Our commitments to build a more sustainable future

Our Environmental, Social and Corporate Governance (ESG) commitments are combined in a single global document, which is updated annually.

Our commitments are organized across four categories:

PLANET

We seek to reduce our impact on the environment to build a more sustainable and resilient future. We focus on: Decarbonization, Climate risk, Nature and biodiversity.

PEOPLE

We seek to create a caring, inclusive and values-led culture for our people. We focus on: Diversity, Inclusion and Equity, Health and Well-being, Lifelong Learning and Human Rights.

PROSPERITY

We seek to drive purposeful business practices and good corporate citizenship. We focus on: Purposeful business, Education and communities.

CORPORATE GOVERNANCE

Our Values lie at the heart of the way we do things. To do the right thing, the right way. We act lawfully, ethically and in the public interest and work against corruption in all its forms, including extortion and bribery.

“

We focus on: Planet, People, Prosperity and Corporate Governance, reporting progress and challenges aligned with our Global Impact Plan. Our decisions and services take into account ESG commitments and seek to improve our impact and our clients' impact.

Corporate Social Responsibility

With future generations in mind, we seek changes that generate impact and act in line with our Purpose and Vision. We transform ourselves to make the world a better place, offering increasingly sustainable ideas and solutions. In this sense, at KPMG in Argentina, within the framework of our values, that form the bases of our corporate identity, we work on the development of initiatives focused on education and first employment in order to generate a positive impact on our communities.

To meet our objectives, we invite our employees to participate as volunteers in various actions carried out by the Firm, and they work together with the institutions with which we have alliances. We are very proud of the results obtained in recent years and we continue to work every day to reach more and more beneficiaries.

“

Our aim is that all Firm's employees may join our initiatives so that our actions can have a real positive impact not only on the communities that we support, but also on each of us.

”

XIMENA PÉREZ DIRROCCO

Tax and Legal Director and RSE Leader, KPMG in Argentina

Diversity, Inclusion and Equity

KPMG is one of the leading firms in the world in promoting policies and actions in favor of diversity and equal opportunities.

Our cross-functional approach combines strategies, programs, benefits and actions. This includes internal selection and job placement processes and the career development of our employees.

Recurrent global, regional and local training and exchange spaces, by which we work to raise awareness among all employees thinking about our people's contribution to value.

Among the actions we have taken, special reference should be made to our work on gender equality, by adhering to the "Women's Empowerment Principles" (WEPs) of the United Nations and our participation as **Global Main Sponsor de Women Corporate Directors Foundation (WCD)**, the largest international organization of women leaders in managerial positions. The Argentina Chapter of WCD has been operating since 2017 and, among other activities, annually grants the "Outstanding Women in Business Award".

Entre otras actividades, otorga anualmente el "Reconocimiento a la mujer destacada en el ámbito empresarial".

In addition, we carry out other actions such as:

- **Female mentoring program**, in which representatives of South America member firms actively participate in women training in leadership roles at KPMG.
- **Allies Group**, represented by employees from different areas of the Firm who support DEI to build extraordinary teams that live our purpose and values and reject discrimination of any kind.
- Throughout the year we hold our **webinars #ComeAsYouAre** internal meetings where employees share their experiences and talk about actions being carried out from the DEI Committee in pursuit of a discrimination-free work environment.

“

We believe that working together and sharing experiences, ideas and knowledge strengthens us as a team, fostering pride in belonging to a diverse, inclusive and equitable Firm. At KPMG, we encourage the participation of people with different backgrounds, experiences and capabilities because we know that achieving a safe work environment contributes to increasing creativity and improving people's well-being, positively impacting our Firm's culture.
