Question	
	The Directors have provided their views on the affairs of the Company and attributed the following reasons to their failure:
Why do the Directors believe the Company became insolvent?	<ul> <li>The secured lenders (Westpac as security trustee for secured lenders NAIF and KfW) to Kalium Lakes Potash Pty Ltd declined to provide the final \$5.0m liquidity facility or any further funding in order to continue with the strategic sale process under control of the Board.</li> <li>The Board was then left with no choice but to put the Companies into Administration following which the secured creditors appointed Receivers and Managers on 3 August 2023.</li> </ul>

When do the Administrators consider the Company became insolvent? Further details concerning the Company's insolvency is contained within <b>Section 8</b> of this Report.

Question		
What was the outcome of the sale of business process?	The Receivers and Managers are in control of the Companies and their assets. They have continued with the marketing and sale process for the restructure or recapitalisation of the Companies commenced in June 2023.	
	On 16 November 2023, the Receivers and Managers announced that they have entered into an exclusivity deed with Reward Mineral Limited (ASX: RWD) to negotiate the terms of sale agreement (and any associated documents) required to give effect to the sale of the Beyondie SOP Project.	
	At the time of writing, the sale agreement is still being negotiated and has not been formally executed. Under the terms of the sale that is being negotiated:

	During the course of the Administration, we have been approached by interested parties who expressed an interest in proposing a DOCA for KLL.

## 2. Introduction

This section provides information on the entities subject to the Administration process, the objectives of the Administration, the purpose of this Report, details of meetings of creditors and a summary of the Administrators' remuneration.

Ke	Key takeaways		
1	On 3 August 2023, Matthew Woods, Clint Joseph and Martin Jones, were appointed as joint and several Voluntary Administrators of the Companies by the Directors under Section 436A of the Act.	2.1	
2	Following the Companies being placed into Voluntary Administration on 3 August 2023, the Receivers and Managers were appointed to the Companies on the same day by Westpac Administration Pty Limited (as Security Trustee) pursuant to a General Security Deed granted in its favour by the Company.	2.2	
3	At the Second Meeting of Creditors of held on 11 December 2023, the Administrators resolved to adjourn the Second Meeting for a period not exceeding forty-five (45) business days to 16 February 2024. The purpose of extending the convening period is to allow sufficient time for the Receivers and Managers to conduct a fulsome marketing and sale process for the Companies and/or its assets, namely preserving the opportunity for interested parties to submit a DOCA proposal, which may provide a better return to creditors than a winding up of the Companies.	2.7	

#### 2.1. Appointment of Voluntary Administrators

On 3 August 2023, Matthew Woods, Clint Joseph and Martin Jones, were appointed as joint and several Administrators of the Companies by the Directors under Section 436A of the Act.

#### 2.2. Appointment of Receivers and Managers

Following the Companies being placed into Voluntary Administration, on 3 August 2023, Robert Brauer, Robert Michael and Jason Preston of McGrathNicol were appointed as Receivers and Managers (Receivers and Managers) of the Companies on 3 August 2023 by Westpac Administration Pty Limited (as Security Trustee) pursuant to a General Security Deed granted in its favour by the Companies. The Receivers and Managers are now in control of the business.

The Receivers and Managers represent predominantly the interests of the Secured Creditors, with their primary role being to realise sufficient secured assets to repay the debt owed to the Secured Creditors. The Receivers and Managers have, under the terms of their appointment, the power to manage the assets and trading operations of the Companies.

#### 2.3. Objective of voluntary administration

In a voluntary administration, Administrators are empowered by the Act to assume control of an insolvent company, superseding the powers of the directors and officers, to manage the company's affairs and deal with its assets in the interests of its creditors.

The intention of a voluntary administration is to maximise the prospects of a company continuing in existence or, if that is not possible, to achieve better returns to creditors than would be achieved by its immediate liquidation. During a voluntary administration there is a moratorium over most pre-administration creditor claims.

Administrators are also required to investigate a company's affairs and report to creditors on the Administrators' opinion as to which outcome of the voluntary administration process is in the creditors' best interest, informing the creditors prior to their voting at the Second Meeting (please see **Section 11** for further details).

Kalium Lakes Limited – Supplementary Voluntary Administrators' Report – 8 February 2024 (Administrators Appointed) (Receivers and Managers Appointed)

#### 2.4. Purpose and basis of this report

IPR 75-225 requires a voluntary administrator to provide a report (the **Voluntary Administrators' Report** or this **Report**) to all creditors ahead of the Second Meeting, outlining:

- Details regarding the business, property, affairs and financial circumstances of the entity under administration;
- The Administrator's opinion and recommendation on each of the options available to creditors; and
- If a DOCA is proposed, the details of the DOCA.

This Report also informs creditors about the preliminary investigations undertaken by the Administrators to date. Accordingly, the views formed in this Report are not final and may be subject to change. Any additional material issues that are identified after this Report may be subject to a further written report and/or tabled at the forthcoming Second Meeting.

This Report has been prepared primarily from information obtained from the Companies' books and records and discussions with the Directors. Although the Administrators have conducted certain investigations of the affairs of the Companies', there may be matters which we are unaware of as an audit of the Companies' has not been undertaken.

In order to complete our Report, we have utilised information from:

- the ASIC;
- the PPSR;
- the Companies' book and records;
- discussions with the Directors and former directors of the Companies;
- discussions with key employees of the Companies;
- discussions with creditors of the Companies; and
- other public databases.

#### 2.5. Context of this Report

This Report is based on our preliminary investigations to date. Any additional material issues that are identified subsequent to the issue of this Report may be the subject of a further written report and/or tabled at the Second Meeting.

The statements and opinions given in this Report are given in good faith and in the belief that such statements and opinions are not false or misleading. We reserve the right to alter any conclusions reached based on any changed or additional information which may be provided to us between the date of this Report and the date of the Second Meeting (except where otherwise stated).

In considering the options available to creditors and formulating our opinion and recommendation, we have necessarily made forecasts of asset realisations and total creditors' claims based on our best assessment in the circumstances. These forecasts and estimates may change as asset realisations progress and we receive creditor claims and consequently the outcome for creditors might differ from the information provided in this Report. Creditors should consider seeking their own independent legal advice as to their rights and the options available to them at the Second Meeting.

#### 2.6. Declaration of independence, relevant relationships and indemnities

In accordance with Section 436DA of the Act and the Code, a DIRRI was enclosed with the Administrators' first communication to creditors (and tabled at the First Meetings of Creditors).

The DIRRI disclosed information regarding the Administrators' independence, prior personal or professional relationships with the Company or related parties and any indemnities received in relation to the appointment. This assessment identified no real or potential risks to the Administrators' independence.

There has been no change in the declaration since that time.

#### 2.7. Second Meeting of Creditors

Based on the statutory timetable of a voluntary administration, the Second Meeting was required to be held on or before 7 September 2023. As Administrators, we made an application to the Supreme Court of Western Australia for orders to extend the period of time within which to convene the second meeting of creditors of each of the Companies by a period of three (3) months, ending until 1 December 2023. The Second Meetings of Creditors of the Company was held on Monday, 11 December 2023.

At that meeting held on 11 December 2023, the Chairman determined pursuant to Rule 75-140(1)(b) of the Insolvency Practice Rules (Corporations 2016), that the second meeting be adjourned for a period not exceeding forty-five (45) business days, to enable, amongst other things:

- Allow further time for interested parties to formulate and put forward a DOCA proposal to creditors and to allow the Administrators further time to progress the potential restructure of the Company; and
- Report back to creditors with sufficient information (post the effectuation of the KLP and KLI DOCAs (should the DOCAs be accepted) to accurately determine whether entering into a DOCA (if one is proposed) provides a better return to creditors as compared to an immediate winding-up of the Company.

In accordance with the requirement IPR 75-225(3)(b) and in the absence of a DOCA proposal, the Administrators do not recommend an immediate winding up of the Company or that the administration end and control of the Company be returned to the Directors.

#### 2.8. Reconvened Second Meeting of Creditors

Pursuant to Section 439A of the Act, the Reconvened Second Meeting for KLL is now convened for Friday, 16 February 2024 at the offices of KPMG, Level 8, 235 St Georges Terrace, Perth WA at 10:00 am (AWST). At the Reconvened Second Meeting, creditors will decide the Company's future by voting on one of the following options:

- that the administration should end (in this case control of the Company will revert to its directors); or
- that the Company should be wound up; or
- that the Company execute a DOCA

The Notice of Meeting of Creditors is attached (Annexure A) along with an appointment of proxy form (Annexure E).

All creditors of KLL are entitled to attend the Reconvened Second Meeting. Creditors who wish to participate in the Reconvened Second Meeting must complete and submit the following forms to this office by **4:00pm on 15 February 2024.** 

A person is not entitled to vote at the meeting unless they provide particulars of the debt or claim to the Administrators before the meeting. All creditors must furnish full details of their claims, indicating whether they rank as secured, preferential or unsecured, and whether they claim title to any goods supplied to the Company or any lien over goods in their possession which are the property of the Company.

#### 2.9. Remuneration

An Administrator's remuneration can only be fixed by resolution of a COI, the Company's creditors, or by application to the Court. In accordance with IPR 70-35 and the Code, an Initial Remuneration Notice was provided to creditors with our initial communication and tabled at the First Meeting of Creditors.

Where necessary in this Report, we provide a combined figure for potential realisations of assets when comparing estimated dividends under the relevant options.

#### 6.3. The recapitalisation / subsidiary sale process conducted by the Administrators

During the course of the Administration, we have been approached by interested parties who expressed an interest in proposing a DOCA for the Company.

## 7.1. DOCA Proposal received

We received a DOCA proposal for the Company from Alt Finance Pty Ltd (100% owned subsidiary of Benelong Capital Partners Pty Ltd) in late January 2024 and since that time, we have been negotiating the terms of the offer with the Proponent and the Receiver and Managers (who represent the secured lender).

In summary, the DOCA provides for the following:

- Alt Finance will provide \$125,000 cash to the Deed Administrator and Creditors' Trust.
- The Creditors' trust will also receive the benefit of a placement of approximately 3 million shares (representing 3% of the total shares issued) in the recapitalised entity, which will be held for creditors and claimants of KLL.
- A compromise of all of the unsecured creditor claims and debts against KLL through the execution of the DOCA and the establishment of a Creditors' Trust to distribute the creditors contribution totalling \$125,000 and share placement of approximately 3 million shares (representing 3% of the total shares issued) to creditors (beneficiaries) of KLL and for payment of the fees, expenses and liabilities of the Administrators.
- KLL will continue to trade under the revised ownership structure following the effectuation of the DOCA.
- Pursuant to the terms of the DOCA, priority claims are afforded priority over the unsecured creditors.
- To the extent that there are priority employee claims in KLL (we are not aware of any priority employee claims in the Company) they will receive a dividend of 100c/\$.
- We are uncertain of the ultimate return to unsecured creditors as this will be subject to the equity value following the recapitalisation.

Kalium Lakes Limited – Supplementary Voluntary Administrators' Report – 8 February 2024 (Administrators Appointed) (Receivers and Managers Appointed)

We consider that the proposed DOCA complys with section 25.6.6 of the Code.

5	Key terms of the DOCA	- All PPSR charges must be removed before or at settlement. For completeness, the Receivers and Managers appointment to remain against the Company until the sale of the shares for Kalium Lakes Potash (Receivers and Managers Appointed) (Subject to Deed of Company Arrangement) and Kalium Lakes Infrastructure Pty Ltd (Receivers and Managers Appointed) (Subject to Deed of Company Arrangement) is completed.

The Creditors' Trust will also receive the benefit of a placement of approximately 3 million shares (representing 3% of the total shares issued) in the recapitalised entity, which will be held for creditors and claimants of the Company.

#### 7.3. Important Information for creditors

Item	Information for creditors
	The purpose of the Unsecured Creditors' Trust will be to engage certain tasks ordinarily undertaken by a deed administrator (including but not limited to, the call for and adjudication upon the claims of unsecured creditors) to be performed by the Trustees of the Unsecured Creditors' Trust.
Reason	In order to facilitate the early termination of the DOCA, so that the Company avoids having to trade 'subject to DOCA', which may adversely impact upon its ability to acquire goods and services and, obtain credit, in a way which is consistent with the expectations of proponents for the potential trading resumption with viable business assets.
	Creditors will receive the benefit of a placement of approximately 3 million shares (representing 3% of the total shares issued) in the recapitalised entity, which will be held for creditors and claimants of the Company.
Key events	Upon the satisfaction or waiver of the Conditions Precedent, the amount of \$125,000 will be transferred to the Creditors' Trust and the Deed Administrators will become the Trustees.
•	At this time, the Participating creditors of the Company will convert from being creditors of the Company to become beneficiaries of the Creditors Trust.

Solvency statement	<ul> <li>At the time the DOCAs will be wholly effectuated, the Company will be solvent.</li> <li>This will occur as a result of: <ul> <li>The effect of the DOCA on claims against the Company, i.e. pre-administration claims being transferred to the Creditors' Trust and as such the Company will have no liabilities moving forward other than those incurred by the recapitalised entity;</li> <li>The support of the Proponent who will seek to ensure that the Company has sufficient working capital moving forward.</li> </ul> </li> </ul>	
Tax implications	Creditors who are proposed to become beneficiaries of the Creditors' Trust should seek their own independent legal and taxation advice.	

#### 7.4. Payments from third parties

Alt Finance is proposing the DOCA and the payment of \$125,000 is be raised privately by them and not via a public prospectus. Based on our previous working relationship with BCP, we do not envisage that Alt Finance will experience issues in making the requisite payments.

#### 7.5. Proposed Monitoring and Reporting Arrangements

At any time, should it appear that the terms of the DOCA are not capable of being fulfilled, we will write to advise creditors as soon as practicable and may convene a further meeting to either vary or terminate the DOCA.

#### 7.6. Prospective Financial Information/Contributions from trading

The DOCA is not reliant upon any future contributions from trading of the Company. We also do not have prospective financial information which may assist creditors with their assessment at this time.

#### 7.7. Prospects of DOCA Success

We consider there are good prospects of the terms of the DOCA being achieved as it provides more fully for a restructure and return to creditors which is better than a liquidation scenario.

#### 7.8. Further information for creditors

Creditors should seek their own legal advice as to their rights and the effects of their position in entering into the DOCA proposal and associated Creditors' Trust Deed.

Creditors can obtain further information from the ASIC website at www.asic.gov.au under Regulatory Resources – Insolvency – Insolvency for Creditors.

# 8. Statutory investigations

Please refer to the Administrators' Report dated 1 December 2023 for details regarding the statutory investigations into the Companies affairs.

#### 8.1. Preliminary Investigations

Whilst the Administrators have considered the underlying causes of the Company's failure, our investigations into claims arising from those matters are at an early stage.

The preliminary investigations have not identified any potential claims or antecedent recoveries available in the Liquidation which would result in a return to creditors.

That said, a liquidator (if one is appointed) will conduct further investigations in addition to the preliminary investigations undertaken during the Administration.

#### 8.2. Preliminary conclusion as to solvency

Based upon our preliminary investigation into the affairs of the Company, we consider that KLL was not insolvent for any material time prior to our appointment on 3 August 2023.

For completeness, we note that the above analysis is based upon our preliminary view only, any future appointed Liquidator would need to conduct further investigations (which may include conducting a public examination of the Company's directors and officers) to determine the actual date of insolvency.

# 9. Voidable transactions

Please refer to the Administrators' Report dated 1 December 2023 for details regarding voidable transactions.

#### 9.1. Voidable transaction

We have not identified any potential voidable transactions for KLL. A table of the potential recovery items investigated are below:

Potential recovery item	Value \$
Unfair preferences	None identified
Uncommercial transactions	None identified
Unfair loans	None identified
Unreasonable director-related transactions	None identified

For completeness, we do not expect any claims from employees as they were all employed in the subsidiary KLP, however if the Company is placed into liquidation, employees (other than excluded employees) may be eligible for payment of their outstanding employee entitlements (excluding unpaid superannuation) under FEG, a scheme operated by the Department of Employment. Employees can obtain further information on the eligibility requirements of FEG at https://docs.jobs.gov.au/documents/eligibility-feg-assistance-fact-sheet.

#### 10.4. Timing of dividend

Under a DOCA scenario, the timing of a dividend to the unsecured creditors is subject to the successful completion of the conditions precedent to the DOCA proposal and the establishment of the Creditors' Trust.

It is estimated that a dividend will be paid within 3 to 4 months from the effectuation of the DOCA (i.e. by December 2024).

A dividend to unsecured creditors under a liquidation scenario will be dependent upon the successful recoveries from any insolvent trading claims or antecedent transactions. As discussed previously in this Report, the Administrators have not identified any recoverable antecedent transactions.

# **11. Statement by Administrators**

We are of the opinion that the DOCA proposal put forward by Alt Finance should be accepted by creditors as it provides a more certain and potentially higher return to creditors than an orderly liquidation of KLL's assets.

Pursuant to IPR 75-225(3)(b), we are required to provide creditors with a statement setting out our opinion on whether it is in creditors' interests for the:

- Administration to end;
- The Company to be wound up; or
- The Company to execute a DOCA.

In forming our opinion, it is necessary to consider an estimate of the dividend creditors might expect and the likely costs under each option however in the current circumstances such estimates are not available or may be difficult to predict with accuracy. That said, in general sense, the effect on stakeholders under a restructure of the Company under a DOCA as compared to a liquidation scenario is tabled below:

Stakeholder	Effect of Restructuring (DOCA)	Liquidation
Secured Creditor	<ul> <li>Share in recapitalised entity – subject to equity value</li> </ul>	<ul> <li>Lower return and would need to depend on the successful recovery of its securities outside the Companies subject to external administration.</li> </ul>
Priority Creditors	<ul> <li>In the event there are any identified, these will be paid in full.</li> </ul>	<ul> <li>In the event there are any identified, as there is no return to priority creditors currently anticipated from the realisation of Company's assets, any return will be subject to the FEG scheme.</li> </ul>
Unsecured Creditors	<ul> <li>Potential dividend to unsecured creditors from the successful recapitalisation of the Company.</li> <li>Creditors benefit from a 3% interest in the recapitalised corporate entity (value to be determined).</li> <li>Distribution pending success of DOCA likely December 2024.</li> </ul>	<ul> <li>No likely return to creditors of the Company as we do not expect that there will be any recoveries from the voidable and other transaction referred to in Section 8 and 9.</li> </ul>

Each of the three (3) options available to creditors are considered below.

#### 11.1. Administration to end

Creditors may resolve that the administration should end if it appears a company is solvent, or for some other reason, control of a company should revert to its directors.

From our preliminary investigations and analysis of the Company's financial position, the Company is insolvent and unable to pay its debts as and when they fall due.

If the administration were to end, there is no mechanism controlling an orderly realisation of assets and distribution to creditors. In those circumstances, we are unable to say what the Company may ultimately pay creditors or what costs it might incur.

Accordingly, returning control of the Company to its directors would be inappropriate and is not recommended.

#### 11.2. Winding up of the Company

If creditors resolve that KLL is to be wound up we do not expect that there will be any recoveries from the voidable and other transaction referred to in **Sections 8 and 9** of this Report. A future appointed liquidator will need to conduct further detailed investigations to ascertain if there are any potential recoveries to pursue and with any potential legal issues, these recoveries are uncertain and it may not be commercial to pursue.

Further, the Company's main assets are its interest in subsidiaries (via its shareholding and intercompany loan) KLP and KLI who own and operate the Beyondie SOP Project and a claim for R&D refunds from the ATO, which are both subject to the security of secured creditor.

Accordingly, any funds from the sale of these assets will be applied to the secured creditor debt (c.\$209.4m). It is expected there will be a significant shortfall to the secured creditor from the sale and therefore we do not anticipate any funds available for unsecured creditors from these realisations.

A liquidator would be in a position to conduct detailed investigations into the conduct of directors and the financial affairs of the Company. A liquidator will also be empowered to:

- complete the sale of assets in an orderly manner (subject to the Receiver and Managers' appointment);
- assist employees (if any) in applying for FEG for the payment of certain employee entitlements that cannot otherwise be funded by the Company;
- pursue various potential recoveries under the Act;
- distribute recoveries made in accordance with the priority provisions of the Act; and
- report to the ASIC on the results of investigations into the Company's affairs.

#### 11.3. DOCA

We are of the opinion that the DOCA proposal put forward by Alt Finance should be accepted by creditors as it provides a more certain and potentially higher return to unsecured creditors than an immediate winding up of KLL's assets. This recommendation is subject to any material changes to the terms of the DOCA proposal between the date of this report and the Reconvened Meeting on 16 February 2024.

For completeness, we note that any antecedent recoveries that may potentially be recovered in a liquidation scenario will not be able to be recovered under DOCA.

As stated in **Section 11.1** above, the option of the administration ending is clearly not viable. The only remaining option available to creditors are to wind up of KLL or accept the proposed DOCA.

Further to our comments set out in **Section 11.2** above, we believe the return to creditors under the proposed DOCA will exceed the estimated return under a winding up of the Company. The proposed DOCA is likely to provide a better return to creditors than an immediate winding up because:

- The DOCA makes available funds from Alt Finance (a third party), which would otherwise not be available in a liquidation;
- The potentially lower costs associated with the DOCA over liquidation;
- Any realisation of the assets held by KLL in a liquidation scenario will likely be insufficient to discharge the lender's secured debt and therefore there is no prospect of a return to ordinary unsecured creditors from the realisation of the Company's assets; and
- In a liquidation, recoveries from the voidable and other transactions referred to in Section 8 & 9 of this report are uncertain or unlikely.

Furthermore, we consider the proposed DOCA meets the objectives of the voluntary administration regime as set out in section 435A of the Corporations Act by maximising the chances of the Company, or as much of its business, continuing in existence.

Based on the above it is our opinion that the creditors should resolve that KLL should enter into the proposed DOCA.

## Annexure B – ARITA creditor information sheet

## **Creditor Rights in Voluntary Administrations**

As a creditor, you have rights to request meetings and information or take certain actions:

#### **Right to request information**

Information is communicated to creditors in a voluntary administration through reports and meetings.

In a voluntary administration, two meetings of creditors are automatically held. You should expect to receive reports and notice of these meetings:

- The first meeting is held within 8 business days of the voluntary administrator's appointment. A notice of meeting and other information for this meeting will be issued to all known creditors.
- The second, or decision, meeting is usually held within 6 weeks of the appointment, unless an extension is granted. At this meeting, creditors will get to make a decision about the Companies's future. Prior to this meeting the voluntary administrator will provide creditors with a notice of the meeting and a detailed report to assist in making your decision.

Important information will be communicated to creditors prior to and during these meetings. Creditors are unable to request additional meetings in a voluntary administration.

Creditors have the right to request information at any time. A voluntary administrator must provide a creditor with the requested information if their request is 'reasonable', the information is relevant to the voluntary administration, and the provision of the information would not cause the voluntary administrator to breach their duties.

A voluntary administrator must provide this information to a creditor within 5 business days of receiving the request, unless a longer period is agreed.

If, due to the nature of the information requested, the voluntary administrator requires more time to comply with the request, they can extend the period by notifying the creditor in writing.

#### Requests must be reasonable. They are not reasonable if:

- (a) complying with the request would prejudice the interests of one or more creditors or a third party
- (b) the information requested would be privileged from production in legal proceedings
- (c) disclosure would found an action for breach of confidence
- (d) there is not sufficient available property to comply with the request
- (e) the information has already been provided
- (f) the information is required to be provided under law within 20 business days of the request
- (g) the request is vexatious

If a request is not reasonable due to (d), (e) or (f) above, the voluntary administrator must comply if the creditor meets the cost of complying with the request. Otherwise, a voluntary administrator must inform a creditor if their information request is not reasonable and the reason why.

## **D** – Remuneration approval request

# Kalium Lakes Limited (Administrators Appointed) (Receivers and Managers Appointed) ACN 613 656 643 (the Company or KLL)

#### 1 Summary

We are asking creditors to approve the following remuneration:

Period	Remuneration \$(ex GST)
Voluntary Administration	
Voluntary administration – work completed – 12 December 2023 – 31 January 2024 (retrospective)	14,146.50
Voluntary administration – 1 February 2024 to the end of the Voluntary Administration	15,000.00
Deed Administration (if DOCA approved)	
Deed administration – from execution to completion of Deed of Company Arrangement	20,000.00
Trustees for the Creditors Trust – Future work from commencement to completion	30,000.00
Liquidation (if DOCA not approved)	
If company is placed into liquidation – from commencement to completion of liquidation	150,000.00

Details of remuneration can be found in sections 3 and 4 of this report.

- Please review the contents of this report, which sets out the resolutions to be approved by creditors at the adjourned meeting of creditors on 16 February 2024.
- Refer to section 2 of the supplement report to creditors dated 8 February 2024 for details as to how you can attend the meeting
  of creditors in person or by proxy in order to vote on the resolutions contained in this report.

We estimate that the total combined cost of the administration for KLL, KLP and KLI will be approximately \$760,112.50 (excluding GST). This differs from the cost estimate provided to creditors in the Initial Circular to Creditors dated 4 August 2023, which estimated a combined cost to completion of the administration of between \$200,000 and \$250,000 (excluding GST).

The reason for our current total cost estimate being greater than the amount previously advised to creditors is due to:

- The extension of the administration period, which was done via application to the Supreme Court of WA for an extension of the convening period by three (3) months, ending on 1 December 2023. The extension was necessary to enable the Receivers and Managers to progress their sale and marketing process for the Companies' business and assets.
- In addition, time costs associated with preparing further supplementary report for KLL, KLP and KLI and reconvening the Second Meeting for those entities has also added additional costs to the external administration.

### 2 Declaration

We, Martin Jones, Matthew Woods and Clint Joseph of KPMG, have undertaken an assessment of this remuneration claim for our appointment as Administrators of the Company in accordance with the law and applicable professional standards. We are satisfied that the remuneration claimed is necessary and proper.

We have reviewed the work in progress report for the administration to ensure that remuneration is only being claimed for necessary and proper work performed.

### 3 Remuneration sought

The remuneration we are asking creditors to approve is as follows. We will only seek approval of the resolutions for the DOCA period if creditors agree to the proposal offered. Similarly, we will only seek approval of the Liquidation if creditors vote to place the Company into Liquidation

Actual resolutions to be put to the meeting are set out at **Schedule C** for your information. These resolutions also appear in the proxy form for the meeting that have been provided to you.

#### 4 **Previous remuneration approvals**

### The following remuneration approvals have previously been provided by creditors:

For	Period	Approved by	Amount approved (ex GST) \$	Amount paid (ex GST) \$
Voluntary Administration				
Work already completed	3 August 2023 to 24 November 2023	Creditors	90,710.50	90,710.50
Future Work - Voluntary Administration	25 November 2023 to the Second meeting of Creditors	Creditors	30,000.00	30,000.00
Total remuneration previ	ously approved	-	120,710.50	120,710.50

We are now seeking approval of a further \$29,146.50 in remuneration which will bring total remuneration claimed during the Voluntary Administration period to \$149,857.00.

Schedule D includes an explanation of where the remuneration that was previously approved was spent in terms of task categories.

### 5 Likely impact on dividends

The Corporations Act sets the order for payment of claims against the Company, and it provides for remuneration of the Administrators to be paid in priority to other claims. This ensures that when there are sufficient funds, the Administrators receives payment for the work done to recover assets, investigate the company's affairs, report to creditors and ASIC and distribute any available funds. Even if creditors approve our remuneration, this does not guarantee that we will be paid, as we are only paid if sufficient assets are recovered.

Any dividend to creditors will also be impacted by the amount of assets that we are able to recover, and the amount of creditor claims that are admitted to participate in any dividend, including any claims by priority creditors such as employees.

We are unable to provide a dividend estimate of any certainty at this stage. If we do declare a dividend, any creditor whose claim has not yet been admitted will be contacted and asked to submit a proof of debt.

### 6 Report on progress of administration

This Remuneration Approval Request must be read in conjunction with the report to creditors dated 8 February 2024 which outlines the progress of the administration.

### 7 Summary of receipts and payments

There were no receipts and payments for the Company during the administration period as the Company did not have any funds. In addition, the control of assets vests with the Receivers and Managers.

#### 8 Approval of remuneration

For information about how approval of the resolutions for remuneration will be sought, refer to Section 2 of the report to creditors dated 8 February 2024.
