We provide the licensed gambling industry in Gibraltar with a single voice on all the issues of importance to regulators, legislators, and key decision makers in Gibraltar predominantly, but around the world as required

Future Horizons – Charting the next decade – my thoughts

- Cooperation, collaboration and communication between all stakeholders in Gibraltar is key
- Involve the industry - Ask the industry – Listen to the industry
- GBGA not just a members' association – a platform Government and other third parties can use
- Sustainable and resilient GBGA led by members for members - lower membership fees
