Modernize Your Data. Power It with AI.

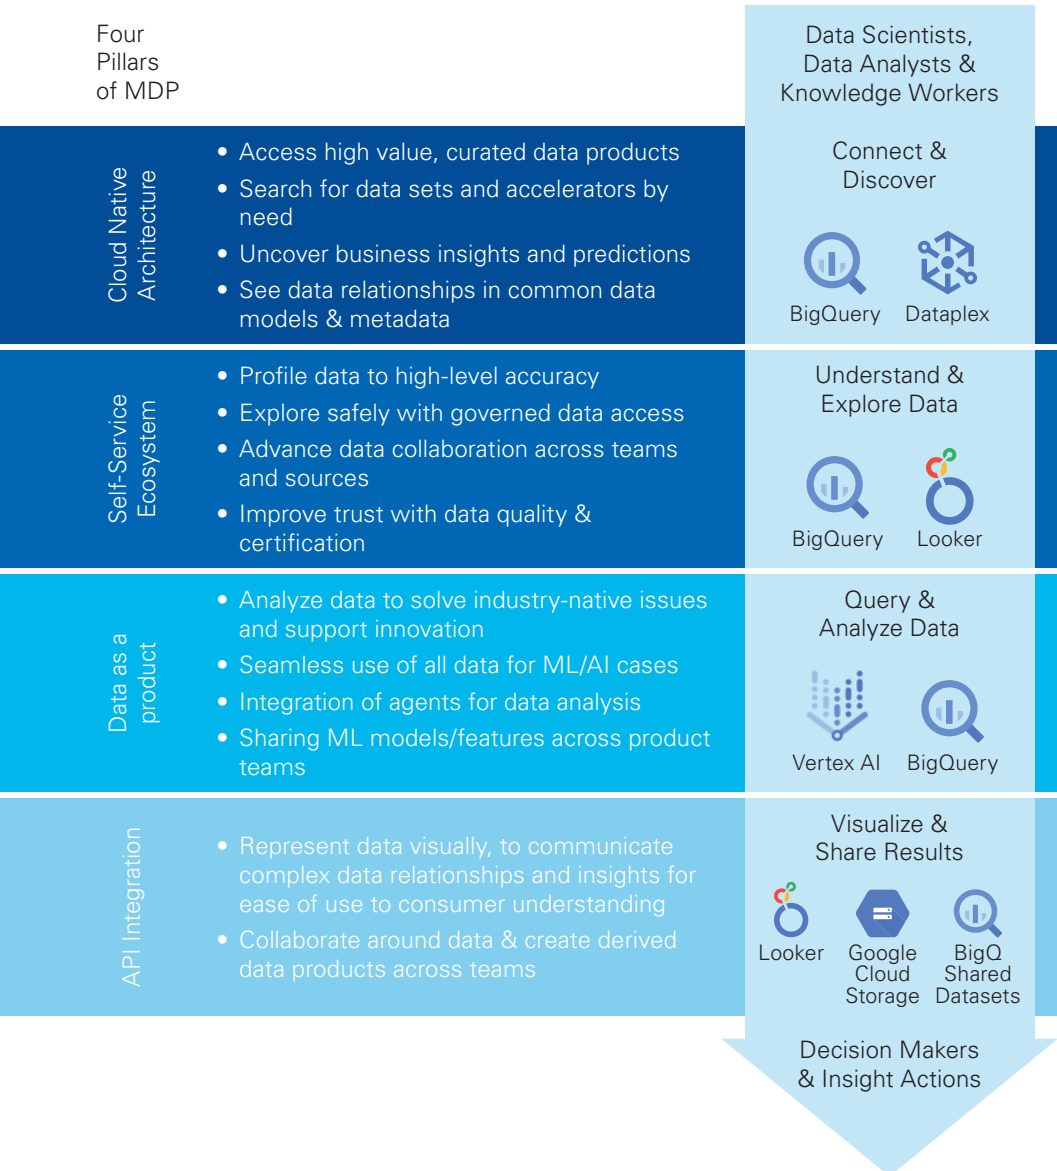

Unlock the full potential of your data with cloud-native analytics and AI-driven insights. From legacy data warehouse migrations to intelligent data platforms in the cloud – we help you build scalable, future-ready solutions that deliver real business value.

Integrated data experience informs decision makers

KPMG Modern Data Platform (MDP) provides users with a seamless experience and journey across the platform from discovering the data all the way to getting insights from the data.

Four Pillars of MDP

KPMG Powered Enterprise for AI Transformationen with Google Cloud Platform

Powered Enterprise is a results-driven approach to functional transformation that combines deep industry expertise, global delivery capabilities, and the Google Cloud Platform. By utilizing pre-built templates and a clearly defined Target Operating Model (TOM), it fosters sustainable change, enhances performance, and boosts the resilience of our clients.

This approach encompasses five clearly defined phases:
