

Private Capital Emerging and Growth Manager Platform

Private Equity, Venture Capital and Private Credit

KPMG's Private Capital Emerging and Growth Manager Platform (the "Platform") in the Cayman Islands is an audit and tax compliance solution created by our dedicated Private Capital teams to meet the specific needs of managers launching their first funds or those looking to take the next steps in their growth strategy.

What the Platform can do for you?

We understand that when managers launch their first funds or are in their growth stage, they need a smooth process from a team that understands their industry and cost-competitive audit and tax compliance services.

The Platform was established to offer Private Capital managers the convenience of obtaining all the benefits of working with a Big 4 audit firm, without the need to start with a smaller firm and then change service providers once growth is achieved.

Why did KPMG launch the Platform?

As the largest auditing firm in the Cayman Islands, KPMG offers in-house specialist teams dedicated to Private Equity, Venture Capital, or Private Credit funds. This specialization and cutting-edge technology enable us to be cost-competitive while providing the audit quality that regulators and investors demand.

The Platform allows us to demonstrate our exceptional client service to new and growing managers, thereby developing a long-term working relationship.
