# Grow your career through global experience

In this era of globalization, with the increasing cross border reach of business, tax issues are seldom purely local in nature. This means tax advisors must have a global mindset and be able to think beyond borders on behalf of clients large and small.

Embarking on a TaxTrek helps you do just that. This global mobility program enables KPMG tax professionals to gain global experience and knowledge early in their careers; for personal enrichment, to support business success and to drive career advancement. It can help sharpen your ability to recognize trends, anticipate emerging issues, and make forward-thinking, strategic recommendations to clients.

Through TaxTrek, you can acquire the knowledge to help create value for member firm clients, while building skills and experiences — both professional and personal — that will resonate throughout your life. I encourage you to consider TaxTrek to truly “expand your perspective and explore the possibilities.”
