

Human resource organizations need improved insight and enhanced technology capabilities to deliver strategic business value. Low cost is not enough; HR executives are challenged with delivery of expanded business services to drive competitive differentiation and market leadership and the need for rapid access to the latest human capital analytics data to drive smart decisions and increase ROI.

KPMG and Workday: Accelerating business value

As a leading provider of human capital management (HCM) services, KPMG LLP (KPMG) draws upon our extensive industry knowledge and deep domain experience to help clients develop a transformative enterprise based on cloud application strategies that help enable a sustainable competitive advantage.

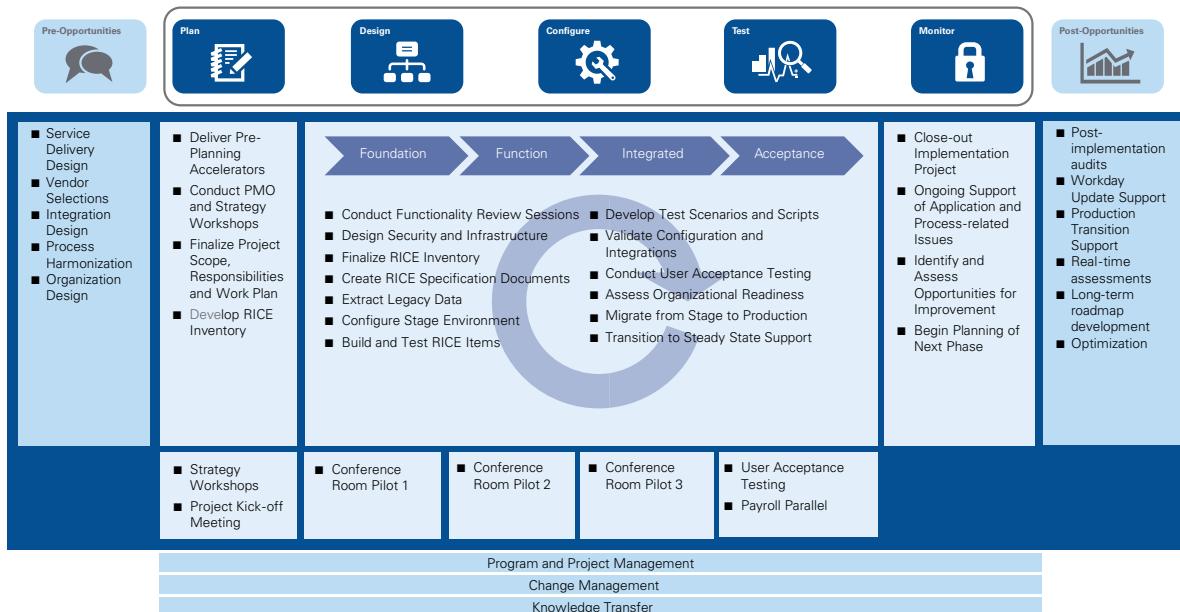

Workday, a leader in enterprise-class, Software-as-a-Service (SaaS) solutions for managing global businesses, enables the agile enterprise with an innovative approach to business applications providing unified HCM solutions designed for today's dynamic and global organizations.

Together, KPMG services and Workday human capital solutions accelerate business innovation and agility in global organizations to help clients:

- Streamline and strengthen their HR processes
- Drive operational effectiveness
- Enable organizations to achieve greater agility
- Reduce costs and accelerate time to value

KPMG's RapidSolutionSM methodology delivers the latest Workday solutions efficiently, while enabling clients to achieve value and return on their investments. Our quality-driven approach simplifies the adoption process and enables organizations to more quickly realize the benefits of a Workday solution.

KPMG's RapidSolution methodology

The KPMG Advantage

- Accelerators and repeatable methodologies enable rapid process improvement, simplification, and enhanced agility. KPMG's industry-recognized RapidSolutionsSM approach extends Workday's core methodology for program and change management
