

MBRS Training Services

Conducted by KPMG, the Master Developer of the MBRS Taxonomy for Financial Statements

kpmg.com.my/mbrs

All registered companies in Malaysia must prepare to submit their signed and audited Financial Statements in eXtensible Business Reporting Language (XBRL) format, in compliance to Malaysian Business Reporting System (MBRS) requirements.

As of March 2019, implementation of Annual Returns, Certificate for Exempt Private Company (EPC) and Unaudited Financial Statements on MBRS have been made compulsory to all companies nationwide. We anticipate that submission of Financial Statements will be made mandatory.

The onus is on each company's directors to submit their annual financial statements digitally to SSM through the MBRS portal (mPortal). This puts the pressure on companies to invest in engaging qualified professionals to convert their signed and audited financial statements into XBRL format accurately, reflecting all requirements by SSM.

KPMG's expertise in MBRS

Since 2017, KPMG has been working with Suruhanjaya Syarikat Malaysia (SSM) to map the implementation of the Malaysian Business Reporting System (MBRS) in Malaysia. KPMG is the:

- Master Developer of MBRS Taxonomy, Training and User Reference Guides on Financial Statements.
- Master Trainer to train SSM's Training Service Providers on MBRS for Preparers - Financial Statements Module.
- Experienced Trainer to conduct nationwide trainings on MBRS for Preparers - Financial Statements Module to the public.

Whether you're exploring to prepare your finance teams to match compliance requirements **or** deciding to outsource your MBRS worries to KPMG, our experienced team of professionals is ready to help you through a smooth transition to meet MBRS requirements with minimal disruption to your operations.

Get trained by the experts

KPMG's MBRS training sessions are especially **designed for company secretarial and finance personnel who are tasked with the responsibilities of preparing and submitting MBRS Financial Statements.**

These sessions are aimed at providing these accelerated learning outcomes:
