Our international and integrated approach allows for enhanced business flexibility and better outcomes on the issues that matter to our clients.

2

Legal expertise in multi-disciplinary offering

What really makes our firm stand out is our ability to handle multi-disciplinary assignments that incorporate the expertise of other teams within KPMG, such as Tax, Management Consulting, and Deal Advisory. Such assignments include:

- **Integrated Due Diligence:** financial, tax, and legal due diligence to build a 360-degree view of the company's risks and impact.
- **Complex M&A Support:** determining a well-considered capital allocation strategy, identifying value drivers of the deal, and providing complex legal transactional support.
- **Complex Infrastructure Project Support:** performing business case analysis, cost modeling, tender, and transactional support in complex PPP, EPC construction, and similar large projects.

3

Technology and innovation

KPMG Law develops new concepts using technology advancements to deliver solutions that increase functionality and enter untapped markets.

As an example, KPMG's Legal Function Assessment Suite (LFAS) is one of the best offerings of innovative technology solutions that enables rapid assessment of your legal function's maturity and its performance against industry best practices.
