Loi AGEC : what does it mean for the sector?

For the Textile Industry, it lays the **first stepping stones** towards a more circular sector with very concrete obligations to be **implemented as soon as 2022**

Promote the production of more sustainable and circular products
#bonus-malus

Collect and valorize used products
#Re-fashion

Ban on the destruction of unsold goods
(as of January 2022)
#donation #re-use

Better inform the consumer
#logTriman
#product-environmental-qualities

“Loi n° 2020-105 du 10 février 2020 relative à la lutte contre le gaspillage et à l'économie circulaire (AGEC)”

Better Inform the Consumer : the new mandatory communication on environmental qualities and characteristics

For each product, the following information are to be made available to consumer

Recyclability of the product

“mostly recyclable product”,
“fully recyclable product” or
“closed-loop recyclable product”

% of recycled material

+ synthetic fibers

Hazardousness of the product

“contains a hazardous substance” or “contains a substance of very high concern”

Traceability

country where each of the operations is carried out :
weaving, dyeing and printing,
assembly/manufacturing.

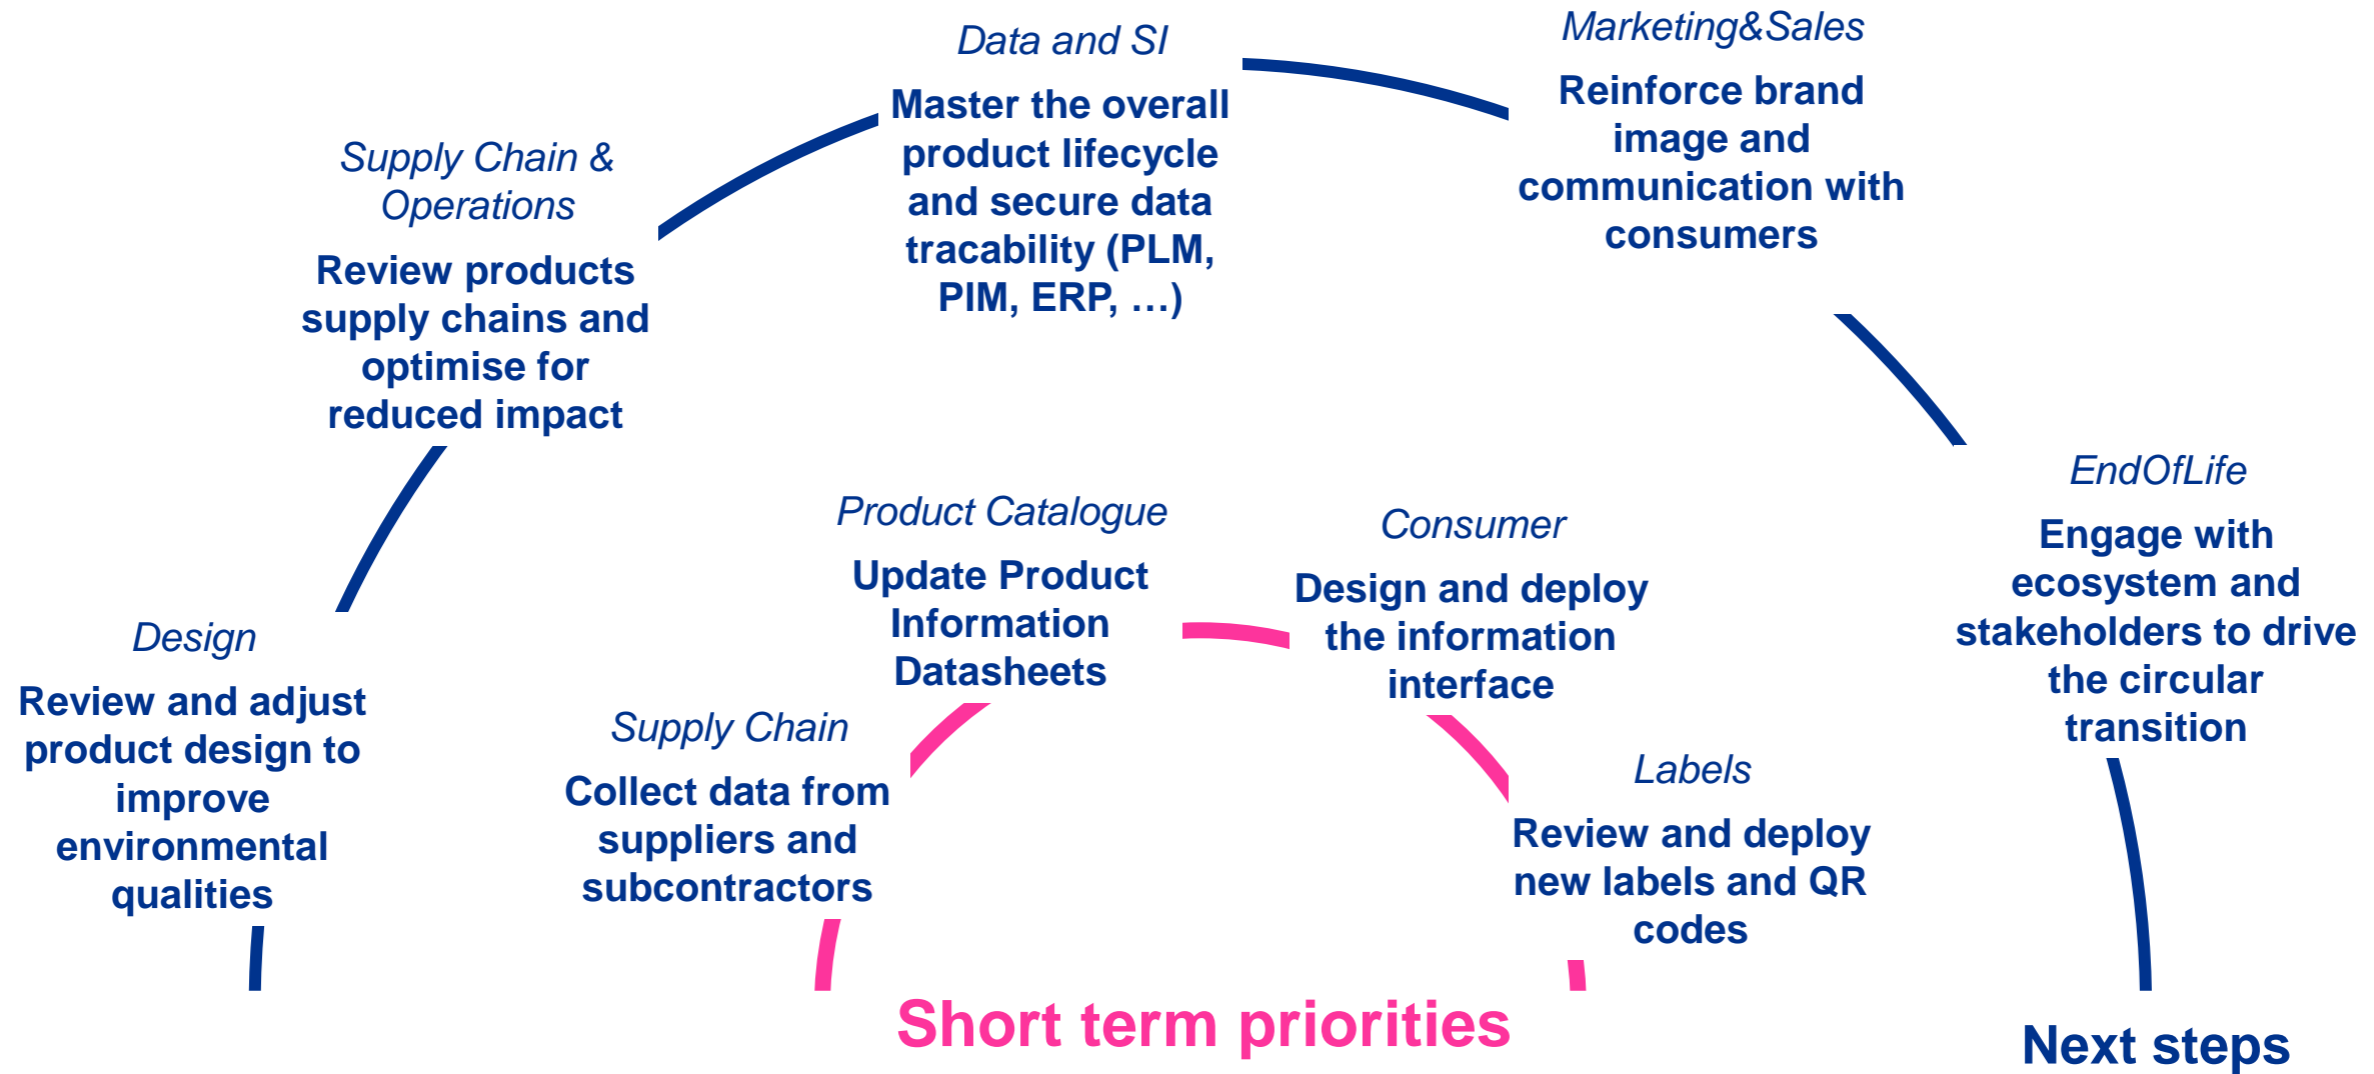

In order to limit unsubstantiated environmental claims, the terms “**biodegradable**” or “**environmentally friendly**” can no longer be used on the garment or the packaging (applicable to all).

All this information must be available **in a dematerialized format, accessible free of charge** at the time of purchase. The information must be **available for 2 years** after the last unit of the product concerned has been placed on the market
