KPMG ESG Symposium: Adopting IFRS S1 & S2 (Re-run)

The integration of Environmental, Social, and Governance (ESG) factors into financial reporting and business strategy has become crucial for organizations seeking long-term sustainable growth. While many larger companies have adopted some form of sustainability reporting to meet stakeholder expectations, the variety of frameworks (e.g. TCFD, SASB, GRI) has led to inconsistencies, making it difficult for investors to compare sustainability performance across industries.

Join us for KPMG in Malaysia's 2nd ESG Symposium as we explore the latest developments in global and local sustainability reporting standards – from ISSB's IFRS S1 & S2 to Malaysia's National Sustainability Reporting Framework (NSRF) and Bursa Malaysia's updated listing requirements.

Why attend

The ESG landscape is evolving. With IFRS S1 and S2 setting a global baseline for sustainability-related disclosures, Malaysia's phased adoption of the NSRF makes understanding these standards essential for businesses looking to stay ahead of the curve.

This landmark initiative has prompted significant changes in the Malaysian market, as Bursa Malaysia has updated its listing rules to incorporate the NSRF, ensuring that publicly listed companies meet the global standards for ESG disclosures.

Participation fee

RM1,600 per person

Early bird rate: **RM1,120** per person
Register by 17 November and save 30%

Fee includes 8% Service Tax, participant materials, coffee breaks and lunch.

CPE

A digital certificate of attendance will be issued for **14 CPE** hours.

Why business need to pay attention:

IFRS S1 and S2 are not just compliance tools – they help organizations strengthen transparency and resilience. Here's how they support businesses in navigating the sustainability reporting landscape:

1

Improve reporting consistency: By establishing a global baseline, IFRS S1 and S2 help companies present sustainability and climate-related risks in a consistent and comparable way. These standards align with existing frameworks like the Task Force on Climate-related Financial Disclosures (TCFD) and the Sustainability Accounting Standards Board (SASB), bridging the gaps across industries.

3

Clarify financial impact of sustainability and climate risks: Sustainability risks often go underreported in financial disclosures. IFRS S1 addresses this by requiring companies to explain how material sustainability risks impact financials, while IFRS S2 focuses on climate risks and their financial implications.

2

Encourage forward-looking insights: Traditional reports focus on historical data, but sustainability risks – such as climate change or biodiversity loss – evolve over time. IFRS S1 and S2 push for disclosures on future strategies and risk management – especially through climate scenario analysis – helping businesses and investors assess long-term risks.

4

Strengthen risk management strategies: Many organizations face both physical and transition risks but lack a clear plan for addressing these challenges. IFRS S2 requires detailed disclosures on exposures and response, such as emissions reduction and adaptation planning.

If you need guidance on your business needs or bespoke consultations, please reach out to our team of professionals at www.kpmg.com.my/esg.

Speaker profiles

Phang Oy Cheng

Head of Sustainability Advisory
KPMG in Malaysia

Oy Cheng currently leads KPMG's ESG and Sustainability Advisory Services in Malaysia, where she helps clients explore and implement ESG solutions for a sustainable and responsible future.

With over 30 years of experience in sustainability consulting, she has supported public listed companies in developing and enhancing ESG programs aligned with global standards such as the GRI, DJSI, FTSE4Good, TCFD, and CDP. She is currently focused on the implementation of IFRS sustainability standards for companies in Malaysia. She has worked across all sectors including finance, oil and gas, petrochemicals, plantations, and general manufacturing, among others.

Koh Ree Nie

Partner – ESG Assurance
KPMG in Malaysia

Ree Nie is the ESG Assurance Lead at KPMG in Malaysia and has led many audit and ESG assurance engagements in various industries such as manufacturing, plantations, property development and construction, hospitality, and oil and gas.

In her current role, Ree Nie specializes in providing third-party assurance to enhance the credibility of ESG disclosures. She helps organizations align sustainability-related risks and opportunities with their financial reporting, ensuring transparency and accountability. Drawing from extensive experience across various sectors, she delivers customized insights that support meaningful and measurable ESG progress.

Irene Lee

Executive Director – Accounting Advisory
Service
KPMG in Malaysia

Irene is the Executive Director in KPMG Accounting Advisory Services. With deep expertise across a range of complex financial reporting areas, she has supported clients on accounting and payroll outsourcing, Malaysian Financial Reporting Standards (MFRS) transitions, data cleansing and reconciliation, policy updates, and finance system implementation.

She has also extended her expertise into ESG advisory services, with a focus on performing gap assessments, data collection and evaluating financial impacts in response to the requirements of the ISSB sustainability disclosures. Her multidisciplinary perspective ensures that clients are well-supported in integrating ESG requirements into their financial and operational frameworks.

Liu Chai Hong

Director – Sustainability Advisory
KPMG in Malaysia

As a Director in KPMG's Sustainability Advisory Services, Chai Hong brings extensive experience in sustainability advisory, reporting, and assurance engagements for both national and multinational companies. She specializes in ESG-related due diligence, with a focus on Environmental Due Diligence Audits, Environment, Health and Safety (EHS) Compliance Audits, and Human Rights Audits.

Chai Hong's expertise spans across various industries, helping clients integrate sustainable practices and enhance their ESG performance while ensuring compliance with local and international standards.

Speaker profiles

Lee Jian Qin

Director – Accounting Advisory Services
KPMG in Malaysia

Jian Qin is a Director in KPMG's Accounting Advisory Services, bringing over 10 years of experience in statutory financial reporting. She is well-versed in MFRS accounting changes and implementation, accounting reporting processes, data cleansing, reconciliation, and system implementation.

Jian Qin has expanded her expertise into ESG Advisory Services, with a focus on conducting gap assessments, data collection, and evaluating financial impacts in response to the ISSB sustainability disclosure requirements. Her work helps organizations better align their financial and sustainability reporting, ensuring greater transparency and compliance with global standards.

Chong Li Kin

Director – Audit
KPMG in Malaysia

LiKin is a Director in KPMG's Audit. In addition to her audit expertise, Li Kin is focused on sustainability reporting standards, particularly the ISSB's IFRS S1 on sustainability-related financial disclosures and IFRS S2 on climate-related disclosures. She is also a certified GRI sustainability professional, helping organizations enhance transparency in their ESG reporting.

Seah Zhu Yeang

Associate Director – Sustainability Advisory
KPMG in Malaysia

With extensive experience in sustainability and Environmental, Social, and Governance (ESG) consulting, Zhu Yeang is an Associate Director in KPMG's Sustainability Advisory Services. She has led and supported engagements for a wide range of companies, focusing on the development of integrated and sustainability reporting, facilitation of stakeholder engagements and materiality assessments, sustainability assurance, and risk management integration.

Zhu Yeang is also experienced in conducting ESG diagnostic gap assessments and developing actionable recommendation plans. In addition, she leads sustainability training sessions to help organizations integrate sustainable practices across their operations.

Valli Suppramaniam

Executive Director –
FRM
KPMG in Malaysia

Mah Yi Qian

Associate Director –
FRM
KPMG in Malaysia

Valli is an Executive Director in Financial Risk Management practice.
