Bookkeeping and Payroll Services

Today's complex economic environment requires that you get the most out of your finance and payroll functions – simply meeting statutory requirements is no longer sufficient.

Your performance is our top priority

Our Global Compliance Management can provide you with specially tailored bookkeeping and payroll services that meet your needs and your budget.

Whether you:

- need to reduce costs
- wish to improve the quality of your accounting information
- need to fill the sudden absence of a key staff member
- require specific skills and advice
- would like more management information from your accounting
- wish to reduce risk

we can help you make the most of your finance and payroll functions and help you run your business better.

Why choose KPMG?

KPMG in Cyprus is one of the leading companies on the market, and our GCMS is dedicated to providing customer-focused financial management and payroll accounting services, as well as related advisory services.

Your partner, not just a provider

With KPMG, you can be assured that our goal is to be more than simply a service provider – we aim to be a partner that responds proactively to your needs. Many companies cannot imagine entrusting sensitive business processes to an outside organisation, but we work to develop relationships and trust as if our team members were your own employees, at both the operational and managerial levels,

so you can turn to us at any time with whatever issue you face.

Focus on your particular needs

We take a pro-active approach with all our clients: although our work can be easily grouped into types, we do not provide standardised services but rather adapt our services to meet our clients specifications. So whether you require accounting supervision one day per month or large-scale outsourcing services, our services can be targeted to accommodate your needs.

The skills you need

Our bookkeepers have a thorough understanding of accounting, tax, commercial and labour law, and are capable of undertaking all types of bookkeeping and payroll-related tasks. As such, services that other leading firms find difficult to provide are standard for us. We are one of the few companies on the market that can rightly claim to be not simply bookkeepers, but, in conjunction with our tax and advisory departments, we can be your trusted business advisor in all aspects of your business.

KPMG also allows you to benefit from the skills and knowledge of the global network of KPMG member firms.

Help with reducing risk

KPMG undertakes to inform about all changes in legislation on time and adjust deductions, contributions and payments according to new regulations immediately. No matter what service you need, access to the resources and staffing you require is constant and

consistent. Issues such as a potential loss of productivity due to illness, absence or employees leaving your firm are taken out of your hands. With KPMG, you also reduce risk because we maintain strict confidentiality, ongoing compliance with statutory regulations, and access to the knowledge and skills necessary to meet your needs.

Added value to your business

Your performance is our top priority, and we undertake all our work with a focus on your interests. We provide you with feedback on an ongoing basis, and thanks to this open, straightforward approach, you gain better insight into your financial performance, which enables you to manage your business better. Working with KPMG in Cyprus can also introduce a certain degree of fiscal discipline, primarily in the area of accounting controls, processes and procedures. This fiscal discipline can have numerous benefits, ranging from more accurate accounts to better access to third-party financing.

Both the management and team members working on your engagement would be available at all times for consultation, assistance, or general advice. This aspect of our service is crucial for developing our relationship with you and adds significant value to the services we provide.

Why KPMG?

Our expert compliance professionals think beyond the immediate compliance task to add longer-term value to your organisation through our:

Global mindset

Our global service recognises the international reach of today's businesses providing effective global client service with local expertise.

Forward thinking

KPMG recognises that outsourcing is a major commitment for both parties and should be a long-term partnership. We seek to build those relationships that can change as you develop, while at the same time improve your compliance processes and relationship with your regulator.

Value adding

At KPMG, we won't relegate your regulatory reporting to a mere process. We aim to provide reassurance around your key filing positions and add value through the identification of better disclosure positions and planning opportunities.
