

cutting through complexity

KPMG IN MALAYSIA

Wonderful Malaysia Berhad 2013

Illustrative Financial Statements for
Malaysian Financial Reporting Standards

September 2013

kpmg.com/my

Foreword

I hereby present to you **Wonderful Malaysia Berhad 2013**, the KPMG in Malaysia's Illustrative Financial Statements for Malaysian Financial Reporting Standards (MFRS).

Due to the need to reflect the substance of relationships between entities and also the need for consistency, transparency and comparability in the accounting and disclosure of such relationship, the International Accounting Standards Board (IASB) issued three new standards which are effective from 1 January 2013. There are substantial changes in the disclosure requirements of interest in other entities, such as non-wholly own subsidiaries with material non-controlling interest, associates, joint ventures and structured entities. In addition to that, the new fair value measurement standard which is applicable for financial and non-financial items is also effective from 1 January 2013.

At KPMG in Malaysia, we are committed to guiding our clients through the various changes in financial reporting. Accordingly, our Wonderful Malaysia Berhad 2013 reflects the latest amendments to the accounting standards and will act as a reference as you prepare your annual financial statements.

As trusted advisors, we aim to cut through the complexity that characterises today's reporting requirements. It is our hope that you will find this publication an insightful reference, particularly when facing new disclosures effective this year.

Johan Idris

About this publication

This set of Illustrative Financial Statements has been produced by KPMG in Malaysia and the views expressed herein are those of KPMG in Malaysia.

Content

The purpose of this publication is to assist entities in Malaysia which are currently preparing their financial statements in accordance with Malaysian Financial Reporting Standards ("MFRSs"). It illustrates one possible format for full financial statements, based on a fictitious multi-national corporation involved in general business and adopting MFRSs as its primary basis of accounting for the financial year ending 31 December 2013. The corporation is not a first-time adopter of MFRS.

What's new?

This set of illustrative financial statements takes account of the impact of the following new or revised MFRS, which are effective for the first time for an annual reporting period ending on 31 December 2013:

- Amendments to MFRS 7, *Financial Instruments: Disclosures - Offsetting Financial Assets and Financial Liabilities*
- MFRS 10, *Consolidated Financial Statements*
- MFRS 11, *Joint Arrangements*
- MFRS 12, *Disclosure of Interests in Other Entities*
- MFRS 13, *Fair Value Measurement*
- MFRS 119, *Employee Benefits (2011)*

Major changes since the previous edition of this publication are highlighted by a double line running down the left margin of the text in this publication.

Standards covered

This publication reflects MFRSs in issue at 1 September 2013 that are required to be applied by an entity with an annual period beginning on 1 January 2013 (currently effective requirements).

This publication does not illustrate the requirements of all MFRSs. Examples of MFRSs not illustrated include MFRS 4 *Insurance Contracts*, MFRS 6 *Exploration for and Evaluation of Mineral Resources*, MFRS 126 *Accounting and Reporting by Retirement Benefit Plans* or MFRS 134 *Interim Financial Reporting*.

This publication also reflects the disclosure requirements of the Companies Act, 1965. However, it does not reflect the current Listing Requirements of Bursa Malaysia Securities Berhad and the requirements of the Malaysian Code on Corporate Governance 2012 issued by the Securities Commission in Malaysia on 29 March 2012.

While this publication is up to date at the time of printing, MFRSs and their interpretations change over time. Accordingly, this Illustrative Financial Statements should not be used as a substitute for referring to the standards and interpretations themselves, particularly when a specific requirement is not addressed in this publication or when there is uncertainty regarding the correct interpretation of a MFRS.

About this publication (continued)

Choice of accounting policies

The accounting policies disclosed in the Illustrative Financial Statements reflect the facts and circumstances of the fictitious entity on which these financial statements are based. They should not be relied upon for a complete understanding of the requirements of MFRSs and should not be used as a substitute for referring to the standards and interpretations themselves. The accounting policy disclosures appropriate for an entity depend on the facts and circumstances of that entity and may differ from the disclosures presented in these Illustrative Financial Statements.

MFRSs and IFRSs

MFRSs are issued by the MASB and are equivalent or fully comply with the IFRSs issued by the IASB. These terms may be used interchangeably in this publication and have equivalent requirements.

Reporting date

A number of terms are used, either in MFRS or in practice, to describe the end of an entity's financial year, including 'reporting date', 'end of the reporting period', 'statement of financial position date', 'year end' and 'financial year end'. Generally, these terms are used interchangeably and have the same meaning.

References and abbreviations

The Illustrative Financial Statements is presented on the odd-numbered pages of this publication. The even-numbered pages contain explanatory comments and notes on disclosure requirements. The explanatory comments are not intended to be an exhaustive commentary. To the left of each item disclosed, a reference to the relevant standard is provided. For example, the reference 101.11 means paragraph 11 of MFRS 101. Generally the references relate only to disclosure requirements.

The following abbreviations are used for the purpose of referencing:

Bursa Dir	Directive issued by Bursa Malaysia Securities Berhad
Bursa Malaysia	Bursa Malaysia Securities Berhad
CCM	Companies Commission of Malaysia or Suruhanjaya Syarikat Malaysia

Reference **Directors' Report**
S169(5)-(13) **For the year ended 31 December 2013**

S169(5) The Directors have pleasure in submitting their report and the audited financial statements of the Group and of the Company for the financial year ended 31 December 2013.

S169(6)(b) **Principal activities**

The Company is principally engaged in investment holding activities, whilst the principal activities of the subsidiaries are as stated in note 6 to the financial statements. There has been no significant change in the nature of these activities during the financial year.

S169(6)(c) **Results**

	Group	Company
<i>In thousands of RM</i>		
Profit for the year attributable to:		
Owners of the Company	67,380	4,960
Non-controlling interests	3,760	-
	<u>71,140</u>	<u>4,960</u>

S169(6)(d) **Reserves and provisions**

There were no material transfers to or from reserves and provisions during the financial year under review except as disclosed in the financial statements.

S169(6)(h) **Dividends**

Since the end of the previous financial year, the Company paid:

- i) a final preference dividend of 7.88 sen per non-redeemable preference share totalling RM4,140,000 in respect of the financial year ended 31 December 2012 on 28 February 2013;
- ii) a final ordinary dividend of 7.80 sen per ordinary share less tax at 25% totalling RM5,450,000 (5.85 sen net per ordinary share) in respect of the financial year ended 31 December 2012 on 28 February 2013; and
- iii) an interim ordinary dividend of 4.00 sen per ordinary share less tax at 25% totalling RM2,840,000 (3.00 sen net per ordinary share) in respect of the financial year ended 31 December 2013 on 28 September 2013.

The final preference and ordinary dividends recommended by the Directors in respect of the financial year ended 31 December 2013 is 7.80 sen per non-redeemable preference share and 9.60 sen per ordinary share respectively totalling RM4,095,000 and RM9,070,000 respectively.

S169(6)(a) **Directors of the Company**

Directors who served since the date of the last report are:

Tan Sri Dato' Haji Ghazali bin Musa
Tan Sri Sebastian Chan Guan Vui
Datuk Seri Mokhtar bin Haji Abdul Rahim
Datuk James Balasingam Dorai
Datuk Stefano Ding How Beng
Enrique Mak Hen Sen
Syed Firdaus bin Syed Kechil

Reference **Directors' Report (continued)**
For the year ended 31 December 2013**Directors' interests in shares**S169(6)(g),
S169(6)(f)(ii)

The interests and deemed interests in the shares and options over shares of the Company and of its related corporations (other than wholly-owned subsidiaries) of those who were Directors at financial year end (including the interests of the spouses or children of the Directors who themselves are not Directors of the Company) as recorded in the Register of Directors' Shareholdings are as follows:

	Number of ordinary shares of RM1 each		
	At 1 January 2013	Bought	At 31 December 2013
Interests in the holding company:			
Datuk Seri Mokhtar bin Haji Abdul Rahim			
- own	1,500,000	-	1,500,000
- <i>others</i>	XXX	XXX	XXX
Enrique Mak Hen Sen			
- own	1,000,000	-	1,000,000
- <i>others</i>	XXX	XXX	XXX
Deemed interests in the Company:			
Datuk Seri Mokhtar bin Haji Abdul Rahim			
- own	48,000,000	-	48,000,000
Enrique Mak Hen Sen			
- own	48,000,000	-	48,000,000
Deemed interests in Windmill N.V.:			
Tan Sri Sebastian Chan Guan Vui			
- own	50,000	-	50,000

	Number of options over ordinary shares of RM1 each		
	At 1 January 2013	Granted	At 31 December 2013
Interests in the Company:			
Datuk Seri Mokhtar bin Haji Abdul Rahim			
- own	50,000	10,000	55,000
Enrique Mak Hen Sen			
- own	15,000	5,000	20,000

By virtue of their interests in the shares of the Company, Datuk Seri Mokhtar bin Haji Abdul Rahim and Enrique Mak Hen Sen are also deemed interested in the shares of the subsidiaries during the financial year to the extent that Wonderful Malaysia Berhad has an interest.

None of the other Directors holding office at 31 December 2013 had any interest in the shares and options over shares of the Company and of its related corporations during the financial year.

Reference **Directors' Report (continued)**
For the year ended 31 December 2013

Directors' benefits

S169(8) Since the end of the previous financial year, no Director of the Company has received nor become entitled to receive any benefit (other than a benefit included in the aggregate amount of emoluments received or due and receivable by Directors as shown in the financial statements or the fixed salary of a full time employee of the Company or of related corporations) by reason of a contract made by the Company or a related corporation with the Director or with a firm of which the Director is a member, or with a company in which the Director has a substantial financial interest *other than certain Directors who have significant financial interests in companies which traded with certain companies in the Group in the ordinary course of business.*

S169(6)(f)(i) There were no arrangements during and at the end of the financial year which had the object of enabling Directors of the Company to acquire benefits by means of the acquisition of shares in or debentures of the Company or any other body corporate apart from the issue of the Employees Share Option Scheme.

Issue of shares and debentures

S169(6)(e) During the financial year, the Company issued:

- a) 1,395,000 new ordinary shares of RM1 each at RM11.11 per ordinary share via a private placement to eligible investors for a total cash consideration of RM15.5 million to fund the Company's investment in a subsidiary.
- b) 50,000 new ordinary shares of RM1 each for cash arising from the exercise of employees' share options at a weighted average exercise price of RM10 per ordinary share.
- c) 20,000,000 redeemable preference shares of RM1 each at RM1 per redeemable preference share for a total cash consideration of RM20,000,000 for working capital purposes.

There were no other changes in the authorised, issued and paid-up capital of the Company during the financial year.

During the financial year, the Company issued 50,000,000 convertible notes for a total cash consideration of RM50,000,000. The convertible notes are convertible into 2,500,000 ordinary shares of RM1 each in June 2017 at the option of the holder, which is at a rate of one (1) ordinary share of RM1 each for every twenty (20) convertible notes held; unconverted notes become repayable on demand.

Options granted over unissued shares

S169(11) No options were granted to any person to take up unissued shares of the Company during the financial year apart from the issue of options pursuant to the Employees Share Option Scheme ("ESOS").

At an extraordinary general meeting held on 1 October 2007, the Company's shareholders approved the establishment of an ESOS of not more than 10% of the issued share capital of the Company or 10,000,000 new ordinary shares, whichever is higher, to eligible Directors and employees of the Group.

Reference **Directors' Report (continued)**
For the year ended 31 December 2013

Options granted over unissued shares (continued)

If the option to take up shares of the entity has not been conferred generally on all the holders of a class of shares or debentures of the entity, S169(11) and (13) require the name of the person to whom the option has been granted during the year to be disclosed, unless a waiver is obtained from the CCM.

The salient features of the ESOS scheme are, *inter alia*, as follows:

- i) Eligible executives are those executives (including full-time executive directors) of the Group who have been confirmed in service on the date of the offer. The maximum allowable allotments for the full-time executive directors have been approved by the shareholders of the Company in a general meeting.
- ii) The aggregate number of shares to be issued under the ESOS shall not be more than 10% of the issued share capital of the Company or 10,000,000 new ordinary shares, whichever is higher.
- iii) The Scheme shall be in force for a period of ten (10) years from the first grant date.
- iv) The option price shall not be at a discount of more than 10% (or such discount as the relevant authorities shall permit) from the 5-day weighted average market price of the shares of the Company preceding the date of offer and shall in no event be less than the par value of the shares of the Company of RM1.
- v) An option holder may, in a particular year, exercise up to such maximum number of shares in the option certificate or as determined by the Board of Directors.
- vi) The option granted to eligible executives will lapse when they are no longer in employment with the Group.

The options offered to take up unissued ordinary shares of RM1 each and the exercise prices are as follows:

Date of offer	Exercise price	Number of options over ordinary shares of RM1 each				At 31 December 2013
		At 1 January 2013	Granted	Exercised	Forfeited	
1 January 2008	RM9.00	4,000,000	-	50,000	300,000	3,650,000
1 January 2012	RM9.50	2,000,000	-	-	200,000	1,800,000
1 January 2013	RM12.00	-	2,000,000	-	-	2,000,000
		6,000,000	2,000,000	50,000	500,000	7,450,000

S169(11), S169(A) The Company has been granted exemption by the Companies Commission of Malaysia from having to disclose in this report the names of persons to whom options have been granted during the financial year and details of their holdings as required by Section 169(11) of the Companies Act, 1965. This information has been separately filed with the Companies Commission of Malaysia.

Reference **Directors' Report (continued)**
For the year ended 31 December 2013

Other statutory information

Before the financial statements of the Group and of the Company were made out, the Directors took reasonable steps to ascertain that:

- S169(6)(i) i) all known bad debts have been written off and adequate provision made for doubtful debts, and
- S169(6)(k) ii) any current assets which were unlikely to be realised in the ordinary course of business have been written down to an amount which they might be expected so to realise.

At the date of this report, the Directors are not aware of any circumstances:

- S169(6)(j) i) that would render the amount written off for bad debts or the amount of the provision for doubtful debts in the Group and in the Company inadequate to any substantial extent, or
- S169(6)(l)(i) ii) that would render the value attributed to the current assets in the financial statements of the Group and of the Company misleading, or
- S169(6)(l)(ii) iii) which have arisen which render adherence to the existing method of valuation of assets or liabilities of the Group and of the Company misleading or inappropriate, or
- S169(6)(o) iv) not otherwise dealt with in this report or the financial statements that would render any amount stated in the financial statements of the Group and of the Company misleading.

At the date of this report, there does not exist:

- S169(6)(m)(i) i) any charge on the assets of the Group or of the Company that has arisen since the end of the financial year and which secures the liabilities of any other person, or
- S169(6)(m)(ii) ii) any contingent liability in respect of the Group or of the Company that has arisen since the end of the financial year.

S169(6)(n) No contingent liability or other liability of any company in the Group has become enforceable, or is likely to become enforceable within the period of twelve months after the end of the financial year which, in the opinion of the Directors, will or may substantially affect the ability of the Group and of the Company to meet their obligations as and when they fall due.

S169(6)(p) In the opinion of the Directors, except for those disclosed in the financial statements, the financial
S169(7) performance of the Group and of the Company for the financial year ended 31 December 2013 have not been substantially affected by any item, transaction or event of a material and unusual nature nor has any such item, transaction or event occurred in the interval between the end of that financial year and the date
S169(6)(q) of this report.

Note	Reference	Explanatory note
------	-----------	------------------

1.	101.10, 40A, 40B, 40C, 40D	<p>A third statement of financial position as at the beginning of the preceding period is required only if a retrospective change in accounting policy, a retrospective correction of an error or a reclassification has a material effect on the information in the statement of financial position.</p> <p>Except for the disclosures required under MFRS 108, notes related to the third statement of financial position are no longer required.</p> <p>The third statement of financial position to be presented is at the beginning of the preceding period, rather than at the beginning of the earliest comparative period presented. This is also the case even if an entity provides additional comparative information beyond the minimum comparative information requirements.</p>
	101.10	In these illustrative financial statements, the titles of the statements are consistent with the titles used in MFRS 101. However, these terms are not mandatory and different titles are permitted.
	101.45	<p>The presentation and classification of items in the financial statements is retained from one period to the next unless:</p> <ul style="list-style-type: none"> • changes are required by a new standard or interpretation; or • it is apparent, following a significant change to an entity's operations or a review of its financial statements, that another presentation or classification would be more appropriate. In this case, the entity also considers the criteria for the selection and application of accounting policies in MFRS 108, <i>Accounting Policies, Changes in Accounting Estimates and Errors</i>.

2.	101.55, 58	Additional line items, headings and subtotals are presented separately in the statement of financial position when such presentation is relevant to an understanding of the entity's financial position. The judgement used is based on an assessment of the nature and liquidity of the assets, the function of assets within the entity, as well as the amounts, nature and timing of liabilities.
	101.57	MFRS 101 does not prescribe the order or format in which an entity presents items. Additional line items are included when the size, nature or function of an item or aggregation of similar items is such that separate presentation is relevant to an understanding of the entity's financial position and the descriptions used, and the ordering of items or aggregation of similar items may be amended according to the nature of the entity and its transactions to provide information that is relevant to an understanding of an entity's financial position. As a minimum, the line items required by MFRS 101.54 shall be presented on the face of the statement of financial position.
	101.32	An entity shall not offset assets and liabilities or income and expenses, unless required or permitted by a MFRS.

3.	101.60, 61	In these illustrative financial statements we have presented current and non-current assets, and current and non-current liabilities as separate classifications in the statement of financial position. An entity may present its assets and liabilities broadly in order of liquidity if such presentation provides reliable and more relevant information. Whichever method of presentation is adopted, for each asset and liability line item that combines amounts expected to be recovered or settled within (1) no more than 12 months after the end of the reporting period, and (2) more than 12 months after the end of the reporting period, an entity discloses in the notes the amount expected to be recovered or settled after more than 12 months.
----	------------	--

4.	101.56	When current and non-current classification is used in the statement of financial position, do not classify deferred tax assets (liabilities) as current assets (liabilities).
----	--------	--

5.	101.54(n), 112.71	An entity offsets current tax assets and current tax liabilities only if it has a legally enforceable right to set off the recognised amounts and intends to realise the asset and settle the liability on a net basis or simultaneously. An entity treats deferred tax assets and deferred tax liabilities in the same manner.

Note	Reference	Explanatory note
------	-----------	------------------

6.	5.38	An entity presents a non-current asset classified as held for sale and the assets of a disposal group classified as held for sale separately from other assets in the statement of financial position. The liabilities of a disposal group classified as held for sale is presented separately from other liabilities in the statement of financial position. Those assets and liabilities shall not be offset and are presented as a single amount.
	5.40	Comparatives are not restated to reflect classification as held for sale at the current reporting period.
	101.66	In our view, non-current assets, assets of disposal groups and liabilities of disposal groups classified as held for sale or distribution are classified as current in the statement of financial position as they are expected to be realised within 12 months of the date of classification as held for sale or distribution. Consequently, the presentation of a “three column statement of financial position” with the headings of “Assets/Liabilities not for sale”, “Assets/Liabilities held for sale” and “Total” generally would not be appropriate if the assets and liabilities held for sale or distribution continue to be included in non-current line items.

101.25	When the financial statements are not prepared on a going concern basis, disclose: (a) the fact that the financial statements are not prepared on a going concern basis; (b) the basis on which the financial statements are prepared; and (c) the reason why the entity is not considered to be a going concern.
--------	--

101.36	When an entity changes its reporting date and presents financial statements for a period longer or shorter than one year, an entity discloses, in addition to the period covered by the financial statements: (a) the reason for using a longer or shorter period; and (b) the fact that comparative amounts presented in the financial statements are not entirely comparable.
--------	---

The notes on pages 37 to 233 are an integral part of these financial statements.

Note Reference **Explanatory note**

1.	101.82A	An entity presents line items for amounts of other comprehensive income in the period, classified by nature (including share of the other comprehensive come of associates and joint ventures accounted for using the equity method) and grouped separately the items of other comprehensive income that would be reclassified to profit or loss in the future from those that would never be reclassified to profit or loss. Consequently, an entity that presents items of other comprehensive income before related tax effects would also have to allocate the aggregated tax amount between these sections.
	101.10	An entity is still allowed to use other titles for the statement of profit and loss and other comprehensive income.
2.	101.10A	An entity may present a single statement of profit or loss and other comprehensive income, with profit or loss and other comprehensive income presented in two sections. The sections are presented together, with the profit or loss section presented first followed directly by the other comprehensive income section. An entity may present the profit or loss section in a separate statement of profit or loss. If so, the separate statement of profit or loss immediately precedes the statement presenting comprehensive income, which begins with profit or loss. Appendix 1 provides an illustration of the two-statement approach.
	101.88	An entity recognises all items of income and expense in a period in profit or loss unless a MFRS requires or permits otherwise.
	101.99	An entity presents an analysis of expenses based on function or nature. In these illustrative financial statements, this analysis is based on functions within the entity. Individual material items are classified in accordance with their nature or function, consistent with the classification of items that are not material individually.
	101.104	Where expenses are disclosed by function, the nature of expenses, including depreciation and amortisation charges and employee benefits expense also needs to be disclosed in the notes to the financial statements.
3.	101.87	No items of income and expense may be presented as “extraordinary”. The nature and amounts of material items are disclosed as a separate line item in the statement of profit or loss and other comprehensive income or in the notes.
	101.85	An entity presents additional line items, headings and subtotals when this is relevant to an understanding of its financial performance.
4.		MFRSs do not specify whether revenue can be presented only as a single line item in the statement of profit or loss and other comprehensive income, or whether an entity also may include the individual components of revenue in the statement of profit or loss and other comprehensive income, with a subtotal for revenue from continuing operations. In these illustrative financial statements we have presented revenue as one line item and the individual component of revenue are disclosed in the notes to the financial statements.
5.	5.37	Any gain or loss on the remeasurement of a non-current asset (or disposal group) classified as held for sale that does not meet the definition of a discontinued operations is included in profit or loss from continuing operations.
6.	IC 17.14, 15	When an entity settles the dividend payable, it recognises the difference, if any, between the carrying amount of the assets distributed and the carrying amount of the dividend payable in profit or loss. An entity presents this difference as a separate line item in profit or loss.

Note	Reference	Explanatory note
------	-----------	------------------

7.	5.33(b)	An entity discloses revenue, expenses, and the pre-tax profit or loss from discontinued operations; income tax on the profit or loss from discontinued operations; the gain or loss on the disposal or measurement to fair value less cost to sell; and income tax on that gain or loss. In this publication, we have illustrated this analysis in the notes. An entity also may present this analysis in the statement of profit or loss and other comprehensive income, in a section identified as relating to discontinued operations. For example, a columnar format presenting the results from continuing and discontinued operations in separate columns is acceptable. This analysis is not required for disposal groups that are newly acquired subsidiaries that meet the criteria to be classified as held for sale on acquisition in paragraph 11 of MFRS 5.
	5.34	Unlike the statement of financial position, the comparative figures for discontinued operations would be restated to include information for all operations that have been discontinued by the end of the reporting period for the latest period presented.
8.	101.82A	The other comprehensive income section presents line items for amounts of other comprehensive income in the period, classified by nature (including share of the other comprehensive income of associates and joint ventures accounted for using the equity method) and grouped into those that, in accordance with other MFRSs: <ul style="list-style-type: none"> • will not be reclassified subsequently to profit or loss; and • will be reclassified subsequently to profit or loss when specific conditions are met.
	5.38	An entity presents separately any cumulative income or expense recognised in other comprehensive income relating to a non-current asset (or disposal group) classified as held for sale.
9.	133.2	An entity is required to present earnings per share if its ordinary shares or potential ordinary shares are publicly traded, or if it is in the process of issuing ordinary shares or potential ordinary shares in public securities markets.
	133.4	If an entity chooses to disclose earnings per share information in its separate financial statements, then it presents such earnings per share information only in its statement of profit or loss and other comprehensive income and not in the consolidated financial statements.
	133.67, 69	If basic and diluted earnings per share are equal, dual presentation can be accomplished in one line in the statement of profit or loss and other comprehensive income. An entity presents basic and diluted earnings per share, even if the amounts are negative (i.e. a loss per share).
	133.66	An entity presents in the statement of profit or loss and other comprehensive income basic and diluted earnings per share for: <ul style="list-style-type: none"> • profit or loss from continuing operations attributable to the ordinary shareholders of the parent entity; and • profit or loss attributable to the ordinary shareholders of the parent entity for the period for each class of ordinary shares that has a different right to share in profit for the period.
	133.68	An entity that reports a discontinued operation discloses the basic and diluted amounts per share for the discontinued operation either in the statement of profit or loss and other comprehensive income or in the notes.
	133.73	If an entity discloses, in addition to basic and diluted earnings per share, amounts per share using a reported component of the statement of profit or loss and other comprehensive income other than one required by MFRS 133, then basic and diluted amounts per share relating to such a component shall be disclosed with equal prominence and presented in the notes. An entity discloses the basis on which the numerator is determined, including whether amounts per share are before tax or after tax.
10.	101.94	An entity may present reclassification adjustments directly in the statement of profit or loss and other comprehensive income or in the notes. This analysis is based on presentation directly in the statement of profit or loss and comprehensive income.

The notes on pages 37 to 233 are an integral part of these financial statements.

Note	Reference	Explanatory note
------	-----------	------------------

1.	101.80	An entity without share capital (e.g. a partnership or trust) discloses information equivalent to that required for other entities, showing changes during the period in each category of equity interest and the rights, preferences and restrictions attaching to each category of equity interest.
2.	101.106A	An entity presents either in the statement of changes in equity or in the notes an analysis of other comprehensive income by item for each component of equity in accordance with MFRS 101.106A. In these illustrative financial statements, we have presented the analysis of other comprehensive income by item in the statement of changes in equity.
3.		Entities in Malaysia refer to section 67A of the Companies Act, 1965 and MASB TR 1 (revised), <i>Share Buybacks – Accounting and Disclosure</i> on purchases of own shares.
	TR 1.21	When a public listed company repurchases its own shares, the shares repurchased shall be accounted for either under the treasury stock method, the share retirement method, or a combination of both methods.
	TR 1.23	Where the share retirement method is applied, the nominal value of the shares repurchased shall be cancelled by a debit to the share capital account. An amount equivalent to the nominal value of the shares repurchased shall be transferred to a capital redemption reserve.
	TR 1.24	The consideration, including any acquisition cost and premium or discount arising from the shares repurchased, shall be adjusted directly to the share premium account or any other suitable reserve. In the circumstance where there is no or insufficient share premium, the consideration, or its balance thereof, shall be adjusted to any other suitable reserve.
	TR 1.25	The shares cancelled and the adjustments made to share premium or reserves shall be shown as a movement in the share capital account and the share premium or reserve account respectively.
	TR 1.28	Where the treasury stock method is applied, the shares repurchased and held as treasury shares shall be measured and carried at the cost of repurchase on initial recognition and subsequently. It shall not be revalued for subsequent changes in the fair value or market price of the shares.
	TR 1.29	On presentation in the statement of financial position, the carrying amount of the treasury shares shall be offset against equity. The amount of outstanding shares in issue after the setoff shall be disclosed. To the extent that the carrying amount of the treasury shares exceeds the share premium account, it shall be considered as a reduction of any other reserves as may be permitted by Bursa's Listing Requirements and that fact shall be disclosed.
	132.33	An entity presents own shares purchased as a deduction from equity. Consideration received when own shares held are reissued is presented as a change in equity, and no gain or loss is recognised.
4.		MFRS 2, <i>Share-based Payment</i> does not address specifically how share-based payment transactions are presented within equity, e.g. whether an increase in equity in connection with a share-based payment transaction is presented in a separate line item within equity or within retained earnings. In our view, either approach would be allowed under MFRSs.

The notes on pages 37 to 233 are an integral part of these financial statements.

Note	Reference	Explanatory note
1.	107.18	In these illustrative financial statements, we have presented cash flows from operating activities using the indirect method whereby the profit or loss for the period is adjusted for the effects of non-cash transactions, accruals and deferrals, and items of income or expense associated with investing or financing cash flows. An entity also may present operating cash flows using the direct method, disclosing major classes of gross cash receipts and payments related to operating activities. Appendix 2 of this publication illustrates a statement of cash flows prepared under the direct method.
	107.43	An entity discloses investing and financing transactions that are excluded from the statement of cash flows where they do not require the use of cash or cash equivalents in a way that provides all relevant information about these activities.
	107.50(c)	An entity is encouraged, but not required, to disclose the aggregate amount of cash flows that represent increases in operating capacity separately from the cash flows that are required to maintain operating capacity.
2.	107.16(h)	An entity presents receipts from future, forward, option and swap contracts as part of either investing or financing activities, provided that they are not held for dealing or trading purposes in which case they should be presented as part of the operating activities. However, when a contract is accounted for as a hedge of an identifiable position, as in this fictitious company, the cash flows of the contracts are classified in the same manner as the cash flows of the positions being hedged. For example, cash flows arising from an interest rate swap entered into to hedge a bond issued is classified as financing activity.
3.	107.21	An entity discloses separately major classes of gross cash receipts and gross cash payments arising from investing and financing activities, except to the extent that the cash flows are reported on a net basis.
	107.22	Cash flows from operating, investing or financing activities may be reported on a net basis if the cash receipts and payments are on behalf of customers when the cash flows reflect the activities of the customer or when the cash receipts and payments for items concerned turnover quickly, the amounts are large, and the maturities are short.
4.	107.18, 20, IE A	For an entity that elects to present operating cash flows using the indirect method, often there is confusion about the correct starting point: should it be profit or loss, (i.e. the final figure in the statement of profit or loss and other comprehensive income), or can a different figure, such as profit before tax, be used? MFRS 107, <i>Statement of Cash Flows</i> , refers to profit or loss, but the example provided in the appendix to the standard starts with a different figure (i.e. profit before taxation). Both approaches have been seen in practice.
5.	107.31	MFRSs do not specify the classification of cash flows from interest and dividends received and paid. An entity is required to choose its own policy for classifying interest and dividends paid as either operating or financing activities, and interest and dividends received as either operating or investing activities, depending on the nature of the interest and dividends received or paid. The presentation selected is applied consistently.

Note	Reference	Explanatory note
------	-----------	------------------

6.		In our view, to the extent that borrowing costs are capitalised in respect of qualifying assets, the cost of acquiring those assets which would include borrowing costs should be split in the statement of cash flows. In such circumstances, the interest paid will be included in operating or financing activities depending on the entity's accounting policy for presenting interest paid in the statement of cash flows. This is consistent with the requirement to classify separately the different components of a single transaction.
7.	107.35	Taxes paid are classified as operating activities unless it is practicable to identify them with, and therefore classify them as financing or investing activities.
8.		In our view, in the consolidated financial statements transaction costs associated with a business combination, although ancillary to the assets acquired, are classified as operating activities since the transaction costs are not capitalised.
9.	107.39	In these illustrative financial statements, we have presented statements of cash flows that include an analysis of all cash flows in total, i.e. including both continuing and discontinued operations. Amounts related to discontinued operations by operating, investing and financing activities are disclosed in the notes (see note 25). However, in our view there are numerous ways in which cash flows from discontinued operations may be presented. This issue is discussed in our publication <i>Insights into IFRS</i> .
10.	107.8	Bank overdrafts that are repayable on demand and form an integral part of an entity's cash management are included as a component of cash and cash equivalents.

			15,010	15,680	14,980	11,490

Acquisition of property, plant and equipment

107.43, 44, 9Sch2(1)(i)(v) During the financial year, the Group acquired property, plant and equipment with an aggregate cost of RM158,510,000 (2012: RM14,880,000), of which RM10,000,000 (2012: Nil) were acquired by means of finance leases.

The notes on pages 37 to 233 are an integral part of these financial statements.

Note Reference **Explanatory note**

1.	101.7	The notes to the financial statements includes narrative descriptions or break-downs of amounts disclosed in the primary statements. They also include information about items that do not qualify for recognition in the financial statements.
	101.17(c)	Provide additional disclosures when compliance with the specific requirements in MFRSs is insufficient to enable users to understand the impact of particular transactions, other events and conditions on the entity's financial position and financial performance.
	101.21	When an entity has departed from a requirement of a MFRS in a prior period, and that departure affects the amounts recognised in the financial statements for the current period, it makes the disclosures set out in paragraph 20(c) and (d) of MFRS 101.
2.	101.36	<p>When the entity changes its end of reporting period and annual financial statements are presented for a period longer or shorter than one year, an entity discloses the reason for the change and the fact that comparative amounts presented are not entirely comparable.</p> <p>In this and other cases an entity may wish to present <i>pro forma</i> information that is not required by MFRSs, for example <i>pro forma</i> comparative financial statements prepared as if the change in the end of the reporting period were effective for all periods presented.</p>
3.	101.138(c), 124.13	An entity discloses the name of its parent and ultimate controlling party if different. It also discloses the name of its ultimate parent if not disclosed elsewhere in information published with the financial statements. In our view, the <i>ultimate parent</i> and the <i>ultimate controlling party</i> are not necessarily synonymous. This is because the definition of parent refers to an entity. Accordingly, an entity may have an ultimate parent and an ultimate controlling party. Therefore if the ultimate controlling party in the entity is an individual or a group of individuals, then the entity discloses the identity of that individual or the group of individuals and that relationship.
4.	110.17	An entity discloses the date that the financial report was authorised for issue and who gave that authorisation. If the entity's owners or others have the power to amend the financial statements after their issue, then an entity discloses the fact.
5.	101.16	An entity whose financial statements comply with MFRSs shall make an explicit and unreserved statement of such compliance in the notes. An entity shall not describe financial statements as complying with MFRSs unless they comply with all the requirements of MFRSs.
	101.16AA	Financial statements that have been prepared in accordance with MFRSs shall make an explicit and unreserved statement of compliance with IFRSs.
6.	101.19, 20, 23	In extremely rare circumstances in which management concludes that compliance with a requirement of a standard or an interpretation would be so misleading that it would conflict with the objective of financial statement set out in the Framework for the Preparation and Presentation of Financial Statements, an entity may depart from the requirement if the relevant regulatory framework requires or otherwise does not prohibit such a departure. Extensive disclosures are required in these circumstances.
7.	108.30	<p>When an entity has not applied a new MFRS that has been issued, but is not yet effective, disclose:</p> <p>(a) that fact; and</p> <p>(b) known or reasonably estimable information relevant to assessing the possible impact that the application of the new MFRS will have on the entity's financial statements in the period of initial application.</p>

Reference Notes to the financial statements¹

101.10(e), 138(a), 51(a) Wonderful Malaysia Berhad is a public limited liability company, incorporated and domiciled in Malaysia and is listed on the Main Market of Bursa Malaysia Securities Berhad. The addresses of the principal place of business and registered office of the Company are as follows:

Principal place of business

Wisma Extremely Wonderful
Jalan Hartamas
50490 Kuala Lumpur, Malaysia

Registered office

Wisma Wonderful
1505, Jalan Bintang Sinar
46200 Petaling Jaya
Selangor, Malaysia

101.51(b), (c) The consolidated financial statements of the Company as at and for the financial year ended 31 December 2013² comprise the Company and its subsidiaries (together referred to as the “Group” and individually referred to as “Group entities”) and the Group’s interest in associates and joint ventures. The financial statements of the Company as at and for the financial year ended 31 December 2013 also include joint operations.

101.138(b) The Company is principally engaged in investment holding activities while the other Group entities are primarily involved in the manufacture and sale of paper and paper products.

101.138(c), 124.13, S169(10) The immediate and ultimate holding companies during the financial year were Very Wonderful Company Sendirian Berhad and Extremely Wonderful Company Sendirian Berhad respectively. Both companies were incorporated in Malaysia. The ultimate controlling party of the Group is Datuk Seri Mokhtar bin Haji Abdul Rahim who is the controlling shareholder of the ultimate holding company.³

110.17 These financial statements were authorised for issue by the Board of Directors on 24 February 2014.⁴

101.112(a) 1. Basis of preparation

101.114(a) (a) Statement of compliance^{5, 6}

101.16 The financial statements of the Group and the Company have been prepared in accordance with Malaysian Financial Reporting Standards (“MFRSs”), International Financial Reporting Standards and the Companies Act, 1965 in Malaysia.

108.30 The following are accounting standards, amendments and interpretations of the MFRS framework that have been issued by the Malaysian Accounting Standards Board (“MASB”) but have not been adopted by the Group and the Company:⁷

MFRSs, Interpretations and amendments effective for annual periods beginning on or after 1 January 2014

- Amendments to MFRS 10, *Consolidated Financial Statements: Investment Entities*
- Amendments to MFRS 12, *Disclosure of Interest in Other Entities: Investment Entities*
- Amendments to MFRS 127, *Separate Financial Statements (2011): Investment Entities*
- Amendments to MFRS 132, *Financial Instruments: Presentation – Offsetting Financial Assets and Financial Liabilities*
- Amendments to MFRS 136, *Impairment of Assets – Recoverable Amount Disclosures for Non-Financial Assets*
- Amendments to MFRS 139, *Financial Instruments: Recognition and Measurement – Novation of Derivatives and Continuation of Hedge Accounting*
- IC Interpretation 21, *Levies*

The Group and the Company plan to apply the above mentioned standards, amendments and interpretations from the annual period beginning on 1 January 2014.

Note Reference **Explanatory note**

1.	101.25, 110.16(b)	Where applicable, an entity discloses any material uncertainties related to events or conditions that may cast significant doubt upon the entity's ability to continue as a going concern, whether they arise during the period or after the end of the reporting period.
2.	121.53	If the financial statements are presented in a currency different from the parent entity's functional currency, then an entity discloses that fact, its functional currency, and the reason for using a different presentation currency.
	9Sch6(1)	For statutory financial statements presented in Malaysia, the presentation currency shall be in Ringgit Malaysia.
	121.54	If there is a change in the functional currency of either the entity or a significant foreign operation, then the entity discloses that fact together with the reason for the change.
3.	101.122	An entity discloses the judgements apart from those involving estimations, that management has made in the process of applying the entity's accounting policies and that have the most significant effect on the amounts recognised in the financial statements.
	101.125	An entity discloses the assumptions it makes about the future, and other major sources of estimation uncertainty at the end of the reporting period, that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next financial year.
		When a change in accounting policy is the result of the adoption of a new, revised or amended MFRS, an entity applies the specific transitional requirements in that MFRS. However, in our view an entity nonetheless should comply with the disclosure requirements of MFRS 108, <i>Accounting Policies, Changes in Accounting Estimates and Errors</i> to the extent that transitional requirements do not include disclosure requirements. Even though it could be argued that the disclosures are not required because they are set out in the MFRS 108 requirements for voluntary changes in accounting policy, we believe that they are necessary in order to give a fair presentation.

Note	Reference	Explanatory note
------	-----------	------------------

1.	101.10(f), 40A 108.28, 29	When a change in accounting policy, either voluntarily or as a result of the initial application of a standard, has an effect on the current period or any prior period, an entity discloses, among other things, the amount of the adjustment for each line item in the financial statement which is affected. A third statement of financial position as at the beginning of the preceding period is required only if a retrospective change in accounting policy has a material effect on the information in the statement of financial position.
	108.49	If any prior period errors are corrected in the current year's financial statements, then an entity discloses: <ul style="list-style-type: none"> (a) the nature of the prior period error; (b) to the extent practicable, the amount of the correction for each financial statement line item affected, and basic and diluted earnings per share for each prior period presented; (c) the amount of the correction at the beginning of the earliest prior period presented; and (d) if retrospective restatement is impracticable for a particular prior period, then the circumstances that led to the existence of that condition and a description of how and from when the error has been corrected.
2.	101.117(a), (b)	The summary of accounting policies describe the measurement bases used in preparing the financial statements and the significant accounting policies used that are relevant to an understanding of the financial statements.
3.	10.B87	Where necessary, adjustments are made to the financial statements of subsidiary to bring accounting policies in line with those used by other members of the group.

Reference	Notes to the financial statements
101.112(a), 117	<p>2. Significant accounting policies^{1, 2}</p> <p>The accounting policies set out below have been applied consistently to the periods presented in these financial statements and have been applied consistently by Group entities, unless otherwise stated.</p>
	<p>(a) Basis of consolidation</p>
10.6, 7, 20	<p>(i) Subsidiaries³</p> <p>Subsidiaries are entities, including structured entities, controlled by the Company. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.</p> <p>The Group adopted MFRS 10, <i>Consolidated Financial Statements</i> in the current financial year. This resulted in changes to the following policies:</p> <ul style="list-style-type: none"> Control exists when the Group is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. In the previous financial years, control exists when the Group has the ability to exercise its power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. Potential voting rights are considered when assessing control only when such rights are substantive. In the previous financial years, potential voting rights are considered when assessing control when such rights are presently exercisable. The Group considers it has <i>de facto</i> power over an investee when, despite not having the majority of voting rights, it has the current ability to direct the activities of the investee that significantly affect the investee's return. In the previous financial years, the Group did not consider <i>de facto</i> power in its assessment of control. <p>The change in accounting policy has been made retrospectively and in accordance with the transitional provision of MFRS 10. The adoption of MFRS 10 has no significant impact to the financial statements of the Group. <i>[The effects from the adoption of MFRS 10 are disclosed in note xx.]</i></p>
127.10, 17(c)	<p>Investments in subsidiaries are measured in the Company's statement of financial position at cost less any impairment losses, unless the investment is classified as held for sale or distribution. The cost of investments includes transaction costs.</p>
	<p>(ii) Business combinations</p> <p>Business combinations are accounted for using the acquisition method from the acquisition date, which is the date on which control is transferred to the Group.</p>
3.32	<p>For new acquisitions, the Group measures the cost of goodwill at the acquisition date as:</p> <ul style="list-style-type: none"> the fair value of the consideration transferred; plus the recognised amount of any non-controlling interests in the acquiree; plus if the business combination is achieved in stages, the fair value of the existing equity interest in the acquiree; less the net recognised amount (generally fair value) of the identifiable assets acquired and liabilities assumed.
3.34	<p>When the excess is negative, a bargain purchase gain is recognised immediately in profit or loss.</p> <p>For each business combination, the Group elects whether it measures the non-controlling interests in the acquiree either at fair value or at the proportionate share of the acquiree's identifiable net assets at the acquisition date.</p>
3.53	<p>Transaction costs, other than those associated with the issue of debt or equity securities, that the Group incurs in connection with a business combination are expensed as incurred.</p>

Note Reference **Explanatory note**

1. The accounting for common control transactions in the absence of specific guidance in MFRSs is discussed in our publication *Insights to IFRS*. This publication illustrates one possible method to account for common control transactions.

2. An associate may have accounting policies for items that are not applicable to the investor, for example when the investor's financial statements do not include line items in respect of an associate's financial statement items. If disclosure of the accounting policies of an associate is considered necessary for an understanding of income from associates, or the carrying amount of investments in associates in the statement of financial position, then in our view this information should be included in the accounting policy note regarding investments in associates.

MFRSs do not specify whether the elimination of unrealised gains and losses resulting from transactions with equity accounted investees is presented as a reduction of the investment in the associate or as a reduction in the underlying asset, e.g. inventory. In our view, either approach is acceptable.

Reference Notes to the financial statements

2. Significant accounting policies (continued)**(a) Basis of consolidation (continued)****(iii) Acquisitions of non-controlling interests**

10.23, B96

The Group treats all changes in its ownership interest in a subsidiary that do not result in a loss of control as equity transactions between the Group and its non-controlling interest holders. Any difference between the Group's share of net assets before and after the change, and any consideration received or paid, is adjusted to or against Group reserves.

Specimen: Acquisitions from entities under common controls¹

Business combinations arising from transfers of interests in entities that are under the control of the shareholder that controls the Group are accounted for as if the acquisition had occurred at the beginning of the earliest comparative period presented or, if later, at the date that common control was established; for this purpose comparatives are restated. The assets and liabilities acquired are recognised at the carrying amounts recognised previously in the Group controlling shareholder's consolidated financial statements. The components of equity of the acquired entities are added to the same components within Group equity and any resulting gain/loss is recognised directly in equity.

10.25, B98-
B99**(iv) Loss of control**

Upon the loss of control of a subsidiary, the Group derecognises the assets and liabilities of the former subsidiary, any non-controlling interests and the other components of equity related to the former subsidiary from the consolidated statement of financial position. Any surplus or deficit arising on the loss of control is recognised in profit or loss. If the Group retains any interest in the former subsidiary, then such interest is measured at fair value at the date that control is lost. Subsequently, it is accounted for as an equity accounted investee or as an available-for-sale financial asset depending on the level of influence retained.

128.3

(v) Associates²

Associates are entities, including unincorporated entities, in which the Group has significant influence, but not control, over the financial and operating policies.

128.10, 20,
35,
12.21(b)(i)

Investments in associates are accounted for in the consolidated financial statements using the equity method less any impairment losses, unless it is classified as held for sale or distribution. The cost of the investment includes transaction costs. The consolidated financial statements include the Group's share of the profit or loss and other comprehensive income of the associates, after adjustments if any, to align the accounting policies with those of the Group, from the date that significant influence commences until the date that significant influence ceases.

128.38, 39

When the Group's share of losses exceeds its interest in an associate, the carrying amount of that interest including any long-term investments is reduced to zero, and the recognition of further losses is discontinued except to the extent that the Group has an obligation or has made payments on behalf of the associate.

128.22

When the Group ceases to have significant influence over an associate, any retained interest in the former associate at the date when significant influence is lost is measured at fair value and this amount is regarded as the initial carrying amount of a financial asset. The difference between the fair value of any retained interest plus proceeds from the interest disposed of and the carrying amount of the investment at the date when equity method is discontinued is recognised in the profit or loss.

128.25

When the Group's interest in an associate decreases but does not result in a loss of significant influence, any retained interest is not re-measured. Any gain or loss arising from the decrease in interest is recognised in profit or loss. Any gains or losses previously recognised in other comprehensive income are also reclassified proportionately to the profit or loss if that gain or loss would be required to be reclassified to profit or loss on the disposal of the related assets or liabilities.

127.10, 17

Investments in associates are measured in the Company's statement of financial position at cost less any impairment losses, unless the investment is classified as held for sale or distribution. The cost of investments includes transaction costs.

Note Reference **Explanatory note**

1.	11.B34	When a group entity sells or contributes assets to a joint operation in which a group entity is a joint operator, the Group is considered conducting the transaction with other parties to the joint operation, profits and losses resulting from the transactions are recognised in the Group's consolidated financial statements only to the extent of the other parties' interests in the joint operation.
	11.B36	When a group entity purchases assets from a joint operation in which a group entity is a joint operator, the Group does not recognise its share of the gains and losses until it resells those assets to a third party.

Reference	Notes to the financial statements
	2. Significant accounting policies (continued)
	(a) Basis of consolidation (continued)
	(vi) Joint arrangements¹
11.4, 6, 15, 16, 20, 24	<p>Joint arrangements are arrangements of which the Group has joint control, established by contracts requiring unanimous consent for decisions about the activities that significantly affect the arrangements' returns.</p> <p>The Group adopted MFRS 11, <i>Joint Arrangements</i> in the current financial year. As a result, joint arrangements are classified and accounted for as follows:</p> <ul style="list-style-type: none"> • A joint arrangement is classified as "joint operation" when the Group or the Company has rights to the assets and obligations for the liabilities relating to an arrangement. The Group <i>and the Company</i> account for each of its share of the assets, liabilities and transactions, including its share of those held or incurred jointly with the other investors, in relation to the joint operation. • A joint arrangement is classified as "joint venture" when the Group has rights only to the net assets of the arrangements. The Group accounts for its interest in the joint venture using the equity method. <p>In the previous financial years, joint arrangements were classified and accounted for as follows:</p> <ul style="list-style-type: none"> • For jointly controlled entity, the Group accounted for its interest using the equity method. • For jointly controlled asset or jointly controlled operation, the Group <i>and the Company</i> accounted for each its share of the assets, liabilities and transactions, including its share of those held or incurred jointly with the other investors. <p>The change in accounting policy has been made retrospectively and in accordance with the transitional provision of MFRS 11. The adoption of MFRS 11 has no significant impact to the financial statements of the Group. <i>[The effects from the adoption of MFRS 11 are disclosed in note xx.]</i></p>
	(vii) Non-controlling interests
10.22	Non-controlling interests at the end of the reporting period, being the equity in a subsidiary not attributable directly or indirectly to the equity holders of the Company, are presented in the consolidated statement of financial position and statement of changes in equity within equity, separately from equity attributable to the owners of the Company. Non-controlling interests in the results of the Group is presented in the consolidated statement of profit or loss and other comprehensive income as an allocation of the profit or loss and the comprehensive income for the year between non-controlling interests and owners of the Company.
10.B94	Losses applicable to the non-controlling interests in a subsidiary are allocated to the non-controlling interests even if doing so causes the non-controlling interests to have a deficit balance.
	(viii) Transactions eliminated on consolidation
10.B86(c)	Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements.
128.28	Unrealised gains arising from transactions with equity-accounted associates and joint ventures are eliminated against the investment to the extent of the Group's interest in the investees. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

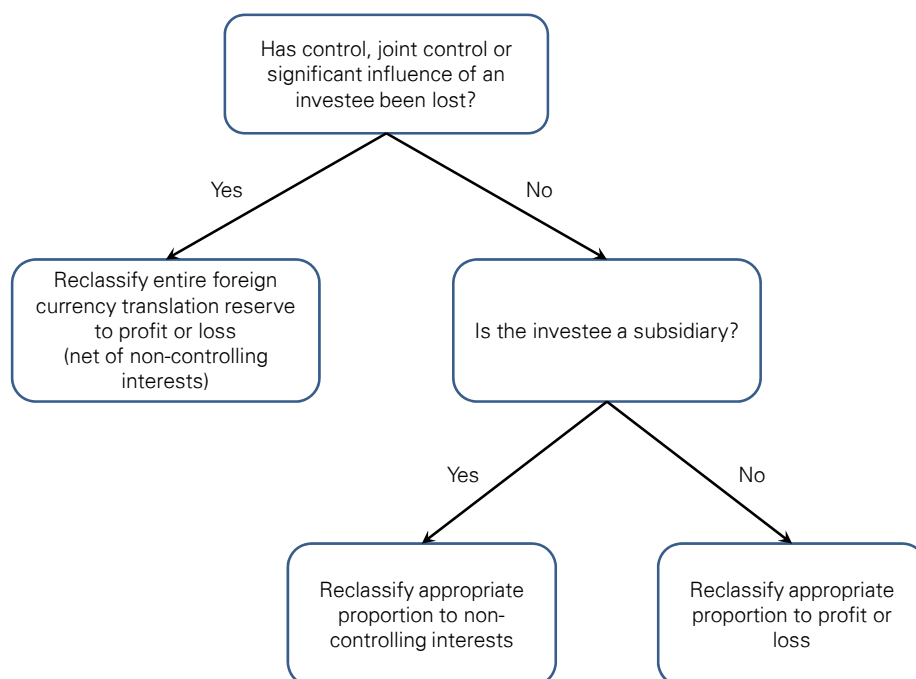

Note Reference Explanatory note

1. 1.C2 This statement is applicable for entity who applied MFRS 121 prospectively upon transition to the MFRS framework and not those who applied MFRS 121 retrospectively or retrospectively from a designated business combination date.

2. 129.8, 9 Financial statements of an entity operating in a hyperinflationary economy, whether based on a historical cost or current cost approach, are stated in terms of the measuring unit current at the end of the reporting period. The gain or loss on the net monetary position is recognised in profit or loss of the entity.

129.38 When an economy ceases to be hyperinflationary and an entity discontinues the preparation and presentation of financial statements prepared in accordance with MFRS 129, it shall treat the amounts expressed in the measuring unit current at the end of the previous reporting period as the basis for the carrying amounts in its subsequent financial statements.

3. The following decision tree outlines the principles that apply to reclassification of the foreign currency translation reserve on partial disposal of a foreign operation.

Reference Notes to the financial statements

2. Significant accounting policies (continued)

(b) Foreign currency

(i) Foreign currency transactions

121.21 Transactions in foreign currencies are translated to the respective functional currencies of Group entities at exchange rates at the dates of the transactions.

121.23(a) Monetary assets and liabilities denominated in foreign currencies at the end of the reporting period are retranslated to the functional currency at the exchange rate at that date.

121.23(b), (c) Non-monetary assets and liabilities denominated in foreign currencies are not retranslated at the end of the reporting date, except for those that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that the fair value was determined.

121.28 Foreign currency differences arising on retranslation are recognised in profit or loss, except for differences arising on the retranslation of available-for-sale equity instruments or a financial instrument designated as a hedge of currency risk, which are recognised in other comprehensive income.

(ii) Operations denominated in functional currencies other than Ringgit Malaysia

121.39, 47, 59 The assets and liabilities of operations denominated in functional currencies other than RM, including goodwill and fair value adjustments arising on acquisition, are translated to RM at exchange rates at the end of the reporting period, except for goodwill and fair value adjustments arising from business combinations before 1 January 2011 (the date when the Group first adopted MFRS) which are treated as assets and liabilities of the Company.¹ The income and expenses of foreign operations, excluding foreign operations in hyperinflationary economies, are translated to RM at exchange rates at the dates of the transactions.

121.42 *The income and expenses of foreign operations in hyperinflationary economies are translated to RM at the exchange rate at the end of the reporting period. Prior to translating the financial statements of foreign operations in hyperinflationary economies, their financial statements for the current period are restated to account for changes in the general purchasing power of the local currency. The restatement is based on relevant price indices at the end of the reporting period.²*

121.48 Foreign currency differences are recognised in other comprehensive income and accumulated in the foreign currency translation reserve ("FCTR") in equity. However, if the operation is a non-wholly-owned subsidiary, then the relevant proportionate share of the translation difference is allocated to the non-controlling interests. When a foreign operation is disposed of such that control, significant influence or joint control is lost, the cumulative amount in the FCTR related to that foreign operation is reclassified to profit or loss as part of the profit or loss on disposal.

121.48C When the Group disposes of only part of its interest in a subsidiary that includes a foreign operation, the relevant proportion of the cumulative amount is reattributed to non-controlling interests. When the Group disposes of only part of its investment in an associate or joint venture that includes a foreign operation while retaining significant influence or joint control, the relevant proportion of the cumulative amount is reclassified to profit or loss.³

121.15, 32 In the consolidated financial statements, when settlement of a monetary item receivable from or payable to a foreign operation is neither planned nor likely in the foreseeable future, foreign exchange gains and losses arising from such a monetary item are considered to form part of a net investment in a foreign operation and are recognised in other comprehensive income, and are presented in the FCTR in equity.

Reference	Notes to the financial statements
	2. Significant accounting policies (continued)
7.21, B5	(c) Financial instruments
139.14	(i) Initial recognition and measurement A financial asset or a financial liability is recognised in the statement of financial position when, and only when, the Group or the Company becomes a party to the contractual provisions of the instrument.
139.43	A financial instrument is recognised initially, at its fair value plus, in the case of a financial instrument not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of the financial instrument.
139.11	An embedded derivative is recognised separately from the host contract and accounted for as a derivative if, and only if, it is not closely related to the economic characteristics and risks of the host contract and the host contract is not categorised as fair value through profit or loss. The host contract, in the event an embedded derivative is recognised separately, is accounted for in accordance with policy applicable to the nature of the host contract.
	(ii) Financial instrument categories and subsequent measurement The Group and the Company categorise financial instruments as follows:
	Financial assets
139.9	(a) Financial assets at fair value through profit or loss Fair value through profit or loss category comprises financial assets that are held for trading, including derivatives (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument) or financial assets that are specifically designated into this category upon initial recognition.
139.46(c)	Derivatives that are linked to and must be settled by delivery of unquoted equity instruments whose fair values cannot be reliably measured are measured at cost.
139.46, 55(a)	Other financial assets categorised as fair value through profit or loss are subsequently measured at their fair values with the gain or loss recognised in profit or loss.
139.9	(b) Held-to-maturity investments Held-to-maturity investments category comprises debt instruments that are quoted in an active market and the Group or the Company has the positive intention and ability to hold them to maturity.
139.46(b)	Financial assets categorised as held-to-maturity investments are subsequently measured at amortised cost using the effective interest method.
139.9	(c) Loans and receivables Loans and receivables category comprises debt instruments that are not quoted in an active market.
139.46(a)	Financial assets categorised as loans and receivables are subsequently measured at amortised cost using the effective interest method.

This page has been left blank intentionally.

Reference	Notes to the financial statements
	2. Significant accounting policies (continued)
	(c) Financial instruments (continued)
	(ii) Financial instrument categories and subsequent measurement (continued)
	(d) Available-for-sale financial assets
139.9	Available-for-sale category comprises investment in equity and debt securities instruments that are not held for trading.
139.46(c) 139.46, 55(b)	Investments in equity instruments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured are measured at cost. Other financial assets categorised as available-for-sale are subsequently measured at their fair values with the gain or loss recognised in other comprehensive income, except for impairment losses, foreign exchange gains and losses arising from monetary items and gains and losses of hedged items attributable to hedge risks of fair value hedges which are recognised in profit or loss. On derecognition, the cumulative gain or loss recognised in other comprehensive income is reclassified from equity into profit or loss. Interest calculated for a debt instrument using the effective interest method is recognised in profit or loss.
139.89(b)	
139.58	All financial assets, except for those measured at fair value through profit or loss, are subject to review for impairment (see note 2(l)(i)).
	Financial liabilities
139.47(a)	All financial liabilities are subsequently measured at amortised cost other than those categorised as fair value through profit or loss.
139.9	Fair value through profit or loss category comprises financial liabilities that are derivatives (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument) or financial liabilities that are specifically designated into this category upon initial recognition.
139.47(a)	Derivatives that are linked to and must be settled by delivery of equity instruments that do not have a quoted price in an active market for identical instruments whose fair values otherwise cannot be reliably measured are measured at cost.
139.47	Other financial liabilities categorised as fair value through profit or loss are subsequently measured at their fair values with the gain or loss recognised in profit or loss.
	(iii) Financial guarantee contracts
139.9	A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument.
139.43, 47(c)	Fair value arising from financial guarantee contracts are classified as deferred income and is amortised to profit or loss using a straight-line method over the contractual period or, when there is no specified contractual period, recognised in profit or loss upon discharge of the guarantee. When settlement of a financial guarantee contract becomes probable, an estimate of the obligation is made. If the carrying value of the financial guarantee contract is lower than the obligation, the carrying value is adjusted to the obligation amount and accounted for as a provision.
	(iv) Regular way purchase or sale of financial assets
139.9	A regular way purchase or sale is a purchase or sale of a financial asset under a contract whose terms require delivery of the asset within the time frame established generally by regulation or convention in the marketplace concerned.
139.38, AG55	A regular way purchase or sale of financial assets is recognised and derecognised, as applicable, using trade date accounting. Trade date accounting refers to: (a) the recognition of an asset to be received and the liability to pay for it on the trade date, and (b) derecognition of an asset that is sold, recognition of any gain or loss on disposal and the recognition of a receivable from the buyer for payment on the trade date.

This page has been left blank intentionally.

Notes to the financial statements

2. Significant accounting policies (continued)**(c) Financial instruments (continued)****(v) Hedge accounting*****Fair value hedge***

139.86(a) A fair value hedge is a hedge of the exposure to changes in fair value of a recognised asset or liability or an unrecognised firm commitment, or an identified portion of such an asset, liability or firm commitment, that is attributable to a particular risk and could affect the profit or loss.

139.89 In a fair value hedge, the gain or loss from remeasuring the hedging instrument at fair value or the foreign currency component of its carrying amount translated at the exchange rate prevailing at the end of the reporting period is recognised in profit or loss. The gain or loss on the hedged item, except for hedge item categorised as available-for-sale, attributable to the hedged risk is adjusted to the carrying amount of the hedged item and recognised in profit or loss. For a hedge item categorised as available-for-sale, the fair value gain or loss attributable to the hedge risk is recognised in profit or loss.

139.91 Fair value hedge accounting is discontinued prospectively when the hedging instrument expires or is sold, terminated or exercised, the hedge is no longer highly effective or the hedge designation is revoked.

Cash flow hedge

139.86(b) A cash flow hedge is a hedge of the exposure to variability in cash flows that is attributable to a particular risk associated with a recognised asset or liability or a highly probable forecast transaction and could affect the profit or loss. In a cash flow hedge, the portion of the gain or loss on the hedging instrument that is determined to be an effective hedge is recognised in other comprehensive income and the ineffective portion is recognised in profit or loss.

139.95

139.97 Subsequently, the cumulative gain or loss recognised in other comprehensive income is reclassified from equity into profit or loss in the same period or periods during which the hedged forecast cash flows affect profit or loss. If the hedge item is a non-financial asset or liability, the associated gain or loss recognised in other comprehensive income is removed from equity and included in the initial amount of the asset or liability. However, loss recognised in other comprehensive income that will not be recovered in one or more future periods is reclassified from equity into profit or loss.

139.98(b)

139.101 Cash flow hedge accounting is discontinued prospectively when the hedging instrument expires or is sold, terminated or exercised, the hedge is no longer highly effective, the forecast transaction is no longer expected to occur or the hedge designation is revoked. If the hedge is for a forecast transaction, the cumulative gain or loss on the hedging instrument remains in equity until the forecast transaction occurs. When the forecast transaction is no longer expected to occur, any related cumulative gain or loss recognised in other comprehensive income on the hedging instrument is reclassified from equity into profit or loss.

Hedge of a net investment

139.102 A hedge of a net investment is a hedge in the interest of the net assets of a foreign operation. In a net investment hedge, the portion of the gain or loss on the hedging instrument that is determined to be an effective hedge is recognised in other comprehensive income and the ineffective portion is recognised in profit or loss. The cumulative gain or loss recognised in other comprehensive income is reclassified from equity into profit or loss on disposal of the foreign operation.

(vi) Derecognition

139.17, 20(a), 26 A financial asset or part of it is derecognised when, and only when the contractual rights to the cash flows from the financial asset expire or the financial asset is transferred to another party without retaining control or substantially all risks and rewards of the asset. On derecognition of a financial asset, the difference between the carrying amount and the sum of the consideration received (including any new asset obtained less any new liability assumed) and any cumulative gain or loss that had been recognised in equity is recognised in the profit or loss.

139.39, 41 A financial liability or a part of it is derecognised when, and only when, the obligation specified in the contract is discharged or cancelled or expires. On derecognition of a financial liability, the difference between the carrying amount of the financial liability extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

Note Reference **Explanatory note**

1.	116.51, 61	The depreciation method, residual value and useful lives of items of property, plant and equipment are reviewed at least at the end of each reporting period and revised if circumstances or expectations have changed significantly. Any change is accounted for as a change in accounting estimate by changing the depreciation charge for the current and future periods.
-----------	------------	--

Reference	Notes to the financial statements												
	2. Significant accounting policies (continued)												
	(d) Property, plant and equipment												
	(i) Recognition and measurement												
116.30, 73(a)	Items of property, plant and equipment are measured at cost less any accumulated depreciation and any accumulated impairment losses.												
116.15-20	<p>Cost includes expenditures that are directly attributable to the acquisition of the asset and any other costs directly attributable to bringing the asset to working condition for its intended use, and the costs of dismantling and removing the items and restoring the site on which they are located. The cost of self-constructed assets also includes the cost of materials and direct labour. For qualifying assets, borrowing costs are capitalised in accordance with the accounting policy on borrowing costs. Cost also may include transfers from equity of any gain or loss on qualifying cash flow hedges of foreign currency purchases of property, plant and equipment.</p> <p>Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.</p> <p>The cost of property, plant and equipment recognised as a result of a business combination is based on fair value at acquisition date. The fair value of property is the estimated amount for which a property could be exchanged between knowledgeable willing parties in an arm's length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion. The fair value of other items of plant and equipment is based on the quoted market prices for similar items when available and replacement cost when appropriate.</p>												
116.45	When significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.												
116.68, 71	The gain or loss on disposal of an item of property, plant and equipment is determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment and is recognised net within "other income" and "other expenses" respectively in profit or loss.												
	(ii) Subsequent costs												
116.7, 12	The cost of replacing a component of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the component will flow to the Group or the Company, and its cost can be measured reliably. The carrying amount of the replaced component is derecognised to profit or loss. The costs of the day-to-day servicing of property, plant and equipment are recognised in profit or loss as incurred.												
116.13													
	(iii) Depreciation												
116.6	Depreciation is based on the cost of an asset less its residual value. Significant components of individual assets are assessed, and if a component has a useful life that is different from the remainder of that asset, then that component is depreciated separately.												
116.73(b), (c), 55 9Sch2(1)(i)(vii)	<p>Depreciation is recognised in profit or loss on a straight-line basis over the estimated useful lives of each component of an item of property, plant and equipment. Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Group will obtain ownership by the end of the lease term. Freehold land is not depreciated. Property, plant and equipment under construction are not depreciated until the assets are ready for their intended use. The estimated useful lives for the current and comparative periods are as follows:</p> <table> <tr> <td>• leasehold land</td><td>90 - 999 years</td></tr> <tr> <td>• buildings</td><td>40 years</td></tr> <tr> <td>• plant and equipment</td><td>5 - 12 years</td></tr> <tr> <td>• fixtures and fittings</td><td>5 - 10 years</td></tr> <tr> <td>• major components</td><td>3 - 5 years</td></tr> <tr> <td>• <i>spare parts, stand-by equipment and servicing equipment</i></td><td><i>XX years</i></td></tr> </table>	• leasehold land	90 - 999 years	• buildings	40 years	• plant and equipment	5 - 12 years	• fixtures and fittings	5 - 10 years	• major components	3 - 5 years	• <i>spare parts, stand-by equipment and servicing equipment</i>	<i>XX years</i>
• leasehold land	90 - 999 years												
• buildings	40 years												
• plant and equipment	5 - 12 years												
• fixtures and fittings	5 - 10 years												
• major components	3 - 5 years												
• <i>spare parts, stand-by equipment and servicing equipment</i>	<i>XX years</i>												
116.51, 61	Depreciation methods, useful lives and residual values are reviewed at end of the reporting period, and adjusted as appropriate. ¹

1.	IC 127.10(b)	An entity discloses the accounting treatment applied to any fee received in an arrangement in the legal form of a lease to which lease accounting is not applied because the arrangement does not, in substance, involve a lease.
2.		MFRSs do not contain specific guidance on how to account for rent that was considered contingent at the inception of the lease but is confirmed subsequently.
3.	138.8	Development is the application of research findings or other knowledge to a plan or design for the production of new or substantially improved materials, devices, products, processes, systems or services prior to the commencement of commercial production or use.
	138.57	<p>Development costs are capitalised if all of the following features can be demonstrated:</p> <ul style="list-style-type: none"> • the technical feasibility of completing the asset so that it will be available for use or sale; • the intention to complete the intangible asset and use or sell it; • the ability to use or sell the intangible asset; • how the asset will generate future economic benefits; • the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset; and • the ability to measure the expenditure attributable to the asset during its development reliably.

Reference Notes to the financial statements

2. Significant accounting policies (continued)

(e) Leased assets¹

(i) Finance lease

117.8, 20 Leases in terms of which the Group or the Company assumes substantially all the risks and rewards of ownership are classified as finance leases. Upon initial recognition, the leased asset is measured at an amount equal to the lower of its fair value and the present value of the minimum lease payments. Subsequent to initial recognition, the asset is accounted for in accordance with the accounting policy applicable to that asset.

117.27

117.25 Minimum lease payments made under finance leases are apportioned between the finance expense and the reduction of the outstanding liability. The finance expense is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability. Contingent lease payments² are accounted for by revising the minimum lease payments over the remaining term of the lease when the lease adjustment is confirmed.

Leasehold land which in substance is a finance lease is classified as property, plant and equipment, or as investment property if held to earn rental income or for capital appreciation or for both.

(ii) Operating lease

117.8 Leases, where the Group or the Company does not assume substantially all the risks and rewards of ownership are classified as operating leases and, except for property interest held under operating lease, the leased assets are not recognised on the statement of financial position. Property interest held under an operating lease, which is held to earn rental income or for capital appreciation or both, is classified as investment property and measured using fair value model.

140.75(b)

117.33 Payments made under operating leases are recognised in profit or loss on a straight-line basis over the term of the lease. Lease incentives received are recognised in profit or loss as an integral part of the total lease expense, over the term of the lease. Contingent rentals are charged to profit or loss in the reporting period in which they are incurred.

IC 115.3

Leasehold land which in substance is an operating lease is classified as prepaid lease payments.

(f) Intangible assets

(i) Goodwill

128.23(a) Goodwill arises on business combinations is measured at cost less any accumulated impairment losses. In respect of equity-accounted associates, the carrying amount of goodwill is included in the carrying amount of the investment and an impairment loss on such an investment is not allocated to any asset, including goodwill, that forms part of the carrying amount of the equity accounted associates.

(ii) Research and development³

138.8, 54 Expenditure on research activities, undertaken with the prospect of gaining new scientific or technical knowledge and understanding, is recognised in profit or loss as incurred.

138.8, 57 Expenditure on development activities, whereby the application of research findings are applied to a plan or design for the production of new or substantially improved products and processes, is capitalised only if development costs can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable and the Group intends to and has sufficient resources to complete development and to use or sell the asset.

Note Reference **Explanatory note**

1.	138.69	<p>Recognition of advertising and promotional expenditure as an intangible asset is not permitted beyond the point at which the entity has the right to access the goods purchased, or in the case of services, the point at which the services are received.</p> <p>Mail order catalogues are considered to be a form of advertising and promotional activities.</p>
2.	138.71	<p>Expenditure on an intangible item that was recognised initially as an expense is not recognised subsequently as part of the cost of an intangible asset.</p>
	138.63, 69	<p>Internally generated brands, mastheads, publishing titles, customer lists and items similar in substance are not recognised as intangible assets. Start-up costs (unless capitalised as part of the cost of an item of property, plant and equipment) as well as expenditure on training activities, advertising and promotional activities, and relocation or reorganisation also are expensed as incurred.</p>
3.	138.88, 118(a), 97	<p>An entity assesses and discloses whether the useful life of an intangible asset is finite or indefinite. For intangible asset with definite useful life, amortisation begins when the asset is available for use (i.e. when it is in the location and condition necessary for it to be capable of operating in the manner intended by the management).</p>
	138.98	<p>A variety of amortisation methods can be used to allocate the depreciable amount of an asset on a systematic basis over its useful life. These methods include the straight-line method, the diminishing balance method and the unit of production method. The method used is selected on the basis of the expected pattern of consumption of the expected future economic benefits embodied in the asset and is applied consistently from period to period, unless there is a change in the expected pattern of consumption of those future economic benefits.</p>
	138.104, 107, 108	<p>Useful lives of intangible assets are reviewed at least at the end of each financial year and altered if estimates have changed significantly. Any change is accounted for by changing the amortisation charge prospectively. Intangible assets with an indefinite useful life is not amortised but is tested for impairment annually or more frequently if events or circumstances indicate that an asset might be impaired.</p>
	138.92, 107, 108	<p>Computer software and many other intangible assets are susceptible to technological obsolescence. It therefore is likely that their useful lives will be short. Trademarks and other intangible assets which were determined to have indefinite useful lives are not amortised. Such trademarks and other intangible assets with indefinite useful lives are tested for impairment annually or more frequently if events or circumstances indicate that an asset might be impaired.</p>
4.		<p>An entity discloses the nature and amount of a change in an accounting estimate arising from changes in the assessment of an intangible asset's useful life, the amortisation method or its residual value, that has a material effect in the current period or is expected to have a material effect in subsequent periods.</p>

	2. Significant accounting policies (continued)
	(f) Intangible assets (continued)
	(ii) Research and development (continued)
138.66	The expenditure capitalised includes the cost of materials, direct labour and overheads costs that are directly attributable to preparing the asset for its intended use. For qualifying assets, borrowing costs are capitalised in accordance with the accounting policy on borrowing costs. Other development expenditure is recognised in profit or loss as incurred.
138.74	Capitalised development expenditure is measured at cost less any accumulated amortisation and any accumulated impairment losses.
	(iii) Other intangible assets¹
138.74	Intangible assets, other than goodwill, that are acquired by the Group, which have finite useful lives, are measured at cost less any accumulated amortisation and any accumulated impairment losses.
	(iv) Subsequent expenditure²
138.20, 48, 63	Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognised in profit or loss as incurred.
	(v) Amortisation^{3, 4}
138.8	Amortisation is based on the cost of an asset less its residual value.
138.107, 108	Goodwill and intangible assets with indefinite useful lives are not amortised but are tested for impairment annually and whenever there is an indication that they may be impaired. Other intangible assets are amortised from the date that they are available for use.
138.118(b)	Amortisation is recognised in profit or loss on a straight-line basis over the estimated useful lives of intangible assets from the date that they are available for use.
138.118(a)	The estimated useful lives for the current and comparative periods are as follows: <ul style="list-style-type: none"> capitalised development costs 5 – 7 years patents and trademarks 10 – 20 years
138.104	Amortisation methods, useful lives and residual values are reviewed at the end of each reporting period and adjusted, if appropriate.

Note	Reference	Explanatory note
------	-----------	------------------

1.	140.75(c)	If the classification of property is difficult, then an entity discloses the criteria developed to distinguish investment property from owner-occupied property and from property held for sale in the ordinary course of business.
	140.6, 117.2	Investment property may be held by a lessee under a finance lease or provided by a lessor under an operating lease. A property held by a lessee under an operating lease also may be classified and accounted for as an investment property if it otherwise would meet the definition of an investment property and the lessee uses the fair value model for all its investment property.
2.	140.30	Investment property is accounted for either in accordance with the fair value model or the cost model. The model selected is applied to all investment properties (subject to exceptional cases when the entity adopts the fair value model, but is unable to determine reliably the fair value of certain property – see paragraphs 53 – 54 of MFRS 140, <i>Investment Property</i>).
	140.56, 79(a), (b), (e)	If an entity accounts for investment property using the cost model, then it discloses the depreciation method and the useful lives or the depreciation rates used, as well as the fair value of such investment property.
3.	140.62	An entity that transfers its property from property, plant and equipment to investment property, revalues the property at the date of the transfer and any difference arising is treated the same way as a revaluation under MFRS 116.
	140.57	Transfer to, or from, investment property is made when, and only when, there is a change in use, evidenced by: <ul style="list-style-type: none"> • commencement of owner-occupation, for a transfer from investment property to owner-occupied property; • commencement of development with a view to sale, for a transfer from investment property to inventories; • end of owner-occupation, for a transfer from owner-occupied property to investment property; or • commencement of an operating lease to another party, for a transfer from inventories to investment property.

Reference	Notes to the financial statements
	2. Significant accounting policies (continued)
	(g) Investment property¹
	(i) Investment property carried at fair value
140.75(a)	Investment properties are properties which are owned or held under a leasehold interest to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes.
140.35	Investment properties are measured initially at cost and subsequently at fair value ² with any change therein recognised in profit or loss for the period in which they arise. Where the fair value of the investment property under construction is not reliably determinable, the investment property under construction is measured at cost until either its fair value becomes reliably determinable or construction is complete, whichever is earlier.
	Cost includes expenditure that is directly attributable to the acquisition of the investment property. The cost of self-constructed investment property includes the cost of materials and direct labour, any other costs directly attributable to bringing the investment property to a working condition for their intended use and capitalised borrowing costs.
140.66 140.69	An investment property is derecognised on its disposal, or when it is permanently withdrawn from use and no future economic benefits are expected from its disposal. The difference between the net disposal proceeds and the carrying amount is recognised in profit or loss in the period in which the item is derecognised.
	(ii) Reclassification to/from investment property³
140.61, 62	When an item of property, plant and equipment is transferred to investment property following a change in its use, any difference arising at the date of transfer between the carrying amount of the item immediately prior to transfer and its fair value is recognised directly in equity as a revaluation of property, plant and equipment. However, if a fair value gain reverses a previous impairment loss, the gain is recognised in profit or loss. Upon disposal of an investment property, any surplus previously recorded in equity is transferred to retained earnings; the transfer is not made through profit or loss.
140.60	When the use of a property changes such that it is reclassified as property, plant and equipment or inventories, its fair value at the date of reclassification becomes its cost for subsequent accounting.

Note Reference **Explanatory note**

1.	102.23	If an entity has inventory items that are ordinarily not interchangeable, and goods or services produced and segregated for specific projects, then their cost would be determined based on specific identification.
	102.25, 26	The same cost formula is used for all inventory items with a similar nature and use. A difference in geographical location is not, in itself, sufficient to justify the use of different cost formulas.
2.	128.20	An entity shall apply MFRS 5 to an investment, or a portion of an investment, in an associate or a joint venture that meets the criteria to be classified as held for sale. Any retained portion of an investment in an associate or a joint venture that has not been classified as held for sale shall be accounted for using the equity method until disposal of the portion that is classified as held for sale takes place. After the disposal takes place, an entity shall account for any retained interest in the associate or joint venture in accordance with MFRS 139 unless the retained interest continues to be an associate or a joint venture, in which case the entity uses the equity method.
	128.21	When an investment, or a portion of an investment, in an associate or a joint venture previously classified as held for sale no longer meets the criteria to be so classified, it shall be accounted for using the equity method retrospectively as from the date of its classification as held for sale. Financial statements for the periods since classification as held for sale shall be amended accordingly.

Reference Notes to the financial statements

2. Significant accounting policies (continued)**102.36(a) (h) Inventories¹**

102.9 Inventories are measured at the lower of cost and net realisable value.

102.10, 25 The cost of inventories is measured based on weighted average cost formula, and includes expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their existing location and condition. In the case of work-in-progress and finished goods, cost includes an appropriate share of production overheads based on normal operating capacity.

102.6 Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

In the current financial year, the Group adopted the amendments to MFRS 116, Property, Plant and Equipment (Annual Improvements 2009-2011 Cycle) and classified spare parts as inventories unless the item of spare part is held for own use and expected to be used during more than one period in which it is classified as property, plant and equipment. In the previous financial years, all spare parts were classified as inventories. The change in accounting policy has been applied retrospectively. Nevertheless, there is no significant impact to the financial statements.

(i) Non-current asset held for sale or distribution to owners

Non-current assets, or disposal group comprising assets and liabilities, that are expected to be recovered primarily through sale or distribution to owners rather than through continuing use, are classified as held for sale or distribution.

Immediately before classification as held for sale or distribution, the assets, or components of a disposal group, are remeasured in accordance with the Group's accounting policies. Thereafter generally the assets, or disposal group, are measured at the lower of their carrying amount and fair value less costs of disposal.

Any impairment loss on a disposal group is first allocated to goodwill, and then to remaining assets and liabilities on pro rata basis, except that no loss is allocated to inventories, financial assets, deferred tax assets, employee benefit assets and investment property, which continue to be measured in accordance with the Group's accounting policies. Impairment losses on initial classification as held for sale or distribution and subsequent gains or losses on remeasurement are recognised in profit or loss. Gains are not recognised in excess of any cumulative impairment loss.

5.25 Intangible assets and property, plant and equipment once classified as held for sale or distribution are
128.20 not amortised or depreciated. In addition, equity accounting of equity-accounted associates and joint venture ceases once classified as held for sale or distribution.²

Note Reference **Explanatory note**

1.	<p>In our view, an entity should establish criteria that it applies consistently to determine whether a decline in a quoted market price is “significant” or “prolonged”. MFRSs do not contain any specific quantitative thresholds for significant or prolonged. In our view, for equity securities that are quoted in an active market, the general concepts of significance and materiality should apply. We believe a decline in excess of 20% generally should be regarded as significant and a decline in a quoted market price that persists for nine months generally should be considered to be prolonged; however, it may be appropriate to consider a shorter period.</p> <p>In our view, apart from significant or prolonged thresholds, an entity can establish additional events triggering impairment. These can include, among other things, a combination of significant and prolonged thresholds based on the particular circumstances and nature of that entity’s portfolio. For example, a decline in the fair value in excess of 15% persisting for six months could be determined by an entity to be an impairment trigger.</p>
----	---

Reference Notes to the financial statements

2. Significant accounting policies (continued)**(j) Construction work-in-progress**

Construction work-in-progress represents the gross unbilled amount expected to be collected from customers for contract work performed to date. It is measured at cost plus profit recognised to date less progress billings and recognised losses. Cost includes all expenditure related directly to specific projects and an allocation of fixed and variable overheads incurred in the Group's contract activities based on normal operating capacity.

111.43 Construction work-in-progress is presented as part of trade and other receivables as amount due from contract customers in the statement of financial position for all contracts in which costs incurred plus recognised profits exceed progress billings. If progress billings exceed costs incurred plus recognised profits, then the difference is presented as amount due to contract customers which is part of the deferred income in the statement of financial position.

(k) Cash and cash equivalents

107.6, 46 Cash and cash equivalents consist of cash on hand, balances and deposits with banks and highly liquid investments which have an insignificant risk of changes in fair value with original maturities of three months or less, and are used by the Group and the Company in the management of their short term commitments. For the purpose of the statement of cash flows, cash and cash equivalents are presented net of bank overdrafts and pledged deposits.

(l) Impairment**(i) Financial assets**

139.58 All financial assets (except for financial assets categorised as fair value through profit or loss, investment in subsidiaries and investment in associates) are assessed at each reporting date whether there is any objective evidence of impairment as a result of one or more events having an impact on the estimated future cash flows of the asset. Losses expected as a result of future events, no matter how likely, are not recognised. For an investment in an equity instrument, a significant or prolonged decline¹ in the fair value below its cost is an objective evidence of impairment. If any such objective evidence exists, then the impairment loss of the financial asset is estimated.

139.63 An impairment loss in respect of loans and receivables and held-to-maturity investments is recognised in profit or loss and is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the asset's original effective interest rate. The carrying amount of the asset is reduced through the use of an allowance account.

139.67 An impairment loss in respect of available-for-sale financial assets is recognised in profit or loss and is measured as the difference between the asset's acquisition cost (net of any principal repayment and amortisation) and the asset's current fair value, less any impairment loss previously recognised. Where a decline in the fair value of an available-for-sale financial asset has been recognised in other comprehensive income, the cumulative loss in other comprehensive income is reclassified from equity to profit or loss.

139.66 An impairment loss in respect of unquoted equity instrument that is carried at cost is recognised in profit or loss and is measured as the difference between the financial asset's carrying amount and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset.

139.69 Impairment losses recognised in profit or loss for an investment in an equity instrument classified as available for sale is not reversed through profit or loss.

139.65 If, in a subsequent period, the fair value of a debt instrument increases and the increase can be objectively related to an event occurring after the impairment loss was recognised in profit or loss, the impairment loss is reversed, to the extent that the asset's carrying amount does not exceed what the carrying amount would have been had the impairment not been recognised at the date the impairment is reversed. The amount of the reversal is recognised in profit or loss.

Note Reference **Explanatory note**

1.	136.80(b)	Each unit or group of units to which goodwill is allocated may not be larger than an operating segment determined in accordance with MFRS 8.
2.		MFRSs do not specify the line item in the statement of profit or loss and other comprehensive income in which an impairment loss is presented. If an entity classifies expenses based on their function, then any impairment loss is allocated to the appropriate function. In our view, if an impairment loss cannot be allocated to a function, then it should be included in other expenses, with additional information provided in the notes.

Reference Notes to the financial statements
2. Significant accounting policies (continued)
(I) Impairment (continued)
(ii) Other assets¹

136.2, 9	The carrying amounts of other assets (except for inventories, amount due from contract customers, deferred tax asset, assets arising from employee benefits, investment property measured at fair value and non-current assets (or disposal groups) classified as held for sale) are reviewed at the end of each reporting period to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For goodwill, and intangible assets that have indefinite useful lives or that are not yet available for use, the recoverable amount is estimated each period at the same time.
136.10, 80	For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or cash-generating units. Subject to an operating segment ceiling test, for the purpose of goodwill impairment testing, cash-generating units to which goodwill has been allocated are aggregated so that the level at which impairment testing is performed reflects the lowest level at which goodwill is monitored for internal reporting purposes. The goodwill acquired in a business combination, for the purpose of impairment testing, is allocated to group of cash-generating units that are expected to benefit from the synergies of the combination.
136.6, 30, 66	The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs of disposal. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or cash-generating unit.
136.59, 60, 104	An impairment loss is recognised if the carrying amount of an asset or its related cash-generating unit exceeds its estimated recoverable amount. Impairment losses are recognised in profit or loss. ² Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the cash-generating unit (group of cash-generating units) and then to reduce the carrying amounts of the other assets in the cash-generating unit (groups of cash-generating units) on a pro rata basis.
136.110, 114, 117, 119	An impairment loss in respect of goodwill is not reversed. In respect of other assets, impairment losses recognised in prior periods are assessed at the end of each reporting period for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount since the last impairment loss was recognised. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised. Reversals of impairment losses are credited to profit or loss in the financial year in which the reversals are recognised.

Note	Reference	Explanatory note
------	-----------	------------------

1.	132.18(a), 20, AG25- 26	When a preference share provides for mandatory redemption by the issuer for a fixed or determinable amount at a fixed or determinable future date, or gives the holder the right to require the issuer to redeem the share at or after a particular date for a fixed or determinable amount, the instrument contains a financial liability that is classified as such. A preference share that does not establish such a contractual obligation explicitly but that does so indirectly through its terms and conditions is also classified as a financial liability.
2.	132.33	If an entity reacquires its own equity instruments, those instruments ("treasury shares") are deducted from equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of an entity's own equity instruments. Such treasury shares may be acquired and held by the entity or by other members of the consolidated group. Consideration paid or received is recognised directly in equity.
	S67A 3(C)	While the shares are held as treasury shares, the rights attached to them as to voting, dividends and participation in other distribution and otherwise are suspended and the treasury shares shall not be taken into account in calculating the number or percentage of shares or of a class of shares in the Company for any purposes.
	S67A 3(D)	Where the directors decide to distribute the treasury shares as share dividends, the costs of the shares on the original purchase shall be applied in the reduction of either the share premium account or the funds otherwise available for distribution as dividends or both.

Reference	Notes to the financial statements
	2. Significant accounting policies (continued) (m) Equity instruments Instruments classified as equity are measured at cost on initial recognition and are not remeasured subsequently.
	(i) Issue expenses Costs directly attributable to the issue of instruments classified as equity are recognised as a deduction from equity.
	(ii) Ordinary shares Ordinary shares are classified as equity.
132.18(a), 35, AG25-26	(iii) Preference share capital¹ Preference share capital is classified as equity if it is non-redeemable, or is redeemable but only at the Company's option, and any dividends are discretionary. Dividends thereon are recognised as distributions within equity.
132.18(a), 35, AG25-26	Preference share capital is classified as financial liability if it is redeemable on a specific date or at the option of the equity holders, or if dividend payments are not discretionary. Dividends thereon are recognised as interest expense in profit or loss as accrued.
132.33	(iv) Repurchase, disposal and reissue of share capital (treasury shares)² When share capital recognised as equity is repurchased, the amount of the consideration paid, including directly attributable costs, net of any tax effects, is recognised as a deduction from equity. Repurchased shares that are not subsequently cancelled are classified as treasury shares in the statement of changes in equity. When treasury shares are sold or reissued subsequently, the difference between the sales consideration net of directly attributable costs and the carrying amount of the treasury shares is recognised in equity.
IC 17.11, 12, 13, 14	(v) Distributions of assets to owners of the Company The Group measures a liability to distribute assets as a dividend to the owners of the Company at the fair value of the assets to be distributed. The carrying amount of the dividend is remeasured at each reporting period and at the settlement date, with any changes recognised directly in equity as adjustments to the amount of the distribution. On settlement of the transaction, the Group recognises the difference, if any, between the carrying amount of the assets distributed and the carrying amount of the liability in profit or loss.

Note Reference **Explanatory note**

1.	132.15	The issuer of a financial instrument classifies the instrument, or its component parts, on initial recognition as a financial liability, a financial asset or an equity instrument in accordance with the substance of the contractual arrangements and the definitions in MFRS 132, <i>Financial Instruments: Presentation</i> .
	132.16(b)	A financial instrument that is settled in the issuer's own equity instruments is a financial liability unless: <ul style="list-style-type: none"> (a) it is a non-derivative that does not require the issuer to deliver a variable number of its own equity instruments; or (b) it is a derivative that will be settled only by the issuer exchanging a fixed amount of cash or another financial asset for a fixed number of its own equity instruments.
	132.25	A financial instrument may require the entity to deliver cash or another financial asset, or otherwise to settle it in such a way that it would be a financial liability, in the event of the occurrence or non-occurrence of uncertain future events that are beyond the control of both the issuer and the holder of the instrument. The issuer of such instrument does not have the unconditional right to avoid delivering cash or another financial asset (or otherwise to settle it in such a way that it would be a financial liability). Therefore, it is a financial liability of the issuer unless: <ul style="list-style-type: none"> (a) the part of the contingent settlement provision that could require settlement in cash or another financial asset (or otherwise in such a way that it would be a financial liability) is not genuine; (b) the issuer can be required to settle the obligation in cash or another financial asset (or otherwise to settle it in such a way that it would be a financial liability) only in the event of liquidation of the issuer; or (c) the instrument has all the features and meets the conditions in paragraphs 16A and 16B of MFRS 132, <i>Financial Instruments: Presentation</i>.
	132.30	Classification of the liability and equity components is not revised as a result of a change in the likelihood that a conversion option will be exercised, even when exercise of the option may appear to have become economically advantageous to some holders.
2.	119.52, 83	If contributions are not payable within 12 months after the end of the annual period in which employees render the related services, they are discounted and the present value of the obligation is recognised as a liability in the statement of financial position.
3.	119.28, 30	Post-employment benefit plans are classified as either defined contribution plans or defined benefit plans: <ul style="list-style-type: none"> • Under defined contribution plans, the entity's legal or constructive obligation is limited to the amount that it agrees to contribute to the fund. Consequently, actuarial risk (that benefits will be less than expected) and investment risk (that assets invested will be insufficient to meet expected benefits) are borne by the employee. • Under defined benefit plans, the entity has an obligation to provide the agreed benefits to current and former employees. The actuarial and investment risks are borne by the entity.
4.	119.123, 124	The net interest on the net defined benefit liability (assets) comprises: <ul style="list-style-type: none"> • interest cost on the defined benefit obligation; and • interest income on plan assets. Where applicable, net interest also includes the interest on the effect of the asset ceiling.
5.	119.83	The obligation for estimated future payments is measured on a discounted basis. The obligation is discounted using a high quality corporate bond rate or a government bond rate when there is an insufficiently deep corporate bond market. The currency and maturity of the bond should match the currency and maturity of the pension obligation.

Reference	Notes to the financial statements
	2. Significant accounting policies (continued) (n) Compound financial instruments¹
132.28	<p>A compound financial instrument is a non-derivative financial instrument that contains both a liability and an equity component.</p> <p>Compound financial instruments issued by the Group comprise convertible notes that can be converted to share capital at the option of the holder, when the number of shares to be issued does not vary with changes in their fair value.</p>
132.32	<p>The liability component of a compound financial instrument is recognised initially at fair value of a similar liability that does not have an equity conversion option. The equity component is recognised initially at the difference between the fair value of the compound financial instrument as a whole and the fair value of the liability component. Any directly attributable transaction costs are allocated to the liability and equity components in proportion to their initial carrying amounts.</p>
132.38	<p>Subsequent to initial recognition, the liability component of a compound financial instrument is measured at amortised cost using the effective interest method. The equity component of a compound financial instrument is not remeasured subsequent to initial recognition.</p> <p>Interest and losses and gains relating to the financial liability are recognised in profit or loss. On conversion, the financial liability is reclassified to equity; no gain or loss is recognised on conversion.</p>
	(o) Employee benefits
	(i) Short-term employee benefits²
119.9, 11(b)	<p>Short-term employee benefit obligations in respect of salaries, annual bonuses, paid annual leave and sick leave are measured on an undiscounted basis and are expensed as the related service is provided.</p>
119.19	<p>A liability is recognised for the amount expected to be paid under short-term cash bonus or profit-sharing plans if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.</p>
119.44	(ii) State plans
	<p>The Group's contributions to statutory pension funds are charged to profit or loss in the financial year to which they relate. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.</p>
	(iii) Defined benefit plans^{3, 4, 5}
	<p>As a result of MFRS 119 (2011), <i>Employee Benefits</i>, the Group has changed its accounting policy in respect of the basis for determining the income or expense relating to its post employment defined benefit plans.</p>
119.57, 83	<p>The Group's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.</p>
119.63-64, IC14.23-24	<p>The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Group, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.</p>
119.122, 127-130	<p>Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised immediately in other comprehensive income. The Group determines the net interest expense or income on the net defined liability or asset for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then net defined benefit liability or asset, taking into account any changes in the net defined benefit liability or asset during the period as a result of contributions and benefit payments. Previously, the Group determined interest income on plan assets based on their long-term rate of expected return.</p>

Note	Reference	Explanatory note
------	-----------	------------------

1.	2.47(b)	An entity discloses how it determined the fair value of equity instruments granted, other than share options granted in transactions in which fair value of goods and services received was determined based on fair value of the equity instruments granted. Such disclosure includes: <ul style="list-style-type: none"> • if fair value was not measured on the basis of an observable market price, how it was determined; • whether and how expected dividends were incorporated into the measurement of fair value; and • whether and how any other features of the equity instruments granted were incorporated into the measurement of fair value.
	2.47(c)	An entity discloses how it determined the incremental fair value of any share-based payment arrangements that were modified during the period.

Reference	Notes to the financial statements
	2. Significant accounting policies (continued) (o) Employee benefits (continued) (iii) Defined benefit plans (continued) <p>Net interest expense and other expenses relating to defined benefit plans are recognised in profit or loss.</p>
119.103, 109-110	<p>When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in profit or loss. The Group recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.</p> <p>The change in accounting policy has been made retrospectively. The adoption of MFRS 119 (2011) has no significant impact to the financial statements of the Group. <i>[The effects from the adoption of MFRS 119 (2011) are disclosed in note xx.]</i></p>
2.15	(iv) Share-based payment transactions <p>The grant date fair value of share-based payment granted to employees is recognised as an employee expense, with a corresponding increase in equity, over the period that the employees unconditionally become entitled to the awards. The amount recognised as an expense is adjusted to reflect the number of awards for which the related service and non-market vesting conditions are expected to be met, such that the amount ultimately recognised as an expense is based on the number of awards that meet the related service and non-market performance conditions at the vesting date.</p> <p>For share-based payment awards with non-vesting conditions, the grant date fair value of the share-based payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes.</p> <p>The fair value of the employee share options is measured using a binomial lattice model.¹ Measurement inputs include share price on measurement date, exercise price of the instrument, expected volatility (based on weighted average historic volatility adjusted for changes expected due to publicly available information), weighted average expected life of the instruments (based on historical experience and general option holder behaviour), expected dividends, and the risk-free interest rate (based on government bonds). Service and non-market performance conditions attached to the transactions are not taken into account in determining fair value.</p>
119.165	(v) Termination benefits <p>Termination benefits are expensed at the earlier of when the Group can no longer withdraw the offer of those benefits and when the Group recognises costs for a restructuring. If benefits are not expected to be settled wholly within 12 months of the end of the reporting period, then they are discounted.</p>

Note	Reference	Explanatory note
------	-----------	------------------

1.	137.36, 59	The amount recognised as a provision is the best estimate of the expenditure required to settle the present obligation at the end of the reporting period. Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources embodying economic benefits will be required to settle the obligation, the provision is reversed.
	137.47	The discount rate does not reflect risks for which future cash flow estimates have been adjusted.
	137.61	A provision is used only for expenditures for which the provision was originally recognised.
	137.63	Provisions for future operating losses are not recognised.
	137.75	If an entity starts to implement a restructuring plan, or announces its main features to those affected, only after the end of the reporting period, then disclose under MFRS 110 if restructuring is material and non-disclosure could influence the economic decisions of users taken on the basis of the financial statements.
2.	137 IE 2A, 2B	<p>If an entity does not have a widely published environmental policy in which it undertakes to clean up all contamination, a provision is recognised only when the entity:</p> <ul style="list-style-type: none"> • has a legal obligation to clean up the site; or • has created a valid expectation on the part of those affected by the contamination that it will clean up the site. <p>The accounting for site restoration provisions is a complex issue that involves analysing specific facts and circumstances. Depending on the circumstances, a site restoration provision might be recognised as part of the cost of the related asset, or as an expense in profit or loss.</p>
3.		MFRSs do not provide guidance on the specific types of costs that would be considered unavoidable in respect of onerous contracts.

Reference	Notes to the financial statements
	2. Significant accounting policies (continued)
	(p) Provisions
137.14	A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. ¹ The unwinding of the discount is recognised as finance cost.
137.45, 47	
	(i) Warranties
137.39	A provision for warranties is recognised when the underlying products or services are sold. The provision is based on historical warranty data and a weighting of all possible outcomes against their associated probabilities.
	(ii) Restructuring
137.72	A provision for restructuring is recognised when the Group has approved a detailed formal restructuring plan, and the restructuring either has commenced or has been announced publicly. Future operating losses are not provided for.
	(iii) Site restoration²
137.21	In accordance with the Group's published environmental policy and applicable legal requirements, a provision for site restoration in respect of contaminated land, and the related expense, is recognised when the land is contaminated.
	(iv) Onerous contracts
137.66	A provision for onerous contracts is recognised when the expected benefits to be derived by the Group from a contract are lower than the unavoidable cost ³ of meeting its obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Group recognises any impairment loss on the assets associated with that contract.

Note Reference **Explanatory note**

1.	Revenue recognition can be complex and appropriate disclosures will depend on the circumstances of the individual entity. Revenue recognition issues, such as combining and segmenting construction contracts, software revenue recognition, real estate sales and barter transactions, are discussed in KPMG International's publication <i>Insights into IFRS</i> .
-----------	---

2.	118.8, IE21	In an agency relationship, amounts collected on behalf of and passed on to the principal are not revenue of the agent. The revenue of the agent is the amount of commission, plus any other amounts charged by the agent to the principal or other parties. In our view, determining whether an entity is acting as an agent or principal is based on an evaluation of the risks and responsibilities taken by the entity, including inventory risk and responsibility for the delivery of goods or services.
-----------	-------------	---

3.	IC 110.3	Government assistance aimed at encouraging or providing long-term support of business activities in certain regions or industry sectors is a "government grant" within the scope of MFRS 120, <i>Accounting for Government Grants and Disclosure of Government Assistance</i> . Such grants are not credited directly to equity holders' interests, even if there are no conditions specifically relating to the operating activities of the entity.
-----------	----------	--

	120.10A	The benefit of a loan with a below-market rate of interest received from a government is treated as a government grant and is recognised and measured in accordance with MFRS 139, <i>Financial Instruments: Recognition and Measurement</i> .
--	---------	--

A government grant may take the form of a transfer of a non-monetary asset. An alternative course that is sometimes followed is to recognise both asset and grant at a nominal amount. We believe that an entity should choose an accounting policy, to be applied consistently, to measure transferred or donated assets either at the fair value of the assets received or at the nominal amount paid. We prefer to measure these transactions at fair value.

Reference	Notes to the financial statements
	2. Significant accounting policies (continued)
	(q) Revenue¹ and other income
	(i) Goods sold
118.35(a)	Revenue from the sale of goods in the course of ordinary activities is measured at fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates. Revenue is recognised when persuasive evidence exists, usually in the form of an executed sales agreement, that the significant risks and rewards of ownership have been transferred to the customer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, and there is no continuing management involvement with the goods, and the amount of revenue can be measured reliably. If it is probable that discounts will be granted and the amount can be measured reliably, then the discount is recognised as a reduction of revenue as the sales are recognised.
	(ii) Services
118.20, 21, 35(a)	Revenue from services rendered is recognised in profit or loss in proportion to the stage of completion of the transaction at the end of the reporting period. The stage of completion is assessed by reference to surveys of work performed.
	(iii) Construction contracts
111.22	Contract revenue includes the initial amount agreed in the contract plus any variations in contract work, claims and incentive payments, to the extent that it is probable that they will result in revenue and can be measured reliably. As soon as the outcome of a construction contract can be estimated reliably, contract revenue and contract cost are recognised in profit or loss in proportion to the stage of completion of the contract. Contract expenses are recognised as incurred unless they create an asset related to future contract activity.
	The stage of completion is assessed by reference to the proportion that contract costs incurred for work performed to-date bear to the estimated total contract costs.
111.32, 36	When the outcome of a construction contract cannot be estimated reliably, contract revenue is recognised only to the extent of contract costs incurred that are likely to be recoverable. An expected loss on a contract is recognised immediately in profit or loss.
	(iv) Commissions²
118.8	When the Group acts in the capacity of an agent rather than as the principal in a transaction, the revenue recognised is the net amount of commission made by the Group.
	(v) Rental income
117.50 IC 115.3	Rental income from investment property is recognised in profit or loss on a straight-line basis over the term of the lease. Lease incentives granted are recognised as an integral part of the total rental income, over the term of the lease. Rental income from subleased property is recognised as other income.
	(vi) Government grants³
120.7	Government grants are recognised initially as deferred income at fair value when there is reasonable assurance that they will be received and that the Group will comply with the conditions associated with the grant; they are then recognised in profit or loss as other income on a systematic basis over the useful life of the asset.
120.12	Grants that compensate the Group for expenses incurred are recognised in profit or loss as other income on a systematic basis in the same periods in which the expenses are recognised.
	(vii) Dividend income
118.30(c)	Dividend income is recognised in profit or loss on the date that the Group's or the Company's right to receive payment is established, which in the case of quoted securities is the ex-dividend date.
	(viii) Interest income
118.30(a)	Interest income is recognised as it accrues using the effective interest method in profit or loss except for interest income arising from temporary investment of borrowings taken specifically for the purpose of obtaining a qualifying asset which is accounted for in accordance with the accounting policy on borrowing costs.

Note	Reference	Explanatory note
1.	123.24	When the construction of a qualifying asset is completed in parts and each part is capable of being used while construction continues on other parts, capitalisation of borrowing costs shall cease when substantially all the activities necessary to prepare that part for its intended use or sale are completed.
2.	112.51C	<p>In general, the measurement of deferred tax assets and liabilities is based on the expected manner or settlement of the underlying asset or liability.</p> <p>MFRS 121.51C provides an exception to this measurement principle in respect of investment property measured using the fair value model in accordance with MFRS 140. Under the exception, the measurement of deferred tax assets and liabilities is based on a rebuttable presumption that the carrying amount of the investment property will be removed entirely through sale.</p> <p>The presumption can be rebutted only if the investment property is depreciable and held within a business model whose objective is to consume substantially all of the asset's economic benefits over the life of the asset. Therefore, the presumption cannot be rebutted in respect of the land component of investment property as it is a non-depreciable asset.</p>

Reference

Notes to the financial statements

2. Significant accounting policies (continued)**(r) Borrowing costs**

123.8 Borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognised in profit or loss using the effective interest method.

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets.

123.17, 20, 22 The capitalisation of borrowing costs as part of the cost of a qualifying asset commences when expenditure for the asset is being incurred, borrowing costs are being incurred and activities that are necessary to prepare the asset for its intended use or sale are in progress. Capitalisation of borrowing costs is suspended or ceases when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are interrupted or completed.¹

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

(s) Income tax

112.6, 58 Income tax expense comprises current and deferred tax. Current tax and deferred tax are recognised in profit or loss except to the extent that it relates to a business combination or items recognised directly in equity or other comprehensive income.

112.46 Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted by the end of the reporting period, and any adjustment to tax payable in respect of previous financial years.

112.15, 24 Deferred tax is recognised using the liability method, providing for temporary differences between the carrying amounts of assets and liabilities in the statement of financial position and their tax bases. Deferred tax is not recognised for the following temporary differences: the initial recognition of goodwill, the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss. Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the end of the reporting period.

112.51C Where investment properties are carried at their fair value in accordance with the accounting policy set out in note 2(g), the amount of deferred tax recognised is measured using the tax rates that would apply on sale of those assets at their carrying value at the reporting date unless the property is depreciable and is held with the objective to consume substantially all of the economic benefits embodied in the property over time, rather than through sale.² In all other cases, the amount of deferred tax recognised is measured based on the expected manner of realisation or settlement of the carrying amount of the assets and liabilities, using tax rates enacted or substantively enacted at the reporting date. Deferred tax assets and liabilities are not discounted.

112.71, 74 Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

112.34, 56 A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reviewed at the end of each reporting period and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Unutilised reinvestment allowance and investment tax allowance, being tax incentives that is not a tax base of an asset, is recognised as a deferred tax asset to the extent that it is probable that the future taxable profits will be available against which the unutilised tax incentive can be utilised.

Note	Reference	Explanatory note
------	-----------	------------------

1.	<p>It is not clear whether a business that will be disposed of by distribution to owners could be classified as a discontinued operation prior to its disposal. Although MFRS 5, <i>Non-current Assets Held for Sale and Discontinued Operations</i> extends the requirements in respect of non-current assets or disposal groups held for sale to such items held for distribution to owners, the cross-referencing in the amendments does not extend to discontinued operations. In our view, although the definition of a discontinued operation has not been extended explicitly, classification of non-current assets or disposal groups held for distribution to owners as a discontinued operation is appropriate if the remaining criteria of MFRS 5 are met.</p>
----	---

Reference

Notes to the financial statements

2. Significant accounting policies (continued)**(t) Discontinued operations¹**

5.32, 34

A discontinued operation is a component of the Group's business that represents a separate major line of business or geographical area of operations that has been disposed of or is held for sale or distribution, or is a subsidiary acquired exclusively with a view to resale. Classification as a discontinued operation occurs upon disposal or when the operation meets the criteria to be classified as held for sale, if earlier. When an operation is classified as a discontinued operation, the comparative statement of profit or loss and other comprehensive income is re-presented as if the operation had been discontinued from the start of the comparative period.

(u) Earnings per ordinary share

The Group presents basic and diluted earnings per share data for its ordinary shares ("EPS").

133.10

Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period, adjusted for own shares held.

133.31

Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding, adjusted for own shares held, for the effects of all dilutive potential ordinary shares, which comprise convertible notes and share options granted to employees.

(v) Operating segments

8.5

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components. All operating segments' operating results are reviewed regularly by the chief operating decision maker, which in this case is the Chief Executive Officer of the Group, to make decisions about resources to be allocated to the segment and to assess its performance, and for which discrete financial information is available.

(w) Contingencies**(i) Contingent liabilities**

137.27, 28

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is not recognised in the statements of financial position and is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events, are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

(ii) Contingent assets137.31, 32,
34

Where it is not probable that there is an inflow of economic benefits, or the amount cannot be estimated reliably, the asset is not recognised in the statements of financial position and is disclosed as a contingent asset, unless the probability of inflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events, are also disclosed as contingent assets unless the probability of inflow of economic benefits is remote.

Note Reference **Explanatory note**

1.	13.C2	MFRS 13 is applied prospectively as of the beginning of the annual period in which it is initially applied. Prospective application will mean that any changes from adjustments to valuation techniques from the date of adoption will be recognised in the period of adoption either in profit or loss or other comprehensive income, in accordance with the MFRS that requires or permits fair value measurement.
-----------	-------	---

Reference

Notes to the financial statements

2. Significant accounting policies (continued)**(x) Fair value measurements**

From 1 January 2013, the Group adopted MFRS 13, *Fair Value Measurement* which prescribed that fair value of an asset or a liability, except for share-based payment and lease transactions, is determined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The measurement assumes that the transaction to sell the asset or transfer the liability takes place either in the principal market or in the absence of a principal market, in the most advantageous market.

For non-financial asset, the fair value measurement takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

In accordance with the transitional provision of MFRS 13, the Group applied the new fair value measurement guidance prospectively¹, and has not provided any comparative fair value information for new disclosures. The adoption of MFRS 13 has not significantly affected the measurements of the Group's assets or liabilities other than the additional disclosures.

Note	Reference	Explanatory note
------	-----------	------------------

1.	116.73(d), (e)	An entity is required to present a reconciliation of the carrying amount of property, plant and equipment from the beginning to the end of the reporting period. The separate reconciliations of the gross carrying amount and accumulated depreciation illustrated in these illustrative financial statements are not required and a different format may be used. However, an entity is required to disclose the gross carrying amount and accumulated depreciation at the beginning and at the end of the reporting period.
	116.74(d)	An entity discloses the amount of compensation from third parties for items of property, plant and equipment that were impaired, lost or given up that is included in profit or loss.
	116.77	<p>If an entity uses the revaluation model to account for property, plant and equipment, then it discloses the following in addition to the disclosures required by MFRS 13:</p> <ul style="list-style-type: none"> • the effective date of the revaluation; • whether an independent valuer was involved; • for each revalued class of property, plant and equipment, the carrying amount that would have been recognised had the assets been measured under the cost model (i.e. not revalued); and • the revaluation surplus, indicating the change for the period, and any restrictions on the distribution of the balance to shareholders.
	116.79	<p>Entities are encouraged to disclose the following:</p> <ul style="list-style-type: none"> • the carrying amount of temporarily idle property, plant and equipment; • the gross carrying amount of any fully depreciated property, plant and equipment that is still in use; • the carrying amount of property, plant and equipment retired from active use and not classified as held for sale in accordance with MFRS 5; and • when the cost model is used, the fair value of property, plant and equipment when this is materially different from the carrying amount.
2.	123.26	An entity discloses the amount of borrowing costs capitalised during the period, and the capitalisation rate used to determine the amount of borrowing costs eligible for capitalisation.

-----------	--------	--

Reference Notes to the financial statements

3. Property, plant and equipment (continued)**3.1 Impairment loss and subsequent reversal¹**136.130(a), (c),
(d)(i)

In 2012, regulatory restrictions on the manufacture of a new product in the Standard Papers operating segment caused the Group to assess the recoverable amount of the related product line. The Group tested the related product line for impairment and recognised an impairment loss of RM11,230,000 with respect to plant and equipment. In 2013, RM3,930,000 of the loss was reversed. See note 5 for further details of the impairment loss and subsequent reversal.

3.2 Leased plant and equipment

117.31(a)

At 31 December 2013, the net carrying amount of leased plant and equipment was RM16,460,000 (2012: RM19,720,000).

3.3 Security

117.31(e)

The leased plant and machinery discussed above secures lease obligations (see note 16).

9Sch2(1)(i)(iv),
116.74(a)

At 31 December 2013, land and buildings with a carrying amount of RM50,000,000 (2012: RM47,000,000) are subject to a registered debenture to secure bank loans granted to the Group (see note 16).

3.4 Change in estimates

116.76, 108.39

During the financial year ended 31 December 2013, the Group conducted an operational efficiency review at one of its plants, which resulted in changes in the expected usage of certain items of plant and equipment. Certain dye equipment, which management previously intended to sell after five years of use, is now expected to remain in production for twelve years from the date of purchase. As a result, the expected useful lives of these assets increased and their estimated residual values decreased. The effect of these changes on depreciation expense, recognised in cost of sales, in current and future periods is as follows:²

In thousands of RM

(Decrease)/Increase in depreciation expense

2013	2014	2015	2016	2017	Later
(2,560)	(2,560)	(1,130)	1,500	1,500	3,000

3.5 Land

9Sch2(1)(i)(iii)

Included in the total carrying amount of land are:

In thousands of RM

Freehold land

Leasehold land with unexpired lease period of more than
50 years

Group	
2013	2012
9,800	9,800
9,900	10,000
19,700	19,800

Note Reference **Explanatory note**

1.	140.78	For items for which fair value cannot be determined reliably, an entity discloses: <ul style="list-style-type: none"> • a description of the investment property; • an explanation of why fair value cannot be measured reliably; • if possible, the range of estimates within which fair value is highly likely to lie; and • on disposal of investment property not carried at fair value: <ul style="list-style-type: none"> - the fact that the entity has disposed of investment property not carried at fair value; - the carrying amount at the time of sale; and - the gain or loss recognised.
	140.76(b), (c), (e), (g)	In presenting a reconciliation of carrying amounts from the beginning to the end of the reporting period, an entity discloses changes in the carrying amounts of investment property resulting from acquisitions through business combinations, amounts classified as held for sale, disposals, foreign currency differences and other changes. Items for which fair value cannot be measured reliably are presented separately in the reconciliation.
	140.78	
	140.75(g), (h)	An entity discloses the existence and amounts of restrictions on the realisability of investment property or the remittance of income and proceeds of disposal. An entity also discloses any material contractual obligations to purchase, construct or develop investment property or for repairs, maintenance or enhancements.
2.	140.79	If investment property is accounted for under the cost model, then an entity discloses the following in addition to the disclosures required by MFRS 13: <ul style="list-style-type: none"> • the depreciation methods used; • the useful lives or the depreciation rates used; • the gross carrying amount and the accumulated depreciation (aggregated with accumulated impairment losses) at the beginning and end of the reporting period; • a reconciliation of the carrying amount at the beginning and end of the period; and • the fair value of the investment property.
3.	140.8(e)	A property that is being constructed or developed for future use as investment property is classified as investment property.
	140.53	If an entity determines that the fair value of an investment property under construction is not reliably determinable but expects the fair value of the property to be reliably determinable when construction is complete, it shall measure that investment property under construction at cost until either its fair value becomes reliably determinable or construction is completed (whichever is earlier).
	140.77	When a valuation obtained for investment property carried at fair value is adjusted significantly for the purpose of the financial statements, the entity discloses a reconciliation between the valuation obtained and the adjusted valuation included in the financial statements, showing separately the aggregate amount of any recognised lease obligations that have been added back, and any other significant adjustments.

140.75(a)	At cost		
	Building under construction ³	1,000	-
		93,290	99,060

117.56(c) Investment properties comprise a number of commercial properties that are leased to third parties. Each of the leases contains an initial non-cancellable period of 10 years, with annual rents indexed to consumer prices (see note 33). Subsequent renewals are negotiated with the lessee and on average renewal periods are 4 years. No contingent rents are charged. During the financial year, a property has been transferred from property, plant and equipment (see note 3) to investment property, since the building was no longer used by the Group and would be leased to a third party.

140.75(g) Investment properties of the Group amounting to RM15,000,000 (2012: RM15,000,000) have been charged to secure banking facilities granted to the Group (see note 16).

140.79(e) A commercial office building is currently under construction and the fair value of the property is unable to be determined as there are uncertainties in estimating its fair value. The building has only started its construction during the year. The estimated range of fair value is highly likely to be within a range of RM1,500,000 and RM2,000,000.

The following are recognised in profit or loss in respect of investment properties:

		Group	
	<i>In thousands of RM</i>	2013	2012
140.75(f)(i)	Rental income	14,690	8,530
	Direct operating expenses:

4. Investment properties (continued)

Fair value information¹

13.93(a)-(b) Fair value of investment properties are categorised as follows:

		2013			
<i>In thousands of RM</i>		Level 1	Level 2	Level 3	Total
Group					
Land		-	70,717	-	70,717
Buildings		-	10,000	11,573	21,573
		-	80,717	11,573	92,290

Policy on transfer between levels

13.95 The fair value of an asset to be transferred between levels is determined as of the date of the event or change in circumstances that caused the transfer.

Level 1 fair value

Level 1 fair value is derived from quoted price (unadjusted) in active markets for identical investment properties that the entity can access at the measurement date.

Level 2 fair value

Level 2 fair value is estimated using inputs other than quoted prices included within Level 1 that are observable for the investment property, either directly or indirectly.

13.93(d) Level 2 fair values of land and buildings have been generally derived using the sales comparison approach. Sales price of comparable properties in close proximity are adjusted for differences in key attributes such as property size. The most significant input into this valuation approach is price per square foot of comparable properties.

Transfer between Level 1 and 2 fair values

13.93(c) There is no transfer between Level 1 and 2 fair values during the financial year.

Level 3 fair value

Level 3 fair value is estimated using unobservable inputs for the investment property.

The following table shows a reconciliation of Level 3 fair values:

<i>In thousands of RM</i>		Note	2013
13.93(e)	At 1 January		17,383
13.93(e)(iii)	Additions		4,050
13.93(e)(iii)	Disposal		(17,720)
13.93(e)(iii)	Transfer from property, plant and equipment		7,000
13.93(e)(iv)	<i>Transfer into Level 3</i>	<i>a</i>	<i>XXX</i>
13.93(e)(iv)	<i>Transfer out of Level 3</i>	<i>b</i>	<i>XXX</i>
Gains and losses recognised in profit or loss			
13.93(e)(i)	Change in fair value - Other income - Realised		450
13.93(f)	Change in fair value - Other income - Unrealised		310
	Effect of movements in exchange rates		100
13.93(e)	At 31 December		11,573

Note Reference **Explanatory note**

1.	13.93(d)	The entity is not required to create quantitative information for inputs of fair value measurements categorised in Level 3 if the unobservable inputs are not developed by the entity when measuring fair value. However, when providing this disclosure, the entity does not ignore quantitative unobservable inputs that are significant to the fair value measurement that are reasonably available.
-----------	----------	---

Reference Notes to the financial statements

4. Investment properties (continued)

13.93(e)(iv)

Note a - Transfer into Level 3

The Group commenced refurbishment and redevelopment of an office building during the year. The refurbishment and redevelopment is expected to be completed by end of 2014. Prior to refurbishment and redevelopment, this property was valued using the sales comparison approach, which resulted in a Level 2 fair value. Upon refurbishment and redevelopment, the Group had revised its valuation technique for the property under construction by estimating the fair value of the building as if the construction is completed less the cost of construction. The revised valuation technique for the property under construction uses significant unobservable inputs. The fair value was therefore reclassified to Level 3.

13.93(e)(iv)

Note b - Transfer out of Level 3

The Group completed refurbishment and redevelopment of a shopping mall during the year. During refurbishment and redevelopment, this property was valued using the property under construction approach, which resulted in a Level 3 fair value. Upon completion, the Group had revised its valuation technique to the sales comparison approach. The fair value was therefore reclassified to Level 2.

13.93(d), 93(h), 99

The following table shows the valuation techniques used in the determination of fair values within Level 3, as well as the significant unobservable inputs used in the valuation models.

Valuation technique	Significant unobservable inputs ¹	Inter-relationship between significant unobservable inputs and fair value measurement
Discounted cash flows: The valuation method considers the present value of net cash flows to be generated from the property, taking into account expected rental growth rate, void periods, occupancy rate, lease incentive costs such as rent-free periods and other costs not paid by tenants. The expected net cash flows are discounted using risk-adjusted discount rates. Among other factors, the discount rate estimation considers the quality of a building and its location (prime vs secondary), tenant credit quality and lease terms.	<ul style="list-style-type: none"> Expected market rental growth (2-3%, weighted average 2.6%). Void periods (average 6 months after the end of each lease). Occupancy rate (90-95%, weighted average 92.5%). Rent-free periods (1 year period on new leases) Risk-adjusted discount rates (5-6.3%, weighted average 5.8%). 	<p>The estimated fair value would increase (decrease) if:</p> <ul style="list-style-type: none"> expected market rental growth were higher (lower); void periods were shorter (longer); occupancy rate were higher (lower); rent-free periods were shorter (longer); or risk-adjusted discount rates were higher (lower).

13.93(g),
140.75(e)**Valuation processes applied by the Group for Level 3 fair value**

The fair value of investment properties is determined by external, independent property valuers, having appropriate recognised professional qualifications and recent experience in the location and category of property being valued. The valuation company provides the fair value of the Group's investment property portfolio every six months. Changes in Level 3 fair values are analysed by the management every six months after obtaining valuation report from the valuation company.

13.93(i)

Highest and best use

The Group's investment property is currently an office building. The highest and best use of the property should be a shopping mall as the investment property is on the prime land in the city centre. The office building had been refurbished and redeveloped in recent years thus it is not cost effective to convert it to a shopping mall at this current moment.

Note Reference **Explanatory note**

1.	136.130(f)	If the recoverable amount of an individual asset, including goodwill, or a cash-generating unit, is measured based on its fair value less costs of disposal, and a material impairment loss is recognised or, in the case of intangible assets other than goodwill (a reversal is prohibited for goodwill impairments), is reversed during the period, then an entity measures the basis used to determine fair value less costs of disposal. An entity is not required to provide the disclosures required by MFRS 13.
	136.130(c)	If a material impairment loss is recognised for an individual asset, then an entity discloses: <ul style="list-style-type: none"> the nature of the asset; and if the entity reports segment information in accordance with MFRS 8, <i>Operating Segments</i>, then the reportable segment to which the asset belongs.
	136.130(d)(iii)	If a material impairment loss is recognised for a cash-generating unit, and the aggregation of assets for identifying the cash-generating unit has changed since the previous estimate of recoverable amount, then an entity describes the current and former way of aggregating assets, and the reasons for changing the way in which the cash-generating unit is identified.
	136.130(a)	If an impairment loss, or a reversal thereof, is material, then an entity discloses the events and circumstances that led to the recognition or reversal of the impairment loss.
	136.126(c), (d)	If applicable, an entity discloses the amount of impairment losses or reversals of impairment losses on revalued assets recognised in other comprehensive income during the period.
2.	136.126	<p>If an entity classifies expenses based on their function, then any loss is allocated to the appropriate function. In our view, if an impairment loss cannot be allocated to a function, then it is included in other expenses as a separate line item if significant (e.g. impairment of goodwill), with additional information given in a note.</p> <p>In our view, an entity presents an impairment loss that is recognised in published interim financial statements in the same line item in the annual financial statements, even if the asset subsequently is sold and the gain or loss on disposal is included in a line item different from impairment losses in the annual financial statements.</p>

Reference Notes to the financial statements

5. Intangible assets (continued)**5.1 Amortisation**

138.118(d) The amortisation of patents and trademarks and development costs is allocated to the cost of inventory and is recognised in cost of sales as inventory is sold.

5.2 Impairment loss and subsequent reversal¹

136.130(a), (d)(i) In 2012, regulatory restrictions on the manufacture of a new product in the Standard Papers operating segment caused the Group to assess the recoverable amount of the related product line. The product line relates to a cutting edge new product that was expected to be available for sale in 2013. However, a regulatory inspection in 2012 revealed that the product did not meet certain environmental standards, necessitating substantial changes to the manufacturing process. As a result, production was deferred and the expected launch date was delayed.

136.130(e) The recoverable amount of the cash-generating unit (the production line that will produce the product) was estimated based on its value in use, assuming that the production line would go live in August 2016. Based on the assessment in 2012, the carrying amount of the product line was determined to be RM14,080,000 higher than its recoverable amount, and an impairment loss for the financial year ended 31 December 2012 was recognised (see below). In 2013, following certain changes to the recovery plan, the Group reassessed its estimates and RM4,930,000 of the initially recognised impairment has been reversed.

136.130(g) The estimate of value in use was determined using a pre-tax discount rate of 9.5% (2012: 9.8%).

136.126(a), (b),
130(c), (b), (d)(ii) The impairment loss and its subsequent reversal was allocated *pro rata* to the individual assets constituting the production line (part of the Standard Papers operating segment) as follows:

Group

In thousands of RM

Plant and equipment

Capitalised development costs

Original carrying amount	Impairment loss in 2012	Reversal in 2013
19,870	11,230	(3,930)
5,040	2,850	(1,000)
24,910	14,080	(4,930)

136.126(a), (b) The impairment loss and subsequent reversal were recognised in cost of sales in the statements of profit or loss and other comprehensive income.²

Note	Reference	Explanatory note
------	-----------	------------------

1.	136.84, 133	If any portion of the goodwill acquired in a business combination during the period has not been allocated to a cash-generating unit at the end of the reporting period, then the entity discloses the amount of the unallocated goodwill together with the reasons why that amount remains unallocated.
----	-------------	--

2.	136.99	<p>Instead of calculating recoverable amount, an entity may use its most recent previous calculation of the recoverable amount of a cash-generating unit containing goodwill, if all of the following criteria are met:</p> <ul style="list-style-type: none"> • there have been no significant changes in the assets and liabilities making up the unit since the calculation; • the calculation resulted in a recoverable amount that exceeded the carrying amount of the unit by a substantial margin; and • based on an analysis of the events and circumstances since the calculation, the likelihood that the current recoverable amount would be less than the current carrying amount of the unit is remote. <p>The disclosures illustrated here are based on the assumption that the calculation of the recoverable amount was prepared in the current period. If a calculation made in a preceding period is used, then the disclosures are adjusted accordingly.</p>
----	--------	--

3.	136.134(f)	<p>If a reasonably possible change in a key assumption on which management has based its determination of the unit's (group of units') recoverable amount would cause the unit's (group of units') carrying amount to exceed its recoverable amount, then an entity discloses:</p> <ul style="list-style-type: none"> • the amount by which the unit's (group of units') recoverable amount exceeds its carrying amount • the value assigned to the key assumption • the amount by which the value assigned to the key assumption must change, after incorporating any consequential effects of that change on the other variables used to measure recoverable amount, in order for the unit's (group of units') recoverable amount to be equal to its carrying amount.
----	------------	--

Reference Notes to the financial statements

5. Intangible assets (continued)**5.3 Impairment testing for cash-generating units containing goodwill^{1,2}**

136.80 For the purpose of impairment testing, goodwill is allocated to the Group's operating divisions which represent the lowest level within the Group at which the goodwill is monitored for internal management purposes.

136.134(a) The aggregate carrying amounts of goodwill allocated to each unit are as follows:

		Group	
<i>In thousands of RM</i>		2013	2012
European standard paper manufacturing and distribution		22,850	21,350
New Zealand standard paper manufacturing and distribution		9,600	10,760
		32,450	32,110
Multiple units without significant goodwill		2,580	2,580
		35,030	34,690

136.135

European standard paper manufacturing and distribution

136.134(c),
(e)

The European standard paper manufacturing and distribution cash-generating unit's impairment test was based on fair value less costs of disposal. In the past year, competing businesses in the same sector and of generally similar size have been bought and sold by companies in the industry as part of the ongoing industry consolidation. The sales prices for these units were used to derive a price to earnings ratio that was applied to the earnings of the unit to determine recoverable amount. Price to earnings ratios in the industry ranged from 21 to 25; the Group used a lower range estimate of 21 to estimate the recoverable amount of the unit. Unit earnings were determined for purposes of this calculation to be RM33,750,000, based on the unit's actual operating results, adjusted for allocation of the Group's borrowing costs and income tax expense. The estimated recoverable amount of RM708,750,000 significantly exceeds the carrying amount of the unit of RM235,970,000 (including goodwill). Management considers that it is not reasonably possible for the assumed price to earnings ratio to change so significantly as to eliminate this excess.

New Zealand standard paper manufacturing and distribution

136.134(c),
(d), (f),
101.125

The recoverable amount of the New Zealand standard paper manufacturing and distribution unit was based on its value in use and was determined with the assistance of independent valuers. Value in use in 2013 was determined in a similar manner as in 2012. The carrying amount of the unit was determined to be higher than its recoverable amount and an impairment loss of RM1,160,000 (2012: nil) was recognised. The impairment loss was allocated fully to goodwill, and is included in cost of sales.

Value in use was determined by discounting the future cash flows expected to be generated from the continuing use of the unit and was based on the following key assumptions:³

136.134(d)(i)-
(v)

- Cash flows were projected based on past experience, actual operating results and the 5-year business plan. Cash flows for a further 20-year period were extrapolated using a constant growth rate of 4% (2012: 5%), which does not exceed the long-term average growth rate of the industry. Management believes that this 25-year forecast period was justified due to the long-term nature of the paper business.
- Revenue was projected at about RM22,000,000 in the first year of the business plan. The anticipated annual revenue growth included in the cash flow projections was between 5% and 7% for the years 2013 to 2017 based on average growth levels experienced over the five years.
- The paper price growth was assumed to be 1% per annum above inflation in the first 5 years which is in line with information obtained from external sources. The estimate was based on statistical analysis of long-term market price trends adjusted annually for actual experience.

136.134(e)(iii)

- Environmental cost growth, based on past experience, was estimated to be 25% in 2014 and in line with inflation thereafter. This represents an increase over the 20% estimate used in the impairment testing in 2012, and reflects various regulatory developments in New Zealand where the unit operates.
- A pre-tax discount rate of 9.8% (2012: 10%) was applied in determining the recoverable amount of the unit. The discount rate was estimated based on an industry average weighted average cost of capital, which was based on a possible range of debt leveraging of 40% at a market interest rate of 7%.

This page has been left blank intentionally.

Reference Notes to the financial statements

5. Intangible assets (continued)

5.3 Impairment testing for cash-generating units containing goodwill (continued)

The values assigned to the key assumptions represent management's assessment of future trends in the paper manufacturing industry and are based on both external sources and internal sources (historical data).

Following an impairment in the New Zealand standard paper manufacturing and distribution cash-generating units, the recoverable amount is equal to the carrying amount. Therefore, any adverse change in a key assumption may result in a further impairment loss.

136.134(f)

The above estimates are particularly sensitive in the following areas:

- An increase of 1 percentage point in the discount rate used would have increased the impairment loss by RM1,050,000.
- A 10% decrease in future planned revenues would have increased the impairment loss by RM2,500,000.

9Sch2(1)(j)(iii) 6. Investments in subsidiaries (continued)

12.7(a), 9(b), 14,
101.122

Although the Group owns less than half of the ownership interest in Daun Maple Inc and Silver Fir S.A. and less than half of the voting power of these entities, the Directors have determined that the Group controls these two entities. The Group controls Daun Maple Inc by virtue of an agreement with its other investors; the Group has *de facto* control over Silver Fir S.A., on the basis that the remaining voting rights in the investee are widely dispersed and that there is no indication that all other shareholders exercise their votes collectively.¹

12.10(b)(ii)

The Group does not hold any ownership interests in two structured entities, Sloan Bio-Research Co and MayCo. However, based on the terms of agreements under which these entities were established, the Group receives substantially all of the returns related to their operations and net assets (Sloan Bio-Research Co and MayCo perform research activities exclusively for the Group) and has the current ability to direct these entities' activities that most significantly affect their returns. Consequently, they are regarded as subsidiaries of the Group.¹ The Group has issued a guarantee to certain banks in respect of the credit facilities amounting to RM700,000 granted to these entities.²

12.13(c) **Significant restrictions⁵**
Other than those disclosed elsewhere in the financial statements, the carrying amounts of assets to which significant restrictions apply are as follows:

		Group	
		2013	2012
	<i>In thousands of RM</i>		
	Cash and cash equivalents	2,890	2,600
	Other assets	600	600
		3,490	3,200

12.13(a) The above restrictions arise from the following:

Restriction imposed by bank covenants

The covenants of a bank loan taken by Lei Sure Limited, a subsidiary of the Company, restricts the ability of the subsidiary to provide advances to other companies within the Group and to declare dividends to its shareholders until settlement of the loan.

12.13(b) **Restriction imposed by shareholders' agreements**

Generally, for all the subsidiaries which are not wholly owned by the Company, the non-controlling shareholders hold protective rights restricting the Group's ability to use the assets of the subsidiary and settle the liabilities of the Group, unless approval is obtained from non-controlling interests shareholders.

Note Reference **Explanatory note**

1.	112.81(g)	<p>An entity discloses, in respect of each type of temporary difference, and in respect of each type of unused tax losses and unused tax credits, the amount of deferred tax assets and liabilities recognised in the statement of financial position for each period presented; MFRSs are unclear as to what constitutes a type of a temporary difference. Disclosures presented in these illustrative financial statements are based on the statement of financial position captions related to the temporary differences. Another possible interpretation is to present disclosures based on the reason for the temporary difference, e.g. depreciation.</p> <p>In our view, it is not appropriate to disclose gross deductible temporary differences with the related valuation allowance shown separately because, under MFRSs, it is <i>recognised</i> temporary differences that are required to be disclosed.</p>
2.	112.81(i), 87A	<p>An entity discloses the amount of income tax consequences of dividends to the owners that were proposed or declared before the financial statements were authorised for issue, but that are not recognised as a liability in the financial statements. An entity also discloses the important features of the income tax system(s) and the factors that will affect the amount of the potential income tax consequences of dividends.</p>
3.	112.82	<p>An entity discloses the amount of a deferred tax asset and the nature of the evidence supporting its recognition when:</p> <ul style="list-style-type: none"> • the utilisation of the deferred tax asset is dependent on future taxable profits in excess of the profits arising from the reversal of existing taxable temporary differences; and • the entity has suffered a loss in either the current or preceding period in the tax jurisdiction to which the deferred tax asset relates.
4.	112.74	<p>Deferred tax assets and liabilities are offset only when:</p> <ul style="list-style-type: none"> • the entity has a legally enforceable right to set off current tax assets against current tax liabilities; and • the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on either: <ul style="list-style-type: none"> - the same taxable entity; or - different taxable entities that intend either to settle current tax assets and liabilities on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax assets or liabilities are expected to be settled or recovered.
5.	112.81(e)	<p>The amount (and expiry date, if any) of deductible temporary differences, unused tax losses and unused tax credits for which no deferred tax asset is recognised in the statement of financial position must be disclosed.</p>

112.81(e)

Unrecognised deferred tax assets⁵

Deferred tax assets have not been recognised in respect of the following items (stated at gross):

	Group		Company	
<i>In thousands of RM</i>	2013	2012	2013	2012
Tax loss carry-forwards	30	3,890	-	-
Other deductible temporary differences	1,030	2,000	-	-
	1,060	5,890	-	-

112.81(e)

A tax loss of RM10,000 (2012: RM50,000) expires in 2015 under the tax legislation of Romania.

101.129,
112.82

In 2012, RM2,400,000 of previously unrecognised tax losses of a subsidiary that was suffering loss were recognised as management considered it probable that future taxable profits will be available against which they can be utilised. In 2013, management revised its estimates following the pilot of a new type of paper in Romania, which was proving to be popular with customers and was increasing the subsidiary's results from operating activities. As a result, an additional RM500,000 of previously unrecognised tax losses was recognised in 2013.

112.82A

In some of the countries in which the Group operates, local tax laws provide that gains on the disposal of certain assets are tax exempted, provided that the gains are not distributed. At 31 December 2013, the total tax exempt reserves amounted to RM600,000 (2012: RM540,000) would result in a tax liability of RM198,000 (2012: RM178,000) should the subsidiaries pay dividends from these reserves. This tax liability has not been provided for.

111.42(b)	Amount due to contract customers	(1,400)	(1,300)
		2,080	1,500

Note Reference **Explanatory note**

1.	7.13B	An entity shall disclose information to enable users of its financial statements to evaluate the effect or potential effect of netting arrangements on the entity's financial position. This includes the effect or potential effect of rights of set off associated with the entity's recognised financial assets and recognised financial liabilities that are within the scope of paragraph 13A of MFRS 7.
2.	102.39	When an entity presents an analysis of expenses using classification based on the nature of expenses in the statement of profit or loss and other comprehensive income, it discloses the costs recognised as an expense for raw materials and consumables, labour and other costs, together with the amount of the net change in inventories for the period.
	101.98(a)	A write-down to net realisable value as well as any reversal of such write-down may be of such size, incidence or nature that it requires separate disclosure in accordance with MFRS 101.97.
	102.36(c)	For commodity broker-traders who principally acquire inventories with the purpose of selling in the near future and generating a profit from price arbitration would generally measure such inventories at fair value less costs of disposal, then disclose the carrying amounts of inventories carried at fair value less costs of disposal.
3.		In our view, write-downs of inventory to net realisable value as well as any reversals of such write-downs is presented in the same line item in profit or loss as the cost of inventories sold.

Reference Notes to the financial statements
9Sch2(1)(m), 101.78(b) **10. Trade and other receivables (continued)**

10.6 Offsetting of financial assets and financial liabilities¹

The following table provides information of financial assets and liabilities that have been set off for presentation purpose:

<i>In thousands of RM</i>			Balances that are set off	Net carrying amount in the statement of financial position
Group	Note	Gross amount		
2013				
Trade receivables		197,550	(80,680)	116,870
Trade payables	20	(205,319)	80,680	(124,639)
2012				
Trade receivables		234,530	(66,900)	167,630
Trade payables	20	(289,150)	66,900	(222,250)

Certain trade receivables and trade payables were set off for presentation purpose because they have enforceable right to set off and they intend either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

9Sch2(1)(k) **11. Inventories²**

<i>In thousands of RM</i>		Group	2013	2012
101.78(c), 102.36(b)	Raw materials and consumables		56,600	65,530
101.78(c), 102.36(b)	Work-in-progress		29,430	20,610
101.78(c), 102.36(b)	Finished goods		59,766	55,050
			145,796	141,190
102.36(h)	Carrying amount of inventories pledged as security for bank borrowings (see note 16)		24,500	20,900
102.36(d)	Recognised in profit or loss:			
101.98(a), 102.36(e)	Inventories recognised as cost of sales		516,980	529,730
101.98(a), 102.36(f)	Write-down to net realisable value		450	1,250
	Reversal of write-down		(170)	-

102.36(e)-(f), 101.98(a) The write-down and reversal are included in cost of sales.³

136.126(b) Due to regulatory restrictions imposed on a new product in the Standard Papers operating segment, the Group tested the related product line for impairment and also wrote down the related inventories to their net realisable value, which resulted in a loss of RM450,000 in 2012. In 2013, following a change in estimates, RM170,000 of the write-down was reversed (see note 5).

102.36(g)

Note	Reference	Explanatory note
------	-----------	------------------

1.	107.48	An entity discloses, together with a commentary by management, the amount of significant cash and cash equivalent balances not available for use by the entity.

Reference Notes to the financial statements

12. Derivative financial assets/(liabilities)

	2013			2012		
	Nominal value	Assets	Liabilities	Nominal value	Assets	Liabilities
<i>In thousands of RM</i>						
Group						
7.31 Derivatives held for trading at fair value through profit or loss						
- Forward exchange contracts	108,000	1,406	(1,192)	106,000	2,253	(1,751)
- Interest rate swap	-	-	-	35,000	998	-
Derivatives used for hedging						
- Interest rate swap	50,000	828	-	-	-	-
	158,000	2,234	(1,192)	141,000	3,251	(1,751)

Forward exchange contracts are used to manage the foreign currency exposures arising from the Group's receivables and payables denominated in currencies other than the functional currencies of Group entities. Most of the forward exchange contracts have maturities of less than one year after the end of the reporting period. Where necessary, the forward contracts are rolled over at maturity.

Interest rate swap is used to achieve an appropriate mix of fixed and floating interest rate exposure within the Group's policy. In the current financial year, the Group entered into interest rate swap with nominal value of RM50,000,000 to hedge the cash flow risk in relation to the floating interest rate of a bank loan (see note 31.7.1). The previous financial year's interest rate swap with nominal value of RM35,000,000 matured during the financial year.

107.45 **13. Cash and cash equivalents¹**

	Group		Company	
	2013	2012	2013	2012

9Sch2(1)(m)(vii) Deposits are placed with:				
9Sch2(1)(m)(vii) Licensed banks	12,820	7,850	12,070	5,830
9Sch2(1)(m)(vii) Other corporations	1,720	770	1,500	700
	14,540	8,620	13,570	6,530
Cash and bank balances	3,810	9,880	1,410	4,960
	18,350	18,500	14,980	11,490

7.14 *Included in the deposits placed with licensed banks is RMXXX (2012: RMXXX) pledged for a bank facility granted to a subsidiary (see note 16).*

Note Reference **Explanatory note**

1.	5.42	If there are changes to a plan of sale or distribution and an asset or a disposal group is no longer classified as held for sale or distribution, then the entity discloses, in the period of change, a description of the facts and circumstances leading to the decision and the effect of the decision on the results of operations for the period and any prior periods presented.
	5.8A	An entity that is committed to a sale plan involving loss of control of a subsidiary shall classify all assets and liabilities of that subsidiary as held for sale when the criteria set out in paragraphs 6-8 of MFRS 5 are met, regardless of whether the entity will retain a non-controlling interest in its former subsidiary after the sale.
	5.36A	An entity that is committed to a sale plan involving loss of control of a subsidiary shall disclose the information required in paragraph 33-36 of MFRS 5 when the subsidiary is a disposal group that meets the definition of a discontinued operation in accordance with paragraph 32 of MFRS 5.
	5.5B	The disclosure requirements of MFRS 5 apply to non-current assets or disposal groups classified as held for sale and to discontinued operations. Disclosures required by other MFRSs apply when it refers specifically to non-current assets or disposal groups classified as held for sale or to discontinued operations; for example the disclosure of earnings per share for a discontinued operation. Disclosures required by other MFRSs may also apply where they relate to assets and liabilities in a disposal group that are not within the measurement scope of MFRS 5. Additional disclosures may be necessary to comply with the general requirements of MFRS 101, in particular for a fair presentation and in respect of sources of estimation uncertainty.
2.	5.38, 39	The major classes of assets and liabilities classified as held for sale are disaggregated in the notes. This disclosure is not required if the disposal group is a newly acquired subsidiary that meets the criteria to be classified as held for sale on acquisition.
	5.38	An entity shall present separately any cumulative income or expense recognised in other comprehensive income relating to a non-current asset (or disposal group) classified as held for sale.
3.	5.15	An entity shall measure a non-current asset (or disposal group) classified as held for sale at the lower of its carrying amount and fair value less cost of disposal. If the value of non-current assets is stated at fair value less cost of disposal, an entity also complies with the disclosure requirements of MFRS 13.
4.		In our view, the disclosure requirements in the Ninth Schedule of the Companies Act, 1965 are still applicable such as disclosure of restriction of titles to property, amounts of land ascribed to freehold and leasehold portions and disclosure of balances with related corporations.

Reference Notes to the financial statements

14. Disposal group held for sale¹

5.41(a), (b), (d) Part of a manufacturing facility within the Standard Papers operating segment is presented as a disposal group held for sale following the commitment of the Group's management on 15 June 2013 to a plan to sell part of the facility. Efforts to sell the disposal group have commenced, and a sale is expected by April 2014. At 31 December 2013, the assets and liabilities of the disposal group are as follows:

5.38	Assets classified as held for sale²		Group
	<i>In thousands of RM</i>	Note	2013
	Property, plant and equipment	a	81,640
	Inventories	b	27,500
	Receivables	c	34,960
			<u>144,100</u>
5.38	Liabilities classified as held for sale²		
	<i>In thousands of RM</i>		
	Payables and accruals		42,700
	Deferred tax liabilities	9	1,400
			<u>44,100</u>

The carrying value of property, plant and equipment of the disposal group is the same as its carrying value before it was being reclassified to current asset.³

5.38 **Cumulative income or expense recognised in other comprehensive income**
The cumulative income or expenses recognised in other comprehensive income relating to the disposal group is RMXXX.

9Sch3(1)	Note a⁴		Group
	Property, plant and equipment held for sale comprise the following:		2013
	<i>In thousands of RM</i>		
	Cost		92,220
	Accumulated depreciation		(10,580)
			<u>81,640</u>

Note b⁴

The inventories held for sale comprise finished goods and are carried at cost.

Note c⁴

Receivables are carried at cost less an impairment loss of RM100,000.

		146,945	146,945	145,500	145,500

Ordinary shares

101.79(a)(v) The holders of ordinary shares are entitled to receive dividends as declared from time to time, and are entitled to one vote per share at meetings of the Company. In respect of the Company's treasury shares that are held by the Group, all rights are suspended until those shares are reissued.

Non-redeemable preference shares

Holders of non-redeemable preference shares receive a non-cumulative gross dividend of RM0.11 per share at the Company's discretion. They do not have the right to participate in any additional dividends declared for ordinary shareholders. The non-redeemable preference shares do not carry the right to vote except for variation of holders' rights to the class of shares and rank equally with regard to the Company's residual assets, except that preference shareholders participate only to the extent of the par value of the shares.

Share premium

Share premium comprises the premium paid on subscription of shares in the Company over and above the par value of the shares.

101.79(b) **Capital reserve**

The capital reserve comprises the equity portion of compound financial instrument issued (see note 16).

101.79(b) **Translation reserve**

The translation reserve comprises all foreign currency differences arising from the translation of the financial statements of foreign operations, as well as from the translation of financial liabilities that hedge the Company's net investment in a foreign operation.

Note Reference **Explanatory note**

1.	116.77(f)	If items of property, plant and equipment are stated at revalued amounts, then the entity discloses the revaluation surplus, indicating the change for the period and any restrictions on the distribution of the balance to shareholders.
2.	101.79(a)(vi)	An entity discloses separately the amount of treasury shares held, either in the statement of financial position or the statement of changes in equity or in the notes.
	124.18	If any of the shares are acquired from parties who are able to control or exercise significant influence over the Group, then an entity discloses details of the transaction.
3.	LR(A)12D	<p>Similar disclosure is required in respect of share buy-back during the year, if any.</p> <p>Bursa Malaysia requires the following disclosure in the annual report in relation to share buy-back:</p> <ol style="list-style-type: none"> (1) A monthly breakdown of purchase(s) of its own shares made during the financial year showing the number of shares purchased each month and the purchase price per share or the highest, lowest and average price paid, and the total consideration paid for such purchase(s). (2) A monthly breakdown of resale(s) of its treasury shares during the financial year showing the number of treasury shares resold each month and the resale price of each share, or the highest, lowest and average resale price and the total consideration received for such resale(s). (3) The details of the shares retained as treasury shares during the financial year. (4) The details of shares cancelled during the financial year.

Reference Notes to the financial statements

9Sch2(1)(a) 15. Capital and reserves (continued)

101.79(b) Hedging reserve

The hedging reserve comprises the effective portion of the cumulative net change in the fair value of cash flow hedges related to hedged transactions that have not yet occurred.

101.79(b) Fair value reserve

The fair value reserve comprises the cumulative net change in the fair value of available-for-sale financial assets until the investments are derecognised or impaired.

101.79(b) Revaluation reserve¹

The revaluation reserve relates to the revaluation of property, plant and equipment immediately prior to its reclassification as investment property.

101.79(b) Share option reserve

The share option reserve comprises the cumulative value of employee services received for the issue of share options. When the option is exercised, the amount from the share option reserve is transferred to share premium. When the share options expire, the amount from the share option reserve is transferred to retained earnings. Share option is disclosed in note 17.

101.79(a)(vi), (b) Treasury shares²

The shareholders of the Company, by a special resolution passed in a general meeting held on 1 April 2012, approved the Company's plan to repurchase its own shares. The Directors of the Company are committed to enhancing the value of the Company to its shareholders and believe that the repurchase plan can be applied in the best interests of the Company and its shareholders.

There was no repurchase of issued share capital in the current financial year. For the financial year ended 31 December 2012, the Company repurchased 520,000 of its issued share capital from the open market. The average price paid for the shares repurchased was RM5.38 per share including transaction costs, and the repurchase transactions were financed by internally generated funds. The shares repurchased are held as treasury shares.

Subsequent cancellation of treasury shares

The shares repurchased were cancelled and an amount equivalent to their nominal value was transferred to the capital redemption reserve in accordance with the requirement of Section 67A of the Companies Act, 1965. The transfer to capital redemption reserve and the premium paid on the shares repurchased were made out of the share premium and retained earnings.

During the financial year, the Company re-issued 41,000 treasury shares by resale in the open market. The average resale price of the treasury shares was RM7.32 per share. The proceeds from the resale will be utilised to retire a bank loan which is due for repayment in the following financial year.

LR(A)12D(2) Details of the resale of treasury shares were as follows:³

	Average resale price RM	Highest resale price RM	Lowest resale price RM	Number of treasury shares resold	Total consideration received RM
2013					
January	7.32	15.00	3.50	41,000	300,000

At 31 December 2013, the Group held 479,000 (2012: 520,000) of the Company's shares.

Note	Reference	Explanatory note
1.	7.10, 11	<p>An entity discloses the following if a financial liability is designated at fair value through profit or loss:</p> <ul style="list-style-type: none"> the change in fair value of the financial liability, during the period and cumulatively, that is attributable to changes in credit risk, and the method used to comply with this disclosure requirement; if the entity believes that this disclosure does not represent faithfully the change in fair value attributable to changes in credit risk, then it discloses the reasons therefore and the relevant factors the difference between the carrying amount of the financial liability and the amount that the entity is contractually required to pay at maturity.
2.	101.74-76	<p>When a breach of a loan agreement occurred during the period, and the breach has not been remedied or the terms of the loan payable have not been renegotiated by the end of the reporting period, the entity determines the effect of the breach on the current/non-current classification of the loan payable.</p>
	7.18	<p>For loans payable recognised at the end of the reporting period, an entity discloses:</p> <ul style="list-style-type: none"> details of any defaults during the period of principal, interest, sinking fund, or redemption terms of those loans payable; the carrying amount of the loans payable in default at the end of the reporting period; and whether the default was remedied, or that the terms of the loans payable were renegotiated, before the financial statements were authorised for issue.
	7.19	<p>If, during the period, there were breaches of loan agreement terms other than those described in MFRS 7.18, an entity shall disclose the same information as required by MFRS 7.18 if those breaches permitted the lender to demand accelerated repayment (unless the breaches were remedied, or the terms of loan were renegotiated, on or before the reporting date).</p>
3.	101.73	<p>An entity continues to classify its long-term interest-bearing liabilities as non-current, even if they are due to be settled within 12 months of the end of the reporting period, if an entity expects and is able, solely at its own discretion, to refinance or roll over an obligation for at least 12 months after the end of the reporting period under an existing loan facility.</p>
4.	7.17	<p>If an entity has issued an instrument that contains both a liability and an equity component and the instrument has multiple embedded derivative features the values of which are interdependent (such as a callable convertible debt instrument), then an entity discloses the existence of those features.</p>

16.1 Bank loans

Security

116.74(a),
9Sch2(1)(n) The bank loans are secured over land and buildings (see note 3), investment properties (see note 4) and inventories (see note 11).

Breach of loan covenant^{2,3}

7.19 The Group has a secured bank loan that amounts to RM20,000,000 at 31 December 2013. According to the terms of the agreement, this loan is repayable in tranches over the next 5 years. However, the loan contains a debt covenant stating that at the end of each quarter, the Group's net debt (in the covenant defined as the Group's loans and borrowings net of cash and cash equivalents) cannot exceed 0.5 times of total equity. At 31 December 2013, the Group's debt to equity ratio was 0.6 (see note 32). Consequently, the entire loan has been classified as current liability and the management is currently negotiating with the bank to waive the covenant.

46,222

7.17, 132.38 The amount of the convertible notes classified as equity of RM2,400,000 is net of attributable transaction costs of RM100,000.

The convertible notes are convertible into 2,500,000 ordinary shares of RM1 each in June 2017 at the option of the holder, which is at a rate of one (1) ordinary share of RM1 each for every twenty (20) convertible notes held; unconverted notes become repayable on demand.

The convertible notes carry a coupon rate of 6.5% per annum.

Note Reference **Explanatory note**

1.	IC 2.13	When a change in prohibition against redemption of a financial instrument leads to a transfer between financial liabilities and equity, the entity discloses separately the amount, timing and reason for the transfer.
2.	117.31(d)	An entity discloses the total of future minimum sublease payments expected to be received under non-cancellable subleases at the end of the reporting period. A sublease must be accounted for separately if there is no right of set off.
	117.31(e)	A general description of the lessee's material leasing arrangements is required, including but not limited to the following: <ul style="list-style-type: none"> • the basis on which contingent rent payable is determined; • the existence and terms of renewal or purchase options and escalation clauses; and • restrictions imposed by lease arrangements such as those concerning dividends, additional debts and further leasing.

Reference Notes to the financial statements

9Sch2(1)(n) **16. Loans and borrowings (continued)**
16.3 Redeemable preference shares¹

	Group and Company	
	Amount	Number of
	2013 RM'000	2013 '000
Issued and fully paid shares classified as debt instruments:		
Redeemable preference shares of RM1 each		
At 1 January	-	-
Issued for cash	20,000	20,000
Transaction costs	(52)	-
At 31 December	19,948	20,000

- 101.79(a)(v) The salient features of the redeemable preference shares are as follows:
- they do not carry the right to vote, except for variation of holders' rights to the class of shares,
 - they rank equally with other shares with regard to the Company's residual assets, except that holders of redeemable preference shares participate only to the extent of the par value of the shares,
 - the holders are entitled to receive dividends,
 - they are not convertible to ordinary shares,
 - they are redeemable at the option of the holder on or after 31 May 2019 at RM1 each, and
- 9Sch2(1)(b) • the Group is obliged to pay holders of redeemable preference shares annual dividends of 4.4% of the par amount on 31 May each year until and including upon maturity.

16.4 Finance lease liabilities²

117.31(b) Finance lease liabilities are payable as follows:
9Sch2(3) **Group**

	Future		Present		Future		Present	
	minimum	Interest	value of	Interest	minimum	Interest	value of	Interest
	lease		minimum		lease		minimum	
	payments	2013	payments	2013	payments	2012	payments	2012
<i>In thousands of RM</i>								
Less than one year	5,350	2,350	3,000	15,310	2,620	12,690		
Between one and five years	11,280	3,430	7,850	11,240	3,850	7,390		
More than five years	10,000	1,720	8,280	5,310	3,570	1,740		
	26,630	7,500	19,130	31,860	10,040	21,820		

117.31(e) Included in the Group's finance lease liabilities are leases of production plant and equipment amounting to RM15,800,000 (2012: RM12,300,000) under finance leases expiring from one to nine years. At the end of the lease term, the Group has the option to purchase the equipment at 60% of market value, a price deemed to be a bargain purchase option. The terms of the leases require that additional debt and further leases are not undertaken without prior approval of the lessor.

16.5 Loan from associate

124.18(b)(i) Loan from associate was unsecured, subject to interest at 8% per annum and payable on 30 June 2014. During the financial year, the Group fully settled the loan.

Note Reference Explanatory note

1.	119.133	Entities are not required to split post-employment benefit assets and liabilities into current and non-current classifications.
	119.138	<p>An entity shall assess whether all or some disclosures should be disaggregated to distinguished plans or groups of plans with materially different risks. For example, an entity may disaggregate disclosure about plans showing one or more of the following features:</p> <ul style="list-style-type: none"> • different geographical locations • different characteristics such as flat salary pension plans, final salary pension plans or post employment medical plans • different regulatory requirements • different reporting segments • different funding arrangements (e.g. wholly unfunded, wholly or partly funded)
	119.34, 148(d)	<p>For any multi-employer defined benefit plans for which sufficient information is not available to use defined benefit accounting, an entity should disclose the following:</p> <ul style="list-style-type: none"> • the fact that the plan is a defined benefit plan. • the reason why sufficient information is not available to enable the entity to account for the plan as a defined benefit plan. • the expected contributions to the plan for the next annual reporting period. • information about any deficit or surplus in the plan that may affect the amount of future contributions, including the basis used to determine that deficit or surplus and the implications, if any, for the entity. • an indication of the level of participation of the entity in the plan compared with other participating entities. Examples of measures that might provide such indication include the entity's proportion of the total contributions to the plan or the entity's proportion of the total number of active members, retired members, and former members entitled to benefits, if that information is available.
2.	119.93	<p>For contributory plans, the accounting requirements are as follows:</p> <p>Contributions from employees set out in the formal terms of the plan either reduce service cost (if they are linked to service) or reduce remeasurements of the net defined benefit liability (asset) (e.g. if the contributions are required to reduce a deficit arising from losses on plan assets or actuarial losses).</p> <p>Employee contributions in respect of service are attributed to periods of service as a negative benefit under the plan's benefit formula. However, if an employee's service in later years will lead to a materially higher benefit than in earlier years, then an entity is required to attribute benefit on a straight-line basis from:</p> <ul style="list-style-type: none"> • the date when service by the employee first leads to benefits under the plan (whether or not the benefits are conditional on future service); until • the date when further service will lead to no material amount of further benefits under the plan, other than from further salary increases.

Reference Notes to the financial statements

17. Employee benefits¹

17.1 Retirement benefits

		Group	
	<i>In thousands of RM</i>	2013	2012
Net defined benefit liability		17,000	15,490
Liability for long-service leave		6,470	5,610
<i>Cash-settled share-based payment liability</i>		XXX	XXX
Total employee benefit liabilities		23,470	21,100

119.139(a) The Group makes contributions to two non-contributory defined benefit plans² that provide pension and medical benefits for employees upon retirement. The plan entitles a retired employee to receive an annual payment equal to 1/60 of final salary for each year of service that the employee provided, and to the reimbursement of certain medical costs.

119.139(b) The defined benefit plans expose the Group to actuarial risks, such as longevity risk, currency risk, interest rate risk and market (investment) risk.

Funding

119.147(a) The plan is fully funded by the Group's subsidiaries, except for the separate defined benefit plan for directors and executive officers which is funded by the parent company. The funding requirements are based on the pension fund's actuarial measurement framework set out in the funding policies of the plan. The funding of the plan is based on a separate actuarial valuation for funding purpose for which the assumptions may differ from the assumptions above. Employees are not required to contribute to the plans.

119.147(b) The Group expects to pay RM350,000 in contributions to its defined benefit plans in 2014.

Movement in net defined benefit liability^{3, 4, 5}

The following table shows a reconciliation from the opening balance to the closing balance for net defined benefit liability and its components.

	Group	Defined benefit obligation		Fair value of plan assets		Net defined benefit liability	
	<i>In thousands of RM</i>	2013	2012	2013	2012	2013	2012
119.140	Balance at 1 January	20,390	19,130	(4,900)	(5,000)	15,490	14,130
	Included in profit or loss						
119.141(a)	Current service cost	4,120	4,010	-	-	4,120	4,010
119.141(b)	Past service credit	1,000	1,200	-	-	1,000	1,200
119.141(c)	Interest cost/(income)	460	40	(360)	(300)	100	(260)
		5,580	5,250	(360)	(300)	5,220	4,950
	Included in other comprehensive income						
119.141(c)	Remeasurement (loss)/gain						
	- Actuarial loss/(gain) arising from:						
119.141(c)(ii)	- Demographic assumptions	(250)	50	-	-	(250)	50
119.141(c)(iii)	- Financial assumptions	(300)	230	-	-	(300)	230
	- Experience adjustments	(120)	170	-	-	(120)	170
119.141(c)(i)	- Return on plan assets excluding interest income	-	-	(50)	(300)	(50)	(300)
119.141(e)	<i>Effect of movements in exchange rate</i>	XXX	XXX	XXX	XXX	XXX	XXX
		(670)	450	(50)	(300)	(720)	150
	Other						
119.141(f)	Contributions paid by the employer	-	-	(2,990)	(3,740)	(2,990)	(3,740)
119.141(g)	Benefits paid	(3,740)	(4,440)	3,740	4,440	-	-
		(3,740)	(4,440)	750	700	(2,990)	(3,740)
119.140	Balance at 31 December	21,560	20,390	(4,560)	(4,900)	17,000	15,490

119.139(c) In 2013, the pension arrangements for a number of employees in France have been adjusted to reflect new legal requirements in that country. As a consequence of the change in the retirement age, a past service cost (credit) was recognised immediately in the profit or loss.

Note Reference **Explanatory note**

3.	119.140, 141	<p>If applicable an entity discloses the following in a separate reconciliation of the opening and closing balances of the present value of the defined benefit obligations, plan assets, the effect of the asset ceiling and any reimbursement rights.</p> <ul style="list-style-type: none"> • current service cost • interest income or expense • remeasurement of the net defined liability (asset), showing separately <ul style="list-style-type: none"> - the return on plan assets - actuarial gains and losses arising from changes in demographic assumptions - actuarial gains and losses arising from changes in financial assumptions - changes in the effect of limiting a net defined benefit asset to the asset ceiling • past service cost and gains and losses arising from settlements • the effect of changes in foreign exchange rates • contribution to the plan, showing separately those by the employer and by plan participants • payments from the plan, showing separately the amount paid in respect of any settlements • the effect of business combinations and disposals
4.	119.147(c)	This disclosure may also include other information about the distribution of the timing of benefit payments, such as a maturity analysis of the benefit payments.
5.	119.130	Administration expenses do not include the cost of managing the plan assets. These costs are deducted from the return on plan assets.
6.	119.144	Significant actuarial assumptions are disclosed in absolute terms and not just as a margin between different percentages or other variables. When an entity provides disclosures in total for a grouping of plans, it shall provide such disclosures in the form of weighted averages or narrow ranges.

119.143	Company's own ordinary shares
---------	-------------------------------

Property occupied by the Group

Company's own ordinary shares

All equity securities and government bonds have quoted price in active markets. All government bonds are issued by Malaysian government and are rated AAA or AA, based on rating agency XYZ's ratings.

119.146	At each reporting date, an Asset-Liability Matching study is performed by the pension fund's asset manager in which the consequences of the strategic investment policies are analysed. The strategic investment policy of the pension fund can be summarised as follows:
---------	---

- a strategic asset mix comprising 40-50% equity securities, 40-50% government bonds and 0-10% other investments;
- interest rate risk is managed with the objective of reducing the cash flow interest rate risk by 40% through the use of debt instruments (government bonds) and interest rate swaps;
- currency risk is managed with the objective of reducing the risk by 30% through the use of forward foreign currency contracts; and
- longevity risk is managed with the objective of reducing the risk by 25% through the use of longevity swaps.

Defined benefit obligation

Actuarial assumptions⁶

101.125 **Actuarial assumptions⁶**
Principal actuarial assumptions at the end of the reporting period (expressed as weighted averages):

Principal actuarial assumptions at the end of the reporting period (expressed as weighted averages):

	Group	
	2013	2012
Discount rate	5.1%	4.8%
Future salary growth	2.5%	2.5%
Medical cost trend rate	4.5%	4.0%
Future pension growth	3.0%	2.0%

119.144 Assumptions regarding future mortality are based on published statistics and mortality tables. The average life expectancy of an individual retiring at age 60 is 18 (2012: 18) for males and 22 (2012: 20) for females at the end of the reporting date.

At 31 December 2013, the weighted-average duration of the defined benefit obligation was 17.1 years (2012: 17.5 years).

This page has been left blank intentionally.

17.2 Share-based payments arrangement¹

Share option programme (equity settled)

2.45(a) On 1 January 2007, 1 January 2012 and 1 January 2013, the Group granted share options to qualified key management personnel to purchase shares in the Company under the Employees Share Option Scheme approved by the shareholders of the Company on 1 October 2006. On 1 January 2013, the Group further granted share options on similar terms (except for exercise price) to qualified senior employees. In accordance with these programmes, holders of vested options are entitled to purchase shares at the market price of the shares at the date of grant.

The terms and conditions related to the grants of the share option programme are as follows; all options are to be settled by physical delivery of shares:

	Grant date/employees entitled	Number of options ('000)	Vesting conditions	Contractual life of options
2.45(a)	Option grant to key management on 1 January 2007	4,000	3 years' of service and 5% increase in operating income in each of the 3 years	10 years
	Option grant to key management on 1 January 2012	2,000	3 years' service and 5% increase in operating income in each of the 3 years	6 years
	Option grant to key management on 1 January 2013	1,000	3 years' service and 5% increase in operating income in each of the 3 years	5 years
	Option grant to senior employees on 1 January 2013	1,000	3 years' service	5 years
	Total share options	<u>8,000</u>		

2.45(b) The number and weighted average exercise prices of share options are as follows:²

		Weighted average exercise price 2013	Number of options ('000) 2013	Weighted average exercise price 2012	Number of options ('000) 2012
2.45(b)(i)	Outstanding at 1 January	RM9.17	6,000	RM9.00	4,000
2.45(b)(ii)	Granted during the year	RM12.00	2,000	RM9.50	2,000
2.45(b)(iii)	Forfeited during the year	RM9.20	(500)	-	-
2.45(b)(iv)	Exercised during the year	RM9.00	(50)	-	-
2.45(b)(v)	Outstanding at 31 December	RM9.93	<u>7,450</u>	RM9.17	<u>6,000</u>
2.45(b)(vii)	Exercisable at 31 December	RM9.00	<u>3,650</u>	RM9.00	<u>4,000</u>

2.45(d) The options outstanding at 31 December 2013 have an exercise price in the range of RM9.00 to RM12.00 (31 December 2012: RM9.00 to RM9.50) and a weighted average contractual life of 7.2 years (31 December 2012: 8.3 years).

2.45(c) During the financial year, 50,000 share options were exercised. The weighted average share price at the date of exercise for the year was RM9.00 (2012: no options exercised).

Note Reference **Explanatory note**

1.	2.10, 11	For equity-settled share-based payment transactions, other than transactions with employees and others providing similar services, an entity measures the goods or services received directly at the fair value of goods and services, unless that fair value cannot be estimated reliably.
	2.48	If the entity has measured the fair value of goods or services received during the period directly, then the entity discloses how that fair value was determined, e.g. whether fair value was measured at a market price for those goods or services.
	2.49	If goods and services received in transactions, other than with employees and others providing similar services, were measured at the fair value of equity instruments granted because the fair value of the goods and services could not be estimated reliably, then the entity discloses that fact and discloses why the fair value could not be measured reliably.
	2.47(b), (c)	If the fair value of goods and services received was measured based on the fair value of equity instruments granted, then an entity discloses the number and weighted average fair value at the measurement date of any equity instruments other than share options, as well as the nature and incremental fair value and of any modifications made to share-based payment arrangements during the period.
2.		Deferred income related to a government grant generally is classified as a non-current liability. The portion that will be recognised in profit or loss in the next year is shown as a current liability.
3.	120.39(c)	An entity discloses any unfulfilled condition and other contingencies attaching to government assistance that has been recognised.

Reference Notes to the financial statements

17. Employee benefits (continued)

17.2 Share-based payments arrangement (continued)

2.46 The fair value of services received in return for share options granted is based on the fair value of share options granted, measured using a binomial lattice model, with the following inputs:¹

	Fair value of share options and assumptions	Key management personnel		Senior employees	
		2013	2012	2013	2012
2.46	Fair value at grant date	RM4.50	RM4.00	RM3.90	-
2.47(a)(i)	Weighted average share price	RM12.00	RM10.50	RM12.00	-
	Share price at grant date	RM12.00	RM10.50	RM12.00	-
	Expected volatility (weighted average volatility) ¹	42.5%	40.9%	42.5%	-
	Option life (expected weighted average life)	4.6 years	5.8 years	4.4 years	-
	Expected dividends	3.2%	3.2%	3.2%	-
	Risk-free interest rate (based on Malaysian government bonds)	3.9%	3.8%	3.9%	-

Value of employee services received for issue of share options

		Group	
<i>In thousands of RM</i>		2013	2012
2.51(a)	Share options granted in 2008	(600)	-
2.51(a)	Share options granted in 2012	1,900	2,500
2.51(a)	Share options granted in 2013	2,800	-
2.51(a)	Total expense recognised as share-based payments	4,100	2,500

The share options expense is not recognised in the profit or loss of the Company as it has been re-charged to the subsidiaries benefiting from the services of the employees.

18. Deferred income

		Group	
<i>In thousands of RM</i>		2013	2012
Non-current²			
	Government grant	14,620	15,000
Current			
	Amount due to contract customers	1,400	1,300
		16,020	16,300

Government grant³

120.39(b) The Group received a government grant in 2010 which was conditional upon the construction of a factory on a specified site. The factory commenced its operations since late 2013. The grant is being amortised over the useful life of the building. During the financial year, RM380,000 (2012: Nil) has been amortised and recognised as other income in profit or loss.

Note Reference **Explanatory note**

1.	137.92	In extremely rare cases, disclosure of some or all of the information required in respect of provisions can be expected to prejudice seriously the position of the entity in a dispute with other parties. In such cases only the following is disclosed: <ul style="list-style-type: none"> the general nature of the dispute; the fact that the required information has not been disclosed; and the reason why the required information has not been disclosed.
	137.85	An entity discloses the following for each class of provision: <ul style="list-style-type: none"> a brief description of the nature of the obligation and the expected timing of any resulting outflows of economic benefits an indication of the uncertainties about the amount or timing of those outflows; where necessary to provide adequate information, the major assumptions made concerning future events the amount of any expected reimbursement, stating the amount of any asset that has been recognised in that regard.
	137.84	There is no requirement to disclose comparative information in the reconciliation of provisions.
2.		In our view, the reversal of a provision is presented in the same line item in the statement of profit or loss and other comprehensive income as the original estimate.
	101.98(f), (g)	An entity discloses separately items of income and expenses related to reversals of provisions and litigation settlements.
3.	137.9	MFRS 137, <i>Provisions, Contingent Liabilities and Contingent Assets</i> applies to provisions for restructuring, including in the context of discontinued operations. When a restructuring meets the definition of a discontinued operation, additional disclosures may be required by MFRS 5, <i>Non-current Assets Held for Sale and Discontinued Operations</i> .

		2,800	4,000	8,100	1,600	200	16,700

Warranties

- 137.85(a), (b) The provision for warranties relates mainly to paper sold during the financial years ended 31 December 2012 and 2013. The provision is based on estimates made from historical warranty data associated with similar products and services. The Group expects to incur most of the liability over the next financial year. An expected reimbursement of warranty expense incurred of RM250,000 has been recognised in other receivables following a supplier accepting responsibility for the defective products.

Restructuring³

- 137.85(a), (b)
101.98(b),
125 During the financial year ended 31 December 2012, the Group committed to a plan to restructure one of the product lines in the American paper manufacturing and distribution division due to a decrease in demand as a result of deteriorated economic circumstances. Following the announcement of the plan, the Group recognised a provision of RM5,000,000 for expected restructuring costs, including contract termination costs, consulting fees and employee termination benefits. Estimated costs were based on the terms of the relevant contracts. RM5,000,000 was charged against the provision in 2013. The restructuring was completed in 2013.

During the financial year ended 31 December 2013, a provision of RM4,000,000 was made to cover the costs associated with restructuring part of a manufacturing facility within the Standard Paper's operating segment that will be retained when the remainder of the facility is sold (see note 14). Estimated restructuring costs mainly include employee termination benefits and are based on a detailed plan agreed between management and employee representatives. The restructuring and the sale are expected to be completed by June 2014.

Note Reference **Explanatory note**

1.	IC 5.11	An entity discloses its interest in and the nature of any decommissioning, restoration, and environmental rehabilitation funds, as well as any restrictions on access to the funds' assets.
	137.85(c), IC 5.13	If a right to receive reimbursement from the fund has been recognised as an asset, then an entity discloses the amounts of the asset and expected reimbursement.
	137.86, IC 5.12	If an obligation to make contributions to the fund has not been recognised as a liability, then an entity discloses the estimated financial effect of the obligation, a description of uncertainties related to the amount or timing of contributions, and any possible reimbursement.

Reference Notes to the financial statements

19. Provisions (continued)

Site restoration¹

137.85(a),
101.125 A provision of RM9,000,000 was made during the financial year ended 31 December 2012 in respect of the Group's obligation to rectify environmental damage in Romania. The required work was completed during 2013 at a cost of RM5,000,000. The unused provision of RM4,000,000 was reversed.

137.85(a), (b) In accordance with Romanian law, land contaminated by the subsidiary in Romania must be restored to its original condition before the end of 2017. During the financial year ended 31 December 2013, the Group provided RM7,500,000 for this purpose. Because of the long-term nature of the liability, the biggest uncertainty in estimating the provision is the costs that will be incurred. In particular, the Group has assumed that the site will be restored using technology and materials that are available currently. The Group has estimated a range of reasonably possible outcomes of the total cost which range from RM6,500,000 to RM8,500,000, reflecting different assumptions about pricing of the individual components of the cost. The provision has been calculated using a discount rate of 10%, which is the risk-free rate in the jurisdiction of the liability. The rehabilitation is expected to occur progressively within the next four years.

Onerous contracts

137.85(a), (b) In 2012, the Group entered into a non-cancellable lease for office space which, due to changes in its activities, the Group ceased to use by 31 December 2013. The lease expires in 2016. The facilities have been sublet for the remaining lease term, but changes in market conditions have meant that the rental income is lower than the rental expense (see note 33). The obligation for the discounted future payments, net of expected rental income, has been provided for.

Legal

137.85, 3.23 As a result of the acquisition of Papyrus Pty Limited (see note 37), the Group assumed a contingent liability related to a legal action by a former employee of Papyrus Pty Limited.

* Not applicable for the Company

101.122,
118.8, IE21 Commission relates to the sale of products where the Group acts as an agent in the transaction rather than as the principal.² Management considered the following factors in distinguishing between an agent and a principal:

- The Group does not take title of the goods and has no responsibility in respect of the goods sold.
- Although the Group collects the revenue from the customer, all credit risk is borne by the supplier of the goods.
- The Group cannot vary the selling prices set by the supplier by more than 1%.

Note Reference **Explanatory note**

1.	IC 125.4	A change in the tax status of an entity or its shareholders does not give rise to increases or decreases in amounts recognised directly in equity, unless those consequences relate to transactions and events that result in a direct credit or charge to the recognised amount of equity. Those tax consequences that relate to changes in the recognised amount of equity, in the same or a different period (not included in net profit or loss), are charged or credited directly to equity.
2.	9Sch1(l)(iii)	Any relief granted because of double deduction is to be distinguished from provision made for all taxes on income.
3.	112.80(h)	An entity discloses the amount of income tax expense (income) relating to those changes in accounting policies and errors that are included in the determination of profit or loss in accordance with MFRS 108, <i>Accounting Policies, Changes in Accounting Estimates and Errors</i> because they cannot be accounted for retrospectively.
4.	112.80(e)	In the reconciliation of the current year's tax expense, any benefit arising from a previously unrecognised tax loss, tax credit or temporary difference of a prior period that is used to reduce current tax expense, are disclosed separately.
5.	112.80(g)	Any deferred tax expenses arising from the write-down, or reversal of a previous write-down, of a deferred tax asset are disclosed separately.

Note	Reference	Explanatory note
------	-----------	------------------

1.	112.85	The reconciliation of the effective tax expense is based on an applicable tax rate that provides the most meaningful information to users. In these illustrative financial statements, the reconciliation is based on the entity's domestic tax rate, with a reconciliation item in respect of tax rates applied by the Group entities in other jurisdictions. However, in some cases, it might be more meaningful to aggregate separate reconciliations prepared using the domestic tax rate in each individual jurisdiction.
2.		In these illustrative financial statements, total income tax expense for the purpose of reconciliation of the effective tax rate includes income tax expense of the Group and income tax expense of equity-accounted investees. A different presentation of the reconciliation that excludes tax expense of equity-accounted investees is also commonly used.

Note Reference **Explanatory note**

1.	5.35	The nature and amount of any adjustments related to the disposal of discontinued operations in prior periods are classified and disclosed separately.
2.		In some cases there may be transactions between the continuing and discontinued operations, for example intra-segment sales and purchases. If the transactions between the continuing and discontinued operations are expected to continue after the operations are disposed of, then in our view the presentation of the discontinued operation should reflect the continuance of the relationship as such information enables users of the financial statements to evaluate the financial effects of the discontinued operations.
3.	5.33(b)	This information is not required to be presented for disposal groups that are newly acquired subsidiaries that meet the criteria to be classified as held for sale on acquisition.
4.	9Sch1	The Ninth Schedule of the Companies Act, 1965 requires such information to be disclosed regardless of whether it arises from discontinued operation.
5.	5.33(c)	The net cash flow attributable to the operating, investing and financing activities of discontinued operations instead may be disclosed separately in the statement of cash flows.
	5.33(c)	This information need not be presented for a newly acquired subsidiary that is classified as held for sale on acquisition.
6.	127.41(f)	<p>If control of a subsidiary is lost, the parent discloses the gain or loss, if any:</p> <ul style="list-style-type: none"> (i) the portion of that gain or loss attributable to recognising any investment retained in the former subsidiary at its fair value at the date when control is lost; and (ii) the line item(s) in the statement of profit or loss and other comprehensive income in which the gain or loss is recognised (if not presented separately in the statement of profit or loss and other comprehensive income).

Reference Notes to the financial statements

5.41(a), (b), (d)	25. Discontinued operation¹/Disposal of subsidiary	In May 2013, the Group sold its entire Packaging operating segment. The segment was not a discontinued operation or classified as held for sale as at 31 December 2012 and the comparative consolidated statement of profit or loss and other comprehensive income has been re-presented to show the discontinued operation separately from continuing operations. Management committed to a plan to sell this segment in early 2013 due to the strategic decision to place greater focus on the Group's core operation, being the manufacture of paper used in the printing industry.		
101.98(e)	Profit attributable to the discontinued operation was as follows: Results of discontinued operation^{2,3} <i>In thousands of RM</i>

Note Reference **Explanatory note**

1.		In these illustrative financial statements, this note is used to primarily capture disclosures required by Ninth Schedule of the Companies Act, 1965 and has been referenced to the “profit for the year” line since we are of the view that the disclosures should include charges or credit arising from discontinued operations. It may be appropriate to reference this note to “results from operating activities” line if the disclosures are separate for discontinued operations or where there are no discontinued operations.
2.	A9C Part A(18)	A9C Part A (18) requires the disclosure of the amount of non-audit fees paid to external auditors or company affiliated to the audit firm for the financial year. Bursa Malaysia did not define the term “affiliated”. We are of the view that the term should be interpreted broadly.
3.	101.87, 97	An entity does not present any items of income or expense as extraordinary items, in the statements presenting profit or loss and other comprehensive income, or in the notes. Exceptional events such as a flood are part of the normal business risks faced by an entity and do not warrant presentation in a separate component of the statement of profit or loss. In addition, an entity is required to disclose the nature and the amount of materials items of income and expense.
4.	9Sch1(f)(iii)	Ninth Schedule of the Companies Act, 1965 requires disclosure of amount charged for impairment of investments. We are of the view that this amount should include the impairment loss reclassified from equity on instruments categorised as available-for-sale.
5.	121.52(a)	An entity discloses the amount of exchange differences recognised in profit or loss except for those arising on financial instruments measured at fair value through profit or loss in accordance with MFRS 139.

	Profit/(Loss) attributable to ordinary shareholders	59,450	3,790	63,240	52,980	(4,220)	48,760

	<i>In thousands of shares</i>	Group	
		2013	2012
133.70(b)	Weighted average number of ordinary shares at 31 December ³	93,571	92,653

	<i>In sen</i>	Group	
		2013	2012
	From continuing operations	63.5	57.2
133.68	From discontinued operation	4.1	(4.6)
	Basic earnings per ordinary share	67.6	52.6

Diluted earnings/(loss) per ordinary share

The calculation of diluted earnings/(loss) per ordinary share at 31 December 2013 was based on profit/(loss) attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding after adjustment for the effects of all dilutive potential ordinary shares, calculated as follows:

133.70(a)	Profit/(Loss) attributable to ordinary shareholders (diluted) ⁴						
	Group	/----- 2013 -----/			/----- 2012 -----/		
		Continuing operations	Discontinued operation	Total	Continuing operations	Discontinued operation	Total
	<i>In thousands of RM</i>						
	Profit/(Loss) attributable to ordinary shareholders (basic)	59,450	3,790	63,240	52,980	(4,220)	48,760
	Interest expense on convertible notes, net of tax	622	-	622	-	-	-
	Profit/(Loss) attributable to ordinary shareholders (diluted)	60,072	3,790	63,862	52,980	(4,220)	48,760

Note Reference **Explanatory note**

1.	133.41	Potential ordinary shares are treated as being dilutive only when their conversion to ordinary shares would decrease earnings (increase loss) per share from continuing operations.
	133.58, 60	All financial instruments or other contracts that may result in the issuance of ordinary shares of the reporting entity to the holder of the financial instrument or other contracts, at the option of the issuer or the holder are potential ordinary shares of the entity.
2.	133.45	For the purpose of calculating diluted earnings per share, an entity assumes the exercise of dilutive options and other dilutive potential ordinary shares of the entity. The assumed proceeds from the issue are deemed to have been received at fair value. The difference between the number of ordinary shares issued and the number of shares that would have been issued at their fair value is treated as an issue of ordinary shares for no consideration.
3.	110.13	If the dividends are declared after the end of the reporting period but before the financial statements are authorised for issue, the dividends are not recognised as a liability at the end of the reporting period because no obligation exists at that time.

Note Reference **Explanatory note**

1.	8.2, 3	An entity is required to present segment information if its securities are publicly traded, or if it is in the process of issuing equity or debt securities in public securities markets. Other entities may choose to present segment information, but such entities should not describe information as segment information unless this information complies fully with MFRS 8, <i>Operating Segments</i> .
2.	8.23	<p>Entities are required to disclose the following about each reportable segment if the specified amounts are included in the measure of profit or loss reviewed by the chief operating decision maker ("CODM"), or are otherwise provided regularly to the CODM, even if not included in that measure of segment profit or loss:</p> <ul style="list-style-type: none"> • revenues from external customers; • revenues from transactions with other operating segments of the same entity; • interest revenue; • interest expense; • depreciation and amortisation; • material items of income and expense disclosed in accordance with paragraph 97 of MFRS 101, <i>Presentation of Financial Statements</i>; • the entity's interest in the profit or loss of associates and joint ventures accounted for by the equity method; • income tax expense or income; and • material non-cash items other than depreciation and amortisation.
3.	8.23	An entity shall report a measure of total assets and liabilities for each reportable segment only if such amounts are regularly provided to the chief operating decision maker.
4.		In these illustrative financial statements the packaging segment, which is also a discontinued operation, is presented as an operating segment.

Reference Notes to the financial statements

30. Operating segments^{1, 2}

8.20-22, A The Group has five reportable segments, as described below, which are the Group's strategic business units. The strategic business units offer different products and services, and are managed separately because they require different technology and marketing strategies. For each of the strategic business units, the Group's Chief Executive Officer (the chief operating decision maker) reviews internal management reports at least on a quarterly basis. The following summary describes the operations in each of the Group's reportable segments:

- *Standard Papers* Includes purchasing, manufacturing and distributing pulp and paper.
- *Recycled Papers* Includes purchasing, recycling and distributing pulp and paper.
- *Packaging* Includes designing and manufacturing packaging materials; this segment was sold in May 2013 (see note 25).⁴
- *Paper Products* Includes manufacturing and distribution of paper bags, paper boxes, wallpaper materials and consumable paper products.
- *Research and Development* Includes research and development activities.

Other non-reportable segments comprise operations related to construction and rental of investment property.

8.27(a) There are varying levels of integration between Paper Products reportable segments and the Standard Papers and Recycled Papers reportable segments. This integration includes transfers of raw materials and shared distribution services, respectively. Inter-segment pricing is determined on negotiated basis.

8.20, 23, 25, 27 Performance is measured based on segment profit before tax, interest, depreciation and amortisation, as included in the internal management reports that are reviewed by the Group's Chief Executive Officer (the chief operating decision maker). Segment profit is used to measure performance as management believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries.

Segment assets³

8.23, 27 The total of segment asset is measured based on all assets (including goodwill) of a segment, as included in the internal management reports that are reviewed by the Group's Chief Executive Officer. Segment total asset is used to measure the return on assets of each segment.

Segment liabilities³

8.23 Segment liabilities information is neither included in the internal management reports nor provided regularly to the Group's Chief Executive Officer. Hence, no disclosure is made on segment liability.

Segment capital expenditure

Segment capital expenditure is the total cost incurred during the financial year to acquire property, plant and equipment, and intangible assets other than goodwill.

Note Reference **Explanatory note**

1.	8.IG5	Because the Group's reportable segments are based on differences in products and services, no additional disclosures of revenue information about products and services are required, i.e. the disclosures required in MFRS 8.32 with regard to revenue from external customers for each product or service, or each group of similar products and services, are provided already in the overall table on information about reportable segments.
2.	8.23	An entity reports interest revenue separately from interest expense for each reportable segment unless a majority of the segment's revenues are from interest, and the CODM relies primarily on net interest revenue to assess the performance of the segment and to make decisions about resources to be allocated to the segment. In that situation, an entity may report that segment's interest revenue net of interest expense, and disclose that it has done so.

Note	Reference	Explanatory note
------	-----------	------------------

1.	8.16	MFRS 8 requires that information about other business activities and operating segments that are not reportable be combined and disclosed in an “all other segments” category separate from other reconciling items in the reconciliations required by MFRS 8.28. The sources of the revenue included in the “all other segments” category are described. In our view, business activities which do not meet the definition of an operating segment (e.g. corporate activities) are not included in the “all other segments” category; instead the amounts for these activities are reported in the reconciliation of the total reportable segment amounts to the financial statements.

	(7,385)	(12,676)	(112)	1,650

Note	Reference	Explanatory note
1.	7.34(a)	MFRS 7 requires the disclosure of risk information in a format based on the information provided internally to key management personnel of the entity (as defined in MFRS 124, <i>Related Party Disclosures</i> , e.g. the entity's board of directors or chief executive officer).
	7.34(c)	An entity discloses concentrations of risk if not apparent from disclosures required by MFRS 7.34(a) and (b).
	7.35, IG20	If the quantitative data at the end of the reporting period are not representative, then an entity provides further information that is representative such as the entity's average exposure to risk during the financial year. For example, if an entity's business is seasonal and the balance of loans and receivables fluctuates materially during the financial year, then a sensitivity analysis based solely on the position at the end of the reporting period would not be representative.
2.	7.36, B2	The disclosures in respect of credit risk apply to each "class" of financial asset, which is not defined in MFRS 7. In determining classes of financial instruments, an entity shall at a minimum distinguish instruments measured at amortised cost from those measured at fair value and treat as a separate class or classes those financial instruments outside the scope of MFRS 7.
3.	7.36(a), B9	The disclosure of maximum exposure to credit risk ignores any collateral held or other credit enhancement, and is usually the gross carrying amount of the financial asset, net of any amounts offset in accordance with MFRS 132, <i>Financial Instruments: Presentation</i> and any impairment losses recognised in accordance with MFRS 139, <i>Financial Instruments: Recognition and Measurement</i> .
4.	7.36(b)	The disclosure of collateral held as security and other credit enhancements, and their financial effect (e.g. a quantification of the extent to which collateral and other credit enhancements mitigate credit risk) in respect of the amount that best represents the maximum exposure to credit risk.
5.	7.B8, IG18-19	The identification of concentrations of risk requires judgement taking into account the circumstances of the entity. For example, concentrations of credit risk may arise from industry sectors, credit rating or other measures of credit quality, geographical distribution or a limited number of individual counterparties. Therefore, the disclosure of risk concentrations includes a description of the shared characteristics.

Reference Notes to the financial statements

31. Financial instruments (continued)

7.31 **31.3 Financial risk management¹**

The Group has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk

31.4 Credit risk²

7.33(a) Credit risk is the risk of a financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Group's exposure to credit risk arises principally from its receivables from customers and investment in debt securities. The Company's exposure to credit risk arises principally from loans and advances to subsidiaries and financial guarantees given to banks for credit facilities granted to subsidiaries.

Receivables

Risk management objectives, policies and processes for managing the risk

7.33(b) Management has a credit policy in place and the exposure to credit risk is monitored on an ongoing basis. Normally financial guarantees given by banks, shareholders or directors of customers are obtained, and credit evaluations are performed on customers requiring credit over a certain amount.

Exposure to credit risk, credit quality and collateral

7.36(a) As at the end of the reporting period, the maximum exposure³ to credit risk arising from receivables is represented by the carrying amounts in the statement of financial position.

7.36(c) Management has taken reasonable steps to ensure that receivables that are neither past due nor impaired are stated at their realisable values. A significant portion of these receivables are regular customers that have been transacting with the Group. The Group uses ageing analysis to monitor the credit quality of the receivables. Any receivables having significant balances past due more than 60 days, which are deemed to have higher credit risk, are monitored individually.

7.36(b) The Group receives financial guarantees given by banks, shareholders or directors of customers in managing exposure to credit risks. At the end of the reporting period, financial guarantees received by the Group amounted to RM51,258,000 (2012: RM71,553,000) in respect of RM79,668,000 (2012: RM99,670,000) trade receivables. The remaining balance of trade receivables are not secured by any collateral or supported by any other credit enhancements.⁴

7.34(c) The exposure of credit risk for trade receivables as at the end of the reporting period by geographic region was:⁵

<i>In thousands of RM</i>	Group	
	2013	2012
Domestic	42,654	39,652
North America	40,007	55,121
Europe	45,435	78,456
Others	4,580	6,121
	132,676	179,350

Note	Reference	Explanatory note
1.	7.37(a)	An ageing analysis of financial assets that are past due but not impaired as at the end of the reporting period are disclosed for each class of financial asset.
	7.37(b)	An analysis of financial assets that are individually determined to be impaired as at the end of the reporting period, and the factors considered by the entity in determining that the financial asset was impaired, is disclosed for each class of financial asset.
2.	7.16	If an entity recognises an impairment of financial assets resulting from credit losses in a separate account, then the entity discloses a reconciliation of changes in that account during the period for each class of financial asset. In the rare circumstances that an entity does not utilise such an account, then there is no requirement to produce equivalent information.
3.	7.38	When an entity obtains financial or non-financial assets during the period by taking possession of collateral it holds as security or calling on other credit enhancements (e.g. guarantees), and such assets meet the recognition criteria in other standards, an entity discloses for such assets held at reporting date: <ul style="list-style-type: none"> (a) the nature and carrying amount of the assets; and (b) when the assets are not readily convertible into cash, its policies for disposing of such assets or for using them in its operations.
4.		In these illustrative financial statements, the credit quality of other receivables has not been described in view that it is not considered significant to the financial statements.

Reference Notes to the financial statements

31. Financial instruments (continued)

31.4 Credit risk (continued)

Receivables (continued)

Impairment losses^{1, 4}

7.37(a) The Group maintains an ageing analysis in respect of trade receivables only. The ageing of trade receivables as at the end of the reporting period was:

Group				
<i>In thousands of RM</i>	Gross	Individual impairment	Collective impairment	Net
2013				
Not past due	129,461	-	-	129,461
Past due 0-30 days	2,323	-	-	2,323
Past due 31-120 days	4,458	(1,250)	(2,316)	892
Past due more than 120 days	976	(976)	-	-
	137,218	(2,226)	(2,316)	132,676
2012				
Not past due	174,200	-	-	174,200
Past due 0-30 days	5,502	(520)	(2,231)	2,751
Past due 31-120 days	5,539	(800)	(2,340)	2,399
Past due more than 120 days	1,797	(1,797)	-	-
	187,038	(3,117)	(4,571)	179,350

7.16 The movements in the allowance for impairment losses of trade receivables during the financial year were:²

	Group	
<i>In thousands of RM</i>	2013	2012
At 1 January	7,688	8,187
Impairment loss recognised	936	2,332
Impairment loss reversed	(105)	(1,256)
Impairment loss written off	(3,977)	(1,575)
At 31 December	4,542	7,688

7.37(b) At 31 December 2013, there is a significant individual impairment loss of RM750,000 relating to a customer that was declared bankrupt during the financial year. Although the goods sold to the customer were subject to a retention clause, the Group has no indication that the customer is still in possession of the goods.³

7.B5(d) The allowance account in respect of trade receivables is used to record impairment losses. Unless the Group is satisfied that recovery of the amount is possible, the amount considered irrecoverable is written off against the receivable directly.

This page has been left blank intentionally.

31. Financial instruments (continued)

31.4 Credit risk (continued)

Investments and other financial assets

Risk management objectives, policies and processes for managing the risk

7.33(b) Investments are allowed only in liquid securities and only with counterparties that have a credit rating equal to or better than the Group. Transactions involving derivative financial instruments are with approved financial institutions.

Exposure to credit risk, credit quality and collateral

7.34(c), 36(a) As at the end of the reporting period, the Group has only invested in domestic securities. The maximum exposure to credit risk is represented by the carrying amounts in the statement of financial position.

7.36(c) In view of the sound credit rating of counterparties, management does not expect any counterparty to fail to meet its obligations except for the impairment loss recognised in respect of quoted debentures below. The Group does not have overdue investments that have not been impaired.

7.36(b) The investments and other financial assets are unsecured.

Impairment losses

7.16, 37(b), 9Sch3(1)(b) An impairment loss in respect of unsecured quoted debentures of the Group and the Company of RM200,000 (2012: Nil) was recognised during the financial year owing to significant financial difficulties being experienced by the issuer.

The movements in the allowance for impairment loss during the financial year were:

<i>In thousands of RM</i>	Group	
	2013	2012
At 1 January	-	-
Impairment loss recognised	200	-
At 31 December	200	-

Financial guarantees

Risk management objectives, policies and processes for managing the risk

7.33(b) The Company provides unsecured financial guarantees to banks in respect of banking facilities granted to certain subsidiaries. The Company monitors on an ongoing basis the results of the subsidiaries and repayments made by the subsidiaries.

Exposure to credit risk, credit quality and collateral

7.34(c), 36(a) The maximum exposure to credit risk amounts to RM87,331,000 (2012: RM82,409,000) representing the outstanding banking facilities of the subsidiaries as at the end of the reporting period.

7.36(c) As at the end of the reporting period, there was no indication that any subsidiary would default on repayment.

The financial guarantees have not been recognised since the fair value on initial recognition was not material.

This page has been left blank intentionally.

Reference	Notes to the financial statements
	31. Financial instruments (continued) 31.4 Credit risk (continued) Inter-company loans and advances <i>Risk management objectives, policies and processes for managing the risk</i>
7.33(b)	The Company provides unsecured loans and advances to subsidiaries. The Company monitors the results of the subsidiaries regularly.
	<i>Exposure to credit risk, credit quality and collateral</i>
7.34(c), 36(a)	As at the end of the reporting period, the maximum exposure to credit risk is represented by their carrying amounts in the statement of financial position.
7.36(c)	Loans and advances are only provided to subsidiaries which are wholly owned by the Company.
	<i>Impairment losses</i>
	As at the end of the reporting period, there was no indication that the loans and advances to the subsidiaries are not recoverable. The Company does not specifically monitor the ageing of current advances to the subsidiaries. Nevertheless, these advances have been overdue for less than a year. Non-current loans to subsidiaries are not overdue.
	31.5 Liquidity risk
7.33(a)	Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's exposure to liquidity risk arises principally from its various payables, loans and borrowings.
7.33(b), 39(c)	The Group maintains a level of cash and cash equivalents and bank facilities deemed adequate by the management to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they fall due.
7.B10A	It is not expected that the cash flows included in the maturity analysis could occur significantly earlier, or at significantly different amounts.

Note Reference **Explanatory note**

1.	7.B11	In preparing the maturity analyses required by MFRS 7.39(a) and (b), an entity uses its judgement to determine an appropriate number of time bands.
	7.B11C(b)	When an entity is committed to make amounts available in instalments, each instalment is allocated to the earliest period in which the entity can be required to pay.
	7.B11C(a)	When a counterparty has a choice of when an amount is paid, the liability is allocated to the earliest period in which the entity can be required to pay.
	7.B11D	Contractual cash flows are undiscounted and therefore may not agree with the carrying amounts in the statement of financial position.

Note	Reference	Explanatory note
1.	7.33	For each type of risks arising from financial instrument, including market risks (namely currency risk, interest rate risk and other price risk), an entity discloses: (a) the exposures to the risk and how they arise; (b) its objectives, policies and processes for managing the risk and the methods used to measure the risk; and (c) any changes in (a) and (b) from the previous period.
2.	7.34(a)	The disclosure of quantitative data about exposures to risks arising from financial instruments is based on the information provided internally to key management personnel of the entity (as defined in MFRS 124, <i>Related Party Disclosures</i>), for example the entity's board of directors and chief executive officer.
	7.40	MFRS 7 requires a sensitivity analysis of market risks unless the exposure is not material (see MFRS 101 for a discussion of materiality). An entity discloses: (a) a sensitivity analysis for each type of market risk to which the entity is exposed at the end of the reporting period, showing how profit or loss and equity would have been affected by changes in the relevant risk variable that were reasonably possible at the end of the reporting period. The estimation of a reasonably possible change in a relevant risk variable depends on an entity's circumstances; (b) the methods and assumptions used in preparing the sensitivity analysis; and (c) changes from the previous period in the methods and assumptions used, and the reasons for such changes.
	7.41	If an entity prepares a sensitivity analysis, such as value-at-risk, that reflects interdependencies between risk variables (e.g. interest rates and exchange rates) and uses it to manage financial risks, it may use that sensitivity analysis in place of the analysis specified in MFRS 7.40. The entity also discloses: (a) an explanation of the method used in preparing such a sensitivity analysis, and of the main parameters and assumptions underlying the data provided; and (b) an explanation of the objective of the method used and of limitations that may result in the information not fully reflecting the fair value of the assets and liabilities involved.
	7.42	An entity discloses the fact and reasons when the sensitivity analyses are unrepresentative of a risk inherent in a financial instrument, for example, because the year end exposure does not reflect the exposure during the financial year.

Reference Notes to the financial statements

31. Financial instruments (continued)

31.6 Market risk^{1,2}

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and other prices that will affect the Group's financial position or cash flows.

31.6.1 Currency risk

7.33(a) The Group is exposed to foreign currency risk on sales, purchases and borrowings that are denominated in a currency other than the respective functional currencies of Group entities. The currencies giving rise to this risk are primarily U.S. Dollar ("USD"), Great Britain Pound ("GBP") and Swiss Franc ("CHF").

Risk management objectives, policies and processes for managing the risk

7.33(b) The Group hedges at least 30% of its foreign currency denominated trade receivables and trade payables. The Group uses forward exchange contracts to hedge its foreign currency risk. Most of the forward exchange contracts have maturities of less than one year after the end of the reporting period. Where necessary, the forward exchange contracts are rolled over at maturity.

Exposure to foreign currency risk

7.34(a) The Group's exposure to foreign currency (a currency which is other than the functional currency of the Group entities) risk, based on carrying amounts as at the end of the reporting period was:

Group <i>In thousands of RM</i>	2013 <i>Denominated in</i>			2012 <i>Denominated in</i>		
	USD	GBP	CHF	USD	GBP	CHF
Balances recognised in the statement of financial position						
Trade receivables	43,650	13,670	-	62,500	17,800	-
Bank loans	(4,470)	(8,450)	(12,600)	(5,210)	(48,550)	(12,570)
Trade payables	(39,800)	(33,470)	-	(102,450)	(26,800)	-
<i>Intra-group balances</i>	XXX	XXX	XXX	XXX	XXX	XXX
	(620)	(28,250)	(12,600)	(45,160)	(57,550)	(12,570)
Forecast transactions						
Forecast sales	77,905	37,900	-	68,945	48,900	-
Forward exchange contract on forecast sales	(74,092)	(34,170)	-	(69,270)	(36,580)	-
Forecast purchases	(73,450)	(30,500)	-	(90,660)	(20,990)	-
Forward exchange contract on forecast purchases	78,956	29,520	-	81,212	25,140	-
	9,319	2,750	-	(9,773)	16,470	-
Net exposure	8,699	(25,500)	(12,600)	(54,933)	(38,410)	(12,570)

Currency risk sensitivity analysis

Foreign currency risk arises from Group entities which have a Euro functional currency. The exposure to currency risk of Group entities which do not have a Euro functional currency is not material and hence, sensitivity analysis is not presented.

7.40(b) A 10% (2012: 10%) strengthening of the Euro against the following currencies at the end of the reporting period would have increased (decreased) equity and post-tax profit or loss by the amounts shown below. This analysis is based on foreign currency exchange rate variances that the Group considered to be reasonably possible at the end of the reporting period. The analysis assumes that all other variables, in particular interest rates, remained constant and ignores any impact of forecasted sales and purchases.

Group <i>In thousands of RM</i>	2013		2012	
	Equity	Profit or loss	Equity	Profit or loss
USD	-	387	-	365
GBP	-	1,181	-	1,088
CHF	(120)	-	(112)	-

A 10% (2012: 10%) weakening of Euro against the above currencies at the end of the reporting period would have had equal but opposite effect on the above currencies to the amounts shown above, on the basis that all other variables remained constant.

Note

Reference

Explanatory note

1.	In these illustrative financial statements, this sensitivity analysis relates to fixed rate instruments classified as available for sale.
----	---

Reference Notes to the financial statements

31. Financial instruments (continued)

31.6 Market risk (continued)

31.6.2 Interest rate risk

7.33(a) The Group's investments in fixed rate debt securities and its fixed rate borrowings are exposed to a risk of change in their fair value due to changes in interest rates. The Group's variable rate borrowings are exposed to a risk of change in cash flows due to changes in interest rates. Investments in equity securities and short term receivables and payables are not significantly exposed to interest rate risk.

Risk management objectives, policies and processes for managing the risk

7.33(b) The Group adopts a policy of ensuring that between 40% and 60% of its exposure to changes in interest rates on borrowings is on a fixed rate basis. The Group has entered into interest rate swap with a notional contract amount of RM50,000,000 (2012: Nil) in order to achieve an appropriate mix of fixed and floating rate exposure within the Group's policy. At 31 December 2013, the swap matures over the next four years following the maturity of the floating rate convertible notes and has a fixed swap rate of 7.5% (see note 31.7.1).

Exposure to interest rate risk

7.34(a) The interest rate profile of the Group's and the Company's significant interest-bearing financial instruments, based on carrying amounts as at the end of the reporting period was:

<i>In thousands of RM</i>	Group		Company	
	2013	2012	2013	2012
Fixed rate instruments				
Financial assets	36,900	31,180	44,770	31,970
Financial liabilities	(181,161)	(136,820)	(66,170)	-
	(144,261)	(105,640)	(21,400)	31,970
Floating rate instruments				
Financial liabilities	(78,610)	(114,920)	-	-

Interest rate risk sensitivity analysis

Fair value sensitivity analysis for fixed rate instruments

The Group does not account for any fixed rate financial assets and liabilities at fair value through profit or loss, and the Group does not designate derivatives as hedging instruments under a fair value hedge accounting model. Therefore, a change in interest rates at the end of the reporting period would not affect profit or loss.

A change of 100 basis point in interest rates would have increased or decreased equity by RM15,000 (2012: RM6,000) arising from interest bearing available-for-sale instrument.¹

Cash flow sensitivity analysis for variable rate instruments

7.40(b) A change of 100 basis points ("bp") in interest rates at the end of the reporting period would have increased/(decreased) equity and post-tax profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency rates, remain constant.

Group	Equity		Profit or loss	
	100 bp increase	100 bp decrease	100 bp increase	100 bp decrease
<i>In thousands of RM</i>				
2013

Cash flow sensitivity (net)	52	(52)	(51)	51

Note	Reference	Explanatory note
1.	7.22	For each type of hedge, an entity discloses a description of the hedge, a description of the financial instruments designated as hedging instruments and their fair values at end of the reporting period as well as the nature of the risks being hedged.
2.	7.23(b) 7.23(e)	For cash flow hedges, other than as illustrated, an entity also discloses where applicable: (a) a description of any forecast transactions for which hedge accounting had previously been used, but which is no longer expected to occur; and (b) the amount that was removed from equity during the period and included in the initial amount cost or other carrying amount of a non-financial asset or non-financial liability whose acquisition or incurrence was a hedged highly probable forecast transaction.
3.	7.22, 24	For a fair value hedge, an entity discloses: (a) a description of the hedge; (b) a description of the financial instrument designated as hedging instrument and its fair value at the end of the reporting period; (c) the nature of the risk being hedged; (d) gain or loss on the hedging instrument; (e) gain or loss on the hedged item attributable to the hedge risk; (f) the ineffectiveness recognised in profit or loss that arises from cash flow hedges; and (g) the ineffectiveness recognised in profit or loss that arises from hedges of net investments in foreign operations.
4.	7.25 7.B2	An entity discloses the fair value of each class of financial assets and financial liabilities in a way that permits it to be compared with the carrying amount. “Classes” are distinct from “categories” of financial instruments specified in MFRS 139. In determining classes of financial instrument, an entity shall at the minimum distinguish instruments measured at amortised cost from those measured at fair value and treat as a separate class or classes those financial instruments outside the scope of MFRS 7.

Reference Notes to the financial statements

31. Financial instruments (continued)

31.6 Market risk (continued)

31.6.3 Other price risk

7.33(a) Equity price risk arises from the Group's investments in equity securities.

7.33(b) ***Risk management objectives, policies and processes for managing the risk***

Management of the Group monitors the equity investments on a portfolio basis. Material investments within the portfolio are managed on an individual basis and all buy and sell decisions are approved by the Risk Management Committee of the Group.

Equity price risk sensitivity analysis

This analysis assumes that all other variables remain constant and the Group's equity investments moved in correlation with the FTSE Bursa Malaysia KLCI ("FBMKLCI").

7.40(a), (b) A 10% (2012: 10%) strengthening in FBMKLCI at the end of the reporting period would have increased equity by RM1,267,000 (2012: RM980,000) for investments classified as available for sale and post-tax profit or loss by RM540,000 (2012: RM465,000) for investments classified as fair value through profit or loss. A 10% (2012: 10%) weakening in FBMKLCI would have had equal but opposite effect on equity and profit or loss respectively.

31.7 Hedging activities^{1, 3}

31.7.1 Cash flow hedge²

7.22 The Group has entered into an interest rate swap to hedge the cash flow risk in relation to the floating interest rate of a bank loan of RM50,000,000 (2012: Nil). The interest rate swap has the same nominal value of RM50,000,000 (2012: Nil) and is settled every six monthly, consistent with the interest repayment schedule of the bond.

7.23(a) The following table indicates the periods in which the cash flows associated with the interest rate swap are expected to occur and affect profit or loss:

	Group <i>In thousands of RM</i> 2013	Carrying amount	Expected cash flows	Under 1 year	1-2 years	2-5 years	More than 5 years
7.22(b)	Interest rate swap	828	1,045	250	262	533	-

7.23(c), (d) During the financial year, a gain of RM1,023,000 was recognised in other comprehensive income and RM170,000 was reclassified from equity to profit or loss as finance income.

7.24(b) Ineffectiveness loss amounting to RM25,000 was recognised in profit or loss during the financial year in respect of the hedge.

31.7.2 Hedge of net investment in a foreign operation

7.22 The Group's Swiss Franc denominated secured bank loan has been designated as a hedge of the Group's investment in its subsidiary in Switzerland. The carrying amount of the loan as at the end of the reporting period was RM12,600,000. A foreign exchange loss of RM30,000 was recognised in other comprehensive income which comprises the loss arising from foreign currency risk between Ringgit Malaysia and Swiss Franc that is determined to be effective hedge.

7.24(c) Ineffectiveness loss amounting to RM2,000 was recognised in profit or loss in respect of the hedge.

31.8 Fair value information⁴

7.29(a) The carrying amounts of cash and cash equivalents, short term receivables and payables and short term borrowings reasonably approximate their fair values due to the relatively short term nature of these financial instruments.

7.29(b) It was not practicable to estimate the fair value of the Group's investment in unquoted shares due to the lack of comparable quoted prices in an active market and the fair value cannot be reliably measured.

Note	Reference	Explanatory note
------	-----------	------------------

1.	13.93(b), 97	For fair value measurements recognised in the statement of financial position and fair values disclosed, an entity discloses the level in the fair value hierarchy into which the fair value measurements are categorised in their entirety.

* Comparative figures have not been analysed by levels, by virtue of transitional provision given in Appendix C2 of MFRS 13.

Policy on transfer between levels

The fair value of an asset to be transferred between levels is determined as of the date of the event or change in circumstances that caused the transfer.

Level 1 fair value

Level 1 fair value is derived from quoted price (unadjusted) in active markets for identical financial assets or liabilities that the entity can access at the measurement date.

13.95

This page has been left blank intentionally.

Reference Notes to the financial statements

31. Financial instruments (continued)

31.8 Fair value information (continued)

Level 2 fair value

Level 2 fair value is estimated using inputs other than quoted prices included within Level 1 that are observable for the financial assets or liabilities, either directly or indirectly.

13.93(d)

Derivatives

The fair value of forward exchange contracts is estimated by discounting the difference between the contractual forward price and the current forward price for the residual maturity of the contract using a risk-free interest rate (based on government bonds).

Non-derivative financial liabilities

Fair value, which is determined for disclosure purposes, is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the end of the reporting period. In respect of the liability component of convertible notes, the market rate of interest is determined by reference to similar liabilities that do not have a conversion option. For other borrowings, the market rate of interest is determined by reference to similar borrowing arrangements.

13.93(c)

Transfers between Level 1 and Level 2 fair values

There has been no transfer between Level 1 and 2 fair values during the financial year. (2012: no transfer in either directions)

13.93(c), 95

On XX September 2013, available-for-sale financial assets with a carrying amount of RMXXX were transferred from Level 1 to Level 2 because quoted prices in the market for such debt securities became no longer regularly available. In order to determine the fair value of such debt securities, the Group used a valuation technique in which all significant inputs were based on observable market data. There has been no transfer from Level 2 to Level 1 in 2013. (2012: no transfer in either directions).

Level 3 fair value

Level 3 fair value is estimated using unobservable inputs for the financial assets and liabilities.

13.93(e)

The following table shows a reconciliation of Level 3 fair values:

		Group	
		2013	2012
<i>In thousands of RM</i>

Valuation processes applied by the Group for Level 3 fair value

The Group has an established control framework in respect to the measurement of fair values of financial instruments. This includes a valuation team that has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values, and reports directly to the Chief Finance Officer. The valuation team regularly reviews significant unobservable inputs and valuation adjustments.

This page has been left blank intentionally.

Reference

Notes to the financial statements

31. Financial instruments (continued)**31.9 Master netting or similar agreements**

The Group enters into derivative transactions under International Swaps and Derivatives Association ("ISDA") master netting agreements. In general, under such agreements the amounts owed by each counterparty on a single day in respect of all transactions outstanding in the same currency are aggregated into a single net amount that is payable by one party to the other. In certain circumstances – e.g. when a credit event such as a default occurs, all outstanding agreement are terminated, the termination value is assessed and only a single net amount is payable in settlement of all transactions.

The ISDA agreements do not meet the criteria for offsetting in the statement of financial position. This is because the Group currently does not have any legally enforceable right to offset recognised amounts, because the right to offset is enforceable only on the occurrence of future events such as a default on the bank loans or other credit events.

The following table sets out the carrying amounts of recognised financial instruments that are subject to the above agreements.

Group		Carrying amounts of financial instruments in the statement of financial position	Related financial instruments that are not offset	Net amount

Note Reference **Explanatory note**

1.	101.134	An entity discloses information that enables users of its financial statements to evaluate the entity's objectives, policies and processes for managing capital.
	101.135	<p>To comply with the above requirement, an entity discloses the following:</p> <ul style="list-style-type: none"> (a) qualitative information about its objectives, policies and processes for managing capital, including: <ul style="list-style-type: none"> (i) a description of what it manages as capital; (ii) when an entity is subject to externally imposed capital requirements, the nature of those requirements and how those requirements are incorporated into the management of capital; and (iii) how it is meeting its objectives for managing capital. (b) summary quantitative data about what it manages as capital. Some entities regard some financial liabilities (e.g. some forms of subordinated debt) as part of capital. Other entities regard capital as excluding some components of equity (e.g. components arising from cash flow hedges). (c) any changes in (a) and (b) from the previous period. (d) whether during the period it complied with any externally imposed capital requirements to which it is subject. (e) when the entity has not complied with such externally imposed capital requirements, the consequences of such non-compliance. <p>The entity bases these disclosures on the information provided internally to key management personnel, e.g. the entity's board of directors or CEO.</p>

Reference Notes to the financial statements

32. Capital management¹

101.134 The Group's objectives when managing capital is to maintain a strong capital base and safeguard the Group's ability to continue as a going concern, so as to maintain investor, creditor and market confidence and to sustain future development of the business. The Directors monitor and are determined to maintain an optimal debt-to-equity ratio that complies with debt covenants and regulatory requirements.

101.135(a), (b) During 2013, the Group's strategy, which was unchanged from 2012, was to maintain the debt-to-equity ratio at the lower end range within 0.4:1 to 0.7:1. The debt-to-equity ratios at 31 December 2013 and at 31 December 2012 were as follows:

<i>In thousands of RM</i>	Group	
	2013	2012
Total loans and borrowings (note 16)	259,771	251,740
Less: Cash and cash equivalents (note 13)	(18,350)	(18,500)
Net debt	241,421	233,240
Total equity	408,500	321,342
Debt-to-equity ratio	0.6	0.7

101.135(c) There was no change in the Group's approach to capital management during the financial year.

101.135(e) The Group is also required to maintain a maximum debt-to-equity ratio of 0.5 to comply with a bank covenant, failing which, the bank may call an event of default. The Group has breached this covenant (see note 16).

Note Reference **Explanatory note**

1.	IC 127.10	If an entity has any arrangement that is in the legal form of a lease but to which lease accounting is not applied because it does not, in substance, involve a lease, then it provides appropriate disclosures in order for users of the financial statements to understand the arrangement and the accounting treatment, including at least the following: <ul style="list-style-type: none"> the significant terms of the arrangement including its life of the underlying asset and any restrictions on its use, and the transactions that are linked together, including any options; and the amount recognised as income in the period and the line item of statement of profit or loss and other comprehensive income in which it is included.
	IC 4.13, 15	In a case of an arrangement that is not in the legal form of a lease but to which lease accounting is applied because it contains a lease, payments and other consideration required by such an arrangement are separated into those for the lease and those for the lease and those for other elements, on the basis of their relative fair values. If an entity concludes, in the case of an operating lease, that it is impracticable to separate the payments reliably, then it: <ul style="list-style-type: none"> treats all payments as future minimum lease payments for disclosure purposes; discloses those payments separately from the minimum lease payments of other arrangements that do not include payments for non-lease elements; and states that the disclosed payments also include payments for non-lease elements in the arrangements.
	117.15A	In assessing the classification of each element as a finance or operating lease, land and buildings are assessed separately in accordance to MFRS 117.
2.	117.35(d)(iii)	An entity discloses any restrictions imposed by lease agreements, such as restrictions on dividends, additional debt and further leasing.
3.	117.47	If an entity is a lessor in a finance lease, it discloses: <ul style="list-style-type: none"> a reconciliation between the total gross investment in the lease at the end of reporting period, and the present value of minimum lease payments receivable at the end of the reporting period the total gross investment in the lease and the present value of minimum lease payments receivable at the end of the reporting period grouped as follows: not later than one year; later than one year but no later than five years; and later than five years unearned finance income the unguaranteed residual values accruing to the benefit of the lessor the accumulated allowance for uncollectible minimum lease payments receivable contingent rents recognised as income in the period a general description of the entity's material leasing arrangements.
	117.48	It is also useful to disclose the gross investment less unearned income in new business added during the reporting period, after deducting the relevant amounts for cancelled leases.
	117.56(b)	An entity also discloses the amount of contingent rents recognised as income during the period.
4.	138.122(e), 140.75(h)	An entity also discloses the amount of contractual commitments for the acquisition of intangible assets, development and for the purchase, construction, development, repairs and maintenance of investment property.
5.	12.23(a)	An entity discloses commitments that it has relating to its joint ventures separately from the amount of other commitments as specified in paragraphs B18-B20 of MFRS 12.

1.	137.91	When it is not practicable to estimate the potential financial effect of a contingent liability or an asset, an entity discloses that fact.
2.	137.92	<p>In extremely rare cases, disclosure of some or all of the information required in respect of contingencies can be expected to seriously prejudice the position of the entity in a dispute with other parties. In such cases only the following is disclosed:</p> <ul style="list-style-type: none"> • the general nature of the provision • the fact that the required information has not been disclosed • the reason why.
3.	12.23(b)	An entity disclose in accordance with MFRS 137, <i>Provisions, Contingent Liabilities and Contingent Assets</i> , unless the probability of loss is remote, contingent liabilities incurred relating to its interests in joint ventures or associates (including its share of contingent liabilities incurred jointly with other investors with joint control of, or significant influence over, the joint ventures or associates), separately from the amount of other contingent liabilities.
4.	137.89	In the case of a contingent asset, an entity discloses a brief description of its nature and, where practicable, an estimate of its financial effect.
	112.88	An entity discloses any tax-related contingent liabilities and contingent assets in accordance with MFRS 137. Contingent liabilities and contingent assets may arise, for example, from unresolved disputes with the taxation authorities.
	111.45, 118.36	MFRSs 111 and 118 require an entity to disclose any contingent liabilities and contingent assets, including those arising from such items such as warranty costs, claims, penalties or possible losses.

Reference Notes to the financial statements

35. Contingencies¹

The Directors are of the opinion that provisions are not required in respect of these matters, as it is not probable that a future sacrifice of economic benefits will be required or the amount is not capable of reliable measurement.

101.125, 137.86(a)-(c), 9Sch2(1)(t)(iii)

**Contingent liabilities not considered remote
Litigation (unsecured)**

A subsidiary is defending an action brought by an environmental agency in Europe. While liability is not admitted, if defence against the action is unsuccessful, then fines and legal costs could amount to RM9,500,000. Based on legal advice, the Directors do not expect the outcome of the action to have a material effect on the Group's financial position.

137.92

In the Directors' opinion, disclosure of any further information about the above matter would be prejudicial to the interests of the Group.²

12.23(b), 9Sch2(1)(t)(iii)

Joint and several liability³ (unsecured)

Share of joint venture operation's contingent liabilities:
- restoration costs

137.89

Contingent assets⁴

Litigation

A subsidiary is making a claim for down time and loss of profits against a manufacturer for purchases of products. The manufacturer does not agree with the claim and a legal suit has been filed against the manufacturer. The legal suit is currently pending hearing.

137.92

In the Directors' opinion, disclosure of any further information about the above matter would be prejudicial to the interests of the Group.²

36. Related parties

Identity of related parties^{1, 2}

124.9 For the purposes of these financial statements, parties are considered to be related to the Group if the Group or the Company has the ability, directly or indirectly, to control the party or exercise significant influence over the party in making financial and operating decisions, or vice versa, or where the Group or the Company and the party are subject to common control or common significant influence. Related parties may be individuals or other entities.

Related parties also include key management personnel defined as those persons having authority and responsibility for planning, directing and controlling the activities of the Group either directly or indirectly. The key management personnel include all the Directors of the Group, and certain members of senior management of the Group.

The Group has related party relationship with its holding companies, significant investors, subsidiaries and associates, Directors and key management personnel.

124.18(a) Significant related party transactions

Related party transactions have been entered into in the normal course of business under normal trade terms. The significant related party transactions of the Group and the Company are shown below. The balances related to the below transactions are shown in notes 10, 16 and 20.

36. Related parties (continued)

Significant related party transactions (continued)

D. Key management personnel (continued)

Other key management personnel comprise persons other than the Directors of Group entities, having authority and responsibility for planning, directing and controlling the activities of the Group entities either directly or indirectly.

119.151(b) In addition to their salaries, the Group also provides non-cash benefits to key management personnel, and contributes to a post-employment defined benefit plan on their behalf. In accordance with the terms of the plan, key management personnel retire at age 55 and are entitled to receive annual payments equivalent to 50% of their salary at the date of retirement until the age of 65, at which time their entitlement falls to 25% of their salary at the date of retirement. For salaried key management personnel, the Group also contributes to state plans at the minimum statutory rate.

9Sch1(o)(ii) The estimated monetary value of Directors' benefit-in-kind is RM867,000 (2012: RM811,000).

Executive officers also participate in the Group's share option programme (see note 17.2).

124.17(d) Certain executive officers are subject to mutual term of notice of 12 months. Upon resignation at the Group's request, they are entitled to termination benefits up to 24 months gross salary.

E. Government-related entities^{1,2}

Example 1: Individually significant transaction because of size of transaction

In 2011, a subsidiary entity, Wonder Paper Sdn Bhd, entered into a procurement agreement with the Department of Commerce, such that Wonder Paper Sdn Bhd would act as the sole supplier of recycled paper products to the Department's various agencies for a term of three years from 2012 to 2014, with an agreed bulk discount of 10% compared to list prices that Wonder Paper Sdn Bhd would generally charge on individual orders.

124.26(b)(i)

Example 3: Individually significant transaction outside normal day-to-day business operations

Pursuant to an agreement dated 1 January 2013, Wonder Paper Sdn Bhd and the Department of Trade and Enterprise agreed to participate and co-operate with a third party consortium in the development, funding and operation of a research and development centre. Wonder Paper Sdn Bhd will also sub-lease a floor in its headquarter building as an administrative office for the joint operation.

	Group	
In thousands of RM	2013	2012
Capital invested	XXX	XXX
Rental income	XXX	XXX

124.26(b)(ii)

Example 4: Collectively, but not individually, significant transactions

Wonder Paper Sdn Bhd operates in an economic regime dominated by entities directly or indirectly controlled by the Government of Malaysia through its government authorities, agencies, affiliations and other organisations, collectively referred to as government-related entities. Wonder Paper Sdn Bhd has transactions with other government-related entities including but not limited to sales and purchases of goods and ancillary materials, rendering and receiving services, leasing of assets, and use of public utilities.

These transactions are conducted in the ordinary course of Wonder Paper Sdn Bhd's business on terms comparable to those with other entities that are not government-related. Wonder Paper Sdn Bhd has established procurement policies, pricing strategy and approval process for purchases and sales of products and services, which are independent of whether the counterparties are government-related entities or not.

For the financial year ended 31 December 2013, management estimates that the aggregate amount of Wonder Paper Sdn Bhd's significant transactions with other government-related entities are at least 50% of its sales of recycled paper products and between 30% to 40% of its purchase of materials.

Note Reference **Explanatory note**

1.	3.45	If the initial accounting for an acquisition was based on provisional values, and those provisional values are adjusted within 12 months of the acquisition date, then comparative information is restated, including recognition of any additional depreciation, amortisation and other profit or loss effect resulting from finalising the provisional values. In these illustrative financial statements there were no acquisitions in the comparative period.
2.	3.63	If the specific disclosures pursuant to the requirements of MFRS 3 and other MFRSs are not sufficient to enable the users of the financial statements to evaluate the nature and financial effects of business combinations effected in the current period, or any adjustments recognised in the current period relating to business combinations effected in prior periods, then an entity discloses additional information.
3.	3.B67(e)	For each material business combination, or in aggregate for individually immaterial business combinations that are material collectively, an entity discloses and explains any gain or loss recognised in the current reporting period that: <ul style="list-style-type: none"> relates to the identifiable assets acquired or liabilities assumed in a business combination that was effected in the current or the previous reporting period; and is of such size, nature or incidence that disclosure is relevant to an understanding of the combined entity's financial performance.
4.	3.B64(f)	To meet the objective in paragraph 59 of MFRS 3, the acquirer discloses for each business combination that occurs during the reporting period, the acquisition-date fair value of the total consideration transferred and the acquisition-date fair value of each major class of consideration, such as: <ul style="list-style-type: none"> (i) cash; (ii) other tangible or intangible assets, including a business or subsidiary of the acquirer; (iii) liabilities incurred, for example, a liability for contingent consideration; and (iv) equity interests of the acquirer, including the number of instruments or interests issued or issuable and the method of determining the fair value of those instruments or interests.
5.	3.B64(g)	For contingent consideration arrangements and indemnification assets, an entity discloses the amount recognised at the acquisition date, a description of the arrangement and the basis for determining the amount, and an estimate of the range of outcomes (undiscounted) or, if a range cannot be estimated, this fact and the reasons why a range cannot be estimated. If the maximum payment amount is unlimited, then an entity discloses this fact.
6.	3.B64(l)	For transactions that are recognised separately from the acquisition of assets and assumption of liabilities in the business combination in accordance with paragraph 51 of MFRS 3, an entity discloses a descriptions and how the acquirer accounted for each transaction, the amount and the line item in the financial statements in which each amount is recognised. <p>The entity shall disclose the method used to determine the settlement amount if the transaction is the effective settlement of a pre-existing relationship.</p>
7.	3.B64(h)	For acquired receivables, an entity discloses the fair value of the receivables, the gross contractual amounts receivables, and the best estimate at the acquisition date of the contractual cash flows not expected to be collected. <p>The disclosures shall be provided by major class of receivables, such as loans, direct finance leases and any other class of receivables.</p>
8.	3.23	At the acquisition date an entity recognises a contingent liability assumed in a business combination only if it represents a present obligation arising from a past event and its fair value can be reasonably estimated. <p>Contingent liabilities that are present obligations are recognised in the acquisition accounting because they meet the definition of a liability, even if it is not probable that an outflow of resources will be required to settle the obligation. A possible obligation is not recognised because it is not a liability.</p>

Reference Notes to the financial statements

37. Acquisition of subsidiary and non-controlling interests^{1, 2, 3}

37.1 Acquisition of subsidiary – Papyrus Pty Limited

3.59(a), B64(a)-(d)
3.B64(q) On 31 March 2013, the Group acquired all the shares in Papyrus Pty Limited for RM25,000,000, satisfied in cash. The company manufactures and distributes recycled paper. The acquisition of Papyrus Pty Limited has further expanded the Group's operation into Europe. In the nine months to 31 December 2013, the subsidiary contributed revenue of RM50,290,000 and profit of RM2,080,000. If the acquisition had occurred on 1 January 2013, management estimates that consolidated revenue would have been RM1,089,950,000, and consolidated profit for the financial year would have been RM74,500,000. In determining these amounts, management has assumed that the fair value adjustments, determined provisionally, that arose on the date of acquisition would have been the same if the acquisition had occurred on 1 January 2013.

The following summarises the major classes of consideration transferred, and the recognised amounts of assets acquired and liabilities assumed at the acquisition date:

3.B64(f), 107.40(a)	Fair value of consideration transferred⁴ <i>In thousands of RM</i>			Group
				2013
107.40(b)	Cash and cash equivalents			25,000
	Contingent consideration ⁵			XXX
	Equity instruments issued (XXX ordinary shares)			XXX
	Replacement shared-based payment awards – value of past service ⁶			XXX
	Settlement of pre-existing relationship ⁶			(XXX)
				25,000

3.B64(i), 107.40(d)	Identifiable assets acquired and liabilities assumed <i>In thousands of RM</i>	Note	Group
			2013
107.40(c)	Property, plant and equipment	3	19,550
	Intangible assets	5	3,270
	Inventories		3,750
	Trade and other receivables ⁷		3,170
	Cash and cash equivalents		3,750
	Loans and borrowings		(5,000)
	Deferred tax liabilities	9	(790)
	Contingent liabilities ⁸	19	(100)
	Provision	19	(100)
	Trade and other payables		(4,000)
	Total identifiable net assets		23,500

3.B64(h) The trade and other receivables comprise gross contractual amounts due of RM3,320,000 of which RM150,000 was expected to be uncollectible at the acquisition date.

3.B67(a)(i), (ii) The following fair values have been determined on a provisional basis:

- the fair value of intangible assets (Papyrus Pty Limited's patents and trademarks) has been determined provisionally pending completion of an independent valuation.
- the fair values of inventories as well as property, plant and equipment are pending completion of certain physical inventory counts and the confirmation of the physical existence and condition of certain property, plant and equipment.
- the amounts for legal contingencies are pending finalisation of examination and valuation of the filed cases.

107.40	Net cash outflow arising from acquisition of subsidiary <i>In thousands of RM</i>	Group
		2013
107.40(b)	Purchase consideration settled in cash and cash equivalents	(25,000)
107.40(c)	Cash and cash equivalents acquired	3,750
		(21,250)

Note Reference **Explanatory note**

1.	3.B64(o)	For each business combination in which the acquirer holds less than 100% of the equity interests in the acquiree at the acquisition date, the acquirer discloses the amount of the non-controlling interest in the acquiree recognised at the acquisition date and the measurement basis for that amount and for each non-controlling interest in an acquiree measured at fair value, the valuation techniques and significant inputs used to measure that value.
2.	3.B64(p)	In a business combination that is achieved in stages, the acquirer discloses the acquisition-date fair value of the equity interest in the acquiree held by the acquirer immediately before the acquisition date and the amount of any gain or loss recognised as a result of remeasuring to fair value the equity interest in the acquiree held by the acquirer before the business combination and the line item in the statement of profit or loss and other comprehensive income in which that gain or loss is recognised.
3.	3.B64(n)	If an acquirer in a business combination makes a bargain purchase, then the acquirer discloses the amount of the gain recognised, the line item in the statement of profit or loss and other comprehensive income in which the gain is presented, and a description of the reasons why the transaction resulted in a gain.
4.		<p>When non-controlling interests were initially measured at their proportionate interest in the identifiable net assets of a subsidiary, because no goodwill was initially attributed to non-controlling interests, there are different approaches to the determination of the adjustment to non-controlling interests that are acceptable for purchases and sales of non-controlling interests when retaining control. In our view, each of the following approaches is acceptable:</p> <ul style="list-style-type: none"> • <i>Approach 1.</i> Attribute a proportionate amount of all the net assets of the subsidiary including recognised goodwill. This view interprets “interests in the subsidiary” in Appendix B96 of MFRS 10 as related to all net assets, including goodwill, recognised in the parent’s consolidated financial statements. Under this approach, recognised goodwill is treated as any other asset. • <i>Approach 2.</i> Attribute a proportionate amount of the net assets of the subsidiary; however, in doing so there are two separate asset pools: one asset pool is in respect of the parent’s interest (net assets including goodwill) and the other asset pool is in respect of the non-controlling interests (identifiable net assets but no goodwill). Under this approach, a purchase of equity interests from non-controlling shareholders results in adjusting non-controlling interests for the proportionate amount of the non-controlling interests asset pool because the parent is buying a portion of that pool of assets. Conversely, a sale of equity interests to the non-controlling shareholders results in adjusting non-controlling interests for a proportionate amount of the parent’s assets-plus-goodwill pool because the parent is selling a portion of that asset pool to the non-controlling interests. • <i>Approach 3.</i> Attribute a proportionate amount of only the identifiable net assets of the subsidiary. This view interprets “interests in the subsidiary” in Appendix B96 of MFRS 10 as related to identifiable assets only since non-controlling interests have been initially recognised only in respect of identifiable assets. <p>Other approaches also may be acceptable depending on the circumstances. An entity should choose an accounting policy, to be applied consistently, to both sales and purchases of equity interests in subsidiaries when control exists before and after the transaction when non-controlling interests are measured initially at their proportionate interest in the identifiable net assets of the acquiree.</p>

Reference Notes to the financial statements

37. Acquisition of subsidiary and non-controlling interests (continued)

37.1 Acquisition of subsidiary – Papyrus Pty Limited (continued)

Goodwill

Goodwill was recognised as a result of the acquisition as follows:

		Group 2013
	<i>In thousands of RM</i>	
	Total consideration transferred	25,000
	Fair value of identifiable net assets	(23,500)
3.B64(o), (p)(ii)	<i>Non-controlling interests, based on their proportionate interest in the recognised amounts of the asset and liabilities of the acquire¹</i>	XXX
	<i>Fair value of existing interest in the acquire²</i>	XXX
	Goodwill³	1,500

3.B64(e), (k) The goodwill is attributable mainly to the skills and technical talent of Papyrus Pty Limited's work force, and the synergies expected to be achieved from integrating the company into the Group's existing recycled paper business. None of the goodwill recognised is expected to be deductible for income tax purposes.

3.B64(p) *The remeasurement to fair value of the Group's existing XX% interest in the acquiree resulted in a gain of RMXXX (RMXXX less RMXXX carrying value of equity-accounted investee at acquisition date plus RMXXX of translation reserve transferred to profit or loss), which has been recognised in other operating income in the statement of profit or loss and other comprehensive income.²*

Acquisition-related costs

3.B64(l), (m) The Group incurred acquisition-related costs of RM2,000,000 related to external legal fees and due diligence costs. The legal fees and due diligence costs have been included in other operating expenses in the Group's consolidated statement of profit or loss and other comprehensive income.

10.23, B96 **37.2 Acquisition of non-controlling interests⁴ - Windmill N. V.**

In June 2013, the Group acquired an additional 15% interest in Windmill N. V. for RM200,000 in cash, increasing its ownership from 60% to 75%. The carrying amount of Windmill N. V.'s net assets in the Group's financial statements on the date of the acquisition was RM767,000. The Group recognised a decrease in non-controlling interests of RM115,000 and a decrease in retained earnings of RM85,000.

12.18 The following summarises the effect of changes in the equity interest in Windmill N. V. that is attributable to owners of the Company:

	Group 2013
<i>In thousands of RM</i>	
Equity interest at 1 January 2013	392
Effect of increase in Company's ownership interest	115
Share of comprehensive income	290
Equity interest at 31 December 2013	797

Note	Reference	Explanatory note
1.	12.C2B	The disclosure requirements related to interests in unconsolidated structured entities may be presented prospectively as from the first annual period for which MFRS 12 is applied.
2.	12.24-31	<p>The disclosure objective in respect of an entity's interests in unconsolidated structured entities is to provide information that helps users of its financial statements:</p> <ul style="list-style-type: none"> to understand the nature and extent of its interests in unconsolidated structured entities; and to evaluate the nature of, and changes in, the risks associated with its interests in unconsolidated structured entities. <p>In order to meet this disclosure objective, MFRS 12 requires extensive qualitative and quantitative disclosures about the nature of an entity's interests and the nature of its risks. In particular, the standard requires certain disclosures if an entity has sponsored an unconsolidated structured entity for which it does not have an interest at the end of the reporting period. An entity discloses additional information that is necessary to meet the disclosure objective.</p> <p>Determining whether an entity has an 'interest' in another entity that requires disclosures could involve significant judgement.</p>
3.	110.21(b)	If the financial effect of a material non-adjusting event after the reporting period cannot be estimated, an entity discloses that fact.
4.	110.21, 22	<p>For each material category of non-adjusting event after the end of the reporting period, an entity discloses the nature of the event and an estimate of its financial effect or a statement that such an estimate cannot be made. The following are examples of non-adjusting events that may require disclosure:</p> <ul style="list-style-type: none"> a major business combination after the reporting period but before the financial statements are authorised for issue disposing of a major subsidiary announcing a plan to discontinue an operation major purchases of assets, classification of assets as held for sale in accordance with MFRS 5, <i>Non-current Assets Held for Sale and Discontinued Operations</i>, other disposals of assets or expropriation of major assets by government the destruction of a major production plant by a fire after the reporting period announcing, or commencing the implementation of, a major restructuring major ordinary share transactions or potential ordinary share transactions after the reporting period abnormally large changes after the reporting period in asset prices or foreign exchange rates changes in tax rates or tax laws enacted or announced after the reporting period that have a significant effect on current and deferred tax assets and liabilities entering into significant commitments or contingent liabilities (e.g. by issuing significant guarantees) commencing major litigation arising solely out of events that occurred after the reporting period.
5.	3.59(b), B66	For each business combination effected after the end of the reporting period but before the financial statements are authorised for issue, an entity discloses the information pursuant to the requirements of MFRS 3 to enable users of its financial statements to evaluate the nature and financial effect of each business combination. The disclosure requirements are the same as those required for business combinations effected during the period. If disclosure of any information is impracticable, then an entity discloses this fact and the reasons for it.
6.		This example is included to illustrate a change in accounting policy and the relevant disclosures in accordance with MFRS 108.

Reference Notes to the financial statements

Envelope R & D's principal place of business is in Malaysia. Envelope R & D performs research and development on new paper types and is strategic for the Group's innovation and future growth.</p>
7.42A, 42B, 42E, 42G, 12.29	<p>39. Interest in unconsolidated structured entities^{1, 2}</p> <p>In December 2013, the Group entered into a factoring arrangement under which it sold certain trade receivables to an unconsolidated structured entity, Compello Trust. Compello Trust was established by a bank to facilitate the factoring of receivables for a number of unrelated entities.</p> <p>Under the terms of the factoring arrangement, the Group provided a guarantee to reimburse Compello Trust for any credit losses related to the transferred trade receivables exceeding the expected losses of 5%.</p> <p>As a result of the transfer, trade receivables of RM350,000 were derecognised in their entirety; the difference between the carrying amount of the trade receivables and the proceeds received, which amounted to RM55,000, was recognised in profit or loss. The liability for the guarantee of RM1,000,000 has been recognised as a financial guarantee and included in "Trade and other payables" in the consolidated statement of financial position. The Group's maximum exposure to loss arising from its interests in Compello Trust, representing the maximum amount of loss that it could be required to reimburse under the guarantee, amounted to RM60,000 at 31 December 2013. Since the inception, there has been no impact in profit or loss.</p>
110.21(a), (b)	<p>40. Subsequent event^{3, 4, 5}</p> <p>At the end of January 2014, the Group announced its intention to implement a cost-reduction programme and to take further measures to reduce costs. Additionally, to enable the Group to adapt its size to current market conditions, it is intended to reduce the Group's workforce by 400 positions worldwide by the end of 2014, by means of non-replacement whenever possible. The Group expects the restructuring associated with the reduction in positions to cost RM600,000 to RM850,000 in 2014.</p>
108.29	<p>41. Significant changes in accounting policies⁶</p> <p>41.1 Accounting for investment property</p> <p><i>On 1 January 2013, the Group changed its accounting policy with respect to the subsequent measurement of investment property from the cost model to the fair value model, with changes in fair value recognised in profit or loss. The Group believes that subsequent measurement using the fair value model provides more relevant information about the financial performance of these assets, assists users to better understand the risks associated with these assets and is consistent with industry practice in relation to such type of assets.</i></p> <p><i>This change in accounting policy was applied retrospectively and had an insignificant impact (less than RMXXX) on earnings per share (2012: positive impact of RMXXX). The following table summarises the transitional adjustments made to the statement of financial position upon implementation of the new accounting policy:</i></p>

Note Reference **Explanatory note**

1.	101.41	When the entity changes the presentation or classification of items in its financial statements, the entity shall reclassify comparative amounts unless reclassification is impracticable. When the entity reclassifies comparative amounts, the entity shall disclose: <ul style="list-style-type: none"> (a) the nature of the reclassification; (b) the amount of each item or class of items that is reclassified; and (c) the reason for the reclassification.
	108.42	An entity shall correct material prior period errors retrospectively in the first set of financial statements authorised for issue after their discovery by: <ul style="list-style-type: none"> (a) restating the comparative amounts for the prior period(s) presented in which the error occurred; or (b) if the error occurred before the earliest prior period presented, restating the opening balances of assets, liabilities and equity for the earliest prior period presented.
	108.49	An entity shall disclose the following: <ul style="list-style-type: none"> (a) the nature of the prior period error; (b) for each prior period presented, to the extent practicable, the amount of the correction: <ul style="list-style-type: none"> (i) for each financial statement line item affected; and (ii) if MFRS 133 applies to the entity, for basic and diluted earnings per share; (c) the amount of the correction at the beginning of the earliest prior period presented; and (d) if retrospective restatement is impracticable for a particular prior period, the circumstances that led to the existence of that condition and a description of how and from when the error has been corrected. <p>Financial statements of subsequent periods need not repeat these disclosures.</p>

Reference Notes to the financial statements

41. Significant changes in accounting policies (continued)

41.1 Accounting for investment property (continued)

<i>In thousands of RM</i>	Group		Retained earnings/profit or loss
	Investment property	Deferred tax liabilities	
<i>Balance as reported at 1 January 2012</i>	XXX	(XXX)	XXX
<i>Effect of revaluation on 1 January 2012</i>	XXX	(XXX)	XXX
<i>Restated balance at 1 January 2012</i>	XXX	(XXX)	XXX
<i>Balance as reported at 31 December 2012</i>	XXX	(XXX)	XXX
<i>Effect of revaluation on 1 January 2012</i>	XXX	(XXX)	XXX
<i>Effect on profit or loss</i>	XXX	(XXX)	XXX
<i>Restated balance at 31 December 2012</i>	XXX	(XXX)	XXX

108.28(f)

The effect on the statement of comprehensive income was as follows:

	2013	2012
<i>Change in fair value of investment property</i>	XXX	XXX
<i>Decreased in depreciation</i>	XXX	XXX
<i>Increase in income tax expense</i>	(XXX)	(XXX)
<i>Effect on profit or loss</i>	XXX	XXX

42. Comparative figures¹

101.41,
108.49

In previous financial years, a non-current loan from an associate was erroneously classified in trade payables. The effects of correction of the error are disclosed below:

<i>In thousands of RM</i>	Group			
	31.12.2012		1.1.2012	
	As restated	As previously stated	As restated	As previously stated
Trade and other payables	228,999	248,999	235,290	255,290
Loans and borrowings – non-current	205,060	185,060	254,260	234,260

108.49

The above error does not have any impact on the earnings for ordinary shares of the Group.

Notes to the financial statements

43. Supplementary financial information on the breakdown of realised and unrealised profits or losses¹

The breakdown of the retained earnings of the Group and of the Company at 31 December, into realised and unrealised profits, pursuant to Paragraphs 2.06 and 2.23 of Bursa Malaysia Main Market Listing Requirements, are as follows:

<i>In thousands of RM</i>	Group		Company	
	2013	2012	2013	2012
Total retained earnings of the Company and its subsidiaries				
- realised	125,780	92,677	30,677	36,495
- unrealised	34,500	32,883	4,053	5,705
	160,280	125,560	34,730	42,200
Total share of retained earnings of associates				
- realised	38,980	36,212	-	-
- unrealised	18,920	12,887	-	-
Total share of retained earnings of joint venture				
- realised	XXX	XXX	-	-
- unrealised	XXX	XXX	-	-
	218,180	174,659	34,730	42,200
Less: Consolidation adjustments	(40,985)	(53,049)	-	-
Total retained earnings	177,195	121,610	34,730	42,200

The determination of realised and unrealised profits is based on the Guidance of Special Matter No.1, *Determination of Realised and Unrealised Profits or Losses in the Context of Disclosures Pursuant to Bursa Malaysia Securities Berhad Listing Requirements*, issued by the Malaysian Institute of Accountants on 20 December 2010.

Statement by Directors pursuant to Section 169(15) of the Companies Act, 1965

In the opinion of the Directors, the financial statements set out on pages 15 to 231 are drawn up in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the Companies Act, 1965 in Malaysia so as to give a true and fair view of the financial position of the Group and of the Company as of 31 December 2013 and of their financial performance and cash flows for the financial year then ended.

In the opinion of the Directors, the information set out in note 43 on page 233 to the financial statements has been compiled in accordance with the Guidance on Special Matter No.1, *Determination of Realised and Unrealised Profits or Losses in the Context of Disclosures Pursuant to Bursa Malaysia Securities Berhad Listing Requirements*, issued by the Malaysian Institute of Accountants, and presented based on the format prescribed by Bursa Malaysia Securities Berhad.

Signed on behalf of the Board of Directors in accordance with a resolution of the Directors:

.....
Tan Sri Dato' Haji Ghazali bin Musa

.....
Datuk Seri Mokhtar bin Haji Abdul Rahim

Kuala Lumpur
24 February 2014

Statutory declaration pursuant to Section 169(16) of the Companies Act, 1965

I, Roland Kong Hean Beng, the officer primarily responsible for the financial management of Wonderful Malaysia Berhad, do solemnly and sincerely declare that the financial statements set out on pages 15 to 233 are, to the best of my knowledge and belief, correct and I make this solemn declaration conscientiously believing the same to be true, and by virtue of the provisions of the Statutory Declarations Act, 1960.

Subscribed and solemnly declared by the above named in Kuala Lumpur in the Federal Territory on 24 February 2014.

.....
Roland Kong Hean Beng

Before me:
Alexander Menendes (No. W008004)
Commissioner for Oaths
Kuala Lumpur
