

Employer Compliance

People Services

Employer compliance is complex and challenging. Employers need to be aware of, handle and manage issues across a range of disciplines including payroll, immigration, tax, MPF and legal¹ which intersect. The increasing responsibilities of HR and Finance teams coupled with the proliferation of offshore shared service centres over the years heightens the need for robust processes, controls, training and maintenance to ensure that compliance requirements are met.

Our Services

Review

Identification – Perform a multi-faceted health check on your payroll and reporting process
