BUSY BEES

ACTIVITY BOOK

Busy Bees Activity Book

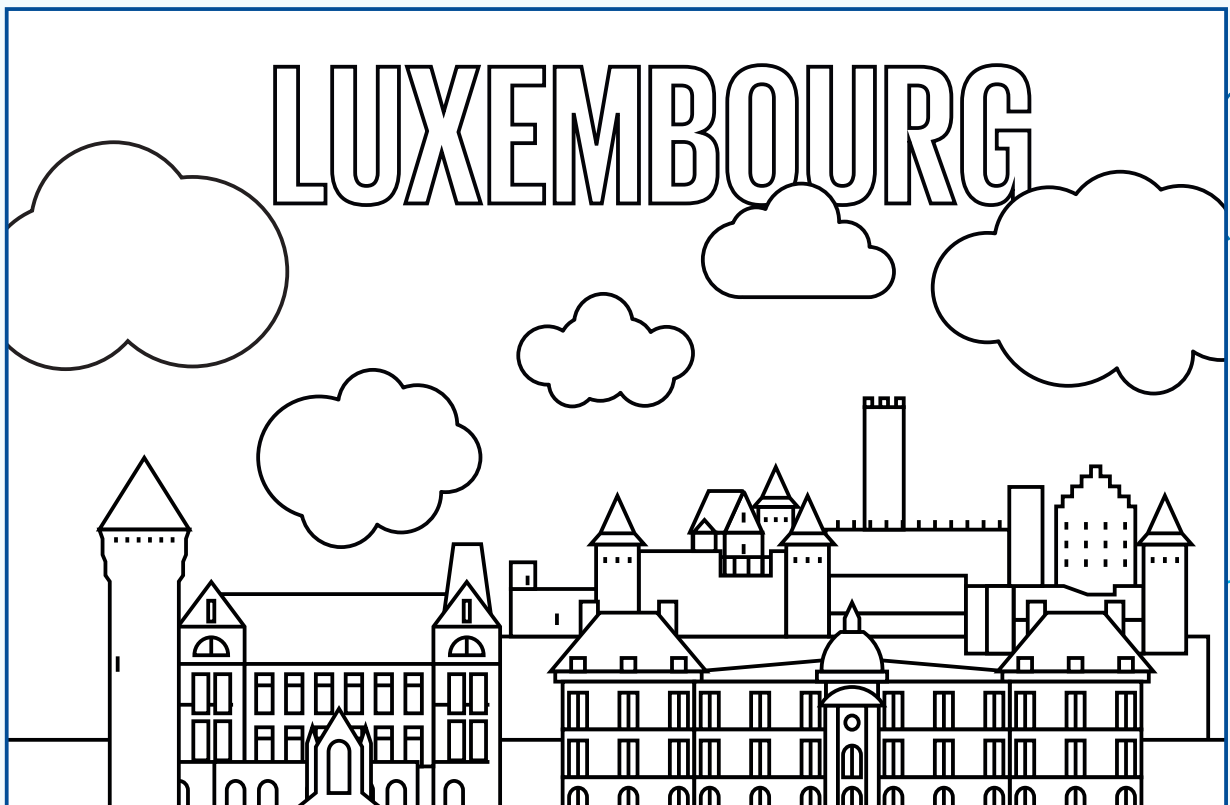

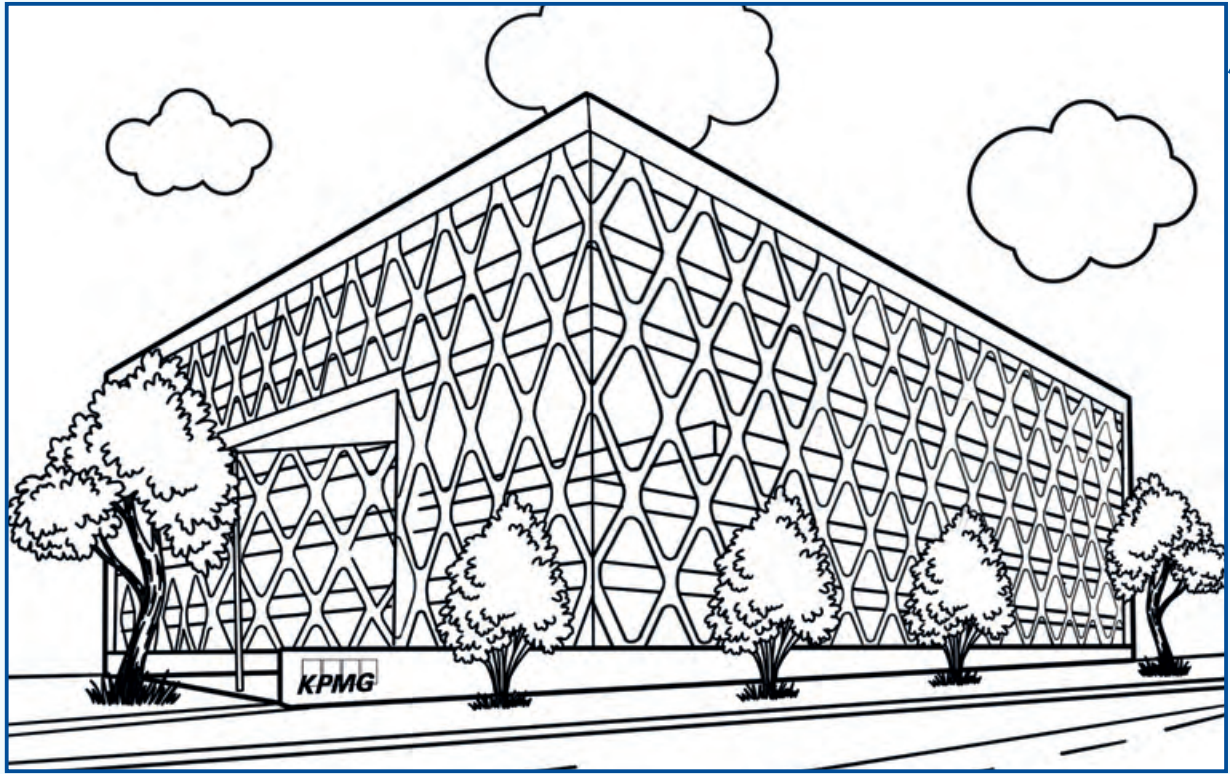

Fly around Luxembourg
with KP Bee and MG Bee!

This book belongs to

Age

Can you color in...

...the KPMG building and Luxembourg City?

Moi en!

Hallo Bonjour

We're KP Bee and MG Bee.

We're here to tell you all
about bees.

Ready?

Let's go!

KP Bee is kind, loyal and tries its best
at everything.

MG Bee is funny, brave and supports
everyone.

Together, they're a dream team!

KP Bee

I love reading, art and
listening to music at
the Philharmonie.

I might seem quiet
at first, but I can talk
with my friends
for hours!

I'm happiest when
I'm working on a
big project, like
a painting.

MG Bee

I love playing sports,
and buzzing around
the city parks.

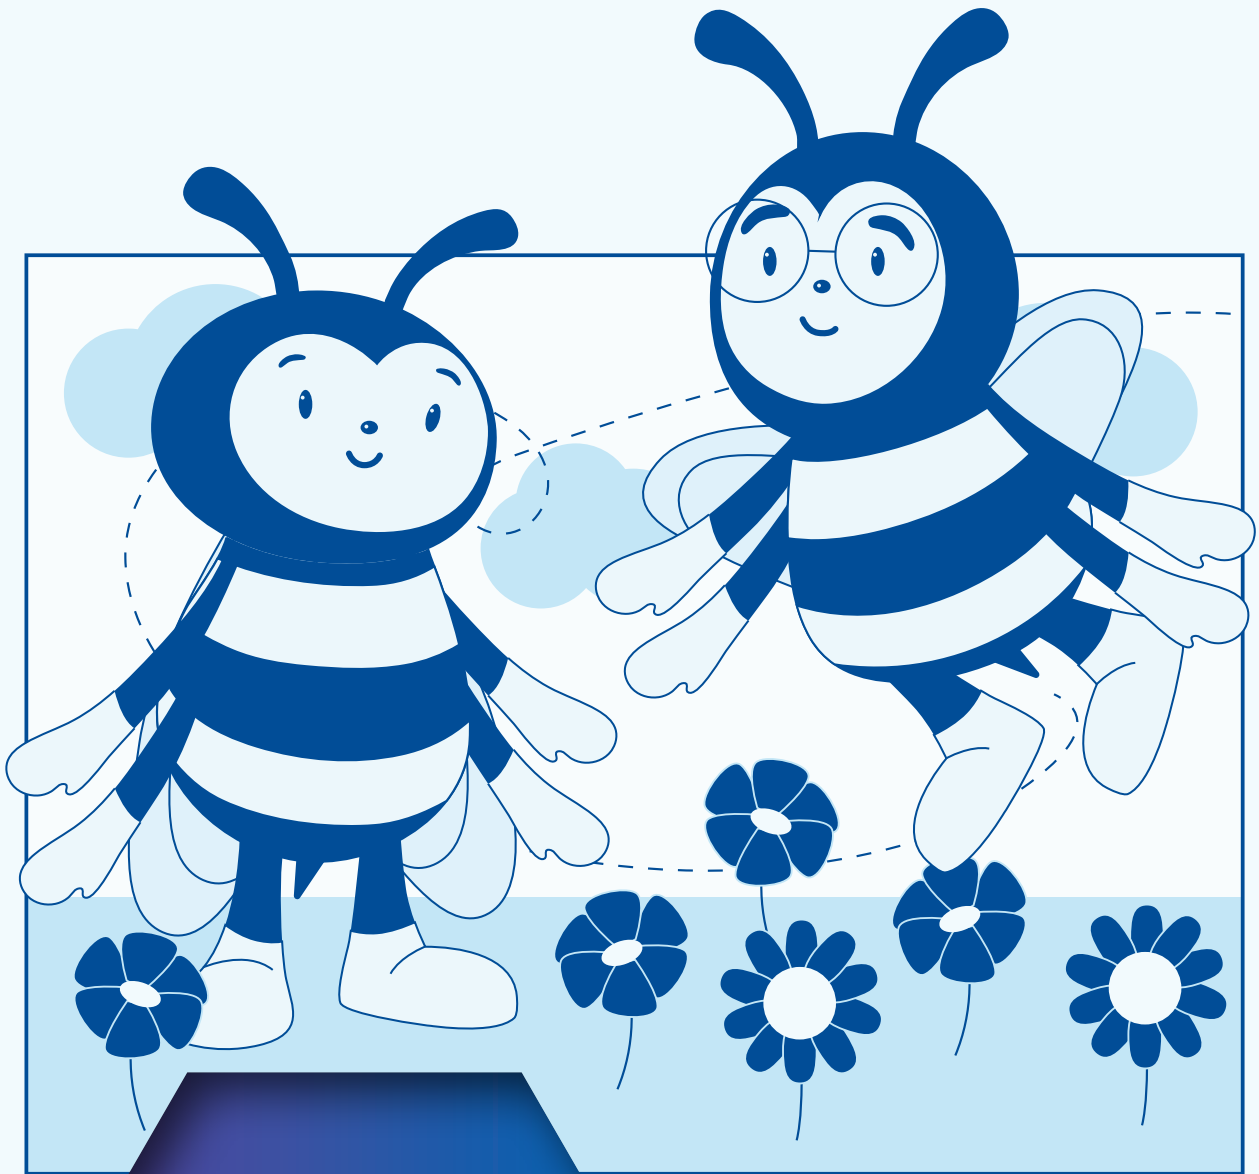

I'm always making
new friends and
love chatting.

I'm happiest when I'm
finding new flowers
for my hive!

Can you spot all the differences?

Hint: there are 5 to find.

Did you know?

There are an estimated 20,000 species of bees around the world.

Did you know?

There are
345 different
types of bees in
Luxembourg!

What do bees do?

We live and work together in **hives**.

Each hive has **3 types** of bees in it:
queen bee, worker bees & drone bees.

We often fly a **long way** to find
our food.

We make **honey** to store as food
for the winter.

We **pollinate** flowers and crops,
which helps them grow in lots
of places.

We're key in keeping the planet
healthy and diverse!

Buzzword search

We've lost some of our most important things!

Can you help us find them?

Hint: they're not all in English!

Find the following words in the puzzle.

BLUMEN

POLLEN

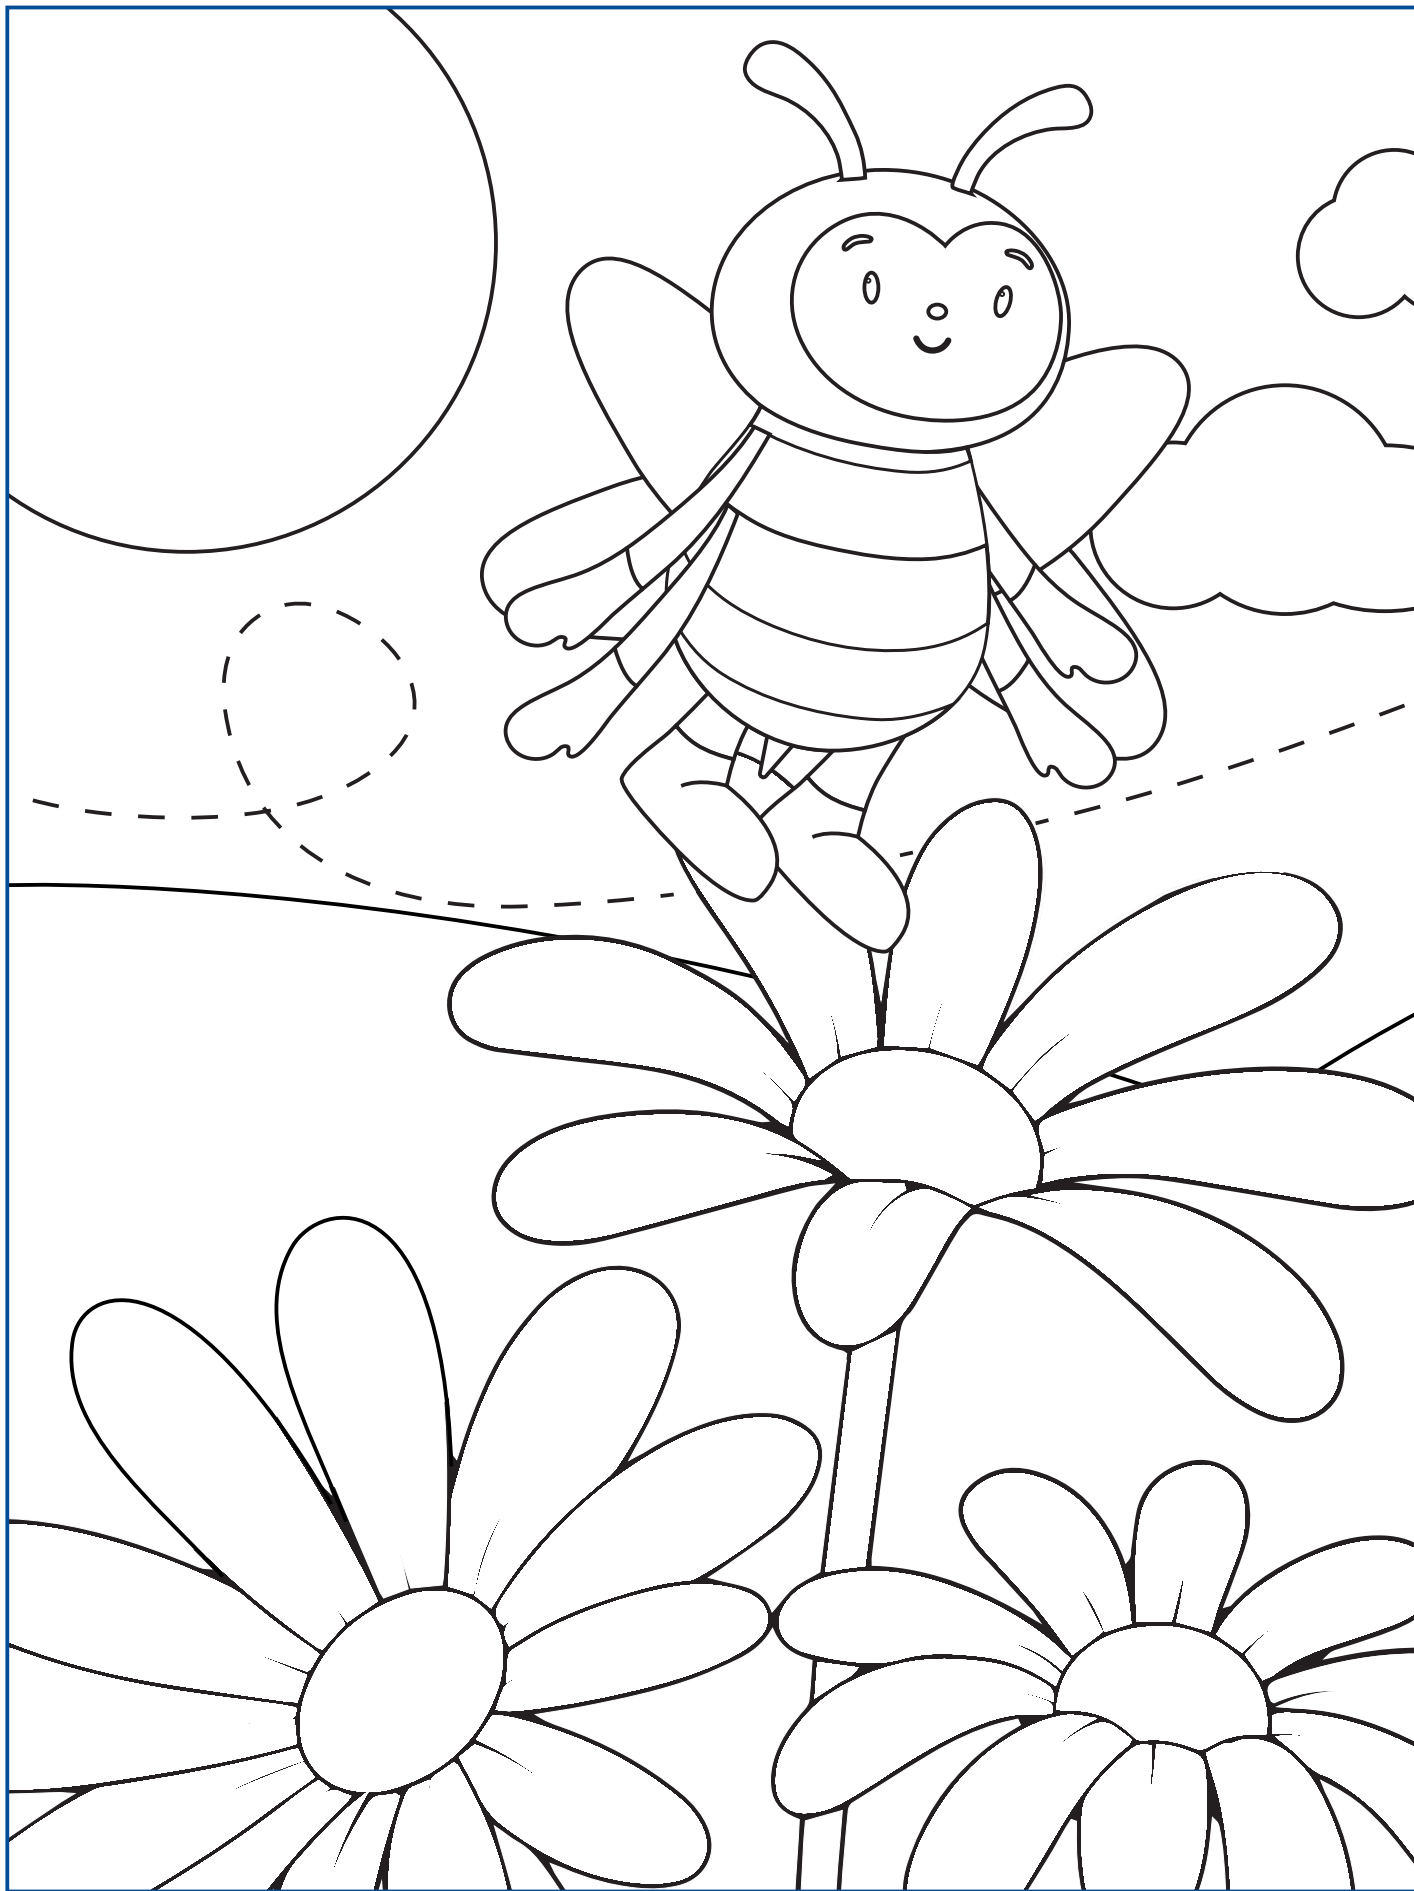

RUCHE

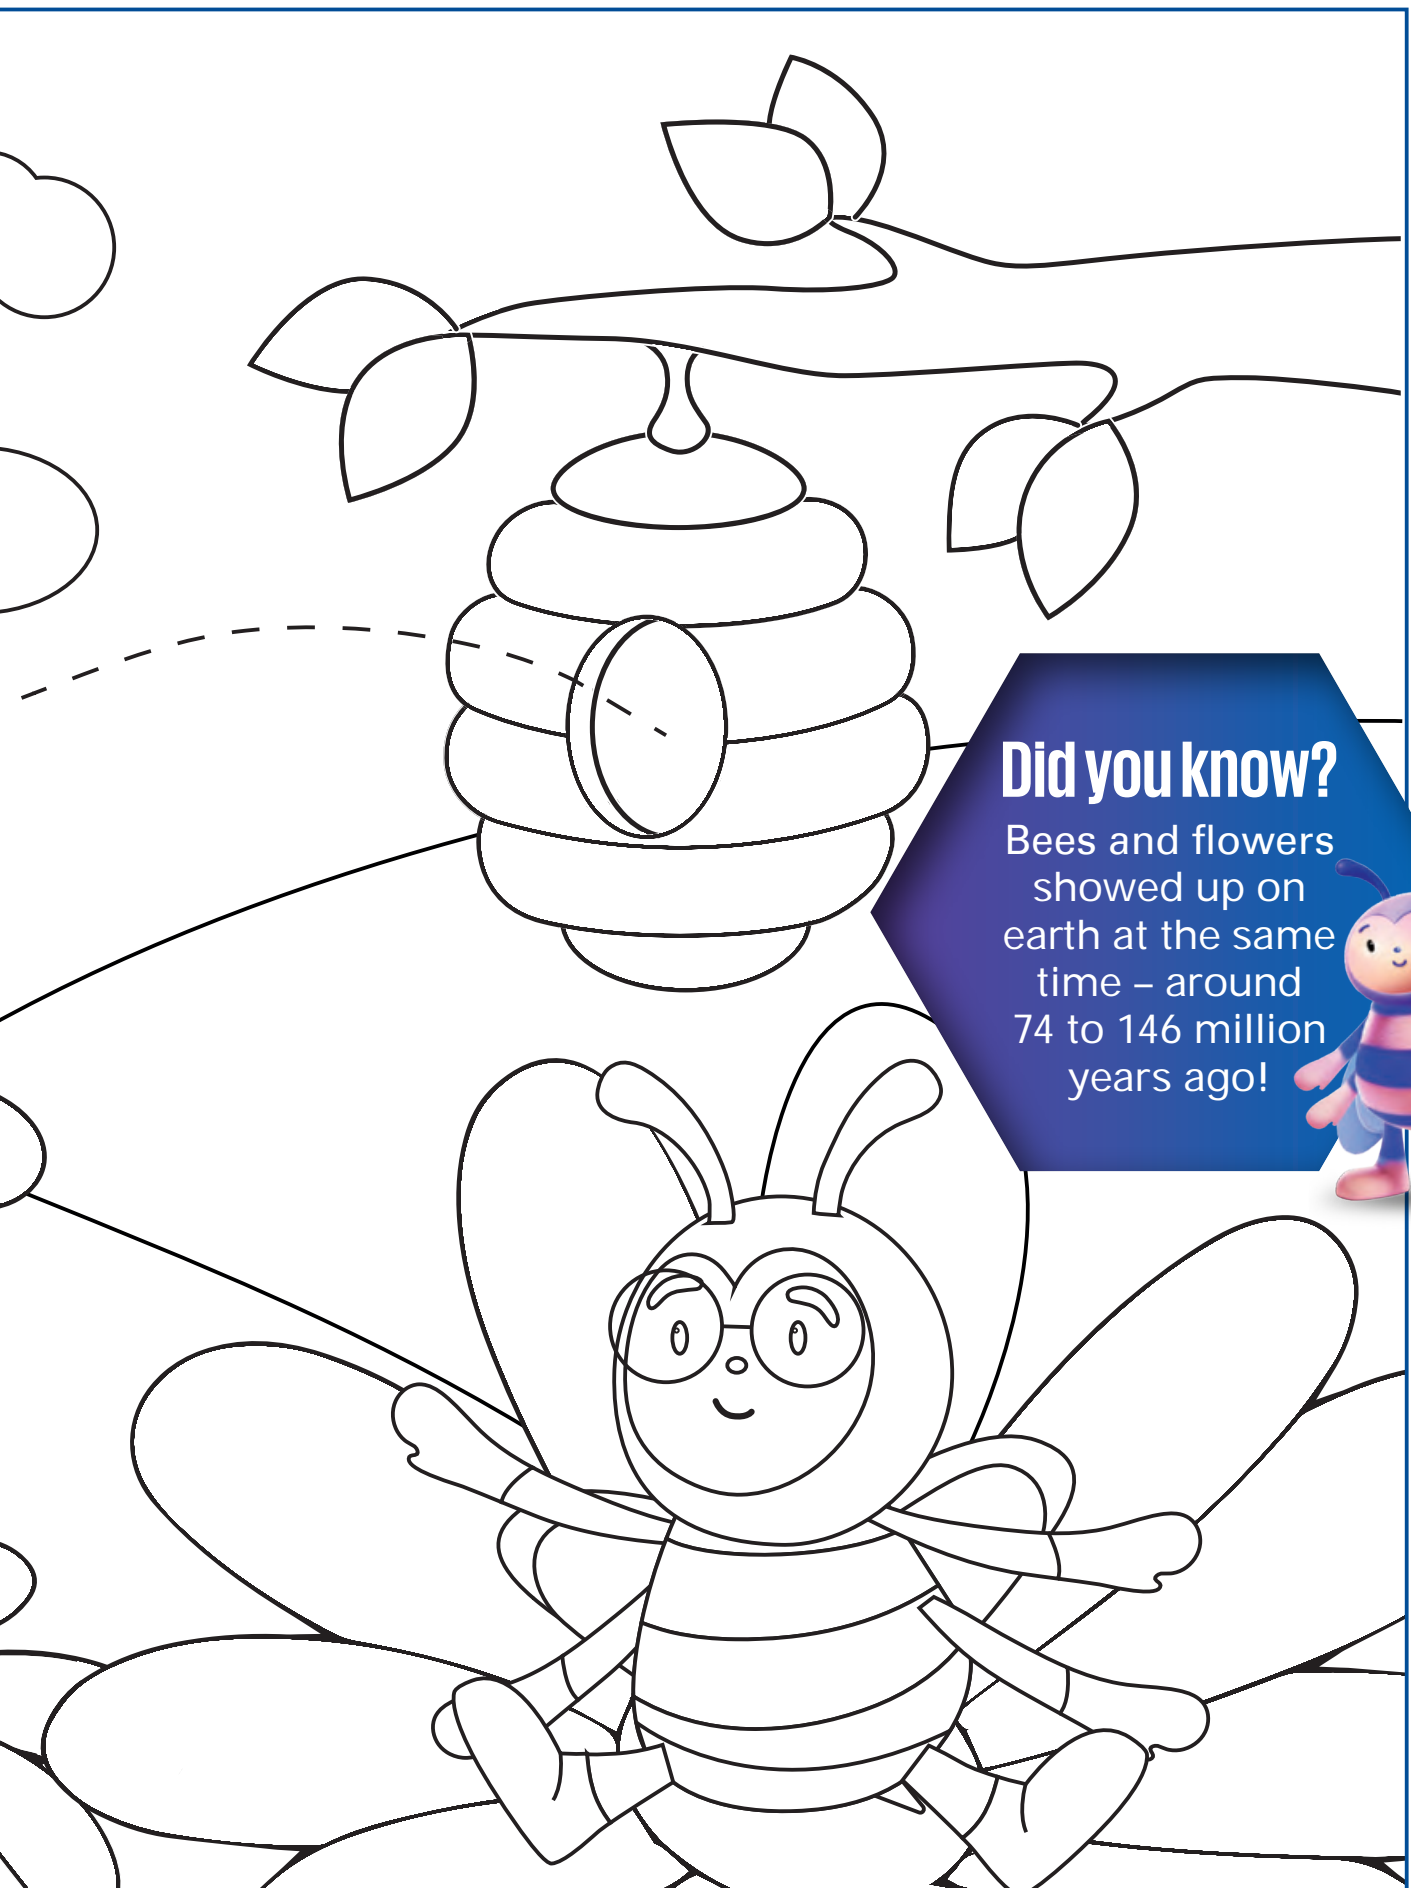

STRIPES

HUNNEG

BUZZ

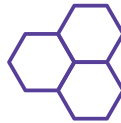

Did you know?

Bees and flowers showed up on earth at the same time – around 74 to 146 million years ago!

Bees do amazing things!

We work together as a team.

We have to be brave and adventurous to help each other.

We're always learning, so we can live in lots of different places.

We all have a special job to do.

Without all the different bees, we couldn't make honey!

Can you find the matching patterns?

Can you find patterns 1, 2 and 3 in the grid below?

1.

		
		

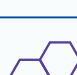

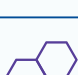

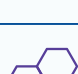

2.

3.

		
		

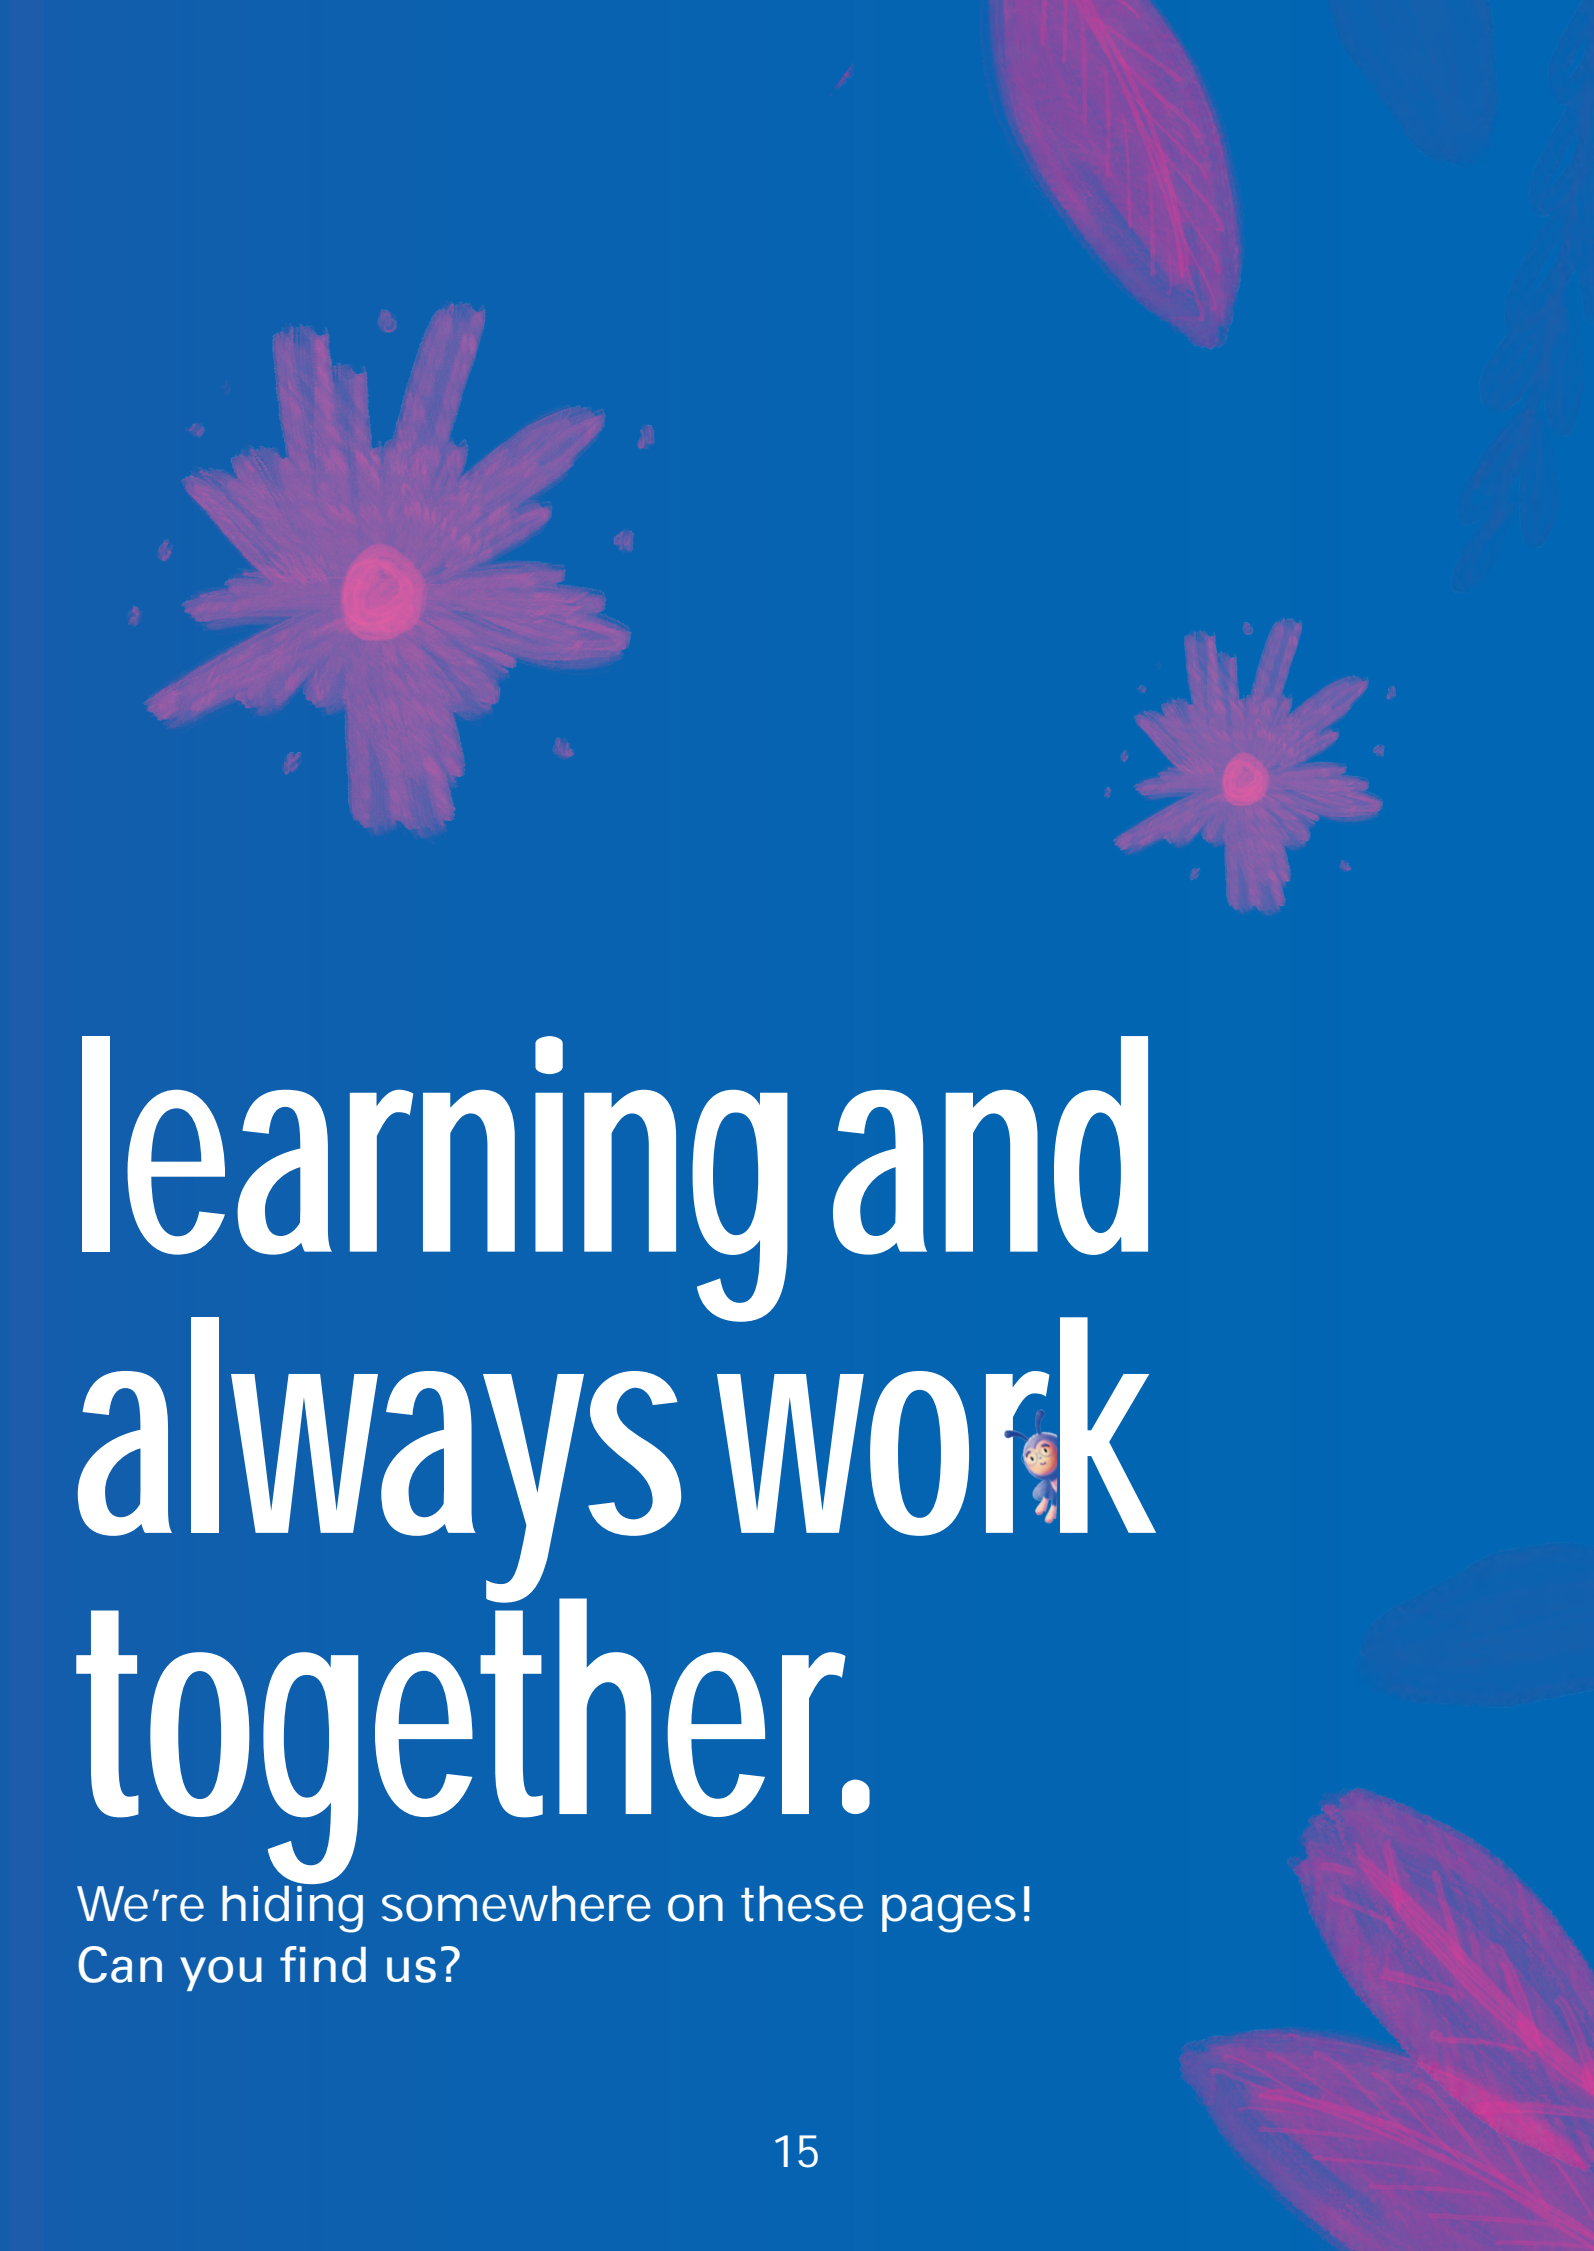

Just like bees, at KPMG...

We do the
right  thing, act
 bravely, keep

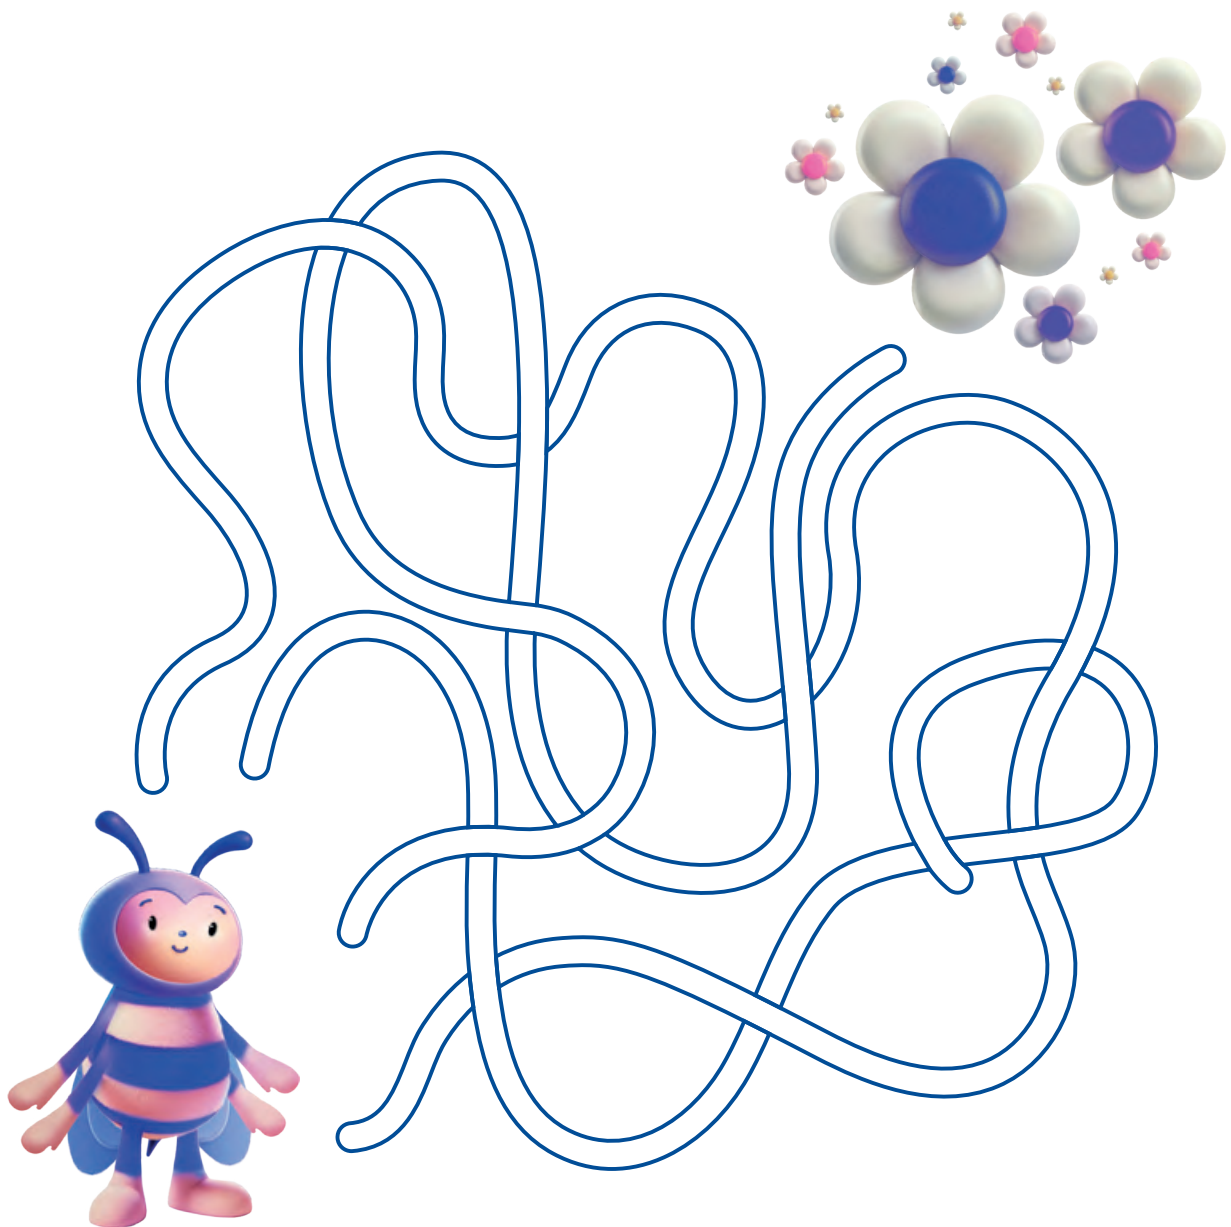

learning and always work together.

We're hiding somewhere on these pages!
Can you find us?

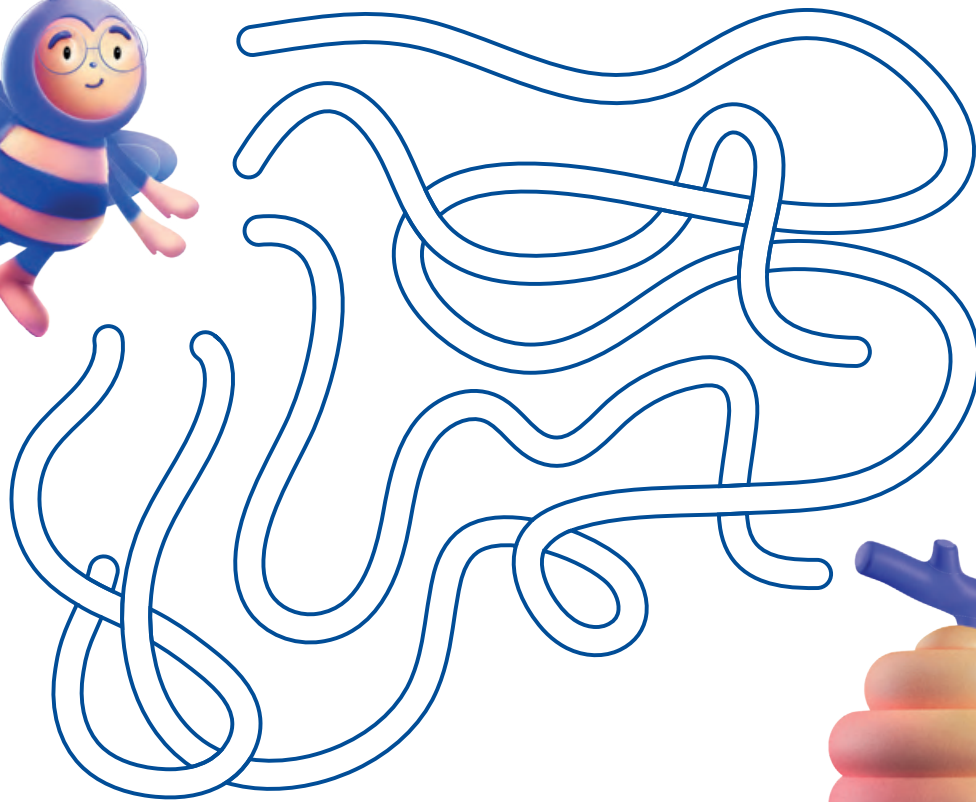

Far away flowers

We've spotted the best flowers, but they're quite far away from home, can you help us get to them?

Back to the hive!

We've flown so far to get pollen from the best flowers, can you get us back home to our hive?

Do you know Beien an der Stad?

Go on a walking trail where
you can learn all about
bees and their natural
habitat right here in
Luxembourg
City!

Pages 4-5

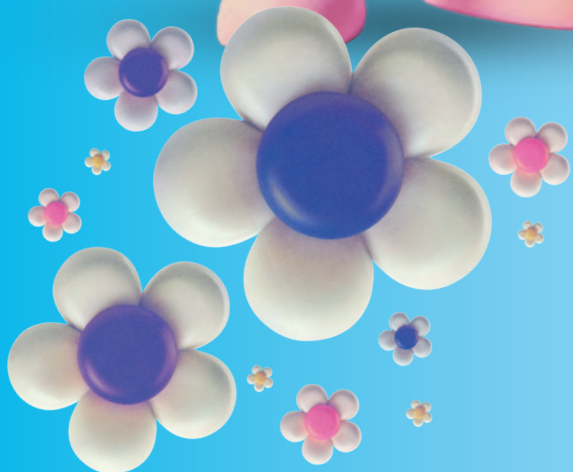

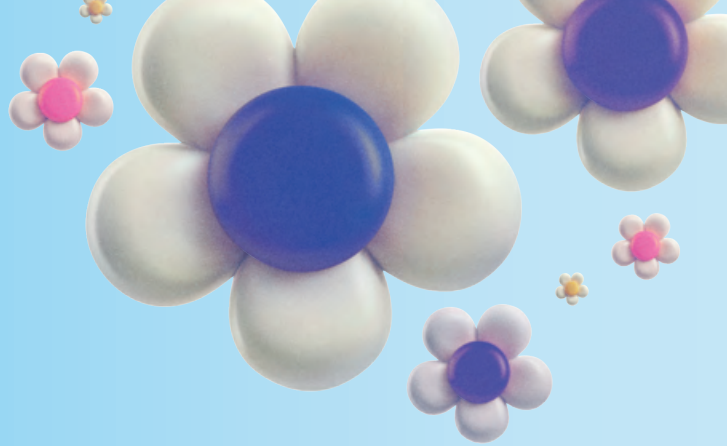

The illustration shows two cartoon bees on a light blue background. The bee on the left is standing and facing forward, while the bee on the right is in a running or jumping pose, also facing forward. Both bees have blue and white striped bodies, white wings, and blue antennae. A dashed line outlines the path of the bee on the right. There are five small blue flowers with white centers at the bottom. Several pink circles are drawn around specific parts of the bees and flowers, indicating where to cut. A dashed line also connects the two bees, suggesting a cut line.

We do the
right thing, act
bravely, keep
learning and
always work
together.

Everything works better
when we work together.

Be kind to each other and
team up like bees do!
