

# Enterprise Accounting Solution

Running your own business can be very rewarding, but ensuring your finances are well managed can be a challenge. Sound financial management is the foundation of any successful business and at KPMG in Bahrain; we understand how important it is for entrepreneurs to have confidence in all financial activities. This is why we have developed Enterprise Accounting Solution (EAS) - KPMG's technology-enabled accounting services, specifically designed for our Enterprise clients.

By choosing to use EAS, entrepreneurs no longer need to spend time or resources managing receipts and invoices - KPMG in Bahrain can do it. It could not be simpler – pictures of expenses taken on a smartphone can be sent to a dedicated KPMG accountant via EAS portal (or you can send scanned copies by email, or photocopies by post - whichever is most convenient for you).

## Competitive Price

**EAS** is set to help our Enterprise clients manage all their accounting and bookkeeping needs at an affordable price.

## Efficiency

The innovative technology we use makes financial management processes simple and efficient, giving entrepreneurs time to focus on running their business.

## Innovative Technology

The online tool can be accessed through any web browser and it can be easily customized and linked to third-party applications (i.e. POS, CRM, ERP)

KPMG can take care of your accounting, so you can focus on your business

## Innovative accounting experience that puts you in control

Users of EAS benefit from their own portal page, on which they can view up-to-date information about their financial performance, cash flow, turnover and costs at their own convenience, on their computer, tablet or smartphone, 24-hours a day. Having instant access to accurate business information enables entrepreneurs to make informed decisions and take action when it needs to happen.

EAS is more than just software. Clients are appointed a dedicated accountant to guide users through setting up and embedding chosen services. Our accountants are part of KPMG's network of Enterprise experts who understand the challenges and opportunities businesses face. Our experts use this understanding to support growth and effective operations, wherever entrepreneurs are on their business journey.
