

# Mō te iwi It's about people

MAKING HEALTH AND SAFETY WORK

**SafePlus is the Government-endorsed health and safety performance improvement initiative.**

It comprises three tools:

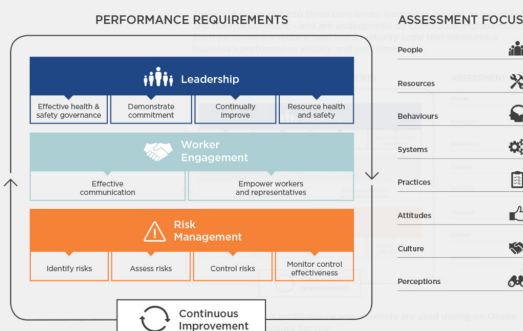

1. Onsite assessment
2. Online self-assessment
3. Advice and guidance.

SafePlus outlines good practice expectations that enable assessors and businesses to rate current performance and provide suggestions for improvement. The goal is that together we build towards a future of better, safer and healthier work.

For more information go to <https://www.worksafe.govt.nz/managing-health-and-safety/businesses/safeplus/>

**We specialise in SafePlus onsite assessments.  
We can also support you with the online self-assessment.**
