

Transparency Report 2021

Our relentless focus on quality

KPMG in the Cayman Islands

kpmg.ky

Message from the Managing Partner

This report illustrates how KPMG in the Cayman Islands upholds our professional responsibilities, outlines our firm's structure, governance and approach to quality control, and articulates the innovative ways we maintain a relentless focus on audit quality.

KPMG in the Cayman Islands has developed its strategy, fully aligned with KPMG's Collective Strategy of Trust and Growth, with an aim to be the most trusted and trustworthy professional services firm. Delivering quality audits is a strategic imperative that requires building and maintaining a quality centric culture where our leaders are held accountable and our people are trained and developed and ultimately rewarded for meeting this goal. We measure our people's engagement in this and other areas through our Global People Survey.

Our culture is underpinned by Our Values which guide our actions and behaviors. The [KPMG's Global Code of Conduct](#) defines who we are and how we will act and everyone at KPMG is expected to follow it.

In performing high quality audits, we draw upon a wide range of specialist skills both within our firm and throughout the KPMG network. We are investing and equipping our people with leading technology through our "smart" audit platform, KPMG Clara and related technologies. The platform brings our powerful data and analytical capabilities into one interface with the ability to integrate new technologies such as artificial intelligence and machine learning.

This year, our "normal" was and continues to be disrupted by the COVID-19 pandemic. Our people are at the heart of our business and supporting their wellbeing remains a top priority during challenging times. This means assessing and readjusting our systems, work environments and how we work to meet our strategic imperative of audit quality and delivering excellence in client service.

Together, we have demonstrated our ambition while growing our market share – all of which is underpinned by our Global Collective Strategy. Our behaviors and how we work together are shaped by our purpose and framed by our refreshed values of Integrity, Excellence, Courage and Together for Better. In addition, KPMG's new Global Quality Framework outlines how every partner and employee contributes to delivering high-quality audits. We recognize creating the right environment requires strong governance and practice management standards which allows us to achieve greater levels of consistency and accountability across our organization. Quality is the bedrock of our profession, and our common set of Values, standards and service level expectations, demonstrate our commitment to delivering high- quality audits.

Thank you for the trust you have in us.

Andrew Stepaniuk

KPMG in the Cayman Islands has an unwavering commitment to audit quality and integrity. Quality is engrained in our values and our mindset. We have deliberately designed and nurtured a culture that supports and promotes audit quality.

Our leaders stress quality work and monitor our progress toward consistently getting it right, from our incoming Trainee Accountants to our most senior Partners.

We always hold ourselves accountable for audit quality which we define as:

- The outcome when audits are executed consistently, in line with the requirements and intent of applicable professional standards, within a strong system of quality controls; and
- All of our related activities are undertaken in an environment of the utmost level of objectivity, independence, ethics and integrity.

In addressing our ambition to be the most trusted and trustworthy professional services firm:

- We consistently commit to the highest levels of quality in all that we do;
- We invest in our people, processes and systems to ensure a robust system of quality control; and
- We view innovation as essential to continuous improvement.

To further promote audit quality, we have established policies, clearly articulated ethical guidance, hired and trained outstanding candidates in the profession, and implemented reward structures that promote quality work and integrity.

Thus as part of our commitment to stakeholders, we aim to be transparent and open in communicating how we address audit quality. We are always seeking to do better. We actively solicit suggestions from our professionals and value input from our regulators. We undertake rigorous root-cause analyses to assess and remediate deficiencies. In so doing, we help to foster public trust and inspire confidence in KPMG and in the capital markets.

This Transparency Report covers the year October 1, 2020 to September 30, 2021. We also invite you to browse our [website](#) for further information relating to other aspects of our firm.

We trust you find this report informative.

Gordon Rajamohan

Partner, Head of Audit
KPMG in the Cayman Islands

Living our culture and Values

It's not just what we do at KPMG that matters: we also pay attention to how we do it. Our Values are our core beliefs, guiding and unifying our actions and behaviors. Shared across every level and in every country, jurisdiction and territory in which we operate, they are the foundation of our unique culture.

Tone at the top

KPMG global leadership, working with regional and member firm leadership, plays a critical role in establishing our commitment to quality and the highest standards of professional excellence. A culture based on accountability, quality, objectivity, independence, integrity and ethics is essential in an organization that carries out audits and other services on which stakeholders rely.

At KPMG in the Cayman Islands we promote a culture in which consultation is encouraged and recognized as a strength.

We communicate our commitment to clients, stakeholders, and society at large to earn the public's trust.

The KPMG Values are set out in Appendix 3. Our Values lie at the heart of the way we do things. To do the right thing, the right way, at the right time. Always. They drive our daily behaviors, guide our decisions, and shape our character. They form the foundation of a resilient culture ready to meet challenge with integrity, so we never lose sight of our principal responsibility to protect the public interest. And they propel us forward — through our work and the example we set — as we inspire confidence and empower change throughout the world.

Outlined in [KPMG's Global Code of Conduct](#) ("the Code") are the responsibilities all KPMG personnel have to each other, the public and our clients. It shows how our Values inspire our greatest aspirations and guide all of our behaviors and actions. It defines what it means to work at and be part of KPMG, as well as our individual and collective responsibilities.

Everyone at KPMG is held accountable to behave consistent with the Code and is required to confirm their compliance.

All KPMG personnel are required to take annual training covering the Code. We are committed to holding ourselves accountable for behaving in a way that is consistent with the Code. Individuals are encouraged to speak up if they see something that makes them uncomfortable or is not in compliance with the Code, or our Values.

Moreover, everyone at KPMG is required to report any activity that could potentially be illegal or in violation of our Values, KPMG policies, applicable laws, regulations or professional standards.

To safeguard this principle of holding each other accountable, each KPMG firm is required to establish, communicate and maintain clearly defined channels to allow KPMG personnel and third parties to make inquiries about, raise concerns in relation to, provide feedback on, and notify, reportable matters, without fear of reprisal, in accordance with applicable law or regulation.

The KPMG International hotline is a further mechanism for KPMG personnel, clients and other third parties to confidentially report concerns they have relating to certain areas of activity by KPMG International, activities of KPMG firms or KPMG personnel.

The KPMG International hotline can be accessed [here](#).

All KPMG firms and personnel are prohibited from retaliating against individuals who have the courage to speak up in good faith. Retaliation is a serious violation of the Code, and any person who takes retaliatory action will be subject to their firm's disciplinary policy.

The Global People Survey provides KPMG in the Cayman Islands leadership and KPMG International leadership with results related to upholding the KPMG Values. KPMG in the Cayman Islands and KPMG International monitor the results and take appropriate actions to communicate and respond to any findings.

System of quality control

Tone at the top, leadership, and a clear set of Values and conduct are essential to set the framework for quality.

However, these are required to be backed up by a system of quality control that holds us accountable to meet the highest professional standards.

KPMG continues to invest significantly in audit quality across the global organization. We are building on our sound audit quality foundations, both in terms of how we manage KPMG firms and how KPMG firms execute audit engagements.

This means ongoing investment in the system of quality management, global monitoring of audit quality, enhanced support, and providing best-in class technology and tools for engagement teams. KPMG's global audit quality program supports consistent deployment of investments to enhance and drive a common approach.

A robust and consistent system of quality control is essential to delivering quality services. KPMG International has quality control policies that apply to all KPMG firms. These are included in KPMG's Global Quality & Risk Management Manual (GO&RM Manual), which applies to all KPMG personnel.

To adopt the new international standard on quality management (ISQM 1) which was approved by the IAASB and will be effective from December 2022, KPMG International initiated a program to redesign the network-wide requirements for member firms' systems of quality management. ISQM 1 requires each KPMG firm to design, implement and operate a system of quality management to consistently deliver quality audits, and to evaluate the effectiveness of the system on an annual basis.

As we prepare for ISQM 1, we have adopted a new Global Quality Framework to better outline how we deliver quality at KPMG, and how everyone at KPMG is accountable for its delivery. The principle of 'Perform quality engagements' sits at the core along with our commitment to continually monitor and remediate our processes as necessary.

The Global Quality Framework also meets the requirements of the current International Standards on Quality Control (ISQC 1), issued by the International Auditing and Assurance Standards Board (IAASB) and the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants (IESBA), which apply to professional services firms that perform audits of financial statements.

While this Transparency Report summarizes KPMG's approach to audit quality, it may also be useful for stakeholders interested in member firms' Tax and Advisory services, as many KPMG quality control procedures and processes are cross-functional and apply equally to all services offered.

Leadership responsibilities for quality and risk management

KPMG in the Cayman Islands demonstrates commitment to quality, objectivity, independence, ethics and integrity, and communicates our focus on quality to clients, stakeholders and society. Our leadership plays a critical role in setting the right tone and leading by example — demonstrating an unwavering commitment to the highest standards of professional excellence and championing and supporting major initiatives.

Our leadership team is committed to building a culture based on quality, objectivity, independence, integrity and ethics, demonstrated through their actions - written and video communications, presentations to teams and one-to-one discussions.

KPMG in the Cayman Islands is required to seek input from the chair of the relevant Global Steering Group or his/her delegatee on the performance of certain leaders within KPMG in the Cayman Islands whose role most closely aligns with the activities of the Global Steering Group. Input is sought as part of the annual performance process and is based on an assessment of the leader's performance, which includes matters of public interest, audit quality and risk management activities.

The following individuals have leadership responsibilities for quality and risk management at KPMG in the Cayman Islands.

Managing Partner

In accordance with the principles in ISQC 1, our Managing Partner Andrew Stepaniuk has assumed ultimate responsibility for KPMG in the Cayman Islands’ system of quality control. Details of some of the measures that he and the rest of the Management Committee (MC) have taken to ensure that a culture of quality prevails within KPMG in the Cayman Islands are set out in this Transparency Report.

Risk Management Partner

The Risk Management Partner (RMP) is responsible for the direction and execution of risk, compliance, and quality control in KPMG in the Cayman Islands. The RMP is a member of KPMG in the Cayman Islands’ MC and has a direct reporting line to the Managing Partner. The RMP consults with the appointed Area Quality and Risk Management Leader.

The fact that the role is a MC position, and seniority of the reporting lines, underlines the importance that the firm places on risk and quality issues. The RMP is supported by a team of partners and professionals in each of the functions.

Ethics and Independence Partner (EIP)

The Ethics and Independence Partner has primary responsibility for the direction and execution of ethics and independence policies and procedures in KPMG in the Cayman Islands and reports on ethics and independence issues to the RMP.

The Audit, Tax and Advisory functions – Function Heads

The three heads of the client service functions (Audit, Tax and Advisory) are accountable to the Managing Partner for the quality of service delivered in their respective functions. They are responsible for the execution of the risk management and quality assurance procedures for their specific functions within the framework set by the Risk Management Partner. These procedures make it clear that, at the engagement level, risk management and quality assurance procedures for their specific functions within the framework set by the Risk Management Partner. These procedures make it clear that, at the engagement level, risk management and quality control is ultimately the responsibility of all professionals in the firm.

KPMG in the Cayman Islands’ Head of Audit is responsible for the effective management and control of the Audit Function. This includes:

- setting a strong tone and culture supporting audit quality through communication, engagement support and commitment to the highest standards of professional excellence, including professional skepticism, objectivity, and ethics and integrity;
- developing and implementing an audit strategy which is aligned with KPMG in the Cayman Islands’ audit quality requirements; and
- working with the Risk Management Partner to monitor and address audit quality and risk matters as they relate to the Audit practice.

Audit Leadership Team

The Audit Leadership Team has regular discussions to agree actions about current and emerging audit quality issues arising from external and internal quality review processes, queries being raised by engagement teams, root cause analysis procedures and other quality matters identified from a variety of sources.

For more complex issues (which might require amendments to KPMG’s global audit methodology or audit tools) these will be raised with the KPMG International Global Audit groups for consideration and potential development of solutions by the KPMG Global Solutions Group (KGSG) and the International Standards Group (ISG). For more information about the KGSG and the ISG refer to the Performing Quality Engagements Section of this transparency report.

Audit Quality Steering Committee

In addition, within the Audit function our Audit Quality Steering Committee considered matters relating to maintaining and improving audit quality. During the year, the Audit Quality Steering Committee comprised nine people. The Audit Quality Steering Committee met seven times during the year, and considered the detailed findings (and related actions) from external regulatory reviews, the internal Quality Performance Review program and other quality control programs, as well as papers on a range of issues designed to allow us to challenge ourselves in various aspects of audit quality and improvement .

Clearly articulated strategy focused on quality, consistency, trust and growth

Our business

KPMG in the Cayman Islands is a professional services firm that delivers Audit, Tax and Advisory services. We have operated from SIX Cricket Square, 282 Shedden Road, George Town, since January 2019, and prior to this, from Century Yard, Cricket Square, George Town. At 30 September 2021, the firm employed 350 staff, including 19 contractors (2020: 353; 18 Contractors). This also included 24 partners (2020: 20 partners). Our audit services in the Cayman Islands are delivered through KPMG. Full details of the services offered by KPMG in the Cayman Islands can be found on our [website](#).

Our strategy

Our strategy is set by the KPMG in the Cayman Islands' MC and demonstrates a commitment to quality and trust. Our focus is to invest significantly in priorities that form part of a multi-year collective strategy implementation that is taking place across the global organization.

Defined accountabilities, roles and responsibilities, including for leadership

Legal structure and ownership from 1 October 2020

Effective 1 October 2020, KPMG in the Cayman Islands and all other KPMG firms entered into new membership and associated documents, the key impact of which is that all KPMG member firms in the KPMG global organization became members in, or have other legal connections to, KPMG International Limited, an English private company limited by guarantee. KPMG International Limited acts as the coordinating entity for the overall benefit of the KPMG member firms. It does not provide professional services to clients. Professional services to clients are exclusively provided by member firms. Further detail on the revised legal and governance arrangements for the KPMG global organization from 1 October 2020 can be found in section 'Governance and leadership' of the [2021 KPMG International Transparency Report](#).

KPMG International Limited and the KPMG member firms are not a global partnership, single firm, multinational corporation, joint venture, or in a principal or agent relationship or partnership with each other. No member firm has any authority to obligate or bind KPMG International Limited, any of its related entities or any other member firm vis-à-vis third parties, nor does KPMG International Limited or any of its related entities have any such authority to obligate or bind any member firm. KPMG in the Cayman Islands is part of the KPMG global organization of professional services firms providing Audit, Tax, and Advisory services to a wide variety of public and private sector organizations.

The KPMG organization structure is designed to support consistency of service quality and adherence to agreed Values wherever its member firms operate.

KPMG in the Cayman Islands is a Cayman Islands partnership. As at 30 September 2021, ten Partners held equity interests in KPMG. During the year to 30 September 2021, there was an average of 24 partners in KPMG in the Cayman Islands (2020: 20 partners).

A list of the entities which form KPMG in the Cayman Islands, together with details of their legal structure, regulatory status, the nature of their business and area of operation is set out in Appendix 1.

Name, ownership and legal relationships

KPMG is the registered trademark of KPMG International and is the name by which the member firms are commonly known. The rights of member firms to use the KPMG name and marks are contained within agreements with KPMG International.

Member firms are generally locally owned and managed. Each member firm is responsible for its own obligations and liabilities. KPMG International and other member firms are not responsible for a member firm's obligations or liabilities.

Member firms may consist of more than one separate legal entity. If this is the case, each separate legal entity will be responsible only for its own obligations and liabilities, unless it has expressly agreed otherwise.

Responsibilities and obligations of member firms

Pursuant to their membership agreements with KPMG International, member firms are required to comply with KPMG International's policies, procedures and regulations including quality standards governing how they operate and how they provide services to clients to compete effectively. This includes having a firm structure that ensures continuity and stability and being able to adopt global strategies, share resources (incoming and outgoing), service multi-national clients, manage risk, and deploy global methodologies and tools.

Each member firm takes responsibility for its management and the quality of its work. Member firms commit to a common set of KPMG Values (see Appendix 3).

KPMG International's activities are funded by an annual payment paid to it by member firms. The basis for calculating such amounts is approved by the Global Board and consistently applied to the member firms. A firm's status as a KPMG member firm and its participation in the KPMG organization may be terminated if, among other things, it has not complied with the policies, procedures and regulations set by KPMG International or any of its other obligations owed to KPMG International.

Overseen using robust governance structures

Governance structure

The Management Committee

The Managing Partner chairs the MC ensuring that the MC members receive accurate, timely and clear information and ensuring effective communication and relationships with the members at large. The current Managing Partner, Andrew Stepaniuk, was appointed in 2019 following a vote by a special majority of the equity partners of KPMG in the Cayman Islands.

The principal governance and oversight body of KPMG in the Cayman Islands is the MC which provides leadership to the firm and is responsible for our long term growth and sustainability, setting our strategy and overseeing its implementation, monitoring performance against our business plan and protecting and enhancing the KPMG brand.

The MC consists of seven members, including: the Managing Partner, the Head of Risk Management and 5 additional members. The MC meets from time to time to undertake certain statutory duties for KPMG including approving the annual accounts and in addition to other matters approving the transparency report. The MC meet at least quarterly but even more frequently when needed.

Full details of those charged with governance for KPMG in the Cayman Islands including their biographies are set out in Appendix 2.

In addition, there are various main bodies or committees that deal with key aspects of governance within the group that report into the Board. These are:

- Audit Quality Steering Committee
- The Remuneration Committee
- The Disciplinary Committee

Details about the role and responsibilities and composition of each of these key bodies are set out below.

Audit Quality Steering Committee

The Audit Quality steering Committee, chaired by the Head of Audit, reports to the MC and ensures risk and quality matters are a priority for audit leadership. Specifically, its responsibilities include:

- Reviewing the proposed significant audit initiatives ensuring the objectives and outcomes align with maintaining or enhancing audit quality.
- Recommending the strategic prioritization, resourcing and timetabling of audit initiatives as they impact audit quality across all offices.

- Confirming the robustness of our monitoring activities as consistent with our audit quality priorities.

The Remuneration Committee

The MC’s Remuneration Committee, which meets at least four times per annum, has the delegated responsibility to approve and oversee the Partner and Director remuneration process. The Remuneration Committee currently comprises the Managing Partner, Head of Audit and Head of Tax.

As part of its activities, the Remuneration Committee receives and considers a report from the Risk Management Partner on (i) the approach to ensuring that quality issues are appropriately considered in partner counseling and (ii) whether or not there are any quality concerns about specific partners.

The composition of the MC and its Committees as at September 30, 2021 are set out in Appendix 2.

Disciplinary Committee

The Disciplinary Committee is comprised of the Managing Partner (Chair), Risk Management Partner, Ethics and Independence Partner and Head of People. The Disciplinary Committee is responsible for overseeing implementation of 1) an effective disciplinary policy in accordance with local and KPMG Global requirements and 2) an efficient disciplinary process which responds to any significant violations of KPMG policies and reported instances of misconduct/unethical behavior, in accordance with the disciplinary policy.

Applying expertise and knowledge

We are committed to continue to build on our technical expertise and knowledge recognizing its fundamental role in delivering quality audits.

Methodology aligned with professional standards, laws and regulations

Consistent audit methodology and tools – bringing consistency through our methodology

Our audit methodology, tools and guidance enable a consistent approach to planning, performing and documenting audit procedures over key accounting processes:

- globally consistent and fully compliant with the applicable standards, including International Standards on Auditing (ISA), Public Company Accounting Oversight Board (PCAOB) and the American Institute of CPAs (AICPA) and are supplemented to comply with local auditing standards and regulatory or statutory requirements by KPMG firms
- inclusive of KPMG methodology interpretations that drive consistency in areas where the applicable standards are not prescriptive in the approach to be followed
- centered on identifying risk, focusing on risks of material misstatements and the necessary audit response
- made available to all KPMG audit professionals and required to be used, where necessary
- applied even where local auditing standards may be less demanding than the ISAs
- focused on the international assurance methodology and the alignment of assurance products in response to growth of Environmental, Social and Governance (ESG reporting).

The KPMG audit methodology is set out in the KPMG Audit Manual (for use with eAuditIT) and the KPMG Audit Execution Guide (for use with the KPMG Clara workflow) and includes KPMG interpretation of how to apply ISAs, which we believe enhance audit quality. The methodology emphasizes applying appropriate professional skepticism in the execution of audit procedures and requires compliance with relevant ethical requirements, including

Independence. Enhancements to the audit methodology, guidance and tools are made regularly to maintain compliance with standards and address emerging auditing areas of focus and audit quality results (internal and external). For example, as a result of the COVID-19 pandemic, many businesses are experiencing significant financial uncertainty. We have issued guidance to our auditors on conducting audit procedures in a remote-working environment, raising awareness of key audit risks such as going concern and impairments and provided reminders of the importance of exercising professional skepticism taking appropriate actions if information is identified that is unexpected or unusual and may be indicative of potential management bias, a fraud risk or fraud.

KPMG firms may add local requirements and/or guidance to the KPMG Audit Manual and the KPMG Audit Execution Guide to comply with additional local professional, legal, or regulatory requirements.

Deep technical expertise and knowledge

Access to specialist networks

Specialist expertise is an increasingly important part of the modern audit. KPMG in the Cayman

Islands engagement teams have access to a network of KPMG specialists – either within their firm or in other KPMG firms. These specialists receive the training they need to ensure they have the competencies, capabilities and objectivity to appropriately fulfil their role on our audits. They also receive a global annual update on global quality performance issues.

The need for specialists to be assigned to an audit engagement in areas such as information, technology, tax, treasury, actuarial, forensic and valuations is considered as part of the audit engagement acceptance and continuance process, as well as during the planning and conduct of the engagement.

KPMG’s commitment to audit quality during the COVID-19 pandemic

The COVID-19 pandemic has forced us all to think differently, we continue to respond to and embrace this challenge. Since the start of the pandemic, we have maintained an online [COVID-19 | Financial reporting resource center](#) to assist companies and other stakeholders understand potential accounting and disclosure implications.

KPMG International has issued extensive guidance to assist teams in addressing the various accounting, financial reporting and audit related matters arising from the impacts of the COVID-19 pandemic including going concern, asset impairments, valuations and related disclosures, materiality, risk assessment, group audits, inventory, subsequent events and audit evidence of communications with Those Charged With Governance. Additionally, KPMG International has issued specific guidance for remote working environments which addresses how teams work together, communications with management and the design and performance of audit procedures.

KPMG’s guidance has been continually updated throughout the pandemic as other significant auditing, accounting and reporting issues have been identified.

KPMG is a technology-enabled organization, with technical accounting and auditing resources, guidance and audit platforms and tools all available electronically, which greatly enabled the conversion to a remote working environment.

Enhanced communication has been increasingly important to everyone during the COVID-19 pandemic. We have leveraged our investments in technology to provide KPMG firms with regular communications, including virtual meetings to share best practices and guidance. In addition, we have enhanced our listening strategy to include specific COVID-19 pulse surveys to allow us to hear from our people in real time and shape our response accordingly.

Quality and risk management manual

KPMG International has quality control policies that apply to all member firms. These are included in KPMG’s Global Quality & Risk Management Manual (GQRMM) which applies to all KPMG personnel. KPMG in the Cayman Islands is required to establish and maintain a system of quality control and design, implement, and test the operating effectiveness of quality controls.

Embracing digital technology

At KPMG, we are committed to serving the public interest and create value through continuous innovation. By leveraging leading technologies, we are transforming the audit experience for our professionals and our clients – enabling us to provide an even higher quality audit by increasing our ability to focus on the issues that matter through the data and insights it provides.

Intelligent, standards-driven audit workflow

 All KPMG in the Cayman Islands professionals are expected to adhere to KPMG International and KPMG in the Cayman Islands’ policies and procedures, including independence policies, and are provided with a range of tools and guidance to support them in meeting these expectations. The KPMG in the Cayman Islands’ policies and procedures set for audit engagements incorporate the relevant requirements of accounting, auditing, ethical and quality control standards, and other relevant laws and regulations.

Evolving our audit workflow

We recognize that to deliver quality audits, we need to continually evolve and develop our technology solutions to keep pace with today’s digital world.

That is why KPMG embarked on a process of reimagining our audit platform, workflow and methodology to provide enhanced consistency and support to our audit engagement teams, deliver detailed insights, and future-proof our systems for the expected continued development of new technologies such as robotic process automation, machine learning and cognitive technologies.

The release of the KPMG Clara workflow and revised audit methodology is an important milestone in KPMG’s journey to innovate, digitalize and transform the audit. It is a significant investment that underlines our commitment to audit quality, consistency and innovation.

KPMG Clara

 KPMG Clara is our smart and intuitive technology platform that is driving globally consistent audit execution. As a fully integrated, scalable, cloud-based platform, it enables the enhanced audit methodology through a data-enabled workflow.

The platform integrates new and emerging technologies, with advanced capabilities that leverage data science, audit automation, and data visualization.

The digital audit is increasingly integral to how KPMG member firms perform quality audits and interact with their clients. Policies and guidance are in place to establish and maintain appropriate processes and controls regarding the development, evaluation and testing, deployment and support of technology in our audits.

KPMG Clara is helping auditors see meaningful patterns across a business, whether conducting risk assessment, tracing transactions through a complex revenue process, or simply adding up the accounts. Examples of current capabilities include:

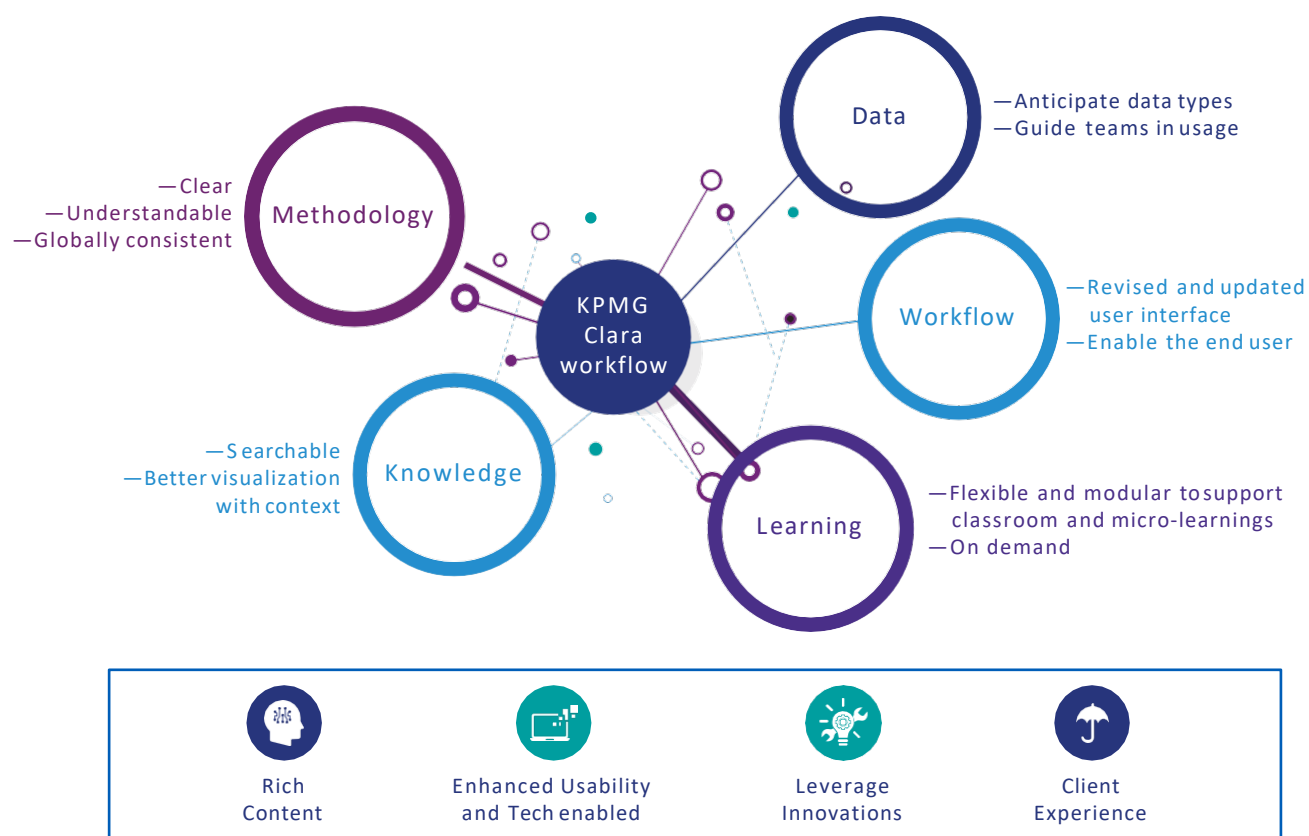

- enable the analysis of account balances and journal entry data
- automate ‘period on period’ balances comparison and ‘time series’ evolution information
- enable the analysis of sub-ledger, transactional data over certain business processes and accounts.

Our vision of the future

KPMG Clara was developed to be KPMG’s foundational technology platform to deliver audit quality.

- [Introduction and foreword](#)
- [Living our culture and Values](#)
- [Applying expertise and knowledge](#)
- Embracing digital technology**
- [Nurturing diverse skilled teams](#)
- [Associating with the right clients and engagements](#)
- [Being independent and ethical](#)
- [Performing quality engagements](#)
- [Assessing risks to quality](#)
- [Communicating effectively](#)

- [Partner remuneration](#)
- [Network arrangements](#)
- [Appendices](#)

It delivers this by being the base technology delivering new capabilities in a globally consistent way, enabling the audit workflows and a fully digital experience for our audit professionals. The KPMG Clara platform evolves as technologies such as artificial intelligence, blockchain and cognitive capabilities transform how audits are delivered.

KPMG Clara workflow

We are replacing eAudit with a new workflow and revised audit methodology embedded into the KPMG Clara smart audit platform. Phased full deployment of KPMG Clara workflow commenced globally in 2020 with planned completion of full global transition for the 2022 fiscal period-end audits.

The web-enabled KPMG Clara workflow guides audit teams through a series of steps in a logical sequence aligned to the applicable professional auditing standards with a clear display of information, visuals, and guidance available, and with embedded advanced digital audit and project management capabilities. The workflow and revised audit methodology are scalable – adjusting the requirements to the size and complexity of the audit engagement. KPMG Clara workflow significantly enhances the execution of an audit by KPMG professionals and clearly drives audit quality and global consistency.

Using data mining and tracking of relevant engagement level data indicators, the KPMG Clara workflow can also facilitate monitoring of audit execution at the engagement level.

We continue to enhance the KPMG Clara smart audit platform to accommodate accelerating security demands, integrate existing audit applications into a single platform, and develop new capabilities to digitize additional audit processes.

Client confidentiality, information security, and data privacy

The importance of maintaining client confidentiality is emphasized through a variety of mechanisms including the KPMG Global Code of Conduct. We have policies on information security, confidentiality, personal information and data privacy. We have a document retention policy concerning the retention period for audit documentation and other records relevant to an engagement in accordance with the relevant IESBA requirements as well as other applicable laws, regulations, and professional standards.

We provide training on confidentiality, information protection and data privacy requirements to all KPMG in the Cayman Islands personnel annually.

Nurturing diverse skilled teams

Our people make the real difference and are instrumental in shaping the future of audit at KPMG. We put quality and integrity at the core of our audit practice. Our auditors have diverse skills and capabilities to address complex problems.

Recruiting appropriately qualified and skilled people, including specialists, with diversity of perspective and experience

 One of the key drivers of quality is ensuring that KPMG professionals have the appropriate skills and experience, motivation and purpose, to deliver high quality audits. This requires the right recruitment, development, reward, promotion and assignment of professionals.

Recruitment

KPMG in the Cayman Islands is committed to building an extraordinary people experience for all current and prospective KPMG partners and employees. We are proud to be the current Top Employer in the Cayman Islands, as issued by the Cayman Islands Society of Human Resources.

All candidates applying for professional positions apply and follow a thorough selection processes, which may include application screening, competency-based interviews and qualification/reference checks. These leverage fair and job-related criteria to ensure that candidates possess the appropriate characteristics to perform competently, are suitable and best placed for their roles.

Upon joining the firm, new joiners participate in an onboarding program. Induction programs include training in areas such as ethics and independence, quality and risk management principles, engagement management and our people management procedures.

All new recruits are required to complete a number of acknowledgements to confirm that they will abide by the rules and policies that are applicable to them.

For each new recruit (client facing), from assistant manager and above, an Independence Compliance pre-audit is performed by the Ethics and Independence team in order to identify financial products or relationships and that could impair the independence rules as well as to

assure that all the required reportable products are reported in KPMG Independence Compliance System (KICS) as applicable.

Inclusion, Diversity & Equity programs

KPMG in the Cayman Islands is committed to building a diverse and equitable firm that is inclusive to all. Inclusion, diversity and equity (IDE) is core to our very existence – helping us build great teams with diverse views that represent the world we live in. It leads to better decision making, drives greater creativity and innovation, and encourages us to stand up, live our Values, and do what is right.

We recognize our firms’ global position working with clients around the world affords us a privileged place. With that comes an opportunity and responsibility to achieve more and push for a fairer, more equitable society.

Our KPMG Global Inclusion, Diversity & Equity Collective Action Plan outlines the actions that are necessary to advance inclusion, diversity and equity at KPMG in the Cayman Islands and across all KPMG firms. For more about Inclusion & Diversity at KPMG read [here](#)

Reward and promotion

Reward: KPMG has compensation and promotion policies that are informed by market data, clear, simple, fair and linked to the performance review process. This helps our partners and employees understand what is expected of them, and what they can expect to receive in return. The connection between performance and reward is achieved by assessing relative performance across a peer group to inform reward decisions. Reward decisions are based on consideration of both individual and firm performance. The extent to which our people feel their performance has been reflected in their reward is measured through the annual Global People Survey, with action plans developed as required.

Promotion: The results of performance evaluations directly affect the promotion and remuneration of partners and employees and, in some cases, their continued association with KPMG.

Assigning an appropriately qualified team

Partner assignments

 KPMG in the Cayman Islands has procedures in place to assign engagement partners and other professionals to a specific engagement on the basis of their skill sets, relevant professional and industry experience, and the nature of the assignment or engagement. Function heads are responsible for the partner assignment process. Key considerations include partner experience and capacity - based on an annual partner portfolio review - to perform the engagement taking into account the size, complexity and risk profile of the engagement and the type of support to be provided (i.e. the engagement team composition and specialist involvement).

Audit engagement partners are required to be satisfied that their engagement teams have appropriate competencies, training and capabilities, including time, to perform audit engagements in accordance with our audit methodology, professional standards, and applicable legal and regulatory requirements. This may include involving specialists from our own firm, other KPMG member firms or external experts.

When considering the appropriate competence and capabilities expected of the engagement team as a whole, the engagement partner’s considerations may include the following:

- an understanding of, and practical experience with, audit engagements of a similar nature and complexity through appropriate training and participation
- an understanding of professional standards and legal and regulatory requirements
- appropriate technical skills, including those related to relevant information technology and specialized areas of accounting or auditing
- knowledge of relevant industries in which the client operates
- ability to apply professional judgment
- an understanding of KPMG in the Cayman Islands’ quality control policies and procedures
- Quality Performance Review (QPR) results and results of regulatory inspections.

Investing in data-centric skills, including data mining, analysis and visualization

 KPMG is strategically investing in our talent pipeline by partnering with world-class institutions to sustain our strong leadership, while also looking forward to cultivating the skills and capabilities that will be needed in the future. We are recruiting and training professionals who specialize in software, cloud capabilities. and artificial intelligence and who can bring leading technology capabilities to our smart audit platform. We provide training on a wide range of technologies to ensure that field professionals not only meet the highest professional standards but are also upskilled in new technology. With this approach we are bringing together the right people with the right skills and the right technology to perform exceptional audits.

Focused learning and development on technical expertise, professional acumen and leadership skills

Commitment to technical excellence and quality service delivery

 All KPMG in the Cayman Islands professionals are provided with the technical training and support they need to perform their roles.

This includes access to internal specialists and the professional practice department for consultation. Where the right resource is not available within KPMG in the Cayman Islands, the firm accesses a network of highly skilled KPMG professionals in other KPMG firms.

At the same time, audit policies require all KPMG audit professionals to have the appropriate knowledge and experience for their assigned engagements.

Lifetime learning strategy – formal training

In addition to rolling out the training released by the Global/Regional Audit Learning and Development group, KPMG in the Cayman Islands develops and provides local audit trainings for all audit professionals. These local trainings provide an overview of the industries operating in the Cayman Islands and KPMG in the Cayman Islands’ approach to auditing such entities.

We are responsible for ensuring that audit professionals working on engagements have appropriate audit, accounting and industry knowledge and experience in the local predominant financial reporting framework. We have accreditation requirements for many of our services which ensure that only professionals with the appropriate training and experience are assigned to engagements and are appropriately licensed where necessary.

Our technical learning curriculum provides a core training program for all audit professionals and differs by level and industry. To drive continued focus on audit quality, we deliver regular training on Audit Quality to engagement leaders and other audit professionals.

These cover key messages regarding quality, and actions in respect of the internal and external monitoring. In addition, all of our audit professionals complete technical training focused on performing high quality audits with different topic areas included as relevant.

Audit training includes mandatory courses and completion of these is monitored through a Learning Management System. This allows individuals to monitor their compliance both with their ongoing Continuing Professional Development requirements and with KPMG’s mandatory training and accreditation requirements. In addition to structured technical training, we encourage coaching, consultation, on-the-job training and mentoring.

Licensing and mandatory requirements for IFRS® Standards and U.S. GAAP engagements

Licensing: All KPMG in the Cayman Islands professionals are required to comply with applicable professional licence rules and satisfy the Continuing Professional Development requirements in the jurisdiction where they practice. KPMG International/in the Cayman Islands policies and procedures are designed to facilitate compliance with licence requirements. We are responsible for ensuring that audit professionals working on engagements have appropriate audit, accounting and industry knowledge, and experience in the local predominant financial reporting framework – IFRS and U.S. GAAP.

Mandatory requirements – IFRS Standards and U.S.GAAP engagements: In addition, KPMG has specific requirements for partners, managers and Engagement Quality Control (EQC) reviewers working on IFRS Standards engagements in countries where IFRS Standards are not the predominant financial reporting framework. Similar policies apply to engagements performed outside the U.S. to report on financial statements or financial information prepared in accordance with U.S. GAAP and/or audited in accordance with U.S. auditing standards, including reporting on the effectiveness of the entity’s internal control over financial reporting (ICOFR). These require that at a minimum, all partners, managers and, if appointed, the EQC reviewers (and for engagements conducted in accordance with US GAAP and/or US auditing standards engagements, the engagement partner, engagement manager, engagement in-charge and, if appointed the EQCR reviewers)

assigned to the engagement have completed relevant training and that the engagement team, collectively, has sufficient experience to perform the engagement or has implemented appropriate safeguards to address any shortfalls.

Recognizing quality

KPMG in the Cayman Islands’ approach to performance development, ‘Open Performance Development’, is built around the Everyone a Leader performance principles, and includes:

- Global role profiles (including role profiles specific to audit quality accountabilities and responsibilities);
- a goal library (including audit quality content); and
- standardized review forms (with provision for audit quality ratings).

Open Performance Development is linked to the KPMG Values and designed to articulate what is required for success — both individually and collectively. We know that by being clear and consistent about the behaviors we expect and rewarding those who demonstrate them, we will continue to drive a relentless focus on audit quality.

At the same time, KPMG is driving a shift in our performance-driven culture, supported by and enacted through leading technology that allows us to embed audit quality into the assessment of performance and the decisions around reward as well as drive consistency across the global organization.

KPMG in the Cayman Islands considers quality and compliance metrics in assessing the overall evaluation, promotion and remuneration of partners and directors and managers . These evaluations are conducted by performance managers and partners who are in a position to assess performance.

Associating with the right clients and engagements

Rigorous global client and engagement acceptance and continuance policies are vital to being able to provide high-quality professional services.

Following the client and engagement acceptance and continuance policies

KPMG's client and engagement acceptance and continuance policies and processes are designed to identify and evaluate potential risks prior to accepting or continuing a client relationship or performing a specific engagement.

KPMG firms are required to evaluate whether to accept or continue a client relationship or perform a specific engagement. Where client/engagement acceptance (or continuance) decisions pose significant risks, additional approvals are required.

Accepting appropriate clients and engagements

Client evaluation process

KPMG in the Cayman Islands undertakes an evaluation of every prospective client. This involves obtaining sufficient information about the prospective client, its key management and significant beneficial owners and then properly analyzing the information to be able to make an informed acceptance decision. This evaluation includes an assessment of the client's risk profile and obtaining background information on the client, its key management, directors and owners. If necessary, we obtain additional information required to satisfy our local legal and/or regulatory requirements.

Engagement evaluation process

Each prospective engagement is also evaluated to identify potential risks in relation to the engagement. A range of factors are considered as part of this evaluation, including potential independence and conflict of interest issues (using Sentinel™, KPMG's conflicts and independence checking system), intended purpose and use of engagement deliverables, public perception, whether the services would be unethical or inconsistent with our Values, as well as factors specific to the type of engagement.

For audit services, these include the competence of the client's financial management team and the skills and experience of KPMG professionals assigned to staff the engagement. The evaluation is made in consultation with other senior KPMG in the Cayman Islands personnel and includes review by quality and risk management leadership as required.

Where audit services are to be provided for the first time, the prospective engagement team is required to perform additional independence evaluation procedures, including a review of any non-audit services provided to the client and of other relevant business, financial and personal relationships.

Similar independence evaluations are performed when an existing audit client becomes a public interest entity or additional independence restrictions apply following a change in the circumstances of the client.

Depending on the overall risk assessment of the prospective client and engagement, additional safeguards may be introduced to help mitigate the identified risks. Any potential independence or conflict of interest issues are required to be documented and resolved prior to acceptance.

A prospective client or engagement will be declined if a potential independence or conflict issue cannot be resolved satisfactorily in accordance with professional standards and our policies, or if there are other quality and risk issues that cannot be appropriately mitigated.

Continuance process

KPMG in the Cayman Islands undertakes an annual re-evaluation of all its audit clients. The re-evaluation identifies any issues in relation to continuing association and any mitigating procedures that need to be put in place. This may include the assignment of additional professionals such as an Engagement Quality Control (EQC) reviewer or the need to involve additional specialists on the audit.

Recurring or long running non-audit engagements are also subject to periodic re-evaluation. In addition, clients and engagements are required to be re-evaluated if there is an indication that there may be a change to the risk profile, and as part of the continuous independence evaluation process, engagement teams are required to identify if there have been any changes to previously identified threats or if there are new threats to independence. The threats are then evaluated and, if not at an acceptable level, are eliminated or appropriate safeguards are applied to reduce the threats to an acceptable level.

Withdrawal process

Where KPMG in the Cayman Islands comes to a preliminary conclusion that indicates that we should withdraw from an engagement or client relationship, we consult internally and identify any required legal, professional and regulatory responsibilities. We also communicate as necessary with those charged with governance and any other appropriate authority.

Managed portfolio of clients

KPMG in the Cayman Islands leadership appoints engagement partners who have the appropriate competence, capabilities, time and authority to perform their role for each engagement.

They review each audit partner’s client portfolio in individual discussions with the audit partner. The reviews consider the industry, nature and risk of the client portfolio as a whole along with the competence, capabilities and capacity of the partner and wider team to deliver a quality audit for every client.

Being independent and ethical

Auditor independence is a cornerstone of international professional standards and regulatory requirements.

Acting with integrity and living our Values

KPMG International's detailed independence policies and procedures, incorporate the IESBA Code of Ethics.

These are set out in KPMG's GQ&RM Manual, which applies to all KPMG firms. Automated tools, which are required to be used for every prospective engagement to identify potential independence and conflict of interest issues, facilitate compliance with these requirements.

These policies are supplemented by other policies and processes to ensure compliance with the standards issued by CIIPA and those of the PCAOB, AFM, CPAAOB, CPAB and AOA where applicable. These policies and processes cover areas such as firm independence (covering, for example, treasury and procurement functions), personal independence, firm financial relationships, employment relationships, partner rotation and approval of audit and non-audit services.

The Partner-in-Charge of the Global Independence Group is supported by a core team of specialists to help ensure that robust and consistent independence policies and procedures are in place at KPMG firms, and that tools are available to help the firms and their personnel to comply with these requirements.

KPMG in the Cayman Islands has a designated Ethics and Independence Partner (EIP) who has primary responsibility for the direction and execution of ethics and independence policies and procedures in KPMG in the Cayman Islands. The EIP is responsible for communicating and implementing KPMG International policies and procedures and ensuring that local independence policies and procedures are established and effectively implemented when they are more stringent than the KPMG International requirements. The EIP fulfils this responsibility through:

- implementing/monitoring the ethics and independence quality control process and structure within the firm;

- approving/appointing partners responsible for ethics and independence within the firm;
- overseeing the processes related to the evaluation of specific independence threats in connection with clients and prospective clients;
- participating in the development and delivery of training materials;
- implementing procedures to address non-compliance; and
- overseeing the disciplinary process for ethics and independence matters.

Amendments to KPMG International's ethics and independence policies are included in regular quality and risk communications with all KPMG firms. KPMG firms are required to implement changes as specified in the communications, and this is checked through the internal monitoring programs.

KPMG in the Cayman Islands partners and employees are required to consult with the EIP on certain matters as defined in the GQRMM. The EIP may also be required to consult with the Global Independence Group, depending upon the facts and circumstances.

Maintaining an objective, independent and ethical mindset, in line with our code of conduct and policies

Personal financial independence

KPMG International policies require that KPMG firms and KPMG professionals are free from prohibited financial interests in, and prohibited financial relationships with, KPMG firm assurance and audit clients (by definition, 'audit client' includes its related entities or affiliates), their management, directors, and, where required, significant owners. All KPMG partners — irrespective of their firm or function — are generally prohibited from owning securities of any audit client of any KPMG firm.

KPMG firms use a web-based independence compliance system (KICS) to assist KPMG professionals in complying with personal independence investment policies. This system contains an inventory of publicly available investments and provides a tracking mechanism for required users to report acquisitions and disposals of their financial interests. The system facilitates monitoring by identifying and reporting impermissible investments and other non-compliant activity (i.e., late reporting of an investment acquisition).

All partners and manager grade or above client-facing employees are required to use the KICS system prior to entering into an investment to identify whether they are permitted to do so. They are also required to maintain a record of all of their investments in publicly traded entities in KICS, which automatically notifies them if any investment subsequently becomes restricted. Newly restricted investments are required to be disposed of within five business days of the notification. KPMG monitors partner and manager compliance with this requirement as part of our program of independence compliance audits of professionals. The Global Independence Group provides guidance and required procedures relating to the audit and inspection by KPMG firms of personal compliance with KPMG's independence policies. This includes sample criteria including the minimum number of professionals to be audited annually.

During the year ended September 30, 2021, 99 of KPMG in the Cayman Islands' employees were subject to these audits (28 of which were performed for Partners or Directors).

Employment relationships

Any KPMG in the Cayman Islands professional providing services to an audit client irrespective of function is required to notify the firm EIP if they intend to enter into employment negotiations with that audit client. For partners, this requirement extends to any audit client of any KPMG firm that is a public interest entity.

Former members of the audit team or former partners of KPMG in the Cayman Islands are prohibited from joining an audit client in certain roles unless they have disengaged from all significant connections to KPMG in the Cayman Islands, including payments which are not fixed and predetermined and/or would be material to KPMG in the Cayman Islands and ceased participating in KPMG in the Cayman Islands business and professional activities.

Key audit partners and members of the chain of command for an audit client that is a public interest entity are subject to time restrictions (referred to as 'cooling-off' periods)

that preclude them from joining that client in certain roles until a defined period of time has passed. An assurance team member is also required to notify the EIP when they enter into employment negotiations with the assurance client during the course of the engagement. Former assurance team members or former partners of KPMG in the Cayman Islands who join an assurance client in certain roles cannot continue to participate in KPMG in the Cayman Islands' business or professional activities.

We communicate and monitor requirements in relation to employment and partnership of KPMG in the Cayman Islands professionals by audit and assurance clients.

Firm financial independence

KPMG firms are required to also be free from prohibited interests in, and prohibited relationships with, audit clients, their management, directors and, where required, significant owners.

In common with other KPMG firms, KPMG in the Cayman Islands uses KICS to record its own direct and material indirect investments in listed entities and funds (or similar investment vehicles) as well as in non-listed entities or funds. This includes investments held in associated pension and employee benefit plans.

Additionally, KPMG in the Cayman Islands is required to record in KICS all borrowing and capital financing relationships, as well as custodial, trust and brokerage accounts that hold member firm assets.

On an annual basis, KPMG in the Cayman Islands confirms compliance with independence requirements as part of the Risk Compliance Program.

Business relationships/suppliers

KPMG in the Cayman Islands has policies and procedures in place that are designed to ensure its business relationships with audit and assurance clients are maintained in accordance with the IESBA Code of Ethics and other applicable independence requirements, such as those promulgated by the SEC.

Independence clearance process

In addition to the standard acceptance evaluation performed for every engagement, which includes an evaluation of independence, KPMG in the Cayman Islands follows specific procedures to identify and evaluate threats to independence related to prospective audit clients that are public interest entities; these procedures, also referred to as 'the independence clearance process, are required to be completed prior to accepting an audit engagement for these entities.

The 'KPMG Independence Checkpoint' tool is used to automate and standardize all the workflows that comprise the independence clearance process.

Independence training and confirmations

All KPMG in the Cayman Islands partners and client facing professionals, as well as certain other individuals, are required to complete independence training that is appropriate to their grade and function upon joining KPMG in the Cayman Islands and on an annual basis thereafter.

New partners and client facing employees who are required to complete this training are required to do so by the earlier of (a) thirty days after joining KPMG in the Cayman Islands or (b) before providing any services to, or becoming a member of the chain of command for, any audit client.

We also provide all partners and employees with annual training on:

- the Global Code of Conduct; and
- bribery and compliance with laws, regulations, and professional standards.

New partners and employees are required to complete this training within thirty days of joining KPMG in the Cayman Islands. All KPMG partners and employees are required to sign, upon joining KPMG in the Cayman Islands and thereafter, an annual confirmation stating that they have remained in compliance with applicable ethics and independence policies.

Non-audit services

All KPMG firms are required, at a minimum, to comply with the IESBA Code of Ethics and applicable laws and regulations related to the scope of services that can be provided to audit clients.

In addition to identifying potential conflicts of interest, Sentinel™ facilitates compliance with independence requirements. Certain information on all prospective engagements, including detailed service descriptions, deliverables and estimated fees are required to be entered into Sentinel™ as part of the engagement acceptance process. When the engagement is for an audit client, an evaluation of potential independence threats and safeguards is also required to be included in the Sentinel™ submission.

Lead audit engagement partners (LAEPs) are required to maintain group structures for their publicly traded and certain other audit clients including their related entities or affiliates in Sentinel™. They are also responsible for identifying and evaluating any independence threats that may arise from the provision of a proposed non-audit service and the

safeguards available to address those threats. For entities for which group structures are maintained, Sentinel enables LAEPs to review and request revision, approve, or deny, any proposed service for those entities worldwide. For approved proposed services, Sentinel designates a timeframe during which the approval remains valid. Upon expiration of the established timeframe, the services are required to be complete or be re-evaluated for permissibility; otherwise, the services are required to be exited.

KPMG in the Cayman Islands is required to establish and maintain a process to review and approve all new and modified services that are developed by KPMG in the Cayman Islands. KPMG in the Cayman Islands' EIP is involved in the review of potential independence issues related to these new or modified services. KPMG global independence policies prohibit KPMG firm audit partners from being evaluated on, or compensated based on, their success in selling non-assurance services to their audit clients.

Fee dependency

KPMG International's policies recognize that self-interest or intimidation threats may arise when the total fees from an audit client represent a large proportion of the total fees of the KPMG firm expressing the audit opinion. These policies require firms to consult with their Area Quality & Risk Management Leader where it is expected that total fees from an audit client will exceed 10 percent of the annual fee income of the member firm for two consecutive years. In addition, if the total fees from a public interest entity audit client and its related entities were to represent more than 10 percent of the total fees received by a particular member firm for two consecutive years, these policies further require that:

- This be disclosed to those charged with governance at the audit client; and
- A partner from another KPMG member firm be appointed as the engagement quality control (EQC) reviewer.

No audit client accounted for more than 10 percent of the total fees received by KPMG in the Cayman Islands over the last two years.

Resolving conflicts of interests

Conflicts of interest can arise in situations where KPMG in the Cayman Islands partners or employees have a personal connection with the client which may interfere, or be perceived to interfere, with their ability to remain objective, or where they are personally in possession of confidential information relating to another party to a transaction. Consultation with the Risk Management Partner (RMP) or the EIP is required in these situations.

KPMG International policies are also in place to prohibit KPMG personnel from offering or accepting inducements, including gifts and hospitality to or from audit clients, unless the value is trivial and inconsequential, is not prohibited by relevant law or regulation and is not deemed to have been offered with the intent to improperly influence the behavior of the recipient or which would cast doubt on the individual's or the member firm's integrity, independence, objectivity or judgment.

All KPMG firms and personnel are responsible for identifying and managing conflicts of interest, which are circumstances or situations that have, or may be perceived to have an impact on a firm's and/or its partners' or employees' ability to be objective or otherwise act without bias.

All KPMG firms are required to use Sentinel™ for potential conflict identification so that these can be addressed in accordance with legal and professional requirements.

KPMG in the Cayman Islands has risk management resources who are responsible for reviewing any identified potential conflict and working with the affected member firms to resolve the conflict, the outcome of which is required to be documented.

Escalation and dispute resolution procedures are in place for situations in which agreement cannot be reached on how to manage a conflict. If a potential conflict issue cannot be appropriately mitigated, the engagement is declined or terminated.

Independence breaches

All KPMG in the Cayman Islands personnel are required to report an independence breach as soon as they become aware of it to the EIP. In the event of failure to comply with our independence policies, whether identified in the compliance review, self-declared or otherwise, professionals are subject to an independence disciplinary policy. All breaches of independence requirements of the IESBA Code or other external independence requirements are required to be reported to those charged with governance as soon as possible except where alternative timing for less significant breaches has been agreed to with those charged with governance.

KPMG in the Cayman Islands has a documented and communicated disciplinary policy in relation to breaches of independence policies, incorporating incremental sanctions reflecting the seriousness of any violations.

KPMG in the Cayman Island's Disciplinary Committee oversees policies and procedures in relation to ethical matters and breaches of requirements. Matters arising are factored into our promotion and compensation decisions and, in the case of engagement leaders and managers, are reflected in their individual quality and risk metrics.

Partner and firm rotation

KPMG International partner rotation policies are consistent with the requirements of the IESBA Code of Ethics and require all member firms to comply with any stricter local applicable rotation requirements.

KPMG in the Cayman Islands partners are subject to periodic rotation of their responsibilities for audit clients under applicable laws, regulations, independence rules and KPMG International policy. These requirements place limits on the number of consecutive years that partners in certain roles may provide audit services to a client, followed by a 'time-out' period during which time these partners may not:

- participate in the audit;
- provide quality control for the audit;
- consult with the engagement team or the client regarding technical or industry-specific issues;
- in any way influence the outcome of the audit;
- lead or coordinate professional services at the client;
- oversee the relationship of the firm with the audit client; or
- have any other significant or frequent interaction with senior management or those charged with governance at the client.

KPMG in the Cayman Islands monitors the rotation of audit engagement leaders (such as the engagement partner, the engagement quality control reviewer and any other key audit partner role, where there is a rotation requirement) and develops transition plans to enable allocation of partners with the necessary competence and capability to deliver a consistent quality of service to clients.

To comply with rotation requirements, the firm monitors the rotation of its audit engagement partners and Engagement Quality Control Reviewers ("EQCR"). Our monitoring system also aids in the development of timely transition plans that help the firm deliver consistent quality service to our clients. The process of monitoring and tracking service time and rotation is subject to compliance testing as part of our Quality Performance Review Program.

Zero-tolerance approach to bribery and corruption

Compliance with laws, regulations and standards is a key aspect for everyone at KPMG in the Cayman Islands. We have zero tolerance of bribery and corruption.

We prohibit involvement in any type of bribery — even if such conduct is legal or permitted under applicable law or local practice. We also do not tolerate bribery by third parties, including by our clients, suppliers or public officials. KPMG International requires KPMG firms to have appropriate internal controls in place to mitigate the risk of involvement in bribery by the firm and its partners and employees.

All KPMG firm partners and employees are required to take training covering compliance with laws, regulations and professional standards relating to anti-bribery and corruption, including the reporting of suspected or actual non-compliance.

Further information on KPMG International anti-bribery and corruption policies can be found on the [anti-bribery and corruption site](#).

Performing quality engagements

How an audit is conducted is as important as the result. KPMG in the Cayman Islands partners and employees are expected to demonstrate certain key behaviors and follow certain policies and procedures in the performance of effective and efficient audits.

Consulting where necessary

Encouraging a culture of consultation:

KPMG encourages a strong culture of consultation that supports engagement teams at KPMG firms throughout their

decision-making process and is a fundamental contributor to audit quality. KPMG in the Cayman Islands promotes a culture in which consultation is recognized as a strength and that encourages all KPMG professionals to consult on difficult or contentious matters. To help with this, firms are required to have established protocols for consultation and documentation of significant accounting and auditing matters, including procedures to facilitate resolution of differences of opinion on engagement issues. In addition, the GQRMM includes mandatory consultation requirements on certain matters.

Technical consultation and global resources

Technical accounting and auditing support are available to KPMG firms through the Global Audit Methodology Group (GAMG), the KPMG Global Solutions Group (KGSG), the International Standards Group (ISG) and the PCAOB Standards Group (PSG).

Global Audit Methodology Group (GAMG)

KPMG's audit methodology is developed and maintained by the Global Audit Methodology Group (GAMG). The GAMG develops our audit methodology based on the requirements of the applicable auditing standards – International Standards on Auditing, PCAOB and AICPA.

KPMG Global Solutions Group (KGSG)

The KGSG is responsible for the envisioning, development and deployment of global audit

solutions, including new technology and automation innovations. KGSG and GAMG work collaboratively to support KPMG firms through collaboration, innovation and technology. We have made significant investment in our audit methodology and tools, with the core focus of improving audit quality, global consistency and standardization.

With locations in each of the three KPMG regions (Americas, EMA and ASPAC), the KGSG and GAMG teams comprise professionals with backgrounds in audit, IT, data science, mathematics, statistics, and more from around the world, who bring diverse experiences and innovative ways of thinking to further evolve KPMG's audit capabilities.

International Standards Group (ISG)

The ISG works with Global IFRS Standards topic teams, with geographic representation from around the world, and the IFRS Standards Panel and ISA Panel to promote consistency of interpretation of IFRS Standards and auditing requirements between member firms, identify emerging issues, and develop global guidance on a timely basis.

PCAOB Standards Group (PSG)

The PCAOB Standards Group (PSG) comprises a dedicated group of professionals with backgrounds in PCAOB auditing standards who promote consistency of interpretation of PCAOB auditing standards in KPMG firms' audits of non-US components of US companies and of foreign private issuers and non-US components of SEC issuers, as defined by SEC regulations. The PSG also provides input into the development of training for auditors who work on PCAOB audit engagements and, where practicable, facilitates delivery of such training.

KPMG in the Cayman Islands Professional practice resource

KPMG in the Cayman Islands provide consultation support on auditing and technical accounting matters to their audit professionals through professional practice resources (referred to as Department of Professional Practice or DPP). This resource also assists engagement teams where there are differences of opinion either within teams or with the EQC reviewer. Unresolved differences are required to be escalated to senior partners for final resolution. KPMG’s International Standards Group and PCAOB Standards Group are also available for consultation support when required.

Critically assessing audit evidence, using professional judgment and skepticism

On all KPMG audits, the nature and extent of the audit evidence we gather is responsive to the assessed risks. We consider all audit evidence obtained during the course of the audit, including contradictory or inconsistent audit evidence. Each KPMG team member is required to exercise professional judgement and maintain professional skepticism throughout the audit engagements. Professional skepticism involves a questioning mind and alertness to contradictory or inconsistencies in the audit evidence. Professional judgement encompasses the need to be aware of and alert to biases that may pose threats to good judgements.

Direct, coach, supervise and review

Embedding ongoing mentoring, supervision and review

To invest in the building of skills and capabilities of KPMG professionals, KPMG in the Cayman Islands promotes a continuous learning environment and supports a coaching culture.

Ongoing mentoring, coaching and supervision during an audit involves:

- engagement partner participation in planning discussions;
- tracking the progress of the audit engagement;
- considering the competence and capabilities of the individual members of the engagement team, including whether they have sufficient time to carry out their work, whether they understand their instructions and whether the work is being carried out in accordance with the planned approach to the engagement;

- helping engagement team members address any significant matters that arise during the audit and modifying the planned approach appropriately; and
- identifying matters for consultation with more experienced team members during the engagement.

A key part of effective mentoring and supervision is timely review of the work performed so that significant matters are promptly identified, discussed and addressed.

Engagement quality control (EQC) reviews

The EQC review is an important part of KPMG’s framework for quality. An EQC reviewer is required to be appointed for audits, including any related review(s) of interim financial information, of all listed entities, non-listed entities with a high public profile, engagements that require an EQC review under applicable laws or regulations, and other engagements as designated by the Risk Management Partner or country Head of Audit.

An EQC review provides reasonable assurance that the team has appropriately identified significant risks, including fraud risks, and has designed and executed audit procedures to address them.

EQC reviewers are required to meet training and experience criteria to perform a quality control review for a particular engagement. Reviewers are independent of the engagement team and audit client and have the appropriate experience and knowledge to perform an objective review of the more critical decisions and judgments made by the engagement team and the appropriateness of the financial statements.

The audit is completed only when the EQC reviewer is satisfied that all significant questions raised have been resolved, though the engagement partner is ultimately responsible for the resolution of accounting and auditing matters.

We continually seek to strengthen and improve the role that the EQC review plays in member firm audits and have taken a number of actions to reinforce this, including issuing best practice guidance, incorporating specific review requirements into our audit workflow, and developing policies relating to recognition, nomination and development of EQC reviewers.

Appropriately support and document conclusions

Reporting: Auditing standards and various local regulatory requirements largely dictate the format and content of the auditors’ report that includes an opinion on the fair presentation of the client’s financial statements in all material respects. Experienced engagement partners form all audit opinions based on the audit performed.

In preparing auditors’ reports, engagement partners have access to extensive reporting guidance and technical support through consultations with our DPP, especially where there are significant matters to be reported to users of the auditors’ report (e.g. a modification to the opinion or through the inclusion of an ‘emphasis of matter’ or ‘other matter’ paragraph, as well as key audit matters to be communicated).

Engagement documentation

KPMG in the Cayman Islands’ audit documentation is completed and assembled according to the timeline established by the firm policy and auditing standards, and we have implemented administrative, technical and physical safeguards to protect the confidentiality and integrity of client and firm information. KPMG International recently adopted policies to apply to all KPMG firms to reduce the time period allowed to assemble audit documentation, which is significantly less than required by the applicable auditing standards.

Assessing risks to quality

Through the Global Audit Quality Council (GAQC) and the Global Quality & Risk Management Steering Group (GQRMMSG), KPMG International reviews the results of the quality monitoring programs, reviews firm root causes and planned remedial actions, and develops additional global remediation actions as required. Global remediations are aimed at actions around culture and behavior across the global organization and at driving consistent engagement team performance within KPMG firms.

Communicating effectively

We recognize that another important contributor to upholding audit quality is to obtain and act upon feedback from key stakeholders.

Provide insights, and maintain open and honest two-way communication

At KPMG in the Cayman Islands, we stress the importance of keeping those charged with governance informed of issues arising throughout the audit through guidance and supporting resources. We achieve this through a combination of reports and presentations, attendance at audit committee or board meetings, and, when appropriate, ongoing discussions with management and members of the audit committee.

The role of audit committees is key in supporting quality auditing by overseeing the relationship between company and auditor and challenging what auditors do and how they do it.

IFRS Standards Institute

KPMG's Global IFRS Standards Institute provides information and resources to help the KPMG in the Cayman Islands' Management Committee and Audit Committee members, executives, management, stakeholders and government representatives gain insight and access thought leadership about the evolving global financial and sustainability reporting frameworks.

Conduct and follow-up on the Global People Survey (GPS)

Only with engaged, talented people can KPMG deliver audits in line with our audit quality expectations. Annually, KPMG in the Cayman Islands personnel invited to participate in KPMG's Global People Survey (GPS) to share their perception about their experience of working for KPMG. The GPS provides a measure of our people's engagement and insights into areas driving engagement. Results can be analyzed by several factors, for example functional or geographic area, grade and gender to provide additional focus for action. Through the GPS, KPMG in the Cayman Islands gains additional insight on how we are faring on categories known to impact employee engagement. We also cover areas of focus which are directly relevant to audit quality; the survey includes specific audit quality related questions that all individuals who participated in an audit in the previous 12 months are asked to respond to, giving us a particular data set for audit quality related matters.

The survey also provides KPMG in the Cayman Islands leadership and KPMG International leadership with results related to quality and risk behaviors, audit quality, upholding the KPMG Values, employee and partner attitudes to quality, leadership and tone at the top.

KPMG in the Cayman Islands participates in the GPS, monitors results and takes appropriate actions to communicate and respond to the findings of the survey. The results of the GPS are also aggregated for the entire global organization and are presented to the Global Board each year and appropriate follow-up actions agreed.

Audit specific analysis of GPS results is also undertaken, with a particular focus on audit quality. Results and key themes are presented to the Global Audit Steering Group on an annual basis for consideration of appropriate remedial action, if needed.

Monitoring and remediation

Integrated quality monitoring and compliance programs enable KPMG firms to identify quality deficiencies, to perform root cause analysis and develop, implement and report remedial action plans, both in respect of individual audit engagements and the overall system of quality control.

Rigorously monitor and measure quality at the local and global level

Commitment to continuous improvement

KPMG commits to continually improve the quality, consistency and efficiency of KPMG Firm audits. The quality monitoring and compliance programs are globally consistent in their approach across all KPMG firms, including the nature and extent of testing and reporting. KPMG in the Cayman Islands compares the results of its internal monitoring programs with the results of those of any external inspection programs and take appropriate action.

Internal monitoring and compliance programs

KPMG in the Cayman Islands' monitoring programs are created by KPMG International and applied across KPMG firms. The programs evaluate both:

- engagement performance in compliance with the applicable standards, applicable laws and regulations, and KPMG International key policies and procedures; and
- KPMG in the Cayman Islands' compliance with KPMG International key policies and procedures and the relevance, adequacy and effective operation of key quality control policies and procedures.

Our internal monitoring programs also contribute to the assessment of whether our system of quality control has been appropriately designed, effectively implemented, and operates effectively. These include Quality Performance Reviews (QPR) and Risk Compliance Programs (RCP), which are conducted annually across the Audit, Tax and Advisory functions.

The results and lessons from the integrated monitoring programs are communicated internally and appropriate action is taken at local, regional and global levels.

Audit Quality Performance Reviews (QPR)

The Audit QPR program assesses engagement level performance and identifies opportunities to improve engagement quality.

Risk-based approach

Each engagement leader in every KPMG firm is reviewed at least once in a three-year cycle. A risk-based approach is used to select engagements.

KPMG in the Cayman Islands conducts the annual QPR program in accordance with KPMG International QPR instructions. The reviews are performed at KPMG in the Cayman Islands' level and are monitored regionally and globally. Firm Audit QPR reviews are overseen by a senior experienced lead reviewer independent from the firm.

Reviewer selection, preparation and process

There are robust criteria for selection of reviewers. Review teams include senior experienced lead reviewers that are independent of the firm under review.

Training is provided to review teams and others overseeing the process, with a focus on topics of concern identified by audit oversight regulators and the need to be as rigorous as external reviewers.

Evaluations from Audit QPR

Consistent criteria are used to determine engagement ratings and member firm Audit practice evaluations. Audit engagements selected for review are rated as 'Satisfactory', 'Performance Improvement Needed' or 'Unsatisfactory'.

Reporting

Findings from the QPR program are disseminated to firm professionals through written communications, internal training tools, and periodic partner, manager and staff meetings.

These areas are also emphasized in subsequent inspection programs to gauge the extent of continuous improvement.

Lead audit engagement partners (LAEPs) are notified of unsatisfactory ratings on their respective cross-border engagements. Additionally, LAEPs of parent companies/head offices are notified where a subsidiary/affiliate of their client group is audited by a member firm where significant quality issues have been identified during the QPR.

Risk Compliance Program (RCP)

KPMG International develops and maintains quality control policies and processes that apply to all KPMG firms. These policies and processes, and their related procedures, include the requirements of the International Standard of Quality Control ("ISQC1"). During the annual RCP, KPMG firms perform a robust assessment program consisting of documentation of quality controls and procedures, related compliance testing and reporting of exceptions, action plans and conclusions.

The objectives of the RCP are to:

- document, assess and monitor the extent to which the KPMG in the Cayman Islands’ system of quality control complies with Global Quality & Risk Management policies, and key legal and regulatory requirements; and
- provide the basis for KPMG in the Cayman Islands to evaluate compliance with relevant professional standards and applicable legal and regulatory requirements.

Where deficiencies are identified, the KPMG firm is required to develop appropriate action plans and then monitor the status of each action item.

Global Quality & Compliance Review (GQ&CR) program

Each KPMG firm is subject to a GQ&CR conducted by KPMG International’s GQ&CR team, independent of the KPMG firm, at various intervals based on identified risk criteria.

The GQ&CR team performing the reviews is independent of the KPMG firm and is objective and knowledgeable of GQ&RM policies. GQ&CRs assess compliance with selected KPMG International policies and procedures and share best practices among KPMG firms. The GQ&CR provides an independent assessment of:

- a firm’s commitment to quality and risk management and the extent to which its overall structure, governance and financing support and reinforce this commitment;
- a firm’s compliance with KPMG International policies and procedures; and
- the robustness with which the firm performs its own compliance program (RCP).

KPMG in the Cayman Islands develops action plans to respond to all GQ&CR findings that indicate improvement is required and agree these with the GQ&CR team.

Our progress on action plans is monitored by the GQ&CR central team. Results are reported to the GQ&RM Steering Group and where necessary, to appropriate KPMG International and regional leadership.

Area Quality & Risk Management Leaders (ARLs)

The Global Head of Quality, Risk and Regulatory appoints Area Quality & Risk Management Leaders (ARLs) who serve a regular and ongoing monitoring function to assess the effectiveness of a member firm’s efforts and processes to identify, manage and report significant risks that have the potential to damage the KPMG brand. Significant activities of the ARL, including member firm issues identified and related member firm response/remediation, are reported to GQ&RM leadership.

Obtain, evaluate and act on stakeholder feedback

Regulators

- ☆☆☆ KPMG in the Cayman Islands is registered with major international audit regulators.

KPMG in the Cayman Islands is registered with the Canadian Public Accountability Board (CPAB) as well as the US Public Company Accounting Oversight Board (PCAOB). We are also registered with the Japanese Certified Public Accountants and Audit Oversight Board (CPAAOB) and the Netherlands Authority for Financial Markets (AFM).

KPMG in the Cayman Islands is regulated by the Cayman Islands Auditors Oversight Authority. The Auditors Oversight Authority (AOA) was established on 1 May 2012 by The Auditors Oversight Law and is charged with regulating and supervising auditors of market traded companies.

KPMG in the Cayman Islands’ signing partners are subject to a licensing regime, being under the auspices of the Cayman Islands Institute of Professional Accountants (CIIPA) which was formed in the Cayman Islands in 1970 and has evolved into one of the largest professional societies in the Cayman Islands. In 2013 CIIPA became a full member of the International Federation of Accountants (IFAC), the worldwide organization representing the accountancy profession.

Inspection results

The firm was reviewed by the AOA in 2016. The final report has been released, but cannot be shared without the consent of the

Regulator. We are not aware of significant issues noted during the review. From 2013, CIIPA has been in the process of monitoring the observance of the International Standard of Quality Control ("ISQC1") within the firms of licensed practitioners. All CIIPA licensed practitioners ("practitioner members") are subject to review by means of the Quality Assurance Review System (QARS). The reviews encompass the practitioner member firm's quality control procedures and all assurance engagements and assess the firm's compliance with ISQC1.

The Institute of Chartered Accountants in England and Wales (ICAEW) is the Review Body appointed to undertake the QARS monitoring visits, determine the review methodology and issue reports designed to assist firms in rectifying deficiencies and making improvements to the standard of their audit work. KPMG in the Cayman Islands were reviewed in 2015 and 2019. The inspection team did not note any adverse findings.

Our most recently published PCAOB inspection report in November 2009 can be found [here](#).

KPMG International has regular two-way communication with the International Forum of Independent Audit Regulators (IFIAR), principally through its Global Audit Quality Working Group (GAQ WG), to discuss thematic audit quality issues along with targeted strategies for improvement. We value the open, honest and transparent dialogue that IFIAR facilitates on global audit quality issues. Every KPMG firm is expected to maintain professional and respectful relationships with regulators, including proactively engaging, responding to questions in a timely manner and taking appropriate remedial actions.

Client feedback

We proactively seek feedback from clients through in-person conversations and third-party surveys to monitor their satisfaction with services delivered. We endeavor to take this feedback and make dynamic changes at both the engagement level and firm level to meet clients' needs.

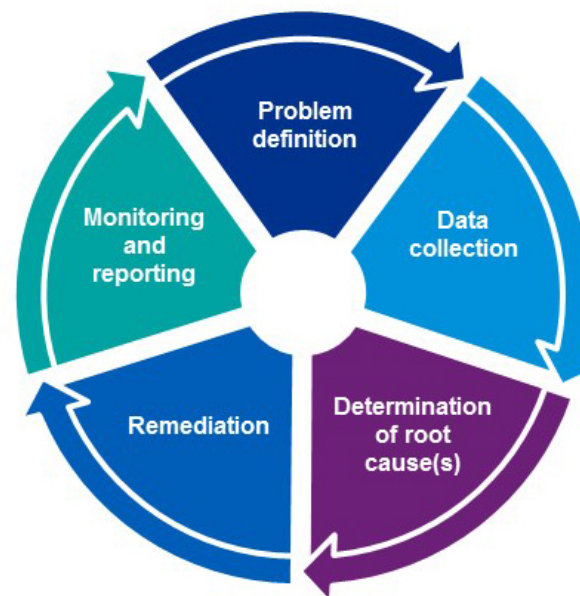

Monitoring of complaints

We have procedures in place for monitoring and addressing complaints received relating to the quality of our work. These procedures are detailed in our general terms of business.

Perform root cause analysis

KPMG in the Cayman Islands conducts Root Cause Analysis (RCA) in respect of audit quality issues. In 2021, RCA training based on our Global RCA 5 Step Principles was attended by those individuals at KPMG in the Cayman Islands who will be performing RCA or directing those performing RCA. The training provides a common platform for advancing the practices and skills associated with resourcing, planning and conducting RCA.

The Global RCA 5 Step Principles are as follows:

It is the responsibility of all KPMG firms to perform RCA and thereby identify and subsequently develop appropriate remediation plans for the audit quality issues identified.

KPMG in the Cayman Islands' Head of Audit is responsible for audit quality including the remediation of audit quality issues. Our Risk Management Partner monitors the remediation plan implementation

Companies listed in the EU/EEA

Entities that have transferable securities listed on a EU/EEA regulated market for which KPMG in the Cayman Islands has signed an audit opinion in the year 2021 are given below.

1	Edam Funding One Limited
2	Hedosophia European Growth
3	Crystal Peak Acquisition

Financial Information

The financial information of KPMG in the Cayman Islands for the year ended September 30, 2021 is as follows:

Service	September 30, 2021
Audit and directly related services for audit clients listed in EU	0.32%
Permitted non-audit services for audit clients listed in EU	0.00%
Other audit and non-audit services	99.68%
Total revenue	100.00%

Partner remuneration

Partners who own an equity interest in KPMG in the Cayman Islands are remunerated based on a fixed salary for the year, plus a share of the distributable profits of KPMG in the Cayman Islands. The allocation of the distributable profits to each partner is determined and approved by the

Remuneration Committee based on seniority and experience of each Partner plus an element which reflects individual performance against objectives for the year.

Partners and directors who do not hold an equity interest are remunerated based on a fixed salary, plus a discretionary bonus dependent on their individual performance against set objectives and performance of KPMG in the Cayman Islands as a whole.

Our policies for the variable element of Partner and Director remuneration take into account a number of factors including quality of work, excellence in client service, growth in revenue and profitability, leadership and living the KPMG Values.

Partners and directors serving as audit engagement partners are not permitted to have objectives related to, or receive any remuneration from, selling non-audit services to their audit clients. In addition, a part of their performance-related component is based on an assessment of their ability to deliver audit quality.

Legal structure

On 1 October 2020, KPMG in the Cayman Islands and all other KPMG firms entered into new membership and associated

documents the key impact of which is that all KPMG member firms in the KPMG global organization became members in, or have other legal connections to, KPMG International Limited, an English private company limited by guarantee.

Since 1 October 2020, KPMG International Limited has been the coordinating entity for the overall benefit of the KPMG member firms. It does not provide professional services to clients. Professional services to clients are exclusively provided by member firms.

KPMG is the registered trademark of KPMG International and is the name by which the member firms are commonly known. The rights of member firms to use the KPMG name and marks are contained within agreements with KPMG International.

Pursuant to their membership agreements with KPMG International, member firms are required to comply with KPMG International's policies, including quality standards governing how they operate and how they provide services to clients to compete effectively. This includes being professionally and financially stable; having an ownership, governance and management structure that ensures continuity and stability and long-term success; and being able to comply with policies issued by KPMG International, adopt global strategies, share resources (incoming and outgoing), service multi-national clients, manage risk, and deploy global methodologies and tools.

KPMG International Limited and the KPMG member firms are not a global partnership, single firm, multinational corporation, joint venture, or in a principal or agent relationship or partnership with each other. No member firm has any authority to obligate or bind KPMG International Limited, any of its related entities or any other member firm vis-à-vis third parties, nor does KPMG International Limited or any of its related entities have any such authority to obligate or bind any member firm.

Further detail on the revised legal and governance arrangements for the KPMG global organization from 1 October 2020 can be found in section 'Governance and leadership' of the [2021 KPMG International Transparency Report](#).

Total turnover achieved by EU/EEA audit firms resulting from the statutory audit of annual and consolidated financial statements*

Aggregated revenues generated by KPMG firms, from EU and EEA Member States resulting from the statutory audit of annual and consolidated financial statements was 2.05 billion euros during the year ending 30th September 2021. The EU/EEA aggregated statutory audit revenue figures are presented to the best extent currently calculable and translated at the average exchange rate prevailing in the 12 months ended 30th September 2021.

Responsibilities and obligations of Member Firms

Under agreements with KPMG International, member firms are required to comply with KPMG International's policies and regulations including quality standards governing how they operate and how they provide services to clients to compete effectively. This includes having a firm structure that ensures continuity and stability and being able to adopt global strategies, share resources (incoming and outgoing), service multi-national clients, manage risk, and deploy global methodologies and tools.

Each KPMG firm takes responsibility for its management and the quality of its work. Member firms commit to a common set of KPMG Values as set out in Appendix 3 to this document.

KPMG International's activities are funded by amounts paid by member firms. The basis for calculating such amounts is approved by the KPMG International Global Board and consistently applied to the firms. A firm's status as a KPMG member firm and its participation in the KPMG global organization may be terminated if, among other things, it has not complied with the policies set by KPMG International or any of its other obligations owed to KPMG International.

*The financial information set forth represents combined information of the separate KPMG firms from EU and EEA Member States that perform professional services for clients. The information is combined here solely for presentation purposes. KPMG International performs no services for clients nor, concomitantly, generates any client revenue.

Professional Indemnity Insurance

Insurance cover is maintained in respect of professional negligence claims. The cover provides a territorial coverage on a worldwide basis.

Governance structure

The key governance and management bodies of KPMG International are the Global Council, the Global Board, and the Global Management Team.

Global Council

The Global Council focuses on high-level governance tasks and provides a forum for open discussion and communication among member firms.

Among other things, the Global Council elects the Global Chairman and also approves the appointment of Global Board members. It includes representation from 56 KPMG firms that are “members” of KPMG International Limited as a matter of English law.

Global Board

The Global Board is the principal governance and oversight body of KPMG International. The key responsibilities of the Global Board include approving global strategy, protecting and enhancing the KPMG brand and reputation, overseeing the Global Management Team and approving policies with which KPMG firms are required to comply. It also approves the admittance or termination of KPMG firms to/from the global organization.

It is led by the Global Chairman, Bill Thomas, and also includes the Chairman of each of the regions (the Americas; Asia Pacific (ASPAC); and Europe, the Middle East, and Africa (EMA)), and a number of members who are also member firm Senior Partners.

The list of current Global Board members, is set out on the [Leadership](#) page of kpmg.com

Global Board committees:

The Global Board is supported in its oversight and governance responsibilities by several committees, including:

- Executive Committee;
- Governance Committee;
- Global Quality, Risk & Reputation Committee; and
- Global Audit Quality Committee.

The overarching responsibility of the Global Audit Quality Committee is to strive for globally consistent audit quality across all firms and to oversee those KPMG International activities which relate to improving and maintaining the consistency and quality of audits provided by KPMG firms.

Global Management Team

The Global Board has delegated certain responsibilities to the Global Management Team. These responsibilities include developing the global strategy by working together with the Executive Committee, and jointly recommending the global strategy to the Global Board for its approval. The Global Management Team also supports KPMG firms in their execution of the global strategy and KPMG International decisions and policies by member firms, including holding them accountable against their commitments. It is led by the Global Chairman, Bill Thomas.

The list of current Global Management Team members is available in the [Leadership](#) section on KPMG.com.

Global Steering Groups

There is a Global Steering Group for each key function and infrastructure area, chaired by the relevant member of the Global Management Team and, together they assist the Global Management Team in discharging its responsibilities. They act under delegated authority from the Global Board and oversight by the Global Management Team (GMT). Under the oversight of the GMT, they promote the execution of the global strategy and compliance with KPMG International decisions and policies by member firms.

In particular, the Global Audit Steering Group and Global Quality & Risk Management Steering Group work closely with regional and member firm leadership to:

- Establish, and ensure communication of, appropriate audit and quality/risk management policies;
- Establish and support effective and efficient risk processes to promote audit quality;
- Promote and support the implementation of strategy implementation in member firms’ audit functions, including standards of audit quality; and
- Assess and monitor audit engagement quality, including issues arising from quality performance and regulatory reviews, and focus on best practices to increase audit quality.

Statement by the Management Committee of KPMG in the Cayman Islands on the effectiveness of quality controls and independence

January 31, 2022

The measures and procedures that serve as the basis for the system of quality control for KPMG in the Cayman Islands outlined in this report aim to provide a reasonable degree of assurance that the statutory audits carried out by our firm comply with the applicable laws and regulations. Because of its inherent limitations, the system of quality controls is not intended to provide absolute assurance that non-compliance with relevant laws and regulations would be prevented or detected.

The Management Committee of KPMG in the Cayman Islands has considered:

- the design and operation of the quality control systems as described in this report;
- the findings from the various compliance programs operated by our firm (including the KPMG International review programs as described in the Monitoring and Remediation section of this report and our local compliance monitoring programs; and
- findings from regulatory inspections and subsequent follow up and/or remedial actions.

Taking all of this evidence together, the Management Committee of KPMG in the Cayman Islands confirms with a reasonable level of assurance that the systems of quality control within our firm have operated effectively in the year to 30 September 2021.

Further, the Management Committee of KPMG in the Cayman Islands confirms that an internal review of independence compliance within our firm has been conducted in the year to 30 September 2021.

Andrew Stepaniuk
Managing Partner,
KPMG in the Cayman Islands

Appendix 3: Our Values represent who we are and what we believe in

Our Values represent what we believe in, and what's important to us as an organization. They guide our behaviors day-to-day, informing how we act, the decisions we make, and how we work with each other, our clients, companies that we audit, and all our stakeholders.

Our Values express our firm's long-standing core beliefs, and in 2020 the language was updated to make them bolder, simpler, and more memorable to help each of us bring them to life every day.

 **Integrity**
We do what is right.

 **Excellence**
We never stop learning and improving.

 **Courage**
We think and act boldly.

 **Together**
We respect each other and draw strength from our differences.

 **For Better**
We do what matters.
