

Streamline the grant experience

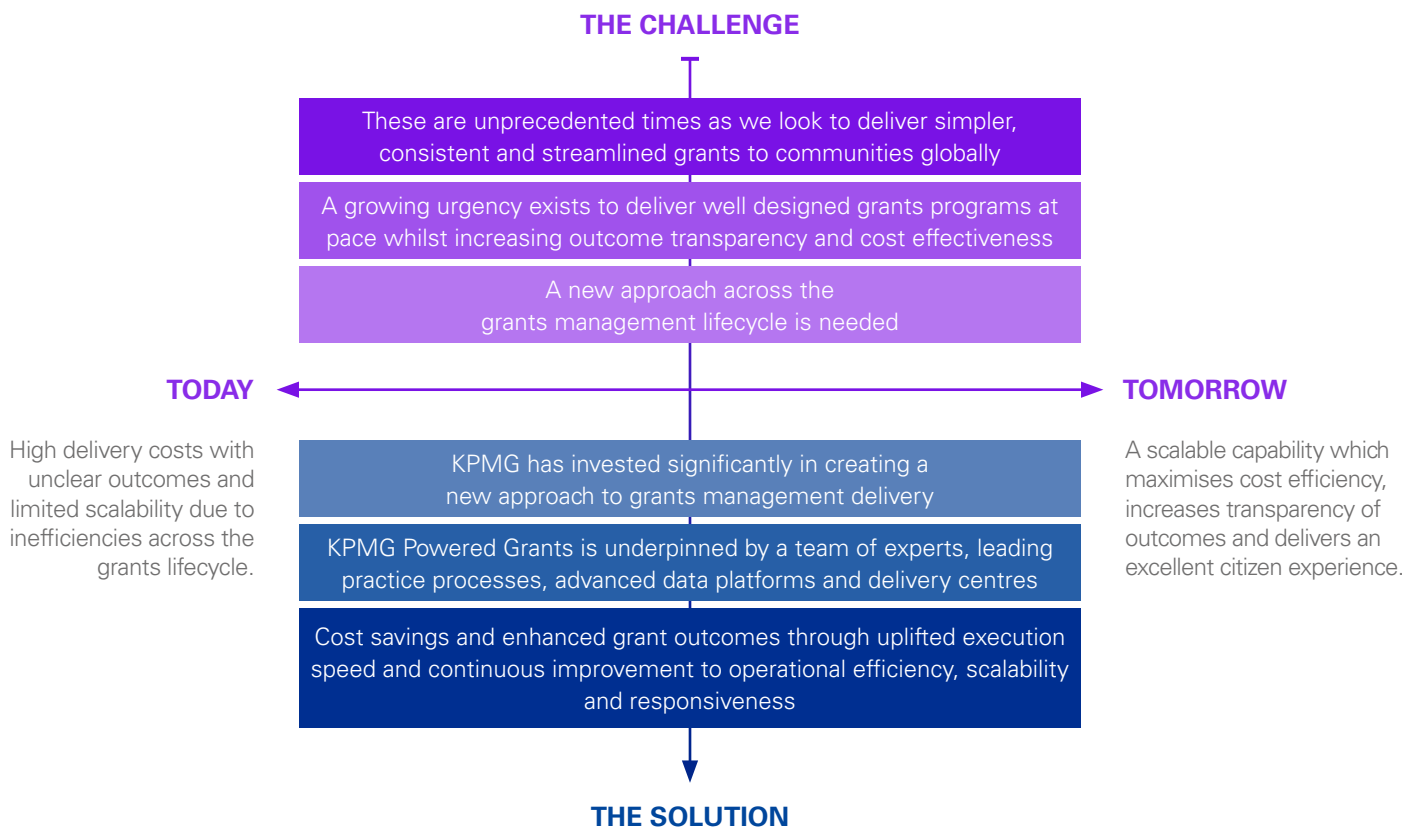

KPMG Powered Grants

Enabled by Microsoft

KPMG Powered Grants

KPMG Powered Grants offers a suite of services that take the complexity out of the grants management landscape. Our solutions advise you on the best course of action, manage the end-to-end grants process, embed quality assurance and enable you to drive efficiency and transparency in your current grants lifecycle.

The KPMG Powered Grants solution delivers a seamless digital experience fit for today's demanding citizen expectations. The solution enables grant programs to deliver funding to market faster and streamlines the end-to-end process throughout the grant application and administration lifecycle. Quality assurance can be embedded throughout the entire grant management lifecycle to enable confidence and evidence-based decision-making in administration.

Provides a fully digital grant application experience, reducing the need for paper based processing, improving the early use of eligibility criteria, and increasing the speed of accurate submission.

Enables an efficient digital back office administration function, managing workload, organising application processing queues, reporting on processing metrics, and ensuring proper controls and alerts.

Provides a secure and reliable service platform, with data sovereignty and fully redundant backup in Australian cloud infrastructure. Scalable integration with other platforms to enable end-to-end processes without manual interventions.

KPMG Powered Grants enabled by Microsoft is a scalable solution that maximises efficiency, increases the transparency of outcomes, and delivers a superior digital citizen experience – representing a single solution for all grant management needs.

KPMG Powered Grants was designed as a pre-built accelerator that can aid in the development of grants management solutions rapidly. The solution provides customers with the no code/low code building blocks for grants management. It helps to mitigate the most commonly occurring challenges during grants management development and implementation.

KPMG Powered Grants includes developer tools comprising frameworks, templates, customisable user interfaces and more. The components of KPMG's Powered Grants solution enable you to quickly implement, run and scale a digital grants offering to the community.

Advice	Enable	Manage	Assure
<p>Guidance to manage grant program risks, ensure appropriate design and continuous improvement.</p>	<p>Grant platform design, configuration and support, enabled by the Microsoft platform.</p>	<p>Design and administration of grant programs as an end-to-end managed service.</p>	<p>Embed operational and strategic quality assurance across the grant program lifecycle.</p>
<p>KPMG's Grants advisory practice provides advice and support when you need it most. Our advice offering is underpinned by a team of specialists and leading practice processes. We can provide you with the support and guidance to manage your grant program risks, ensure appropriate design and continuous improvement, and capture the right insights and outcomes.</p>	<p>Navigate the complex grants landscape with our operating model and technology solution, to support the end-to-end grants administration process. Our technology platform provides efficiencies throughout the grant lifecycle and unparalleled real-time insights into the outcomes being achieved across organisations, programs and geographies. Our platform and in-built controls ensure you capture all the information you need to support defensible decision making, promote compliance and provide traceability and assurance.</p>	<p>You can select from a range of options and grant processes that will be tailored to your specific needs. We can provide you with bespoke reporting, insights and the confidence that your grants are being managed appropriately. Our managed services provide both you and the grant applicant/recipient with efficient and streamlined interactions, grant processes to support achievement of quality outcomes, and a better customer experience.</p>	<p>We can embed strategic and automated operational quality assurance and fraud detection across your entire grant program lifecycle. This gives you and your stakeholders confidence that you are funding the right grantees, the right amounts in the right time and making the best, evidence-based decisions across your grants administration (without slowing you down).</p>

KPMG and Microsoft combine advanced technologies and industry insight to help transform organisations. We engage Microsoft technologies such as [Customer Relationship Management \(CRM\)](#), Enterprise Resource Planning (ERP), Data and Analytics, and Cloud Transformation.

With [Microsoft Dynamics 365](#), we can bring together financials, operations, supply chain, sales, service, marketing and intelligence on one cloud platform, enabling you to connect from anywhere and turn big data into actionable insights.
