

cutting through complexity

Establishing a business in Sweden

Are you considering opening a new business in Sweden and wondering how to do this? In many cases, carrying on business in Sweden will imply tax consequences and compliance obligations for you.

KPMG provides our clients with the best advice about establishing a business in Sweden. We have expertise covering all relevant tax services in all relevant areas. Our services will save you valuable time, reduce potential risks and help you meet your Swedish objectives.

We can assist with tax advice and compliance on the most beneficial way to establish a business in Sweden and review a planned setup in Sweden, etc.

We can evaluate the VAT and customs implications.

We can help establish the correct profit allocation as well as ensure an arm's-length pricing model for the Swedish business.

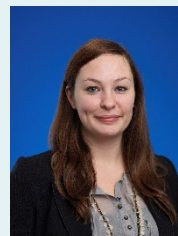

We can assist with any employer questions, such as payroll and ensure correct reporting of taxes and charges.
