

# KPMG Risk Hub

**Easy, reliable and cost-effective Governance, Risk and Compliance that enables insightful, risk-based decisions and enhanced business performance.**

**KPMG Risk Hub brings to you a world leading governance, risk and compliance system, managed and maintained by KPMG – bringing people, culture and technology together as an innovative Risk as a Service.**

Evolving complexity in regulation, market dynamics, competitive forces and rapidly advancing technology are just some of the challenges forcing organisations to consider how to best improve governance, risk and compliance (GRC).

The impact of increasing risk and regulatory burden to organisational resources is not sustainable, unless technology is leveraged to deliver a cost effective risk management solution.

KPMG Risk Hub brings a holistic view of risks, integrating information and data across all levels of the business through an interactive, cloud based technology solution enabling real time risk management.

KPMG, in a **global alliance with IBM®** brings this complete managed risk service to the market at a price point equivalent to the cost of one risk professional.

With its integrated data and advanced analytics, KPMG Risk Hub helps leaders make insightful risk-based decisions to enhance business performance.

## KPMG Risk Hub

- ✓ **Aligned and integrated governance, risk and compliance processes across your whole business**
- ✓ **Simple and intuitive to use**
- ✓ **Implementation, administration and support provided**
- ✓ **No capital cost, monthly fee and cost effective service**
