

# KPMG Powered Evolution

## Drive future transformation

enabled by Oracle

### Staying ahead in a changing world

You have accomplished the hard part. Your Oracle transformation is largely complete and you are looking forward to realising the benefits of your new-look business function. As you migrate to 'business as usual', the project team is re-deployed and, finally, you are ready to move on. In doing so, you may become distracted from your transformation goals. **This would risk undermining all of the gains you've worked so hard to achieve.**

### The challenge

Evolving regulatory changes, disruptive technologies, process improvements, and new market opportunities are likely to pose further challenges as your business moves forward.

Failing to keep up with the times could lead to your Oracle platform becoming tomorrow's legacy system and your current leading practices begin to lag behind advancements of the future.

Retaining and fully utilising the skilled resources required for your transformation provides a particular challenge. Important quarterly patches and system enhancements for your Oracle platform need to be understood and implemented efficiently. But maintaining a dedicated team with particular skills and know-how that is only required every 3 months is not cost-effective to your business.

Deriving ongoing value from your transformation requires a more agile approach.

### The solution

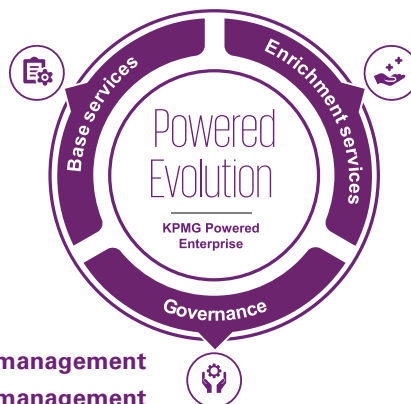

**KPMG Powered Evolution** delivers tested Oracle capability combined with the leading practices and processes needed to help you remain flexible and agile in a world of evolving requirements.

Delivered through a highly-knowledgeable and effective multi-tier global delivery network, providing local and market insight, Powered Evolution offers the right blend of Oracle skills and resources to support the ongoing change necessary to keep your business driving forward.

New features from cloud SaaS providers are often not deployed. Only **16%** of respondents adopted **50%** or more new features. Access the complete survey findings [here](#).

## KPMG Powered Evolution key components

**Case management**  
Quarterly update support  
Patch management  
Knowledge management

**Configuration changes**  
Development and enhancements  
Security and controls  
Data integration  
Interface services  
Report writing

**Release planning and management**  
Change management  
Reporting

## Governance. Manage — Control — Plan.

Release planning and change management services for an early assessment of new Oracle releases, provide input to the change management process and critical oversight, account management, and performance against SLA reporting.

## Base Services. Maintain — Upgrade — Patch.

KPMG Service Desk provides a single point of contact with case management support for management of quarterly updates (including impact assessment), management of patching cycles and leveraging client-specific support content.

## Enrichment Services. Configure — Develop — Enhance — Secure.

Client requested configuration changes, enhancements, report writing, technical and functional data integration, development of new interfaces as well as services to provide management with insights and assurance around control and security.

## We're with you every step of the way

Whether KPMG Powered Enterprise has been used to transform your business, or an alternative route has been taken to this point on your journey, Powered Evolution is here to support your next steps.

### Flexible

We provide the flexibility you need to continue your transformation journey with confidence.
