

KPMG Denmark Interim Services

Your business may sometimes experience a lack of resources in central accounting functions, often as a result of:

- Prolonged absence
- Maternity
- Periodically increased business activity
- One-off events, such as mergers and restructurings.

We work with all kinds of businesses, and we have more than 200 years of experience. Our objectives are:

- We service both small, medium and large Danish and international groups
- Our highest priority is to match your business with the right interim consultants
- Our consultants will enter your business on an equal footing with your employees
- Our consultants will quickly take ownership of their new role and responsibilities.

We provide interim assistance to all employee and management levels in your organisation. Below, you will find a number of examples of roles that we can handle for you.

Interim roles

Chief accountant

We can take charge of the daily management of your financial function.

Financial controller

We can assist with forecasting, budgeting and reporting.

Finance manager / business partner

We can assist with the financial management, reporting, chart of accounts and validation of data.

Accounts officer

We can assist with receipts, master data, provisions, accruals, VAT and settlements.

Modelling and analysis experts

We can assist with consolidation models, data models and control models.

Reporting responsible

We can assist with the preparation of dynamic reports.

Payroll consultant

Salary tasks, interim ad hoc assistance to the payroll department and assistance to reimbursements and implementation of payroll system.
