

Transform your business.

For what comes next. KPMG Powered Enterprise.

KPMG Powered Enterprise brings together decades of our business and cloud technology expertise to help you transform your back office and save money faster

Whether you're feeling the burden of legacy technology, managing an evolving workforce, or complying with changing regulatory requirements, agility and speed are critical to your business success.

Today's business leaders know that transforming the efficiency of back-office functions, such as Finance, IT and HR can lead to competitive advantage – and using the cloud to do this has many benefits. But getting the whole organisation on board can be difficult and time-consuming.

KPMG Powered Enterprise (KPE) is the solution to transform more quickly and efficiently.

Our Finance, IT, HR and Procurement operating models, implementation tools and configured cloud technologies are pre-defined based on the 80/20 rule to give you a rapid start in transforming your organisation. The KPMG team then works with you to tailor the pre-defined solution to fit your unique business.

What's in the KPE box?

- Business process models
- Organisational design and roles
- Controls and KPIs
- Data model and reports
- Test scenarios and scripts
- Preconfigured cloud applications
- Project delivery tools

With KPMG Powered Enterprise, you achieve a predictable, accelerated path to the finish line

By using KPMG Powered Enterprise, you can dramatically reduce the time and risk associated with your transformation initiatives. Our pre-built models are shaped by our leading practices and calibrated based on our experience working with organisations of all sizes, and in all industries.

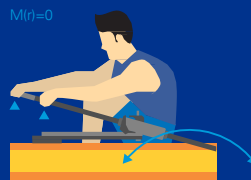

KPMG Powered Enterprise is a faster, smarter way to achieve your transformation goals in the cloud.

What is it?

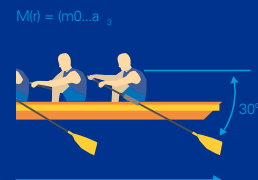

- Predefined set of business functions
- KPMG leading practice and insight
- Preconfigured cloud technologies

How is it different?

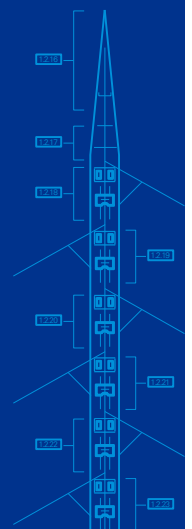

- Accelerates decisions
- Focuses on speed to value
- Tailored to your unique needs

What are the benefits?

- Leading practice solution
- Lower investment
- Certainty of outcome

KPMG Powered Enterprise delivers:

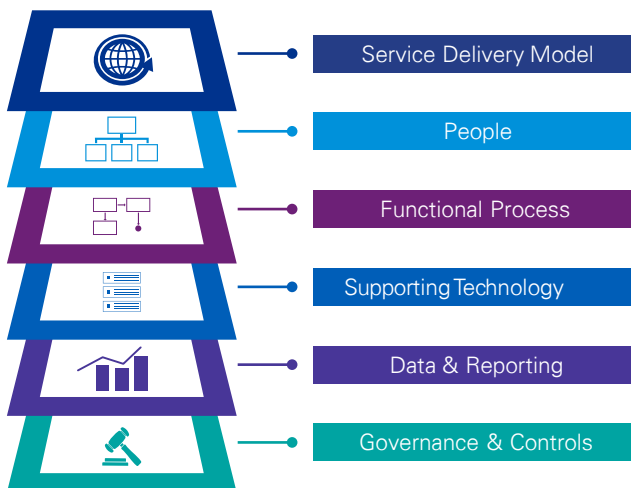

- **Rapid business-led implementation**
KPMG Powered Enterprise provides you with answers instead of questions. Our team works with you to validate your pre-defined business functions, allowing you to see the solution sooner and create a faster implementation path and greater step change in value.
- **Leading practice insight**
Our solution has leading practices and industry insight embedded, addressing many of the challenges you currently face. You can choose the solution that best fits your business - now and into the future.
- **Continuous business improvement** Continuous and regular updates are inherent in cloud technologies. Our solution takes advantage of these innovations, changing with your business as it evolves and expands.

A holistic view of your business functions.

KPMG Powered Enterprise helps you achieve results faster, and at a lower cost, because it incorporates KPMG's experience into every layer of your business functions. By providing you with a working model to validate, you can skip past the typical transformation questions and focus on aspects that are unique to your business.

KPMG's proprietary **Target Operating Model** incorporates our extensive experience, helping you achieve a step change towards a leading practice back office and greater ROI.

Six layers of the Target Operating Model
