Consistent with our commitment to provide [updated information](#) on current tax issues, you may find below a list of filing obligations for the forthcoming period. We emphasize that this is not a comprehensive list, but rather a list of the most common tax filing obligations.

Withholding Tax

Taxes withheld in November

By 1 February

- Submission of tax returns for taxes withheld on the following sources of income:

In order for reduced withholding rates pursuant to the Tax Treaties for the avoidance of double taxation to be applied, the foreign beneficiary of the income must provide the relevant tax residence certificate.

Respectively, in order to apply the provisions of the European Directives as adopted by local provisions, and for nil tax to be withheld on income arising for non residents for dividends, interest and royalties, a nil withholding tax return must be filed. The relevant tax residence certificate should be duly drafted upon submission.

- Submission of the withholding tax return and remittance of tax withheld in the following cases:
