## Audit Committee Institute Breakfast Roundtable 2016

The Audit Committee Institute (ACI) in Malaysia requests the honor of your presence at the 2016 ACI Breakfast Roundtable.

The theme for the breakfast roundtable session centers on Sustainability Reporting. Sustainability-related issues can significantly impact a company's risk and value profile and business leaders recognize that governance is an important part of sustainability. Today, it is undeniable that Sustainability is a business imperative as more organizations' incorporate social and environmental responsibility into the scope of financial performance and corporate governance reporting.

Do join us for a presentation on the topic 'The Importance of Sustainability Reporting' by Ms. Kasturi Nathan, Executive Director, Risk Consulting and Sustainability, KPMG in Malaysia. Kasturi spearheads the Advisory Climate Change & Sustainability Division and is experienced in providing invaluable assistance in conducting gap assessments and identifying improvement opportunities for sustainable corporate performance.
