

KPMG Startup Campus Monaco

Respond to new needs: the "elevated" chartered accountant

At a time when the knowledge economy and new technologies are disrupting our industries and creating new needs - **our profession as a chartered accountant** is evolving and adapting to its new clients.

Very often, our clients think of us as "private" financial regulators who request invoices and statements every month, but let's be honest, **we are much more than that!**

Affordable services

The Startup Campus KPMG Monaco is designed as a genuine **twelve-month incubation program** that enables each selected startup to:

Benefit from a permanent **technical follow-up** in our fields of competence, and ad hoc responses to your weekly questions;

Benefit from our presence on investors' boards and to accompany them in their **fundraising**;

Obtain **exceptional discounted missions** in close collaboration with our network;

Engage in a fee-based relationship on a **fixed monthly discounted rent** on the one hand and **performance-based fees** on the other hand (financial success or fundraising - to be defined with the startup);

Have access to the **KPMG Monaco and KPMG Global networks**, and to be introduced to our partners in the countries where we have offices;

And soon... Benefit from an **accounting 2.0** that will be a real management tool for the startup within our Accounting Department with our **Next Generation** model.

In detail: create a listening and customer service

The Startup Campus KPMG Monaco is designed for **high-potential entrepreneurs** on whom the Firm is betting and investing its expertise and teams.

Because our **expertise** is valuable and sought after, we have the opportunity to help startups make the right choices - and avoid the pitfalls!

The startup applies for our incubation program and specifies which **KPMG services** it wants to use **first**.

Once « incubated », the startup will be able to benefit from **workshops** and **work sessions** with our teams on many topics well known in the field of accounting:

- ✓ Financial reporting;
- ✓ Review and layout of the business plan;
- ✓ Constructive criticism of the business model;
- ✓ Legal, regulatory and social obligations;
- ✓ VAT.

An expanding project
