The manager will have the following responsibilities:

- Lead high-impact internal audit engagements, integrating AI, data analytics (IDEA, Power BI, Tableau, etc) to enhance internal audit efficiency.
- Design risk-based audit strategies aligned with COSO, SOX, and IIA standards, ensuring compliance while driving business value.
- Advise clients on digital audit transformation, from robotic process automation (RPA) to predictive analytics.
- Manage cross-functional teams, mentor talent, and foster a culture of innovation and continuous improvement.
- Stay ahead of emerging risks, regulations, and tech trends to deliver proactive, future-ready solutions.
- Any other duties and responsibilities as may be assigned from time to time.

- Possess strong written, verbal and research skills with the ability to work well both autonomously and collaboratively.
- Resilience and Tenacity: must be able to always sustain motivation and commitment and can contain and absorb stressful moments and issues.
- Multicultural Skills: must be able to operate and interact in a multicultural environment and uphold cultural diversity; and
- Pragmatic Problem-Solving Skills: ability to handle and resolve unstructured problems and provide effective solutions or avenues for the solutions to come from other team members.

We offer:

- An exciting opportunity to work with a Big 4 firm on cutting edge clients across Africa.
- Opportunity to lead the Digital Internal Audit Revolution – work in setting the standard for internal audit of the future in the region.
- Continuous learning and development.
- Exposure to multi-disciplinary client service teams.
- Unrivalled space to grow and be innovative.
- Collaborative Culture: Join a team of innovators, problem-solvers, and industry experts
