# KPMG Pathcleared Transformation

Many organisations are driving large and complex transformation(s) of their core business technologies, these systems are pervasive and touch multiple facets of business from finance to production. Such transformation is a daunting task involving massive effort and cost for organisations leading organisations to focus on the most expensive part which is the 'Implementation'. However, the success of large transformations relies on pathclearing key dependencies ahead of initiating transformation implementations, and "Pathclear" is the game changer

# KPMG Pathclear – Overview

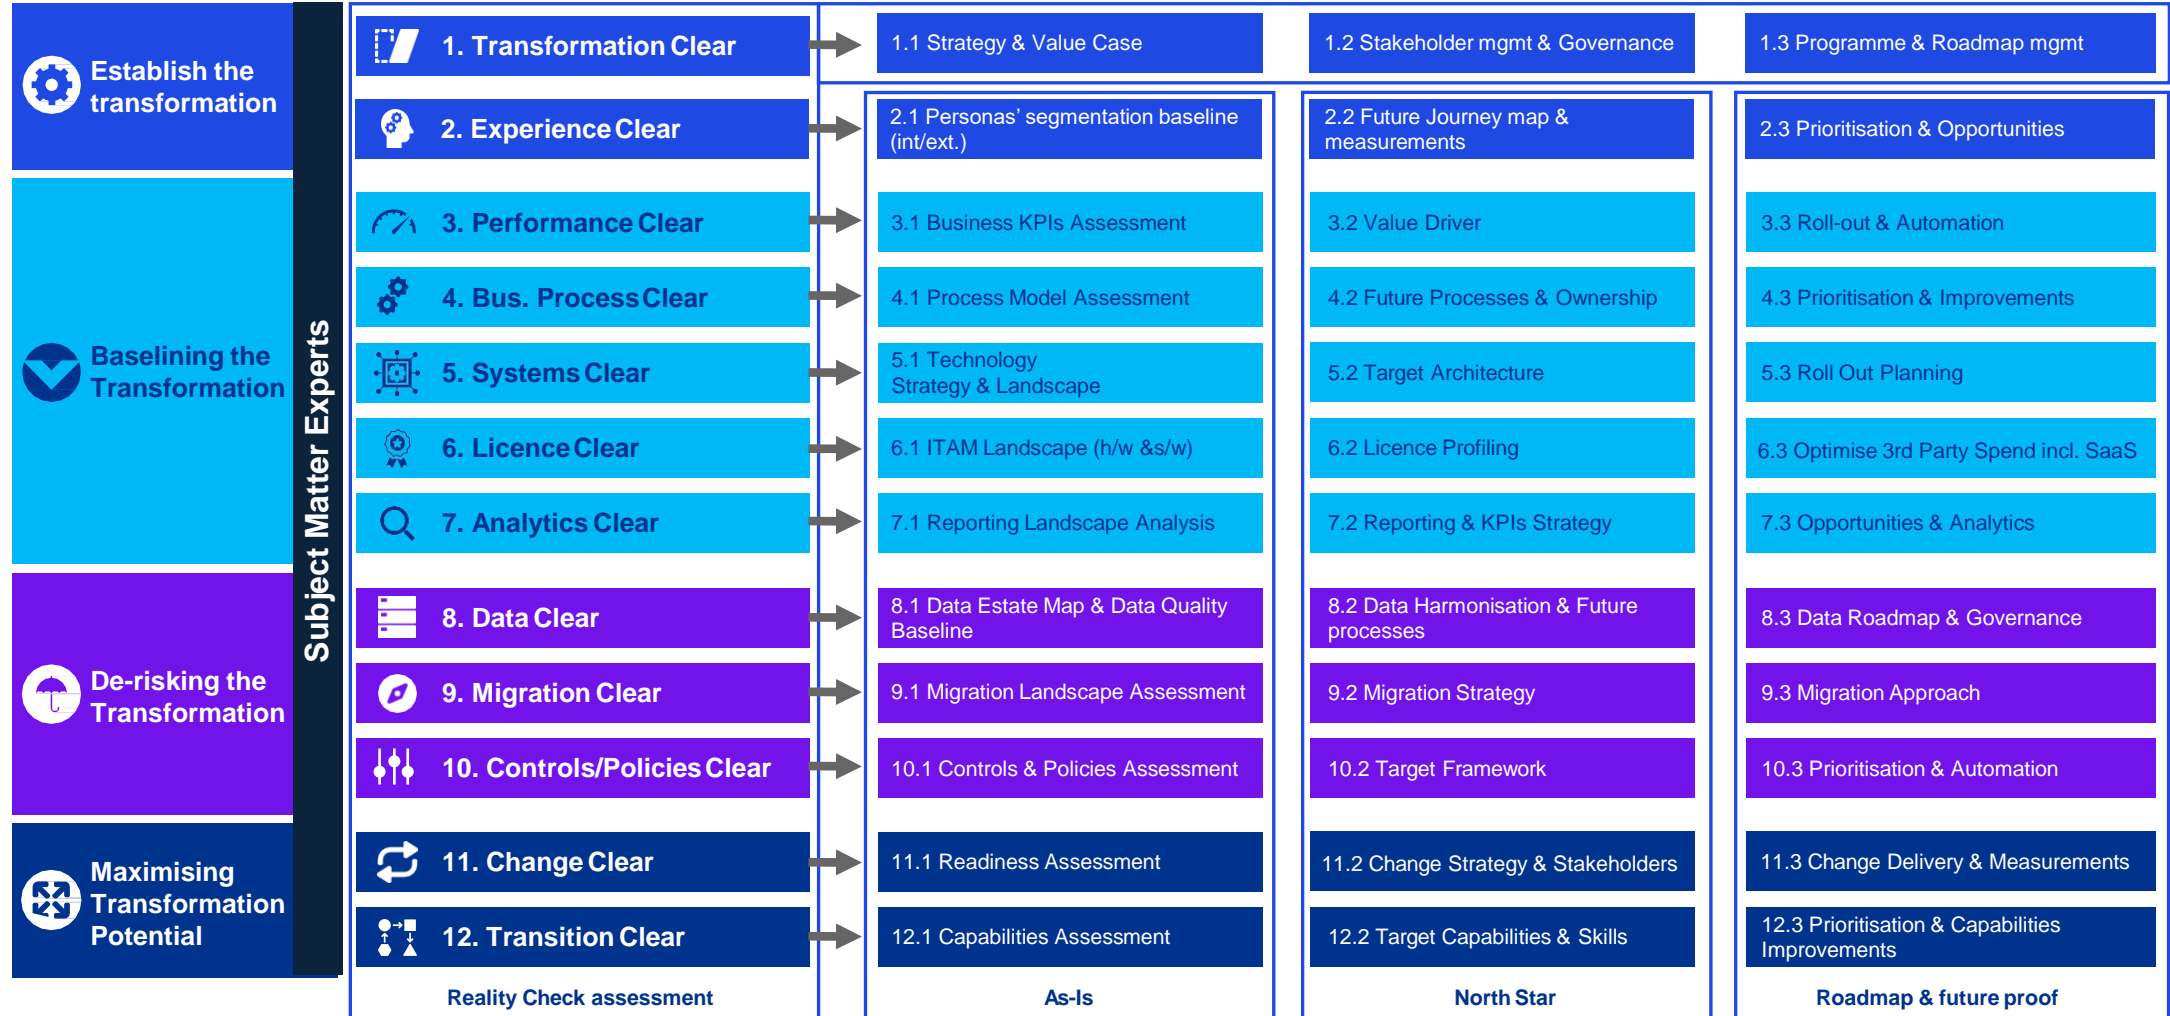

Pathclear's components allow to look holistically across the capabilities that an organisation needs for a successful transformation

We perform short assessment across pathclearing 12 components

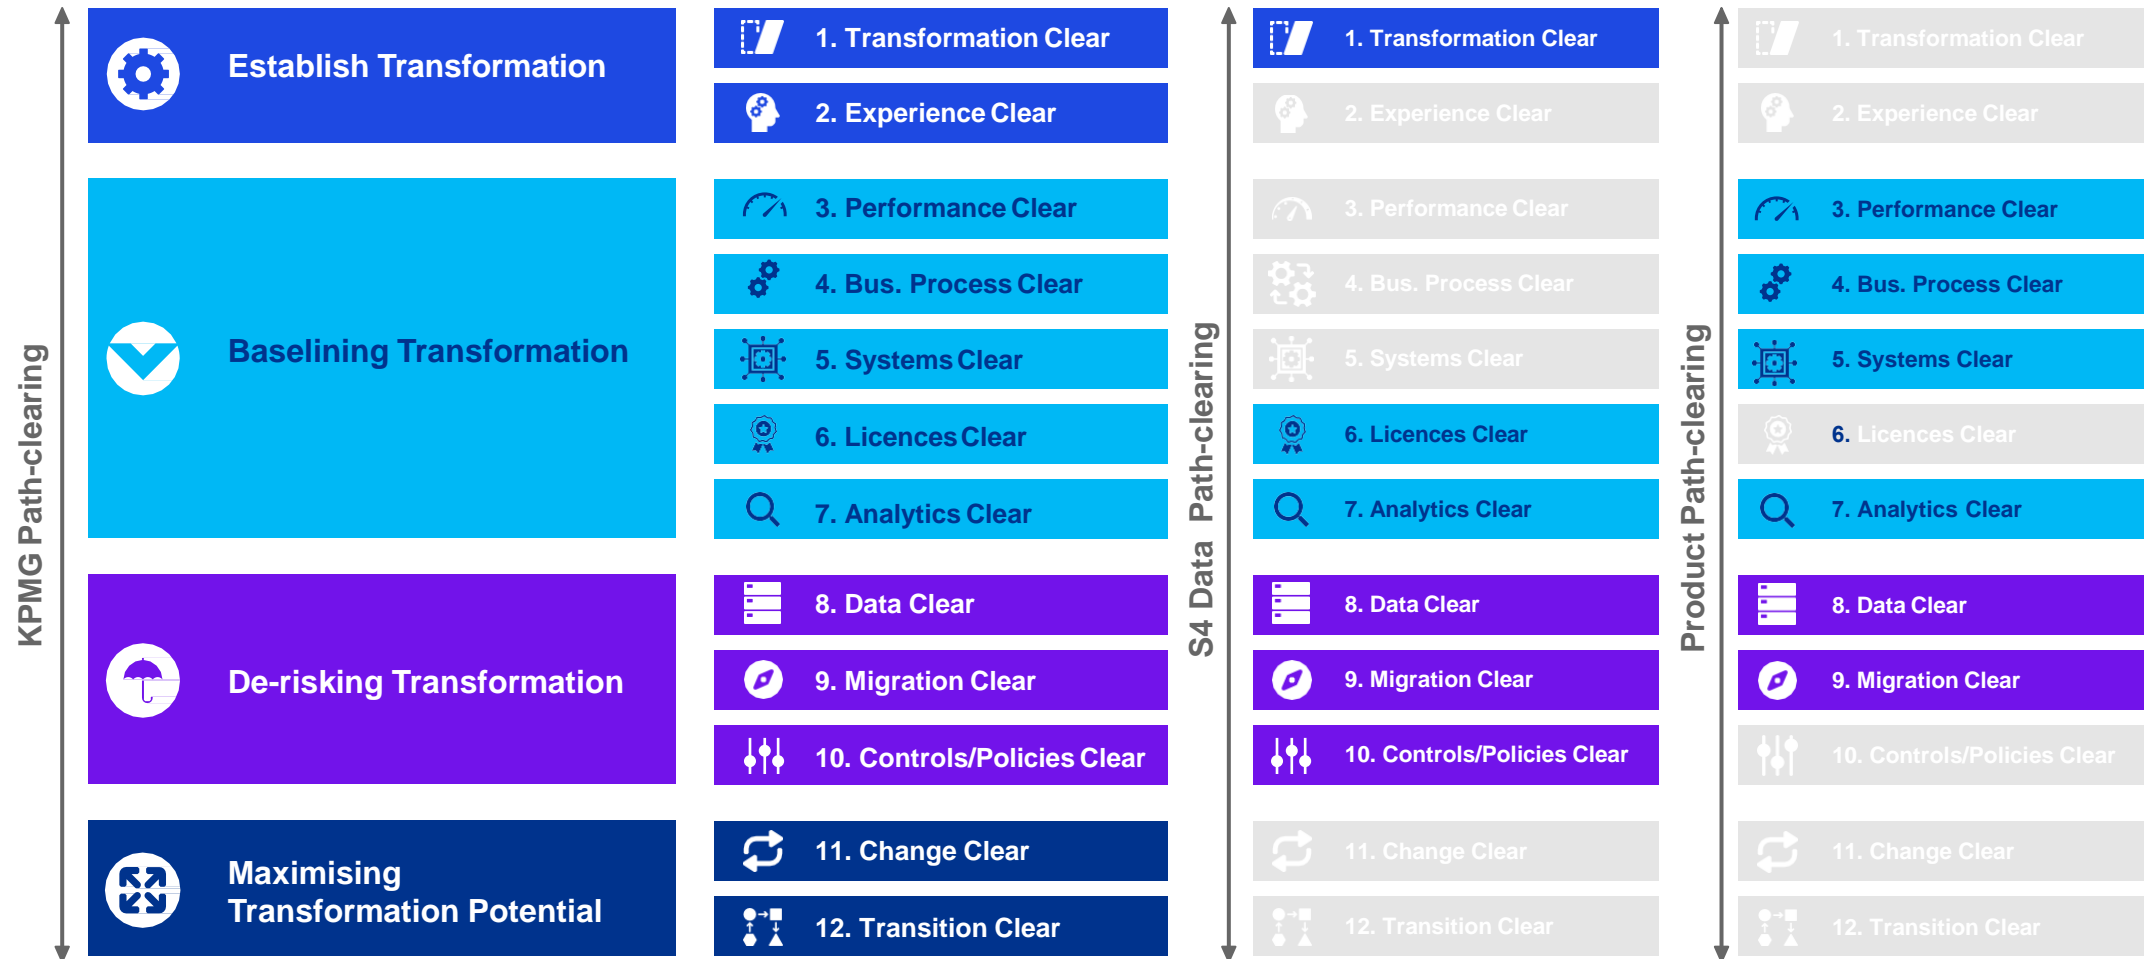

# KPMG Pathclear – Details

A rapid 1 – 2 week assessment enables us to focus in on the areas that need the most attention and where the most immediate value can be gained

# KPMG Pathclear applied (2 examples)

The areas might differ based on the transformation initiative and here below 2 examples
