Procurement and Supply Chain | Foundation

Procurement and Supply Chain Series: Procurement Primer

The objective of this course is to impart a sound understanding of the procurement strategy, that focuses on key areas within the procurement life-cycle.

The course will also touch on category strategy and supply market analysis which are fundamental to any procurement strategy. This course is highly recommended for anyone who is considering to be a procurement professional or are new to the procurement function.

COURSE HIGHLIGHTS

- Understand procurement strategy and its importance to your organisation
- Learn how category strategy and supply market analysis work to aid your go to market strategy
- An overview of KPMG's 8-Stage Procurement Process and learn key principles in the focus areas supplemented with case studies
