Overview

Investors are demanding more relevant information and transparency in the presentation of companies' financial statements. They also want greater comparability between financial statements and more consistency in how particular financial measures are communicated.

MFRS 18 Presentation and Disclosure in Financial Statements seeks to respond to these demands by requiring a more structured financial statements presentation and disaggregation of information.

This program is designed to provide participants with the impacts and requirements of MFRS 18 as issued by the Malaysian Accounting Standards Board ("MASB").

Further to the previous session held in August, we are organizing two additional runs in November to accommodate additional requests. Don't miss this opportunity to join an engaging full-day program with KPMG in Malaysia, featuring exclusive insights and expert discussions on MFRS 18.
