

KPMG Data Analytics Solution

Insightful – quick – hassle-free

KPMG Data Analytics Solution is tailored to **second** and **third** line of defence functions, including risk management, compliance and internal audit. It serves to **provide insights** and **uncover outliers** in key areas of focus to assist in management **decision-making** and enhance **operational effectiveness**.

Insightful

- ✓ Turns seemingly meaningless data into **valuable insights** with our in-house data analytics solution
- ✓ **Generates dashboards and visualised charts**, identifying outliers, anomalies and irregular patterns
- ✓ Provides **potential root causes and indication nature** of trends and discrepancies for process/control enhancement
- ✓ Provides access to a **repository of 300+ analytics objectives** across multiple business functions and industries

Quick

- ✓ **Involves minimal deployment and short turnaround time** from data extraction to analysis
- ✓ **Reduces the overall cost and effort** of the second and third line of defence over a period of time, with better quality analytics
- ✓ Supports data in various formats from multiple enterprise resource planning (ERP) platforms, and **analyses millions of records** rapidly

Hassle-free

- ✓ Provides plug-and-play compatibility with **multiple ERP platforms**, with no requirement for additional configuration or intervention to your existing systems
- ✓ **Does everything for you** – tell us your concerns, sit back and allow KPMG to provide the analytics solution, with full analysis results and insights
