Sustainability in the Americas

KPMG value proposition:

An integrated and pragmatic approach to sustainability strategy that boosts trust, mitigates risk, and uncovers new value.

360° service offering

KPMG's Sustainability Strategy aims to make ESG 'the watermark' that runs through our global organization — across borders, service lines, and our teams.

We help clients with their sustainability-related needs focusing on advisory, tax, and accounting services. Today, our teams are supported by our Global Decarbonization Hub, strategy experts, due diligence teams, and specialists on organizational change, reporting, compliance standards, and finance.

Sustainability Solutions

- Climate & Decarbonization
- Strategy, Transformation
- Governance
- Reporting & Governance
- Assurance
- Tax & Legal
- Value and Deals
- Social
- Circular Economy
- Sustainable Supply Chain

Network of professionals

There are over 120 individuals in Latin America working on sustainability related services, supported by a global network of over 2,500 sustainability specialists delivering a broad spectrum of advisory, reporting and assurance services in over 70 countries worldwide (over 11,500 engagements delivered).
