# Be bold, be brave and be bright with IFRS

IFRS and the application thereof can be complex. Keeping up to date with the frequent changes can be challenging. Not to mention the CPD requirement of 120 hours of learning over 3 years.

We offer interactive training sessions in the following formats:

- IFRS technical updates
- In-house customised training
- Industry specific events

## IFRS technical updates

This training offers a high level overview of the latest financial reporting developments and practical application issues of existing standards. KPMG Alumni will be familiar with the format of these updates. The duration of each session is approximately 2 hours.

From 2016 getting up to date is even easier as we offer live webcast sessions which can be accessed from anywhere where you have an internet connection. If you are not available to access the live webcast, the podcast can be accessed at a later date at your convenience. Delegates will also be able to ask questions during the webcast sessions.
