In this edition of Latest insights on Asset Management, KPMG's latest ESG publication: [You can't go green without blue](#). While the world's attention has been caught by the direct terrestrial implications of the green agenda, the 'blue economy' has not been prioritized to date. The 'green' economy should include the sustainable use of oceanic resources, but the pivotal role of the oceans in limiting temperature rises and stimulating socioeconomic development has been comparatively absent from the transition towards a green global economy. Our asset management podcasts series, supporting growth and ensuring care in the asset management regulation report, and much more.

Once you have reviewed the materials, please get in touch with your KPMG contact or me, as we welcome the opportunity to discuss these topics or any other business ideas or issues with you.

Sincerely,
