

On site support services

If you are short on in-house expertise or knowledge, you can utilize KPMG on site support services.

We have a multi-disciplinary team, consisting of subject matter experts in accounting, controlling, internal audit, tax, regulation, HR, technology, project and risk management.

Our services can provide a flexible and efficient solution to quickly solve any problems arising.

KPMG Hungary is a market leader in shared services and outsourcing

43.000+ hours
On site support / year

50+
Subject matter experts

30+
Satisfied clients

Typical client challenges

- Difficulties of hiring, gaps in knowledge transfer between staff changes
- Understaffed finance departments (O2C, R2R, P2P) starting with accounting clerks, through specialists to supervisors
- Temporary resource management challenges
- Transitions, regulatory changes and inefficient processes
- System changes, gaps in project management

How we can help

- KPMG provides tested HR quality for a defined period of time
- Arranges onsite support services quickly and efficiently
- Not only covers your current needs but also adds value to your existing business processes
- Provides on site support services to execute specific projects or to bridge an emergency situation
- Delivers solution without increasing FTE permanently
