Personal Tax Rates 2

Federal and Provincial/Territorial Income Tax Rates and Brackets for 2025

Notes

- (1) The federal tax brackets are indexed each year by a calculated inflation factor, which is based on the change in the average federal inflation rate over the 12-month period ending September 30 of the previous year compared to the change in the rate for the same period of the year prior to that. The federal inflation factor is 2.7% for 2025.
The federal government proposed to decrease the rate applicable to the lowest tax bracket from 15% to 14.5% for 2025 and to 14% for the 2026 and later taxation years.
- (2) British Columbia indexes its tax brackets using the same formula as that used federally, but uses the provincial inflation rate rather than the federal rate in the calculation. The inflation factor for this province is 2.8% for 2025.
- (3) Alberta indexes its tax brackets using the same formula as that used federally, but uses the provincial inflation rate rather than the federal rate in the calculation. However, the province introduced a 2.0% limit that applies to its inflation factor, effective January 1, 2025. The inflation factor for this province is 2.0% for 2025.
Alberta introduced a new 8% personal income tax rate on the first \$60,000 of income, effective January 1, 2025.
- (4) Saskatchewan, New Brunswick, Yukon, Northwest Territories and Nunavut index their tax brackets using the same formula as that used federally. The inflation factor for these provinces and territories is 2.7% for 2025.
- (5) Manitoba paused the indexation of the province's tax brackets, beginning with the 2025 tax year.
- (6) Ontario indexes its tax brackets and surtax thresholds using the same formula as that used federally but uses the provincial inflation rate rather than the federal rate in the calculation. The inflation factor for this province is 2.8% for 2025.
Ontario resident individuals with taxable income over \$20,000 are also required to pay a Health Premium each year (see the table "Provincial Health Premiums").
- (7) Quebec indexes its tax brackets using the same formula as that used federally, but uses the provincial inflation rate, excluding changes in liquor and tobacco taxes, rather than the federal rate in the calculation. The inflation factor for this province is 2.85% for 2025.
Quebec residents are required to make payments to the province's Health Services Fund (see the table "Provincial Health Premiums").
- (8) Nova Scotia does not index its tax brackets. Nova Scotia introduced indexation of the province's tax brackets, beginning with the 2026 tax year.
- (9) Prince Edward Island does not index its tax brackets.
Prince Edward Island raised the threshold for the first two personal tax brackets, lowered the tax rates for the first four brackets and increased the tax rate for the highest tax bracket for the 2025 tax year. As a result, the province's top marginal personal tax rate increased to 19% (from 18.75%), effective January 1, 2025.
- (10) Newfoundland and Labrador indexes its tax brackets using the same formula as that used federally but uses the provincial inflation rate rather than the federal rate in the calculation. The inflation factor for this province is 2.3% for 2025.
