

# Strengthening health, safety and wellbeing

**Strong leadership and engaged people are vital for an organisation to achieve positive health, safety and wellbeing (HSW) outcomes. We provide you with the right advice and support to help you get there – and stay there.**

## We can help you strengthen your HSW practices and performance by:

### Conducting an assessment or review

- Gain an understanding of the current state of your HSW performance.
- Map current performance against established expectations and benchmarks.
- Highlight areas of strength and weakness.
- Get insight on how to lift performance and drive improvement.

We carry out SafePlus onsite assessments, gap analyses based on AS/NZS ISO45001 and customised reviews of specific HSW aspects, such as governance, contracting relationships, management of critical risks and worker engagement.

### Co-developing frameworks and processes

- Streamline policies and procedures.
- Reduce 'safety clutter' and increase the mahi.
- Meet legislative and organisational obligations.
- Enhance good decision-making.

### Providing training and advice

- Workshops and interactive sessions for senior leaders, managers and health and safety representatives.
- Education and knowledge-building on a range of topics, including due diligence, critical risks, risk assessments, reporting formats and learning reviews.

## Our KPMG team

- We have a team of specialist health and safety consultants with wide-ranging and comprehensive experience of health and safety legislation, current practice, and system review and evaluation methodologies.
- We can draw on colleagues from around the KPMG network to provide high levels of engagement, service and expertise.
- We employ accredited SafePlus assessors.
- We are members of HASANZ, NZISM and the IIA NZ and work to their codes of ethics and professional standards.
