

# IT. Enabled.

## KPMG Powered Enterprise | IT

### To disrupt you must transform

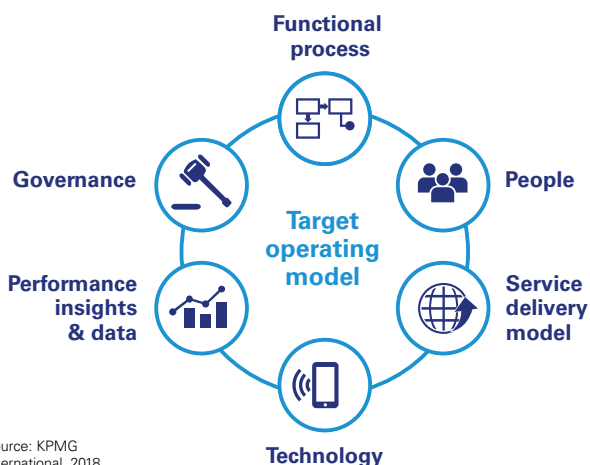

71%<sup>1</sup> of CEOs plan to radically transform their organisations' operating model - and more than half say that acting with agility is the new currency of business. CIOs have a pivotal role to play in how the organisation, its suppliers and its people respond including how to make IT more agile to better support business transformation.

#### CIOs have important questions

- How should I build an agile customer-centric IT function?
- How do we help the wider business transform to a digital future?
- How do I accelerate IT best practice?
- What's the best way to maximise return from cloud ITSM?
- How can we de-risk IT transformation?

#### Powered Enterprise accelerates IT transformation

At the heart of KPMG Powered Enterprise | IT is a pre-built target operating model.

Powered IT is the outcome-driven transformation solution that prepares your business for the future.

KPMG teams understand the human factors involved in business transformation. We can help inspire and empower your people to embrace change, as you align your workforce transformation with industry disruption.

A pre-configured cloud solution, embedded with years of leading practice and enhanced with automation, Powered IT enables you to quickly transform and aims to derive maximum value from your move to the cloud.

It's not what you put into the cloud that matters, but what you get out of it

Powered Enterprise | IT provides:

- A jump start to your digital transformation
- Immediate access to leading practices and processes
- Validated solutions with proven real-world usability
- Reduced implementation risks and enhanced ROI
- High-touch change management and employee experience
- A solid platform for continuing evolution and progress

“ Powered enables us to see the future, relate it to what we have today and move forward with leading practice. ”  
– A multinational hospital

“ KPMG was a perfect fit for us, bringing the tools and experience necessary for us to make a complete and smooth transition to the cloud. ”  
– A US building material company

## Going beyond efficiency gains

Powered IT focuses on the future agility of your business. It includes and reaches beyond efficiency gains from traditional ITSM-related tasks by using automation, predictive analytics and cognitive learning to extend the role of IT. This will not be a legacy you need to discard in five years' time.

### What's in the box?

Powered IT provides a formidable combination of leading practices and processes, proven technology solutions and a next-generation delivery framework.

- The **Powered operating model** shapes how transformation plays through every layer of your organisation;
- the **Powered execution suite** is an integrated platform of next generation tools to help deliver functional transformation;
