KPMG SCHOLARSHIP TESTIMONIALS

My name is Oliwia Osmanowska and I am currently in my fourth year at Queen's University studying Accounting with French.

My experience with KPMG has been exciting and very welcoming, I was very nervous applying for the scholarship at first but the support that KPMG has given me is immense and I would recommend KPMG to anyone planning to pursue a career in Accounting. There is a wide variety of career paths that are available, I have completed my summer internship in the Tax department twice now and I couldn't be more than happy with my choice! I enjoyed it a lot and learnt a lot from my experience. Various people such as my mentor, buddy and the recent graduates guided me and supported me through every step of the way. My confidence, communication skills and problem solving have improved greatly and cemented my choice to become a chartered accountant. I am very proud to say I received a job offer with sponsorship of my masters included as well and I cannot wait to embark on my career journey with KPMG!

My name is David Stinson, and I am currently in my third year of Accounting at QUB.

I am also in my third year of the KPMG scholarship programme and am very grateful for the unrivalled opportunities this has presented. The mentorship aspect of this programme was a key part that encouraged me to apply. In addition to introducing me to members of the tax team, my mentor has been a great source of advice and motivation for my studies by hearing how he has progressed from a graduate role to a trusted and senior member of the tax team. Furthermore, he has also provided a unique experience of how theory taught in lectures is applied in real-world situations, not only reinforcing knowledge, but also developing a deeper understanding.

Throughout last summer's internship in tax, I witnessed first-hand KPMG's positive people-oriented culture and their unrivalled professionalism. This internship also provided opportunities to meet and network with other students, across all business units, through KPMG's wide range of social activities, training events and team-based projects. Indeed, these not only broadened my horizons and understanding of the accounting industry, but also of audit and deal advisory at KPMG.

Fundamentally, I would recommend this scholarship without any hesitation. Since KPMG is such a highly respected global firm, the future opportunities associated with this scholarship are considerable. Indeed, the mentoring and internship experience have reaffirmed my future career choice
