KPMG SCHOLARSHIP TESTIMONIALS

My name is Oliwia Osmanowska and I am currently in my second year at Queen's University studying Accounting with French.

My experience with KPMG has been exciting and very welcoming, I was very nervous applying for the scholarship at first but the support that KPMG have given me is immense and I would recommend KPMG to anyone planning to pursue a career in Accounting. There is a wide variety of career paths that are available, I have completed my summer internship in the Tax department and decided to keep it on for my next summer internship as I enjoyed it immensely and met a lot of people such as my mentor, buddy and the various graduates who guided me along the way and informed me of all the opportunities available.

I am very grateful for being able to experience life at KPMG and I cannot wait to complete my next summer internship!

My name is Philip Hamill and I'm currently in second year of Accounting at QUB and my second year of the KPMG/QUB Scholarship.

The mentorship was one of the aspects that attracted me to the scholarship. It's nice to be able to connect with somebody who's been in a similar position as I am and hear his point of view. On top of this, discussing different career opportunities with him helps me set goals and motivates me to work towards them.

I would strongly encourage any student to apply for the KPMG summer internship. The programme is pitched at a difficulty which is suitable for undergraduate students and grants a real insight into what careers in audit, tax and deal advisory might look like. On top of this, the social events which take place during the internship are great opportunities to meet students who are considering similar career paths to you.

Ultimately, applying for the scholarship was one of the best decisions I have ever made. While the experience gained from the selection process was invaluable, being awarded the scholarship has not only opened up doors for me in the future but reminds me that people have invested in seeing me succeed, giving me the drive to perform at my highest ability, not only at university but in all facets of life.
