

# Tax Update

May 2024

The tax environment in Bangladesh is undergoing significant changes with introduction of the new Income Tax Act 2023, Customs Act 2023, etc. with extra emphasis on amendment of existing regulations. This newsletter presents some of our picks from the major updates which any professional should be aware of.

## Income Tax

### 1. Tax implication on compensation for acquisition of property by the Government

Previously, the tax deducted at source on the compensation paid on acquisition of immovable property by the Government was the final discharge of tax liability for the recipient (**all types** of taxpayers) as per ITO 1984. This has now been restored, but now such implication is applicable for only **individual** taxpayers.

### 2. Reduced tax rates for export income

Previously, reduced tax rates were applicable for **all exporters** on their export income subject to fulfilment of conditions such as having a TIN and complying with provisions of ITA 2023. However, now this facility is made applicable for *only* income from export of **goods**.

It should be mentioned that for obtaining a lesser **withholding certificate** under section 123 of ITA 2023, this reduced tax rate can no longer be used. Also, a separate mechanism for computing the applicable withholding tax rate is now prescribed using proportional method. For this purpose, all certificates issued till 3 March 2024 will now become invalid, and new certificate will need be obtained from NBR.
