

Véronique TOULLY

Vice-President and Global Head of Sustainability

Joined UCB in September 2004

Veronique Touilly is Vice-President and Global Head of Sustainability for UCB, a global biopharmaceutical company focused on creating value for people living with severe diseases in immunology and neurology. She is responsible for the integration of sustainability within the company strategy and for supporting the organization in incorporating economic, social and environmental perspectives in order to drive UCB's sustainable business growth.

Veronique joined UCB in 2004 to set up their Market Access Department, integrating outcomes research, pricing and reimbursement strategies. She then led their global team in charge of bringing together the perspectives of patients, payers and healthcare providers into UCB strategy.

In 2010, Veronique moved to Australia with her family to lead the UCB Australia and New Zealand affiliate. In 2013, she became Managing Director of UCB China, based in Shanghai for 5 years.

Prior to joining UCB, Veronique had 10 years' experience as partner in a consulting firm in France. She supported clients in their pricing and reimbursement strategies for drugs and medical devices and worked for leading Fortune 500 pharmaceutical companies and biotech firms. She started her career as a scientist at LFB in France, a pharmaceutical group specialized in plasma derived and recombinant therapeutic proteins for the treatment of rare diseases.

Veronique is a Doctor in Veterinary Medicine (Oniris, France) with a MBA (HEC, France) and a Diploma in Health Economics from the University of York (UK). She is currently undertaking a Master of Studies in Sustainability Leadership at the University of Cambridge (UK), and is the happy mum of 2 daughters.
