

Are you considering opening a new business in Sweden?

Establishing business in Sweden

Why

In most cases, starting a business in Sweden will imply tax consequences and compliance obligations for you. Establishing a new business in Sweden often requires a planned and organised setup.

What

KPMG can provide you with the best advice about establishing a business in Sweden. We have expertise covering all relevant tax services in all relevant areas. Our services will save you valuable time, reduce potential risks and help you meet your Swedish objectives.

How

We can:

- assist with tax advice and compliance.
- establish the correct profit allocation.
- ensure an arm's-length pricing model.
- evaluate the VAT and customs implications.
- assist with any payroll and employer questions.
- ensure correct reporting of taxes and charges.
