guarantee as it was acquired in 2023.

35. The effect of the Deed of Cross Guarantee is that TasFoods and each of the entities listed in paragraph 33 above mutually guarantee the payment of the debts of each other entity that is party to the Deed of Cross Guarantee.

Historical Financial Performance of the Companies

36. From our investigations, prior to the Date of Appointment, the Group experienced ongoing cash flow issues and financial underperformance, having incurred consecutive net losses, between 31 December 2022 to 31 December 2025 in the range of approximately ($1.0 million) to ($16.4 million).

EMMALEE LOUISE PACILLO
A Commissioner for taking affidavits
In the Supreme Court of South Australia

37. In June 2023, the business unit of JJJBSM known as 'Shima Wasabi' was sold for $0.7 million less employee entitlements.

38. In December 2023, the business units of Van Diemen's Land known as 'Betta Milk' and 'Meander Valley Dairy' were sold for $11.1 million less employee entitlements, plus inventory.

39. In December 2025 the business unit of Tasmanian Food Co. known as 'Pyengana Dairy' was sold for approximately $2 million.

40. From our investigations, the JJJBSM, Van Diemen's Land and the Tasmanian Food Co. business units were broadly loss-making prior to sale, and their disposal formed part of a broader strategy to rationalise operations and improve financial performance of the Group.

41. The disposal of the JJJBSM, Van Diemen's Land and Tasmanian Food Co. business units accounted for approximately 41% of total Group revenue for year ended 31 December 2022.

42. From 31 December 2024, being the period after the disposal of the JJJBSM and the Van Diemen's Land business units, revenue of the Group declined to $46.1 million in the year ending 31 December 2024 and further to $38.7 million in the year ending 2025 indicating a contraction in trading activity with the business of Nichols Poultry. I consider this to support our financial analysis that performance of the Group was adversely impacted by broader market conditions, including increased input costs (particularly labour and feed), and an oversupply of poultry in Tasmanian and mainland markets, which placed downward pressure on wholesale prices and contributed to margin compression and declining revenue.

43. While raw materials and labour costs of the Group (relative to revenue) decreased in the periods between 31 December 2022 to 31 December 2024 by approximately 3% and 5% respectively, the Group's cost base remained relatively inflexible, with total expenses exceeding revenue across all periods.

44. The reduction in current assets, particularly cash, highlighted a progressively tightening liquidity position of the Group. Cash reserves declined significantly by 31 December 2025, resulting in a negative working capital position of the Group of approximately ($5.9 million) (based on reconstructed accounts) by 31 December 2025.

45. From my analysis of the Group's financial position, it appears working capital was actively managed between 31 December 2022 to 31 December 2024, albeit under constrained

EMMALEE LOUISE PACILLO
A Commissioner for taking affidavits
In the Supreme Court of South Australia

conditions. Trade payables extended from approximately 82 days as at 31 December 2022 to 110 days and 116 days by 31 December 2024 and 31 December 2025 respectively, materially exceeding standard trading terms and indicating pressure in meeting obligations as they fell due. Debtor days reduced from approximately 25 days to 16 days over the same period, reflecting a focus on accelerating collections. Inventory levels fluctuated in line with operating scale but represented a greater proportion of current assets by 31 December 2025.

46. The Group's debt profile shifted over the period, with debt reducing as a result of the JJJBSM Divestment, the Van Diemen's Land Divestment and the Tasmanian Food Co. Divestment, but represented an increased concentration of borrowings in current liabilities as at 31 December 2025, reflecting the classification of the Group's facilities with NAB as 'current' upon approaching maturity.

47. Despite the deterioration in asset values and liquidity, the Group continued to report a net asset surplus through to 31 December 2025. However, the gradual reduction of net assets over the period indicated a diminishing equity buffer (particularly in the absence of any capital raising ability via the ASX) and reduced capacity to absorb further trading losses.

48. As the Group's cash flow issues intensified and no viable recapitalisation or sale options were able to be implemented in the required timeframe, management determined that voluntary administration of the Group represented the most appropriate course of action to preserve value for creditors and stakeholders.

49. This resulted in our appointment as Administrators to the Group on the Date of Appointment, which allowed the Administrators to pursue restructuring options of the Group, including a potential going-concern transaction in respect of the Companies.

50. In the Second Report, the Administrators expressed an opinion that the Companies were likely insolvent from 30 November 2025.

Administrators' Sale and Recapitalisation Process

51. Following our appointment, the Administrators commenced a process to recapitalise and / or sell the business of the Companies, primarily on a going concern basis. However, we also offered the assets of the Companies for sale separately should that have resulted in a higher return to stakeholders.

52. The key statistics relating to the sale process were as follows:

EMMALEE LOUISE PACILLO
A Commissioner for taking affidavits
In the Supreme Court of South Australia

(a) the sale campaign commenced on 18 March 2026 whereby emails were sent to a targeted list of over 70 parties, including parties involved in the sales process prior to the Date of Appointment and parties identified by the Administrators. A flyer outlining the sale opportunities, timeline for the sale process and an advertisement was published in the *Australian Financial Review*;

(b) confidentiality agreements were issued to interested parties for execution, of which 19 were executed and returned;

(c) those 19 parties were then sent a further detailed information memorandum;

(d) initial expressions of interest were sought by 30 March 2026, with 10 expressions of interest received;

(e) following our assessment of the expressions of interest received, we advised multiple parties they were moving forward to the next stage of the sale process and negotiations were facilitated between the Administrators and interested parties; and

(f) non-binding offers (**NBIO**) were to be submitted by 27 April 2026 which resulted in the submission of six NBIOs, which were then considered by the Administrators.

53. The Administrators assessed the NBIOs received by reference to criteria including, among other things:

(a) the likely economic outcome to all creditors of the Companies as a whole (i.e. with a focus on overall value);

(b) any conditions applicable to those offers and the likelihood those conditions could be reasonably satisfied;

(c) 'completion risk' considerations;

(d) the ability for the Administrators to facilitate completion of the proposals; and

(e) the ability for the Administrators to distribute funds to creditors on a timely basis.

54. Following the review process referred to above, and the Administrators' preliminary due diligence in relation to the NBIOs received, we informed three parties that their offers were not acceptable and would not progress.

EMMALEE LOUISE PACILLO
A Commissioner for taking affidavits
In the Supreme Court of South Australia

55. The other three offers included the Proponent's DOCA proposal and two going concern sale offers. We advised these parties that their offers could not be accepted in the form submitted. However, we commenced negotiations with each of these parties with the objective of having them improve their offers in regard to increasing quantum and reducing conditionality.

56. Following these further negotiations and due diligence, the Administrators elected to proceed with the Proponent's DOCA proposal on the basis that it provided for:

(a) a more superior offer in terms of price and conditions;

(b) effectively an acquisition of all assets of the Companies as a going concern by way of purchase of 100% of the shares in TasFoods as the holding company;

(c) the transfer of all current employees without seeking a deduction for employee leave entitlements, making it the best outcome for the majority of stakeholders including circa 160 employees (as at the date of the Second Report); and

(d) handover of the management and control of the business to the Proponent shortly after execution of the DOCA (pursuant to the terms of the Implementation Licence defined in paragraph 64(l)(i) below). The purpose of the Implementation Licence was to minimise the ongoing trading losses of the Companies being incurred by the Administrators and ultimately creditors of the Companies.

57. On 15 May 2026, the Administrators advised the DOCA Proponent that they were the preferred party, subject to finalisation of commercial terms and stakeholder alignment.

58. I understand the Proponent is jointly owned by BRM Private Equity Pty Ltd ACN 650 507 547 and Tommy Reid Enterprises Pty Ltd ACN 641 517 286, based in Victoria, Australia, each having an interest in a number of poultry (principally egg) businesses across Australia.

59. At **page 651 to 671 of exhibit 'TDM-3'** is an extract of the Proponent obtained from the records maintained by ASIC.

Second Report and Administrators' Recommendation

60. The Second Report provided information regarding the options available to creditors of the Companies at the Second Meeting, including:

EMMALEE LOUISE PACILLO
A Commissioner for taking affidavits
In the Supreme Court of South Australia

(a) whether it would be in the creditors' interests for the Companies to execute the DOCA proposed by the Proponent;

(b) whether it would be in the creditors' interests for the administrations of the Companies to end; or

(c) whether it would be in the creditors' interests for the Companies to be wound up.

61. No competing DOCA proposals were put to creditors at the Second Meeting.

62. In the Second Report, the Administrators recommended that creditors vote in favour of the DOCA proposed by the Proponent on the basis that the DOCA would:

(a) serve the purpose of voluntary administration as set out in section 435A of the Act;

(b) preserve the Companies' businesses as going concerns;

(c) maintain employment for approximately 160 employees; and

(d) provide materially better returns to key creditor classes than an immediate winding up of the Companies.

Key Terms of the DOCA

63. The DOCA provides a framework for the restructuring and recapitalisation of the Companies through the continuation of the business of the Companies on a going concern basis.

64. I summarise key terms of the DOCA as follows:

(a) the assets and liabilities of the Companies are pooled and administered collectively;

(b) the Administrators are appointed as Deed Administrators and will continue to oversee the management of the Companies' affairs during the term of the DOCA;

(c) the Companies, the Proponent, the Deed Administrators, all creditors of the Companies (in respect of claims incurred by the Companies prior to the Date of Appointment), officers and members of the Companies are all bound by the terms of the DOCA;

EMMALEE LOUISE PACILLO
A Commissioner for taking affidavits
In the Supreme Court of South Australia

(d) a moratorium period applies in respect of the terms of the DOCA, and prevents creditors (except secured creditors who do not vote in favour of the DOCA) and others from:

(i) commencing or continuing proceedings against the Companies;

(ii) enforcing claims or security against the Companies;

(iii) initiating winding up proceedings against the Companies; or

(iv) exercising a right of set off against the Companies,

without leave of the Court;

(e) the Proponent will make payment of $6.5 million to the Deed Fund (**DOCA Contribution**), and will assume liability for payment of employee leave liabilities and recognise continuity of employee service, without deduction from the DOCA Contribution;

(f) the DOCA Contribution is comprised of:

(i) $0.3 million non-refundable deposit; and

(ii) $6.2 million contribution balance, which is payable on completion of the DOCA;

(g) additional assets of the Deed Fund include:

(i) debtors of the Companies which relate to the period prior to the Date of Appointment;

(ii) unbilled revenue; and

(iii) any other funds realised from assets of the Companies relating to the period prior to the Date of Appointment;

(h) the Proponent will provide or procure a guarantee and indemnity, supported by security in respect of any trading losses or unpaid liabilities incurred during the period of the Implementation Licence (defined below) or any costs associated with this application;

(i) the Deed Fund is to be distributed in the following order of priority:

EMMALEE LOUISE PACILLO
A Commissioner for taking affidavits
In the Supreme Court of South Australia

(i) secured creditor claims in respect of non-circulating assets, in accordance with their legal priority;

(ii) Deed Administrator liabilities and remuneration;

(iii) employee priority claims;

(iv) secured creditor claims in respect of circulating assets; and

(v) all other unsecured creditor claims on a pari passu basis;

(j) all intercompany creditors of the Companies will retain voting rights at any meeting of creditors but will not participate in any distribution to unsecured creditors from the Deed Fund;

(k) the COI appointed in respect of Nichols Poultry during the voluntary administration period continues during the term of the DOCA;

(l) Completion of the DOCA is conditional upon satisfaction or waiver of a number of conditions precedent, including:

(i) execution of an Implementation Licence to facilitate continued trading of the business of the Companies. The Implementation Licence was executed on 30 May 2026 (**Implementation Licence**), a true copy of which is at **page 339 to 364** of **exhibit 'TDM-3'**;

(ii) ASIC relief from takeover provisions (addressed further below);

(iii) Court approval for the transfer of shares in TasFoods to the Proponent under section 444GA of the Act (**Share Transfer**) (that is, a grant of the relief sought in this application); and

(iv) Confirmation that key leases, customer contracts and grower agreements remain in place. I am informed by the Proponent that the Proponent has received confirmation that key leases, customer contracts and grower agreements will remain in place following completion of the DOCA,

(**together, Conditions Precedent**);

(m) the Conditions Precedent must be satisfied (or waived) by the agreed sunset date being 31 August 2026 (as defined by the DOCA) (**Sunset Date**). The Sunset Date was extended by agreement in writing between the parties on 12 August 2026 to

EMMALEE LOUISE PACILLO
A Commissioner for taking affidavits
in the Supreme Court of South Australia

1 October 2026. A true copy of this agreement is at **page 649 to 650** of **exhibit 'TDM-3'**;

(n) upon satisfaction or waiver of the Conditions Precedent, the Companies must procure the release of the:

(i) NAB Security;

(ii) Ridley Security; and

(iii) Anthony Hall Security;

(o) failure to satisfy or waive the Conditions Precedent may result in termination of the DOCA and a subsequent determination by creditors as to the future of the Companies, including potential liquidation.

Potential Recovery Actions (Liquidation Scenario)

65. I refer to section 7 and section 8 of the Second Report, in respect of recovery actions identified by the Administrators in the event of liquidation of the Companies.

66. The Administrators identified potential recovery actions in respect of unfair preference payments made by the Companies in the combined amount of circa $185,000 to 10 creditors of the Companies during the relation-back period (**Unfair Preference Payments**).

67. In the Second Report, the Administrators noted:

(a) further investigations by a liquidator would be required to determine whether the Companies were insolvent at the time of each alleged unfair preference payment and, if so, whether the relevant creditor had reasonable grounds to suspect insolvency at the time the payments were received; and

(b) an assessment of costs to pursue each of the claims would need to be considered as such costs could outweigh any benefit in pursuing the claims.

68. The Administrators did not identify or report any other recovery actions available to a liquidator in the Second Report in the event of liquidation of the Companies.

Estimated Return to Creditors

EMMALEE LOUISE PACILLO
A Commissioner for taking affidavits
In the Supreme Court of South Australia

69. The Deed Administrators have conducted an analysis of the estimated likely return to creditors of the Companies in a DOCA scenario as compared to a liquidation scenario.

70. The Deed Administrators have caused to prepare an Estimated Outcome Statement (**EOS**) based on:

(a) the Companies implementing and completing the DOCA; and

(b) the Companies entering into liquidation.

71. In a liquidation scenario, the operations of the business of the Companies will cease and the liquidator will realise the assets of the Companies (including all inventory and property, plant and equipment) and any return will ultimately depend, in part, on the value achieved by a liquidator from the sale of Companies' assets (to the extent that is possible).

DOCA EOS

72. The EOS below sets out the estimated low and high return for each class of creditors of the Companies in a DOCA scenario:

TasFoods Group - Estimated Return to Creditors As at 31 July 2026	DOCA ERV High $000s	DOCA ERV Low $000s
Non-Circulating		
DOCA Contribution	6,500	6,500
March BAS refund	31	31

73. Based on the above analysis and the currently available information, the Deed Administrators consider that if the DOCA is implemented, there will be a likely return to:

(a) priority unsecured creditors of the Companies of 100 cents in the dollar in all scenarios;

(b) NAB as first ranking secured creditor of the Companies of 100 cents in the dollar in all scenarios;

(c) Anthony Hall as second ranking secured creditor of TasFoods and Nichols Poultry in full in a high scenario and approximately 70 cents in the dollar in a low scenario;

(d) unsecured creditors of the Companies are not expected to receive any dividend; and

(e) members of TasFoods are not expected to receive any dividend.

74. While there are a number of factors that may impact on the timing of any payment, the Deed Administrators anticipate that the DOCA could be effectuated and terminated with all of the funds distributed prior to the end of November 2026.

76. Based on the above analysis and the currently available information, the Deed Administrators consider that in the event of liquidation of the Companies, there will be a likely return to:

(a) priority unsecured creditors of the Companies superannuation will be paid in full.

(b) priority unsecured creditors of the Companies with respect to annual leave will be paid in full 32 cents in the dollar in a high scenario and 24 cents in the dollar in a low scenario;

(c) priority unsecured creditors of the Companies with respect to payment in lieu of notice and redundancy will receive 7 cents in the dollar in a high scenario and nil in a low scenario;

(d) NAB as first ranking secured creditor of the Companies is 48 cents in the dollar in a high scenario and nil in a low scenario;

(e) Anthony Hall as second ranking secured creditor of TasFoods and Nichols Poultry is not expected to receive any dividend;

(f) unsecured creditors of the Companies are not expected to receive any dividend; and

(g) members of TasFoods are not expected to receive any dividend.

77. In addition to the fact that creditors of the Companies would receive a lesser return in the event of liquidation of the Companies, the Deed Administrators note the timing of the payment of any dividend to the above creditors would be dependent on the time taken to sell inventory, property, plant and equipment of the Companies, and would likely take at least 6 to 12 months.

Deed Administrators' Opinion and Relief Sought

78. As explained in paragraph **Error! Reference source not found.** above, the Deed Administrators estimate that in the event of liquidation of the Companies, there will be a partial return to both priority creditors and NAB.

79. On the other hand, as explained in paragraph 0 above, the Deed Administrators estimate that under the DOCA there will be a greater return to priority creditors, NAB and Anthony Hall.

80. As set out at paragraph 64(l)(iii) above, the Share Transfer is a term of and a Condition Precedent to the DOCA.

81. Accordingly, the Deed Administrators are of the view that the Share Transfer to the Proponent in accordance with the DOCA will:

(a) enable the Deed Administrators to achieve a better and more timely return to the creditors of the Companies than would exist in a liquidation of the Companies; and

(b) in furtherance of the objects of Part 5.3A of the Act, maximise the chances of the business of the Companies continuing in existence.

82. If leave is not granted pursuant to section 444GA, the DOCA will not be effectuated. If that occurs, the Companies will likely be wound up and in those circumstances:

(a) the DOCA Contribution will not be available for distribution to creditors;

(b) the return to creditors will be less than in the DOCA; and

(c) whilst the existing members will retain their 100% shareholding in TasFoods, those shares will likely have no value as confirmed by the IER (defined in paragraph 88 below).

83. Accordingly, based on the matters set out in paragraphs 78 to 82 above, it is my opinion that the interests of the members of TasFoods will not be unfairly prejudiced by the Share Transfer if leave is granted under section 444GA of the Act to effect the Share Transfer in accordance with the terms of the DOCA.

ASIC Relief

84. TasFoods, being a listed company with more than 50 members, is also subject to the takeover prohibitions in section 606 of the Act. In this regard, the Deed Administrators are

EMMALEE LOUISE PACILLO
A Commissioner for taking affidavits
In the Supreme Court of South Australia

proceeding on the basis that section 444GA of the Act does not operate to the exclusion of the takeover provisions set out in Chapter 6 of the Act.

85. The Deed Administrators are also proceeding on the basis that:

(a) it would be unlawful for the Proponent to acquire more than 20 percent of the issued share capital of TasFoods without complying with Chapter 6 of the Act, unless one of the exceptions in section 611 of the Act applies;

(b) none of the exceptions in section 611 of the Act apply; and

(c) ASIC relief from the takeover provisions in Chapter 6 of the Act is therefore required to facilitate the Share Transfer to the Proponent as contemplated by the DOCA.

86. As set out in paragraph 64(l)(ii) above, it is a Condition Precedent that the Deed Administrators make an application to ASIC seeking relief from section 606 of the Act (**ASIC Relief**) in order for the Share Transfer to proceed in accordance with the terms of the DOCA and for ASIC to grant the ASIC Relief.

87. On 21 August 2026, the Deed Administrators made an application to ASIC for the ASIC Relief. At **page 365 to 650 of exhibit 'TDM-3'** is a true copy of the application for ASIC Relief (**ASIC Application**).

88. In support of the ASIC Application, the Deed Administrators engaged Grant Thornton Corporate Finance to provide an independent expert report (**IER**) valuing TasFoods on a liquidation basis, in the absence of the DOCA prepared in accordance with ASIC Regulatory Guide 111 (Content of expert reports) and 112 (Independence of experts). **At page 586 to 643 of exhibit 'TDM-3'** is a true copy of the IER.

89. The Deed Administrators expect ASIC will issue 'in principle' relief in respect of the ASIC Application by 4 September 2026 (**In Principle Relief**). To my knowledge, once ASIC has issued In Principle Relief, it then awaits the Court's determination on the application for relief under section 444GA of the Act and, if that relief is granted, ASIC will then proceed to finalise its grant of relief under the Act.

Correspondence with members of TasFoods

90. On or around 9 July 2026, I caused for the email addresses and postal addresses of TasFoods members to be extracted from the shareholder listing on 7 July 2026 via Miraqle registry services (**Shareholder Registry**). A true copy of the shareholders listed on the

Shareholder Registry (with email and postal addresses omitted) is at **page 672 to 695 of exhibit 'TDM-3'.**

91. On or around 28 July 2026, I caused for a letter to be sent (**28 July Letter**) to all known members of TasFoods to give notice to members of the fact of the DOCA, the Share Transfer, the ASIC Application and this application. A true copy of the 28 July Letter is at **page 696 to 697 of exhibit 'TDM-3'.**

92. On or around 29 July 2026, I caused for the 28 July Letter to be emailed to 783 TasFoods members, where email addresses were available on the Shareholder Registry.

93. On or around 29 July 2026, I caused for the 28 July 2026 Letter to be mailed via regular post to 575 TasFoods members where email addresses were not provided, but postal addresses were provided.

94. From the emailed correspondence, we received 4 failed deliver notifications to the following addresses:

    (a) dforsyth@homemail.com.au;

    (b) m.brett52@hotmail.com;

    (c) phil@matrixcapital.com.au; and

    (d) cwmckinnon@active8.net.au.

95. From the posted correspondence, we received 2 letters marked 'Return to Sender'. Those letters were addressed to Mr Michael Kevin Dunstan and Mr Hao Chen.

96. On 25 August 2026, I caused for a letter to be sent (**25 August Letter**) to all known members of TasFoods to provide an update in regard to the ASIC Application and the Deed Administrators' intention to file this application. A true copy of the 28 July Letter is at **page 698 to 699 of exhibit 'TDM-3'.**

97. On or around 25 August 2026, I caused for the 25 August Letter to be emailed to 783 TasFoods members, where email addresses were available on the Shareholder Registry.

98. On or around 25 August 2026, I caused for the 25 August Letter to be mailed via regular post to 575 TasFoods members where email addresses were not provided, but postal addresses were provided.

Service of the Application

EMMALEE LOUISE PACILLO

99. I intend to serve a copy of the interlocutory process and this affidavit to all members of TasFoods and all creditors of the Second to Fourth Plaintiffs in the event that any of them wish to be heard in relation to this application.

100. At **page 700 to 701 of exhibit 'TDM-3'** is a true copy of the notice (**Proposed Notice**) which I intend to provide to persons entitled to oppose this application under section 444GA(2) of the Act, including:

(a) the members of TasFoods;

(b) the creditors of TasFoods;

(c) ASIC; and

(d) any other interested parties.

101. The Proposed Notice provides, among other things, information to the members regarding this application in the form of an explanatory statement and provides information as to how these persons may be entitled to access the IER.

102. I expect to serve the Proposed Notice by 8 September 2026 (after the time by which I expect ASIC will have confirmed its position on whether to grant In Principle Relief).

103. I respectfully request that this Honourable Court list a hearing in this matter, no earlier than 23 September 2026 to ensure that interested parties have sufficient time to consider their position prior to a hearing.

104. In light of the matters set out above, I respectfully request that this Honourable Court make the orders set out in the Interlocutory Process.

Class:	ORDINARY SHARES	7EDU83309
Number of Shares Issued:	302397710	
Total Amount Paid / Taken to be Paid:	$62,517,072.61	
Total Amount Due and Payable:	$0.00	

Note:
For each class of shares issued by a company, ASIC records the details of the twenty members of the class (based on shareholdings). The details of any other members holding the same number of shares as the twentieth ranked member will also be recorded by ASIC on the database. Where available, historical records show that a member has ceased to be ranked amongst the twenty members. This may, but does not necessarily mean, that they have ceased to be a member of the company.

- Charges -

Notes:
On 30 January 2012, the Personal Property Securities Register (PPS Register) commenced.
At that time ASIC transferred all details of current charges to the PPS Registrar.
ASIC can only provide details of satisfied charges prior to that date.
Details of current charges, or charge satisfied since 30 January 2012 can be found on the PPS Register, www.ppsr.gov.au.
InfoTrack may cap documents for on-file searches to 250.

RiskScore

B2

RiskScore	626 / 850
Risk level	Low

RiskScore summary

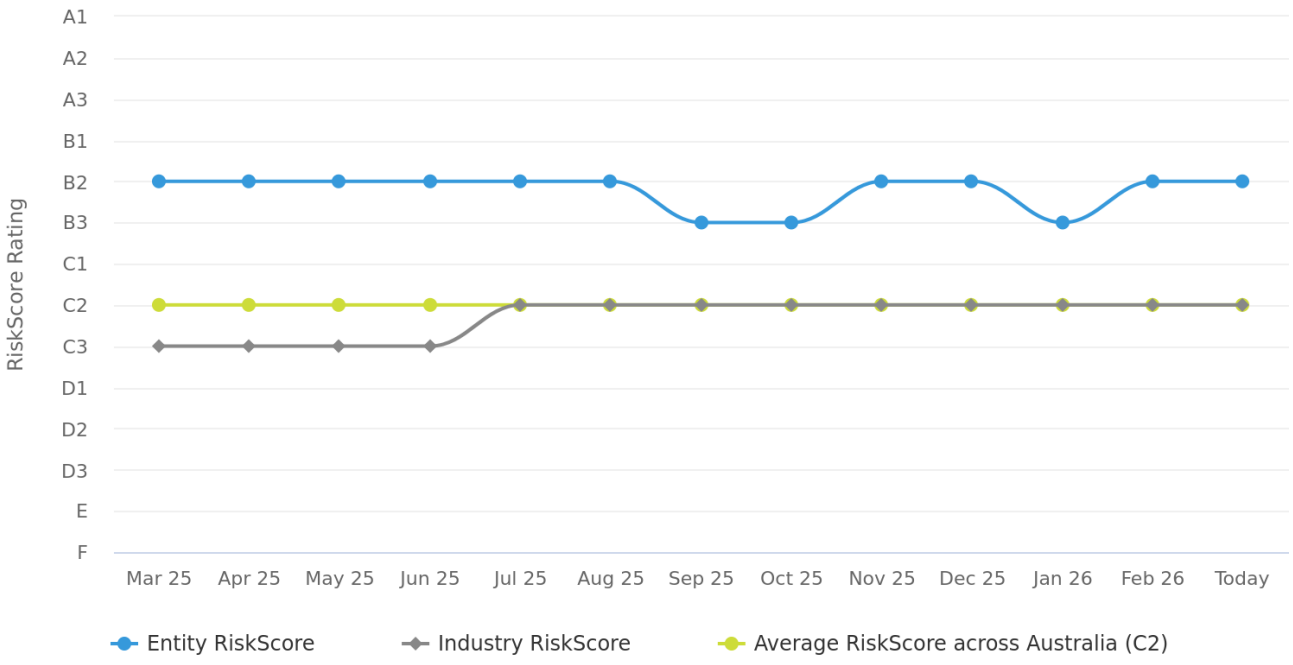
Entity has a **0.5% to 1.0% chance of default** within the next 12 months.

Entity has a strong aptitude to meet credit commitments. Unfavourable economic conditions may lead to a weakened capability to meet financial commitments. Extend terms within consideration.

Key contributing factors

- ↑ Data relating to the size of the business
- ↓ Data relating to industry and type of the business
- ↑ Data relating to adverse risk factors

RiskScore Historical Information
Within the last 12 Months



Did you know?

- The Industry Score is based on the average score of entities within the same ANZSIC Division.
- The average RiskScore across Australia has historically been around **C2** (average default risk over the past 5 years).
- The dotted line shows a **rating band**, not a single score. Your numeric score can change within this band without moving the line.

The CreditorWatch RiskScore is the most advanced algorithm in the market and is designed to ensure you make the right decision. The RiskScore has been developed using the latest machine learning techniques in combination with CreditorWatch's extensive data. The CreditorWatch RiskScore should be used in partnership with your internal credit procedures and policies.

What is "probability of default"?
This is the likelihood that an entity will NOT be able to meet their financial commitments in the next 12 months eg: pay an invoice.

Score Recommendations

RiskScore Rating	Risk Level	Recommendation
A1, A2, A3	Very Low	Very strong credit quality based on behavioural and business demographics. Likelihood of default or insolvency is considered very low. Extend terms within consideration.
B1, B2	Low	Strong credit quality based on behavioural and business demographics. Likelihood of default or insolvency is considered very low. Extend terms within consideration.
B3, C1	Neutral	Lower than average default risk for an Australian business. Business demographics and behaviours indicative of low likelihood of default or insolvency in the short to medium term. Extend terms and monitor ongoing payment behaviour.
C2	Acceptable	Average default risk for an Australian business. Standard underwriting criteria and due diligence recommended prior to extending credit. Extend terms, closely monitor ongoing payment behaviour.
C3	Potential Risk	Behaviours and business demographics may indicate increased risk for some businesses in this group. Assessment of the entity's financial position and cashflow is recommended prior to extending material unsecured credit.
D1, D2, D3	High	Risk of default or insolvency is significantly higher than the average for Australian businesses. COD trading highly recommended.
E	Impaired	Entity is highly vulnerable to default or insolvency in the short term.
F	Defaulted	One or more creditors has initiated legal proceedings or other significant actions in response to unpaid debt obligations, or the entity is entering or has entered insolvency.

Please note that the rating and recommendation should be used in partnership with your company's internal credit procedures and policies. The rating should not be used as the sole reason in making decision about the entity.

What are contributing factors?

How it works

A contributing factor is a datapoint that determines the risk profile of a company. It could indicate a negative or positive impact on a business's ability to continue trading.

↑ The contributing factor drove the entity's RiskScore in a positive direction
↓ The contributing factor drove the entity's RiskScore in a negative direction

Contributing factors that could affect RiskScores

- Data on the registration or location of the business
  Businesses that have been established for a longer period of time, or have operated in the same location longer, tend to be less risky
- Data from invoices or aged trial balances
  Businesses that pay their invoices on time tend to be less risky
- Data relating to the size of the business
  Larger businesses tend to be less risky
- Data relating to important cross directorships
  Businesses without important director behaviour tend to be less risky
- Data relating to adverse risk factors
  Businesses without traditional credit risk drivers such as ASIC published notices or court judgments tend to be less risky
- Data relating to industry and type of the business
  Some industries or business types are more risky than others

Credit enquiries provide an indication of the number of times an entity's credit file has been accessed. For credit enquiries performed in the last 12 months, the date of the enquiry and the industry of the business, sole trader or individual performing the credit enquiry is detailed in the graph and table.

Risk Data

Court Actions

Court Details	Plaintiff	Action	Nature of the Claim	Amount

No Court Actions

CreditorWatch aggregate data from courts around Australia to provide a summary of court actions against an entity. When available, details of the action include location, case number, state, plaintiff, nature of the claim, action type and dollar amount.

Payment Defaults

Added	Invoice Due	Submitted By	Amount	Status

No Payment Defaults Lodged

A default indicates that the debtor has failed to make a payment for goods or services. Payment Defaults are unique to CreditorWatch and can have one of three statuses: outstanding, partial payment or settled.

Tax Defaults

Date Added	Date Updated	Submitted By	Status	Amount

No Tax Defaults Lodged

A tax default indicates that a business has overdue tax payments and has failed to respond to a notice of disclosure by The Australian Taxation Office (ATO). Tax defaults are only lodged on debts that are over 90 days overdue and are over a value of $100,000.

Mercantile Enquiries

Enquiry Date	Mercantile Agent

No Mercantile Enquiries Lodged

A Mercantile enquiry is an indication that a mercantile agency (or debt collection agency) has conducted an enquiry on this entity for the purpose of debt collection.

Status Changes

ASIC Entity Status Changes

Change Date	ASIC Status

Note:
For each class of shares issued by a company, ASIC records the details of the twenty members of the class (based on shareholdings). The details of any other members holding the same number of shares as the twentieth ranked member will also be recorded by ASIC on the database. Where available, historical records show that a member has ceased to be ranked amongst the twenty members. This may, but does not necessarily mean, that they have ceased to be a member of the company.

RiskScore	584 / 850
Risk level	Neutral

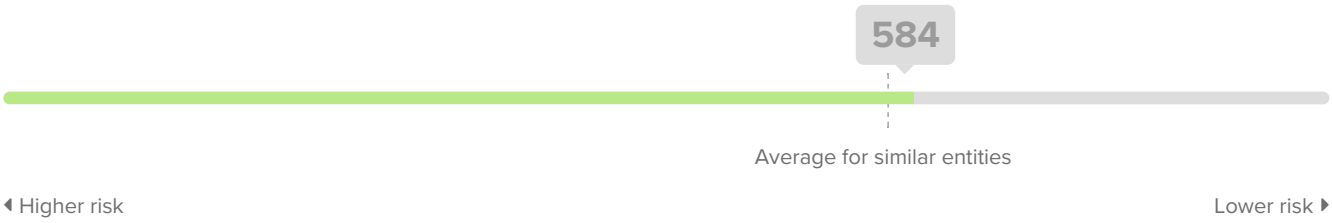
RiskScore summary

Entity has a **3.0% to 4.0% chance of default** within the next 12 months.

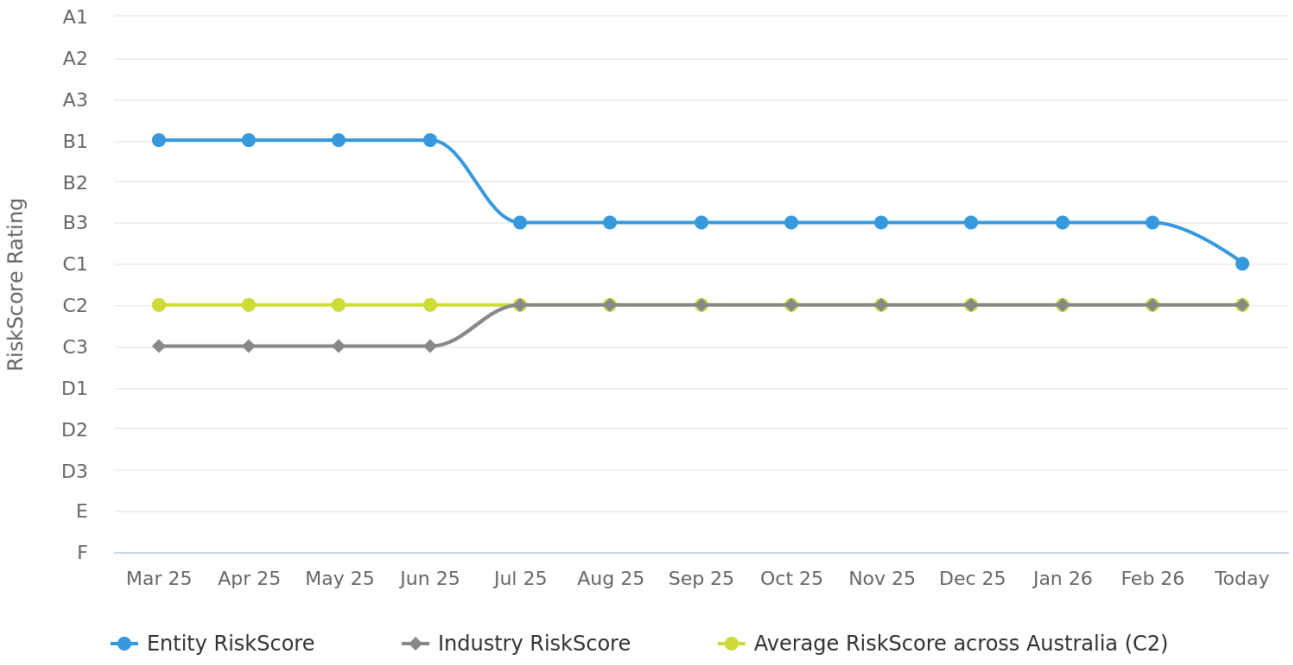
Entity currently has the aptitude to meet credit commitments. Unfavourable business, financial, or economic conditions may impair ability to meet financial commitments. Extend terms and monitor ongoing payment behaviour.

Key contributing factors

- ↓ Data relating to industry and type of the business
- ↑ Data relating to the size of the business
- ↓ Data relating to adverse risk factors



RiskScore Historical Information
Within the last 12 Months



Did you know?

- The Industry Score is based on the average score of entities within the same ANZSIC Division.
- The average RiskScore across Australia has historically been around **C2** (average default risk over the past 5 years).
- The dotted line shows a **rating band**, not a single score. Your numeric score can change within this band without moving the line.

The CreditorWatch RiskScore is the most advanced algorithm in the market and is designed to ensure you make the right decision. The RiskScore has been developed using the latest machine learning techniques in combination with CreditorWatch's extensive data. The CreditorWatch RiskScore should be used in partnership with your internal credit procedures and policies.

What is "probability of default"?
This is the likelihood that an entity will NOT be able to meet their financial commitments in the next 12 months eg: pay an invoice.

Score Recommendations

RiskScore Rating	Risk Level	Recommendation
A1, A2, A3	Very Low	Very strong credit quality based on behavioural and business demographics. Likelihood of default or insolvency is considered very low. Extend terms within consideration.
B1, B2	Low	Strong credit quality based on behavioural and business demographics. Likelihood of default or insolvency is considered very low. Extend terms within consideration.
B3, C1	Neutral	Lower than average default risk for an Australian business. Business demographics and behaviours indicative of low likelihood of default or insolvency in the short to medium term. Extend terms and monitor ongoing payment behaviour.
C2	Acceptable	Average default risk for an Australian business. Standard underwriting criteria and due diligence recommended prior to extending credit. Extend terms, closely monitor ongoing payment behaviour.
C3	Potential Risk	Behaviours and business demographics may indicate increased risk for some businesses in this group. Assessment of the entity's financial position and cashflow is recommended prior to extending material unsecured credit.
D1, D2, D3	High	Risk of default or insolvency is significantly higher than the average for Australian businesses. COD trading highly recommended.
E	Impaired	Entity is highly vulnerable to default or insolvency in the short term.
F	Defaulted	One or more creditors has initiated legal proceedings or other significant actions in response to unpaid debt obligations, or the entity is entering or has entered insolvency.

Please note that the rating and recommendation should be used in partnership with your company's internal credit procedures and policies. The rating should not be used as the sole reason in making decision about the entity.

What are contributing factors?

How it works

A contributing factor is a datapoint that determines the risk profile of a company. It could indicate a negative or positive impact on a business's ability to continue trading.

↑ The contributing factor drove the entity's RiskScore in a positive direction
↓ The contributing factor drove the entity's RiskScore in a negative direction

Contributing factors that could affect RiskScores

- Data on the registration or location of the business
  Businesses that have been established for a longer period of time, or have operated in the same location longer, tend to be less risky
- Data from invoices or aged trial balances
  Businesses that pay their invoices on time tend to be less risky
- Data relating to the size of the business
  Larger businesses tend to be less risky
- Data relating to important cross directorships
  Businesses without important director behaviour tend to be less risky
- Data relating to adverse risk factors
  Businesses without traditional credit risk drivers such as ASIC published notices or court judgments tend to be less risky
- Data relating to industry and type of the business
  Some industries or business types are more risky than others

Credit enquiries provide an indication of the number of times an entity's credit file has been accessed. For credit enquiries performed in the last 12 months, the date of the enquiry and the industry of the business, sole trader or individual performing the credit enquiry is detailed in the graph and table.

Risk Data

Court Actions

Court Details	Plaintiff	Action	Nature of the Claim	Amount

No Court Actions

CreditorWatch aggregate data from courts around Australia to provide a summary of court actions against an entity. When available, details of the action include location, case number, state, plaintiff, nature of the claim, action type and dollar amount.

Payment Defaults

Added	Invoice Due	Submitted By	Amount	Status
Jun-2025	Apr-2025	Amcor	$9,802.17	Outstanding

A default indicates that the debtor has failed to make a payment for goods or services. Payment Defaults are unique to CreditorWatch and can have one of three statuses: outstanding, partial payment or settled.

Tax Defaults

Date Added	Date Updated	Submitted By	Status	Amount

No Tax Defaults Lodged

A tax default indicates that a business has overdue tax payments and has failed to respond to a notice of disclosure by The Australian Taxation Office (ATO). Tax defaults are only lodged on debts that are over 90 days overdue and are over a value of $100,000.

Mercantile Enquiries

For each class of shares issued by a company, ASIC records the details of the twenty members of the class (based on shareholdings). The details of any other members holding the same number of shares as the twentieth ranked member will also be recorded by ASIC on the database. Where available, historical records show that a member has ceased to be ranked amongst the twenty members. This may, but does not necessarily mean, that they have ceased to be a member of the company.

RiskScore

C2

RiskScore	549 / 850
Risk level	Acceptable

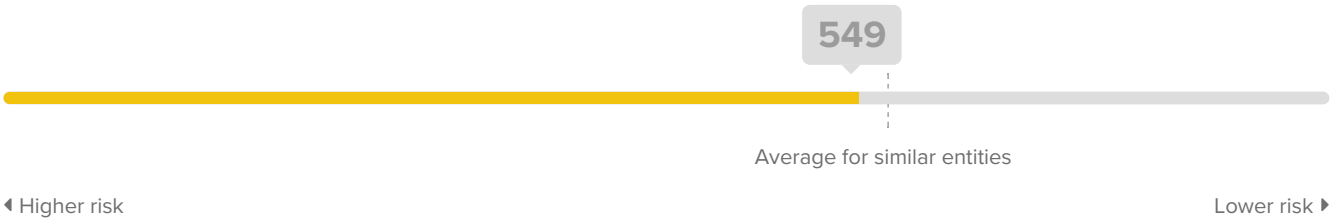
RiskScore summary

Entity has a **6.0% to 7.0% chance of default** within the next 12 months.

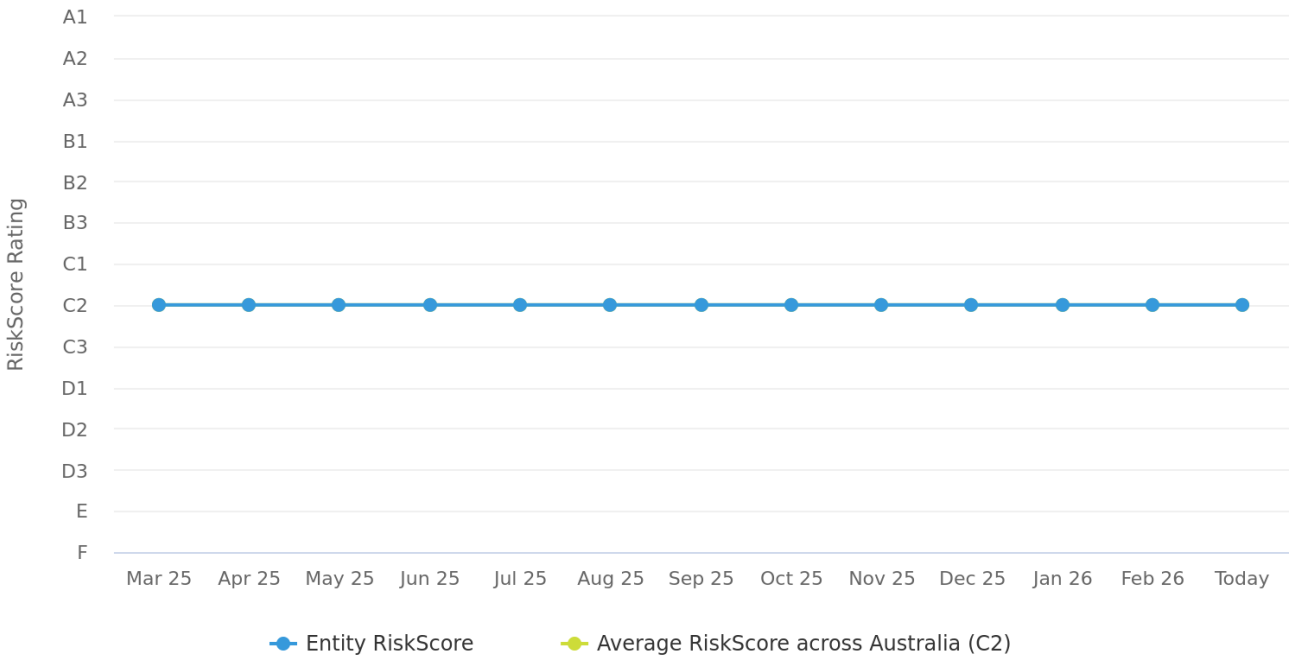
Entity has an adequate aptitude to meet credit commitments. Unfavourable business, financial, or economic conditions will likely impair the capacity or willingness to meet financial commitments. Extend terms, closely monitor ongoing payment behaviour.

Key contributing factors

- Data relating to industry and type of the business
- Data relating to adverse risk factors
- Data from invoices or aged trial balances



RiskScore Historical Information
Within the last 12 Months



Did you know?

- The Industry Score is based on the average score of entities within the same ANZSIC Division.
- The average RiskScore across Australia has historically been around **C2** (average default risk over the past 5 years).
- The dotted line shows a **rating band**, not a single score. Your numeric score can change within this band without moving the line.

The CreditorWatch RiskScore is the most advanced algorithm in the market and is designed to ensure you make the right decision. The RiskScore has been developed using the latest machine learning techniques in combination with CreditorWatch's extensive data. The CreditorWatch RiskScore should be used in partnership with your internal credit procedures and policies.

What is "probability of default"?
This is the likelihood that an entity will NOT be able to meet their financial commitments in the next 12 months eg: pay an invoice.

Score Recommendations

RiskScore Rating	Risk Level	Recommendation
A1, A2, A3	Very Low	Very strong credit quality based on behavioural and business demographics. Likelihood of default or insolvency is considered very low. Extend terms within consideration.
B1, B2	Low	Strong credit quality based on behavioural and business demographics. Likelihood of default or insolvency is considered very low. Extend terms within consideration.
B3, C1	Neutral	Lower than average default risk for an Australian business. Business demographics and behaviours indicative of low likelihood of default or insolvency in the short to medium term. Extend terms and monitor ongoing payment behaviour.
C2	Acceptable	Average default risk for an Australian business. Standard underwriting criteria and due diligence recommended prior to extending credit. Extend terms, closely monitor ongoing payment behaviour.
C3	Potential Risk	Behaviours and business demographics may indicate increased risk for some businesses in this group. Assessment of the entity's financial position and cashflow is recommended prior to extending material unsecured credit.
D1, D2, D3	High	Risk of default or insolvency is significantly higher than the average for Australian businesses. COD trading highly recommended.
E	Impaired	Entity is highly vulnerable to default or insolvency in the short term.
F	Defaulted	One or more creditors has initiated legal proceedings or other significant actions in response to unpaid debt obligations, or the entity is entering or has entered insolvency.

Please note that the rating and recommendation should be used in partnership with your company's internal credit procedures and policies. The rating should not be used as the sole reason in making decision about the entity.

What are contributing factors?

How it works

A contributing factor is a datapoint that determines the risk profile of a company. It could indicate a negative or positive impact on a business's ability to continue trading.

↑ The contributing factor drove the entity's RiskScore in a positive direction
↓ The contributing factor drove the entity's RiskScore in a negative direction

Contributing factors that could affect RiskScores

- Data on the registration or location of the business
  Businesses that have been established for a longer period of time, or have operated in the same location longer, tend to be less risky
- Data from invoices or aged trial balances
  Businesses that pay their invoices on time tend to be less risky
- Data relating to the size of the business
  Larger businesses tend to be less risky
- Data relating to important cross directorships
  Businesses without important director behaviour tend to be less risky
- Data relating to adverse risk factors
  Businesses without traditional credit risk drivers such as ASIC published notices or court judgments tend to be less risky
- Data relating to industry and type of the business
  Some industries or business types are more risky than others

Credit enquiries provide an indication of the number of times an entity's credit file has been accessed. For credit enquiries performed in the last 12 months, the date of the enquiry and the industry of the business, sole trader or individual performing the credit enquiry is detailed in the graph and table.

Risk Data

Court Actions

Court Details	Plaintiff	Action	Nature of the Claim	Amount

No Court Actions

CreditorWatch aggregate data from courts around Australia to provide a summary of court actions against an entity. When available, details of the action include location, case number, state, plaintiff, nature of the claim, action type and dollar amount.

Payment Defaults

Added	Invoice Due	Submitted By	Amount	Status

No Payment Defaults Lodged

A default indicates that the debtor has failed to make a payment for goods or services. Payment Defaults are unique to CreditorWatch and can have one of three statuses: outstanding, partial payment or settled.

Tax Defaults

Date Added	Date Updated	Submitted By	Status	Amount

No Tax Defaults Lodged

A tax default indicates that a business has overdue tax payments and has failed to respond to a notice of disclosure by The Australian Taxation Office (ATO). Tax defaults are only lodged on debts that are over 90 days overdue and are over a value of $100,000.

Mercantile Enquiries

Enquiry Date	Mercantile Agent

No Mercantile Enquiries Lodged

A Mercantile enquiry is an indication that a mercantile agency (or debt collection agency) has conducted an enquiry on this entity for the purpose of debt collection.

For each class of shares issued by a company, ASIC records the details of the twenty members of the class (based on shareholdings). The details of any other members holding the same number of shares as the twentieth ranked member will also be recorded by ASIC on the database. Where available, historical records show that a member has ceased to be ranked amongst the twenty members. This may, but does not necessarily mean, that they have ceased to be a member of the company.

RiskScore	591 / 850
Risk level	Neutral

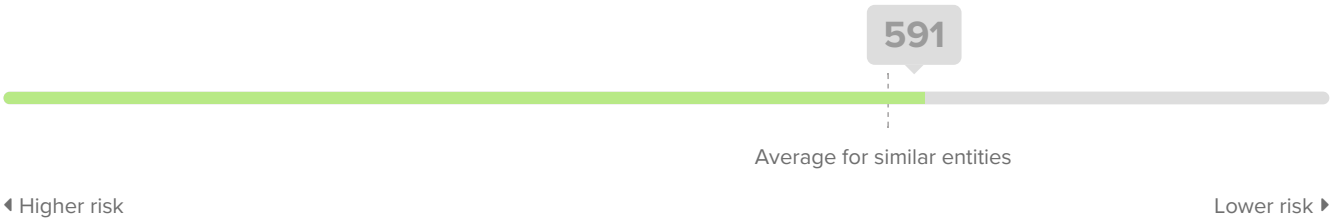
RiskScore summary

Entity has a **1.5% to 2.5% chance of default** within the next 12 months.

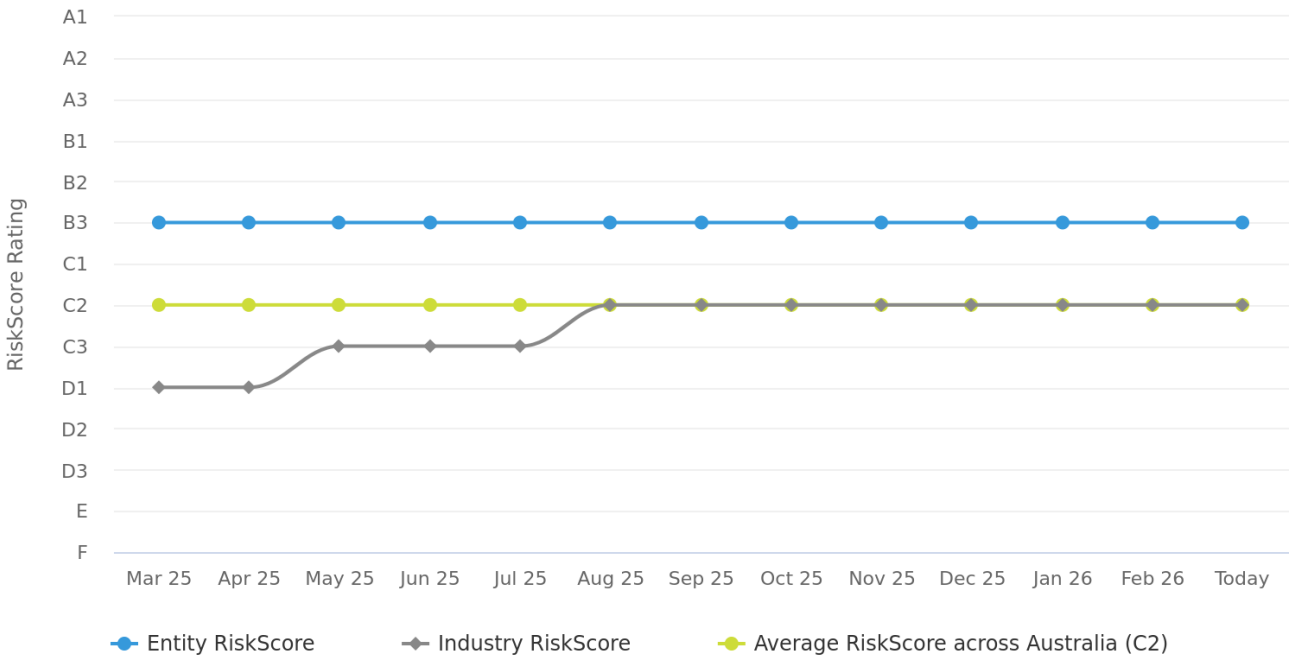
Entity currently has the aptitude to meet credit commitments. Unfavourable business, financial, or economic conditions may impair ability to meet financial commitments. Extend terms and monitor ongoing payment behaviour.

Key contributing factors

- ↓ Data relating to industry and type of the business
- ↑ Data relating to adverse risk factors
- ↓ Data from invoices or aged trial balances



RiskScore Historical Information
Within the last 12 Months



Did you know?

- The Industry Score is based on the average score of entities within the same ANZSIC Division.
- The average RiskScore across Australia has historically been around **C2** (average default risk over the past 5 years).
- The dotted line shows a **rating band**, not a single score. Your numeric score can change within this band without moving the line.

The CreditorWatch RiskScore is the most advanced algorithm in the market and is designed to ensure you make the right decision. The RiskScore has been developed using the latest machine learning techniques in combination with CreditorWatch's extensive data. The CreditorWatch RiskScore should be used in partnership with your internal credit procedures and policies.

What is "probability of default"?
This is the likelihood that an entity will NOT be able to meet their financial commitments in the next 12 months eg: pay an invoice.

Score Recommendations

RiskScore Rating	Risk Level	Recommendation
A1, A2, A3	Very Low	Very strong credit quality based on behavioural and business demographics. Likelihood of default or insolvency is considered very low. Extend terms within consideration.
B1, B2	Low	Strong credit quality based on behavioural and business demographics. Likelihood of default or insolvency is considered very low. Extend terms within consideration.
B3, C1	Neutral	Lower than average default risk for an Australian business. Business demographics and behaviours indicative of low likelihood of default or insolvency in the short to medium term. Extend terms and monitor ongoing payment behaviour.
C2	Acceptable	Average default risk for an Australian business. Standard underwriting criteria and due diligence recommended prior to extending credit. Extend terms, closely monitor ongoing payment behaviour.
C3	Potential Risk	Behaviours and business demographics may indicate increased risk for some businesses in this group. Assessment of the entity's financial position and cashflow is recommended prior to extending material unsecured credit.
D1, D2, D3	High	Risk of default or insolvency is significantly higher than the average for Australian businesses. COD trading highly recommended.
E	Impaired	Entity is highly vulnerable to default or insolvency in the short term.
F	Defaulted	One or more creditors has initiated legal proceedings or other significant actions in response to unpaid debt obligations, or the entity is entering or has entered insolvency.

Please note that the rating and recommendation should be used in partnership with your company's internal credit procedures and policies. The rating should not be used as the sole reason in making decision about the entity.

What are contributing factors?

How it works

A contributing factor is a datapoint that determines the risk profile of a company. It could indicate a negative or positive impact on a business's ability to continue trading.

↑ The contributing factor drove the entity's RiskScore in a positive direction
↓ The contributing factor drove the entity's RiskScore in a negative direction

Contributing factors that could affect RiskScores

- Data on the registration or location of the business
  Businesses that have been established for a longer period of time, or have operated in the same location longer, tend to be less risky
- Data from invoices or aged trial balances
  Businesses that pay their invoices on time tend to be less risky
- Data relating to the size of the business
  Larger businesses tend to be less risky
- Data relating to important cross directorships
  Businesses without important director behaviour tend to be less risky
- Data relating to adverse risk factors
  Businesses without traditional credit risk drivers such as ASIC published notices or court judgments tend to be less risky
- Data relating to industry and type of the business
  Some industries or business types are more risky than others

Credit enquiries provide an indication of the number of times an entity's credit file has been accessed. For credit enquiries performed in the last 12 months, the date of the enquiry and the industry of the business, sole trader or individual performing the credit enquiry is detailed in the graph and table.

Risk Data

Court Actions

Court Details	Plaintiff	Action	Nature of the Claim	Amount

No Court Actions

CreditorWatch aggregate data from courts around Australia to provide a summary of court actions against an entity. When available, details of the action include location, case number, state, plaintiff, nature of the claim, action type and dollar amount.

Payment Defaults

Added	Invoice Due	Submitted By	Amount	Status

No Payment Defaults Lodged

A default indicates that the debtor has failed to make a payment for goods or services. Payment Defaults are unique to CreditorWatch and can have one of three statuses: outstanding, partial payment or settled.

Tax Defaults

Date Added	Date Updated	Submitted By	Status	Amount

No Tax Defaults Lodged

A tax default indicates that a business has overdue tax payments and has failed to respond to a notice of disclosure by The Australian Taxation Office (ATO). Tax defaults are only lodged on debts that are over 90 days overdue and are over a value of $100,000.

Mercantile Enquiries

Enquiry Date	Mercantile Agent

No Mercantile Enquiries Lodged

A Mercantile enquiry is an indication that a mercantile agency (or debt collection agency) has conducted an enquiry on this entity for the purpose of debt collection.

For each class of shares issued by a company, ASIC records the details of the twenty members of the class (based on shareholdings). The details of any other members holding the same number of shares as the twentieth ranked member will also be recorded by ASIC on the database. Where available, historical records show that a member has ceased to be ranked amongst the twenty members. This may, but does not necessarily mean, that they have ceased to be a member of the company.

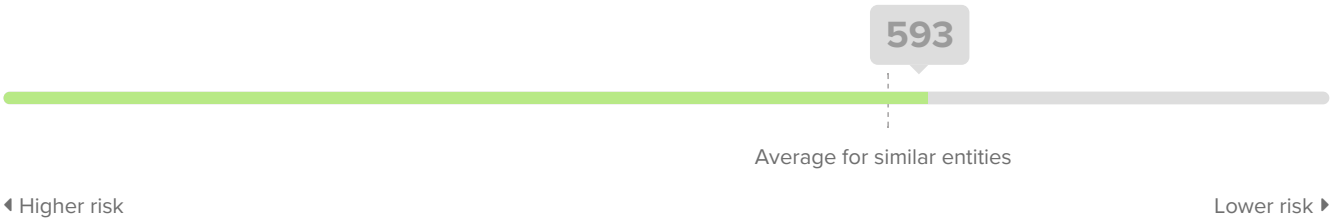
RiskScore summary

Entity has a **1.5% to 2.5% chance of default** within the next 12 months.

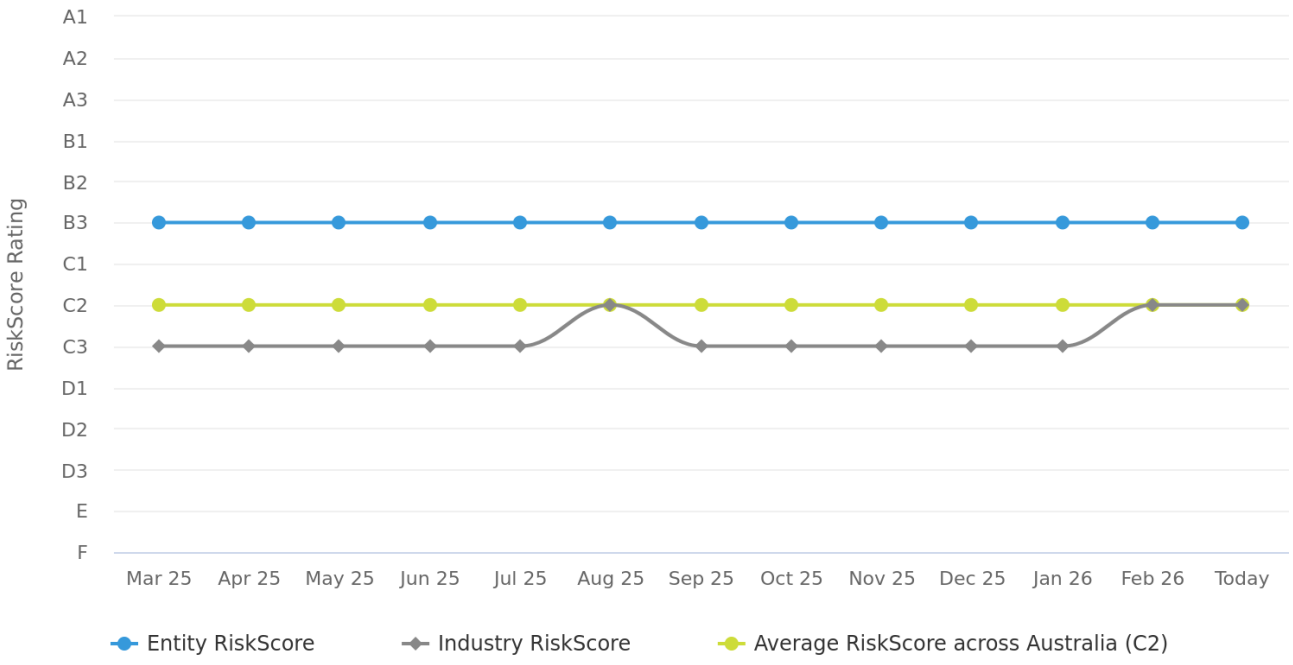
Entity currently has the aptitude to meet credit commitments. Unfavourable business, financial, or economic conditions may impair ability to meet financial commitments. Extend terms and monitor ongoing payment behaviour.

Key contributing factors

- ↓ Data relating to industry and type of the business
- ↑ Data relating to adverse risk factors
- ↑ Data relating to the size of the business



RiskScore Historical Information
Within the last 12 Months



Did you know?

- The Industry Score is based on the average score of entities within the same ANZSIC Division.
- The average RiskScore across Australia has historically been around **C2** (average default risk over the past 5 years).
- The dotted line shows a **rating band**, not a single score. Your numeric score can change within this band without moving the line.

The CreditorWatch RiskScore is the most advanced algorithm in the market and is designed to ensure you make the right decision. The RiskScore has been developed using the latest machine learning techniques in combination with CreditorWatch's extensive data. The CreditorWatch RiskScore should be used in partnership with your internal credit procedures and policies.

What is "probability of default"?
This is the likelihood that an entity will NOT be able to meet their financial commitments in the next 12 months eg: pay an invoice.

Score Recommendations

RiskScore Rating	Risk Level	Recommendation
A1, A2, A3	Very Low	Very strong credit quality based on behavioural and business demographics. Likelihood of default or insolvency is considered very low. Extend terms within consideration.
B1, B2	Low	Strong credit quality based on behavioural and business demographics. Likelihood of default or insolvency is considered very low. Extend terms within consideration.
B3, C1	Neutral	Lower than average default risk for an Australian business. Business demographics and behaviours indicative of low likelihood of default or insolvency in the short to medium term. Extend terms and monitor ongoing payment behaviour.
C2	Acceptable	Average default risk for an Australian business. Standard underwriting criteria and due diligence recommended prior to extending credit. Extend terms, closely monitor ongoing payment behaviour.
C3	Potential Risk	Behaviours and business demographics may indicate increased risk for some businesses in this group. Assessment of the entity's financial position and cashflow is recommended prior to extending material unsecured credit.
D1, D2, D3	High	Risk of default or insolvency is significantly higher than the average for Australian businesses. COD trading highly recommended.
E	Impaired	Entity is highly vulnerable to default or insolvency in the short term.
F	Defaulted	One or more creditors has initiated legal proceedings or other significant actions in response to unpaid debt obligations, or the entity is entering or has entered insolvency.

Please note that the rating and recommendation should be used in partnership with your company's internal credit procedures and policies. The rating should not be used as the sole reason in making decision about the entity.

What are contributing factors?

How it works

A contributing factor is a datapoint that determines the risk profile of a company. It could indicate a negative or positive impact on a business's ability to continue trading.

↑ The contributing factor drove the entity's RiskScore in a positive direction
↓ The contributing factor drove the entity's RiskScore in a negative direction

Contributing factors that could affect RiskScores

- Data on the registration or location of the business
  Businesses that have been established for a longer period of time, or have operated in the same location longer, tend to be less risky
- Data from invoices or aged trial balances
  Businesses that pay their invoices on time tend to be less risky
- Data relating to the size of the business
  Larger businesses tend to be less risky
- Data relating to important cross directorships
  Businesses without important director behaviour tend to be less risky
- Data relating to adverse risk factors
  Businesses without traditional credit risk drivers such as ASIC published notices or court judgments tend to be less risky
- Data relating to industry and type of the business
  Some industries or business types are more risky than others

Credit enquiries provide an indication of the number of times an entity's credit file has been accessed. For credit enquiries performed in the last 12 months, the date of the enquiry and the industry of the business, sole trader or individual performing the credit enquiry is detailed in the graph and table.

Risk Data

Court Actions

Court Details	Plaintiff	Action	Nature of the Claim	Amount

No Court Actions

CreditorWatch aggregate data from courts around Australia to provide a summary of court actions against an entity. When available, details of the action include location, case number, state, plaintiff, nature of the claim, action type and dollar amount.

Payment Defaults

Added	Invoice Due	Submitted By	Amount	Status

No Payment Defaults Lodged

A default indicates that the debtor has failed to make a payment for goods or services. Payment Defaults are unique to CreditorWatch and can have one of three statuses: outstanding, partial payment or settled.

Tax Defaults

Date Added	Date Updated	Submitted By	Status	Amount

No Tax Defaults Lodged

A tax default indicates that a business has overdue tax payments and has failed to respond to a notice of disclosure by The Australian Taxation Office (ATO). Tax defaults are only lodged on debts that are over 90 days overdue and are over a value of $100,000.

Mercantile Enquiries

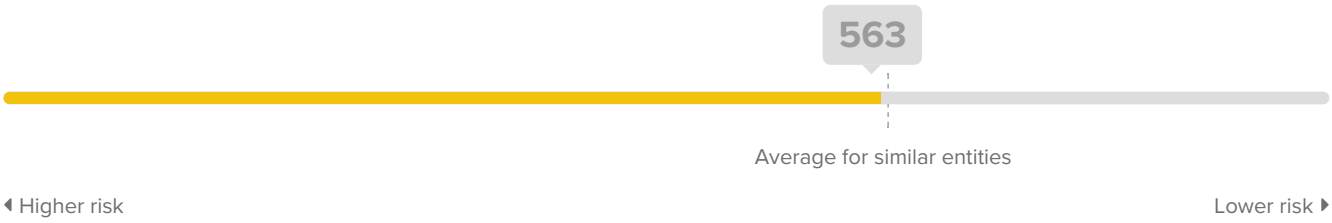
RiskScore summary

Entity has a **6.0% to 7.0% chance of default** within the next 12 months.

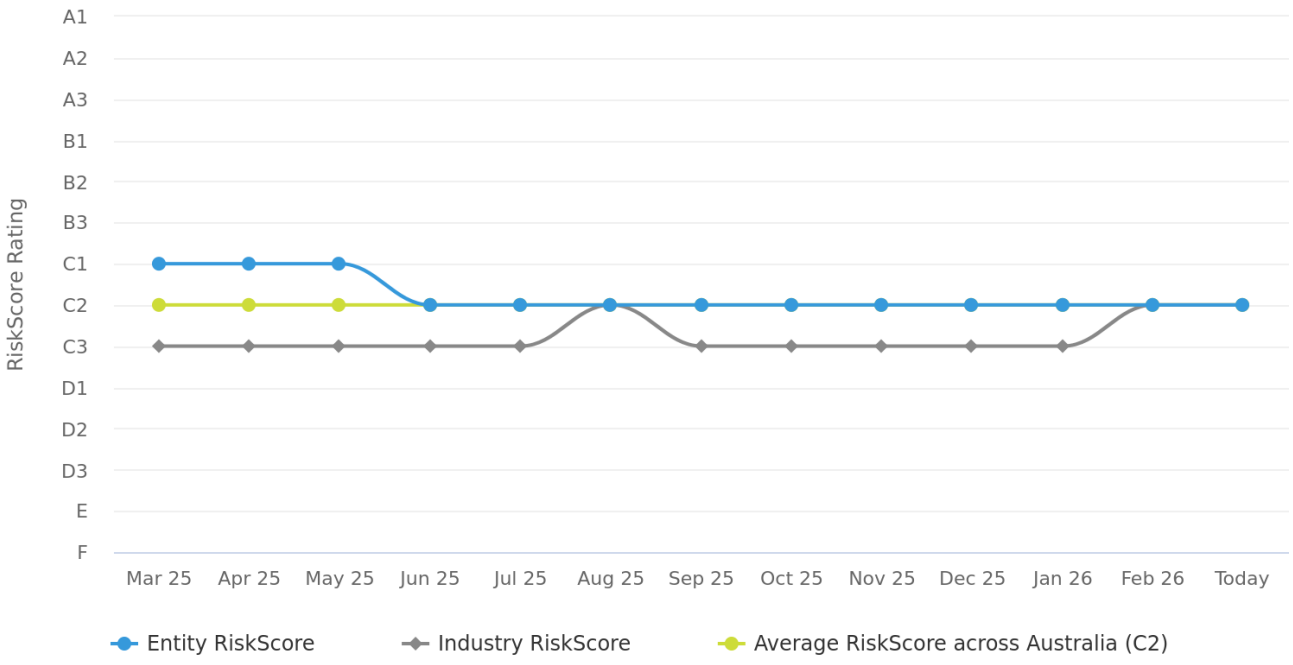
Entity has an adequate aptitude to meet credit commitments. Unfavourable business, financial, or economic conditions will likely impair the capacity or willingness to meet financial commitments. Extend terms, closely monitor ongoing payment behaviour.

Key contributing factors

- ↓ Data relating to industry and type of the business
- ↑ Data relating to adverse risk factors
- ↓ Data from invoices or aged trial balances



RiskScore Historical Information
Within the last 12 Months



Did you know?

- The Industry Score is based on the average score of entities within the same ANZSIC Division.
- The average RiskScore across Australia has historically been around **C2** (average default risk over the past 5 years).
- The dotted line shows a **rating band**, not a single score. Your numeric score can change within this band without moving the line.

The CreditorWatch RiskScore is the most advanced algorithm in the market and is designed to ensure you make the right decision. The RiskScore has been developed using the latest machine learning techniques in combination with CreditorWatch's extensive data. The CreditorWatch RiskScore should be used in partnership with your internal credit procedures and policies.

What is "probability of default"?
This is the likelihood that an entity will NOT be able to meet their financial commitments in the next 12 months eg: pay an invoice.

Score Recommendations

RiskScore Rating	Risk Level	Recommendation
A1, A2, A3	Very Low	Very strong credit quality based on behavioural and business demographics. Likelihood of default or insolvency is considered very low. Extend terms within consideration.
B1, B2	Low	Strong credit quality based on behavioural and business demographics. Likelihood of default or insolvency is considered very low. Extend terms within consideration.
B3, C1	Neutral	Lower than average default risk for an Australian business. Business demographics and behaviours indicative of low likelihood of default or insolvency in the short to medium term. Extend terms and monitor ongoing payment behaviour.
C2	Acceptable	Average default risk for an Australian business. Standard underwriting criteria and due diligence recommended prior to extending credit. Extend terms, closely monitor ongoing payment behaviour.
C3	Potential Risk	Behaviours and business demographics may indicate increased risk for some businesses in this group. Assessment of the entity's financial position and cashflow is recommended prior to extending material unsecured credit.
D1, D2, D3	High	Risk of default or insolvency is significantly higher than the average for Australian businesses. COD trading highly recommended.
E	Impaired	Entity is highly vulnerable to default or insolvency in the short term.
F	Defaulted	One or more creditors has initiated legal proceedings or other significant actions in response to unpaid debt obligations, or the entity is entering or has entered insolvency.

Please note that the rating and recommendation should be used in partnership with your company's internal credit procedures and policies. The rating should not be used as the sole reason in making decision about the entity.

What are contributing factors?

How it works

A contributing factor is a datapoint that determines the risk profile of a company. It could indicate a negative or positive impact on a business's ability to continue trading.

↑ The contributing factor drove the entity's RiskScore in a positive direction
↓ The contributing factor drove the entity's RiskScore in a negative direction

Contributing factors that could affect RiskScores

- Data on the registration or location of the business
  Businesses that have been established for a longer period of time, or have operated in the same location longer, tend to be less risky
- Data from invoices or aged trial balances
  Businesses that pay their invoices on time tend to be less risky
- Data relating to the size of the business
  Larger businesses tend to be less risky
- Data relating to important cross directorships
  Businesses without important director behaviour tend to be less risky
- Data relating to adverse risk factors
  Businesses without traditional credit risk drivers such as ASIC published notices or court judgments tend to be less risky
- Data relating to industry and type of the business
  Some industries or business types are more risky than others

Minutes of the Concurrent First Meeting of Creditors of the Companies held virtually via Microsoft Teams on 23 March 2026 at 3:00PM AEDT

---

1 Present

See attached attendance and observer registers.

2 Opening and introduction

Tim Mableson, one of the joint and several Administrators of the Companies, introduced himself and opened the meeting at 3:03PM (AEDT).

Tim Mableson welcomed those in attendance at the meeting and introduced the KPMG staff member assisting with the voluntary administration, Claire Muecke.

Claire Muecke called the attendance register and advised all people who had registered to attend the meeting virtually were in attendance.

Claire Muecke noted that the following people were in attendance as observers:

- Luke Sayer, representing Jobs Tasmania
- Lowri Jones, an employee of Nichols Poultry Pty Ltd
- Paul Jensz, a director of certain of the Companies
- Darren Richardson, a contract grower to Nichols Poultry Pty Ltd
- Veronica Shilling, representing Dulverton Regional Waste Management Authority
- Christina Henning, representing Ridley Agriproducts Pty Ltd

3 Chairperson

Tim Mableson advised that he would act as Chairperson of the meeting in accordance with Insolvency Practice Rules (Corporations) 2016 (**IPR**) 75-50.

4 General Housekeeping

The Chairperson ran through some general housekeeping which included the following points.

– All attendees remain on mute, and that time would be allocated to questions from creditors during the meeting.
– The chat function or 'raise hand' function on Microsoft Teams could be used to ask a question.
– Creditors should state their full name and the creditor they represent.

5 Agenda and procedural administration

The Chairperson outlined the agenda for the meeting as follows:

– To provide background and an update to creditors on the progress of the voluntary administration to date.
– To consider the resolutions set out in the Notice of Meeting dated 12 March 2026.
– Facilitate questions from creditors.

The Chairperson noted that:

– Meeting minutes will be prepared and lodged with ASIC.
– The Chairperson was using the “raise hand” function on Microsoft Teams for voting by show of hands for any resolution put forward during the meeting unless a poll was requested.

6 Attendance register

The Chairperson advised that the attendance of creditors and observers was being recorded by Claire Muecke, and a complete attendance register would be prepared and lodged with the minutes of the meeting.

The Chairperson noted the following for the purpose of the meeting:

- 4 general proxies for TasFoods Limited had been received, with one listing the Chairperson as the proxy holder.
- 8 general proxies for Nichols Poultry Pty Ltd had been received, with two listing the Chairperson as the proxy holder.
- 4 general proxies for Nichols Hatchery Pty Ltd had been received, with two listing the Chairperson as the proxy holder.
- 2 proxies for Tasmanian Food Co Dairy Pty Ltd had been received, with two listing the Chairperson as the proxy holder.
- 2 proxies for JJJBSM Pty Ltd had been received, with two listing the Chairperson as the proxy holder.
- 1 proxy for Van Diemen’s Land Pty Ltd had been received, listing the Chairperson as the proxy holder.

7 Quorum

The Chairperson tabled the attendance register and advised that a quorum, in accordance with IPR 75-105, was present for all entities. The Chairperson made note of Van Diemen’s Land Pty Ltd having only one creditor, and as that creditor was in attendance, a quorum was achieved.

8 Notice of meeting

The Chairperson advised that the meeting had been called in accordance with the notice of meeting dated 12 March 2026, the meeting having been advertised on the Australian Securities & Investments Commission (**ASIC**) Insolvency Notices on 12 March 2026 in accordance with IPR 75-40.

9 Convening the meeting

The Chairperson advised that, in accordance with IPR 75-30, the meeting was being held at a date, time and place convenient to the majority of persons entitled to receive notice of the meeting.

10 Purpose of the meeting

The Chairperson advised that the purpose of the meeting was to determine:

– Whether to appoint a Committee of Inspection and, if so, who are to be the Committee members.
– Confirm the appointment of the Administrators.
– Any other business.

11 Declaration of Independence, Relevant Relationships and Indemnities (DIRRI)

The Chairperson noted that:

(a) A copy of the DIRRI had been provided to creditors with the Notice of Meeting.

(b) There has been no change to the DIRRI since the date the Administrators signed it.

12 Tabling of Documents

The Chairperson noted the following documents as tabled at the meeting would be taken as having been read. If required, copies of these documents would be available for inspection:

- The Instrument of Appointment of Joint and Several Voluntary Administrators dated 11 March 2026.
- The Notice of the Meeting of Creditors dated 12 March 2026 which was forwarded to all known creditors and employees of the Companies.
- The First Circular to Creditors dated 12 March 2026 which was forwarded to all known creditors and employees of the Companies.
- The Combined Notice of Appointment and First Creditors Meeting as it appeared on the ASIC Insolvency Notices website on 12 March 2026.

13 Role of Voluntary Administrators

The Chairperson outlined the role of the Administrators including:

- The primary objective of the voluntary administration process being to maximise the chances of the Companies' business (or as much of the business as possible) continuing as a going concern and, if that is not possible, to achieve a better return to creditors than would result from an immediate winding up of the Companies.
- The voluntary administration process is a protection mechanism where an independent party is appointed to displace the powers of the Directors and take control of the Companies.
- The role of the Administrators is twofold:
  1) Investigate the Companies' circumstances and affairs in the period prior to the Administrators' appointment and report to creditors on those investigations; and
  2) Assess options to resolve the Companies' financial position, including via a sale or Deed of Company Arrangement (**DOCA**).
- The first creditors meeting was required to be held within eight business days of the appointment of Administrators. The purpose of this meeting is for creditors to decide whether to appoint a Committee of Inspection and, if so desired, consider the replacement of Administrators.
- The second creditors meeting is the meeting which will decide the future of the Companies. The Administrators may consider there is merit in extending the convening period by application to Court and if so, creditors will be advised of same.
- There are three outcomes which creditors can vote on at the second creditors meeting:
  1. To execute a DOCA (should one be proposed);
  2. That the voluntary administration(s) should end; or
  3. That the Companies be placed in liquidation.

14 Progress report of the Administrators

The Chairperson spoke to a slide deck presented to the creditors, outlining the following key topics:

- An update on work undertaken by the Administrators to date.
- An update on the business sale campaign.
- The Administration process moving forward.

The Chairperson advised creditors p[resent at the meeting that the Administrators current intention is to make an application to Court for the convening period for the second meeting of creditors to be extended. The Administrator advised that the purpose of this is to ensure enough time to undertake an appropriate sale of business process and/or in the alternative an orderly wind down process with the interests of staff and animal welfare front of mind whereby the moratorium afforded by the voluntary administration is preserved.

The Chairperson asked whether any creditors present at the meeting had any objections to the Administrators making an application to Court to extend the convening period. No objection was raised by any creditor present at the meeting.

15 Questions from creditors

The meeting was then opened for questions.

There were no questions from creditors.

16 Resolutions

The Chairperson advised that pursuant to IPR 75-110(1) and IPR 75-75(3), votes taken at virtual meetings must be taken:

– on a poll if:

  (a) The notice of meeting specifies that votes taken at the meeting must be taken on a poll; or

  (b) A poll is requested by the person presiding at the meeting or by a person participating and entitled to vote at the meeting; or

– otherwise, on a show of hands using electronic mechanisms (including clicking a raise hand or similar button on a virtual meeting computer program or by verbally indicating how a creditor wishes to vote if dialling in to the meeting on the telephone)

The Chairperson advised that a resolution by poll is carried if:

– A majority of creditors voting (whether in person, by attorney or by proxy) vote in favour; and
– The value of the debts owed by the corporation to those voting in favour is more than half the total debts owed to all creditors voting (IPR 75-115).

As a poll was not requested by creditors, the Chairperson proceeded with the meeting on the basis that a show of hands via electronic mechanisms would be used for voting purposes.

17 Voting and use of casting vote

The Chairperson noted that:

– In accordance with IPR 75-115, the Chairperson may exercise a casting vote if no result is reached for or against. The Chairperson's decision to exercise this vote is subject to review by the Court upon application by a creditor (Sections 75-42 and 75-43 of Schedule 2 to the Act).
– A secured creditor may vote with respect to the whole of its debt or claim, without being required to estimate the value of its security (IPR 75-87).
– The Administrators will abstain from exercising any general proxies in his/her favour to vote on any resolutions where the Administrators have any financial interest in the outcome of the resolution.
– A related party is permitted to vote as a creditor at the meeting, provided its claim has been admitted by the Administrators for the purposes of voting (IPR 75-100).
– Where a debt claimed by a related creditor (within the meaning of Section 75-41(4) of Schedule 2 to the Act) has been assigned to that related creditor, the value for the purposes of voting is to be determined by taking the value of the assigned debt to be equal to the value of the consideration given by the related creditor for the assignment of the debt (IPR 75-110(7)).
– Proofs of debt have been admitted in full for voting purposes at this meeting only.

18 Committee of Inspection (COI)

The Chairperson advised creditors have a right to appoint a Committee of Inspection for the Companies pursuant to Insolvency Practice Schedule (Corporations) IPS 80-10.

The Chairperson advised a Committee of Inspection is not paid, it is a voluntary process and the functions of the COI are:

- To advise and assist the external administrator of the Companies.
- To give directions to the external administrator of the Companies.
- To monitor the conduct of the external administrator of the Companies.
- Such other functions as are conferred on the committee by the Corporation Act.
- To do anything incidental or conducive to the performance of any of the above functions.

The Chairperson advised creditors that Section 80-55 of Schedule 2 of the Act provides that a member of a COI must not directly or indirectly derive any profit or advantage from the external administration of the Companies unless creditors resolve otherwise. Section 80-55(2) of Schedule 2 of the Act provides that a member of a COI is taken to derive a profit or advantage from the external administration of the Companies if:

- the member directly or indirectly derives a profit or advantage from a transaction (including a sale or purchase) entered into for or on account of the Companies; or
- the member directly or indirectly derives a profit or advantage from a creditor of the Companies; or
- a related entity of the member directly or indirectly derives a profit or advantage from the administration of the Companies.

In the event that the Administrators enter(s) into any transaction with a member of the COI that may result in that member deriving a profit or advantage from the external administration of the Companies, it will be necessary for creditors to consider a separate resolution to consent to that arrangement.

The Chairperson did not recommend the establishment of a COI for Nichols Hatchery Pty Ltd, TasFoods Limited, Tasmanian Food Co Dairy Pty Ltd, JJJBSM Pty Ltd or Van Diemen's Land Pty Ltd, as in his view, it would create additional cost and unnecessary administrative burden. The Chairperson advised that, notwithstanding the above, he is required to put to the creditors an option to appoint a COI even though no nominations had been received for a COI prior to the meeting. The Chairperson asked the meeting for any nominations. No nominations were forthcoming and therefore no COI would be formed for these five companies.

The Chairperson advised that he recommended the formation of a COI for Nichols Poultry Pty Ltd and that he had received two nominations for the COI from the following attendees:

- James White of Ridley Agriproducts Pty Ltd; and
- Cody Townend of Tasmanian Irrigation.

The Chairperson advised that ideally, three members would form the COI. He then called for nominations.

Michael Leahy of Aviagen Australia Pty Limited advised that he wished to nominate as a member of the COI.

The Chairperson thanked Michael for his nomination and proposed the following resolution:

"That the COI be appointed for Nichols Poultry Pty Ltd and comprised of James White representing Ridley Agriproducts Pty Ltd, Cody Townend representing Tasmanian Irrigation and Michael Leahy representing Aviagen Australia Pty Ltd"

Creditors of Nichols Poultry Pty Ltd then voted and based on the vote the Chairperson declared the resolution passed unanimously.

The Chairperson advised that each of the members of the COI were representing creditors who would remain as suppliers to Nichols Poultry Pty Ltd during the voluntary administration. To avoid any perception that any of the creditors represented on the COI for Nichols Poultry Pty Ltd might be directly or indirectly deriving any profit or advantage from the external administration of the Companies, the Chairperson proposed the following resolution for creditors to resolve:

"That, pursuant to Section 80-55(3) of Schedule 2 to the Act, creditors authorise members of the COI appointed on 23 March 2026 to enter into the transactions set out in the nomination forms tabled at this meeting or otherwise disclosed to this meeting."

Creditors of Nichols Poultry Pty Ltd then voted and based on the vote the Chairperson declared the resolution passed unanimously. The Chairperson did note that the COI members, James White, Cody Townend and Michael Leahy abstained from voting on the resolution at the request of the Chairperson.

19 Appointment of Administrators

The Chairperson advised that pursuant to an Instrument of Appointment dated 11 March 2026, Tim Mableson, Emily Seeckts and David Hardy were appointed joint and several Voluntary Administrators of the Companies.

The Chairperson advised that pursuant to Section 90-35 of Schedule 2 to the Corporations Act 2001, creditors may, by resolution, appoint someone else as administrators of the Companies.

The Chairperson noted that there were no nominations received prior to the meeting for an alternate administrator. The Chairperson asked the meeting for any nominations. No nominations were forthcoming and therefore the Chairperson announced that the Administrators appointment stands.

20 Closure of meeting

There being no further business, or questions from attendees, the Chairperson thanked those present for attending and advised that a further meeting would be held to receive the Administrators' report as to the Companies' business, property, affairs and financial circumstances, and resolve:

- Whether the Companies should execute a Deed of Company Arrangement; or
- Whether the administrations should come to an end; or
- Whether the Companies should be wound up.

The Chairperson advised the next communication creditors would receive from the Administrators would be advising the application to extend the convening period.

The Chairperson declared the meeting closed at 3:45PM AEDT.

Signed as a correct record.

Minutes of the Concurrent Second Meeting of Creditors of the Companies held virtually via Microsoft Teams on 24 April 2026 at 2:00PM AEST.

---

1 Present

See attached attendance and observer registers.

2 Opening and introduction

Tim Mableson one of the joint and several Administrators of the Companies, introduced himself and opened the meeting at 2:00PM (AEST).

Tim Mableson welcomed those in attendance at the meeting and introduced the KPMG staff member assisting with the voluntary administration, Claire Muecke.

3 Chairperson

Tim Mableson advised that he would act as Chairperson of the meeting in accordance with Insolvency Practice Rules (Corporations) 2016 (**IPR**) 75-50.

4 Agenda and procedural administration

The Chairperson outlined the agenda for the meeting as follows:

– To vote on the resolutions in relation to the Companies, including in relation to the future of the Companies.
– Allow questions from creditors.

The Chairperson noted that meeting minutes will be prepared and lodged with ASIC once the meeting had concluded.

5 Attendance register

The Chairperson advised that a complete attendance register would be prepared and lodged with the minutes of the meeting.

The Chairperson noted the following for the purpose of the meeting:

- 2 special proxies for JJJBSM Pty Ltd had been received appointing the Chairperson.
- 3 special proxies for Tasmanian Food Co Dairy Pty Ltd had been received appointing the Chairperson.
- 1 special proxy for Van Diemen's Land Dairy Pty Ltd had been received, appointing the Chairperson.

6 Quorum

The Chairperson tabled the attendance register and advised that a quorum, in accordance with IPR 75-105, was present for the meeting of all three Companies. This included in the case of Van Diemen's Land Dairy Pty Ltd, which has only one creditor. As that creditor was in attendance, a quorum was achieved for Van Diemen's Land Dairy Pty Ltd.

7 Notice of meeting

The Chairperson advised that the meeting had been called in accordance with the notice of meeting dated 16 April 2026, the meeting having been advertised on the Australian Securities & Investments Commission (**ASIC**) Insolvency Notices on 16 April 2026 in accordance with IPR 75-40.

8 Convening the meeting

The Chairperson advised that, in accordance with IPR 75-30, the meeting was being held at a date, time and place convenient to the majority of persons entitled to receive notice of the meeting.

9 Purpose of the meeting

The Chairperson advised that this was the second meeting of creditors held for each of the Companies since the appointment of the Administrators.

The Chairperson explained that the purpose of the meeting was to enable creditors to resolve the future of the Company.

In this regard, the Chairperson confirmed to creditors that pursuant to Section 439C of the Act, creditors may resolve either of the following concerning the Companies:

- That the Companies should execute a DOCA; or
- That the Administration should end (in which case, control of the Companies' affairs would be handed back to the directors); or
- That the Companies be wound up and thereby placed into liquidation.

The Chairperson advised that as no DOCA had been proposed for the Companies, his recommendation was that the Companies should be wound up.

10 Tabling of Documents

The Chairperson noted the following documents tabled at the meeting would be taken as having been read. If required, copies of these documents were available for inspection by creditors:

- The Combined Notice of Meeting as it appeared on the ASIC Insolvency Notices website on 16 April 2026;
- The Voluntary Administrators' Report dated 16 April 2026;
- DIRRI dated 12 March 2026; and
- The meeting attendance register.

11 Questions from creditors

There were no questions from creditors.

12 Resolutions

The Chairperson advised that pursuant to IPR 75-110(1) and IPR 75-75(3), votes taken at a virtual meeting must be taken:

– on a poll if:

  (a) The notice of meeting specifies that votes taken at the meeting must be taken on a poll; or

  (b) A poll was requested by the person presiding at the meeting or by a person participating and entitled to vote at the meeting; or

– otherwise, on a show of hands using electronic mechanisms.

The Chairperson advised that a resolution by poll was carried if:

– A majority of creditors voting (whether in person, by attorney or by proxy) vote in favour; and
– The value of the debts owed by the corporation to those voting in favour was more than half the total debts owed to all creditors voting (IPR 75-115).

13 Voting and use of casting vote

The Chairperson noted that:

– In accordance with IPR 75-115, the Chairperson may exercise a casting vote if no result was reached for or against a resolution. The Chairperson's decision to exercise a casting vote was subject to review by the Court upon application by a creditor (Sections 75-42 and 75-43 of Schedule 2 to the Act).
– The Chairperson would abstain from exercising any general proxies in his favour to vote on any resolutions where the Administrators have any financial interest in the outcome of the resolution.
– A related party was permitted to vote as a creditor at the meetings, provided its claim had been admitted by the Administrators for the purposes of voting (IPR 75-100).
– Proofs of debt have been admitted in full for voting purposes where the amounts claimed agree to the Company’s records, or where additional documentation was provided by the creditor to support their claim.

The Chairperson outlined the procedure for voting during the meetings; being that for each proposed resolution:

- The Chairperson will read out the special proxies received;
- Claire Muecke would record and tally votes; and
- The Chairperson would declare the outcome of the poll to the meetings.

14 JJJBSM Pty Ltd Resolutions

It was proposed by the Chairperson:

"That JJJBSM Pty Ltd be wound up and Timothy David Mableson be appointed Liquidator."

The results of the voting were as follows:

Vote	Creditor Value ($)	Creditor No.
For	2,728,580.55	2
Against	0.00	0
Abstain	0.00	0

The resolution was declared passed unanimously by special proxies held in favour of the Chairperson.

The Chairperson advised that as no proposals had been received for an alternative Liquidator, the creditors resolution stands and Tim Mableson will be appointed as the liquidator.

15 Van Diemen's Land Dairy Pty Ltd Resolutions

It was proposed by the Chairperson:

"That Van Diemen's Land Dairy Pty Ltd be wound up and Timothy David Mableson be appointed Liquidator."

The results of the voting were as follows:

Vote	Creditor Value ($)	Creditor No.
For	3,899,407.37	1
Against	0.00	0
Abstain	0.00	0

The resolution was declared passed unanimously by special proxies held in favour of the Chairperson.

The Chairperson advised that as no proposals had been received for an alternative Liquidator, the creditors resolution stands and Tim Mableson will be appointed as the liquidator.

16 Tasmanian Food Co Dairy Pty Ltd Resolutions

It was proposed by the Chairperson exercising a special proxy:

"That the remuneration of the Administrators of Tasmanian Food Co Dairy Pty Ltd (Administrators Appointed), as set out in the Remuneration Approval Request dated 16 April 2026 for the period from 11 March 2026 to the finalisation of the Voluntary Administration be fixed up to a maximum amount of $20,000.00 plus any applicable GST, but subject to upward revision by resolution of creditors and that the Administrators be authorised to make periodic payments on account of such accruing remuneration as incurred."

The results of the voting were as follows:

Vote	Creditor Value ($)	Creditor No.
For	2,000.00	1
Against	0.00	0
Abstain	1,835,861.83	2

The resolution was declared passed unanimously by a special proxy held in favour of the Chairperson. The Chairperson did not exercise but rather abstained from voting using the general proxies held.

It was proposed by the Chairperson:

"That Tasmanian Food Co Dairy Pty Ltd be wound up and Timothy David Mableson be appointed Liquidator."

The results of the voting were as follows:

Vote	Creditor Value ($)	Creditor No.
For	1,835,188.97	1
Against	0.00	0
Abstain	2,672.86	2

The resolution was declared passed unanimously by a special proxy held in favour of the Chairperson. The Chairperson did not exercise but rather abstained from voting using the general proxies held.

The Chairperson advised that as no proposals had been received for an alternative Liquidator, the creditors resolution stands and Tim Mableson will be appointed as the liquidator.

17 Closure

There being no further business, the meeting was closed at 2:30pm (AEST).

Plaintiff

ORDER

REGISTRAR: Registrar Parkyn

DATE OF ORDER: 14 April 2026

WHERE MADE: Adelaide

THE COURT ORDERS THAT:

1. In these orders, TasFoods Limited (Administrators Appointed) ACN 084 800 902, Nichols Hatchery Pty Ltd (Administrators Appointed) ACN 671 683 284 and Nichols Poultry Pty Ltd (Administrators Appointed) ACN 092 929 890 are referred to collectively as "**the Companies**".
2. Pursuant to subsection 439A(6) of the *Corporations Act 2001* (Cth) (**the Act**), the period within with the First Plaintiffs must convene the second meeting of creditors of the Companies pursuant to section 439A of the Act (**Convening Period**) be extended up to and including 17 October 2026.
3. Pursuant to subsection 447A(1) of the Act, Part 5.3A of the Act is to operate in relation to the Companies so that, notwithstanding section 439A(2) of the Act, the second meeting of creditors of the Companies pursuant to section 439A of the Act may be convened at any time before, or within five (5) business days after, the end of

the Convening Period as extended by the Court, provided that the First Plaintiffs give notice of the meetings to eligible creditors of the Companies (including the persons claiming to be creditors of the Companies) at least five (5) business days before the meeting.

4. Pursuant to s 447A(1) of the Act, that Part 5.3A of the Act is to operate such that the requirement on the First Plaintiffs, pursuant subsection 75-225(1) and 75-15 of the *Insolvency Practice Rules (Corporations) 2016* (Cth) (**the IPR**), to issue notices of the meeting of creditors of the Companies under s 439A(1) of the Act (**the Notice**) will be satisfied by reason of the following steps having been taken at least five (5) business days before the meeting:
    a. where the First Plaintiffs:
        i. have an email address for a creditor, by sending the Notice by email to each such creditor;
        ii. do not have an email address for a creditor but have a postal address for the creditor, by sending the Notice by posting a copy of it to the postal address for each such creditor;
        iii. do not have an email address for a creditor or a postal address, by sending or communicating the Notice to the creditor in any other way provided for by the Act or the IPR; and
    b. by causing the Notice to be published on the Australian Securities and Investments Commission (**ASIC**) published notices website at https://insolvencynotices.asic.gov.au.
5. By 17 April 2026, the First Plaintiffs are to provide notice of these orders to:
    a. All creditors of the Companies (including the persons claiming to be creditors of the Companies):
        i. in the manner prescribed by subparagraph 4(a) above; and
        ii. by publishing a notice on the KPMG website at https://kpmg.com/au/en/creditors/tasfoods.html; and
    b. ASIC.
6. That liberty be granted:

a. to the Plaintiffs to apply in respect of any further extensions or variation to the Convening Period at any time before that period expires. Any such application is to be supported by affidavit; and

b. to any person claiming to be interested, including any creditor of the Companies (including a person claiming to be creditors of the Companies) and ASIC, to make any application as they may be advised to vary or discharge these orders on three (3) business days' notice to the Plaintiffs and to the Court.

7. An order that the First Plaintiffs' costs of and incidental to this application be costs and expenses in the administration of the Companies and be paid out of the assets of the Companies.

Date orders authenticated: 14 April 2026

Registrar

Note: Entry of orders is dealt with in Rule 39.32 of the *Federal Court Rules 2011*.

Subsection 35A (5) of the *Federal Court of Australia Act 1976* (the ***Act***) provides that a party to proceedings in which a Registrar has exercised any of the powers of the Court under subsection 35A (1) of the Act may, within the time prescribed by the Rules of Court, or within any further time allowed in accordance with the Rules of Court, apply to the Court to review that exercise of power.

Rule 3.11 provides that a party may apply to the Court under subsection 35A (5) of the Act for review of the exercise of a power of the Court by a Registrar and that any application must be made within 21 days after the day on which the power was exercised. A party seeking a review can apply to the Court to dispense with any requirement of the Rules (Rule 1.34).

---

1 Present

See attached attendance and observer registers.

2 Opening and introduction

Tim Mableson one of the joint and several Administrators of the Companies, introduced himself and opened the meeting at 12:30pm (AEST).

Tim Mableson welcomed those in attendance at the meeting and introduced the KPMG staff members assisting with the voluntary administration, Claire Muecke and Alistair Sarah. Tim Mableson also advised that Wendy Jones and Emmalee Pacillo of HWL Ebsworth Lawyers were in attendance as they have been advising the Administrators.

3 Chairperson

Tim Mableson advised that he would act as Chairperson of the meeting in accordance with Insolvency Practice Rules (Corporations) 2016 (**IPR**) 75-50.

4 General Housekeeping

The Chairperson ran through some general housekeeping which included the following points.

– All attendees remain on mute, and that time would be allocated to questions from creditors during the meeting.
– The chat function or 'raise hand' function on Microsoft Teams could be used to ask a question.
– Creditors should state their full name and the creditor they represent.

5 Agenda and procedural administration

The Chairperson outlined the agenda for the meeting as follows:

– To provide background and an update to creditors on the progress of the voluntary administration to date.
– Allow questions from creditors.
– To vote on the resolutions in relation to the Companies, which included whether the Companies should execute a DOCA in accordance with the proposal received and reported to creditors.

The Chairperson noted that meeting minutes will be prepared and lodged with ASIC.

6 Attendance register

The Chairperson advised that the attendance of creditors and observers was being recorded by Claire Muecke, and a complete attendance register would be prepared and lodged with the minutes of the meeting.

The Chairperson noted the following proxies had been received for creditors to be represented and/or attend this meeting:

7 Quorum

The Chairperson tabled the attendance register and advised that a quorum, in accordance with IPR 75-105, was present for the meetings of Nichols Poultry Pty Ltd, Nichols Hatchery Pty Ltd, and TasFoods Limited.

8 Notice of meeting

The Chairperson advised that the meeting had been called in accordance with the notice of meeting dated 21 May 2026, and the meeting having been advertised on the Australian Securities & Investments Commission (**ASIC**) Insolvency Notices in accordance with IPR 75-40.

9 Convening the meeting

The Chairperson advised that, in accordance with IPR 75-30, the meeting was being held at a date, time and place convenient to the majority of persons entitled to receive notice of the meeting.

10 Purpose of the meeting

The Chairperson explained that the purpose of the meeting was to enable creditors to discuss and consider the Voluntary Administrators' Report to creditors and resolve the future of the Companies.

The Chairperson advised that pursuant to IPR 75-225 and Sections 438A and 439A of the Act, the Administrators are required to report to creditors and form an opinion on the options available to the creditors of the Company and what option they believe to be in creditors' best interests.

In this regard, the Chairperson confirmed to creditors that pursuant to Section 439C of the Act, creditors may resolve either of the following concerning each of the Companies:

- That each of the Companies should execute a DOCA; or
- That the Administration of each of the Companies should end (in which case, control of each company would be handed back to the respective directors); or
- That each of the Companies be wound up and thereby placed into liquidation.

The Chairperson advised that in accordance with the report issued to creditors on 21 May 2026, the Administrators recommend that the DOCA should be accepted by creditors pf each of the Companies as it is consistent with the objective of the voluntary administration regime under section 435A(a) of the Corporations Act.

11 Tabling of Documents

The Chairperson noted the following documents had been tabled at the meeting for each of the Companies and would be taken as having been read. If required, copies of these documents would be made available for inspection by any creditor:

– The Combined Notice of Meeting as it appeared on the ASIC Insolvency Notices website on 21 May 2026;
– The Voluntary Administrators' Report dated 21 May 2026;
– DIRRI dated 12 March 2026; and
– The meeting attendance register.

12 Progress report of the Administrators

The Chairperson provided the meeting with an update on the progress of the administration since the Voluntary Administrators' Report dated 21 May 2026.

13 Questions from creditors

The Chairperson then asked whether there were any questions which creditors wished to raise and requested that these questions be directed to the Chairperson. When asking questions, attendees were asked to identify themselves and the creditors they represent for the purpose of the minutes.

There were no questions from creditors.

14 Resolutions

The Chairperson advised that pursuant to IPR 75-110(1) and IPR 75-75(3), votes taken at virtual meeting must be taken:

– on a poll if:

  (a) The notice of meeting specifies that votes taken at the meeting must be taken on a poll; or

  (b) A poll was requested by the person presiding at the meeting or by a person participating and entitled to vote at the meeting; or

– otherwise, on a show of hands using electronic mechanisms (including clicking a raise hand or similar button on a virtual meeting computer program as well as verbally indicating how a creditor wishes to vote if dialling in to the meeting on the telephone)

The Chairperson noted that by virtue of the manner in which votes are being conducted at the meeting, a poll was being conducted and the results of the poll would be shared with the meetings.

The Chairperson advised that a resolution by poll was carried if:

– A majority of creditors voting (whether in person, by attorney or by proxy) vote in favour; and
– The value of the debts owed by the corporation to those voting in favour was more than half the total debts owed to all creditors voting (IPR 75-115).

15 Voting and use of casting vote

The Chairperson noted that:

– In accordance with IPR 75-115, the Chairperson may exercise a casting vote if no result was reached for or against a resolution. The Chairperson's decision to exercise a casting vote was subject to review by the Court upon application by a creditor (Sections 75-42 and 75-43 of Schedule 2 to the Act).
– The Chairperson would abstain from exercising any general proxies in his favour to vote on any resolutions where the Administrators have any financial interest in the outcome of the resolution.

- A related party was permitted to vote as a creditor at the meetings, provided its claim had been admitted by the Administrators for the purposes of voting (IPR 75-100).
  - Proofs of debt have been admitted in full for voting purposes where the amounts claimed agree to the Company's records, or where additional documentation was provided by the creditor to support their claim.

The Chairperson outlined the procedure for voting during the meetings; being that for each proposed resolution:

- The Chairperson will read out the special proxies received;
- All general proxy holders will be asked to come off mute and state their vote;
- Claire Muecke would record and tally votes; and
- The Chairperson would declare the outcome of the poll to the meetings.

Subject to clause 12.4, a Notice is regarded as being given by the sending party and received by the receiving party:

(a) if delivered by hand to the address set out in the Notified Contact Details, when delivered to that address;

(b) if sent by regular post to the address set out in the Notified Contact Details, at 9.00am on the sixth Business Day after the date of posting; or

(c) if sent by email to the email address set out in the Notified Contact Details, when the email (including any attachment) is sent to the receiving party at that email address, unless the sending party receives a notification of delivery failure within 24 hours of the email being sent.

12.4 Time of Delivery and Receipt

If pursuant to clause 12.3 a Notice would be regarded as given and received on a day that is not a Business Day or after 5.00pm on a Business Day, then the Notice will be deemed as given and received at 9.00am on the next Business Day.

12.5 General

A party may change its contact details as set out in this deed by giving a Notice to each other party.

13. Limitation of Liability of the Deed Administrators

13.1 Limitation of Liability

The parties to this deed acknowledge and agree that in connection with the negotiation, execution and completion of this deed, the Deed Administrators are acting solely as the agent of the Licensors to the maximum extent permitted by Law:

(a) The Deed Administrators nor any representative of the Deed Administrators are personally liable under or in respect of:

(i) this deed;

(ii) the transactions contemplated by this deed;

(iii) any act, matter or thing arising out of or in connection with this deed; or

(iv) under any other agreement, instrument or document entered into, under or in connection with this deed;

(v) any Loss or Claim the Licensee may have resulting from a breach of an implied or express term of this deed or in connection with this deed, must be made solely against the Licensors; and

(b) the Licensors and the Licensee each release the Deed Administrators and each representative of the Deed Administrators from liability to the Licensors or the Licensee (as applicable) for any Loss or Claim on any ground in connection with this deed, or under any other agreement, instrument or document entered into, under or in connection with this deed.

13.2 No warranties

The Licensors and the Licensee each:

(a) acknowledge that nothing contained in this deed (expressly or by implication) or otherwise constitutes a warranty or representation by the Deed Administrators as to any matter or thing; and

(b) agrees to not sue the Deed Administrators, commence or permit to be commenced in the Licensors' or the Licensee's name or continue any proceedings of any nature whatsoever and in any way related to any matter or thing arising under this deed against the Deed Administrators.

13.3 Release from Claims

The Licensors and the Licensee each release the Deed Administrators from all Claims it may have or claim to have or, but for this release, might have had against the Deed Administrators connected with or arising out of any matter contemplated by this deed.

13.4 Benefit of warranties and acknowledgements

Notwithstanding any other provision of this deed or any applicable Law and for the avoidance of doubt:

(a) warranties and acknowledgements given in favour of the Licensors or the Licensee (as applicable) and limitations on the liability of (or the right to make a Claim against) the Licensors or the Licensee (as applicable) also apply to and for the benefit of the Deed Administrators (regardless of whether or not the Deed Administrators are expressly mentioned in that context) and the Licensors and the Licensee (as applicable) and the Deed

Administrators will be entitled to rely on each such warranty and limitation of liability (or the right to make a Claim); and

(b) the Deed Administrators may enforce any such warranty or limitation of liability (or right to make a Claim) against the Licensors or the Licensee (as applicable) in their own name or in the name and on behalf of the Licensors or the Licensee (as applicable) as they see fit.

13.5 Survival

The parties agree that the provisions of this clause 13 survive termination of this deed.

13.6 Voluntary Administration Capacity of Licensors

The parties acknowledge and agree that reference to 'Deed Administrators' in this clause 13 will be read to also include the 'Administrators' in their former capacity as Administrators of the Licensors.

14. General

14.1 No assignment, sharing of possession

The Licensee may not:

(a) assign this Licence;

(b) share the use and/or occupation of the Premises;

(c) sub-licence or part with the rights granted under this deed over the Premises or any part thereof;

(d) charge any third party a fee to allow the third party to store items or property in the Premises; or

(e) allow any other person to exercise the Licensee's rights,

without the Licensors' prior written consent, which consent may be given or refused at the Licensors' absolute discretion.

14.2 Waiver

(a) A waiver of a right, remedy or power must be in writing and signed by the party giving the waiver.

(b) A party does not waive a right, remedy or power if it delays in exercising, fails to exercise or only partially exercises that right, remedy or power.

(c) A waiver given by a party in accordance with clause 14.2(a):

(i) is only effective in relation to the particular obligation or breach in respect of which it is given and is not to be construed as a waiver of that obligation or breach on any other occasion; and

(ii) does not preclude that party from enforcing or exercising any other right, remedy or power under this deed nor is it to be construed as a waiver of any other obligation or breach.

14.3 Variation

This deed shall not be modified or varied unless in writing signed by all parties hereto.

14.4 Governing Law and Jurisdiction

This deed is governed by and is to be construed under the Laws in force in Tasmania.

14.5 Costs

Each party will bear its own legal costs, expenses and stamp duty charged hereon in respect to the execution of this deed.

14.6 Entire Agreement

This deed states all of the express terms of the agreement between the parties in respect of its subject matter. To the extent permitted by Law, this deed supersedes all prior discussions, negotiations, understandings and agreements in respect of its subject matter.

14.7 Exclusion of Implied Terms

Except as expressly provided for in this deed, all terms, conditions, warranties, guarantees and statements whether express or implied, written, oral, statutory or otherwise, are excluded, other than terms which by Law may not be excluded (including the Australian Consumer Law).

14.8 Counterparts

(a) This deed may be executed in any number of counterparts, each signed by one or more parties. Each counterpart when so executed is deemed to be an original and all such counterparts taken together constitute one document.

(b) A party that has executed a counterpart of this deed may exchange that counterpart with another party by emailing it to that other party or that other party's legal representative and, if that other party requests it, promptly delivering that executed counterpart by hand or post to that other party or that other party's legal representative. However, the validity of this deed is not affected if the party who has emailed the counterpart delays in delivering or does not deliver it by hand or by post.

14.9 Consents and Approvals

Where this deed gives the Licensors a right or power to consent or approve in relation to a matter under this deed, the Licensors may withhold any consent or approval or give consent or approval conditionally or unconditionally. The party seeking consent or approval must comply with any conditions the Licensors impose on consent or approval.

Dear Manager

TasFoods Limited (Subject to Deed of Company Arrangement) ACN 084 800 902 - Application for relief from section 606 Corporations Act 2001 (Cth)

1. Background

(a) We act for Timothy David Mableson and David Alexander Hardy (**Deed Administrators**) in their capacities as joint and several deed administrators of TasFoods Limited (Subject to Deed of Company Arrangement) ACN 084 800 902 (**TasFoods**) and its wholly owned subsidiaries Nichols Poultry Pty Ltd (Subject to Deed of Company Arrangement) ACN 092 929 890 (**Nichols Poultry**) and Nichols Hatchery Pty Ltd (Subject to Deed of Company Arrangement) ACN 671 683 284 (**Nichols Hatchery**) (together, **the Companies**) under the deed of company arrangement executed by the Companies, RAMP Tasmania Poultry Pty Ltd ACN 698 304 531 (**Deed Proponent**) and Timothy David Mableson and David Alexander Hardy and Sarah Emily Seeckts as joint and several deed administrators on 29 May 2026 (**DOCA**).

(b) The terms of the DOCA provide (amongst other things) that all of the issued shares in TasFoods (**Shares**) are to be transferred to the Deed Proponent pursuant to an order of the Court under section 444GA of the *Corporations Act 2001* (Cth) (**Act**) (**Proposed Transaction**).

(c) The purpose of this letter is to apply for relief under section 655A(1)(a) of the Act for an exemption from the takeovers provision in section 606 of the Act in respect of the Proposed Transaction contemplated by the DOCA (**Application**), in the form of the draft relief instrument at **Annexure A**.

(d) As there is no statutory exception to the takeovers prohibition in section 606 of the Act for transfers of shares pursuant to section 444GA of the Act, relief from the section 606 takeovers prohibition is sought to enable the Proposed Transaction to proceed without the Company being required to obtain shareholder approval under item 7 of section 611 of the Act.

2. Factual Background

2.1 Our clients' appointments

(a) On 11 March 2026, our clients were appointed as joint and several administrators of the Companies pursuant to section 436A of the Act.

(b) On 29 May 2026, a meeting of the creditors of the Companies was held pursuant to section 439A of the Act (**Meeting**).

(c) At the Meeting, the creditors voted in favour of the Deed Proponent's DOCA proposal. The DOCA was executed on 29 May 2026 and, upon execution of the DOCA at that time, our clients were appointed as the joint and several deed administrators of the Companies.

(d) Sarah Emily Seeckts will retire from KPMG with effect from 31 August 2026 and ceased to act as a deed administrator of the Companies on 11 August 2026 Following Ms Seeckts' cessation, Timothy David Mableson and David Alexander Hardy continue to act as joint and several Deed Administrators of the Companies and will make the Section 444GA Application in those capacities.

2.2 The Companies

(a) TasFoods was incorporated on 19 October 1998 and is an Australian food and agriculture company which, over a number of years, built a portfolio of meat, dairy and related agribusiness operations, including Nichols Poultry and Nichols Hatchery

(b) TasFoods is a public company incorporated under the Act. TasFoods listed on the Australian Securities Exchange (**ASX**) in December 1999 under the code "TFL" and currently has 387,590,566 ordinary shares on issue.

(c) Nichols Poultry and Nichols Hatchery are each 100% owned by TasFoods and together conduct the wider group’s vertically integrated meat poultry operations.

(d) As noted above, TasFoods is the ultimate holding company of Nichols Poultry and Nichols Hatchery.

(e) Nichols Poultry operates as an integrated poultry processing business, with Nichols Hatchery established as part of the supply chain to support poultry production. From approximately 2023 onwards, the wider group undertook a divestment strategy, under which a number of operating business assets were sold.

(f) Nichols Poultry is the largest Tasmanian meat poultry producer and operates its business from a facility located in Sassafras, Tasmania. Nichols Poultry is renowned as a market leader in the industry for quality, sustainability and animal welfare. Nichols Poultry's business practices include air chilled chlorine free chicken processing, onsite wind power generation and a high animal welfare standard with RSPCA accreditation.

(g) Nichols Hatchery operates a breeder and hatchery business located at Sisters Creek, Tasmania approximately 100 kilometres from the Nichols Poultry facility and supports Nichols Poultry as an end-to-end meat poultry business by supplying day-old chicks to Nichols Poultry.

(h) The Companies supply meat poultry products to a range of customers including but not limited to Coles, IGA Tasmania, PFD, Freshline Tasmania and Tasmanian Halal Meats in Tasmania and across Australia.

2.3 The Deed Administrators' sale and recapitalisation process

(a) At the time of our clients' appointment as voluntary administrators, there were 172 employees across the Companies. During the period of administration, four TasFoods employees were made redundant and several casual employees exited. Circa 160 employees remain employed by the Companies.

(b) Following their appointment, the Deed Administrators commenced a process to recapitalise and / or sell the Companies, primarily on a going concern basis but also offered the assets for sale separately should that have materialised in a higher return to stakeholders.

(c) The key statistics relating to the sale process are described below:

(i) the sale campaign commenced on 18 March 2026 by the Deed Administrators in their former capacity as Administrators of the Companies, whereby emails were sent to a targeted list of over 70 parties including parties involved in the pre appointment sales process and parties identified by the Administrators. A flyer outlining the sale opportunities, timeline for the sale process and an advertisement was published in the Australian Financial Review;

(ii) confidentiality agreements were issued to interested parties for execution, of which 19 were executed and returned;

(iii) those 19 parties were then sent a further detailed information memorandum;

(iv) initial expressions of interest were sought by 30 March 2026, with 10 expressions of interests received;

(v) following assessment of the expressions of interest received, multiple parties were advised they were moving forward to the next stage of the sale process and negotiations were facilitated between the Administrators and interested parties; and

(vi) non-binding offers (**NBIO**) were to be submitted by 27 April 2026 which resulted in six NBIOs being presented to the Administrators.

(d) The received NBIOs were assessed by the Administrators by reference to criteria including, among other things:

(i) the likely economic outcome to all creditors of the Companies as a whole (i.e. with a focus on overall value);

(ii) any conditions applicable to those offers and the likelihood those conditions could be reasonably satisfied;

(iii) 'completion risk' considerations';

(iv) the ability for the Administrators to facilitate completion of the proposals; and

(v) the ability for the Administrators to distribute funds to creditors on a timely basis.

(e) Following the review process referred to above, and the Administrators' preliminary due diligence in relation to the received NBIOs, three parties were advised their offers were not acceptable and would not progress. In relation to the other three offers (one DOCA proposal and two going concern sale offers), those parties were advised that their offer could not be accepted in its current form, however negotiations commenced with each of them with the objective of improving their offers (i.e. quantum, conditionality).

(f) Following negotiation and further due diligence, the Administrators elected to proceed with the Deed Proponent's DOCA proposal on the basis that it provided for:

(i) a more superior offer in terms of price and conditions;

(ii) effectively an acquisition of all assets of the Companies as a going concern by way of purchase of 100% of the shares in TasFoods as the holding company;

(iii) the transfer of all current employees without seeking a deduction for employee leave entitlements, making it the best outcome for the majority of stakeholders (circa 160 employees as at the date of the Voluntary Administrators' Report to creditors dated 21 May 2026 issued in accordance with rule 75-225 of the *Insolvency Practice Rules (Corporations) 2016* (Cth) (**Creditors' Report**); and

(iv) handover of the management and control of the business to the Deed Proponent shortly after execution of a DOCA.

(g) On 15 May 2026, the Administrators advised the Deed Proponent that they were the preferred party, subject to finalisation of commercial terms and stakeholder alignment.

2.4 Creditors' Report and Administrators' Recommendation

(a) For the purposes of the Meeting (referred to above at paragraph 2.1(b)), and in accordance with (amongst others) section 439A of the Act and rule 75-225 of the *Insolvency Practice Rules (Corporations) 2016* (Cth), the Administrators issued the **Creditors' Report** which included their recommendation that creditors of the Companies vote in favour of the DOCA proposal.

(b) Attached as **Annexure B** is a copy of the Creditors' Report.

(c) The Creditors' Report provided information and justification regarding the options available to creditors at the second meeting, including:

(i) whether it would be in the creditors' interests for the Companies to execute the DOCA proposed by the Deed Proponent;

(ii) whether it would be in the creditors' interests for the administrations to end; or

(iii) whether it would be in the creditors' interests for the Companies to be wound up.

(d) No competing DOCA proposals were put to creditors.

(e) The Creditors' Report recommended that creditors vote in favour of the DOCA proposal on the basis that it would serve the purpose of voluntary administration as set out in section 435A of the Act, preserve the Companies' businesses as going concerns, maintain employment for approximately 160 employees and provide materially better returns to key creditor classes than the immediate winding up of the Companies.

(f) In the Creditors' Report, the Administrators estimated the return to creditors under the DOCA vs in a liquidation scenario to be as follows (refer to section 9 of the Creditors' Report for further detail):

Estimated Return to Creditors $'000 Indicative only	Nichols Poultry Liquidation ERV High	Nichols Poultry Liquidation ERV Low	Companies DOCA ERV High	Companies DOCA ERV Low
Estimated dividend (cents in $)				
First ranking secured creditor - NAB	Withheld	0.41	1.00	0.93
Second ranking secured creditor - Research Corporation	nil	nil	0.09	nil
Priority employee creditors	0.57	0.49	1.00	1.00
Unsecured creditors	nil	nil	nil	nil

(g) At the Meeting, creditors resolved that the Companies execute the DOCA proposed by the Deed Proponent.

2.5 The DOCA

(a) The DOCA was executed on 29 May 2026 and lodged with the Australian Securities and Investments Commission (**ASIC**) on 1 June 2026.

(b) A copy of the DOCA lodged with ASIC is attached as **Annexure C**.

(c) Under the terms of the DOCA, the Companies continue to operate on a going concern basis under an implementation licence granted to the Deed Proponent while the transactions contemplated by the DOCA are implemented.

(d) The DOCA:

(i) is designed to preserve enterprise value and facilitate an orderly recapitalisation of the Companies, rather than an immediate cessation of operations which would be the consequence of a liquidation scenario;

(ii) is supported by a funding commitment from the Deed Proponent of $6.5 million, together with realisations from certain pre-appointment assets, which will form a pooled fund (**Deed Fund**) for distribution to creditors of the Companies;

(iii) provides for the pooling of the assets and liabilities of the Companies, with creditor claims against any of those entities to be treated as claims against the Deed Fund; and

(iv) provides for the Deed Proponent to assume employee leave liabilities and recognise continuity of service for current employees without any reduction in the Deed Fund contribution.

(e) The Deed Fund will be applied in the manner and order of priority set out in the clause 19.2 of the DOCA, being one that reflects the order of priority that would apply under section 556 of the Act if the Companies were liquidated.

(f) Pursuant to clause 8.1 of the DOCA, Completion is conditional upon and subject to a number of conditions precedent being satisfied or waived prior to the 'Sunset Date',[1] including:

(i) ASIC granting relief from section 606 of the Act pursuant to section 655A of the Act as necessary to permit the transfer of all the issued shares in TasFoods to the Deed Proponent or its nominee (see clause 8.1(b) of the DOCA); and

(ii) the Court granting leave under section 444GA of the Act permitting the Deed Administrators to transfer 100% of the issued shares in TasFoods in accordance with the DOCA (see clause 8.1(c) of the DOCA).

(g) If the conditions precedent have not been satisfied by the Sunset Date, or if the Deed Proponent does not agree to an extension, the Deed Proponent and the Deed Administrators cease to be bound by the DOCA and the Deed Administrators must convene a meeting of creditors to determine the future of the Companies.

(h) By letter dated 12 August 2026 the parties agreed to extend the Sunset Date to 1 October 2026. A copy of this letter is attached as **Annexure F.**

2.6 Deed Proponent

(a) The Deed Proponent has its registered office located at c/- YBG Accountants, 552 Victoria Street, North Melbourne, Victoria 3051.

(b) The Deed Proponent has provided the following information to the Deed Administrators in regard to its structure, officeholders and funding arrangements:

(i) the Deed Proponent is an Australian proprietary company limited by shares;

(ii) the Deed Proponent's officeholders are as follows:

(A) Rebekah Therese McAuliffe (Director); and

(B) Hariklia Papadopoulos (Director).

(c) The Deed Proponent is owned by an advisory firm based in Victoria with interests in a number of poultry (predominantly eggs) businesses across Australia.

3. Timetable

(a) The Deed Administrators' expected timeline for the completion of key steps to be taken under the DOCA is as follows:

[1] Defined under clause 1.1 of the DOCA to mean '31 August 2026, or such other date as agreed by the parties to this deed in writing'

Timeline	Key Event	Status
29 May 2026	Execution of DOCA	Completed
Late August 2026	Provide ASIC with notice of this Application	Completed
Early September 2026	ASIC grants in-principle relief from section 606 of the Act	Pending
Late August 2026	Application to Court for Section 444GA Application	Pending
Late August 2026	Procedural Orders made by Court	Pending
Early September 2026	Provide notice to creditors and members of the IER, this Application and the Section 444GA Application	Pending
Mid-September 2026	Date for shareholders to file appearance	Pending
Late September 2026	Court hearing	Pending
Late September 2026	Transfer of Shares (subject to court orders pursuant to Section 444GA Application and section 606 relief being granted by ASIC)	Pending

(b) Although there are a number of factors that may impact the timings referred to in the table above, the Deed Administrators have begun taking steps to satisfy the key milestones including preparing to file the Section 444GA Application (detailed below under heading 4).

(c) The DOCA will continue in operation until it is automatically terminated following any of the conditions not being satisfied, or where permissible under the terms of the DOCA, waived on or before the end date being 1 October 2026.

(d) Should the Sunset Date of 1 October 2026 not be met or if the Deed Proponent does not agree to a further extension of the Sunset Date, the Deed Administrators must convene a creditors' meeting to determine the future of the Companies.

(e) Alternatively, the DOCA will automatically terminate:

(i) by an order of the Court under section 445D of the Act; or

(ii) by a resolution of the creditors at a meeting convened under section 75 of the Insolvency Practice Rules.

4. Section 444GA Application

(a) The Deed Administrators are required to make an application to the Court for orders pursuant to section 444GA of the Act for leave to transfer 100% of the issued shares in TasFoods to the Deed Proponent (or its nominee) (**Section 444GA Application**). The Court granting leave under section 444GA(1)(b) of the Act is a condition of the DOCA.

(b) Correspondence will be separately sent to ASIC and all shareholders once the Section 444GA Application is filed with the Court. Copies of the following documents will also be made available to shareholders at the relevant time:

(i) an explanatory statement setting out detailed information about the Section 444GA Application, including information about the process for opposing the Section 444GA Application should ASIC or shareholders wish to be heard or otherwise

oppose it (**Explanatory Statement**). Enclosed with the Explanatory Statement will be a copy of the Independent Expert Report (discussed further below);

(ii) the Section 444GA Application; and

(iii) copies of the orders made by the Court in relation to the application at the first directions hearing.

(c) The Section 444GA Application has been substantially prepared and the Deed Administrators anticipate shortly filing the application. We note that in this regard the DOCA requires the Deed Administrators to make the Section 444GA Application within 5 business days of receipt of the Independent Expert Report.

5. Independent Expert Report

(a) The Deed Administrators engaged Grant Thornton to prepare an independent expert's report (**IER**) in accordance with ASIC Regulatory Guide 111 (**RG 111**) - *Content of expert reports* and ASIC Regulatory Guide 112 - *Independence of experts*.

(b) Consistent with RG 111, specifically RG 111.73, Grant Thornton have undertaken an assessment of the residual value of the Shares on a liquidation basis, where that is the likely or necessary consequence of the transfer of shares not being approved.

(c) Grant Thornton has assessed the residual (equity) value of the Shares to be nil.

(d) Attached as Annexure D is a copy of the draft Explanatory Statement and final IER dated 18 August 2026.

6. Relief sought pursuant to section 606 of the Act

(a) TasFoods, being a listed company, is subject to the takeovers prohibition in section 606 of the Act.

(b) Section 606 of the Act provides that a person must not acquire a relevant interest in voting shares in a company to which the takeovers prohibition applies if, as a result of having acquired that relevant interest, that person's or someone else's voting power in the company increases from below 20% to more than 20%, or from a starting point that is above 20% and below 90%, unless an exemption under section 611 of the Act applies.

(c) The relevant exemption for current purposes would be the requirement to seek shareholder approval for the Proposed Transaction under item 7 of section 611 of the Act. However, the Deed Administrators are seeking relief from section 606 rather than relying on the exemption in item 7 of section 611 given:

(i) ASIC's stated policy position that where a transfer of shares pursuant to section 444GA of the Act will result in a person acquiring a relevant interest in voting shares in a company subject to Chapter 6 above 20%, relief from section 606 must be applied for and granted by ASIC. "This is because there is no statutory exception to the takeovers prohibition in section 606 of the Act, for share transfers pursuant to section 444GA of the Act".[2]

(ii) If shareholder approval was required to be obtained pursuant to the relevant exemption under Item 7 of section 611 of the Act:

(A) shareholders would effectively be asked to vote on an asset which carries no value as to whether that asset should remain or be transferred; and

(B) there would be increased expense and time involved in obtaining shareholder approval, which would likely cause further detriment to the creditors of the Companies.

[2] Paragraph 6.201 of ASIC Regulatory Guidance 6.

(d) Section 655A(1) of the Act provides that ASIC may:

(i) exempt a person from a provision of Chapter 6; or

(ii) declare that this Chapter applies to a person as if specified provisions were omitted, modified or varied as specified in the declaration.

(e) The Deed Administrators request that, subject to the Court granting an order under section 444GA, ASIC exercise its power under section 655A(1)(a) of the Act to grant relief to TasFoods from compliance with section 606 of the Act, to facilitate the transfer of all issued shares in TasFoods to the Deed Proponent (or its nominee) in accordance with the DOCA, as set out in the draft relief instrument in Annexure A of this Application.

7. Type of application

This application is a "minor and technical" application for the purpose of ASIC Regulatory Guide 51 (**RG 51**) as the application involves an application of existing policy to a new situation.[3]

8. Submissions

(a) We understand that ASIC's decision to grant relief in respect of the Proposed Transaction is a decision different from that which is to be made by the Court pursuant to the Section 444GA Application, and that ASIC will have regard to:

(i) the policy underlying Chapter 6 of the Act; and

(ii) the independent expert's report.

(b) As outlined in the IER and above, the Shares in TasFoods have been determined by the independent expert to be of nil value.

(c) Detailed submissions in support of the Application are provided in accordance with the requirements of RG 51.29 and contained at Annexure E of this Application.

9. Previous relief granted

This proposed relief is consistent with ASIC's past action in granting relief from section 606 of the Act to facilitate a transfer of shares in a company under a deed of company arrangement.

10. Application fee

We will arrange for payment of the application fee to be made to ASIC promptly.

Please contact us should you require any further information or wish to discuss any aspect of this Application.

Executive summary

This section addresses key issues relating to the VA of the Companies, including the options available for creditors to consider at the Second Meeting.

Issue	Summary
Description of the Group and ownership structure	TasFoods is the ultimate holding company of the Wider Group. Nichols Poultry and Nichols Hatchery are each 100% owned by TasFoods and together conduct the Wider Group's vertically integrated meat poultry operations. All entities within the Wider Group were subject to the VA and the Companies continued their respective trading operations under the control of the Administrators. TFCD, VDLD and JJJBSM are now in liquidation as these entities were dormant and there was no reason to delay calling the relevant creditors meeting to give effect to the liquidation.
Purpose of this Report	The purpose of this Report is to update creditors regarding the progress of the VA, table our findings into the Companies' business, property, affairs and financial circumstances, as well as provide our opinion on the three options available to creditors in deciding the future of each of the Companies at the Second Meeting.
Current status of the Companies	On 11 March 2026, Tim Mableson, David Hardy and Emily Seeckts were appointed as joint and several Administrators of the Companies by the Directors under Section 436A of the Act.
Control of the Companies	On appointment, the Administrators took control of the Companies' operations and notified employees, creditors and other stakeholders of their appointment. The Directors' powers ceased upon the appointment of the Administrators. Based on an urgent financial and commercial review of the Companies and their business, the Administrators determined that trading should continue while a sale of the Companies' businesses was explored.
Reasons for the Companies' failure	The Directors have attributed the failure of the Companies to: • Sustained trading losses and profitability issues, driven by rising input costs and pricing pressure from the mainland producers flooding surplus stock into the Tasmanian market, with operational inefficiencies that could not be recovered through pricing, resulting in negative cash flow. • Challenging trading and operating environment, including adverse market conditions and underperformance across parts of the Group, which ultimately rendered the Companies unsustainable as a going concern. • Inability to successfully execute a sale of the Nichols Poultry business, which limited the Companies' capacity to reduce debt and secure a sustainable outcome for the Group. The Administrators largely agree with the Directors' reasons for failure, and add the following comments: • Complex group structure and governance challenges, with the Wider Group facing longstanding difficulties integrating and managing diverse business operations within a single operating framework, reducing operational efficiency and strategic focus. • Increased reliance on the Nichols Poultry operations, following the divestment of other business units, which concentrated financial and operational risk and amplified the impact of adverse poultry industry conditions on overall performance of the Wider Group. • Inability to restore sustainable profitability, downsize overheads relevant to an ASX listed entity or execute a strategic exit, despite asset realisations and cost reduction initiatives, with the failure to complete a sale of the Nichols Poultry business leaving no option but to appoint the Administrators.
Outcome of the sale of	The Administrators undertook a sale of the business primarily on a going concern basis but also offered the assets for sale separately should that have resulted in a higher return to stakeholders.

Issue	Summary
business process	From the 10 EOIs initially received, 6 were formalised into best and final offers and all offers were on a going concern basis. Following evaluation of the 6 offers, 3 parties were advised their offers were not acceptable and would not progress. In relation to the other 3 offers (one DOCA proposal and two going concern sale offers) those parties were advised their offers could not be accepted in the initial form however negotiations commenced with each of them with the objective of improving their offers (i.e. quantum, conditionality). Ultimately the Administrators have determined the DOCA proposal to represent the best outcome for the majority of stakeholders for the following reasons: • The DOCA proposal is effectively an acquisition of all assets of the Companies as a going concern by way of purchase of shares in the Companies (or specifically TasFoods as the holding company); • All of the workforce employed at the date of this report (c. 160 employees) will remain employed and their period of service continues; • The DOCA Proponent will take on the leave entitlements and does not require any reduction to the purchase price for same; and • The DOCA proposal contemplates the DOCA Proponent taking over the trading of the business as soon as the DOCA is signed and as early as 1 June 2026 which minimises the trading losses being incurred by the Administrators and funding of same and will also reduce the time costs of the Administrators in having to conduct trading.
Purpose of the Second Meeting of creditors	To resolve the future of each of the Companies. The options available include whether: • Each of the Companies execute a DOCA; or • Each of the Administrations should end; or • Each of the Companies should be wound up. In the event that creditors resolve that the Administrations should end, control of the Companies will revert back to the Directors. The Administrators do not recommend this option.
Results of preliminary investigations and claims that a liquidator may investigate	Whilst the Administrators have considered the underlying causes of the Companies' failure, our investigations into claims arising from those matters are at an early stage. The preliminary investigations have identified that there may be recoveries in a liquidation scenario including unfair preference claims against creditors and an insolvent trading claim against the Directors, albeit the Directors have defences to any such claim (if pursued). These, and other potential claims, will require further investigation by a liquidator if appointed. Further details are set out in **Section 7** and **Section 8**.

Estimated return to creditors

The Administrators estimate that dividends payable to each class of creditor under the proposed DOCA and liquidation scenarios are as follows:

Creditor class	DOCA: Estimated dividend rate High (cents / $)	DOCA: Estimated dividend rate Low (cents / $)	Liquidation: Estimated dividend rate High (cents / $)	Liquidation: Estimated dividend rate Low (cents / $)
Priority employees	100c/$	100c/$	57c/$	49c/$
Secured First Ranking - NAB	100c/$	93c/$	Withheld	41c/$
Secured Second Ranking – Anthony Hall Family Trust	9c/$	Nil	Nil	Nil
Unsecured	Nil	Nil	Nil	Nil
Related parties	Nil	Nil	Nil	Nil

The above dividend rates are estimates only. The final rate will be dependent on a number of factors including the final trading position and costs of realisation.

See **Section 9** for further information.

Administrators' recommendation

We are of the opinion that the DOCA proposal should be accepted by creditors as it ensures the business of the Companies continues as a going concern consistent with the objective of the VA regime as stated in Section 435A(a) of the Act, including the workforce of c.160 employees continue employment.

In regards to value, the DOCA proposal offer was superior to the other offers we received in terms of price and conditions, with reference to our valuations, and is much higher than the alternate use/plant and equipment forced liquidation value outcome.

A further benefit of the DOCA proposal is that if voted for by creditors, the Proponent effectively takes over the management and control of trading the business from 1 June 2026 meaning the Proponent will be responsible for the trading losses whereas if we had accepted an alternate offer or should the Companies proceed into liquidation at the Second Meeting such that an orderly wind down commences, we would still need to fund the business through to settlement of a sale or fund the orderly wind down (which will take 6 to 8 weeks for animal welfare reasons) which would erode the funds available to creditors.

Further details are set out in **Section 10**.

Next steps for creditors

Creditors will vote on the future of each of the Companies at the Second Meeting to be held via Microsoft Teams on 29 May 2026 at 12:30pm AEST.

All creditors are entitled to attend the Second Meeting and vote.

Further guidance on how to register, submit a proof of debt form and vote at the meeting of creditors can be found at **Section 1.7**.

1. Introduction

This section provides information about the VA process, the purpose of this Report, details of meetings of creditors and the Administrators' remuneration.

Key takeaways	Ref #
1. The purpose of this Report is to summarise the investigations undertaken by the Administrators to the date of this Report and to outline the options available to creditors of the Companies.	1.3
2. The First Meeting was held on 23 March 2026, at which the appointment of the Administrators was confirmed and a COI was formed for Nichols Poultry.	1.6
3. The Second Meeting of creditors is convened for Friday, 29 May 2026 at 12:30pm AEST via Microsoft Teams.	1.7

1.1 Appointment of Voluntary Administrators

On 11 March 2026, Tim Mableson, David Hardy, and Emily Seeckts were appointed as joint and several Administrators of the Companies by the Directors under Section 436A of the Act

1.2 Objective of voluntary administration (VA)

In a VA, Administrators are empowered by the Act to assume control of an insolvent company, superseding the powers of the Directors and Officers, to manage the company's affairs and deal with its assets in the interests of its creditors.

The intention of a VA is to maximise the prospects of a company continuing in existence or, if that is not possible, to achieve better returns to creditors than would be achieved by its immediate liquidation. During a VA there is a moratorium over most pre-administration creditor claims.

Administrators are also required to investigate the Companies' affairs and report to creditors on the Administrators' opinion as to which outcome of the VA process is in the creditors' best interests, informing the creditors prior to their voting at the Second Meeting (see **Section 1.7** for further details).

1.3 Purpose and basis of this Report

IPR 75-225 requires a voluntary administrator to provide a report (**the Voluntary Administrator's Report or this Report**) to all creditors ahead of the Second Meeting, outlining:

- details regarding the business, property, affairs and financial circumstances of the entity in VA;
- the Administrator's opinion and recommendation on each of the options available to creditors; and
- if a DOCA is proposed, the details of the DOCA.

In order to complete this Report, we have utilised information from:

- the Companies' book and records;
- discussions with the Directors of the Companies;
- discussions with key employees of the Companies;
- discussions with secured and unsecured creditors of the Companies; and
- other public databases.

1.4 Context of this Report

This Report is based on our preliminary investigations to the date of this Report. Accordingly, the views formed in this Report are not final and may be subject to change. Any additional material issues that are identified subsequent to the issue of this Report may be the subject of a further written report and/or tabled at the Second Meeting. There may also be matters which we are unaware of as an audit of the Companies has not been undertaken.

The statements and opinions given in this Report are given in good faith and in the belief that such statements and opinions are not false or misleading. We reserve the right to alter any conclusions reached based on any changed or additional information which may be provided to us between the date of this Report and the date of the Second Meeting (except where otherwise stated).

In considering the options available to creditors and formulating our opinion and recommendation, we have necessarily made forecasts of asset realisations and total creditors' claims based on our best assessment in the circumstances. These forecasts and estimates may change as asset realisations progress and we receive creditor claims and consequently the outcome for creditors might differ from the information provided in this Report.

Creditors should consider seeking their own independent legal advice as to their rights and the options available to them at the Second Meeting.

1.5 Declaration of independence, relevant relationships and indemnities

In accordance with Section 436DA of the Act and the Code, a DIRRI was enclosed with the Administrators' first communication to creditors (and tabled at the First Meetings of Creditors).

The DIRRI disclosed information regarding the Administrators' independence, prior personal or professional relationships with the Company or related parties and any indemnities received in relation to the appointment. This assessment identified no real or potential risks to the Administrators' independence.

There has been no change in the DIRRI since that time.

1.6 First Meeting of Creditors and Committee of Inspection

Section 436E of the Act requires the Administrators to convene the First Meeting of creditors within eight business days of being appointed.

The First Meeting of Creditors of the Companies was held on 23 March 2026, at which the Administrators appointment was confirmed.

Creditors resolved at the First Meeting of Creditors to appoint a COI in respect of Nichols Poultry. Details of the members of the COI are available in the minutes of the First Meeting of Creditors. We note that the COI members represent major creditors in the Nichols Poultry administration, accounting for c. 74% of unrelated unsecured creditors in value.

Whilst we have had some dialogue on an individual basis with COI members during the VA regarding various matters including the status of trading and updates regarding the sale of the Companies' businesses, we have only held one meeting of the COI on 19 May 2026 to advise them of the sale outcome and our intentions with respect to issuing this Report. The COI did not express any issues or objections with us proceeding in this manner.

1.7 Extension of VA Convening Period

Based on the statutory timetable of a VA, the Second Meeting was required to be held on 24 April 2026.

Given the number of expressions of interest received following commencement of the Administrators' sale process and the indicative timetable we proposed for best and final offers to close out the sale process, we made an application to the Federal Court of Australia for an extension of the VA convening period pursuant to Section 439A(6) and Section 447A(1) of the Act.

The Court made orders on 14 April 2026 including that the date by which the Administrators were required under Section 439A of the Act to convene the Second Meeting be extended to 17 October 2026.

All creditors of the Companies were advised of the Court's order extending the VA convening period by our circular dated 14 April 2026.

1.8 Second Meeting of Creditors

Pursuant to Section 439A of the Act, the second meeting is convened for 29 May 2026 at 12:30pm AEST via Microsoft Teams.

At the Second Meeting, creditors will decide the Company's future by voting on one of the following options:

- that each of the Companies execute a DOCA; or
- that the Administrations should end; or
- that each of the Companies should be wound up.

The Notice of Meeting of Creditors is attached (**Annex B**) along with an appointment of proxy form (**Annex I - 1**) and a proof of debt or claim form (Error! Reference source not found.).

Creditors have the opportunity to adjourn the Second Meeting for up to a period of 45 business days to enable further investigations to be undertaken or for some other reason, although at this stage we don't envisage that will be necessary.

The Administrators intend to hold concurrent Second Meetings of creditors of the Companies. All creditors are entitled to attend the Second Meeting. Creditors who wish to participate in the Second Meeting must complete and submit the following forms to this office by 4:00pm AEST on Thursday, 28 May 2026.

Should you wish to attend the meeting, please contact KPMG by email at tasfoods@kpmg.com.au at least one business day prior to the meeting to advise that you will be using the conference facilities and to be provided with the conference call code.

1.9 Remuneration

Administrators' remuneration can only be fixed by resolution of a COI, a company's creditors, or by application to the Court. In accordance with IPR 70-35 and the Code, an Initial Remuneration Notice was provided to creditors with our initial communication and tabled at the First Meeting of Creditors.

ARITA has issued an "Approving remuneration in external administrations" information sheet providing general information for creditors on the approval of an administrator's fees in a liquidation, a VA or a DOCA. This information sheet is available from the ARITA website (www.arita.com.au).

A summary of remuneration we will be seeking approval for at the Second Meeting of Creditors is as follows:

Table 3: Summary of remuneration sought for approval

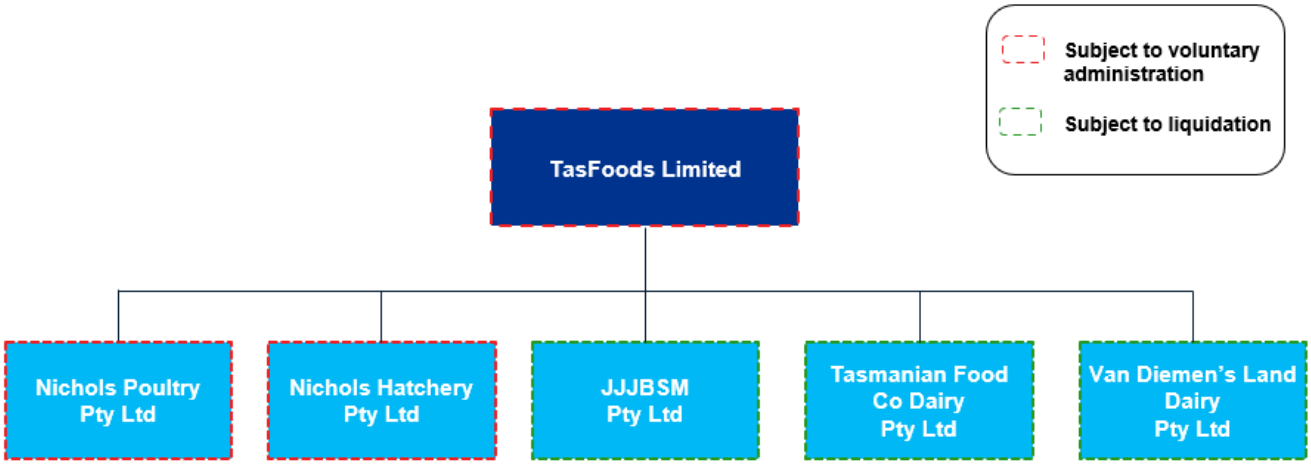
2. Company information

This section provides creditors with information on the history of the Companies and the circumstances leading up to the appointment of Administrators.

Key takeaways	Ref #
1. TasFoods is the ultimate holding company of the Wider Group.	2.1
2. The Companies currently operate from two sites located in Sassafras and Sisters Creek, Tasmania. TasFoods formerly leased a corporate office space in Launceston, Tasmania.	2.3
3. At the date of appointment, Nichols Poultry is the Wider Group's primary operating entity, responsible for the growing, processing, packaging and sale of meat poultry products, while Nichols Hatchery provides integral breeding and hatchery services supporting the supply of chicks to Poultry's grow-out operations. TasFoods employed various head office staff and performed administrative functions for the Wider Group.	2.3

2.1 Group structure

A summary of the corporate structure of the Group is below:



This report addresses only TasFoods, Nichols Poultry and Nichols Hatchery, of which are subject to VA. Because each of JJJBSM, TFCD and VDLD were effectively dormant entities with mainly intercompany creditors, we did not seek an extension of the VA convening period for those entities such that the Second Meeting for those entities was held within the statutory timeframe where creditors resolved that each of those entities be placed into liquidation and Tim Mableson was appointed as the Liquidator.

Key points to note in relation to the corporate structure are:

- All entities within the Wider Group had Administrators appointed to them on 11 March 2026.
- TasFoods is the ultimate holding company of the Wider Group.
- Nichols Poultry and Nichols Hatchery as wholly owned subsidiaries of TasFoods conduct the Group's vertically integrated meat poultry operations and business.
- Historically, the Wider Group operated several poultry and dairy-related businesses owning assets, employing staff and conducting trading operations. The businesses of each of JJJBSM, (Shima Wasabi), TFCD (Pyengana Dairy) and VDLD (Betta Milk and Meander Valley Dairy), which operated various wasabi and dairy-related businesses, were sold prior to our appointment and so those entities were effectively dormant. The reason these entities were included in the VA appointment primarily reflects their position within the Wider Group and the holding of residual liabilities and intercompany balances, rather than the operation of standalone trading businesses at the time of appointment.

- As part of the Wider Group governance arrangements, the directors of TasFoods, being the ASX listed holding company, required that the CEO and CFO of TasFoods be appointed as directors of each subsidiary company. These appointments were made in accordance with their senior executive roles within the Wider Group and reflected the overarching management and control structure rather than entity-specific operational involvement.

2.2 Company history and events leading up to the VA

TasFoods is an Australian food and agriculture company which, over a number of years, built a portfolio of meat, dairy and related agribusiness operations, including Nichols Poultry and Nichols Hatchery.

Nichols Poultry operates as an integrated poultry processing business, with Nichols Hatchery established as part of the supply chain to support poultry production. From approximately 2023 onwards, the Wider Group undertook a divestment strategy, under which a number of operating business assets were sold.

By 2024, the Companies were experiencing ongoing financial and structural challenges within the Wider Group.

A timeline of key events is displayed below:

Table 5: Timeline of key events

Date	Event
June 2015	TasFoods (formerly Oncard International Limited) acquires Nichols Poultry for $9.36m, marking entry into poultry operations.
September 2015	TasFoods is renamed from Oncard International Limited as part of a broader strategic repositioning.
May 2021	TasFoods commences organic poultry operations and invests in expanding its poultry footprint, including capital expenditure on sheds and infrastructure.
July 2022	Deloitte is engaged to undertake an initial sale process for the Nichols Poultry business (Project Attila), including obtaining indicative offers from market participants.
June 2023 to August 2023	TasFoods undertakes broader portfolio rationalisation, including divestment of non-core assets and restructuring of operations, including cessation of organic poultry operations.
December 2023	Nichols Hatchery (previously Redbank Poultry) is acquired for $2.3m, consolidating its vertically integrated poultry operations.
February 2024	After an unsuccessful first sale campaign, Deloitte is re-engaged to sell the businesses of Nichols Poultry and Nichols Hatchery following the unsuccessful initial process.
March 2024 to November 2024	Several parties engage with the sale process, and non-binding indicative offers are received and reviewed, and due diligence is undertaken.
September 2024	Key strategic parties decline to proceed, with regulatory and commercial constraints impacting transaction progress.
October to December 2024	Further engagement with the preferred interested party, including discussions with senior management and a Letter of Intent received in December 2024, although the proposal did not progress to a binding transaction.
Throughout 2024 to early 2026	TasFoods actively seeks State and Federal Government support to sustain operations and facilitate a sale of the poultry division, including multiple ministerial meetings and funding proposals.

Date	Event
25 February 2026	Government support options are discussed, including payroll tax relief or a potential short-term loan, subject to further agreement.
27 February 2026 to 9 March 2026	Final interested parties advise that they will not proceed with an acquisition of the Nichols Poultry businesses.
10 March 2026	TasFoods receives confirmation that government funding support is not available.
11 March 2026	Voluntary administrators are appointed over the Companies.

2.3 Business operations

Details regarding the individual entities are provided in the table below.

Table 6: Overview of business

Business	Description	Scale
Head Office – TasFoods	TasFoods functions primarily as the head office and corporate parent entity for the Wider Group, rather than carrying on day-to-day manufacturing or processing activities itself. Its operations are largely administrative, strategic and managerial in nature, providing group-wide oversight and support services to its operating subsidiaries Nichols Poultry and Nichols Hatchery (as well as formerly, the Wider Group's dairy processing businesses). The activities of TasFoods include board and executive management functions, strategic planning and oversight of subsidiary operations, centralised finance, accounting and treasury management, and procurement, IT and shared services support.	The scale of TasFoods' operations are modest relative to the operating subsidiaries, reflecting its role as a head office. Its cost base is primarily comprised of corporate staff salaries, professional fees, overheads and shared services expenditure. TasFoods employed 9 full-time, part-time, and casual staff at the date of our appointment.
Poultry Operations – Nichols Poultry	Nichols Poultry carries on the business of poultry processing, including the receipt of live birds, processing, packing and sale of poultry products for human consumption. Its activities included abattoir operations, cold storage, and supply to wholesale, food service and retail customers. The business forms part of an integrated poultry supply chain, relying on Nichols Hatchery for the upstream supply of chicks.	Nichols Poultry operates at an industrial processing scale within Tasmania. At the date of our appointment, the business employed an operational workforce consisting of 152 full-time, part-time and casual staff. Prior to our appointment, the annual revenue of Nichols Poultry totalled c. $40-$50m, and its scale was significant in a Tasmanian context, servicing a broad customer base and representing a key participant in the local poultry processing market.

Business	Description	Scale
Hatchery Operations – Nichols Hatchery	Nichols Hatchery operates a poultry hatchery, supplying day-old chicks to support downstream poultry growing and processing operations conducted by Nichols Poultry. The business was focused on breeding, egg incubation, chick hatching and early-life handling, operating specialised hatchery facilities with strict biosecurity and animal welfare requirements. Nichols Hatchery did not sell directly to end consumers and was largely dependent on related-party demand.	Nichols Hatchery operated on a specialised, upstream production scale, smaller than the processing business but critical to the overall poultry supply chain. With an operational workforce at the date of our appointment of 11 full-time, part-time, and casual staff, the hatchery represented a strategically important operation due to its role in ensuring continuity of supply and reducing reliance on third-party chick suppliers.

2.4 Statutory information

Statutory information in respect of the Companies extracted from ASIC's national database at the time of our appointment is contained in **Annex C**.

2.5 Registered security interests

The PPSR disclosed at the date of our appointment that 12 parties held registered security interests for TasFoods, 22 parties held registered security interests for Nichols Poultry, and 3 parties held registered security interests for Nichols Hatchery. We understand that the majority of the security interests related to financed motor vehicles, financed equipment or the supply of inventory. Details of the security interest holders are set out in **Annex D**.

The NAB holds a first-ranking charge over the whole or substantially the whole of the property of the Companies, and Anthony Hall Family Trust (a private lender and shareholder of TasFoods) has a second-ranking charge over the whole or substantially the whole of the property of TasFoods and Nichols Poultry.

The Administrators have completed their assessment of the registered security interests for which parties have provided adequate supporting documentation. The table below summarises the Administrators' review of the PPSR registrations and security interest claims:

Table 7: Status of PPS Registrations

Status	TasFoods Registrations	Nichols Poultry Registrations	Nichols Hatchery Registrations

Currently being assessed	0	0	0
No response or unperfected	0	0	0
Discharged or to be discharged	11	25	3
Total	**24**	**32**	**3**

Further details of the registered security interests are available to creditors on request.

2.6 Winding up applications

At the date of our appointment, there was no outstanding winding up application against any entities in the Wider Group.

3. Historical financial position

This section provides a summary of the recent financial performance and position of the Companies.

Key takeaways

1. The historical financial position has been presented and audited on a consolidated basis for the Group, comprising TasFoods and its wholly owned subsidiaries, including Nichols Poultry, Nichols Hatchery, JJJBSM, (Shima Wasabi), TFCD (Pyengana Dairy) and VDLD (Betta Milk and Meander Valley Dairy).

   A Deed of Cross Guarantee has always been in place for the Group.

2. During CY23, the Shima Wasabi, Betta Milk and Meander Valley Dairy business units were divested. These operations generated approximately $28.6m of revenue in CY22 (approximately 41% of total Group revenue). The remaining Pyengana Dairy business unit was sold in December 2025.

3. As a result of these divestments, the Group transitioned to a more concentrated operating model, being the meat poultry division (Nichols Poultry and Nichols Hatchery), resulting in an increased exposure to the single operating segment whereas previously the Group enjoyed revenue diversification.

4. Notwithstanding these restructuring initiatives by way of divestments, the Group remained loss-making from at least CY21.

5. Working capital pressures were evident, with extended creditor terms and accelerated debtor collections reflecting constrained cash flow conditions, while a greater proportion of current assets was becoming tied up in inventory.

6. The Group's debt profile shifted over the reporting periods, with an increased concentration of borrowings in current liabilities in CY25, reflecting the maturity of NAB facilities, notwithstanding an overall reduction in total debt following asset realisations.

3.1 Preparation of financial statements

The audited (by PwC) financial statements of the Group were prepared on a consolidated basis up to 31 December 2024, comprising the Wider Group. A Deed of Cross Guarantee, which is a legally binding agreement between a parent entity and its wholly-owned subsidiaries has always been in place for the Group. Under this Deed of Cross Guarantee, each company in the Group guarantees the debts of the others, allowing the corporate group to be treated as a single "closed group" for financial reporting and tax consolidation purposes.

The Companies also prepared monthly business/finance reports from at least December 2023, providing updates on sales and marketing, profit and loss, balance sheet and cash flow.

CY25 financial information was neither prepared by management nor audited, and has not been prepared in accordance with relevant accounting standards or on a basis consistent with prior periods. While the underlying data is available, adjustments and close-off procedures have not been completed. Accordingly, CY25 has been presented for high-level indicative purposes only.

CY26 financial information is not available due to issues encountered in extracting and consolidating underlying financial data from systems into a form suitable for reliable presentation.

A summary of the Group's profit and loss statements is presented below, comprising both continued and discontinued operations:

** CY25 financial information has been reconstructed with a high-level consolidation being undertaken (including the elimination of intercompany loans and investments in subsidiaries), however, full consolidation in accordance with applicable accounting standards, and on a basis consistent with prior periods, has not been possible. Accordingly, the CY25 financial information has been presented for indicative purposes only and should not be relied upon.*

3.1.1 Key observations:

- The Group has historically incurred net losses between CY22 to CY25 in the range of approximately ($1.0m) to ($16.4m).
- In June 2023, the Shima Wasabi business unit was sold for $0.7m less employee entitlements, followed by the sale of the Betta Milk and Meander Valley Dairy businesses in December 2023 for $11.1m less employee entitlements, plus inventory. The Pyengana Dairy business unit was subsequently sold in December 2025.
- In December 2023, Redbank Poultry was acquired (now Nichols Hatchery) to integrate the hatchery function within the poultry division, reflecting a strategic focus on vertical integration of the supply chain.
- The divested business units were broadly loss-making prior to sale, and their disposal formed part of a broader strategy to rationalise operations and improve financial performance.
- These disposals accounted for approximately 41% of total Group revenue in CY22.
- From CY24, being the period after the divestments in June 2023 and December 2023 above, revenue declined to $46.1m in CY24 and further to $38.7m in CY25 indicating a contraction in trading activity with the Nichols Poultry business.
- This supports Management's advice that performance was adversely impacted by broader market conditions, including increased input costs (particularly labour and feed), and an oversupply of poultry in Tasmanian and mainland markets, which placed downward pressure on wholesale prices and contributed to margin compression and declining revenue.
- While raw materials and labour costs relative to revenue decreased from CY22 to CY24 by approximately 3% and 5% respectively, the Group's cost base remained relatively inflexible, with total expenses exceeding revenue across all periods.

3.2.1 Key observations:

- The Group's asset base reduced materially from CY22 to CY25 by approximately $16.8 million, reflecting the divestment of the businesses mentioned in **Section 3.1.1.**
- The reduction in current assets, particularly cash, highlighted a progressively tightening liquidity position. Cash reserves declined significantly by CY25, resulting in a negative working capital position of approximately ($5.9m) (based on reconstructed accounts) by 31 December 2025.
- Working capital was actively managed over the period, albeit under constrained conditions. Trade payables extended from approximately 82 days as at 31 December 2022 to 110 days and 116 days by 31 December 2024 and 31 December 2025 respectively, materially exceeding standard trading terms and indicating pressure in meeting obligations as they fell due. Debtor days reduced from approximately 25 days to 16 days over the same period, reflecting a focus on accelerating collections. Inventory levels fluctuated in line with operating scale but represented a greater proportion of current assets by 31 December 2025.
- The Group's debt profile shifted over the period, with debt reducing via divestments but representing an increased concentration of borrowings in current liabilities in CY25, reflecting the classification of NAB facilities as current upon approaching maturity.
- Despite the deterioration in asset values and liquidity, the Group continued to report a net asset surplus through to 31 December 2025. However, the gradual reduction of net assets over the period indicated a diminishing equity buffer (particularly in the absence of any capital raising ability via the ASX) and reduced capacity to absorb further trading losses.

4. Report on company activities and property and Directors' reasons for failure

This section provides a summary of the Report on Company Activities and Property submitted by the Directors, together with the Directors' explanation for failure of the Companies.

Key takeaways	Ref #
1. Section 438B of the Act requires the Directors to give an administrator a ROCAP about each of the Companies. We received the ROCAPs from each of the Directors on 20 March 2026.	4.1
2. The Directors have estimated a net asset surplus of $6.9m, however several items were unintentionally omitted from the ROCAPs received such as inter-company loans, and the secured debts owed to each of NAB and Anthony Hall Family Trust at appointment.	4.1
3. The Directors attributed the Companies' failure primarily to sustained pricing and competitive pressures in the poultry market, sub-scale operations, prolonged trading losses and cash flow constraints, together with the inability to secure a sale of the poultry division to alleviate liquidity pressures.	4.3
4. The Administrators agree with the Directors' assessment and consider the failure was exacerbated by longstanding structural and governance challenges within the Wider Group, the reliance on the Nichols Poultry operations following other divestments, and the ultimate failure to complete a sale of the Nichols Poultry and Nichols Hatchery businesses, which left the Directors with no option but to appoint Administrators.	4.4

4.1 Report on company activities and property

Section 438B of the Act requires the Directors to give an administrator a ROCAP about the Company's business, property, affairs and financial circumstances.

We received the Directors' ROCAP on 20 March 2026.

In the ROCAP, the Directors detailed the Company's assets and liabilities at book value and ERV.

The Administrators have not audited the Company's records or the book values. The below schedule should not be used to determine the likely return to creditors as a number of realisable values are based on the Company's records and remain subject to the review, in particular:

- the Administrators are not in a position to confirm (or otherwise) certain asset values as they are commercially sensitive and are not disclosed in this Report;
- the value of creditor claims remains subject to change as further claims may be received and require adjudication;
- Table 10 and 11 do not provide for possible trading losses or professional costs associated with the VA process.

Further detail on the estimated return to creditors from the VA is contained in **Section 9**.

Further comments in relation to the ROCAPs are set out below:

4.1.1 Assets

4.1.1.1 Cash

The Companies held bank accounts with the NAB on an entity-by-entity basis. In the ROCAPs, the Directors provided indicative cash balances at the date of our appointment which we comment as follows:

- At the date of our appointment, funds of $4,739 and $215 were held in the respective bank accounts for TasFoods and Nichols Hatchery. We arranged for those funds to be transferred to an account under our control.
- At the date of our appointment, the Nichols Poultry account had a debit balance (eg overdraft) of $1,411,554.

4.1.1.2 Debtors

TasFoods Limited

Following our appointment, we received payment from one miscellaneous debtor totalling $2,956. In addition, we received a total of $221,992 in respect of pre-appointment BAS refunds from the ATO.

Nichols Poultry

At the date of our appointment, debtors of approximately $1.2m were owing to Nichols Poultry. We summarise the status of those debtors at the date of this Report as follows:

Table 13: Debtor collection status[6]

Debtors	$000'
Debtors collected	1,267
Debtors outstanding	26

Formal letters of demand have been sent to each of the outstanding debtors.

At the date of our appointment, no debtors were owing to Nichols Hatchery.

4.1.1.3 Inventory (biological assets)

Both Nichols Poultry and Nichols Hatchery hold biological assets which include chicken eggs and live chickens which vary in quantum depending on the trading. ERVs of c. $2.05m and $875k were assigned by the Directors in their ROCAPs for Nichols Poultry and Nichols Hatchery respectively. No biological assets are held in TasFoods.

4.1.1.4 Stock and consumables

Both Nichols Poultry and Nichols Hatchery hold stock and consumables which primarily consists of production ingredients and packaging, stock feed, and agriculture and production chemicals. ERVs of c. $653k and $121k were assigned by the Directors in their ROCAPs for Nichols Poultry and Nichols Hatchery respectively.

The Administrators' ERV of these assets has been withheld for commercially sensitive reasons.

No stock or consumables are held in TasFoods.

4.1.1.5 Property

Nichols Poultry is the registered owner of the real property located at 380 Chapel Road, Sassafras, Tasmania. The Directors included this property on their ROCAPs and assigned an ERV of $6.77m.

The Administrators' ERV of the Sassafras property has been withheld for commercially sensitive reasons.

Neither TasFoods nor Nichols Hatchery are the registered owners of any real property.

4.1.1.6 Plant and equipment

We provide the following information regarding the plant and equipment held in each of the Companies:

TasFoods

TasFoods holds minimal equipment comprising of office chairs, tables and computer monitors located at the former head office site in Launceston, Tasmania. As the value of these items is minimal, and considering the costs of removal, we have assigned a realisable value of nil to these assets for the purpose of our reporting.

Nichols Poultry and Nichols Hatchery

Both Nichols Poultry and Nichols Hatchery hold a substantial and highly specialised suite of plant and equipment primarily supporting its meat poultry growing, processing and distribution operations, located across the Sassafras and Sisters Creek trading sites.

The plant and equipment includes extensive poultry growing infrastructure such as free-range broiler houses, growing sheds, feed silos, feeders, and related farm machinery. The processing facility is fitting with a fully integrated abattoir and value-adding plant comprising kill line equipment, deboning and grading equipment, and quality control devices. Both Nichols Poultry and Nichols Hatchery also hold various utilities and infrastructure assets, transport assets (refrigerated trucks, motor vehicles, and trailers) and ancillary items including IT and office equipment.

ERVs of c. $3.76m and $201k were assigned by the Directors in their ROCAPs for Nichols Poultry and Nichols Hatchery respectively. The Administrators' ERV of the plant and equipment has been withheld for commercially sensitive reasons.

4.1.1.7 Other assets

No further assets were included in the Directors' ROCAPs for the Companies.

The Administrators are aware of certain intellectual property (brands and trademarks) held in TasFoods at appointment. The Directors did not disclose these assets in their ROCAPs but the Administrators have been discussing the realisation of these assets with interested parties as part of the sale process, although no value will ascribed for the purposes of this Report.

4.1.2 Liabilities

4.1.2.1 Secured creditors

The NAB holds an ALLPAAP registration over five of the six entities of the Wider Group, including each of the Companies pursuant to its cross collateralised securities. We are advised that the total amount owing by the Wider Group to NAB is $4.06m at the date of our appointment with ongoing interest and costs accruing.

Based on NAB's security documentation, we are satisfied that NAB's securities are validly created and legally enforceable.

Anthony Hall Family Trust (a private lender and shareholder of TasFoods) holds a second-ranking ALLPAAP registration over TasFoods and Nichols Poultry in respect of a debt owed of approximately $0.8m. Based on a review on Anthony Hall Family Trust's security documentation, we are satisfied that the securities have been validly created and are legally enforceable.

4.1.2.2 Employee claims

In addition to reviewing the figures included in the Directors' ROCAPs, the Administrators reviewed the Companies' books and records and performed detailed calculations of the entitlements owing at the date of appointment.

A breakdown of the estimated outstanding employee entitlements as at 11 March 2026 is detailed below:

Table 14: Breakdown of the estimated outstanding employee entitlements as at 11 March 2026[7]

$000	TasFoods	Nichols Poultry	Nichols Hatchery
Unpaid superannuation	17	179	10
Annual leave (incl. loading)	189	439	54
Long service leave (incl. loading)	12	206	74
Total	**218**	**824**	**138**

Employee claims are afforded priority of repayment pursuant to Section 556 of the Act, ahead of any return to unsecured creditors.

The Act provides that excluded employees (including Company directors and their spouses) are each restricted to a total maximum priority claim of $2,000 for unpaid wages and superannuation entitlements and $1,500 for leave entitlements. Amounts owed to excluded employees that exceed the statutory limit, and all payments owing in respect of redundancy and payment in lieu of notice will rank as an ordinary unsecured claim.

Should a sale be achieved, it is intended that employees and their outstanding entitlements will transfer to the successful purchaser and therefore PILN and redundancy entitlements for those transferring employees (as set out in the table below) are avoided (unlike in a liquidation scenario):

Table 15: Additional employee entitlements in a liquidation scenario

$000	TasFoods	Nichols Poultry	Nichols Hatchery
PILN (incl. super)	101	366	47
Redundancy	71	736	89
Total	**172**	**1,102**	**136**

During the period of the VA appointment, four TasFoods employees were made redundant which crystallised their redundancy and PILN entitlements, as set out below:

Table 16: Additional employee entitlements of redundant TasFoods employees

$000	TasFoods
PILN (incl. super)	281
Redundancy	477
Total	**758**

Should the Companies be placed into liquidation at the Second Meeting, employees may be eligible for financial assistance under the Fair Entitlements Guarantee Act 2012. Further information on FEG including eligibility for assistance can be found at www.employment.gov.au/feg.

4.1.2.3 PMSI claims

The Directors did not indicate any PMSI claims in their ROCAPs.

Information regarding the PMSI claims against the Companies is included in **Section 2.5** and **Annex D**. Our figures in the tables above are estimates and are subject to further review.

4.1.2.4 Unsecured creditors

A summary of the Administrators' estimate of unsecured creditors, including inter-company loans (listed below as related-party creditors) is set out below:

Table 17: Unsecured creditors[8]

$000	TasFoods Administrators' Estimate	Nichols Poultry Administrators' Estimate	Nichols Hatchery Administrators' Estimate
Trade creditors	464	4,853	144
Statutory creditors	8	50	3
Related party creditors	5,526	22,631	6,956
Total	**5,998**	**27,534**	**7,103**

Please note that the unsecured creditor balance for Nichols Poultry includes the debt owing to Ridley which totals $3.3m.

To date, the Administrators have received the following proofs of debt:

- 10 proofs of debt totalling $370k for TasFoods
- 34 proofs of debt totalling $4.3m for Nichols Poultry
- 11 proofs of debt totalling $32k for Nichols Hatchery

All claims received by creditors are subject to adjudication by the Administrators and/or a Liquidator (if one is appointed).

Related party creditors

The Directors did not disclose any inter-company loans in their ROCAPs.

Based on our review of the books and records, related party loan accounts exist between the Companies. These balances primarily arose over time as part of the Wider Group's operating model, whereby TasFoods and, to a lesser extent, Nichols Poultry acted as funding and clearing entities for group cash flows and expenditure.

The debts were incurred both historically and through ongoing activity during CY24 to CY26, largely comprising cash advances and the settlement of operating and trading expenses (including supplier invoices, credit card payments, and other shared costs) paid on behalf of the relevant entities.

We have reviewed the available general ledger detail, inter-company loan schedules and supporting transaction data to verify the recorded balances between the Companies. While no formal loan agreements were identified, the transactional nature of the balances is consistent with inter-company funding and cost allocation arrangements rather than arm's length lending, and the inter-company loan balances appear to be supported by underlying accounting records detailing the nature of the transactions giving rise to the debts.

4.2 Omissions from ROCAP

It has become apparent through the course of our investigations and a review of the ROCAPs that the Directors unintentionally omitted from their ROCAPs:

- Inter-company loan balances;
- Complete values owing to secured creditors and in respect of PMSI claims; and
- Intellectual property.

The Administrators have accessed the books and records of the Companies, which has assisted in identifying assets and liabilities not disclosed within the Directors' ROCAPs.

4.3 Directors' opinion as to the reasons for failure

The Directors have provided their views on the affairs of the Companies and attribute the following reasons for failure:

- The businesses experienced significant pricing pressure due to an oversupply of poultry from mainland Australia, resulting in the need to heavily discount poultry products to remain competitive;
- Increased competition within the domestic poultry and broader agricultural market adversely impacted sales volumes and margins;
- The businesses operated at a subscale level, limiting its ability to absorb cost increases and achieve sustainable profitability;
- Ongoing trading losses were incurred over an extended period, eroding the Companies' financial position;
- Persistent cash flow constraints restricted the Companies' ability to fund ongoing operations and meet liabilities as and when they fell due; and
- The Directors were unable to secure a sale of the poultry division despite efforts to do so, removing a potential avenue to address liquidity and financial pressures.

4.4 Administrators' opinion as to the reasons for failure

We largely agree with the Directors' views in **Section 4.3** above and add the following further comments:

- Complex group structure and governance challenges, with the Wider Group facing longstanding difficulties integrating and managing diverse business operations within a single operating framework, reducing operational efficiency and strategic focus.
- Increased reliance on the Nichols Poultry operations, following the divestment of other business units, which concentrated financial and operational risk and amplified the impact of adverse poultry industry conditions on overall performance of the Wider Group.
- Inability to restore sustainable profitability, downsize overheads relevant to an ASX listed entity or execute a strategic exit, despite asset realisations and cost reduction initiatives, with the failure to complete a sale of the Nichols Poultry business leaving no option but to appoint the Administrators.

5. The VA to date and sale of business process

This section provides an overview of the activities undertaken during the VA to date.

Key takeaways	Ref #
1. Upon appointment, the Administrators undertook an immediate financial and commercial review of the Companies and implemented appropriate controls to stabilise operations. It was determined that, despite forecast trading losses, with the support of NAB through a funding agreement, the business should continue to trade on a 'business as usual' basis whilst sale and recapitalisation options were pursued to enable a potential sale as a going concern which would provide a better result to stakeholders than a winding up.	5.1
2. The Administrators immediately commenced an accelerated sale process, engaging with a broad range of potential purchasers and progressing a competitive and open market campaign to pursue a going concern outcome, either via a sale or recapitalisation through a DOCA.	5.2
3. Following receipt of best and final offers on 27 April 2026, three parties were progressed to the final stage of negotiations and due diligence with the preferred party notified on 15 May 2026.	5.2.1

5.1 The business at commencement of the VA

5.1.1 Immediate steps taken following the appointment

On appointment, the Administrators assumed control of the Companies' business. Appropriate controls and systems were put in place with respect to cash / banking, purchase orders, stock control and reporting.

Following an urgent assessment of the business, the Administrators' view was that the best chance to preserve the business and to maximise the potential realisations for creditors was by continuing to trade the business during VA and pursue a going concern sale or recapitalisation through a DOCA (see **Section 5.2** below).

The Administrators identified that there would be a trading loss from continued operations and sought the support of NAB to fund trading whilst the sale process was conducted.

In relation to other tasks relating to trading, the Administrators:

- addressed the Companies' employees immediately following their appointment and confirmed employment arrangements during the VA;
- contacted all key suppliers and agreed terms of trade to supply the business during the VA;
- reviewed major contracts and negotiated terms of trade with various suppliers;
- opened new accounts with service providers, utilities and other non-stock suppliers;
- engaged with secured creditors, particularly NAB in relation to the funding agreement;
- undertook assessments of registered security interests and negotiated security interest settlements where applicable, otherwise worked on removal of registrations;
- worked with senior management and wider operational team on a day-to-day basis to maintain 'business as usual' trading;
- identified and implemented certain operational improvements;
- issued instructions to staff to carry out an immediate stock take of inventories and consumables;
- prepared a VA trading and cash flow forecast;
- contacted major customers to ensure continuity of sales and seek support for reduced payment terms;
- reviewed the procedures for IT services and back-up processes for information on site; and
- reviewed the adequacy of the insurance policies held by the Companies including renewal of insurance policies and engaged a workplace health and safety (WHS) consultant to conduct a review.

5.2 The sale of business process

Immediately following their appointment, the Administrators' primary objective was to undertake an accelerated sale process with a view to achieving a sale of the Companies (and/or their assets) or a recapitalisation via DOCA. This approach was intended to maximise the prospects of the business of the Companies continuing as a going concern and employees retaining their jobs.

The Administrators undertook a sale of the business primarily on a going concern basis but also offered the assets for sale separately should that have materialised in a higher return to stakeholders.

With an accelerated process in mind noting the trading losses being incurred, the Administrators needed to establish if there was any interest in the business being acquired as a going concern. Accordingly, initial EOIs were sought by 30 March 2026.

Following assessment of the EOIs received, multiple parties were advised they were moving forward to the next stage. Because of the interest and having funding support in place with NAB, we allowed parties a period of approximately four weeks to undertake due diligence and submit best and final offers by 27 April 2026.

The timetable for the sale process was as follows:

Table 18: Timetable for sale process

Date	Sales program
From 18 March 2026	Emails sent to a list of over 70 parties, with a flyer outlining the sale opportunity and timeline. Confidentiality Deed Poll (CDP) issued to interested parties for execution (parties required to provide details to facilitate the CDP).
20 March 2026 to 30 March 2026	Initial communications undertaken, including responding to questions from interested parties. Parties invited to submit EOIs, outlining indicative offers, key terms and proposed payment structures.
From 23 March 2026	Information Memorandum distributed to 19 parties all of whom had executed a CDP. The Information Memorandum included a business overview, assets, inventory, financial forecasts and analysis. Advertisement published in the Australian Financial Review (AFR).
From 25 March 2026	Data room established and access provided to suitably qualified interested parties.
30 March 2026	Initial EOIs due (with 10 EOIs being received).
16 April 2026	Draft Business Sale Agreement and Land Sale Contract issued to shortlisted parties. Negotiations facilitated between the Administrators and interested parties.
27 April 2026	Final binding offers due with parties encouraged to provide their binding offer via the Sale Agreement/Land Contract or as a DOCA proposal (6 best and final offers received).
From 28 April 2026	Progress with final negotiations to settle on a preferred purchaser.

Broadly speaking, the interested parties were generated from:

- direct contact made with parties that operate in the poultry and broader agriculture and farming industries, identified by the Companies' management and KPMG, including parties that had previously participated in the pre-appointment sale process;
- direct contact made with investment and private equity funds that the Administrators considered may have interest in participating in the sale campaign; and
- interest received from numerous parties following news of the Administrators' appointment being published in the media via both the AFR advert and general media covering the appointment.

The Administrators (with the help of management) assisted interested parties with their detailed due diligence, by:

- facilitating site tours of the Nichols Poultry and Nichols Hatchery facilities;
- preparing responses to requests for additional information including financial, supplier and employee; and
- attending calls and meetings with interested parties where required, to clarify their respective interest.

5.2.1 Shortlisted parties to acquire the Companies as a going concern via a sale or DOCA

Following evaluation of the six best and final offers received, three parties were advised their offers were not acceptable and would not progress.

In relation to the other three offers (one DOCA proposal and two going concern sale offers) those parties were advised their offer could not be accepted in its current form however negotiations commenced with each of them with the objective of improving their offers (i.e. quantum, conditionality). Those parties comprised:

- a private Advisory Firm fund (DOCA proposal);
- a syndicate of Tasmanian businesses that were looking to expand into meat poultry (going concern sale offer); and
- a competitor poultry producer (going concern sale offer).

While the terms and structure of each proposal varied, all of the offers contemplated the following elements:

- an acquisition or recapitalisation of the Companies' operations as a going concern;
- the retention of the Companies' c.160 workforce and taking on employee leave entitlements and period of service; and
- purchase price consideration to be applied in accordance with securities held by creditors and/or Section 556 of the Act.

Ultimately the Administrators have determined the DOCA proposal to represent the best outcome for the majority of stakeholders for the following reasons:

- The DOCA proposal is effectively an acquisition of all assets of the Companies as a going concern by way of purchase of shares in the Companies (or specifically TasFoods as the holding company);
- All of the workforce employed at the date of this report (c. 160 employees) will remain employed and their period of service continues;
- The DOCA Proponent will take on the leave entitlements and does not require any reduction to the purchase price for same; and
- The DOCA proposal contemplates the DOCA Proponent taking over the trading of the business as soon as the DOCA is signed and as early as 1 June 2026 which minimises the trading losses being incurred by the Administrators and funding of same and will also reduce the time costs of the Administrators in having to conduct trading.

Whilst there are additional complexities of a DOCA compared to an asset sale, the DOCA structure is a critical part of the offer as the DOCA Proponent wants to retain the ASX entity shell in due course for a potential Reverse Take Over and/or to preserve tax losses. This is ultimately a matter for the DOCA Proponent in putting forward its DOCA proposal.

While the DOCA structure gives rise to additional implementation costs (including legal, Deed Administrator fees, and independent expert report ultimately required for the Section 444GA of the Act application to Court relating to the transfer of shares in TasFoods) the Administrators consider the DOCA proposal will deliver a superior overall outcome for creditors relative to the alternative offers and the orderly wind down scenario in a liquidation (as shown in section 9 of this Report).

The Administrators advised the DOCA Proponent on 15 May 2026 that they were the preferred party, subject to finalisation of commercial terms and stakeholder alignment.

5.3 Key trading considerations and trading results

The Administrators have continued to trade the Companies' business throughout the VA period. Following their appointment, the Administrators undertook immediate engagement with key suppliers and customers with the objective of stabilising trading operations and maintaining continuity of supply. These proactive measures enabled the business to continue operating with minimal disruption during the VA period and were critical to achieving a going concern sale.

The decision to continue trading was informed by a range of operational and commercial considerations, including the preservation of goodwill, maintenance of customer relationships, avoidance of the immediate crystallisation of employee entitlements, preservation of c.160 jobs and the need to manage significant animal welfare obligations. At the date of appointment, the Companies held approximately 460,000 broiler chickens across various stages of the production cycle. Given growing periods of approximately 32 to 42 days, an immediate wind-down was not feasible without incurring significant financial loss and reputational damage to complete existing production cycles

and satisfy animal welfare obligations (which may have taken 6 to 8 weeks to complete). Continued trading was therefore necessary to facilitate an orderly production cycle and maximise realisations through a going concern sale.

Trading performance and key operational metrics have been actively monitored throughout the VA period. The Administrators implemented a structured reporting framework, including weekly cash flow monitoring, regular engagement with management regarding production volumes, bird weights and sales forecasts, and ongoing reconciliation of actual performance against forecast assumptions. Key variances were investigated promptly to ensure that emerging risks were identified and addressed in a timely manner.

Based on historical trading data and cash flow forecasts prepared following appointment, the business was loss making. A number of mitigation strategies were therefore implemented to minimise losses while preserving the value of the business as a going concern, including:

- optimisation of feed supply through the removal of pre-appointment credit limits from suppliers because of the Companies cash flow constraints, enabling improved growth rates and margin outcomes;
- active monitoring of production metrics, including bird weights and volumes and strategies to improve, with regular engagement between the Administrators and operational staff to address variances;
- workforce rationalisation, including minor redundancies of non-essential staff to align the cost base with reduced operating requirements; and
- implementation of a strict purchase order approval process to control expenditure and ensure alignment with available liquidity.

Funding of the trading loss during the VA has been primarily met through trading receipts and debtor collections. Although a funding deed was entered into with the NAB upon our appointment, no funds have been advanced under that agreement to the date of this Report.

Set out below is an overview of the Group's actual trading for the period 11 March 2026 to 19 May 2026 and estimate for the final eleven days of trading from 20 May 2026 to 31 May 2026.

The net cash position as at 19 May 2026 from trading shows cash on hand of $631,736.33 (before accounting for accruals). The cash position as at 19 May 2026 reflects the shorter timing of debtor receipts compared to supplier payments both of which had been negotiated during the VA to assist with the Companies cash flow.

The total net loss from trading is approximately $90,000 per week on average since the beginning of the VA with the position improving from a loss of approximately $100,000 per week and at the beginning of the appointment reducing to a loss of approximately $70,000 per week.

6. Proposal for DOCA

This section sets out the terms of the DOCA proposal received.

Key takeaways	Ref #
1. A DOCA proposal has been received from the Proponent, RAMP Tasmania Poultry Pty Ltd.	6.1
2. The proposed DOCA is supported by a funding contribution from the Proponent, who has committed to contribute a total amount of $6.5m and assume the employee leave liabilities (as well as acknowledging continuity of service) without deduction to the DOCA Contribution.	6.3

6.1 Proposal received

We have received a DOCA proposal from RAMP Tasmania Poultry Pty Ltd (the Proponent). The Proponent is owned by an advisory firm based in Victoria with interests in a number of poultry (predominantly eggs) businesses across Australia. The Proponent first expressed an interest in the Companies during our Administrators' sale process.

We consider that the proposed DOCA complies with Section 25.6.6 of the Code.

A draft DOCA will be available for inspection at the Second Meeting or at any other time if requested by a creditor.

6.2 Key features of the proposal

The proposed DOCA provides a mechanism to restructure the business through a combination of third-party funding, change of shareholding and continued trading of the business. The proposal is designed to preserve enterprise value and facilitate an orderly recapitalisation of the Companies, rather than an immediate cessation of operations which would be the case in the alternate liquidation scenario.

Under the DOCA, the Companies will continue to operate on a going concern basis under an implementation licence agreement to be granted to the Proponent by the Companies while the restructuring transaction is implemented. During this period, the Deed Administrators will oversee the process and manage the Companies' affairs, including progressing the steps required to effect the transaction by satisfying the conditions precedent to the DOCA.

The DOCA is supported by a funding commitment from the Proponent, which, together with realisations from certain pre-appointment assets, will form a central pool of funds (**DOCA Fund or Contribution**) for distribution to creditors across the Companies. The availability of these funds is dependent on a number of conditions being satisfied, including regulatory and Court approvals. As a result, the ultimate outcome for creditors is subject to any time delay while the relevant regulatory and Court approvals are obtained to enable the successful implementation of the transaction as contemplated under the DOCA.

Following implementation, creditor claims will be dealt with in accordance with the terms of the DOCA, with distributions made by the Deed Administrators from the available DOCA Fund. The DOCA contemplates the claims of creditors across each of the Companies to be pooled such that one DOCA Fund is established and distributed across the creditors of the three Companies. The DOCA also imposes restrictions on creditor enforcement action while it remains on foot, allowing the restructuring process to proceed without disruption.

The proposal is conditional in nature and includes mechanisms to address scenarios where it cannot be implemented. In those circumstances, the DOCA may be terminated and creditors will be asked to determine the appropriate next steps. Accordingly, while the DOCA presents a pathway to restructure the business and deliver a return to certain creditors, there remains a degree of execution risk associated with the satisfaction of its conditions. We have sought to mitigate this risk by way of non-refundable deposit which is discussed further below.

The proposed DOCA includes the following key features:

Key elements	DOCA proposal
Commencement Date	The date of execution of the DOCA, likely 29 May 2026.
Deed Administrators	Tim Mableson, David Hardy and Emily Seeckts, acting jointly and severally with effect from the Commencement Date.
Parties bound by the DOCA	The Companies, the Proponent, the Deed Administrators, all creditors (in respect of pre-appointment claims), officers and members. The exception is secured creditors who do not vote in favour of the DOCA.
Purpose of the DOCA	To maximise the chances of the Companies continuing in existence, preserve employment, and provide a better outcome for the majority of creditors than an immediate winding up.
Management of the Company	The Deed Administrators retain day-to-day management and control of the affairs of the Companies until Completion; thereafter control passes to the new directors nominated by the Proponent. However, the business operations of the Companies will be licensed to the Proponent from the Commencement Date.
Monitoring/reporting requirements	Key ongoing reporting obligations include monthly reporting by the Proponent to the Deed Administrators on recovery of pre-commencement debtors (for three months); and collection of unbilled revenue (for three months). The Deed Administrators have broad powers to inspect books and records of the Proponent under the terms of the licence agreement; and request information reasonably required.
Moratorium period	A full moratorium applies while the DOCA is in force, preventing creditors (except a secured creditor who does not vote in favour of the DOCA) and others from: • Commencing or continuing proceedings; • Enforcing claims or security; • Initiating winding up proceedings; or • Exercising set-off rights. Court leave is required for limited exceptions.
Contributions	The Proponent contributes $6.5m, comprising: • $0.3m deposit (non-refundable as discussed below); and • $6.2m contribution balance (payable prior to Completion) Additional Deed Fund assets include: • Pre-appointment debtors; • Unbilled revenue; and • Any other funds realised from pre-appointment assets. In addition, the Proponent is assuming the employee leave liabilities (as well as acknowledging continuity of service) without deduction to the DOCA Contribution.

Security/Guarantee	The Proponent will provide or procure a guarantee and indemnity, supported by security, in respect of any trading losses or unpaid liabilities incurred during the period of the Implementation Licence or any costs associated with the Section 444GA Application (including the Independent Expert Report).
Dividends and order of distribution	The Deed Fund is to be distributed in the following order: 1. Secured creditor claims (non-circulating assets); 2. Administrators' expenses; 3. Administrators' remuneration; 4. Deed Administrators' expenses; 5. Deed Administrators' remuneration; 6. Employee priority claims (priority to circulating assets); 7. Secured creditor claims (circulating assets); 8. All other participating unsecured creditor claims (pari passu). The Deed Administrators have discretion to make interim distributions and payment of items 2 to 5 above (inclusive) at any time in their unfettered discretion.
Non-participating creditors	All intercompany Group creditors of the Companies will retain voting rights at any meeting of creditors but will not participate in any distribution to unsecured creditors from the DOCA fund.
Meetings	Meetings of creditors are conducted in accordance with the IPS and IPRs. Meetings may also be convened for: • Termination decisions; or • Variations to the DOCA.
Committee of Inspection	It is intended that the COI from the VA period will continue during the DOCA period.
Administrators' indemnity	Administrators and Deed Administrators are indemnified from the DOCA Fund for: • Liabilities; • Costs; • Expenses; and • Remuneration. They are granted a lien over the DOCA Fund, with priority over all creditor claims. The indemnity and lien: • Are ongoing; and • Survives termination of the DOCA.

Termination	Termination may occur: (a) On effectuation • When the DOCA is fully performed under Section 445FA of the Act, after which it is formally terminated (b) Automatic / statutory termination • Upon occurrence of events under Section 445C of the Act. (c) Discretionary termination • Deed Administrators may terminate if: o Parties breach the DOCA; or o The arrangement is no longer viable. (d) Termination meeting • Administrators may convene a termination meeting for creditor decision. (e) Grace period • A 14-day cure period must be given for proponent default before termination action.

6.3 Payments from third parties

The proposed DOCA is supported by a funding contribution from the Proponent, who has committed to contribute a total amount of $6.5m plus the Proponent is assuming the employee leave liabilities (as well as acknowledging continuity of service) without deduction to the DOCA Contribution.

The DOCA Contribution has been structured to provide a degree of protection to creditors should they vote to accept the DOCA proposal at the Second Meeting. That's because there are timing requirements to prepare an expert's report and bring audited financial statements up to date for the purposes of regulatory and Court approvals of the DOCA and the transfer of shares in TasFoods to the Proponent, which is a key term of the DOCA proposal.

Under the terms of the DOCA Proposal, the Proponent is required to pay an upfront non-refundable deposit designed to ensure that the costs associated with implementing the transaction, including the proposed share transfer and related regulatory and Court processes, experts reports and bringing audited financial statements up to date, are met regardless of whether the DOCA is successfully implemented or not. This ensures creditors are no worse off in the event that Completion does not occur because the costs incurred in pursuing the effectuation of the DOCA are borne by the Proponent rather than diminishing the pool of funds otherwise available to secured creditors.

In addition, the Proponent will provide or procure a guarantee and indemnity, supported by security, in respect of any trading losses or unpaid liabilities incurred during the period of the Implementation Licence or any costs associated with the Section 444GA Application (including the Independent Expert Report).

This mechanism is intended to preserve value for creditors by supporting ongoing operations through the licence agreement without exposing creditors to additional downside risk of a trading loss that needs to be funded by the Administrators.

The balance of the Proponent's contribution is conditional upon the satisfaction (or waiver) of specified conditions precedent, including obtaining necessary regulatory approvals and Court orders to facilitate the proposed share transfer. This amount will be held in escrow and will only be contributed to the DOCA Fund if Completion occurs. Accordingly, while the full contribution is contingent, the structure of the deposit ensures that the risk to creditors is managed and that creditors should be no worse off if the share transfer process is not successful (ie conditions precedent are not satisfied). All intercompany loan amounts of the Wider Group are excluded from participating in any payment from the DOCA.

6.4 Further information for creditors

Creditors should seek their own legal advice as to their rights and the effects of their position in entering into the DOCA to ensure you are fully informed for the purpose of casting your vote to approve the DOCA at the Second Meeting.

Creditors can obtain further information from the ASIC website at www.asic.gov.au under Regulatory Resources – Insolvency – Insolvency for Creditors.

7. Statutory investigations

This section summarises the preliminary investigations undertaken by the Administrators to the date of this Report, including whether there have been any potential actions identified that may be pursued by a liquidator, if appointed.

Key takeaways	Ref #
1. We have investigated matters to the extent possible in the time available and formed the preliminary view that each of the Companies were insolvent from at least 30 November 2025 (and likely earlier)	7.6
2. A liquidator, if appointed, would need to conduct further investigations including consideration of each of the Companies' overall financial position when determining the insolvency of each entity.	7.7
3. We are aware that the Directors engaged safe harbour advisors in July 2025. A liquidators' investigations would need to consider many aspects of that appointment. Liquidators would also need to confirm the Companies' continuing satisfaction of the statutory pre-conditions to reliance on the safe harbour defence should any insolvent trading claim be contemplated.	7.7

7.1 Nature and scope of review

Section 438A of the Act requires an administrator to carry out preliminary investigations, into a company's business, property, affairs and financial circumstances, to the extent possible in the available time.

Preliminary investigations are focussed on transactions entered into by the Companies that a liquidator might seek to have declared void (together with orders for repayment or compensation) if the Companies are wound up.

Investigations allow an administrator to advise creditors what funds might become available to a liquidator such that creditors can properly assess whether to accept a DOCA proposal or resolve to wind up the Companies.

A liquidator may recover funds from certain voidable transactions or through other avenues; for example, through action seeking compensation for insolvent trading or breach of director duties. Funds recovered would be available to unsecured creditors, including secured creditors to the extent of any shortfall. A deed administrator does not have the ability to recover funds from voidable transactions.

7.2 Sources of information and work performed

In the time available, the Administrators' have undertaken investigations to prepare this Report which have principally involved:

- discussions with the Directors and key staff members;
- reviewing the Directors' ROCAP;
- reviewing and analysing management accounts, books and records and financial statements;
- reviewing the Companies' internal accounting system to the extent possible, considering ongoing access issues experienced by the Administrators;
- correspondence and discussions with the Companies' creditors;
- obtaining independent valuations of the Companies' assets;
- undertaking searches obtained from relevant statutory authorities;
- reviewing records maintained by the ATO; and
- reviewing publicly available information.

7.3 Investigations regarding directors' and officers' responsibilities

Directors have certain duties under Sections 180 to 184 of the Act, including care and diligence, exercising powers and discharging duties in good faith, and to not improperly use their position or information. This includes potential

criminal liability for reckless or dishonest conduct in connect with those duties. Further details are set out in ARITA's Creditor Information Sheet in **Annex F**.

Our investigations with respect of any breaches committed by the Directors are continuing but to the date of this Report have not revealed any concerns regarding the conduct of the Directors.

7.4 Investigations regarding solvency

Some actions available to a liquidator to recover funds through the voiding of certain transactions or through other legal action, such as seeking compensation from directors for insolvent trading, require the Companies' insolvency to be established at the relevant time.

Solvency is required to be assessed in accordance with Section 95A of the Act which provides that:

> *A person is solvent if, and only if, the person is able to pay all the person's debts, as and when they become due and payable. A person who is not solvent is insolvent.*

The primary test applied by the Courts in determining a company's solvency at a particular date is the cash flow or commercial test. Such a test is supported by a review of the company's financial position (the balance sheet test) and further considered in the light of other indicators of insolvency identified in case law.

Our preliminary assessment of these tests and indicators is set out below. Some indicators are based on the consolidated financial statements of the Wider Group. Where an indicator relies solely on the individual records of the Companies, this has been expressly identified.

Table 21: Key insolvency indicators summary

<table>
<tr><th>Insolvency indicator</th><th>Present</th><th>Date relevant to insolvency</th><th>Administrators' comments</th></tr>
<tr><td colspan="4">Cash flow test of insolvency</td></tr>
<tr><td>Cash flow difficulties</td><td>✓</td><td>From 31 December 2024</td><td>
<table>
<tr><th>$ 000</th><th>CY22</th><th>CY23</th><th>CY24</th><th>CY25</th></tr>
<tr><td>Operating activities</td><td>(5,810)</td><td>(3,502)</td><td>(2,410)</td><td>(2,946)</td></tr>
<tr><td>Investing activities</td><td>621</td><td>10,521</td><td>(415)</td><td>3,245</td></tr>
<tr><td>Financing activities</td><td>4,090</td><td>(3,938)</td><td>(122)</td><td>(1,163)</td></tr>
<tr><td>Net (decrease)/ increase</td><td>(1,099)</td><td>3,081</td><td>(2,947)</td><td>(882)</td></tr>
</table>

The Wider Group experienced sustained negative operating cash flows from at least CY22 as shown in the table above. While the cash position improved in CY23 to $3m due to significant proceeds from asset divestments, this was not reflective of underlying operating performance, with net cash subsequently returning to a negative position throughout 2024 and 2025.

In response to ongoing liquidity pressures, the Directors undertook a range of initiatives, including equity raising in CY22, the divestment of businesses from CY23 onwards, and the implementation of cost reduction and restructuring programs, together with a continued focus on working capital management.

Notwithstanding these measures, the Wider Group did not achieve an improvement in operating cash flows and became increasingly reliant on asset realisations to fund trading losses, with available cash reserves materially diminishing over the period.

Ageing of creditors	✓	November 2025	Across the Companies, the accounts payable position from 31 March 2025 to the date of our appointment reflects an increasing reliance on extended creditor terms over time. While the ageing profile fluctuated throughout the period under review, each entity consistently carried a portion of liabilities aged beyond 31 days. From approximately November 2025, this trend became more evident across each of the Companies, with balances progressively shifting towards older ageing categories in the case of Nichols Poultry and creditor balances increasing for Nichols Hatchery and TasFoods from around that time. Taken together, these trends suggest that the Companies were experiencing some pressure in meeting trade creditor obligations, with the overall ageing profile indicating a gradual softening in working capital management and liquidity over the period reviewed, particularly in the months leading up to the Administrators' appointment. **Nichols Poultry Aged Creditor Analysis**  **Nichols Hatchery Aged Creditor Analysis**  **TasFoods Aged Creditor Analysis**

	Present	Date relevant to insolvency	Administrators' comments
	✓	March 2026 but likely earlier	No equity capital raisings have been completed since 2022 despite continued operating losses, indicating constrained access to alternative funding sources such as the ASX. As at 9 March 2026, the Directors were of the view that the Companies exhausted all options to sell the Nichols Poultry businesses, and no further sources of finances (from existing secured creditors or otherwise) were able to be obtained.
	✓	From January 2025	As outlined above, there was an increase in ageing of creditors of the Companies. Further, as explained below, we are aware of several payment arrangements entered into with the Companies' creditors from as early as January 2025.
	✗	N/A	Nichols Poultry held an overdraft facility with the NAB which had a limit of $1.5m. We have reviewed the Nichols Poultry bank statements which show the balance of the overdraft sat between $1.0m and $1.4m during the six months prior to our appointment. While this indicates limited headroom at times, the overdraft account was never fully exhausted or overdrawn. We have not identified any breaches of covenants prior to our appointment.
Balance sheet test and other indicators of insolvency			
Net asset deficiency	✗	N/A	A summary of the Wider Group's net asset position year-on-year is as follows: **$ 000** | **CY22** | **CY23** | **CY24** | **CY25** **Net Assets** | 18,330 | 17,575 | 7,121 | 1,534 The financial statements for the period from CY22 to CY25 indicate that the Wider Group remained balance sheet solvent, with total assets exceeding total liabilities throughout the period. We note however, that net assets declined materially from $18.3m in CY22 to $1.5m in CY25. This deterioration from CY24 reflects continued operating losses and asset impairments, particularly within the Nichols Poultry business, resulting in a significant erosion of shareholder equity over time. The progressive depletion of net assets is indicative of financial distress and a weakening balance sheet position leading up to the Wider Group's appointment of Administrators.
Profitability/trading losses	✓	From CY22	A summary of the Group's net losses year-on-year is as follows: **$ 000** | **CY22** | **CY23** | **CY24** | **CY25** **Net Loss** | (16,478) | (987) | (10,454) | (6,288) The financial statements for the period from CY22 to CY25 indicate that the Wider Group incurred sustained trading losses throughout the period. The Wider Group reported a net loss after tax of $16.5m in CY22, followed by a reduced but still negative result of $1.0m in CY23. Trading performance subsequently deteriorated, with a net loss after tax of c. $10.5m in CY24, including material impairment charges in respect of the Nichols Poultry business and assets, and continued losses of c. $6.3m in CY25. At no stage between CY22 and CY25 was the Wider Group trading profitably.

Insolvency indicator	Present	Date relevant to insolvency	Administrators' comments
Overdue Commonwealth and State taxes	✓	From July 2025	We understand that the Companies' taxation obligations are largely up to date, notwithstanding a small amount owing to the ATO in respect of GST from Nichols Hatchery. However, the Companies owe in excess of $60k to the Tasmanian State Revenue Office in respect of payroll tax for the period from July 2025 to 10 March 2026.
Inability to dispose non-core assets	✓	March 2026	While the Companies successfully sold off several businesses and other assets in the years prior to our appointment, the Companies' inability to sell the Nichols Poultry business ultimately led to the appointment of the Administrators to the Companies. In December 2025, the Companies' announced that it had received two indicative non-binding proposals in respect of the Nichols Poultry business, however, these proposals were at an early stage and not sufficiently advanced to progress to a transaction. We understand that the offers were formally withdrawn on 9 March 2026. Despite actively pursuing a divestment process, the Companies subsequently confirmed in the 12 March 2026 ASX announcement post the VA appointment that attempts to sell the Nichols Poultry business had been unsuccessful, and that the Board had "taken every step it could to find a buyer".
Dishonoured payments	✗	N/A	There is no evidence reviewed to date that indicates any dishonoured payments.
No forbearance from creditors / legal action threatened or commenced by creditors	✓	From January 2025	The Companies experienced increasing creditor pressure in the period leading up to the Administrators' appointment, with limited evidence of forbearance. From approximately January 2025 to the date of appointment, the Companies entered into payment arrangements with c. 20 creditors in an attempt to manage outstanding liabilities and maintain ongoing trading.

7.5 Adequacy of books and records

Section 286 of the Act requires a company to keep written financial records for a period of seven years that correctly record and explain a company's transactions, financial position and performance and would enable true and fair financial statements to be prepared. The failure to maintain books and records in accordance with Section 286 provides a rebuttable presumption of insolvency which might be relied upon by a liquidator in an application for compensation for insolvent trading.

Based on our review of the books and records received, we are of the opinion that the Company's books and records were maintained in accordance with Section 286 of the Act on the basis that we have received the following:

- Audited financial statements from CY22 to CY24;
- Management accounts to early CY26;
- Finance reports prepared for management;
- Employee records, including access to the Companies' full HR and payroll software;
- Creditor and debtor listings and supporting documentation; and
- Asset listings.

With respect to the period from 1 July 2025 to the date of the VA, we have identified account balances which are potentially misstated and unreconciled, however we would expect that those discrepancies would have been rectified as part of the 30 June 2026 financial year end process if the Company had not been placed into VA.

7.6 Preliminary conclusion as to solvency

In light of the insolvency indicators discussed above, we are of the opinion that the Companies were insolvent from 30 November 2025 and likely earlier, being the period where creditors increased in amount and ageing across the Wider Group following years of trading losses, negative operating cash flows and payment arrangements with c.20 creditors through the course of CY25. Further investigations would likely determine an earlier date of insolvency.

A liquidator, if appointed, would need to conduct further investigations, and possibly conduct a public examination of relevant parties (including the Directors), to ultimately determine whether or not the Companies became insolvent at that time or earlier.

7.7 Potential liquidator recoveries – insolvent trading

7.7.1 Directors' liability and potential defences

The Act imposes a positive duty upon company directors to prevent insolvent trading. If a director is found to have committed an offence, the Court may order him or her to pay compensation to the company equal to the amount of loss or damage suffered by its creditors. Applications for compensation payable to the company are usually made by a liquidator, or in specified circumstances, a creditor. This action is not a right that is available to an administrator or a deed administrator.

The Act gives directors certain defences and a safe harbour from the insolvent trading provisions whilst attempting to restructure or turnaround the business, subject to certain criteria being met. Further details on defences and safe harbour are set out **Annex G**.

Our investigations have revealed that in July 2025, the Companies engaged a safe harbour advisor.

A liquidator's investigations would need to consider many aspects of the safe harbour appointment, including:

- The details of the restructuring plan developed by (or for) the Directors;
- The adequacy and timeliness of the information provided to the safe harbour advisor;
- The advice provided by the safe harbour advisor;
- The Directors' compliance with the safe harbour advisor's advice and the Directors' preparation, pursuit and monitoring of the safe harbour restructuring plan put in place comparative to the expected outcome of an immediate appointment of external administrators; and
- Whether it remained reasonably likely that the safe harbour plan being pursued from time to time remained reasonably likely to result in a better outcome for the Companies and their creditors than an immediate external administration.

Amongst many other considerations, a liquidator would also need to confirm the Companies' continuing satisfaction of the statutory pre-conditions to reliance on the safe harbour defence, such as whether all employee entitlements were substantially paid when due within the period that the Directors (and relevant former directors) may claim the safe harbour defence, and whether the Companies complied with their tax reporting obligations in that period.

We note that safe harbour protections are intended to provide directors of a company with a defence against applications for compensation payable to a company, made by a liquidator or creditor, pursuant to Sections 588G and 588M of the Act. A liquidator, if appointed at the Second Meeting, would therefore be required to conduct a detailed analysis of the defences available, prior to pursuing a potential claim.

7.7.2 Pursuing an insolvent trading claim

A liquidator must form an opinion as to the date of insolvency and determine the debts incurred from that date; thereby quantifying the loss to the company.

The costs of proceeding with an insolvent trading action, which are usually considerable, particularly given the need for expert evidence as to insolvency, must be considered.

Our preliminary view is that the Companies were insolvent from at least 30 November 2025 and likely earlier.

Any decision to commence an action against the Directors for insolvent trading must have regard to the following:

- the costs of litigation and the uncertainty of success inherent in any complex litigation;
- the Directors' defences; and
- the Directors' capacity to meet a claim for compensation.

In determining a course of action, a liquidator would consider the costs and risks of any proceedings and the ability to fund any proceedings, including whether creditors are prepared to forgo any scheduled dividends and/or the cost of litigation funding as an alternative.

A liquidator may write to the Directors setting out the results of the investigations and the conclusions in relation to insolvent trading and requesting payment of compensation for debts incurred by the Company at a time when it was insolvent.

Subject to a response, if any, being received from the Directors to progress the insolvent trading claims, it would probably be necessary, in the first instance, to conduct public examinations of the Directors. The purpose of these examinations would be to further investigate the examinable affairs of the Company and obtain further information and documentation in relation to the matters raised in this report.

If a settlement is not forthcoming in answer to any letter of demand, a liquidator may commence recovery proceedings against the Directors (and entities associated with them, if applicable) for amounts relating to insolvent trading, unfair preference payments, uncommercial transactions and/or director-related transactions.

The analysis of an insolvent trading claim is complex and would require a detailed calculation by a liquidator and legal advice.

7.8 Other matters arising from investigations

Further details regarding areas of investigation are set out **Annex G**. Set out below is a summary of the results of our preliminary investigations.

Table 22: Summary of other investigation matters

Issue	Potential misconduct identified	Comments
Falsification of books (Section 1307 of the Act)	✗	At this stage, we have not identified any evidence of falsification of books or records.
False or misleading statements (Section 1308 of the Act)	✗	At this stage, we have not identified evidence of false or misleading statements.
False information (Section 1309 of the Act)	✗	At this stage, we have not identified any falsification, or misleading presentation of books or records.

7.9 Reports to ASIC

Section 438D of the Act requires an administrator of a company to lodge a report with ASIC (and give ASIC such information, and access to and facilities for inspecting and taking copies of documents, as ASIC requires) should it appear to the administrator that:

- a past or present officer or employee, or a member, of the company may have been guilty of an offence in relation to the company; or
- a person who has taken part in the formation, promotion, administration, management or winding up of the company:
  - may have misapplied or retained, or may have become liable or accountable for, money or property (in Australia or elsewhere) of the company; or
  - may have been guilty of negligence, default, breach of duty or breach of trust in relation to the company.

At this stage we have not identified any matters which are required to be brought to the attention of ASIC.

8. Voidable transactions

This section informs creditors about potential voidable transactions identified during the Administrators' preliminary investigations that may be recovered by a liquidator.

Key takeaways	Ref #
1. We have identified potential voidable transactions in the amount of c. $185k before costs incurred to pursue same.	8.2
2. A Liquidator, if appointed, would be able to perform further investigations into various transactions that may have had the effect of conferring a benefit on the creditor(s), the Directors, and/or related parties, albeit none have been identified during our preliminary investigations to the date of this Report.	8.2

8.1 Nature and scope of review

Section 75-225(3)(b)(vi) of the IPR requires an administrator to inform creditors if there appears to be voidable transactions that a liquidator could challenge under Part 5.7B of the Act. Information on the types of voidable transactions is set out in **Annex F** (creditor information sheet published by ARITA).

A liquidator would review transactions that occurred during the relevant time period (prescribed under the Act for each type of transaction), taking into consideration the "relation back day". The relation back day for the Companies is 11 March 2026, being the date the Directors resolved to appoint the Administrators.

Some transactions will only be voidable (and therefore potentially recoverable by a liquidator) if they are "insolvent transactions" – i.e. they were entered into at a time when the company was insolvent or the company became insolvent as a result of entering into the transaction.

Creditors should consider potential voidable transactions when deciding whether to support a proposed DOCA (if available) or liquidation, as only a liquidator can pursue voidable transaction claims if a company is liquidated. A liquidator can seek to void certain transactions and may also request compensation.

8.2 Summary of preliminary investigations into potential voidable transactions

Set out below is a summary of our preliminary investigations in relation to potential recoveries from particular voidable transactions that a liquidator would be likely to investigate further if the Companies are placed into liquidation, including an estimate of the value of potential recoveries where applicable:

Table 23: Summary of preliminary investigations

Potential recovery item	Transactions identified	Value ($)	Comments
Unfair preferences	Possible claims	c.185k	Based on our preliminary investigations, the Companies made payments totalling approximately $185k to 10 creditors during the relation-back period which may constitute unfair preferences. While the Companies entered into a number of payment arrangements, many of the transactions relate to trade suppliers who continued to provide goods and services during the relevant period. Further investigation by a liquidator would be required to determine whether the Companies were insolvent at the time of each alleged unfair preference payment and, if so, whether the relevant creditor had reasonable grounds to suspect insolvency at the time the payments were received. Further an assessment of costs to pursue each of the claims would need to be considered as such costs could outweigh any benefit in pursuing the claims.
Uncommercial transactions	No claims identified	N/A	We note that the Administators' investigations in this regard are at a preliminary stage only, albeit no uncommercial transactions have been identified to date. A Liquidator would further investigate the Companies' affairs in this regard.
Unfair loans	No claims identified	N/A	No unfair loans have been identified.
Unreasonable director-related transactions	No claims identified	N/A	We note that the Administators' investigations in this regard are at a preliminary stage only, albeit no unreasonable director related transactions have been identified to date. A Liquidator would further investigate the Companies' affairs in this regard.
Voidable security interests	No claims identified	N/A	No voidable security interests have been identified.
Arrangements to avoid employee entitlements	No claims identified	N/A	No arrangements have been identified to avoid employee entitlements.

A liquidator, if appointed, would need to conduct further investigations in relation to the above matters, including and make an assessment as to:

- the liquidator's ability to establish the date of insolvency (where required);
- whether there are defences available to parties;
- whether parties have the capacity to meet any claim that may be successfully brought against them; and
- whether the costs likely to be incurred in voiding the transactions will outweigh the return.

8.3 Directors' ability to pay any liquidator's claims

Our assessment of the Directors' financial position has been limited to searches of the Land & Property Information database. These searches have identified real property registered in the names of a number of the Directors and Former Directors of the Companies, however, we have no information as the value and details of associated mortgages and/or encumbrances on the properties. This would be a matter for a liquidator to seek details from a director as to their personal financial position usually by way of statutory declaration request.

8.4 Reports to the ASIC

We have not identified any offences that require reporting to the ASIC pursuant to Section 438D of the Act.

9. Return to creditors

This section provides creditors with information on the estimated financial outcome to creditors together with the anticipated timing of any dividend.

Key takeaways

1. The values adopted in this section have been included solely for illustrative purposes. The estimated outcome is based on a number of assumptions, all of which remain subject to change. Accordingly, the analysis should be considered indicative only.
2. Employees are materially better off under the DOCA. Employment is preserved and, subject to consent, employee entitlements transfer to the purchaser, avoiding the retrenchment costs that would otherwise arise in a liquidation scenario. By contrast, liquidation would result in the cessation of operations, triggering redundancy and accrued leave claims, with an associated funding shortfall in meeting those priority entitlements based on the circulating assets available.
3. Any potential recoveries in a liquidation (including from voidable transaction claims) are inherently uncertain, time-consuming and costly to pursue (potentially outweighing the return). Even if any liquidator claims were successful, because of the redundancy and leave entitlements crystallised in a liquidation, net recoveries would first be applied to address employee shortfalls. Accordingly, there is no anticipated return to unsecured creditors under either the DOCA or liquidation scenarios.
4. To the extent there are no realisations available for priority employee creditors, in a liquidation, employees may be eligible for payment of their outstanding employee entitlements (excluding unpaid superannuation) under FEG, a scheme operated by the Department of Employment and Workplace Relations.

9.1 Return to creditors

The Table 24 outlines an estimated Low and High return for each class of creditor in both a liquidation and a DOCA scenario.

Priority employee creditors	0.57	0.49	1.00	1.00
Unsecured creditors	nil	nil	nil	nil

The above calculations are an estimate only and may change due to:

- final trading (loss) position;
- final proving of secured, employee and unsecured creditor claims;
- the final amount realised from property, plant and equipment in the liquidation scenario (which would require a further sale campaign);
- the costs of litigation to recover any potential voidable transactions as costs could outweigh the return;
- changes in the quantum of the DOCA implementation costs and other unforeseen issues or delays; and
- compliance with all provisions of the DOCA.

Unlike the DOCA proposal which provides for the three Companies to be pooled in terms of their assets and creditors, the liquidation scenario needs to be considered on an entity by entity basis. The liquidation scenario reflects Nichols Poultry (only). This approach has been adopted on the basis that:

©2026 KPMG, an Australian partnership and a member firm of the KPMG global organisation of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee. - The majority of assets and trading activities sit within Nichols Poultry, being the main operating entity, so any voidable transactions would arise from Nichols Poultry;
- TasFoods has no standalone assets and primarily functions as a corporate holding entity; and
- Nichols Hatchery holds only minimal non-circulating assets and does not generate independent income.

In relation to trading losses and costs incurred during the Administration, the decision to continue trading was made to maximise the prospects of achieving a going concern sale. This approach was intended to preserve employment and maximise overall returns to stakeholders.

This strategy is consistent with the objectives of Section 435A of the Act and was undertaken for the benefit of creditors as a whole, rather than to maximise recoveries from any specific asset class or solely for the benefit of secured creditors. Accordingly, trading was conducted to preserve enterprise value and optionality, rather than to maximise realisations from circulating or non-circulating assets in isolation. On this basis, estimated trading losses, costs and expenses have been allocated between circulating and non-circulating assets on a pro rata basis having regard to their relative values, in accordance with the Universal Distributing principle. This includes:

- circulating assets (including debtors, poultry stock, ingredients, packaging and chemicals); and
- non-circulating assets (including land and improvements, and plant and equipment).

The Liquidation ERV depicted in the table above only shows Nichols Poultry on the basis that the majority of assets, trading activities and potential voidable recoveries are in Nichols Poultry and operations in Nichols Poultry would need to be wound down over a six to eight week period for animal welfare reasons. The unsecured creditors in the Liquidation ERV includes intercompany creditors (which are excluded from participating in any distribution from the DOCA).

We have withheld certain asset realisation values in the Liquidation (ERV High) scenario as they are commercially sensitive.

As outlined in **Section 8** above, potential voidable transaction claims require further investigation by a liquidator, particularly in relation to potential insolvent trading and unfair preference claims. We note that such claims may be subject to various defences and their recovery would likely require litigation and/or public examinations, which can be costly and uncertain. Even if such claims were pursued, the estimated shortfall in employee entitlements for Nichols Poultry alone exceeds $1m meaning based on the quantum of the potential claims identified, we don't consider there to be any prospect of funds being available in a liquidation of Nichols Poultry for unsecured creditors, although this would ultimately be a matter for a liquidator to determine.

There would be no voidable transactions in a liquidation of Nichols Hatchery or TasFoods and both entities have no circulating assets, meaning there will be no prospect of a return to unsecured creditors from a liquidation of Nichols Hatchery or TasFoods.

9.2 Timing of dividend

For further detail on the expected timing of dividend payments, creditors should refer to **Section 6** above.

10. Statement by Administrators

This section outlines the Administrators' recommendation to creditors for the creditors to consider with respect to voting at the Second Meeting

Pursuant to IPR 75-225(3)(b), as Administrators, we are required to provide creditors with a statement setting out our opinion on whether it is in creditors' interests for the:

- Each of the Companies to execute a DOCA; or
- The Administrations of each of the Companies to end; or
- Each of the Companies to be wound up.

Each of these options is considered below. In forming our opinion, it is necessary to consider the objectives of Part 5.3A of the Act which deals with the VA regime and specifically Section 435A of the Act which says the object of a VA "*is to provide for the business, property and affairs of an insolvent company to be administered in a way that:*

a) *the changes if the company, or as much as possible of its business, continuing in existence; or*

b) *if it is not possible for the company or its business to continue in existence—results in a better return for the company's creditors and members than would result from an immediate winding up of the company.*"

10.1 DOCA

We are of the opinion that the DOCA proposal put forward by RAMP should be accepted by creditors as it ensures the business of the Companies continues as a going concern consistent with the objective of the VA regime as stated in Section 435A(a) of the Act, including the continued employment of a workforce of c.160 employees.

In regards to value, whilst the RAMP offer was superior to the other offers in terms of price and conditions, by stipulating the transfer of all current employees without seeking a deduction for employee leave entitlements which total approximately $1m across the Group, RAMP's total offer could be considered $7.5m which is in the range of the valuations we obtained for the purposes of the VA sale process. Regardless, the RAMP offer is much higher than the alternate use/plant and equipment forced liquidation value outcome depicted at **Section 9.**

A further benefit of the RAMP DOCA proposal is that if voted for by creditors, RAMP effectively take over the management and control of trading the business from 1 June 2026. This means RAMP will be responsible for the trading losses whereas if we had accepted an alternate offer or should the Companies proceed into liquidation at the Second Meeting such that an orderly wind down commences, we would still need to fund the business through to settlement of a sale or fund the orderly wind down (which will take six to eight weeks for animal welfare reasons) which would erode the funds available to creditors.

Based on the sale process we conducted (noting the failed pre-appointment sale process) and the offers received, the RAMP offer represents the best outcome for the majority of stakeholders (particularly the c.160 employees who retain employment), notwithstanding we accept there is only likely to be a minimal, if any, return to the second ranking secured creditor and no return to unsecured creditors (other than a benefit to suppliers who will have an ongoing customer to trade with). There will be no return to shareholders under the DOCA proposal or liquidation.

Under a DOCA, the Deed Administrators are unable to pursue any voidable transactions or insolvent trading claims, therefore creditors will relinquish any recoveries that may otherwise be available in a liquidation. However, we note that such claims may be subject to various defences and their recovery would likely require litigation and/or public examinations, which can be costly and uncertain. Even if such claims were pursued, the estimated shortfall in employee entitlements in a liquidation of Nichols Poultry alone exceeds $1m meaning based on the quantum of the potential claims identified, we don't consider there to be any prospect of funds being available in a liquidation of Nichols Poultry for unsecured creditors, although this is ultimately a matter for a liquidator to determine.

There would be no voidable transactions in a liquidation of Nichols Hatchery or TasFoods and both entities have no circulating assets, meaning there will be no prospect of a return to unsecured creditors from a liquidation of Nichols Hatchery or TasFoods.

10.2 Administration to end

The Companies are insolvent and unable to pay debts as and when they fall due. Accordingly, returning control of each of the Companies to the Directors would be inappropriate and is not recommended.

10.3 Winding up of the Company

For the reasons stated at **Section 10.1**, it is our opinion that creditors should vote for each of the Companies to execute a DOCA in the terms of the Proposal and therefore the Companies should not be placed into liquidation.

11. Further information and enquiries

ASIC has released several insolvency information sheets to assist creditors, employees and shareholders with their understanding of the insolvency process. You can access the relevant ASIC information sheets at www.asic.gov.au.

We will advise creditors in writing of any additional matter that comes to our attention after the release of this Report, which in our view is material to creditors' consideration.

1 To consider the circumstances leading to the appointment of the Administrators to the Companies, details of the proposed Deed of Company Arrangement and the options available to creditors.
2 To consider the report of Administrators.
3 To resolve that:

- Each of the Companies execute a Deed of Company Arrangement; or
- The Administrations of each of the Companies should end; or
- Each of the Companies be wound up.

4 If it is resolved that each of the Companies be wound up, and an alternate Liquidator is proposed, consider whether creditors wish to appoint the alternate Liquidator.
5 To fix the remuneration of the Administrators.
6 If it is resolved that each of the Companies execute a Deed of Company Arrangement, to fix the remuneration of the Deed Administrators.
7 If it is resolved that each of the Companies be wound up, to fix the remuneration of the Liquidators.
8 Any other business that may be lawfully brought forward.

Creditors wishing to vote at the meeting, who will not be attending via Teams or are a company, must complete and return a Proxy Form and a Proof of Debt form (if one has not already been lodged) by no later than 4pm on the last business day prior to the meeting by email to tasfoods@kpmg.com.au. A Proxy Form and a Proof of Debt Form are enclosed.

If you wish to vote or participate, you must attend in person or by proxy. Creditors are not entitled to vote at the meeting unless they lodge particulars of the debt or claim before the meeting.

Should you wish to attend the meeting, please contact KPMG by email at cmuecke@kpmg.com.au cmuecke@kpmg.com.auat least one business day prior to the meeting to advise that you will be using the conference facilities and to be provided with the conference call code.

Dated this 21st day of May 2026

Tim Mableson
Joint and Several Voluntary Administrator

Effect of IPR Section 75-85 – Entitlement to vote at meetings of creditors

1 A person other than a creditor (or the creditor's proxy or attorney) is not entitled to vote at a meeting of creditors.

2 Subject to subsections (3), (4) and (5), each creditor is entitled to vote and has one vote.

3 A person is not entitled to vote as a creditor at a meeting of creditors unless:

a) his or her debt or claim has been admitted wholly or in part by the external administrator; or

b) he or she has lodged, with the person presiding at the meeting, or with the person named in the notice convening the meeting as the person who may receive particulars of the debt or claim:

those particulars; or

if required—a formal proof of the debt or claim.

4 A creditor must not vote in respect of:

a) an unliquidated debt; or

b) a contingent debt; or

c) an unliquidated or a contingent claim; or

d) a debt the value of which is not established;

unless a just estimate of its value has been made.

5 A creditor must not vote in respect of a debt or a claim on or secured by a bill of exchange, a promissory note or any other negotiable instrument or security held by the creditor unless he or she is willing to do the following:

a) treat the liability to him or her on the instrument or security of a person covered by subsection (6) as a security in his or her hands;

b) estimate its value;

c) for the purposes of voting (but not for the purposes of dividend), to deduct it from his or her debt or claim.

6 A person is covered by this subsection if:

a) the person's liability is a debt or a claim on, or secured by, a bill of exchange, a promissory note or any other negotiable instrument or security held by the creditor; and

b) the person is either liable to the company directly, or may be liable to the company on the default of another person with respect to the liability; and

c) the person is not an insolvent under administration or a person against whom a winding up order is in force.

Annex E: Remuneration approval request

Schedule 2 to the Corporations Act 2001, Section 70-50
Insolvency Practice Rules (Corporations) 2016, Section 70-45

TasFoods Limited ACN 084 800 902
Nichols Poultry Pty Ltd ACN 092 929 890
Nichols Hatchery Pty Ltd ACN 671 683 284

1. Summary

We are asking creditors to approve the following remuneration:

	TasFoods (ex GST $)	Nichols Poultry (ex GST $)	Nichols Hatchery (ex GST $)
VA	50,700.00	799,585.50	99,237.00
If a DOCA is accepted	10,000.00	160,000.00	30,000.00
If company is placed into liquidation	50,000.00	400,000.00	100,000.00

Details of remuneration can be found in sections 3 and 4 of this remuneration approval request.

Please review the contents of this report, which sets out the resolutions to be approved by creditors at the meeting of creditors to be held on 29 May 2026.

Refer to **section 1.7** of the Report for details as to how you can attend the meeting of creditors in person or by proxy in order to vote on the resolutions contained in this report.

We estimate that the total cost of the VA will be $949,621.50.

This estimate has increased from our previous estimate provided to creditors in the Initial Remuneration Notice (**IRN**) dated 12 March 2026, which estimated a cost to completion of the VA of $500,000.00 (excluding GST) for the following reasons:

- Complexity of sale and recapitalisation options - The Administrators have undertaken detailed assessment of competing restructuring pathways, including potential sale transactions, recapitalisation proposals and DOCA structures, each requiring ongoing stakeholder engagement and analysis.
- Large and operationally complex trading businesses - The Nichols Poultry and Nichols Hatchery operations are sizeable, vertically integrated businesses, based in regional areas of northern Tasmania, requiring active oversight, including trading decisions, supply chain management, employee matters and operational continuity.
- Stakeholder engagement across multiple parties - The VA has involved extensive engagement with key stakeholders, including secured creditors, trade creditors, employees, customers, suppliers, government representatives and prospective purchasers.
- Ongoing trading and cash flow management - Significant time has been required to monitor cash flow, manage trading risks, assess funding requirements and implement controls to preserve value during the VA period.
- Extension of the convening period - The application for extension of the convening period was not factored into our initial remuneration estimate. The application included significant regulatory considerations (including Court and ASIC processes), which have required additional analysis, legal input and coordination. The extension of the convening period being granted naturally means higher fees are incurred across a longer VA process.

This is our first and final remuneration request for the VA period. Further approval may be sought for the DOCA or liquidation periods if applicable.

2. Declaration

We, Tim Mableson, David Hardy, Emily Seeckts of KPMG, have undertaken an assessment of this remuneration claim for our appointment as Administrators of the Companies in accordance with the law and applicable professional standards. We are satisfied that the remuneration claimed is necessary and proper.

We have reviewed the work in progress report for the VA to ensure that remuneration is only being claimed for necessary and proper work performed and have made the following adjustments:

- The majority of time in relation to travel from South Australia to Tasmania has been written off (although the out of pocket expenses relating to travel represents an expense of the VA);
- Write-offs have been made in relation to VA time relating to trade on, employees, and creditor-related tasks where we deemed double handling for internal purposes, and/or effectively staff training of junior staff, may have occurred.

3. Remuneration sought

The remuneration we are asking creditors to approve is set out below. We will only seek approval of resolutions relating to the DOCA if creditors vote for the DOCA proposal. Similarly, we will only seek approval of the resolution relating to liquidation if creditors reject the DOCA proposal and vote for liquidation.

Details of the work already completed and estimated to be completed are included at **Schedule A – Detail of work.**

Schedule B – Time spent by staff on each major task already completed includes a breakdown of time spent by staff members on each major task for work we have already completed.

Actual resolutions to be put to the Second Meeting are set out **at Schedule D – Resolutions** for your information. These resolutions also appear in the proxy form that have been provided to you.

4. Disbursements

We are not required to seek creditor approval for costs paid to third parties or where we are recovering a cost incurred on behalf of the VA unless such a cost incurred includes a profit to the Administrators. Details of all amounts incurred where there is no approval required from creditors will be included in the summary of receipts and payments that we make available to creditors through our reporting and disclose to ASIC to ensure transparency.

We are required to obtain creditor's approval for the payment of a disbursement where we, or a related entity, may directly or indirectly obtain a profit. There have been no such disbursements incurred in the VA of the Companies. For more information about disbursements, please refer to the IRN sent to you on 12 March 2026.

5. Likely impact on dividends

The Corporations Act sets the order for payment of claims and it provides for remuneration of the Administrators to be paid in priority to other creditor claims. This ensures that when there are sufficient funds, the Administrators receive payment for the work done to recover assets, investigate the company's affairs, report to creditors and ASIC and distribute any available funds.

Based on:

- realisations to date; and
- estimated future realisations,

we do not estimate a dividend to unsecured creditors in any scenario and consider the costs incurred reasonable for a VA of this nature and complexity.

6. Funding received for remuneration

Although a funding deed was entered into with the NAB upon our appointment, no funds have been advanced under that agreement to the date of this Report.

7. Report on progress of the VA

This Remuneration Approval Request must be read in conjunction with the Voluntary Administrators' Report which outlines the progress of the VA.

8. Summary of receipts and payments

A summary of receipts and payments for the period 11 March 2026 to 19 May 2026 is set out in **Annex A** of the Voluntary Administrators' Report.

9. Approval of remuneration

For information about how approval of the resolutions for remuneration will be sought, refer to **Section 1.9** of the Voluntary Administrators' Report.

Voidable Transactions

Preferences

A preference is a transaction such as a payment between the company and one or more of its creditors, in which the creditor receiving the payment is preferred over the general body of creditors. The relevant time period is six months before the commencement of the liquidation. The company must have been insolvent at the time of the transaction, or become insolvent as a result of the transaction.

Where a creditor receives a preferred payment, the payment is voidable as against a liquidator and is liable to be paid back to the liquidator subject to the creditor being able to successfully maintain any of the defences available to the creditor under either the Corporations Act.

Uncommercial Transaction

An uncommercial transaction is one that it may be expected that a reasonable person in the company's circumstances would not have entered into having regard to:

- the benefit or detriment to the company;
- the respective benefits to other parties; and
- any other relevant matter.

To be voidable, an uncommercial transaction must have occurred during the two years before the liquidation.

However, if a related entity is a party to the transaction, the time period is four years and if the intention of the transaction is to defeat creditors, the time period is ten years.

The company must have been insolvent at the time of the transaction, or become insolvent as a result of the transaction.

Unfair Loan

A loan is unfair if and only if the interest was extortionate when the loan was made or has since become extortionate. There is no time limit on unfair loans – they only have to have been entered into any time on or before the day when the winding up began.

Arrangements to avoid employee entitlements

If an employee suffers loss because a person (including a director) enters into an arrangement or transaction to avoid the payment of employee entitlements, the liquidator or the employee may seek to recover compensation from that person. It will only be necessary to satisfy the court that there was a breach on the balance of probabilities. There is no time limit on when the transaction occurred.

Unreasonable payments to directors

Liquidators have the power to reclaim "unreasonable payments" made to directors by companies prior to liquidation. The provision relates to transactions made to, on behalf of, or for the benefit of, a director or close associate of a director. To fall within the scope of the section, the transaction must have been unreasonable, and have been entered into during the 4 years leading up to a company's liquidation, regardless of its solvency at the time the transaction occurred.

Voidable charges

Certain charges are voidable by a liquidator:

- Circulating security interest created with six months of the liquidation unless it secures a subsequent advance;
- Unregistered charges; and
- Charges in favour of related parties who attempt to enforce the charge within 6 months of its creation.

Insolvent Trading

In the following circumstances, directors may be personally liable for insolvent trading by the company:

- a person is a director at the time a company incurs a debt;
- the company is insolvent at the time of incurring the debt or becomes insolvent because of incurring the debt;
- at the time the debt was incurred, there were reasonable grounds to suspect that the company was insolvent;
- the director was aware such grounds for suspicion existed; and
- a reasonable person in a like position would have been so aware.

The law provides that the liquidator, and in certain circumstances the creditor who suffered the loss, may recover from the director, an amount equal to the loss or damage suffered. Similar provisions exist to pursue holding companies for debts incurred by their subsidiaries.

A defence is available under the law where the director can establish:

- there were reasonable grounds to expect that the company was solvent and they actually did so expect;
- they did not take part in management for illness or some other good reason; or,
- they took all reasonable steps to prevent the company incurring the debt.

The proceeds of any recovery for insolvent trading by a liquidator are available for distribution to the unsecured creditors before the secured creditors.

Important note: This information sheet contains a summary of basic information on the topic. It is not a substitute for legal advice. Some provisions of the law referred to may have important exceptions or qualifications. This document may not contain all of the information about the law or the exceptions and qualifications that are relevant to your circumstances.

Annex G: Investigations

The following information should be read in conjunction with section 7 of the Report.

1. Potential liquidator recoveries – insolvent trading

Directors' liability

Section 588G of the Act imposes a positive duty upon company directors to prevent insolvent trading. If a director is found to have committed an offence under Section 588G, the Court may order him or her to pay compensation to the company equal to the amount of loss or damage suffered by its creditors.

The Court may also impose upon the directors one of two types of civil penalty orders, the first can include a fine or an order prohibiting the directors from participating in the management of a company. The second, where there is criminal intent and conviction, exposes a director to imprisonment for up to five years and/or a fine.

This action is not a right that is available to an administrator or a deed administrator. Applications for compensation payable to the company are usually made by a liquidator, or in specified circumstances, a creditor.

The substantive elements of Section 588G are:

- a person is a director of a company at the time when the company incurs a debt;
- the company is insolvent at that time, or becomes insolvent by incurring that debt (or by incurring, at that time, debts including that debt); and
- at that time, there are reasonable grounds for suspecting that the company is insolvent or would so become insolvent (as the case may be).

Section 588H defences

The defences available to directors contained in Section 588H are:

- at the time when the debt was incurred, the person had reasonable grounds to expect, and did expect, that the company was solvent and would remain solvent even if it incurred that debt or any other debts that it incurred at that time;
- at the time that the debt was incurred, the person had reasonable grounds to believe, and did believe, that a competent and reliable person (the other person) was responsible for providing to the first-mentioned person adequate information about whether the company was solvent, and that the other person was fulfilling that responsibility, and expected, on the basis of information provided to the first-mentioned person by the other person, that the company was solvent at that time and would remain solvent even if it incurred that debt and any other debts that it incurred at that time;
- because of illness or for some other good reason, the person did not take part in the management of the company;
- the person took all reasonable steps to prevent the company from incurring the debt.

Safe harbour defences

Section 588GA gives directors a safe harbour from the insolvent trading provisions contained in Section 588G whilst attempting to restructure or turnaround the business.

Safe harbour provisions apply if (and subject to certain conditions being met) after the person starts to suspect the company may become or is insolvent, the person starts developing one or more courses of action that are reasonably likely to lead to a better outcome for the company.

The period of safe harbour continues from the time at which the person starts developing the course of action and ends at the earliest of any of the following times:

- if the person fails to take any such course of action within a reasonable period after that time – the end of that reasonable period;
- when the person ceases to take any such course of action;
- when any such course of action ceases to be reasonably likely to lead to a better outcome for the company; or
- the appointment of an administrator or liquidator to the company.

During the period of safe harbour, the following conditions must be met:

- the debt must be incurred directly or indirectly in connection with the course of action reasonably likely to lead to a better outcome for the company;
- the company must continue to pay all employee entitlements (including superannuation) by the time they fall due; and
- the company must continue to comply with all tax reporting obligations.

Holding company liability

Section 588V of the Act provides that a holding company may be held liable for the debts of a subsidiary in certain circumstances.

The substantive elements of Section 588V are:

- the corporation is the holding company of the subsidiary at the time when the company incurs a debt;
- the subsidiary is insolvent at that time, or becomes insolvent by incurring that debt;
- at the time, there are reasonable grounds for suspecting that that the subsidiary is insolvent, or would so become insolvent (as the case may be);
- one or both of the following subparagraphs applies:
- the holding company, or one or more of its directors, is or are aware at that time that there are grounds for suspecting the subsidiary is insolvent; or
- having regard to the nature and extent of the holding company's control over the subsidiary's affairs, and to any other relevant circumstances, it is reasonable to expect that:
- a holding company in the corporation's position would be so aware; or
- one or more of such a holding company's directors would be so aware.

The defences the holding company may rely upon are set out in Section 588X and are essentially the same as those a director may rely upon under Section 588H.

Furthermore, the Courts have held that, as a defence to such proceedings, a holding company can off-set any claim by a liquidator under Section 588W against monies owing under an intercompany loan account.

2. Other matters arising from investigations

Falsification of books

Pursuant to Section 1307(1) of the Act, it is an offence for a person to engage in conduct that results in the concealment, destruction, mutilation or falsification of any securities of or belonging to the company or any books affecting or relating to affairs of the company.

If an offence is proven, there are criminal penalties only. However, similar or related conduct also could give rise to a contravention of Section 1307(2) of the Act and that contravention could give rise to a claim for damages. Further, conduct falling within either Section 1307(1) or Section 1307(2) may amount to breaches of directors' statutory and/or general law duties and/or provisions proscribing misleading conduct which could give rise to a recovery of funds.

False or misleading statements

Pursuant to Section 1308 of the Act, a company must not advertise or publish a misleading statement regarding the amount of its capital. It is an offence for a person to make or authorise a statement that, to the person's knowledge is false or misleading in a material particular.

Whilst an offence does not give rise to a claim for damages or compensation, conduct falling within Section 1308 may amount to breaches of directors' statutory and/or general law duties and/or provisions proscribing misleading conduct which could give rise to a recovery of funds.

False information

Pursuant to Section 1309 of the Act, it is an offence for an officer or employee to make available or give information to a director, auditor, member, debenture holder, or trustee for debenture holders of the company that to the knowledge of the officer or employee:

- is false or misleading in a material particular; or
- has omitted from it a matter or thing the omission of which renders the information misleading in a material respect.

Creditor Assistance Sheet: Completing a Proxy Form

Section A – Name and Contact Details of Person or Entity Entitled to Attend Meeting

1 Insert the full name of the employee, individual, sole trader, partnership or company that the debt is owed to.

2 Insert the address of the employee, individual, sole trader, partnership or company that the debt is owed to.

3 Insert the telephone number of the employee, individual, sole trader, partnership or company that the debt is owed to.

4 Insert the email address of the employee, individual, sole trader, partnership or company that the debt is owed to.

Section B – Appointment of Person to Act as Proxy

1 Cross out any wording that is not applicable. For example, if the employee/individual/sole trader/partnership/company is a creditor, cross out '*eligible employee creditor', '*contributory', '*debenture holder' and '*member'.

2 Insert the name of the person who will be exercising the creditor's vote at the meeting. If someone is attending the meeting in person, that person's name should be inserted. Alternatively, if someone is unable to attend, but you still want to cast a vote at the meeting, then you can appoint the Chairperson of the meeting to vote on your behalf by inserting the words 'the Chairperson' here.

3 Insert the address of the person nominated at (2) that will be attending the meeting as proxy. If you have elected 'the Chairperson' because no one is attending in person, leave this row blank.

4 Cross out any wording that is not applicable.

5 If the person you have elected to attend is unavailable on the day, you may nominate a second person to attend in their absence. Alternatively, you can appoint the Chairperson of the meeting to vote on your behalf by inserting 'the Chairperson'.

6 Insert the address of the second person here. If you have elected 'the Chairperson', leave this row blank.

Section C – Voting instructions

1 Cross out any wording that is not applicable. For example, if the employee/individual/sole Cross out any wording that is not applicable.

2 Insert an 'X' in this box if you want the person who is attending the meeting to vote as they see fit on each of the resolutions in the 'Resolution' table. If you select this option, proceed to Section D, unless you wish to vote specifically on certain resolutions, in which case you also insert an 'X' in the special proxy box and select 'For', 'Against' or 'Abstain' on the resolutions. The person voting at the meeting will have discretion to vote as they see fit on any resolutions where you have not selected 'For', 'Against' or 'Abstain'.

3 Insert an 'X' in this box if you want the person who is attending the meeting, to vote exactly in accordance with your instructions. If you select this option, you must select 'For', 'Against' or 'Abstain' for each of the resolutions in the 'Resolution' table. Do not tick more than one box for each resolution.

Section D – Signature Instructions

1 Insert the date that the proxy form is being signed.

2 The form should be signed by one of the following persons:

- If the debt is owed to an employee/individual, then the individual that the debt is owed to; or
- If the debt is owed to a sole trader, then the sole trader that the debt is owed to; or
- If the debt is owed to a partnership, then one of the partners of the partnership; or
- If the debt is owed to a company, then a duly authorised office of the company (normally a director or secretary of the company).

3 Insert the name of the person signing the form, and note their capacity (that is, their role):

- If the debt is owed to a sole trader, note their capacity as proprietor, eg: "[Full name], proprietor"; or
- If the debt is owed to a partnership, note their capacity as partner, eg: "[Full name], partner of the firm named in Section A above"; or

If the debt is owed to a company, note their capacity as director or secretary, eg: "[Full name], director/secretary of the company named in Section A above"]

15. Secured Creditors

15.1 NAB Security

(a) Notwithstanding anything in this deed or section 444D of the Act, NAB's rights under the NAB Security, including its rights to realise or otherwise deal with the NAB Security, are fully preserved and all debt owing by TasFoods Group to NAB are not extinguished, compromised or released unless and until NAB releases the NAB Security.

(b) NAB will not be required to release the NAB Security, and its rights and indebtedness are not in any way compromised, unless all amounts owing to it by TasFoods Group and secured by the NAB Security are paid in full at Completion.

(c) For the purposes of subclauses 15.1(a) and 15.1(b) of this deed, the debt owing to NAB by TasFoods Group includes all amounts advanced by NAB before and after the Commencement Date, including under the NAB Business Overdraft Facility provided pursuant to the Business Letter of Offer dated 11 May 2026 and the Administration Funding Deed dated 12 May 2026.

(d) For the avoidance of doubt and without limiting the generality of the preceding part of this clause 15.1:

(i) NAB voting in favour of the resolution of creditors because of which TasFoods executes this deed does not compromise or effect NAB’s rights in respect of the debt owed by TasFoods Group and the NAB Security, including NAB’s right to enforce the NAB Security or otherwise deal with or realise the NAB Security;

(ii) Clause 19.4 shall not apply to NAB, who will be paid in accordance with its legal priorities and not rateably in proportion to the respective values of its Claim as a proportion of Claims of Secured Creditors;

(iii) NAB is not bound by, and its Creditor Claim is not subject to, clauses 3, 14.1, 16.1, 16.11, 16.12, 16.13, 23.4 and 25.3 of this deed; and

the debt owing to NAB by TasFoods which arises after the Commencement Date, including under the NAB Business Overdraft Facility provided pursuant to the Business Letter of Offer dated 11 May 2026 and the Administration Funding Deed dated 12 May 2026, does not constitute a Creditor Claim for the purposes of this deed.

15.2 PPSR Security Interests

PPSR Security Interests (other than those referred to in clause 10.3(a)(i)) registered against TasFoods Group may remain on the PPSR.

16. Creditor Claims

16.1 Compromise of Creditor Claims.

(a) From the date of Deed Completion, all Creditor Claims are released and extinguished in full against TasFoods Group.

(b) Subject to section 444D of the Act, this deed may be pleaded and tendered by TasFoods Group against any person or entity who has or asserts a Claim as a complete defence and bar to any such Claim.

16.2 Deed Administrators' discretion

The Deed Administrators may, in their absolute discretion:

(a) admit all or part of a Claim;

(b) reject all or part of a Claim; or

(c) pay any Admitted Claim,

in accordance with the provisions of this deed.

16.3 Determination of Claims

(a) The following provisions of Part 5.6, Division 6 of the Act apply to all Claims under this deed, as if references to the "Liquidator" were references to the "Deed Administrators" and references to "winding up" were references to this deed, and with such other modifications as are necessary to give effect to this deed, except to the extent that those provisions are varied or excluded expressly or implied by this deed:

(i) Subdivision A--Admission to proof of debts and claims;

(ii) Subdivision B--Computation of debts and claims;

(iii) Subdivision C--Special provisions relating to secured creditors of insolvent companies;

(iv) Subdivision D--Priorities; and

(v) Subdivision E--Miscellaneous.

(b) The following provisions of the Regulations apply to all Claims under this deed, as if references to the "Liquidator" were references to the "Deed Administrators" and references to "winding up" were references to this deed, and with such other modifications as are necessary to give effect to this deed, except to the extent that those provisions are varied or excluded expressly or implied by this deed:

(i) Regulations 5.6.11, 5.6.37, 5.6.39 to 5.6.43 (inclusive);

(ii) Regulations 5.6.44 to 5.6.53 (inclusive); and

(iii) Regulations 5.6.55 to 5.6.70A (inclusive).

(c) The Deed Administrators may make interim distributions of the Deed Fund under this deed.

(d) The Deed Administrators must distribute the Deed Fund under this deed. However, subject to clause 16.3(a) and 16.3(b) of this deed, the Deed Administrators have an absolute and unfettered discretion as to the admission of Claims, and the amount and timing of the distribution of the Deed Fund in payment of Admitted Claims.

(e) Where the Deed Administrators propose to reject a Claim (whether in part or in full) the Deed Administrators shall send a notice to the Creditor informing the Creditor of the proposed rejection and giving them 14 days within which to make an application to the Court to determine the questions relating to the Claim.

16.4 Access to Books and Records

The Deed Administrators may at any time inspect the books and records of TasFoods Group and TasFoods Group authorises the Deed Administrators and their staff to enter any Premises after giving reasonable written notice for the purpose of conducting such an inspection and for the purpose of doing anything reasonably necessary or desirable in the exercise of their powers and

discretions and the performance of their duties, obligations and responsibilities as Deed Administrators under this deed.

16.5 Superannuation Contributions – prevention of double-claiming

The Deed Administrators must determine that the whole of a debt by way of a Superannuation Contribution is not admissible to proof if a debt by way of Superannuation Guarantee Charge has already been paid.

16.6 Superannuation Contributions – extinguishment of duplicate Claims

If the Deed Administrators determine, under clause 16.5 of this deed that the whole of a debt is not admissible to proof, the whole of the debt is extinguished.

16.7 Superannuation Guarantee Charge – prevention of double-claiming

The Deed Administrators must determine that a particular part of a debt by way of a Superannuation Contribution is not admissible to proof if a debt by way of Superannuation Guarantee Charge has already been paid.

16.8 Superannuation Guarantee Charge – extinguishment of duplicate claims

If the Deed Administrators determine under clause 16.7 of this deed, that a part of a debt is not admissible to proof, that part of the debt is extinguished.

16.9 Creditors' costs and expenses

Any costs and expenses incurred by a Creditor in asserting a Claim under this deed will be borne by that Creditor and will not form part of that Creditor's Claim under this deed.

16.10 Abandonment of Claims

A Creditor will have abandoned, and will be taken for all purposes to have abandoned, all Claims and all other entitlements (if any) in the Deed Fund:

(a) which are not the subject of a proof lodged with the Deed Administrators in the form required by the Deed Administrators prior to the declaration of a Final Dividend; or

(b) which have been rejected by the Deed Administrators and which are not the subject of any appeal or application to the Court within the time allowed under clause 16.3(e)of this deed.

16.11 Discharge of Claims

All persons having a Claim must accept their Admitted Claims under this deed (if any) in full satisfaction and complete discharge of all Claims which they have or claim to have against the Deed Fund and each of them will, if called upon to do so, execute and deliver to the Deed Administrators such forms of release of any such claim as the Deed Administators require.

16.12 Claims extinguished

On payment of the Final Dividend to the Creditors from the Deed Fund, all Claims against the Deed Fund are extinguished and each Creditor will, if called upon to do so, execute and deliver to the Deed Administrators such forms of release of any Claim as the Deed Administrators require.

16.13 Consequences if no distribution possible

In the event no distribution is received by any given Creditor (for instance if a Creditor fails to prove a Claim, or if there are insufficient funds to pay a dividend to a Creditor) then that Creditor’s Claim is nonetheless released and extinguished by this deed.

17. Deed Fund and Deed Fund Account

17.1 Deed Fund and Deed Fund Account

(a) The Deed Administrators will establish the Deed Fund Account as soon as practicable after the Commencement Date.

(b) The Deed Administrators will deposit any funds comprised in the Deed Fund to the Deed Fund Account.

17.2 Deed Fund

The Deed Fund will be comprised of:

(a) The Deed Fund Account;

(b) Proponent Contribution;

(c) Pre-Commencement Date Debtors;

(d) Pre-Commencement Date Unbilled Revenue; and

(e) Any other funds realised by the Administrators / Deed Administrators from pre-Appointment Date Property of Tas Foods Group paid to the Deed Fund.

17.3 Deed Administrators to operate the Deed Fund Account

The Deed Administrators will operate the Deed Fund Account for the purpose of dealing with monies receivable and payable pursuant to this deed.

17.4 Control of Deed Fund and Deed Fund Account

The Deed Fund and the Deed Fund Account will at all times remain under the sole and exclusive control of the Deed Administrators.

17.5 Status of Deed Fund

The Deed Administrators will hold the Deed Fund to be dealt with in accordance with the terms and conditions of this deed.

18. Proponent Contribution

18.1 Proponent Contribution

(a) Within 14 days of the Commencement Date, the Proponent will pay the Non-Refundable Deposit portion of the Proponent Contribution to an account nominated by the Deed Administrators.

(b) Prior to the Completion Date, the Proponent will pay the Proponent Contribution Balance to an account nominated by the Deed Administrators.

18.2 Non-Refundable Deposit

The parties to this deed agree the Non-Refundable Deposit will not be refunded to the Proponent in the event the Conditions Precedent in clause 8.1 of this deed are not satisfied or waived.

18.3 Proponent Contribution Balance

(a) The parties to this deed agree the Proponent Contribution Balance will be:

(i) refunded to the Proponent in the event the Conditions Precedent in clause 8.1 of this deed are not satisfied or waived; or

(ii) paid to the Deed Fund in the event of Completion.

(b) in the event the Conditions Precedent in clause 8.1 of this deed are not satisfied or waived the Deed Administrators will make payment of the Proponent Contribution Balance to the Proponent within five Business Days.

18.4 Security for Guarantee and Indemnity

On the Commencement Date, the Proponent will provide to the Deed Administrators the Guarantee and Indemnity and supporting security.

19. Distribution of Deed Fund

19.1 Timing

The Deed Administrators will distribute the Deed Fund as soon as they consider it practicable to do so, having regard to:

(a) the amount of money expected to be contributed to the Deed Fund;

(b) the likelihood of further monies being contributed to the Deed Fund;

(c) whether further time is needed in order to:

(i) identify Creditors;

(ii) determine the amounts of Claims; or

(iii) do any other things that a prudent person in the Deed Administrators position would do before distributing the Deed Fund; or

(d) any other matter the Deed Administrators consider relevant.

19.2 Priority of distribution

The Deed Administrators must distribute the Deed Fund in the following order of priority:

(a) First, in payment of Secured Creditor Claims (non-circulating assets) in accordance with their legal priority;

(b) Second, the Administrators' Liabilities;

(c) Third, the Administrators' Remuneration Entitlement;

(d) Fourth, the Deed Administrators' Liabilities;

(e) Fifth, the Deed Administrators' Remuneration Entitlement;

(f) Sixth, Employee Priority Claims; and

(g) Seventh, Secured Creditor Claims (circulating assets) in accordance with their legal priority;

(h) Eighth, all other Creditor Claims, on a pari passu basis, in accordance with section 556 of the Act.

19.3 Employee Creditors

For the purposes of the application by the Deed Administrator of the property of TasFoods Group coming under their control under this deed, Eligible Employee Creditors will be entitled to a priority under this deed, at least equal to what they would have been entitled if the property of TasFoods Group was applied in accordance with sections 556, 560 and 561 of the Act.

19.4 Consequences if Deed Fund insufficient

Subject to 19.2(a) and (19.2(g), if the Claims of any class of Creditor cannot be satisfied in full, then the balance of the Deed Fund will be distributed rateably amongst that class of Creditor in proportion to the respective values of their Claims, and the remaining classes (if any) shall not receive a distribution (but shall nevertheless be bound by the terms of this deed).

19.5 Multiple distributions

The Deed Administrators may make multiple distributions from the Deed Fund (including by paying interim dividends) if they in their absolute discretion, see fit to do so.

19.6 Unclaimed money

In the event that there is a remaining balance of any distribution of the Deed Fund to Creditors which has remained under the control of the Deed Administrators and has been unclaimed for more than one month after the day on which the Deed Administrators declare their intention to distribute a Final Dividend in accordance with this deed, the unclaimed moneys shall be dealt with in accordance with section 544 of the Act as if references to 'liquidator' are references to the Deed Administrators.

20. Pre-Commencement Date Debtors, Pre-Commencement Date Unbilled Revenue and Invoicing Obligations

20.1 Pre-Commencement Date Debtor obligations of TasFoods Group

(a) With effect from the Commencement Date, TasFoods Group must recover and remit any Pre-Commencement Date Debtors received by it to the Deed Administrators to a nominated bank account at the discretion of the Deed Administrators, which comprise an asset of the Deed Fund as follows:

(i) TasFoods Group must hold any payment received in respect of the Pre-Commencement Date Debtors for the benefit of the Deed Administrators;

(ii) on the first Business Day of the calendar month after which the Commencement Date falls and after that on the first Business Day of each calendar month for a period of three months, TasFoods Group must:

(A) provide to the Deed Administrators a written account of the collection of the Pre-Commencement Date Debtors; and

(B) provide to the Deed Administrators any information in relation to the collection of the Pre-Commencement Date Debtors which the Deed Administrators reasonably request; and

(iii) TasFoods Group must forward the payment to the nominated bank account of the Deed Administrators within five Business Days of the date in clause 20.1(a)(ii)of this deed.

20.2 Pre-Commencement Date Unbilled Revenue

(a) With effect from the Commencement Date, TasFoods Group must invoice the Pre-Commencement Date Unbilled Revenue and remit the Pre-Commencement Date Unbilled Revenue to the Deed Administrators to a nominated bank account at the discretion of the Deed Administrators, which will comprise an asset of the Deed Fund as follows:

(i) TasFoods Group must hold any payment received in respect of the Pre-Commencement Date Unbilled Revenue for the benefit of the Deed Administrators;

(ii) on the first Business Day of the calendar month after which the Completion Date falls and after that on the first Business Day of each calendar month for a period of three months, TasFoods Group must:

(A) provide to the Deed Administrators a written account of the collection of the Pre-Commencement Date Unbilled Revenue; and

(B) provide to the Deed Administrators any information in relation to the collection of the Pre-Commencement Date Unbilled Revenue which the Deed Administrators reasonably request, and

(iii) TasFoods Group must forward the payment to the nominated bank account of the Deed Administrators within five Business Days of the date in clause 20.2(a)(ii)of this deed.

(b) TasFoods Group must use reasonable endeavours to fulfill its obligations under contracts giving rise to the Pre-Commencement Date Unbilled Revenue and issue invoices to customers relating to the Pre-Commencement Date Unbilled Revenue in the ordinary course of business of TasFoods Group after the Commencement Date.

(c) TasFoods Group shall be entitled to charge an administrative fee of 10% on the amounts of Finished Goods recovered by it on the Pre-Commencement Date Unbilled Revenue.

20.3 Purchase Orders

(a) Subject to the terms of the Implementation Licence, from the Commencement Date the Proponent (as licensee):

(i) assumes the risks and rewards of any open Purchase Orders; and

(ii) releases the Administrators and the Deed Administrators from any liability relating to Purchase Orders.

21. Termination – terms of deed effectuated

21.1 When deed is deemed to be effectuated

The terms of this deed will have been effectuated when the circumstances in one or more of sections 445FA(1)(a), (b) or (c) of the Act have occurred.

21.2 Termination of deed

Once the terms of this deed have been effectuated, the Deed Administrators must comply with section 445FA of the Act, and this deed will terminate upon compliance by the Deed Administrators with section 445FA(1)(d) and (e) of the Act.

22. Termination – terms of deed not effectuated

22.1 Termination pursuant to the Act

In the event that one of the events described in section 445C(a) or (b) of the Act occurs, this deed will thereupon terminate.

22.2 Termination by Deed Administrators

Subject to clause 23.1 of this deed, the Deed Administrators may in their sole discretion determine to terminate this deed forthwith, without reference to Creditors, in the event any one or more of the following things occurs:

(a) TasFoods Group or the Proponent do not comply with any of the provisions of this deed; or

(b) the Deed Administrators conclude, on reasonable grounds, that there is no realistic prospect of the arrangement provided for in this deed being given effect.

22.3 Termination Meeting as an alternative to immediate termination

In any circumstances where the Deed Administrators are entitled to terminate this deed, they may instead, in their sole discretion, and subject to clause 23.2 of this deed, determine to convene a Termination Meeting.

22.4 Compliance with section 450D

In the event this deed is terminated as a result of a resolution passed at a Termination Meeting, the Deed Administrators will comply with section 450D of the Act.

23. Fourteen-day grace period

23.1 Deed Administrators must allow fourteen days' grace

In circumstances where, by reason of the default of the Proponent, the Deed Administrators are given a discretion to terminate this deed, the Deed Administrators must not exercise their discretion to terminate this deed unless:

(a) they (or someone on their behalf) have given a written notice to the Proponent, requiring it rectify the default within fourteen days; and

(b) at least fourteen days have elapsed since the said notice was given; and

(c) the default has not been rectified.

23.2 Fourteen days' grace must be given before Termination Meeting held

In circumstances where the Deed Administrators exercise their discretion to convene a Termination Meeting, the Deed Administrators must ensure that the procedure set forth in clause 23.1 of this deed is complied with before the meeting is held.

23.3 Additional requirements – Termination Meeting to consider anticipated non-compliance

In the event that, having formed the view that TasFoods Group or the Proponent are unlikely to comply with any of the provisions of this deed, the Deed Administrators determine to exercise their discretion pursuant to clause 22.2 of this deed, they must ensure that, before the meeting is held, they have given written notice to the Proponent.

The written notice must:

(a) inform the Proponent that they have formed the aforesaid view; and

(b) inform the Proponent of the reasons why they have formed the aforesaid view; and

(c) notify the Proponent that they intend to convene a Termination Meeting; and

(d) offer the Proponent the opportunity to submit to them, no later than fourteen days after the notice is given, any written representations that the Proponent would like Creditors to consider at the Termination Meeting.

23.4 Adjournment where procedure not complied with

If any prerequisite to the holding of a Termination Meeting has not been satisfied at the time the meeting is held (as opposed to convened), then the meeting must be adjourned in order to enable the prerequisite to be satisfied. In such case, neither the Deed Administrators nor the Creditors may vote in a manner inconsistent with the obligation to adjourn the meeting, and any vote purportedly cast contrary to this obligation will be disregarded.

24. Remuneration

24.1 Remuneration of Administrators

The Administrators will be remunerated in respect of the Administrators' Remuneration Entitlement from the Deed Fund.

24.2 Remuneration of Deed Administrators

The Deed Administrators will be remunerated in respect of the Deed Administrators' Remuneration Entitlement from the Deed Fund.

24.3 Payment of Remuneration and expenses

Pursuant to the terms of this deed, the Deed Administrators will draw upon the Deed Fund to pay:

(a) the Administrators' Liabilities;

(b) the Administrators' Remuneration Entitlement;

(c) the Deed Administrators' Liabilities; and

(d) the Deed Administrators' Remuneration Entitlement,

at any time in their unfettered discretion as they see fit.

25. Indemnity

25.1 Indemnity

The Administrators and Deed Administrators (whether or not they are still acting their respective capacities), are entitled to be indemnified from the Deed Fund from the Commencement Date and after the Termination Date in respect of:

(a) the Administrators' Liabilities;

(b) the Administrators' Remuneration Entitlement;

(c) the Deed Administrators' Liabilities; and

(d) the Deed Administrators' Remuneration Entitlement.

25.2 Lien

In addition to any other rights they may have (and in addition to, not replacement or expansion of, any lien arising by operation of law), the Administrators and Deed Administrators are granted as security for the indemnity in clause 25.1 of this deed a lien over Deed Fund.

This lien will survive the termination of this deed.

25.3 Priority of Indemnity and Lien

For the avoidance of doubt, the Administrators' and Deed Administrators' right of indemnity and lien under clauses 25.1 and 25.2 of this deed will have priority over the Claims of all Creditors and Secured Creditors.

25.4 Continuation of Indemnity and Lien

The indemnity and lien under clauses 25.1 and 25.2 of this deed:

(a) will take effect on and from the Commencement Date; and

(b) be without limitation as to time, and will endure for the benefit of the Administrators and Deed Administrators, and their partners, employees, directors, officers, contractors, advisers,

authorised agents, or delegates, including any of their respective legal personal representatives; and

(c) will not be affected, upon the removal or resignation of any of the Administrators and Deed Administrators and the appointment of new Administrators and Deed Administrator; and

(d) Will not be affected by termination of this deed for any reason whatsoever or effectuation of this deed.

25.5 Indemnity not to be affected or prejudiced

(a) The indemnity under clause 25.1 of this deed will not be affected, limited or prejudiced:

(i) in any way by any irregularity, defect or invalidity in the appointment of the Administrators or Deed Administrators and extends to cover any actions, suits, proceedings, accounts, liabilities, claims and demands arising in any way out of any defect in the appointment of the Administrators or Deed Administrators;

(ii) as a result of any defect in the approval or execution of the deed or otherwise.

(b) The indemnity under clause 25.1 of this deed will not affect or prejudice all or any rights that the Administrators or Deed Administrators may have against any other person to be indemnified against the costs, and liabilities incurred by the Administrators or Deed Administrators in the performance of, or incidental to, any of the powers or authorities conferred on them, by this deed or otherwise.

26. Meeting procedures

26.1 Meeting of Creditors

(a) A meeting convened under this deed will be convened in the manner prescribed by the provisions of Division 75 of the Insolvency Practice Schedule and Division 75 of the Insolvency Practice Rules.

(b) Except to the extent that the Act, Insolvency Practice Schedule and the Insolvency Practice Rules may be inconsistent with the provisions of this deed, the provisions of Division 75 of the Insolvency Practice Schedule and Division 75 of the Insolvency Practice Rules will apply to meetings of Creditors convened under this deed.

27. Incorporation of Schedule 8A provisions – section 444A(5) of the Act

27.1 Extent of incorporation of Schedule 8A

Each provision of Schedule 8A of the Regulations is incorporated into this deed except for Paragraphs 4, 8 and 10 of that Schedule, which are not incorporated into this deed.

27.2 Amendment to certain paragraphs

In Paragraphs 3 and 12 of Schedule 8A of the Regulations, each instance of the word “must” is replaced with the word “may” and the provision so amended is incorporated into this deed.

27.3 Inconsistency

If there is any inconsistency between the provisions of Schedule 8A of the Regulations and the terms of this deed then, to the extent permitted by law, the terms of this deed (including for the avoidance of doubt, clause 15.1 of this deed) will prevail.

28. Notification of execution – section 450B of the Act

28.1 Deed Administrators to notify execution

As soon as practicable after this deed is executed, the Deed Administrators must:

(a) inform each Creditor in writing of the execution of this deed; and

(b) lodge a copy of this deed with ASIC.

29. GST

29.1 Amounts exclusive

All amounts referred to in this deed are exclusive of GST unless otherwise stated.

29.2 GST Exclusive Amounts

(a) If GST is or will be payable on a supply made under or in connection with this deed, to the extent that the consideration otherwise provided for that supply under this deed is not stated to include an amount in respect of GST on the supply:

(i) the consideration otherwise provided for that supply under this deed is increased by the amount of that GST; and

(ii) the Recipient must make payment of the increase as and when the consideration otherwise provided for, or relevant part of it, must be paid or provided or, if the consideration has already been paid or provided, within 7 days of receiving a written demand from the Supplier.

(b) The right of the Supplier to recover any amount in respect of GST under this deed on a supply is subject to the issuing of the relevant tax invoice or adjustment note to the Recipient within the time period within which the Recipient is otherwise entitled to the relevant input tax credit.

29.3 Reimbursements

If a payment to a person is a reimbursement or indemnification that is calculated by reference to a loss, cost or expense incurred by that person, the payment will be reduced by the amount of any input tax credit to which that person is entitled for the acquisition to which that loss, cost or expense relates and then, if consideration for a taxable supply, clause 29.2 of this deed will apply.

29.4 Interpretation

For the purposes of clauses concerning GST, all terms defined in the GST Law have the meanings given to those terms in the GST Law unless the context requires otherwise.

30. Deed contains whole agreement

30.1 Contents of deed supersedes previous communications

This deed records the Deed of Company Arrangement made by the parties to this deed and supersedes all previous negotiations and undertakings in relation to its subject matter and all summaries and outlines of its intended contents issued to Creditors.

30.2 Severance of non-fundamental conditions

Subject to clause 30.3 of this deed, if any provision of this deed is, or at any time becomes, prohibited by, or unlawful under, any applicable law, regulation or other condition actually applied or otherwise becomes void or unenforceable, it will be severed from this deed and rendered ineffective

so far as is possible without modifying the remaining provisions of this deed. The remaining provisions of this deed will, to the extent permitted by the relevant law, regulation or other condition, continue in full force and effect.

30.3 Treatment of fundamental conditions

If a provision that would be severed pursuant to clause 30.2 of this deed is fundamental to the continuation of this deed, it will not be severed, but instead the parties to this deed will meet promptly to consider an amendment to this deed and the Deed Administrators will, if thought fit, convene a meeting of Creditors to consider any amendment that may be proposed.

31. Variation and waiver

31.1 Amendments must be by deed

(a) This deed may only be varied by a resolution passed at a meeting of Creditors convened in accordance with Division 75 of the Insolvency Practice Schedule, but only if the variation is not materially different from a proposed variation set out in a notice of meeting.

(b) No modification, amendment or variation of this deed will be binding unless it is:

(i) in writing and duly executed as a deed; and

(ii) agreed by the Proponent.

(c) No waiver of a right to enforce a provision of this deed will be effective unless made in accordance with this clause or otherwise in accordance with this deed.

31.2 Failure to enforce does not constitute waiver

Neither the failure of any party to enforce any of the provisions of this deed at any time, nor the granting of any time or indulgence, will be construed as a waiver of the right of that party:

(a) to enforce that or any other provision of this deed; or

(b) to rely on that failure as a ground for the termination of this deed pursuant to clause 22.2 of this deed.

32. Further operative conditions

32.1 No merger

Unless otherwise stated, no provision of this deed merges on or by virtue of completion of the principal obligations in this deed.

32.2 Further assurances

Each party must take all necessary steps, execute all documents and do all other acts and things as may be reasonably requested in writing by another party to give effect to the provisions of this deed.

32.3 Costs

Each party must pay and bear that party's own costs of and incidental to this deed and anything done under it or in connection with it.

32.4 No reliance

The Proponent acknowledges and agrees that they have not entered into this deed in reliance upon or as a result of any statement or any conduct of any kind or on behalf of any other person, but they entered into this deed fully and voluntarily upon their own information and investigation and have taken independent legal advice as to the nature, effect and extent of this deed and any Schedules to

this deed and have independently satisfied themselves in respect of all matters in connection with this deed and any Schedules to this deed.

32.5 Delivery

Delivery of this deed will be deemed to have been given on the Commencement Date.

32.6 Deed may be executed in counterparts

This deed may be executed in any number of counterparts which, when taken together, will constitute a single instrument.

32.7 Exchange of counterparts by exchanging copies

The exchange of counterparts to create a legally binding deed may be facilitated by exchanging copies of this deed (including, without limitation, facsimile copies and copies printed from a PDF document). In such case each executing party other than the Deed Administrators must produce the original executed counterpart to the Deed Administrators as soon as practicable after exchange.

32.8 Demands

The fact that the Deed Administrators may have made a demand for payment from any party will not prevent them from making a further demand for payment of additional amounts from that party, whether or not such additional demands are in respect of the same category of payment previously demanded.

32.9 Indemnities

It is not necessary for a party to make payment before enforcing a right of indemnity conferred by this deed.

32.10 Governing law

This deed will be governed by the laws of Tasmania.

Explanatory Statement to shareholders and Expert Report

This Explanatory Statement provides information to the shareholders (**Shareholders**) of TasFoods Limited (Subject to Deed of Company Arrangement) ACN 084 800 902 (**TasFoods**) in respect of the deed of company arrangement entered into by TasFoods, and its wholly owned subsidiaries, Nichols Poultry Pty Ltd (Subject to Deed of Company Arrangement) ACN 092 929 890 (**Nichols Poultry**) and Nichols Hatchery Pty Ltd (Subject to Deed of Company Arrangement) ACN 671 683 284 (**Nichols Hatchery**) (together, the **Companies**), RAMP Tasmania Poultry Pty Ltd ACN 698 304 531 (**RAMP**) and Timothy David Mableson, David Alexander Hardy and Sarah Emily Seeckts (**Deed Administrators**) on 29 May 2026 (**DOCA**).

This Explanatory Statement should be read carefully in conjunction with the Independent Expert Report prepared by Grant Thornton on [18 August 2026 and annexed to this Explanatory Statement at Annexure A.

It is a condition to completion and effectuation of the DOCA that the Deed Administrators obtain a Court order pursuant to section 444GA(1)(b) of the *Corporations Act 2001* (Cth) (**Act**) granting leave to the Deed Administrators to transfer all of the TasFoods shares to RAMP for nil consideration. The Deed Administrators have made an application for this order in the Federal Court of Australia (**Section 444GA Application**).

On [Date TBC], the Federal Court of Australia (**Court**) made procedural orders in relation to the Section 444GA Application, which included:

- the time and manner in which the Deed Administrators should provide notice of the Section 444GA Application to Shareholders;
- a date by which Shareholders should file an appearance if they wish to be heard by the Court; and
- a date for the final hearing,

(**Procedural Orders**).

A detailed timeline for the Section 444GA Application is set out at section 5.2 of this Explanatory Statement.

The Section 444GA Application has been listed for a final hearing on [Date TBC] at [Time TBC] in the Federal Court of Australia.

If you wish to appear at the Court hearing and/or oppose the Section 444GA Application, you may do so by filing with the Court, and serving on the Deed Administrators and ASIC, a notice of appearance in the prescribed Court form indicating the grounds of opposition by no later than [Time/Date TBC].

Shareholders should consider the Independent Expert Report in full before deciding whether to take any action in relation to the Section 444GA Application. If you are in any doubt as to the action you should take, you are recommended to obtain your own personal legal or financial advice from your legal or other professional adviser(s).

A copy of the Explanatory Statement (including the Independent Expert Report) has been provided to ASIC prior to the issuance of this Explanatory Statement. Neither ASIC nor any of its officers take any responsibility for its contents.

Key information for Shareholders

Capitalised terms used in this Explanatory Statement have the meanings defined in Schedule 1, unless the context requires otherwise or unless a term has been defined in the text of this Explanatory Statement, and a word importing the singular includes the plural (and vice versa).

1. Purpose and status of the Explanatory Statement

This document is an Explanatory Statement in relation to the impact of the DOCA on your shares. If the Section 444GA Application is successful, ASIC Relief is granted, and the DOCA completes according to its terms and conditions, all of your shares in TasFoods will be transferred to RAMP for nil consideration and you will cease to own your shares.

Section 3 of this report contains further information regarding the DOCA.

This Explanatory Statement contains information about:

(a) the Section 444GA Application to the Court for approval to transfer of all of the TasFoods Shares to RAMP or its nominee as part of the DOCA;

(b) the ASIC Relief to enable the transfer of all of the TasFoods Shares to RAMP as part of the DOCA;

(c) the steps that you need to take if you wish to appear at the Court hearing in respect of the Section 444GA Application, which has been listed for hearing on [Date/Time TBC]; and

(d) the effect of the DOCA on you as a Shareholder, in order to assist you in deciding whether to take action in respect of the Section 444GA Application.

An Independent Expert Report prepared by the Expert, which contains an objective valuation of the TasFoods Shares, is attached to this document as Annexure A.

This document is not a prospectus or other disclosure document pursuant to Chapter 6D of the Act.

2. Background to the administration of TasFoods

2.1 Introduction

TasFoods was incorporated on 19 October 1998 and is an Australian food and agriculture company which, over a number of years, built a portfolio of meat, dairy and related agribusiness operations, including Nichols Poultry and Nichols Hatchery

TasFoods is a public company incorporated under the Act. TasFoods listed on the ASX in December 1999 under the code "TFL" and currently has 387,590,566 ordinary shares on issue.

Nichols Poultry and Nichols Hatchery are each 100% owned by TasFoods and together conduct the Wider Group's vertically integrated meat poultry operations.

As noted above, TasFoods is the ultimate holding company of Nichols Poultry and Nichols Hatchery.

Nichols Poultry operates as an integrated poultry processing business, with Nichols Hatchery established as part of the supply chain to support poultry production.

Nichols Poultry is the largest Tasmanian meat poultry producer and operates its business from a facility located in Sassafras, Tasmania. Nichols Poultry is renowned as a market leader in the industry for quality, sustainability and animal welfare. Nichols Poultry's business practices include air chilled chlorine free chicken processing, onsite wind power generation and a high animal welfare standard with RSPCA accreditation.

DRAFT

Nichols Hatchery operates a breeder and hatchery business located at Sisters Creek, Tasmania approximately 100 kilometres from the Nichols Poultry facility and supports Nichols Poultry as an end-to-end meat poultry business by supplying day-old chicks to Nichols Poultry.

The Companies supply meat poultry products to a range of customers including but not limited to Coles, IGA Tasmania, PFD, Freshline Tasmania and Tasmanian Halal Meats in Tasmania and across mainland Australia.

From approximately 2023 onwards, the Wider Group undertook a divestment strategy, under which a number of operating business assets were sold.

By 2024, the Companies were experiencing ongoing financial and structural challenges within the Wider Group.

On 24 April 2026, Tasmanian Food Co. Dairy Pty Ltd, Van Diemen's Land Dairy Pty Ltd and JJJBSM Pty Ltd entered liquidation. These entities formed part of the Wider Group but were not included in the sale of the operating businesses previously undertaken. At the date of liquidation, each company was effectively dormant and did not conduct any trading operations. Based on investigations undertaken to date, there is no likelihood of any return or distribution being available to TasFoods shareholders as a result of the liquidation of Tasmanian Food Co. Dairy Pty Ltd, Van Diemen's Land Dairy Pty Ltd and JJJBSM Pty Ltd.

From Calendar Year 2024, being the period after divestments in June 2023 and December 2023, revenue declined to approximately $46.0m in Calendar Year 2024 and further to approximately $39.5m in Calendar Year 2025 indicating a contraction in trading activity with the Nichols Poultry business.

2.2 Appointment of Administrators

Following an inability to sell the businesses of Nichols Poultry and Nichols Hatchery and the State and Federal government confirming that government funding support will not be available to sustain operations and facilitate a sale of the poultry division, on 11 March 2026, Tim Mableson, David Hardy and Emily Seeckts were appointed as the Administrators pursuant to section 436A of the Act.

In section 7.6 of the Administrators' Section 75-225 Report, the Administrators stated that, in their opinion, the earliest date on which the Companies were insolvent was from at least 30 November 2025 being the period where creditors increased in amount and ageing across the Wider Group following years of trading losses, negative operating cash flows and payment arrangements with circa 20 creditors through the course of 2025 calendar year.

As you would be aware, the TasFoods Shares have been suspended from trading on the ASX since 20 February 2026.

2.3 Sale Process and formulation of the DOCA

Following their appointment, the Deed Administrators in their former capacity as Administrators of the Companies commenced the Sale Process on 18 March 2026 whereby emails were sent to a list of over 70 parties, with a flyer outlining the sale opportunities and timeline and an advertisement was published in the Australian Financial Review.

Confidentiality agreements were issued to interested parties for execution, of which 19 were executed and returned. Those 19 parties were then sent a further information memorandum.

Initial expressions of interest were sought by 30 March 2026, with 10 expressions of interests received. Following assessment of the expressions of interest received, multiple parties were advised they were moving forward to the next stage and negotiations were facilitated between the Administrators and interested parties. NBIOs were to be submitted by 27 April 2026 which resulted in six NBIOs being presented to the Administrators.

DRAFT

Following a review process and the Administrators' preliminary due diligence in relation to the received NBIOs, three parties were advised their offers were not acceptable and would not progress. In relation to the other three offers (one DOCA proposal and two going concern sale offers), those parties were advised that their offer could not be accepted in its current form, however negotiations commenced with each of them with the objective of improving their offers (i.e. quantum, conditionality).

Following negotiation and further due diligence, the Administrators elected to proceed with RAMP's DOCA proposal and presented that DOCA proposal to creditors of TasFoods for their approval.

An overview of the Sale Process is provided in section 5 of the Administrators' Section 75-225 Report.

In the Administrators' Section 75-225 Report, the Administrators recommended that creditors vote in favour of the DOCA proposed by RAMP.

3. Key information in relation to the DOCA

3.1 Overview

At the Meeting, the creditors of the Companies resolved that the Companies enter into the DOCA and that the Administrators be appointed as joint and several deed administrators (**Deed Administrators**).

The DOCA was executed by all parties on 29 May 2026.

The DOCA contemplates that the Deed Administrators will transfer all of the TasFoods Shares to RAMP or its nominee, free and clear of any encumbrances, on the condition that the orders sought by the Deed Administrators pursuant to the Section 444GA Application are made by the Court.

3.2 Conditions precedent to the DOCA

The implementation of the DOCA is conditional upon the satisfaction of certain Conditions, including:

(a) TasFoods obtaining ASIC Relief;

(b) the Court granting leave to transfer the TasFoods Shares in accordance with the Section 444GA Application; and

(c) transfer of the TasFoods Shares to RAMP

In the event that the conditions precedent to implementation of the DOCA are not satisfied or waived by the 'Sunset Date',[1], the Deed Administrators intend to convene a meeting of the creditors to consider the future of the Companies.

3.3 Key Terms

The key terms of the DOCA include:

(a) RAMP will make a cash contribution of $6.5 million, together with realisations from certain pre-appointment assets, which will form a pooled fund (**DOCA Fund**) for distribution to creditors of the Companies;

(b) following implementation, creditor claims will be dealt with in accordance with the terms of the DOCA, with distributions made by the Deed Administrators from the available DOCA Fund. The DOCA contemplates the claims of creditors across each of the Companies to be pooled such that one DOCA Fund is established and distributed across the creditors of the three Companies;

[1] Defined under clause 1.1 of the DOCA to mean '31 August 2026, or such other date as agreed by the parties to this deed in writing'. Pursuant to a letter dated 12 August 2026, the parties agreed to extend the Sunset Date until 1 October 2026.

DRAFT

(c) restrictions on creditor enforcement action while it remains on foot, allowing the restructuring process to proceed without disruption;

(d) the transfer of all current employees without seeking a deduction for employee leave entitlements, making it the best outcome for the majority of stakeholders (circa 160 employees as at the date of the Administrators' Section 75-225 Report); and

(e) RAMP would assume control and continue to trade the business as a going concern shortly after execution of the DOCA.

If the conditions precedent under the DOCA are satisfied and completion occurs under the DOCA, RAMP will continue to operate the Companies as a going concern.

4. Independent Expert Report

As noted above, the Section 444GA Application has been commenced by the Deed Administrators in the Court seeking leave of the Court pursuant to section 444GA(1)(b) of the Act for the transfer of the TasFoods Shares to RAMP.

Under subsection 444GA(3) of the Act, the Court may only grant leave to transfer the TasFoods Shares to RAMP or its nominee if it is satisfied that the transfer would not unfairly prejudice the interests of the Shareholders. The Deed Administrators intend to rely on the Independent Expert Report when addressing the issue of unfair prejudice before the Court.

The Expert was engaged to provide an independent opinion on whether the Share Transfer would unfairly prejudice the Shareholders. This involved the Expert valuing the TasFoods Shares on the liquidation value of the business of TasFoods as a whole (see ASIC regulatory guide 111.77). Where there is a residual business that could be sold, the Expert is to consider the value of that business and not just the assets and other undertakings that comprise that business interest. The Expert's analysis of the value of assets and liabilities has been undertaken as at 21 May 2026 (**Valuation Date**).

The Independent Expert Report will be relied upon by the Deed Administrators for the purpose of the Section 444GA Application and also for the purpose of applying for ASIC Relief. See Annexure A for a full copy of the Independent Expert Report. Shareholders (and their advisers and any other interested parties) should read the Independent Expert Report carefully and in its entirety.

By way of summary, the key findings of the Expert, as set out in Independent Expert Report, are as follows:

(a) the liquidation value of the issued shares in TasFoods as at the Valuation Date is nil; and

(b) the recoverable amount from realising the assets of the Company is insufficient to fund the full amount of the obligations of TasFoods in a liquidation scenario and hence there is no residual value for equity holders.

5. Section 444GA Application

5.1 Overview

The Section 444GA Application has been filed in the Court. A copy of the Interlocutory Process filed by the Deed Administrators is provided as Annexure D of this Explanatory Statement. On [Date TBC], the Court made the Procedural Orders pursuant to which:

(a) a timetable was set for the preparation of the matter for final hearing, which includes the dates by which any interested person (including any Shareholder who wishes to oppose the Section 444GA Application) must file with the Court and serve on the Deed Administrators and ASIC a notice of appearance in the prescribed form and indicating the ground of opposition, being no later than [Time/Date TBC]; and

DRAFT

(b) the final hearing date and time was set for [Time/Date TBC].

A copy of the Procedural Orders is provided as Annexure E of this Explanatory Statement. If you wish to appear at and/or oppose the Section 444GA Application at the final hearing, you will need to file with the Court and serve on the Deed Administrators and ASIC a notice of appearance in the prescribed Court form and indicate your grounds of opposition.

Pursuant to [Orders TBC] of the Procedural Orders, any appearance and grounds of opposition must be filed and served by an interested party who wishes to oppose the Section 444GA Application at the final hearing by no later than [Time/Date TBC].

The Deed Administrators will accept service of any appearance at HWLE Lawyers, Level 14, 83 Pirie Street, Adelaide SA 5000 (Attention: Wendy Jones / Emmalee Pacillo) or wjones@hwle.com.au / epacillo@hwle.com.au.

5.2 Important Dates

We draw your attention to the following key dates in relation to the Section 444GA Application:

Event	Date
Notice of appearance and grounds of opposition to be served by any Shareholder (or other interested person) seeking to appear at the hearing of the Section 444GA Application	[TBC]
Hearing date for the Section 444GA Application	[TBC]
Transfer of Shares (subject to court orders pursuant to Section 444GA Application and section 606 relief being granted by ASIC)	[TBC]

The dates, including the proposed hearing date, may be subject to any further directions made by the Court.

5.3 What will happen if the Section 444GA Order is not made?

As the Section 444GA Order is one of the Conditions (see section 3.2 above) to completion of the DOCA, the DOCA will not be effectuated if the Section 444GA Order is not made. In those circumstances, should the Deed Administrators elect not to appeal, or should any such appeal fail, the Deed Administrators will convene a meeting of the creditors of the Companies to determine the future of the Companies. If this occurs, the Deed Administrators will require further funding in order to continue to operate the business of the Companies. In the absence of further funding, or an alternate transaction capable of completing, the Companies will be placed into liquidation.

5.4 Effect of the Section 444GA Order on Shareholders

If the Section 444GA Order is made and the DOCA is fully implemented, all of your shares in TasFoods will be transferred by the Deed Administrators to RAMP or its nominee and you will not receive any money or form of consideration.

5.5 Australian income tax questions

This section of the Explanatory Statement is provided as general information for Shareholders who are Australian resident taxpayers holding their shares on capital account, not as trading stock, and who are not subject to the Taxation of Financial Arrangements rules in Division 230 of the *Income Tax*

DRAFT

Assessment Act 1997 (Cth) for the purposes of calculating any gains or losses arising from financial arrangements. It does not take account for the circumstances of individual Shareholders. You should seek your own tax advice on the consequences for you of the DOCA being effectuated and any transfer of your shares.

On effectuation of the DOCA, the Share Transfer may give rise to a Capital Gains Tax Event (**CGT Event**) for Shareholders because it will trigger a CGT Event and may crystallise a capital loss. Depending on each individual taxpayer's financial position, this capital loss may be available to offset against the taxpayer's capital gains, thereby potentially reducing the amount of tax otherwise payable by the taxpayer.

Australian Shareholders who hold their shares on capital account may incur a capital loss to the extent that the reduced cost base of the shares being transferred exceeds the market value of the shares.

The reduced cost base in the shares includes:

(a) the acquisition cost of the shares;

(b) incidental acquisition costs incurred to acquire and hold the shares;

(c) expenditure incurred to increase of preserve the value of the shares; and

(d) capital expenditure incurred to establish, preserve or defend their title to the shares.

Given the transfer will occur by way of Court order, and not a contract, the time of the CGT Event for Shareholders will be when the Share Transfer takes effect in accordance with the DOCA. The Deed Administrator anticipates that this will occur following the Final Hearing and completion of the DOCA.

Non-Australian resident Shareholders may not obtain the benefit of the capital loss on the basis that their shares may not constitute taxable Australian property.

6. ASIC Relief

As TasFoods is a listed company, ASIC Relief will be required in order to complete the transfer of shares to RAMP, or its nominee (to the extent permitted by the Section 444GA Application).

Section 606 of the Act prohibits a person from acquiring a relevant interest in a listed company or an unlisted company with more than 50 members if, as a result of that acquisition, that person's, or someone else's, voting power in the entity increases from 20% or below to more than 20%, or from a starting point that is above 20% and below 90%, unless the acquisition falls within one of the exceptions set out in section 611 of the Act.

The DOCA provides that, if the Section 444GA Application is approved, (amongst other conditions), RAMP will acquire 100% of the shares in TasFoods. Accordingly, the transfer of shares pursuant to the Section 444GA Application would increase RAMP's voting power in TasFoods from less than 20% to more than 20%.

In the absence of the ASIC Relief, the transfer would be prohibited under section 606 of the Act. For this reason, it is necessary to apply to ASIC for such exemptions or modifications from the requirements of Chapter 6 of the Act as are necessary to enable the Share Transfer to proceed.

A copy of this Explanatory Statement has been provided to ASIC for the purposes of the application for ASIC Relief. The application for ASIC Relief is made separately to the Section 444GA Application.

7. What do you need to do now?

Shareholders (and their advisers and any other interested parties) should read this Explanatory Statement (including the documents referred to in this Explanatory Statement) in its entirety before making a decision regarding whether or not to take any action in relation to the Section 444GA Application.

Please note that this Explanatory Statement does not constitute financial product advice and has been prepared without reference to the investment objectives, financial situation, taxation position or particular needs of any and every Shareholder.

Whether or not to take any action in relation to the DOCA or in respect of the Section 444GA Application is a decision for each individual Shareholder and may depend, amongst other things, on an assessment of the relevant Shareholder's individual financial circumstances. Accordingly, as the professional, financial, legal and taxation consequences of such a decision may be different for each particular Shareholder, each Shareholder should seek professional financial, legal and taxation advice before making a decision.

You are not required to do anything. However, if you take no action in respect of the Section 444GA Application, the Court will consider the Section 444GA Application in your absence and may grant leave to transfer your shares. If the Section 444GA Application is successful and the DOCA effectuates according to its terms, all of the TasFoods Shares will be transferred to RAMP for nil consideration. In these circumstances you will cease to own shares in TasFoods and you will not receive any money or any other form of consideration.

8. What information is available to you?

To assist you in deciding whether to take any action in relation to the Section 444GA Application, this Explanatory Statement attaches copies of the following documents:

(a) Independent Expert Report as Annexure A;

(b) DOCA as Annexure B;

(c) Administrators' Section 75-225 Report to Creditors as Annexure C;

(d) Interlocutory Process filed by the Deed Administrators in relation to the Section 444GA Application as Annexure D; and

(e) Procedural Orders as Annexure E.

Additional information is available is available on the on the Deed Administrators' website at **https://kpmg.com/au/en/creditors/tasfoods.html** in the Creditor Information section.

Alternatively, you can request copies of these documents from the Deed Administrators and they can be emailed or posted to you. Please contact tasfoods@kpmg.com.au if you would like copies of these documents.

Introduction

All capitalised terms in this report are defined in the glossary included in Appendix B.

1.1 TasFoods Limited trading under Australian Stock Exchange ticker "TFL", went into voluntary administration on 11 March 2026, at which time Tim Mableson, David Hardy, and Emily Seeckts of KPMG Australia were appointed joint and several voluntary administrators of the Company and its subsidiaries Nichols Poultry Pty Ltd and Nichols Hatchery Pty Ltd by the directors under section 436A of the Corporations Act and were subsequently appointed Deed Administrators.

1.2 After undertaking a financial and commercial review, the Administrators concluded that the business should continue trading while a sale was explored. This decision was supported by funding arrangements provided by the Company's secured creditor, NAB, which enabled the business to continue operating throughout the sale campaign. In the absence of this funding support, the Voluntary Administrators would likely have been unable to continue trading the business and would instead have been required to commence an orderly wind-down and asset realisation process.

1.3 The Administrators initiated a sale process of finding suitable buyers for the Company and sent out the sale opportunity to a list of 70 potential buyers on 18 March 2026 including parties from the pre appointment sales process and direct contacts identified by the Administrators. This was followed by a Confidentiality Deed Poll sent to interested parties, after which, an information memorandum was sent to 19 parties who executed the Deed Poll, which included information on TasFoods' business overview, assets, inventory, financial forecasts, and analysis from 23 March 2026. The Administrators also included an advertisement in the Australian Financial Review for the sale of TasFoods on 23 March 2026.

1.4 At the second meeting of creditors on 29 May 2026, the Administrators presented a Voluntary Administrators' report dated 21 May 2026 setting out the state of affairs of the Company, details of the inquiries and analyses, and their efforts to find buyers for the assets or equity of the Company.

Grant Thornton Corporate Finance Pty Ltd ABN 59 003 265 987 ACN 003 265 987 (holder of Australian Financial Services Licence No. 247140), a subsidiary or related entity of Grant Thornton Australia Limited ABN 41 127 556 389 ACN 127 556 389. 'Grant Thornton' refers to the brand under which the Grant Thornton member firms provide assurance, tax and advisory services to their clients and/or refers to one or more member firms, as the context requires. Grant Thornton Australia Limited is a member firm of Grant Thornton International Ltd (GTIL). GTIL and the member firms are not a worldwide partnership. GTIL and each member firm is a separate legal entity. Services are delivered by the member firms. GTIL does not provide services to clients. GTIL and its member firms are not agents of, and do not obligate one another and are not liable for one another's acts or omissions. In the Australian context only, the use of the term 'Grant Thornton' may refer to Grant Thornton Australia Limited ABN 41 127 556 389 ACN 127 556 389 and its Australian subsidiaries and related entities. Liability limited by a scheme approved under Professional Standards Legislation.

1.5 After a competitive sales process undertaken by the Administrators, they received expressions of interest from ten parties from which the Voluntary Administrators received six best and final offers via Sale Agreement/Land Contract or as a DOCA for the business, selected assets, or shares in the Company. Following this, the Administrators evaluated the six best and final offers and informed three parties that their offers were not accepted and would not progress.

1.6 The Report to Creditors included an assessment of potential courses of action available to creditors and the terms of one proposed DOCA and two going concern sale offers. It was the opinion of the Administrators that the approval of the proposed DOCA was in the creditors' interests. It was also the opinion of the Administrators that it was not in the creditors' interests for the voluntary administration to end, nor for the Company be wound up.

1.7 At the second meeting of Creditors, the creditors of the Company resolved that the Company execute the DOCA proposed by RAMP Tasmania Poultry Pty Ltd.

RAMP DOCA

1.8 RAMP Tasmania Poultry Pty Ltd, is the proponent of the DOCA, and is an entity established to pursue the recapitalisation and restructuring of the TasFoods poultry business. The RAMP DOCA Proponent has committed to provide funding and assume employee leave liabilities as part of the transaction to facilitate the continuation of operations on a going concern basis.

1.9 On 29 May 2026, the Company, the Administrators and RAMP DOCA Proponent executed the DOCA. A condition of the RAMP DOCA is that all of the issued shares in the Company are transferred to a company controlled by the RAMP DOCA Proponent, by the Deed Administrators making an application to the court pursuant to s444GA of the Corporations Act.

1.10 The Deed Administrators intend to apply to the Court for leave to transfer all the shares in TasFoods to the RAMP DOCA Proponent under section 444GA(1)(b) of the Corporations Act. TasFoods will also apply to ASIC for relief from the takeover provisions in Chapter 6 of the Corporations Act. Prior to the hearing of the Section 444GA Application, the Deed Administrators will provide an Explanatory Statement to shareholders of TasFoods.

Purpose of the Report

1.11 The Deed Administrators have instructed Grant Thornton to prepare an IER assessing the value of the TasFoods' Shares on a liquidation basis, in the absence of the RAMP DOCA (refer to section 3 for details). A copy of our instructions is attached in Appendix C.

1.12 In accordance with ASIC Regulatory Guide 111 Content of Expert Reports, we are required to provide an independent opinion as to the value, if any, of shareholders' residual equity. In determining shareholders' residual equity, it is necessary to assess the value of the Company's assets and business operations and deduct all borrowings, liabilities and creditor claims ranking ahead of shareholders. ASIC guidance indicates that, where the likely or necessary consequence of the proposed transfer of shares not being approved is the winding up or liquidation of the company, the assessment of shareholders' residual equity should generally be undertaken on a winding up or liquidation basis. Accordingly, our assessment considers the value that would remain available to shareholders after satisfaction of all prior ranking claims in the circumstances applicable to the Company.

1.13 We are aware that this Report will be tendered to the Court by the Deed Administrators as part of the evidence in support of the Section 444GA Application. Accordingly, we have read the Harmonised Expert Witness Code of Conduct (Code) contained in the Federal Court of Australia's Expert Evidence Practice Note (GPN-EXPT) and agree to be bound by it. We have made all inquiries which we believe are appropriate and desirable (save for any matters identified explicitly in

this Report) and no significant matters which we believe to be relevant have, to our knowledge, been withheld from the Court.

1.14 When preparing this IER, Grant Thornton Corporate Finance has had regard to ASIC's regulatory guides RG 111 *Contents of expert reports*, RG 112 *Independence of experts*, and RG 6 *Takeovers: Exceptions to the general prohibition*. The IER also includes other information and disclosures as required by ASIC.

Assessment of liquidation value and summary of our opinion

1.15 RG 111 requires an assessment of the value of the TasFoods' Shares on a liquidation basis. We adopt the definition of liquidation value from the International Valuation Standards[1] (refer to section 6 for details).

1.16 In assessing the liquidation value of TasFoods' shares, we have considered the financial distress experienced by the Company, which entered voluntary administration on 11 March 2026 following a period of sustained trading losses and profitability challenges.

1.17 In assessing the liquidation value of the TasFoods Shares, we have considered the assets and liabilities of the TasFoods Group as at 31 December 2025, the estimates and balances presented in the VAR dated 21 May 2026, discussions with the Deed Administrators, and independent property valuations prepared by Herron Todd White and Pickles. We were also provided with management accounts as at 28 February 2026; however, as these accounts were not prepared on a consolidated basis for TasFoods, we did not consider them an appropriate basis upon which to assess TasFoods' liquidation position.

1.18 Our analysis principally reflects the Administrators' estimates of creditor claims, available cash and near-cash assets, and the recoverable value of tangible assets under a liquidation scenario. Based on the information contained in the VAR and our discussions with the Administrators, we understand that the estimated recoverable value of TasFoods' net assets is insufficient to satisfy creditor claims in full, resulting in an estimated deficiency of approximately A$31.8 million. The liquidation analysis presented in the VAR was undertaken primarily by reference to Nichols Poultry, reflecting the Administrators' view that Nichols Poultry represents substantially all of the Group's operating assets and liabilities. By contrast, TasFoods as the ultimate holding entity and Nichols Hatchery were considered to have limited standalone operations, non-core assets and liabilities, and therefore a negligible influence on overall creditor recoveries. To assess TasFoods on a consolidated basis, we have incorporated the net liabilities of TasFoods as the ultimate holding entity and Nichols Hatchery into our analysis.

1.19 For the purposes of our liquidation assessment, we have adjusted the VAR analysis to eliminate intra-group balances and reflect the consolidated financial position of the TasFoods Group. As a result, our estimated liquidation outcome differs from that presented by the Administrators. The principal adjustments, which are discussed in further detail in section 7 comprise:

- the elimination of approximately A$22.6 million of intra-group creditor balances recorded within Nichols Poultry;
- the inclusion of approximately A$0.4 million of net liabilities attributable to TasFoods and Nichols Hatchery; and
- a reduction of approximately A$1.1 million in estimated asset realisations to reflect the uncertainty inherent in achieving third-party valuation outcomes in a forced sale environment.

Notes: (1) Actual number of shares

1.21 Grant Thornton Corporate Finance has assessed the liquidation value of the issued shares in TasFoods as at 21 May 2026 to be NIL under both the low and high liquidation scenarios. In our opinion, the recoverable amount from realising the assets of the Company is insufficient to fund the full amount of the obligations of the Company in either scenario and hence there is no residual value for equity holders.

Other matters

1.22 Grant Thornton Corporate Finance has prepared a Financial Services Guide in accordance with the Corporations Act. The Financial Services Guide is set out on pages 5 and 6 of this document. In preparing this report we have considered the interests of TasFoods' Shareholders as a whole. Accordingly, this report only contains general financial advice and does not consider the personal objectives, financial situations or requirements of individual shareholders.

Yours faithfully

2. Outline of the RAMP DOCA

Key terms of the RAMP DOCA

2.1 On the basis our valuation of the TasFoods' Shares is on a liquidation basis assuming the RAMP DOCA is not implemented, we present only a summary of the RAMP DOCA for context in this report. Full details are included in the Explanatory Statement which this IER accompanies and in the Report to Creditors.

Summary terms of the RAMP DOCA

2.2 The RAMP DOCA provides a framework for the restructuring and recapitalisation of the TasFoods Group through the continuation of the business as a going concern. Under the terms of the DOCA, the assets and liabilities of the group entities are pooled and administered collectively, with the objective of maximising the likelihood of ongoing operations, preserving employment, and delivering a superior outcome for creditors relative to an immediate winding up. The transaction is to be implemented through the transfer of 100% of the issued shares in TasFoods to the RAMP DOCA Proponent (or its nominee), subject to the receipt of all necessary regulatory and Court approvals, including an order under section 444GA of the Corporations Act. The Administrators will continue to oversee the Companies' affairs during the implementation of the DOCA, including managing operations while the restructuring transaction is progressed.

2.3 The RAMP DOCA Proponent has committed to contribute A$6.5 million in funding, forming the financial basis of the restructuring proposal and will assume employee leave liabilities and recognise continuity of employee service, without deduction from the DOCA contribution. The DOCA provides for a restructuring and recapitalisation of the Companies' balance sheet, with creditor outcomes expected to be superior to a liquidation scenario. The Companies will continue to operate on a going concern basis during the implementation period, facilitated through an implementation licence agreement granted to the RAMP DOCA Proponent.

2.4 Upon approval, the RAMP DOCA Proponent is expected to assume responsibility for trading operations and associated trading risks, reducing ongoing funding requirements from the administration estate. The proposal is intended to preserve enterprise value and facilitate an orderly recapitalisation, rather than an immediate wind-down or liquidation of the business.

2.5 Central to the RAMP DOCA is the establishment of a Deed Fund, which aggregates the financial resources available for distribution to creditors. The Deed Fund is controlled exclusively by the Deed Administrators and comprises:

- A proponent contribution of A$6.5 million (including a A$300k non-refundable deposit and a A$6.2 million balance payable at completion);
- Recoveries from pre-appointment debtors and unbilled revenue; and
- Other realisations from pre-appointment property of the TasFoods Group.

2.6 This funding structure is designed to create a centralised pool of recoveries for creditors, while also ensuring that certain transaction costs and implementation risks are borne by the RAMP DOCA Proponent and do not diminish creditor returns.

2.7 Distributions to creditors under the RAMP DOCA are governed by a statutory-style priority waterfall, broadly aligned to the Corporations Act. The Deed Fund is applied in the following order of priority:

- Secured creditor claims in respect of non-circulating assets, in accordance with their legal priority;
- Administrator and Deed Administrator liabilities and remuneration;
- Employee priority claims;
- Secured creditor claims in respect of circulating assets; and
- All other unsecured creditor claims on a pari passu basis.

2.8 Where the Deed Fund is insufficient to discharge a class of claims in full, distributions are made rateably within that class, and subordinate classes may not receive any return. Importantly, the RAMP DOCA does not prescribe fixed dividend outcomes. Instead, creditor recoveries are contingent upon the quantum of funds realised, the costs of the administration, and the operation of the priority waterfall.

2.9 National Australia Bank is the primary secured creditor, holding first-ranking security over the Company's assets. The RAMP DOCA explicitly preserves NAB's rights and provides that its debt is not compromised unless and until it is repaid in full. Accordingly, all amounts owing to NAB must be discharged at completion in order for its security to be released. Based on NAB's advice, the Administrators' have estimated the NAB debt to be approximately A$3.8 million as at 31 August 2026.

2.10 Employee creditors are afforded priority treatment consistent with statutory entitlements and are expected to receive favourable outcomes relative to a liquidation scenario, supported by the proponent's assumption of certain ongoing obligations and continuity of employment. Unsecured creditors rank behind secured and priority claims and participate in any residual funds in the Deed Fund on a pari passu basis. The Administrators' analysis indicates that unsecured creditors would likely receive nil return either in case of a DOCA or a liquidation. Upon completion of the RAMP DOCA and distribution of the Deed Fund, all creditor claims arising prior to the appointment date are compromised and extinguished, with creditors' rights limited to the distributions received under the RAMP DOCA.

2.11 We have summarised the Administrators' estimated dividends (cents per A$) payable to each class of creditor under the RAMP DOCA and the liquidation scenario below:

- Priority employees are expected to receive 100 cents in the dollar under both the high and low RAMP DOCA scenarios, compared with 57 cents and 49 cents in the high and low liquidation scenarios, respectively;
- NAB (first-ranking secured creditor) is expected to receive 100 cents in the dollar under the high RAMP DOCA scenario and 91 cents in the dollar under the low RAMP DOCA scenario, compared with 41 cents in the dollar under the low liquidation scenario[2];
- Research Corporation (second-ranking secured creditor) is expected to receive 9 cents in the dollar under the high RAMP DOCA scenario and nil in all other scenarios;

[2] High case scenario information withheld by the Administrators

- Unsecured creditors and related parties are not expected to receive any dividend in either the RAMP DOCA or liquidation scenarios.

2.12 Completion of the RAMP DOCA is conditional upon satisfaction or waiver of a number of conditions precedent, including:

- Execution of an implementation licence to facilitate continued trading (which was successfully completed on 30 May 2026);
- ASIC relief from takeover provisions;
- Court approval for the transfer of shares under section 444GA; and
- Confirmation that key leases, customer contracts and grower agreements remain in place.

2.13 These conditions must be satisfied (or waived) by the agreed sunset date of 31 August 2026 or such later date as agreed in writing by the Deed Administrators and the Proponent. Failure to do so may result in termination of the RAMP DOCA and a subsequent determination by creditors as to the future of the group, including potential liquidation.

2.14 If successfully implemented, the RAMP DOCA will result in a transfer of ownership of the TasFoods to the RAMP DOCA Proponent or its nominee, continuation of the business as a going concern under new control, preservation of employment for the majority of employees, and a structured return to creditors funded via the Deed Fund. The RAMP DOCA is binding on the companies, their officers, members, and all creditors in respect of pre-appointment claims, providing a comprehensive and legally enforceable framework for restructuring the group's liabilities and operations.

2.15 The RAMP DOCA represents a going-concern recapitalisation supported by a A$6.5 million funding pool, combined with asset realisations and operational continuity. The structure prioritises secured and employee claims while offering a pathway to recovery for unsecured creditors that would not be available under a liquidation scenario, albeit subject to execution risk associated with regulatory approvals and satisfaction of conditions precedent.

3. Purpose and scope of the report

Purpose

Section 444GA of the Corporations Act

3.1 The Deed Administrators appointed Grant Thornton to prepare an IER in relation to the liquidation value of the equity of TasFoods. This report will be used, as outlined in our letter of instructions (refer to Appendix C), for the following:

- For the purpose of assisting the Court in determining the Administrators' proposed application pursuant to section 444GA(1) of the Corporations Act in order to assist the Court in determining whether the Section 444GA Application will unfairly prejudice TasFoods' Shareholders.
- For the purpose of the application to ASIC for technical relief from the takeover provisions of the Corporations Act.
- To be provided in an Explanatory Statement to be sent to Shareholders of TasFoods prior to the Court hearing of the Section 444GA Application so as to provide them with the liquidation value of TasFoods' equity.

3.2 The implementation of the RAMP DOCA amongst other things, is conditional upon, ASIC granting relief from S606 (under S655A) and the Court approving the Section 444GA Application to transfer all TasFoods' Shares to an entity associated with the RAMP DOCA Proponent. Pursuant to section 444GA(3) of the Corporations Act, the Court will only approve such a transfer if it is satisfied that the proposed share transfer will not "unfairly prejudice the interests of members of the company". The proposed share transfer will not unfairly prejudice Shareholders if the TasFoods' Shares have no value given that under the RAMP DOCA, there is no potential for the TasFoods' Shareholders to receive any distribution.

3.3 We are aware that this Report will be tendered to the Court by the Deed Administrators as part of the evidence in support of their section 444GA application. As a consequence, we have read the Harmonised Expert Witness Code of Conduct (Code) contained in the Federal Court of Australia's Expert Evidence Practice Note (GPN-EXPT) and agree to be bound by it. We have made all inquiries which we believe are appropriate and desirable (save for any matters identified explicitly in this Report) and no significant matters which we believe to be relevant have, to our knowledge, been withheld from the Court.

Basis of assessment

3.4 In the preparation of this IER, Grant Thornton Corporate Finance has had regard to relevant Regulatory Guides issued by the ASIC, including RG 111 *Content of expert reports*, RG 60 *Schemes of arrangement*, RG 6 *Takeovers: Exception to the general prohibition*, and RG 112 *Independence of experts*. The IER will also include other information and disclosures as required by ASIC.

3.5 RG 111 establishes certain guidelines in respect of IERs prepared for the purposes of the Corporations Act. RG 111 is framed largely in relation to reports prepared pursuant to section 640 of the Corporations Act and comments on the meaning of "fair and reasonable" in the context of a takeover offer. RG 111 notes, however, the ability of administrators to transfer shares under the terms of a DOCA would breach the general prohibition on the acquisition of shares that results in a holding of 20% or more of the voting shares of a

company. RG 111 states that for the requirements of section 444GA, the expert's report should provide an independent opinion of the value, if any, of shareholders' residual equity. The expert is not required to form a view on the 'fairness' or 'reasonableness' of the transaction. RG 111 also requires that in expert's reports for section 444GA, the shareholders' residual equity should be derived by assessing the value of the company's assets and/or business operations, less borrowings, other liabilities and creditors' claims. Further, it states that the value of shareholders' residual equity should be assessed on the basis that the company is in administration.

3.6 RG 6 requires that because there is no statutory exception for the acquisition of shares of 20% or more, the administrators need to seek relief from section 606 from ASIC. ASIC may grant case by case relief from the requirements of section 606 to administrators where 1) an IER concludes that the shareholders have no residual equity in the company; 2) the shareholders are provided with an explanatory statement setting out certain matters including the IER; and 3) and the Court grants leave under section 444GA.

3.7 In accordance with RG 111 relating to expert's reports for section 444GA, our assessment of the residual equity for shareholders will be:

- derived by assessing the value of the company's assets and/or business operations, less borrowings, other liabilities and creditors' claims.
- assessed on the basis that the company is in administration requiring a winding-up or liquidation standard of value.

Independence

3.8 Prior to accepting this engagement, Grant Thornton Corporate Finance (a 100% subsidiary of Grant Thornton Australia Limited) considered its independence with respect to the deeds of company arrangement proposed to the Deed Administrators with reference to RG 112 issued by ASIC.

3.9 Grant Thornton Corporate Finance has no involvement with, or interest in, the outcome of the approval of the RAMP DOCA other than that of an independent expert. Grant Thornton Corporate Finance is entitled to receive a fee based on commercial rates and including reimbursement of out-of-pocket expenses for the preparation of this report.

3.10 Except for these fees, Grant Thornton Corporate Finance will not be entitled to any other pecuniary or other benefit, whether direct or indirect, in connection with the issuing of this report. The payment of this fee is in no way contingent upon the successful implementation of the RAMP DOCA.

3.11 In our opinion, Grant Thornton Corporate Finance is independent of TasFoods and its Directors, the Deed Administrators and all other relevant parties of the deeds of company arrangement proposed to the Administrators.

Compliance with APES 225 Valuation Services

3.12 This report has been prepared in accordance with the requirements of the professional standard APES 225 Valuation Services as issued by the Accounting Professional & Ethical Standards Board. In accordance with the requirements of APES 225, we advise that this assignment is a Valuation Engagement as defined by that standard as follows:

"An Engagement or Assignment to perform a Valuation and provide a Valuation Report where the Member is free to employ the Valuation Approaches, Valuation Methods, and Valuation Procedures that a reasonable and informed third party would perform taking into consideration all the specific facts and circumstances of the Engagement or Assignment available to the Member at that time."

4. Industry overview

Australian Poultry Industry

4.1 The Australian poultry industry represents a defensive, non-discretionary segment within the broader protein supply chain, underpinned by structurally resilient consumption trends and a high degree of vertical coordination. At its core, the sector is characterised by the production of broiler chickens within a contract-based grow-out model, whereby independent farmers supply birds to downstream processors operating within tightly integrated supply chains. TasFoods group structure includes Nichols Poultry, that focuses on the production of broiler chickens and Nichols Hatchery that focuses on supplying day old chicks to Nichols Poultry which not only grows the chickens but also processes them into retail ready product for sale to retailers, forming a vertically integrated business. Please refer to Section 5 for more information on Nichols Poultry and Nichols Hatchery. The industry generated approximately A$780 million in revenue in 2025–26 and has experienced modest growth over the past decade as demonstrated in the figure below, with future expansion expected to track broadly in line with population growth and incremental dietary substitution effects.

Figure 2 – Australian poultry market historical performance

Note: These figures are real FY26 A$

4.2 According to the IBISWorld report, demand fundamentals remain robust and structurally favourable. Chicken has established itself as the dominant protein in the Australian diet, benefiting from a compelling value proposition driven by price competitiveness, nutritional positioning as a lean protein, and broad culinary versatility. Consumption patterns have been further reinforced by macroeconomic conditions, particularly in the post-pandemic environment, where elevated inflation and cost-of-living pressures have resulted in sustained consumer substitution away from higher-cost proteins such as beef and lamb toward poultry products. As a result, poultry consumption has continued to exhibit steady per capita growth, providing a stable demand base despite broader volatility across food categories.

4.3 Notwithstanding favourable demand dynamics, the industry operates within a structurally constrained profitability environment, with margins typically compressed by a combination of input cost exposure and

downstream pricing power. Poultry farming is inherently capital-intensive and operationally rigid, requiring continuous expenditure on utilities, feed, and biosecurity measures. Feed costs, which are primarily wheat-based, remain the single largest cost input and are subject to global commodity price fluctuations. At the same time, growers have limited ability to pass through these cost increases, as pricing is largely determined through contractual arrangements with processors and ultimately influenced by retail dynamics. This structural imbalance has resulted in persistently low industry profitability, with margins averaging in the low single digits.

4.4 The competitive landscape further reinforces these pressures. While the grower base remains highly fragmented with the vast majority of operators controlling relatively small-scale farms, the downstream value chain is dominated by a small number of large processors and major supermarket chains, resulting in a concentration asymmetry that materially shifts bargaining power away from producers. As referenced in the IBISWorld report on Poultry Meat Farming in Australia, growers are effectively price takers, with processors controlling key variables such as bird placement, feed supply, production schedules, and specification standards. This dynamic has been compounded by the increasing prevalence of direct sourcing by supermarket chains, which has further disintermediated traditional wholesale channels and strengthened retailer influence over pricing and margin allocation across the value chain. This is expected result a modest growth in the industry, as shown in the figure below:

4.5 According to IBISWorld, these dynamics have led to a gradual but meaningful restructuring of the industry toward greater consolidation and institutionalisation, particularly at the grow-out infrastructure level over time. Larger, capital-backed operators are increasingly able to deploy significant capital to expand production capacity, modernise facilities, and secure long-term contract arrangements with processors. This trend is evident in the growth trajectories of leading operators such as ProTen (having a market share of c. 22% in FY26), which have pursued acquisition-led expansion strategies and benefited from private equity investment. The influx of institutional capital reflects a broader recharacterisation of poultry farming assets as infrastructure-like investments, offering stable, contract-backed cash flows with limited direct exposure to commodity price volatility.

4.6 Concurrently, evolving consumer preferences are reshaping product mix and production methodologies across the industry. There has been a marked shift toward higher-welfare production systems, particularly free-range and organic poultry, driven by increasing consumer awareness of animal welfare and food provenance. While conventional broiler production remains dominant, premium segments now account for a growing share of industry revenue, necessitating changes in farm design, stocking densities, and compliance requirements. These adjustments introduce additional capital and operating costs, which in turn favour larger operators with the balance sheet capacity to invest in upgraded facilities and meet evolving regulatory standards. The figure below highlights the product mix of the Australian poultry industry for FY26.

4.7 From an operational perspective, biosecurity and disease management have emerged as critical determinants of both risk and competitiveness. The Australian poultry industry, while comparatively insulated due to strict import controls, remains exposed to periodic outbreaks of avian influenza, which can result in significant short-term supply disruptions, mandatory culling, and increased compliance costs. Recent outbreaks have underscored the importance of robust biosecurity frameworks and have accelerated investment in controlled-environment farming systems, enhanced monitoring protocols, and traceability infrastructure. As a result, biosecurity is increasingly viewed not simply as a regulatory requirement but as a strategic capability, with implications for long-term contract eligibility and processor relationships.

4.8 Within this national context, Tasmania occupies a distinct and strategically differentiated position. Although it represents a relatively small portion of the national production base which accounts for approximately 2% of poultry farming enterprises, the state's geographic isolation and supply chain characteristics give rise to unique competitive dynamics. Poultry production in Tasmania operates within a more self-contained ecosystem, with limited capacity to rely on interstate supply due to logistical constraints and biosecurity considerations. This reinforces the importance of local production capability and elevates the strategic value of established operators such as Nichols Poultry. Notwithstanding these characteristics, the Tasmanian poultry market has experienced heightened competitive pressures in recent years as surplus poultry volumes from mainland Australian processors and wholesalers have increasingly entered the state. This has contributed to periods of heavily discounted wholesale pricing and increased margin pressure across the sector, partially eroding the benefits traditionally associated with Tasmania's relatively insulated market structure.

4.9 Further, the Tasmanian market also presents inherent structural limitations, most notably in relation to scale. Compared to mainland operators, Tasmanian producers face challenges in achieving comparable economies of scale, particularly in areas such as feed procurement, logistics, and capital investment. This can result in relatively higher unit costs and increased sensitivity to input price volatility. Consequently, operational efficiency, vertical integration, and strong customer relationships become critical differentiators in sustaining competitive positioning. These factors are directly relevant in the context of TasFoods as it has recently faced sustained cost pressures, operational inefficiencies, and competitive dynamics as key contributors to financial distress within the Group's poultry operations.

4.10 Looking forward, the industry is expected to remain in a mature, low-growth phase, with revenue projected to expand at a modest pace over the medium term as presented in Figure 3. Growth will continue to be driven primarily by population increases, incremental gains in per capita consumption, and the expansion of premium product segments. At the same time, margin expansion is likely to remain constrained by persistent supermarket pricing pressure, rising compliance costs associated with welfare and biosecurity standards, and ongoing capital requirements for facility upgrades. As a result, the competitive landscape is expected to increasingly favour scale operators and vertically integrated platforms, with smaller independent growers facing mounting pressure to either consolidate, specialise, or exit the market.

4.11 From an investment perspective, the Australian poultry industry therefore presents a defensive but operationally demanding asset class, where value creation is primarily driven by scale, integration, and execution rather than market growth. In Tasmania specifically, these characteristics are amplified, with market participants benefiting from relative isolation and stable demand but constrained by structural limitations in size and cost efficiency. For TasFoods and the Nichols Poultry platform, this translates into a strategic positioning that is fundamentally sound from a demand and market structure standpoint, but highly sensitive to execution risk, cost management, and capital discipline within a low-margin operating environment.

5. Profile of TasFoods

Overview and business model

5.1 TasFoods was established in 2015 as an Australian agribusiness that, at the time of its entry into voluntary administration on 11 March 2026, operated as a largely single-segment, vertically integrated poultry producer based in Tasmania.

5.2 Historically, TasFoods pursued a broader strategy focused on premium Tasmanian food products across poultry, dairy and horticulture. Operations were conducted through a number of wholly owned subsidiaries, including Nichols Poultry, Nichols Hatchery, Tasmanian Food Co Dairy Pty Ltd (Pyengana Dairy), Van Diemen's Land Dairy Pty Ltd (Betta Milk and Meander Valley Dairy) and JJJBSM Pty Ltd (formerly Shima Wasabi).

5.3 Through a multi-year restructuring program, the Group divested the Shima Wasabi, Betta Milk and Meander Valley Dairy businesses, and subsequently commenced a sale process for Pyengana Dairy. As a consequence, by the time of the administration, the Group's substantive trading operations were primarily concentrated in the vertically integrated poultry business conducted through Nichols Poultry and Nichols Hatchery.

5.4 The business therefore comprises a consolidated and integrated operating platform spanning upstream breeding and hatchery functions through to downstream processing, packaging and distribution. The operating model is predicated on controlling the full poultry value chain, with the objective of ensuring product quality, supply reliability and margin capture across multiple stages of production. Outlined below is TasFoods' group structure.

Source: Sale process Information Memorandum

5.5 Below we provide an overview of the history of the Company. A detailed account of the events below is outlined in the Report to Creditors.

Corporate and operating structure

5.6 TasFoods primarily operates as a holding entity with a few employees and certain contract head office functions, with its principal trading activities conducted through two key subsidiaries. Nichols Hatchery undertakes upstream breeding and hatchery activities, supplying day-old chicks into the production system, while Nichols Poultry constitutes the primary operating entity responsible for growing, processing and sale of poultry products. This structure facilitates a functionally integrated production chain, whereby hatchery

output flows directly into grow-out and processing operations with limited reliance on third-party suppliers for core biological inputs. This integration is a key feature of the business, enabling greater control over production scheduling, animal health management and quality outcomes.

Operational platform and assets

5.7 The TasFoods poultry business is supported by a material operational footprint in Northern Tasmania, encompassing both agricultural and processing infrastructure. The core operating site at Sassafras comprises growing sheds and processing facility situated on approximately 91 hectares. The operating platform includes multiple broiler sheds, a processing plant and associated infrastructure required to undertake slaughtering, processing and preparation of poultry products. The processing facility, originally developed in the late 1980s and subsequently upgraded, provides capacity to process poultry at a commercial scale for distribution to retail and wholesale customers.

5.8 Complementing these assets are hatchery facilities and associated plant and equipment located at sites including Sisters Creek, which collectively support internal chick supply and enable continuity of production. The Group's asset base extends across both hatchery and processing operations and includes specialised plant and equipment integral to poultry production. These assets represent a key component of the Group's underlying value, particularly in a liquidation context where recovery is linked to the condition, transferability and secondary market demand for such equipment.

Business activities and revenue generation

5.9 TasFoods generates revenue primarily through the processing and sale of poultry products into the Australian domestic market, with a primary geographic focus on Tasmania. The business supplies a range of fresh poultry products to customers, including major retail counterparties, supported by established commercial relationships and supply arrangements. The vertically integrated operating model enables the Group to manage the full production lifecycle from breeding through to final sale, providing enhanced control over cost, quality and supply. However, this model also results in a capital-intensive and relatively high fixed cost structure, reflecting the requirements of maintaining hatchery, growing and processing infrastructure.

5.10 Accordingly, revenue and profitability are closely linked to production volumes and processing. Changes in demand or pricing environment can have a disproportionate impact on financial performance, given the relatively inflexible cost base.

Trading performance and financial profile

5.11 The Company's financial disclosures indicate that it has been operating in a challenging trading environment, characterised by poultry market oversupply, competitive pricing pressure and elevated input costs. For the calendar year ended 31 December 2025, the Group reported a statutory net loss after tax of approximately A$11.1 million.

5.12 The deterioration in operating performance has been driven by a combination of external market factors and internal cost pressures. In addition, impairments have been recognised against poultry assets following a reassessment of recoverable values, indicating a reduction in the carrying value of components of the operating platform.

Administration and current status

5.13 On 11 March 2026, TasFoods entered voluntary administration following ongoing liquidity pressures, sustained operating losses and the inability to complete a sale of the poultry business. The Deed Administrators assumed control of the Group and continue to operate the business on a going-concern basis while pursuing restructuring, recapitalisation or sale outcomes. This assessment is supported by the Administrators' efforts to market the business on a going-concern basis while pursuing restructuring, recapitalisation or sale alternatives. The Administrators tested market interest with the support of the Company's banking syndicate, with the objective of preserving employment and maximising stakeholder value. Accordingly, the sale process described in the Information Memorandum dated March 2026 positions the business as an established, vertically integrated poultry operation with recognised branding and customer relationships.

Overview in a liquidation context

5.14 For the purposes of an Independent Expert assessment on a liquidation basis, TasFoods is appropriately characterised as a capital-intensive, vertically integrated poultry enterprise comprising interdependent operating assets. However, given the Group's concentration within a single operating segment, combined with its recent financial performance and exposure to adverse industry conditions, value realisation in a liquidation scenario is likely to be driven by the individual realisability of discrete asset classes, rather than continuation of the enterprise as a whole.

5.15 In this context, realisation outcomes are expected to depend on the extent to which components of the operating platform, including processing infrastructure, hatchery assets and specialised plant and equipment can be sold either on a continued-use basis or as standalone assets.

5.16 Below is a summary of the Company's revenue growth between CY20 and CY24.

Note: (1) Historical revenue includes other business units which forms part of the broader restructure strategies and various business units were subsequently sold.

Financial and operational challenges

5.17 In the period leading up to its voluntary administration in March 2026, TasFoods experienced sustained financial underperformance, driven by structural challenges within its core poultry operations and ongoing cash flow pressures. The Group had reported consecutive losses, reflecting a combination of declining revenues, margin compression and ongoing cost pressures. In particular, the poultry division, which had become the Company's primary operating segment following the divestment of non-core assets, was adversely impacted by rising input costs and subdued market demand, resulting in reduced profitability and increasing cash flow constraints.

5.18 Market conditions within the poultry industry further exacerbated the Company's financial position. The Tasmanian poultry market was characterised by a sustained oversupply of mainland product, which placed downward pressure on wholesale prices and led to increased competition across distribution channels. This dynamic limited the Company's ability to pass through cost increases and significantly eroded operating margins. As a result, trading performance remained volatile and insufficient to support the Group's cost base, contributing to ongoing operating losses and weakening the Company's balance sheet position.

5.19 In response to these challenges, TasFoods pursued a number of strategic initiatives aimed at stabilising its operations and improving financial performance. These included cost rationalisation measures, operational efficiencies within the poultry supply chain, and targeted capital management initiatives. Despite these efforts, the Company remained exposed to adverse market conditions and continued to experience negative operating cash flows. The Company's limited liquidity position constrained its ability to fund working capital requirements and invest in necessary operational improvements, including plant upgrades required to improve efficiency and maintain competitiveness.

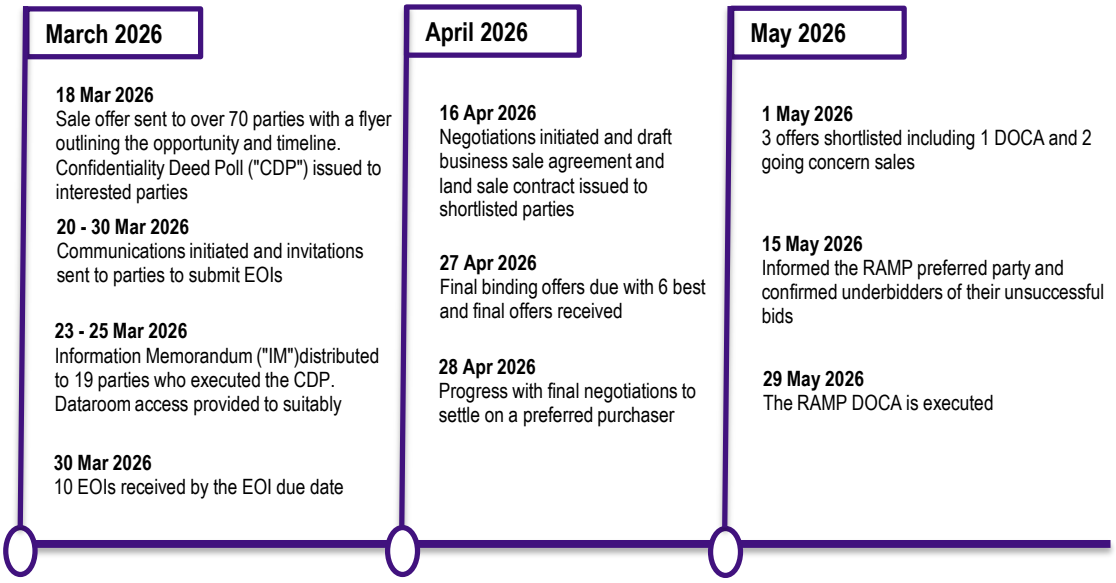
5.20 Concurrently, the Company undertook a structured sale and recapitalisation process in an attempt to deliver an alternative outcome for stakeholders. Significant efforts were made to identify potential purchasers or investors for the Nichols Poultry business, which represented the Group's principal asset and value driver. Notwithstanding these efforts, the sale process did not result in a completed transaction, and the Company was unable to secure a binding offer on acceptable commercial terms. The failure to execute a sale, combined with ongoing trading losses, further reduced the Company's financial flexibility and heightened solvency concerns.

5.21 As the Company's cash flow issues intensified and no viable recapitalisation or sale options were able to be implemented in the required timeframe, the Board determined that voluntary administration represented the most appropriate course of action to preserve value for creditors and stakeholders. Accordingly, on 11 March 2026, the Company appointed the Voluntary Administrators to take control of TasFoods and pursue restructuring options, including a potential going-concern transaction.

Sale process

5.22 Below we provide a timeline summary of the sale process initiated in March 2026 (refer to Voluntary Administrator's Report for details).

Figure 7 - Timeline summary of the sale process



Source: Voluntary Administrator's report

5.23 Based on the final binding offers, the Administrators deemed the RAMP DOCA Proposal to be in the best interest of the Company's creditors and stakeholders. The RAMP DOCA Proposal is based on a total consideration of c. A$6.5 million as also outlined in further detail in section 2, which comprises:

- A$300k non-refundable deposit already paid,
- A$6.2 million cash to be paid upon completion of the DOCA, and
- The retention of the Company's employees' entitlements for continuing employees.

5.24 In addition to the proposal received from the RAMP DOCA Proponent, the Administrators received two alternative going-concern sale offers. Following their assessment of the available alternatives, the RAMP DOCA proposal was considered to represent the best available outcome for creditors and stakeholders and the RAMP DOCA was subsequently executed on 29 May 2026.

Note: (1) Historical business results of the reporting group of activities

5.26 Based on the above, we note the following:

- Operating revenue declined over CY23 to CY25, with this trend being consistent with the challenging trading conditions experienced by the Group, particularly in the poultry division, and reflects reduced sales volumes and ongoing market pressures. Other income was relatively modest and non-core across CY23 and CY24.

- TasFoods implemented supply chain optimisation, portfolio rationalisation and operational efficiency initiatives in CY23 to mitigate cost pressures; however, profitability remained challenged by continued poultry market oversupply, competitive pricing and subdued consumer demand.

- In response to the ongoing losses and financing constraints, TasFoods undertook a significant restructuring program in CY23 and CY24, including divestment of non-core businesses, corporate simplification and overhead reductions. While these initiatives reduced the operating cost base, the benefits were partially offset by challenging trading conditions and the need to continue investing in operational improvements across the remaining poultry-focused business.

- Importantly, we note that the Company, when it had its portfolio of food related business, and when it had been reduced to just the poultry activities, has not had positive NPAT, EBIT or EBITDA in any year over the look-back period.

5.27 Below we outline the profit and loss statement for TasFoods' discontinued operations which mainly consists of the operations of Nichols Poultry and Nichols Hatchery for the calendar year ended 31 December 2025 that were considered to be held for sale under financial reporting requirements.

Source: TasFoods' Annual Reports
Note: (1) Related to the Nichols Hatchery and Nichols Poultry businesses

5.29 Based on the above, we note the following:

- The sharp decrease in net assets, was driven by the ongoing operating losses, which led to TasFoods' increased borrowings, which were paid back from the proceeds of sale of businesses. TasFoods paid back parts of the ANZ term debt following the sale of Betta Milk and Meander Valley Dairy and Shima Wasabi in CY23.

- The cash and cash equivalents balance in CY23 was primarily attributable to proceeds received from the sale of the Betta Milk, Meander Valley Dairy and Shima Wasabi businesses. These transactions generated significant cash inflows, enabling the repayment of all ANZ debt facilities while increasing year-end cash balances to approximately A$3.4 million in CY23.

- Biological assets mainly consist poultry and is measured at fair value less costs to sell in accordance with AASB 141 Agriculture. Any changes to the fair value are charged to the income statement as a separate line item as fair value adjustment of biological assets. Inventories mainly include finished goods (including

direct materials, direct labour, and an appropriate proportion of manufacturing variable and fixed overheads), biological assets reclassified as inventory, and raw, materials & packaging.

- The decline in the carrying value of Property, Plant, and Equipment from c. A$17 million in CY23 to c. A$9 million in CY24 is mainly due to business disposals in CY23 and an impairment charge of c. A$6 million charged to the Company's remaining poultry related PPE in CY24.

- Trade and other receivables include the amounts due from customers for goods sold and services performed in the ordinary course of the business.

- Intangible assets predominantly reflect water rights and intellectual property (related to SAP implementation costs), which have decreased over CY23 to CY24 due to accumulated impairment & amortisation.

5.30 Current borrowings decreased from A$2.3 million in CY23 to A$0.9 million in CY24, primarily reflecting refinancing activities and the reclassification of debt into longer-term facilities. However, current borrowings increased to approximately A$2.5 million in CY25 as the Group faced continued trading losses, tightening liquidity, and increasing working capital pressures in the period leading up to voluntary administration. At the same time, the proportion of borrowings classified as current liabilities increased in CY25 as debt maturities approached, consistent with the Group's deteriorating financial position.

5.31 In CY23, TasFoods conducted a portfolio restructuring and debt repayment program which reduced payables as the operating footprint was simplified and a number of business units were divested. However, payables remained an important source of working capital funding given the continued operating losses and challenging market conditions experienced by the poultry business through CY24.

5.32 Below we outline the balance sheet for TasFoods' discontinued operations which mainly consists of the operations of Nichols Poultry and Nichols Hatchery for the calendar year ended 31 December 2025 that were considered to be held for sale under financial reporting requirements.

5.33 In respect of the above, we note the balances are included in Figure 14 as:

- Trade & other receivables and prepayments have been included in pre-appointment debtors;
- Biological assets and inventory have been included in the estimated trading losses;
- PPE and accumulated depreciation have been included in the PPE, however we understand that the PPE market values in Figure 14 below primarily reflect the independent valuation undertaken by Herron Todd White and Pickles;
- Right of use assets and lease liabilities are not considered to have any value in the case of a liquidation because they arise from the requirements of financial reporting and the assets cannot be realised, and any lease break fees are already included in the costs of realisation on a liquidation basis, and therefore not included;
- Intangible assets are also not considered to have any value, which is further explained in section 7;
- Trade & other payables have been included in unsecured creditors and provisions have been included in outstanding rates, taxes, and statutory charges; and
- Cash overdraft and borrowings have been included in secured creditors and Research corporation.

5.35 Despite Management's efforts to improve liquidity through asset sales and equity raisings, operating cash flow remained consistently negative from CY23 to CY25, indicating that the underlying business was unable to generate sufficient cash to fund operations on a sustainable basis.

5.36 CY23 represents a temporary improvement in total cash flow, driven primarily by investing inflows of c. A$10.5 million (mainly related to the discontinued operations) rather than operational efficiency.

5.37 The sharp deterioration in operating cash outflows in CY25 of c. A$3 million, despite materially reduced capital expenditure highlights the severity of the earnings and working capital pressures facing the business immediately prior to the VA.

5.38 The movement in cash balances demonstrates a sustained erosion of liquidity, as TasFoods' cash and cash equivalents at the end of the calendar year decreased from c. A$3.4 million in CY23 to negative c. A$400k in CY25. This trend is consistent with a business experiencing structural profitability challenges and limited financial flexibility.

5.39 Overall, TasFoods' cash flow profile suggests the Company's financial position became increasingly unsustainable over the period, with recurring operating losses, declining financial capacity, and reliance on non-recurring asset sales.

Share Capital structure

5.40 TasFoods' capital structure as at 11 March 2026 (date TasFoods entered into voluntary administration) comprised 302,397,710 ordinary shares, as provided by the Administrators. The Administrators advise that there have been no changes to the issued share capital since that time.

6. Valuation methodologies

Introduction

6.1 Grant Thornton Corporate Finance has assessed the value of TasFoods' Shares adopting the definition of liquidation value from the International Valuation Standards as follows[3].

"The amount that would be realised when an asset or group of assets are sold on a piecemeal basis. Liquidation Value should take into account the costs of getting the assets into saleable condition as well as those of the disposal activity. Liquidation Value can be determined under two different premises of value:

(a) an orderly transaction with a typical marketing period, or

(b) a forced transaction with a shortened marketing period."

6.2 In light of the process undertaken by the Administrators and the assessments of realisable values of the assets of the Company made from that process, and combined with the obligations of any liquidation to maintain animal welfare standards, we adopt the orderly realisation premise of liquidation value for the purposes of our assessment.

Valuation methodologies

6.3 RG 111 outlines the appropriate methodologies that a valuer should generally consider when valuing assets or securities for the purposes of, amongst other things, share buy-backs, selective capital reductions, Schemes of arrangement, takeovers and prospectuses. Outlined below is a brief overview of the methodologies typically applied. Refer to Appendix A for a detailed description.

- *DCF Method* – Discounted cash flow and the estimated realisable value of any surplus assets.
- *FME Method* – Application of earnings multiples to the estimated future maintainable earnings or cash flows of the entity, added to the estimated realisable value of any surplus assets.
- *NAV Method* – Amount available for distribution to security holders in an orderly realisation of assets.
- *QSP Method* – Quoted price for listed securities, when there is a liquid and active market.
- Any recent genuine offers received by the Company for any business units or assets as a basis for valuation of those business units or assets.

6.4 Further details on these methodologies are set out in Appendix A to this report. Each of these methodologies is appropriate in certain circumstances.

6.5 RG 111 does not prescribe any above methodologies as the method(s) that an expert should use in preparing their report. The decision as to which methodology to use lies with the expert based on the expert's skill and judgement and after considering the unique circumstances of the entity or asset being valued. In

general, an expert would have regard to valuation theory, the accepted and most common market practice in valuing the entity or asset in question and the availability of relevant information.

Selected valuation methods

Valuation of TasFoods

6.6 We have undertaken a valuation assessment of TasFoods utilising the NAV Method under a liquidation premise, which assumes that the operations of TasFoods will cease to exist, and its assets will be liquidated to pay outstanding creditor balances and other liabilities. We have selected this as our main method for the following key reasons:

- In accordance with the requirements of ASIC RG 111, we have assessed the equity value of TasFoods under a liquidation premise of value in order to assist the Court in determining whether the RAMP DOCA will unfairly prejudice the Shareholders of the Company.

- Typically, the NAV Method is most appropriate for distressed businesses and those in liquidation.

6.7 While TasFoods is an ASX-listed entity, we have not adopted the Quoted Security Price Method in assessing the value of TasFoods' Shares. In our view, trading prices of the Shares during the period immediately preceding administration are not representative of residual equity value in a liquidation scenario. Consistent with RG 111, shareholder value must be assessed having regard to the Company's financial position in administration and the recoverable value of its assets after satisfaction of creditor claims.

6.8 We also note that the valuation assessment benefits from extensive market testing undertaken by the Administrators. The sale process involved approaches to approximately 70 potential purchasers, and public marketing via the AFR, with execution of confidentiality arrangements by 19 interested parties and receipt of multiple binding proposals. Accordingly, the estimated realisable values adopted by the Administrators are informed by actual market evidence obtained through a competitive, albeit expedited sale process rather than being based solely on theoretical valuation assumptions.

6.9 We provide a detailed overview of our valuation in section 7 below.

7. Valuation assessment of TasFoods

Summary of our conclusions

7.1 We have assessed the liquidation value of the TasFoods Shares having regard to the assets and liabilities as at 31 December 2025, the balances presented in the VAR dated 21 May 2026, and information obtained through discussions with the Deed Administrators. In undertaking our analysis, we considered the Administrators' information and estimates relating to creditor claims, cash balances and expected asset recoveries, as set out in the VAR and supplemented through those discussions.

7.2 The VAR indicates an estimated deficiency of approximately A$31.8 million under a liquidation scenario. This analysis was undertaken primarily on a Nichols Poultry basis, reflecting the Administrators' view that Nichols Poultry comprises the majority of the Group's assets and liabilities. TasFoods as the ultimate holding entity and Nichols Hatchery were not considered to have material standalone operations or assets that would meaningfully affect creditor outcomes. Accordingly, the liquidation analysis was undertaken principally from the perspective of Nichols Poultry rather than the TasFoods Group on a consolidated basis.

7.3 We have assessed TasFoods' shortfall to be approximately A$8.8 million to A$10.3 million on a liquidation basis. This outcome is lower than the deficiency estimated by the Administrators and primarily reflects differences in the scope of analysis and treatment of certain balance sheet items. The principal differences are as follows:

- We have eliminated approximately A$22.6 million of intercompany loan balances between Group entities. These balances represent claims between members of the TasFoods Group rather than obligations to external creditors and, accordingly, do not contribute to a deficiency from a consolidated Group perspective. Importantly, the liabilities of the poultry business included in the VAR comprised intercompany loans payable to the parent entity and Nichols Hatchery totalling approximately A$22 million, with the corresponding receivables held by the parent entity and Nichols Hatchery excluded from the VAR analysis. The elimination of these intercompany balances is the principal driver of the difference between the shortfall assessed in the VAR and our assessment from the perspective of the shareholders of TasFoods;

- Our analysis incorporates the net liabilities of the TasFoods holding entity and Nichols Hatchery, which together reduce the estimated liquidation outcome by approximately A$0.4 million. This adjustment ensures our assessment reflects the financial position of the TasFoods as a whole, rather than focusing solely on Nichols Poultry; and

- We have applied a realisation adjustment of approximately A$1.1 million to the carrying values of Nichols Poultry's PPE. This adjustment reflects the uncertainty inherent in achieving independent valuation outcomes in a realised sale or liquidation process and is supported by indications from the Administrators' sale process that market interest and indicative values were generally below independent valuation assessments.

7.4 By contrast, the Administrators' analysis principally focused on Nichols Poultry, which was considered to hold the majority of the Company's operating assets and liabilities. As a result, differences in the treatment of intra company balances, the inclusion of TasFoods and Nichols Hatchery, and the application of the asset realisation adjustment collectively explain the variation between our estimated deficiency and that presented in the VAR.

7.5 We have presented our assessed shortfall for TasFoods in the table below:

Notes: (1) Actual number of shares

7.6 As a result, under a liquidation scenario:

- Asset recoveries are insufficient to satisfy creditor claims;
- Employee entitlements are not expected to be paid in full; and
- Unsecured creditors are expected to receive nil.

Based on the above, we note that the implied value per TasFoods Share is nil under both the low and high liquidation scenarios.

7.7 While TasFoods owns PPE and other operating assets, the estimated recoverable value of those assets is insufficient to satisfy secured creditor claims, employee entitlements, administration costs and other creditor claims. As a result, no surplus remains available for distribution to Shareholders in a liquidation scenario.

GT assessment of the net assets

7.8 We set out our GT assessment of the shortfall estimated shortfall of assets relative to creditor claims under a liquidation scenario in the following table:

Notes: (1) The market uncertainty adjustment reflects the limited buyer interest and indicative offers below independent valuation estimates received during the Administrators' sale process, (2) Calculated as a percentage of PPE, (3) Estimated balance amount as at 31 August 2026, as provided by the Administrators, and (4) Does not include intra company liabilities

- The above figures are based on VAR, our discussions with the Deed Administrators, our analysis undertaken, and independent property valuers report on Nichols Poultry and Nichols Hatchery. We note that actual realisations may differ from estimated recoverable values. However, given the magnitude of the estimated deficiency of assets relative to creditor claims under a liquidation scenario, moderate variations in asset recoveries would not be expected to alter our conclusion that no value is available to Shareholders.

- Based on our assessment, asset recoveries would need to increase by approximately A$8.8 million to A$10.3 million above current estimates across the low and high liquidation scenarios before any residual value would become available to Shareholders. In our opinion, such an outcome is not supported by the available evidence.

7.9 In the table above, we note the following:

- **A:** PPE value ranges for Nichols Poultry of A$5.35 million to A$6.35 million (exclusive of GST) has been based on Herron Todd White's report dated 28 May 2026 and for Nichols Hatchery of A$264k (exclusive of GST) has been based on Pickles valuation report dated 23 April 2026. These values reflect the depreciated carrying value (following earlier impairment charges for reduced recoverable value in CY24,

reflecting its fair value for financial reporting purposes) and are higher than the upper end of the range indicated by offers received by the Administrators during the sale process. As a result, the ultimate value of the PPE may be lower than the value presented. To reflect this uncertainty, and likely lower proceeds upon realisation than the assessed values used, we have included a 20% discount against the PPE value, which is discussed below.

- **B**: A 20% asset realisation discount has been applied to the PPE valuation of Nichols Poultry and Nichols Hatchery to reflect the uncertainty associated with achieving valuation outcomes in an orderly wind-down scenario. This discount is supported by the Administrators' sale process, which indicated that market interest and indicative values were below the values reflected in the table above.

- **C:** Pre-appointment debtors represent outstanding customer receivables existing at the date of appointment that are expected to be recovered through the Administration process and realised for creditor benefit.

- **D:** Costs of sale represent expenses directly attributable to the disposal of assets such as commissions, advertising, fees and charges, liquidation discount, and are distinct from Administrators' fees, Liquidators' fees and Legal fees, which relate to managing the insolvency process, conducting investigations, fulfilling statutory obligations and completing the winding-up of the Companies

- **E:** Outstanding rates, taxes and statutory charges reflect obligations attached to the Companies' assets and operations that must be settled in priority as part of the administration or liquidation process before proceeds can be distributed to creditors.

- **F:** Estimated trading losses reflect the ongoing loss-making nature of the business during the administration period and the costs associated with maintaining operations while pursuing a sale or implementing an orderly wind-down. The estimate also incorporates the costs of managing biological assets and complying with animal welfare obligations throughout the realisation period.

- **G:** Administrators' fees, Liquidators' fees and Legal costs in a liquidation scenario reflect the professional expenses required to continue trading during the administration period, conduct statutory investigations, realise assets, manage the orderly wind-down of operations and comply with the requirements of the Corporations Act. These costs rank in priority to creditor distributions and reduce the funds available for return to creditors.

- **H:** Employee entitlements form part of the priority creditor pool and include estimated annual leave, long service leave, redundancy and superannuation obligations relating to approximately 160 employees of Nichols Poultry.

- **I:** NAB represents the principal secured creditor of the Company. The amount shown reflects the estimated shortfall in NAB's debt position following the application of available asset realisations and payment of higher-ranking costs and priority claims. Despite ranking ahead of unsecured creditors in a liquidation scenario, the estimated realisation proceeds are insufficient to repay NAB in full, resulting in a residual deficiency.

- **J:** Research Corporation represents a secured creditor claim ranking behind NAB. The amount shown reflects the estimated deficiency attributable to this claim after taking into account the expected shortfall

to NAB and the limited funds available from asset realisations. Accordingly, no recovery is expected to be available to Research Corporation under a liquidation scenario.

- **K:** The unsecured creditor pool is heavily weighted towards trade creditors, which total approximately A$5.5 million and represent the principal unsecured claims against the Group. As a result, any potential recoveries for unsecured creditors are primarily relevant to operational suppliers and service providers, particularly within Nichols Poultry.

7.10 Further, no amount is included for the sale of the Company's IP which relates primarily to capitalised SAP implementation costs. Based on discussions with the Deed Administrators, the IP was not considered to have any realisable market value and did not generate interest from prospective purchasers during the sale process undertaken to identify potential buyers of the business. Indeed, the RAMP DOCA Proponent does not intend to utilise the Company's SAP-related IP following implementation of the DOCA indicating a similar appetite for the bespoke SAP implementation of TasFoods as the other interested parties from the available market.

7.11 In our view, the IP is highly business-specific in nature and lacks standalone commercial utility outside the Company's operating environment. As such, it does not represent a separable or readily transferable asset capable of generating independent economic benefits for a third party. In a liquidation scenario, where value is assessed on an orderly wind-down basis, software implementation costs of this nature are generally regarded as having negligible recoverable value due to the absence of an active secondary market, limited transferability, and the significant reliance on the Company's underlying operations and systems architecture. Accordingly, no value has been attributed to the IP for the purposes of our liquidation analysis.

7.12 Additionally, no value has been attributed to the TasFoods brands. The Administrators' sale process did not generate any specific interest, standalone offers or identifiable consideration for the brands. Furthermore, the brands were marketed as part of a broader going-concern sale process and did not demonstrate a separately identifiable realisable value independent of the underlying business operations. Consequently, in a liquidation scenario, the brands are not expected to generate recoveries in excess of those reflected in the sale of the underlying operating assets and no value has therefore been attributed to the brands in our analysis.

7.13 Based on the analysis set out above, the estimated deficiency of assets relative to creditor claims under a liquidation scenario is approximately A$8.8 million to A$10.3 million. Accordingly, the recoverable value of the Group's assets is insufficient to satisfy creditor claims in full and no residual value is available to shareholders.

Conclusion

7.14 Given our assessment that shareholders have no residual economic interest on a liquidation basis, the proposed transfer of shares under section 444GA would not deprive Shareholders of value they could otherwise realise.

Appendix A – Valuation methodologies

Equity and businesses

The main methods for valuing equity and businesses are the capitalisation of future maintainable earnings method, the discounted future cash flow method, the orderly realisation of assets method, the market value of quoted securities method, and the comparable market transactions method.

Capitalisation of future maintainable earnings

The capitalisation of future maintainable earnings multiplied by appropriate earnings multiple is a suitable valuation method for businesses that are expected to trade profitably into the foreseeable future. Maintainable earnings are the assessed sustainable profits that can be derived by a company's business and excludes any abnormal or "one off" profits or losses. This approach involves a review of the multiples at which shares in listed companies in the same industry sector trade on the share market. These multiples give an indication of the price payable by portfolio investors for the acquisition of a parcel shareholding in the company.

Discounted future cash flows

An analysis of the net present value of forecast cash flows or discounted cash flows is a valuation technique based on the premise that the value of the business is the present value of its future cash flows. This technique is particularly suited to a business with a finite life. In applying this method, the expected level of future cash flows are discounted by an appropriate discount rate based on the weighted average cost of capital. The cost of equity capital, being a component of the WACC, is estimated using the Capital Asset Pricing Model. Predicting future cash flows is a complex exercise requiring assumptions as to the future direction of the company, growth rates, operating and capital expenditure and numerous other factors. An application of this method generally requires cash flow forecasts for a minimum of five years.

Orderly realisation of assets

The amount that would be distributed to shareholders on an orderly realisation of assets is based on the assumption that a company is liquidated with the funds realised from the sale of its assets, after payment of all liabilities, including realisation costs and taxation charges that arise, being distributed to shareholders.

Market value of quoted securities

Market value is the price per issued share as quoted on the ASX or other recognised securities exchange. The share market price would, prima facie, constitute the market value of the shares of a publicly traded company, although such market price usually reflects the price paid for a minority holding or small parcel of shares, and does not reflect the market value offering control to the acquirer.

Comparable market transactions

The comparable transactions method is the value of similar assets established through comparative transactions to which is added the realisable value of surplus assets. The comparable transactions method uses similar or comparative transactions to establish a value for the current transaction. Comparable transactions methodology involves applying multiples extracted from the market transaction price of similar

assets to the equivalent assets and earnings of the company. The risk attached to this valuation methodology is that in many cases, the relevant transactions contain features that are unique to that transaction, and it is often difficult to establish sufficient detail of all the material factors that contributed to the transaction price.

PRIVATE AND CONFIDENTIAL

Independent Expert's Report

We are writing to confirm that Tim Mableson, David Hardy and Emily Seeckts ("Administrators") were appointed joint and several voluntary administrators of the TasFoods Limited (Administrators Appointed) ACN 084 800 902 (the "Company") on 11 March 2026. The Administrators were also appointed to its subsidiaries, Nichols Poultry Pty Ltd (Administrators Appointed) ACN 092 929 890 and Nichols Hatchery Pty Ltd (Administrators Appointed) ACN 671 683 284, on the same date (together the "TasFoods Group").

After their appointment, the Administrators conducted a financial and operational review of the Company and implemented a 'continue to trade' strategy whilst urgently presenting it to market as a going concern. The Administrators received one binding offer via Deed of Company Arrangement ("DOCA") on 27 April 2026 and two binding offers for going concern sales on 28 April and 1 May 2026 from interested parties. Until the creditors passed a resolution approving any one of the proposed DOCAs, the Administrators considered the sale process for the business to be in progress. It was the opinion of the Administrators that approval of the proposed DOCA was in the creditors' interests. It is also the opinion of the Administrators that it is not in the creditors' interest for the voluntary administration to end, nor for the Company be wound up.

On 29 May 2026, the creditors of the Company resolved that the Company execute the DOCA proposed by RAMP Tasmania Poultry Pty Ltd ("the Proponent").

The Company has engaged Grant Thornton Corporate Finance Pty Ltd ("Grant Thornton Corporate Finance") to prepare an Independent Expert's Report ("IER" or "Report") setting out an assessment of the fair market value of the shares of the Company on a liquidation basis, being the likely or necessary consequence of the transfer of shares not being approved.

The Independent Expert's Report is to accompany an explanatory statement to be provided to the shareholders of the Company, to the Court, and ASIC in relation to section 444GA of the of the Corporations Act, 2001 ("Corporations Act").This letter, together with the attached Standard Terms and Conditions, sets out the terms of our engagement.

Grant Thornton Corporate Finance is a subsidiary of Grant Thornton Australia Limited. All references to 'Grant Thornton', 'us' or we are references to Grant Thornton Australia Limited, including subsidiaries and related entities.

Grant Thornton Corporate Finance Pty Ltd ABN 59 003 265 987 ACN 003 265 987 (holder of Australian Financial Services Licence No. 247140), a subsidiary or related entity of Grant Thornton Australia Limited ABN 41 127 556 389 ACN 127 556 389. 'Grant Thornton' refers to the brand under which the Grant Thornton member firms provide assurance, tax and advisory services to their clients and/or refers to one or more member firms, as the context requires. Grant Thornton Australia Limited is a member firm of Grant Thornton International Ltd (GTIL). GTIL and the member firms are not a worldwide partnership. GTIL and each member firm is a separate legal entity. Services are delivered by the member firms. GTIL does not provide services to clients. GTIL and its member firms are not agents of, and do not obligate one another and are not liable for one another's acts or omissions. In the Australian context only, the use of the term 'Grant Thornton' may refer to Grant Thornton Australia Limited ABN 41 127 556 389 ACN 127 556 389 and its Australian subsidiaries and related entities. Liability limited by a scheme approved under Professional Standards Legislation.

Scope of the engagement

The IER is to be prepared having regard to the following:

- The IER is to assist the Court in determining the Administrators' proposed application pursuant to section 444GA(1) of the Corporations Act.
- The IER is for the application to Australian Securities and Investments Commission ("ASIC") for technical relief from the takeover provisions of the Act. Based on ASIC's Regulatory Guide 111 Contents of experts reports ("RG111"), for relief the valuation needs to be prepared on a liquidation basis where that is the likely or necessary consequence of the transfer of shares not being approved.
- The IER is to be included in an Explanatory Statement to be sent to shareholders of the Company prior to the Court hearing of the section 444GA application so as to provide them with the residual value of Company's equity.

In determining whether the resultant transfer of shares to the Proponent (based on the proposed DOCA once approved) will unfairly prejudice the shareholders of the Company, Grant Thornton Corporate Finance will have regard to, amongst other things, relevant Regulatory Guides issued by ASIC, RG111 and RG 112 Independence of experts ("RG 112") and Regulatory Guide 6 Takeovers: Exceptions to the general prohibition ("RG6"). The IER will also include other information and disclosures as required by ASIC.

RG111 states that in deciding on the appropriate form of analysis for a report, an expert should bear in mind that the main purpose of the report is to adequately deal with the concerns that could reasonably be anticipated of those persons affected by the proposed transaction. An expert should focus on the purpose and outcome of the transaction, that is, the substance of the transaction, rather than the legal mechanism used to effect the transaction.

Grant Thornton Corporate Finance is also to prepare its IER in accordance with Federal Court of Australia's Expert Evidence Practice Note (GPN-EXPT) and Use of Generative Artificial Intelligence Practice Note (GPN-AI).

The Company recognises that our IER will be prepared for the specific purpose as set out above and confirms that neither the whole or part of our report nor any reference thereto may be included in or with or attached to any other document, resolution, letter or statement other than the notice of meeting and Explanatory Statement provided to shareholders for this purpose without prior written consent of Grant Thornton Corporate Finance as to the form and content in which it appears.

APES 225

We have been engaged to perform an Independent Valuation (Valuation Engagement). This engagement will be conducted in accordance with APES 225 Valuation Services which provides definitions of a Valuation Engagement, Limited Scope Valuation Engagement and Calculation Engagement as set out below:

Valuation Engagements

"…an Engagement or Assignment to perform a Valuation and provide a Valuation Report where the Member is free to employ the Valuation Approaches, Valuation Methods, and Valuation procedures that a reasonable and informed third party would perform taking into consideration all the specific facts and circumstances of the Engagement or Assignment available to the Member at that time.

Limited Scope Valuation Engagements

'…an Engagement or Assignment to perform a Valuation and provide a Valuation Report where the scope of work is limited or restricted. The scope of work is limited or restricted where the Member is not free, as the Member would be but for the limitation or restriction, to employ the Valuation Approaches, Valuation Methods and Valuation Procedures that a reasonable and informed third party would perform taking into consideration all the specific facts and circumstances of the Engagement or Assignment available to the Member at that time, and it is reasonable to expect that the effect of the limitation or restriction on the estimate of value is material.

Calculation Engagements

"…an Engagement or Assignment to perform a Valuation and provide a Valuation Report where the Member and the Client or Employer agree on the Valuation Approaches, Valuation Methods and Valuation Procedures the Member will employ. A Calculation Engagement generally does not include all of the Valuation Procedures required or a Valuation Engagement or a Limited Scope Valuation Engagement."

Information

The Company undertakes to provide us with such information, as we reasonably require to enable an informed assessment of the terms of the DOCA and their effects on the Company's shareholders. You have indicated that we will have access to the relevant information on the Company.

Where the Company supplies information or documentation to Grant Thornton Corporate Finance, if it is for publication to third parties or for use by us in verifying matters for publication to third parties, or is or may be material in the context of the proposed transactions, or matter connected with our engagement, the Company undertakes that such information or documentation when taken as a whole and each statement of fact therein will be true, fair and accurate and not misleading, that every statement of opinion, intention or expectation therein will be honestly held and fairly based and that there will be no facts not disclosed which by their omission would make any statement therein misleading. The Company agrees to notify promptly Grant Thornton Corporate Finance, and take all steps as we may require to amend any such misleading statement.

A preliminary information request list is attached in **Appendix 1**.

Confidentiality

The Company acknowledges and accepts that we may be required or that it may be appropriate for us to disclose information and/or documents relating to the Company and the proposed Transactions as required by law in Australia or such appropriate jurisdictions, to regulatory or statutory authorities and the Company expressly authorises any such disclosures to such regulatory or statutory authorities as required.

Publicity

There may be occasions where we would like to make it known that we act or have acted for you in a particular market place. Subject to Section 11 of our Standard Terms and Conditions and any separate confidentiality agreement we have with you, by signing this letter you authorise us to use your name and logo, and describe the services that we have provided, or are providing to you, to market and profile our firm. However, for the avoidance of doubt, we will not provide any confidential information about your business or any particular transaction without consent from you.

Independence

We have made enquires with the partners, directors and managers of Grant Thornton and Grant Thornton Corporate Finance and confirm we are independent of the Company. We have also considered the requirements of RG 112 and confirm that neither Grant Thornton nor Grant Thornton Corporate Finance are aware of any circumstances which compromise our independence to undertake this assignment. In order to maintain and to be seen to maintain our independence, having regard to precedents established in legal cases, we will be solely responsible for all aspects of the planning, preparation and review of our report.

Engagement personnel

Andrea De Cian will be the Engagement Partner and will sign the report in conjunction with the Review Partner.

Fees

In accordance with normal professional practice, our fees are based on actual time spent by professional staff at charge-out rates which are derived from the level of skills, experience and responsibility required for an assignment of this nature. Set out below is our hourly charge-out rate as at 1 June 2026.

	$/hour
Corporate Finance Partner	925
Corporate Finance Director/Principal	805-900
Corporate Finance Senior Manager	780
Corporate Finance Manager	705-730
Corporate Finance Senior Associate	570-645
Corporate Finance Associate	395-505

We will charge you a Technology and Administration Fee to cover technology support costs and other overhead expenses. This fee will be calculated on the basis of 5% of our professional fees described above. In the future, we will provide you with not less than 3 months' written notice if there are to be any changes to the Technology and Administration Fee.

Based on our recent discussions, we envisage our total fee for the preparation of the Independent Expert's Report to be up to $100,000 (plus GST).

In addition to any fee that may be payable to Grant Thornton Corporate Finance under this letter, the Company agrees to reimburse reasonable disbursements incurred in connection with Grant Thornton Corporate Finance's activities under this engagement letter. Based on the disclosures in the Administrators' report to creditors, we do not anticipate the need for any input from a subject matter expert. Should it become necessary to obtain such input, we will identify the need and how that input can be sourced with you as soon as a need is identified.

When estimating our fees to prepare the independent expert's report, we have assumed that:

- We will not be required to participate in the preparation of the explanatory memorandum.
- Pro forma financial information, including pro forma balance sheet of the merged entity, will be provided to us.
- We will not be required to attend any due diligence meetings or meetings which are not directly related to (in our opinion) the preparation of the independent expert's report.
- Reasonable access to management.
- Access to all required financial and other information, which would be reasonably expected for an assignment of this type.
- A high standard of financial and non-financial management information.

Should these assumptions not be met or should the scope of our work increase materially we would seek additional fees, which we would agree upon at that time. This may include additional procedures in the event of supplementary or alternative bid documents.

Our fees will be paid by the Company. Our fee accounts will be rendered monthly and/or upon completion of certain milestones. All invoices will be addressed and forwarded to the Company. All invoices are to be paid on receipt.

Neither, the amount of our fee nor payment thereof is contingent upon the opinion contained in our report.

Goods and Services Tax (GST) will be added to all our fees at a rate of 10%.

We reserve the right to add an interest charge at a rate of 2% per month simple interest on any bills remaining unpaid 30 days after presentation.

In the event of non-payment of any bill rendered by us in accordance with our terms for payment, we reserve the right to unilaterally suspend or terminate our engagement with you and the services provided under it. Any such suspension or termination of our engagement with you will be communicated to you in writing and sent by post or facsimile transmission or e-mail.

Such Notice shall be deemed to be delivered to you two days after posting. If the Notice is sent to you by facsimile transmission or e-mail it shall be deemed delivered to you at the date and time of transmission or sending. Following any such suspension or termination our contractual or tortious duty of care to you will cease

for any future actions or advice required under the engagement. You will remain liable for all fees and disbursements and GST owing together with interest calculable thereon.

You may terminate this engagement at any time by giving us 7 days notice in writing.

Timetable

Subject to your acceptance of this letter and the receipt of all the required information as set out in **Appendix 1**, we envisage circulating a draft report for a factual accuracy within 3 weeks.

We will discuss with you any problems we encounter in complying with this timetable as they arise to ensure the best efforts by all parties in meeting the timetable.

Consent

Grant Thornton Corporate Finance consents to the inclusion of the Independent Expert's Report in the notice of Explanatory Statement to be sent to the shareholders of the Company.

Legal and documentation expenses (disbursements)

If we are required to attend court or produce any documentation (eg pursuant to a subpoena), or if we receive any legally enforceable notice of demand issued by any third party, including the Australian Securities and Investments Commission (ASIC), the Australian Taxation Office (ATO), the Australian Stock Exchange, or any other government authority in relation to the services, you will reimburse us for costs incurred. This includes any legal costs, our professional time charged at our standard fee scale, and other related expenses.

Additional terms and conditions of engagement

Standard Terms and Conditions for all engagements undertaken by Grant Thornton Corporate Finance and its associated entities are attached. Acceptance of this Engagement Letter indicates your agreement with and acceptance of the Standard Terms and Conditions as per attached. If there is any conflict between this Engagement Letter and the Standard Terms and Conditions, the Engagement Letter will take precedence.

Other matters

The preparation of independence expert's report will not include a review or an audit of the financial and other information of the Company in accordance with Auditing Standards and no verification work will be carried out by us. Consequently we will not express an opinion on the financial statements and management accounts which we discuss in our reports, except where required by statute or regulations.

The responsibility for business plan and forecasts, and the assumptions on which they are based, is solely that of the directors of the Company. It must be emphasised that all profit and cash flow forecasts necessarily depend on subjective judgement. They are, to a greater or lesser extent, according to the nature of the business and the period covered by the forecasts, subject to substantial inherent uncertainties. In consequence, they are not capable of being substantiated or audited in the same way as financial statements which present the results of completed accounting periods.

This engagement will terminate, unless previously terminated, on completion. We reserve the right at any time and without any liability or continuing obligation to you to terminate this engagement if:

- You are in material breach of any of the terms of this engagement.
- You fail to accept our advice on a material regulatory or professional matter concerning the engagement.
- We are not satisfied that we can proceed with the engagement without being in default of applicable laws.

Problem resolution

If you are unhappy with the services we have provided to you, or would like to discuss how they could be improved, you are invited to contact Andrea De Cian. If you are dissatisfied with the way your complaint is handled, you can report the matter to Chartered Accountants Australia New Zealand.

Acceptance

We should be grateful if you would confirm our understanding of your instructions and your agreement to the terms of this letter, including those contained in **Appendix 1**, by signing and returning a copy of this letter to us at your earliest convenience.

Please note that by continuing to instruct us or respond to our correspondence after the receipt of this letter, you are acknowledging your acceptance and understanding of the terms and conditions outlined above and will be deemed to have accepted the engagement. You must still provide us with a signed copy of this letter as soon as possible.

If you wish to discuss the contents of this letter, please contact us on 02 8297 2554.

Yours faithfully

Andrea De Cian

Grant Thornton

Standard Terms and Conditions

1 Introduction

1.1 These Standard Terms and Conditions and the accompanying Engagement Letter must be read together as they form your agreement with us. They will apply to all work Grant Thornton undertakes for you with respect to this engagement. The Engagement Letter identifies the services to which these Standard Terms and Conditions relate and any special terms applicable to your agreement with Grant Thornton.

1.2 These Standard Terms and Conditions and the accompanying Engagement Letter constitute the entire contract. No terms are to be implied into this contract. Any terms imposed by statute are only included to the extent that they cannot be excluded by agreement between the parties.

1.3 If there is any conflict between these Standard Terms and Conditions and the Engagement Letter, the Engagement Letter will take precedence. These Standard Terms and Conditions supersede all previous terms and conditions relating to this or any prior engagement.

1.4 Any variation to these Terms and Conditions must be endorsed in writing on the accompanying Engagement Letter and the amendment initialled by both parties. Amendments/variations made by hand or otherwise edited into these Standard Terms and Conditions will be void and of no effect.

1.5 On your acceptance of the terms contained in the Engagement Letter you will be bound by these Standard Terms and Conditions. The methods of acceptance are set out in the Engagement Letter.

1.6 All references to 'Client' or 'you' are references to the client named or described in the Engagement Letter.

1.7 'Grant Thornton' refers to the brand under which the Grant Thornton member firms provide assurance, tax and advisory services to their clients and/or refers to one or more member firms, as the context requires. Grant Thornton Australia Ltd is a member firm of Grant Thornton International Ltd (GTIL). GTIL and the member firms are not a worldwide partnership. GTIL and each member firm is a separate legal entity. Services are delivered by the member firms. GTIL does not provide services to clients. GTIL and its member firms are not agents of, and do not obligate one another and are not liable for one another's acts or omissions.

In the Australian context only, the use of the term 'Grant Thornton' refers to Grant Thornton Australia Limited ABN 41 127 556 389 and its Australian subsidiaries and related entities. GTIL is not an Australian related entity to Grant Thornton Australia Limited.

2 Our services

2.1 The services we have agreed to provide to you, which comprise the scope of our work for this engagement, are set out in our Engagement Letter.

2.2 From time to time you may request additional services from us. Where we agree to provide these services to you they will be governed by these Standard Terms and Conditions and the Engagement Letter amended as agreed in relation to the scope of work, or by a separate Engagement Letter.

2.3 Unless otherwise specifically stated in the Engagement Letter, any advice or opinion relating to the services is provided solely for your benefit. Except as required by law, you may not disclose all or any part of the advice or opinion in any way, including by publication or electronic media, to any other party without our prior written consent.

2.4 We deny all liability and/or responsibility for the consequences of anyone, apart from you, relying on our advice and/or opinion without our written consent.

3 Advice

3.1 During the supply of our services, we may provide oral, draft or interim advice, reports or presentations to you. In these circumstances our written advice or final written report shall take precedence. No reliance should be placed by you on any draft or interim advice, reports or presentations. Where you wish to rely on advice given orally or advice in an oral presentation, you shall inform us and we may provide you with documentary confirmation of the advice upon which you can rely.

3.2 We shall not be under any obligation, regardless of the circumstances, to update any advice or report, oral or written, for events occurring after the advice or report has been issued in final form.

3.3 Any advice that we give you will be based on the law effective at the date of the advice or opinion. We do not accept any responsibility for any changes in the law, and/or in its interpretation, which occur after the date of our advice. This applies to any changes in the law or its interpretation which take effect retrospectively.

3.4 No actions taken by us and/or statements made in the course of our engagement shall be taken as a promise or guarantee to you about the outcome of any matter.

3.5 Unless otherwise agreed with you, or specifically stated in the Engagement Letter, the advice we give cannot be relied upon to identify or disclose irregularities, including fraud and other illegal acts and errors that may occur or may have occurred.

3.6 No advice we provide to you is intended to constitute or will constitute legal advice and it should not be relied upon by you as such.

4 Your responsibilities

4.1 You agree to pay for the services we provide in accordance with the payment terms set out in the Engagement Letter and in these Standard Terms and Conditions.

4.2 In order to provide our services to you, we require your co-operation. You will:

- provide, in a timely way, all information and materials that we reasonably require to enable us to provide the services set out in the Engagement Letter
- arrange reasonable access to:
  - members of your staff
  - third parties
  - records
  - technology and systems, and
  - premises

  as required

Grant Thornton

- respond to us promptly to facilitate the performance of the services

4.3 Please do not assume that we know information you have not told us. Where you, or others on your behalf, have made information available to our staff not engaged in the provision of the services, please do not assume that this information has been made available to our staff who are engaged in the provision of the services to you.

4.4 Your primary representative from Grant Thornton is the Engagement Partner specified in the Engagement Letter.

4.5 We will rely on the information and material that you, or another party provides. We will not verify this information and/or material unless you request or advise us to do so and we agree to do so as part of our services as described in the Engagement Letter. You are responsible for the completeness and accuracy of the information and materials you supply to us.

4.6 If you become aware that any of the information or material provided to us has changed, is incomplete, incorrect or misleading, or may in any other way impact upon the services we provide to you, you must promptly inform us. You must also take all necessary steps to correct any announcement, communication or document issued which contains, refers to, or is based upon such information.

4.7 We deny and disclaim all liability and responsibility for your failure to inform us of any changes to any information and/or material which impacts upon the services we have agreed to provide to you.

4.8 If you provide any advice or opinion we give to you to a third party without our consent, you agree to indemnify us against any claims made against us by that third party or any other party and for the costs of defending any such claims.

5 Non-conformance

5.1 If you become aware that the advice or opinion we have provided to you does not conform to the scope of work set out in the Engagement Letter, you must promptly inform us. You must give us the opportunity to rectify any such advice or opinion.

5.2 If you fail to do so, we deny and disclaim all liability and responsibility for our advice/opinion failing to conform with the scope of work set out in the Engagement Letter.

5.3 If we rectify our advice or opinion due to non-conformance we will do so within a reasonable time period.

6 Our liability

6.1 Without limiting paragraph 6.2, our liability is limited by a scheme approved under the Professional Standards Legislation. Further information on the scheme is available from the Professional Standards Council website: https://www.psc.gov.au/professional-standards-schemes/scheme-documents (select current scheme for Chartered Accountants Australia and New Zealand)

6.2 Where the scheme does not apply or permits us to modify our maximum amount of liability under the scheme, the Engagement Letter sets out the ways in which our liability to you is limited.

6.3 You acknowledge that we are contracting with you as the principal for and on behalf of our professional staff using the title as partners and our employees and directors. Our professional staff, employees and directors will not be liable to you in respect of any loss or damage suffered by you as a result of services provided by us, nor for any consequential loss or damage suffered by any third party.

6.4 It is agreed that you will not bring any claim arising out of this agreement against any of our professional staff, directors and employees personally. This restriction will not operate to limit or exclude the liability of Grant Thornton for the acts or omissions of any of its professional staff, directors or employees.

7 Fees

7.1 The basis on which we charge fees for this engagement is set out in the Engagement Letter. If appropriate, we shall provide an estimate of our fees for carrying out the services in the Engagement Letter.

7.2 If we have agreed to calculate the fees we charge to you on a time basis by applying an hourly rate (unless stated otherwise in the Engagement Letter), we may review and increase the rates we are charging to you on a six monthly basis.

7.3 We may request you to pay us an amount in advance to cover our anticipated fees or expenses. Each payment in advance is payable as per the terms stated in the Engagement Letter. If you do not pay us the amounts in advance as requested we may elect not to commence or continue to provide services to you.

7.4 Unless otherwise stated in the Engagement Letter, you are liable for work in progress completed to date on the engagement to which this Engagement Letter relates at the agreed rate per the Engagement Letter.

7.5 We may invoice you as we perform our work, and this includes work we undertake on a retainer. However, we will generally invoice you shortly after the end of each month. Where our Engagement Letter expressly states that part of our fees are contingent or conditional (for example, a success fee), then we will invoice you when the relevant condition is satisfied.

7.6 Our invoice is payable within 14 days of the date of issue unless stated otherwise in the Engagement Letter.

7.7 If you do not pay our invoice in full, we may:

- elect not to continue to provide our services to you
- suspend work until further payment is made
- charge interest on any unpaid amount. The rate of interest will be at the prevailing bank rate, and
- instigate legal proceedings without further notice

Without prejudice to the above, we may take further action to recover any outstanding amounts due to us. Any costs, fees or disbursements that we incur in the recovery of the outstanding amounts, together with any interest, will be added to the amount due from you.

7.8 Where applicable, all professional fees and expenses will require an additional payment of 10% of Goods & Services Tax (unless a GST-free relief is applicable). Costs and expenses incurred will be recharged and GST will apply unless a GST-free relief is applicable.

8 Disbursements

8.1 In addition to our fees, (unless stated otherwise in the Engagement Letter), we may incur reasonable expenses (disbursements) on your behalf during the engagement.

8.2 General disbursements may include reasonable charges and expenses for travel, accommodation, and associated costs. Please refer to the Engagement Letter for details of any other specific disbursements that we may incur. By engaging us you consent to us incurring those disbursements on your behalf and you agree to reimburse us for them (GST will be charged as appropriate).

Grant Thornton

8.3 We will seek your approval before incurring any unusual or extraordinary expenses on your behalf.

9 Documents

9.1 All materials developed, modified, designed or created by us in the course of carrying out our services, including know how, systems, software, reports, documents, written advice, drafts and working papers belong to us. Any correspondence or documents we provide to you during the course of the engagement belong to you unless we specify otherwise.

9.2 Unless otherwise agreed in the Engagement Letter, all original documents you have provided to us in the course of this engagement will belong to you.

9.3 On completion of our work, or termination of this engagement, we will return to you any papers to which you are entitled. Upon completion of the engagement we will store our file, including any documents or materials you leave with us, for a period of 7 years from the date of our final invoice. You authorise us to destroy our file (excluding any documents kept in safe custody) after the expiration of that period.

9.4 We may charge for special storage requirements and/or retrieving documents from storage if you request them.

9.5 We accept no liability for any losses you suffer if our file, including any documents or other material you leave with us, is damaged or destroyed for any reason.

9.6 We will exercise our right to retain documents to which you are entitled relating to this engagement, until all our outstanding fees and disbursements are paid in full, unless acceptable security is provided.

10 Communication and electronic documents

10.1 Each party is authorised to communicate with and provide documents to the other party by post, facsimile or electronically. To the extent permitted by law:

- each party will not be responsible for any loss or liability caused in connection with electronic transmissions; and
- neither party will be responsible for any delay, non-delivery or interruption of any of the methods of communication.

10.2 Both Parties:

- will take all reasonable steps to ensure they have suitable systems in place to prevent corruption of data, or transmission of viruses in their electronic documents or other communications to the other party;
- acknowledge and accept the risks that email communications may not always be secure, irrespective of the security the other party has in place;
- will contact the other party immediately if they have any concerns about the authenticity of any documents or communications purportedly sent by them.

11 Confidentiality

11.1 Subject to clause 14, in conducting this engagement, information (other than information disclosed by you to others or information which is in the public domain) acquired by us in the course of this engagement is subject to strict confidentiality requirements. That information will be treated by us as follows:

- we shall protect the confidential information in a reasonable and appropriate manner and in accordance with applicable professional standards
- we shall use confidential information only to perform our obligations under this engagement, and
- we shall reproduce confidential information only as required to perform our obligations under this engagement

11.2 We may disclose confidential information to our insurers and professional advisors provided that those parties agree or are otherwise required to ensure that the Confidential Information remains confidential. We may also disclose Confidential information if this is required by law or court order, or is required in order for us to comply with our professional duties and obligations or as required by professional or regulatory bodies.

12 Quality control

12.1 As a member of Chartered Accountants Australia New Zealand (CAANZ) we are required to undertake a quality review process. Other regulatory and professional bodies may also conduct surveillance or reviews to monitor quality control. As part of this process our client files are subject to review.

12.2 As a result of this quality review our client files containing your information may be chosen for inspection. By accepting our terms of engagement you authorise these files containing your information to be reviewed in this way.

13 Copyright and Intellectual property

13.1 Unless otherwise specified in the Engagement Letter, we retain all copyright and intellectual property rights in all material developed, designed or created by us in the course of carrying out the services including know how, systems, software, reports, written advice, drafts and working papers.

13.2 You acknowledge that any documents or material given to us in relation to this engagement will not infringe the copyright or intellectual property rights of others.

13.3 You must not use the Grant Thornton name or logo on any website or in any public statement unless you have our prior written consent.

14 Anti-Money Laundering and Counter-Terrorism Financing

14.1 From time to time we may request information from you in order to meet our obligations under the Anti-Money Laundering and Counter-Terrorism Financing Act 2006 (Cth) (AML/CTF Act).

14.2 Where we provide a designated service (as defined under the AML/CTF Act), we are a reporting entity under the legislation and as such must meet stringent identification and verification requirements.

This means that, before providing you with a service we must make sure you are who you say you are by collecting information to identify you or any agent acting on your behalf, and taking steps to verify this information.

14.3 We will maintain all information collected in a secure manner in accordance with the relevant privacy principles and the AML/CTF Act. We will only disclose information about you where we reasonably consider that we are required to do so under Australian law.

Grant Thornton

14.4 This means that your identification information may be disclosed to government agencies or law enforcement agencies. We may also disclose this information to other Grant Thornton entities involved in providing services to you to the extent that this information is required to fulfil that entities' AML/CTF obligations.

14.5 Where we reasonably consider that we are required to disclose information collected from you for the purposes of complying with the AML/CTF Act we will, where practicable, provide you with notice of that disclosure, however we will only provide you with such notice if we are not prohibited by law from doing so.

14.6 You agree to provide such information upon request. If you do not provide this information we may not be able to provide services to you.

15 Independence and Conflicts of interest

15.1 The performance of our services is governed by Professional and Ethical Standards and other specific legislative requirements regarding independence.

15.2 We do not believe that there is any conflict of interest in us providing the services set out in the Engagement Letter to you at present. However, it is possible that in the future a conflict may arise. If it does, we will notify you immediately and discuss the issue with you.

15.3 Our aim is to make sure that any further services we provide to you will be objective and free from any independence or conflicts of interest issues. In some cases this may result in us having to cease providing any further services to you.

16 Problem resolution

16.1 If you are unhappy with the services we have provided to you, or would like to discuss how they could be improved, you are invited to contact the Partner specified in the Engagement Letter.

16.2 We will investigate all complaints carefully and promptly and attempt to resolve any difficulties. The Engagement Letter sets out the procedure to be adopted in situations where the problem cannot be resolved.

17 Staff

17.1 We will attempt to comply with your request for specific individuals to work on the engagement. If we are unable to do this we will provide you with details of alternate staff.

17.2 Subject to clause 17.3, when our staff are assigned to work for you, you agree that, during the period of the engagement and for a period of twelve (12) months following the completion or termination of the engagement, you will not employ, or procure a third party to employ, any employee of ours who has taken part in the provision of the services without our consent. If we do provide consent, we reserve the right to charge you a fee equivalent to the recruitment, training and additional expenses required to replace our employee (plus GST).

17.3 Nothing in this clause 17 will prevent you from employing, without our prior consent, a Grant Thornton employee who responds to an advertisement for employment directed at the public generally or who is recruited by a recruitment firm approaching that employee of its own violition and without prompting from you.

18 Termination

18.1 The ways in which you may terminate this engagement are set out in the Engagement Letter.

18.2 Unless we are providing you with a statutory audit service we may terminate this engagement by giving you 7 days' notice in writing, unless a shorter period is required for matters of urgency, if:

- you do not pay our account
- you do not meet a requirement for money on account of costs or disbursements
- we have requested instructions, information or materials from you but you have failed to provide them in a timely manner
- you give us instructions that are false and misleading
- we believe that we may have a conflict of interest, or
- any other reasonable grounds

18.3 Where we are providing you with a statutory audit service the Engagement Letter will set out the ways in which this engagement can be terminated.

18.4 Either party may terminate this engagement in the event of bankruptcy or the appointment of a liquidator, receiver or an administrator of the other party.

18.5 All sums due to us shall become payable in full when termination takes effect, or as otherwise agreed in the Engagement Letter.

18.6 Termination under this clause shall be without prejudice to any rights that may have accrued before termination.

19 Changes

19.1 Changes to this agreement must be in writing and must be endorsed on the Engagement Letter and signed by both parties. The effective date for any such changes is the date on which the last party to sign has signed the written document effecting such change or otherwise in accordance with the methods set out in the Engagement Letter.

20 Governing law and jurisdiction

20.1 The Engagement Letter and these Standard Terms and Conditions will be governed and construed according to the law applying in the Australian State or Territory from where the Engagement Letter was issued.

20.2 Each party irrevocably and unconditionally submits to the exclusive jurisdiction of the courts of the Australian State or Territory from where the letter of engagement was issued.

21 Waiver

21.1 A failure by either party to take action to enforce their rights does not constitute a waiver of any right or remedy under this agreement unless it is in writing and signed by both parties.

21.2 A waiver by either party of any specific provision of this agreement does not affect any other provision of this agreement.

22 Third Party Responsibilities

22.1 In delivering our services we may utilise Cloud Computing services and/or Outsourced Services performed by third parties.

22.2 "Cloud Computing" means computing resources provided over the internet, including on-demand access to networks, servers, data storage, databases, software and

applications. “Outsourced Services” means the outsourcing of a material business activity to a third-party provider under an outsourcing agreement.

22.3 A current list of third-party providers is set out in the attachment to these Standard Terms and Conditions (Cloud Computing and Outsourced Service Providers) as updated from time to time; or as separately notified to you in the Engagement Letter or otherwise via a change to this agreement.

22.4 We may provide these third parties with access to your data to the extent required to perform the Engagement. Your data will be stored in servers physically located in Australia (unless otherwise specified) and in accordance with the security practices of the third-party service provider and our Privacy Policy.

22.5 By entering into this Engagement, you consent to our use of the Cloud Computing and Outsourced Services described in the attachment to these Terms and Conditions (Cloud Computing and Outsourced Service Providers). If any services are performed offshore, your consent extends to the cross-border transfer, storage and processing of your information in those jurisdictions.

Annexure E Submissions Table

The following table addresses the information requirements in Tables 1 and 2 of RG 51.

Requirement	Response
Table 1: Applications - Information required	
Type and nature of relief sought	TasFoods seeks relief under section 655A(1) of the Act exempting it, and the Deed Proponent (or its nominee), from compliance with section 606 of the Act in connection with the proposed transfer of all issued shares in TasFoods to the Deed Proponent (or its nominee) under the DOCA and pursuant to orders sought under section 444GA of the Act. The relevant legislative provisions are sections 606, 611, 444GA and 655A of the Act. The application is made consistently with ASIC's published policy, including RG 6, RG 51, RG 111 and RG 112.
The reasons relief is being sought	The Deed Proponent is not currently a shareholder of TasFoods. As such, the transfer of shares to the Deed Proponent (or its nominee) pursuant to section 444GA of the Act will result in the Deed Proponent (or its nominee) increasing its voting power in the Company from 0% to 100%. This change to the Deed Proponent's voting power in TasFoods would be in breach of section 606 of the Act, unless ASIC grants relief from section 606 of the Act in respect of the Proposed Transaction (as set out in the draft relief instrument in **Annexure A** of this Application). There is no statutory exception to section 606 of the Act for transfers effected under section 444GA of the Act. Relief is therefore necessary to permit implementation of the DOCA without requiring shareholder approval under item 7 of section 611 of the Act, which would introduce additional cost and delay without conferring any practical benefit on shareholders in circumstances where the independent expert has concluded that the Shares have nil residual value.
Information required by the statutory provisions and any relevant ASIC published policy(ies)	The relevant statutory and policy requirements are satisfied. The Proposed Transaction is subject to orders being sought from the Court under section 444GA of the Act, under which the Court must be satisfied that the transfer would not unfairly prejudice shareholders. Shareholders will receive an explanatory statement together with the IER before the court hearing. The IER prepared in accordance with RG 111 and RG 112 concludes that the Shares in TasFoods have nil residual equity value in a liquidation scenario. These matters accord with ASIC's policy in RG 6.196(a) and RG 6.198–6.202.
Consultation	There has been no previous consultation with ASIC or any other regulatory organisation.
Relevant interests	The Deed Administrators do not consider that the interests of any third parties will be materially adversely affected if relief is granted in the form of the draft instrument at **Annexure A** of this Application.
Table 2: Minor and technical or novel applications - Additional Information required	
Details regarding the proposed activity,	Under the DOCA, and subject to Court approval under section 444GA, all of the Shares in TasFoods are to be transferred to the Deed Proponent (or its nominee).

Requirement	Response
including any relevant factual matters	As noted above, the IER has concluded that in a liquidation scenario the Shares in TasFoods will have nil value. TasFoods is a listed company and is therefore subject to section 606 of the Act. The Proposed Transaction forms part of the restructuring contemplated by the DOCA and is intended to facilitate a return to creditors. The section 444GA application will be filed shortly after this Application. Completion of the Proposed Transaction under the DOCA is conditional on such relief being granted.
The impact of legislative provisions or existing ASIC policy	The current legislative regime provides for a number of exemptions to the section 606 prohibition, which are set out in section 611 of the Act. The policy rationale behind such exemptions is that shareholders' interests are adequately protected through another procedure specified in the exemptions outlined in section 611, such that the section 606 prohibition need not apply. This is not a new policy application and ASIC has granted relief from section 606 of the Act in numerous cases in the past to facilitate transfers of shares under a deed of company arrangement.[4] In ASIC's Consultation Paper 326 – Chapter 6 relief for share transfers using s 444GA of the Corporations Act, at paragraph 5, ASIC noted, *'Since 2014, we have issued s 606 relief 10 times to enable a s 444GA transfer. We now consider it is an appropriate time to issue guidance on the topic which builds on our experience to date'.* The proposed relief is consistent with ASIC's: (a) past action in granting relief from section 606 of the Act to facilitate a transfer of shares in a company under a deed of company arrangement for nil consideration; and (b) discretion to grant relief from section 606 of the Act, as detailed in RG 6 at RG 6.192 - RG 6.202. To that end it is noted that: (a) it is not the purpose of the Act to require persons to follow the takeover procedures set out in Chapter 6 in preference to other regulated methods in all transactions involving acquisitions; (b) RG 6.195 provides that where a transfer under section 444GA will result in a person acquiring an interest above 20%, relief from section 606 must be applied for and granted by ASIC. (c) RG 6.196 provides that ASIC may grant relief from section 606 for share transfers pursuant to section 444GA where: (i) an independent expert's report concludes that the shareholders have no residual equity in the company; (ii) the company members are provided with an explanatory statement at least 14 days before the court hearing determining the section 444GA application; and

[4] Millennium Minerals Limited 20-0419 29/04/2020 (in A18/20), Manderrah Pty Ltd 18-0663 01/08/2018 (in A33/18), Quickflix Limited 16-1233 15/12/2016 (in A60/16), Black Oak Minerals Limited, Ramelius Operations Pty Ltd and Ramelius Resources Limited 19-0079 05/02/2019 (in A06/19), Paladin Energy Ltd 18-0049 25/01/2018 (in A05/18), Ten Network Holdings Limited 17-1014 14/11/2017 (in A52/17), BCD Resources NL and Moina Gold Pty Ltd 18-0973 26/10/2018 (in A46/18), International Litigation Partners Pte Limited 17-0024 12/01/2017 (in A03/17), Mirabela Nickel Limited 14-0612 23/06/2014 and Nexus Energy Limited 14-1339 (in A02/15) 24/12/2014.

Requirement	Response
	(iii) the court grants leave under section 444GA of the Act. This proposed relief is consistent with ASIC's existing policy and ASIC's past action in granting relief from section 606 of the Act to facilitate a transfer of shares in a company under a deed of company arrangement for nil consideration.
Reason(s) the relief should be granted	Relief should be granted because in respect of the Application. For the reasons which follow, there is little or no regulatory benefit in applying Chapter 6 to the Proposed Transaction in addition to the regulatory regime under section 444GA of the Act: (a) the Deed Administrators are seeking to effect a transfer of all the Shares of TasFoods in order to provide return to its creditors pursuant to the DOCA; (b) given that the Companies are in external administration, it is not appropriate for the Proposed Transaction to be subject to the procedural requirements of Chapter 6, particularly where the Companies, are, in effect, unable to deliver any return to its current shareholders and any such procedure will be associated with considerable time, complexity and expense, delivering little or no regulatory benefit to the shareholders and the creditors of the Companies; (c) the current legislative regime under the Act contains a specific more targeted regulated procedure in respect of transfers and acquisitions in respect of externally administered companies under section 444GA of the Act; (d) whilst the procedure under section 444GA of the Act does not require shareholders of the entity to vote on any proposed transfer or acquisition, it does provide TasFoods' shareholders with an opportunity to appear at the hearing to present objections to the proposed transfer of their Shares. The Deed Administrators will release the Explanatory Statement on their website which accompanies the IER for the benefit of TasFoods' shareholders setting out the details of the Section 444GA Application and how shareholders can oppose the Section 444GA Application; (e) in granting leave under section 444GA, the Court must be satisfied that the proposed transfer would not unfairly prejudice the interests of the members of TasFoods. In arriving at this conclusion, the value of the Shares is relevant; (f) the IER concluded that the value of the Shares in a subsequent liquidation of TasFoods are of nil value. (g) in circumstances where the IER has concluded that there is no value to the Shares in a liquidation scenario, it is submitted that: (i) the requirement to apply Chapter 6 (and relevantly to seek shareholder approval) to the Proposed Transaction is of little or no regulatory significance or purpose. If such approval was required, shareholders of the Company would effectively be asked to vote on an asset which carries no value as to whether that asset should remain or be transferred. The lack of

Requirement	Response
	regulatory benefit would also need to be matched against the increased expense and time, which would on the whole, cause further detriment to the creditors of TasFoods; and (ii) TasFoods' shareholders would not be entitled to any benefits from the control transaction resulting from the Proposed Transaction (and therefore are not missing an opportunity to participate in the benefits that a control transaction would ordinarily provide to shareholders).
Legal and cost-benefit arguments for relief	As a matter of law and policy, the Proposed Transaction is already subject to a targeted and Court-supervised statutory mechanism under section 444GA, which is directed specifically to share transfers in externally administered companies. It is not the purpose of Chapter 6 to require takeover procedures to be followed in preference to all other regulated methods of acquisition. From a commercial perspective, requiring shareholder approval under item 7 of section 611 of the Act would introduce additional time, expense and complexity, notwithstanding that the Shares have been independently assessed as having nil value. Those additional costs would likely diminish returns otherwise available to creditors and may prejudice timely implementation of the DOCA.
Conditions of relief	Consistent with similar relief which has been granted by ASIC in the context of previous section 444GA applications, the granting of relief should be subject to: (a) the provision of the Explanatory Statement to shareholders of the Company; and (b) the Court granting leave to transfer all of the Shares in TasFoods to the Deed Proponent (or its nominee) pursuant to section 444GA of the Act.

Dear Laz and Brad

**Tasfoods Limited ACN 084 800 902 (Subject to Deed of Company Arrangement);
Nichols Poultry Pty Ltd ACN 092 929 890 (Subject to Deed of Company Arrangement) and
Nichols Hatchery Pty Ltd ACN 671 683 284 (Subject to Deed of Company Arrangement)**

1. I write this letter in my capacity as Deed Administrator of Tasfoods Limited ACN 084 800 902 (Subject to Deed of Company Arrangement); Nichols Poultry Pty Ltd ACN 092 929 890 (Subject to Deed of Company Arrangement) and Nichols Hatchery Pty Ltd ACN 671 683 284 (Subject to Deed of Company Arrangement) (together, **TasFoods Group**), and on behalf of my co appointee David Hardy and the TasFoods Group.
2. I refer to the Deed of Company Arrangement between TasFoods Group, RAMP Tasmania Poultry Pty Ltd ACN 698 304 531 (**RAMP**) and the Deed Administrators dated 29 May 2026 (**DOCA**).
3. The purpose of this letter is to record the amendment of the definition of 'Sunset Date' in clause 1.1 of the DOCA as follows:

   *'**Sunset Date** means 1 October 2026, or such other date as agreed by the parties to this deed in writing.'*

4. The extension to the Sunset Date is to accommodate satisfaction of the Conditions Precedent of the DOCA, namely:
   (a) ASIC granting such exemptions or modifications from Chapter 6 of the Act pursuant to section 655A of the Act as are necessary to permit the transfer of the Shares to the New Shareholder (being RAMP); and
   (b) The Court making the Section 444GA Order.

5. Please arrange for the relevant parties of RAMP to execute the signing block below, confirming acknowledgement and agreement to the above.
6. If you have any queries, please contact Tim Mableson on +61 8 8236 7207.

Yours sincerely

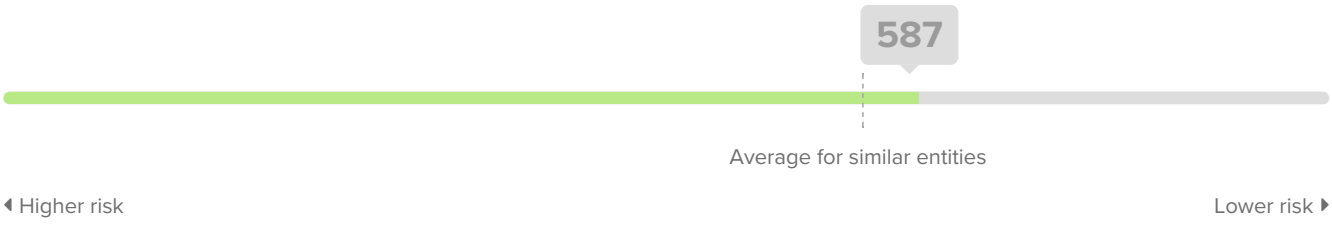
RiskScore summary

Entity has a **3.0% to 4.0% chance of default** within the next 12 months.

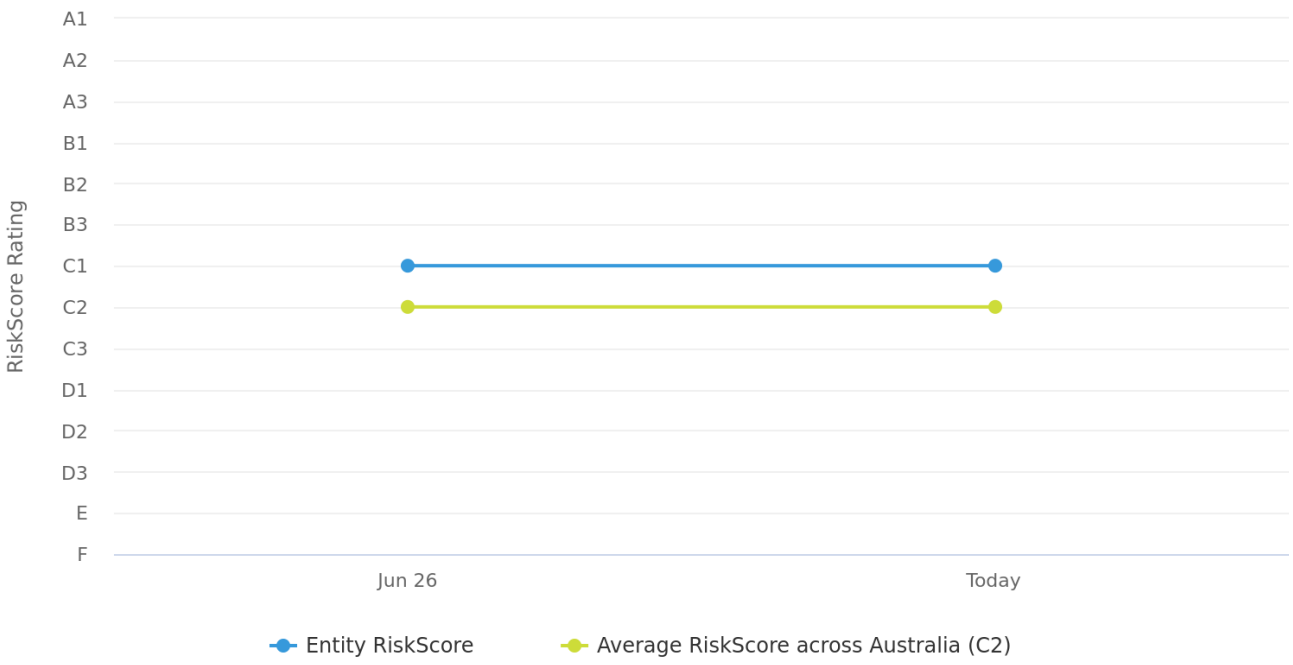
Entity currently has the aptitude to meet credit commitments. Unfavourable business, financial, or economic conditions may impair ability to meet financial commitments. Extend terms and monitor ongoing payment behaviour.

Key contributing factors

- ↓ Data relating to industry and type of the business
- ↑ Data relating to important cross directorships
- ↑ Data relating to adverse risk factors



RiskScore Historical Information
Within the last 12 Months



Did you know?

- The Industry Score is based on the average score of entities within the same ANZSIC Division.
- The average RiskScore across Australia has historically been around **C2** (average default risk over the past 5 years).
- The dotted line shows a **rating band**, not a single score. Your numeric score can change within this band without moving the line.

The CreditorWatch RiskScore is the most advanced algorithm in the market and is designed to ensure you make the right decision. The RiskScore has been developed using the latest machine learning techniques in combination with CreditorWatch's extensive data. The CreditorWatch RiskScore should be used in partnership with your internal credit procedures and policies.

What is "probability of default"?
This is the likelihood that an entity will NOT be able to meet their financial commitments in the next 12 months eg: pay an invoice.

Score Recommendations

RiskScore Rating	Risk Level	Recommendation
A1, A2, A3	Very Low	Very strong credit quality based on behavioural and business demographics. Likelihood of default or insolvency is considered very low. Extend terms within consideration.
B1, B2	Low	Strong credit quality based on behavioural and business demographics. Likelihood of default or insolvency is considered very low. Extend terms within consideration.
B3, C1	Neutral	Lower than average default risk for an Australian business. Business demographics and behaviours indicative of low likelihood of default or insolvency in the short to medium term. Extend terms and monitor ongoing payment behaviour.
C2	Acceptable	Average default risk for an Australian business. Standard underwriting criteria and due diligence recommended prior to extending credit. Extend terms, closely monitor ongoing payment behaviour.
C3	Potential Risk	Behaviours and business demographics may indicate increased risk for some businesses in this group. Assessment of the entity's financial position and cashflow is recommended prior to extending material unsecured credit.
D1, D2, D3	High	Risk of default or insolvency is significantly higher than the average for Australian businesses. COD trading highly recommended.
E	Impaired	Entity is highly vulnerable to default or insolvency in the short term.
F	Defaulted	One or more creditors has initiated legal proceedings or other significant actions in response to unpaid debt obligations, or the entity is entering or has entered insolvency.

Please note that the rating and recommendation should be used in partnership with your company's internal credit procedures and policies. The rating should not be used as the sole reason in making decision about the entity.

What are contributing factors?

How it works

A contributing factor is a datapoint that determines the risk profile of a company. It could indicate a negative or positive impact on a business's ability to continue trading.

↑ The contributing factor drove the entity's RiskScore in a positive direction
↓ The contributing factor drove the entity's RiskScore in a negative direction

Contributing factors that could affect RiskScores

- Data on the registration or location of the business
  Businesses that have been established for a longer period of time, or have operated in the same location longer, tend to be less risky
- Data from invoices or aged trial balances
  Businesses that pay their invoices on time tend to be less risky
- Data relating to the size of the business
  Larger businesses tend to be less risky
- Data relating to important cross directorships
  Businesses without important director behaviour tend to be less risky
- Data relating to adverse risk factors
  Businesses without traditional credit risk drivers such as ASIC published notices or court judgments tend to be less risky
- Data relating to industry and type of the business
  Some industries or business types are more risky than others

Credit enquiries provide an indication of the number of times an entity's credit file has been accessed. For credit enquiries performed in the last 12 months, the date of the enquiry and the industry of the business, sole trader or individual performing the credit enquiry is detailed in the graph and table.

Risk Data

Court Actions

Court Details	Plaintiff	Action	Nature of the Claim	Amount

No Court Actions

CreditorWatch aggregate data from courts around Australia to provide a summary of court actions against an entity. When available, details of the action include location, case number, state, plaintiff, nature of the claim, action type and dollar amount.

Payment Defaults

Added	Invoice Due	Submitted By	Amount	Status

No Payment Defaults Lodged

A default indicates that the debtor has failed to make a payment for goods or services. Payment Defaults are unique to CreditorWatch and can have one of three statuses: outstanding, partial payment or settled.

Tax Defaults

Date Added	Date Updated	Submitted By	Status	Amount

No Tax Defaults Lodged

A tax default indicates that a business has overdue tax payments and has failed to respond to a notice of disclosure by The Australian Taxation Office (ATO). Tax defaults are only lodged on debts that are over 90 days overdue and are over a value of $100,000.

Mercantile Enquiries

Enquiry Date	Mercantile Agent

No Mercantile Enquiries Lodged

A Mercantile enquiry is an indication that a mercantile agency (or debt collection agency) has conducted an enquiry on this entity for the purpose of debt collection.

Status Changes

ASIC Entity Status Changes

Change Date	ASIC Status
21-05-2026	Registered (Current status)

The most common ASIC entity statuses are: registered, deregistered, external administration and strike-off action in progress. This section identifies if there have any been changes to the status of the entity's ACN, and the date the changes have occurred.

Business Names

Registered Business Index

Business Name	Status	Registered Number	Address
There are no business name extracts registered to this company			

Registered Business Names

Name	Business Name Type	Source
RAMP TASMANIAN POULTRY PTY LTD	Main Name	ABR

Business names are derived from two data sources, one of which is basic information provided by ABR. The other comes from the business names extract index which, when available, includes the owner of the business name and registered business address.

To Shareholders

Dear Sir/Madam

TasFoods Limited ACN 084 800 902 (TasFoods)
Nichols Poultry Pty Ltd ACN 092 929 890 (Nichols Poultry)
Nichols Hatchery Pty Ltd ACN 671 683 284 (Nichols Hatchery)
(All Subject to Deed of Company Arrangement)
(together, the Group)

We refer to the appointment of Tim Mableson, David Hardy and Emily Seeckts as Joint and Several Voluntary Administrators (**Administrators**) of the Group on 11 March 2026 pursuant to Section 436A of the Corporations Act 2001 (**the Act**).

At the second meeting on creditors of the Group held on 29 May 2026, creditors resolved that the Group execute a Deed of Company Arrangement (**DOCA**) proposed by RAMP Tasmania Poultry Pty Ltd ACN 698 304 531 (**RAMP**).

The DOCA was executed on 29 May 2026 and lodged with ASIC on 1 June 2026. We, Tim Mableson, David Hardy and Emily Seeckts were appointed as Joint and Several Deed Administrators (**Deed Administrators**) of the Group pursuant to the DOCA.

As you may be aware, TasFoods is a public company listed on the ASX with 387,590,566 ordinary shares on issue. TasFoods is the sole shareholder of Nichols Poultry and Nichols Hatchery.

The DOCA contemplates the sale of the Group's business and recapitalisation of TasFoods by way of transfer of 100% of the issued shares in TasFoods to RAMP (**Share Transfer**) with a view to preserving the ongoing operations of the Group and ensuring the business of the Group continues as a going concern.

On 1 June 2026, the Group granted RAMP a licence to carry on the business of the Group during the DOCA period, pursuant to the terms of an Implementation Licence. Notwithstanding the Implementation Licence, the Deed Administrators retain day to day management and control of the Group and its property until the completion of the DOCA.

ASIC Relief

The Share Transfer is subject to the takeover provisions in Section 606 of the Act. Pursuant to the DOCA, the Deed Administrators are required to seek and obtain ASIC relief pursuant to Section 606 of the Act in respect of the Share Transfer. This will require the Deed Administrators to commission the preparation of an Independent Expert Report (**IER**) for the purpose of the Section 444GA application set out below. We have engaged a third party to prepare the IER, with a view for the IER to be completed in early August 2026.

Application pursuant to section 444GA of the Act

Despite there being a shortfall to ordinary unsecured creditors (and therefore shareholders) under the DOCA, a key component of the DOCA is an application to the Court under Section 444GA of the Act seeking orders in respect of the Share Transfer. The Court may only grant such orders where it is satisfied that the Share Transfer would not unfairly prejudice the interests of existing shareholders.

If granted, the effect of the orders will be that all existing shares in TasFoods are compulsorily transferred to RAMP in accordance with the terms of the DOCA, and existing shareholders will cease to hold any ownership interest in TasFoods.

We intend to commence the Section 444GA Application process once the IER has been finalised.

Tax Loss Declaration

Please be advised that a loss declaration under Section 104-145 of the *Income Tax Assessment Act 1997* (Cth) has not been formally issued to shareholders, as the conditions precedent to the DOCA are yet to be satisfied. However, please note that, in accordance with the Act, shareholders rank behind all other creditors, including unsecured creditors. Given the current quantum of creditor claims in the Deed Administration and the proposed transfer of shares under the DOCA, shareholders will not receive any distribution for their shares in TasFoods.

For further information, please refer to the Australian Taxation Office's guidance on investments in a company in liquidation or administration at https://www.ato.gov.au/individuals-and-families/investments-and-assets/capital-gains-tax/shares-and-similar-investments/investments-in-a-company-in-liquidation-or-administration.

Additional details regarding the Deed Administration are available on our website at https://kpmg.com/au/en/creditors/tasfoods.html.

We recommend that all shareholders and creditors seek their own independent taxation advice in all circumstances.

If you have any further queries, please feel free to contact us via email at tasfoods@kpmg.com.au.

Yours faithfully

To the Creditors and Shareholders as Addressed

TasFoods Limited ACN 084 800 902 (Subject to Deed of Company Arrangement) ("TasFoods")
Nichols Poultry Pty Ltd ACN 092 929 890 (Subject to Deed of Company Arrangement)
Nichols Hatchery Pty Ltd ACN 671 683 284 (Subject to Deed of Company Arrangement)
(together "the Companies")

Notice of Intention to File Section 444GA Application and ASIC Relief Application under the Corporations Act 2001 (Cth) ("Act")

1. Background

We refer to the appointment of Timothy David Mableson, David Alexander Hardy and Sarah Emily Seeckts as joint and several voluntary administrators of the Companies on 11 March 2026 pursuant to Section 436A of the Act.

At the meeting of creditors of the Companies held on 29 May 2026, the creditors resolved that the Companies execute a Deed of Company Arrangement proposed by RAMP Tasmania Poultry Pty Ltd ACN 698 304 531 (**"RAMP"**) on terms not materially different to that set out in the voluntary administrators Creditors' Report dated 21 May 2026.

We confirm that the DOCA was executed on 29 May 2026 and lodged with the Australian Securities and Investments Commission ("**ASIC"**) on 1 June 2026. We, Timothy David Mableson and David Alexander Hardy now act as Joint and Several Deed Administrators of the Companies (**"Deed Administrators"**). We note that Sarah Emily Seeckts resigned as Deed Administrator on 11 August 2026.

2. ASIC Relief

As TasFoods is subject to the takeover prohibitions in section 606 of the Act, the Deed Administrators are required as a condition of the DOCA to seek and obtain from ASIC relief from section 606 of the Act in order for the shares to be transferred to RAMP.

This requires the Deed Administrators to commission the preparation of an Independent Expert Report (**"IER"**) for the purpose of the section 444GA application set out below. The Deed Administrators have commissioned Grant Thornton to prepare the IER. The Application for relief from section 606 of the Act was lodged with ASIC on 21 August 2026.

3. Section 444GA Application

As Deed Administrators we are also required pursuant to the terms of the DOCA to make an application to Court to seek orders for the transfer of the shares in TasFoods to RAMP (**"Section 444GA Application"**).

Further correspondence will be separately sent to shareholders regarding the Section 444GA Application once it is filed with the Court, including making available to shareholders a copy of the Section 444GA Application (together with all supporting information) and inviting shareholders to appear at the hearing of the application should they wish to be heard or otherwise oppose it.

Next steps following ASIC Relief and Section 444GA Application

On completion of the share transfer, the DOCA will be completed, and control of the Companies will transfer to RAMP.

Should you have any queries in relation to this matter, please contact Claire Muecke of this office by email to tasfoods@kpmg.com.au or by telephone on (08) 8236 7220.

Yours faithfully

Section 444GA Application - Explanatory Statement To Shareholders And Independent Expert's Report

I refer to previous correspondence dated XX 2026.

We refer to the appointment of Timothy David Mableson, David Alexander Hardy and Sarah Emily Seeckts as joint and several voluntary administrators of the Companies on 11 March 2026 pursuant to Section 436A of the *Corporations Act 2001* (Cth) (**Act**).

At the meeting of creditors of the Companies held on 29 May 2026, the creditors resolved that the Companies each execute a Deed of Company Arrangement proposed by RAMP Tasmania Poultry Pty Ltd ACN 698 304 531 (**RAMP**) on terms not materially different to that set out in the Creditors' Report dated 21 May 2026.

We confirm that the DOCA was executed on 29 May 2026 and lodged with the Australian Securities and Investments Commission (**ASIC**) on 1 June 2026. We, Timothy David Mableson and David Alexander Hardy[1], now act as Joint and Several Deed Administrators of the Companies (**Deed Administrators**).

Application pursuant to section 444GA of the Act

As a condition of the DOCA, the Deed Administrators are required to make an application to Court to seek orders for the transfer of all of the issued shares in TasFoods to RAMP (**Section 444GA Application**).

The Deed Administrators filed the Section 444GA Application on [TBC Date].

The Court has listed the Section 444GA Application for [type of hearing] on [TBC Date/Time] at [The Federal Court of Australia], located at [insert court address].

A copy of the following documents in relation to the Section 444GA Application is available on the KPMG website (https://kpmg.com/au/en/creditors/tasfoods.html):

(a) the Interlocutory Process filed in the Proceedings in relation to the application;

(b) the supporting Affidavit of [insert name] sworn [TBC Date]; and

(c) orders made by the Court on [TBC Date].

Our report to creditors pursuant to section 75-225 of the Insolvency Practice Rules (Corporations) 2016 is also available on the KPMG website at https://kpmg.com/au/en/creditors/tasfoods.html.

[1] Sarah Emily Seeckts retired from KPMG with effect from 31 August 2026 and ceased to act as a Deed Administrator of the Companies on 11 August 2026. References in this Explanatory Statement to the Deed Administrators are therefore to Timothy David Mableson and David Alexander Hardy only.

DRAFT

We have made available on the KPMG website an Explanatory Statement for the benefit of the shareholders and creditors of TasFoods, which provides more detailed information about the Section 444GA Application. The Explanatory Statement also provides further information about the process for opposing the Section 444GA Application if you seek to do so.

Enclosed with the Explanatory Statement (and available on the KPMG website: https://kpmg.com/au/en/creditors/tasfoods.html) is an Independent Expert Report prepared by Grant Thornton (**Independent Expert Report**). The Independent Expert Report sets out the valuation of the equity in TasFoods on a going concern and liquidation basis.

Shareholders, creditors or other interested persons are entitled to object to the Section 444GA Application. Any shareholders or creditors who intend to appear at the hearing to object must file and serve on the Deed Administrators, a Notice of Appearance (in the Court's prescribed form) and supporting affidavit, which indicates their grounds for opposition, by no later than [TBC Date/Time].

The Deed Administrators will accept service of any Notice of Appearance:
