Newfoundland and Labrador	11.5	30.0	53.7
<b>Territorial rates</b>			
Yukon	9.0	27.0	50.7
Northwest Territories	11.0	26.5	50.2
Nunavut	12.0	27.0	50.7

### Notes

(1) The federal and provincial/territorial tax rates shown in the tables apply to income earned by a Canadian-controlled private corporation (CCPC). In general, a corporation is a CCPC if the corporation is a private corporation and a Canadian corporation, provided it is not controlled by one or more non-resident persons, by a public corporation, by a corporation with a class of shares listed on a designated stock exchange, or by any combination of these, and provided it does not have a class of shares listed on a designated stock exchange.

Investment income earned by a "substantive CCPC" is taxed in the same manner as a CCPC. A substantive CCPC is a private corporation resident in Canada (other than a CCPC) that is ultimately controlled, in law or in fact, by Canadian-resident individuals.

For tax rates applicable to general corporations, see the tables "Federal and Provincial/Territorial Tax Rates for Income Earned by a General Corporation".

The information contained herein is of a general nature and is not intended to address the circumstances of any particular individual or entity. Although we endeavor to provide accurate and timely information, there can be no guarantee that such information is accurate as of the date it is received or that it will continue to be accurate in the future. No one should act on such information without appropriate professional advice after a thorough examination of the particular situation.

## Combined Federal and Provincial/Territorial Tax Rates for Income Earned by a CCPC—2025 and 2026

### Notes, continued

(2) The small business income threshold is \$600,000 in Saskatchewan. Therefore, Saskatchewan's combined income tax rate on active business income between \$500,000 and \$600,000 is 16% (i.e., 15% federally and 1% provincially).

Nova Scotia increased the province's small business income threshold to \$700,000 (from \$500,000) effective April 1, 2025. Therefore, Nova Scotia's combined income tax rate on active business income between \$500,000 and \$700,000 is 16.5% (i.e., 15% federally and 1.5% provincially) effective April 1, 2025.

Prince Edward Island increased the province's small business income threshold to \$600,000 (from \$500,000) effective July 1, 2025. Therefore, Prince Edward Island's combined income tax rate on active business income between \$500,000 and \$600,000 is 16% (i.e., 15% federally and 1% provincially) effective July 1, 2025.

See the table "Small Business Income Thresholds" for the federal and provincial/territorial small business income thresholds.

(3) The general corporate tax rate applies to active business income earned in excess of the small business income threshold. See the table "Small Business Income Thresholds" for the federal and provincial/territorial small business income thresholds.

CCPCs that earn income from manufacturing and processing (M&P) activities are subject to the same rates as those that apply to general corporations (see the tables "Federal and Provincial/Territorial Tax Rates for Income Earned by a General Corporation").

(4) The small business tax rate is temporarily reduced to 4.5% (from 9%) and the general corporate tax rate is temporarily reduced to 7.5% (from 15%) for eligible zero-emission technology manufacturing profits. The reduced tax rates are gradually phased out starting in taxation years that begin in 2032, and are fully phased out for taxation years that begin after 2034.

(5) The federal and provincial/territorial tax rates shown in the tables apply to investment income earned by a CCPC, other than capital gains and dividends received from Canadian corporations.

The rates that apply to capital gains are one-half of the rates shown in the tables.

Dividends received from Canadian corporations are generally deductible in computing regular Part I tax, but may be subject to Part IV tax, calculated at a rate of 38 1/3%.

(6) Corporations that are CCPCs throughout the year may claim the small business deduction (SBD). In general, the SBD is calculated based on the least of three amounts — active business income earned in Canada, taxable income and the small business income threshold.

(7) A general tax rate reduction is available on qualifying income. Income that is eligible for other reductions or credits, such as small business income, M&P income and investment income subject to the refundable provisions, is not eligible for this rate reduction.

Income of a corporation earned from a personal services business is not eligible for the general rate reduction and is subject to an additional 5% tax, which increases the federal tax rate on personal services business income to 33%.

The information contained herein is of a general nature and is not intended to address the circumstances of any particular individual or entity. ## Combined Federal and Provincial/Territorial Tax Rates for Income Earned by a CCPC—2025 and 2026

### Notes, continued

- (8) The refundable tax of 10 2/3% of a CCPC's investment income and taxable capital gains, as well as 20% of such income that is subject to regular Part I tax, is included in the corporation's non-eligible refundable dividend tax on hand (NERDTOH) account. When non-eligible dividends are paid out to shareholders, a dividend refund equal to the lesser of 38 1/3% of the dividends paid or the combined balance in NERDTOH and eligible refundable dividend tax on hand (ERDTOH) accounts is refunded to the corporation. The dividend refund on non-eligible dividends must come out of the corporation's NERDTOH account before it comes out of the corporation's ERDTOH account.
- (9) Saskatchewan cancelled the previously scheduled increase of the province's small business income tax rate to 2% on July 1, 2025. As a result, the province's small business income tax rate will remain at 1%.
- (10) Quebec's small business deduction is generally available to corporations only if their employees were paid for at least 5,500 hours in the taxation year (proportionally reduced for short taxation years) or if their employees and those of their associated corporations were paid for at least 5,500 hours in the previous taxation year, to a maximum of 40 hours a week per employee (excluding the hours paid to a subcontractor). The small business deduction is reduced linearly between 5,500 and 5,000 hours, and falls to nil at 5,000 hours.
- (11) Nova Scotia decreased the province's small business income tax rate to 1.5% (from 2.5%) effective April 1, 2025.
- (12) Prince Edward Island decreased the province's general corporate income tax rate for active business income, M&P income and investment income to 15% (from 16%) effective July 1, 2025.
