

Statement on the effectiveness of the System of Quality Management of KPMG in Malaysia as of 30 September 2024

As required by the International Auditing and Assurance Standards Board (IAASB)'s, International Standard on Quality Management, ISQM 1, *Quality Management for Firms that Perform Audits or Reviews of Financial Statements, or other Assurance or Related Services Engagements, Malaysian Approved Standard on Quality Management, ISQM 1, Quality Management for Firms that Perform Audits or Reviews of Financial Statements, or Other Assurance or Related Services Engagements* and KPMG International Limited Policy, KPMG in Malaysia (the "Firm") has responsibility to design, implement and operate a System of Quality Management for audits or reviews of financial statements, or other assurance or related services engagements performed by the Firm. The objectives of the System of Quality Management are to provide the Firm with reasonable assurance that:

- a) The Firm and its personnel fulfill their responsibilities in accordance with professional standards and applicable legal and regulatory requirements, and conduct engagements in accordance with such standards and requirements; and
- b) Engagement reports issued by the Firm or engagement partners are appropriate in the circumstances.

KPMG in Malaysia outlines how its System of Quality Management supports the consistent performance of quality engagements in the KPMG in Malaysia Transparency Report 2023.

Integrated quality monitoring and compliance programs enable KPMG in Malaysia to identify and respond to findings and quality deficiencies both in respect of individual engagements and the overall System of Quality Management.

If deficiencies are identified when KPMG in Malaysia performs its annual evaluation of the System of Quality Management, KPMG in Malaysia evaluates the severity and pervasiveness of the identified deficiencies by investigating the root causes, and by evaluating the effect of the identified deficiencies individually and in the aggregate, on the System of Quality Management, with consideration of remedial actions taken as of the date of the evaluation.

Based on the annual evaluation of the Firm's System of Quality Management as of 30 September 2024, the System of Quality Management provides the Firm with reasonable assurance that the objectives of the System of Quality Management are being achieved.

Datuk Johan Idris
Managing Partner, KPMG in Malaysia
