****Where interest is taxable at the rate provided in the domestic law of the State of source or at the reduced treaty rate, provision is usually made in the treaty to exempt interest receivable by a Contracting State itself, its local authorities, its Central Bank/all banks carrying on bona fide banking business and any other financial institutions as may be agreed upon by both Contracting States.

Mauritius has entered into Tax Information Exchange Agreements with Australia, Austria, Denmark, Finland, Norway, States of Guernsey, Iceland, US.

A Memorandum of Understanding was also signed between the Mauritius Revenue Authority and the South African Revenue Service concerning Avoidance of Double Taxation and Fiscal Evasion.

Foreign Account Tax Compliance Act ("FATCA")

FATCA legislations came into force during the year 2012. This is a US legislation that provides for the exchange of information on US persons who hold non-US accounts. The Internal Revenue Service ("IRS") came up with the Inter-Governmental Agreement ("IGA") which outlines the rules applicable to be FATCA compliant.

In order to ensure compliance with the FATCA legislations, the IRS came up with two options – Model A (Whereby the financial institution will report to the competent authority in the country, which will in turn transfer all the reporting to the IRS) and Model B (where the Financial Institution will report directly to the IRS). The IRS also provide for the imposition of a 30% withholding tax on payments made of certain U.S sourced income, in case of non-compliance.

Mauritius has adopted the Method A FATCA IGA, whereby reporting is conducted through the Mauritius Revenue Authority ("MRA") portal. Mauritius adopted the IGA on the 27 December 2013 and the first reporting was for all new accounts (accounts that were opened after the 31 July 2014). The deadline for the reporting was set for 31 July 2015 but was further extended to 31 August 2015. In exceptional cases, with the approval of the MRA, certain institutions were able to file their report up to the 30 September 2015.

For new and pre-existing accounts (Accounts opened prior to 31 July 2014), reporting for the year 2015 (01 January to 31 December 2015) will be by latest the 31 July 2016.

Common Reporting Standard ("CRS")

CRS was developed by the Organisation for Economic Co-operation and Development ("OECD") during the year 2014. CRS provides for jurisdictions to obtain information from their financial institutions and automatically exchange that information with other jurisdictions on an annual basis.

Mauritius signed the Competent Authority Agreement in October 2014 and was therefore within the early adopters list.

In addition, Mauritius signed the Convention on Mutual Administrative Assistance on the 23rd June 2015. The Convention came into force on 1 December 2015. Mauritius has also brought changes to its Income Tax Act (section 76) that gives powers to the Director-General of the MRA to require any person to establish, maintain and document such due diligence procedures as he may determine and to provide him with information of a specified description at such time and in such form and manner as he may determine. As such, it was not required to ratify the convention in the local laws.

The first reporting under CRS was expected to be due by the 31 July 2017, for new accounts (accounts opened as from 01 January 2016). However it has been deferred for 31 July 2018.
