

KPMG Digital Gateway

Your doorway to a world of technology solutions built for today's most challenging tax, data analytics and other business issues

Tax leaders today face an increasingly complex tax and business landscape. In this environment, technology and innovation can be the difference between a tax function that is on the defensive, a department that is simply keeping pace and one that is proactively adding value inside and outside of the organization. How can tax leaders keep pace with the latest technology solutions?

KPMG can help

Powered by Microsoft Azure, KPMG Digital Gateway is a single platform cloud-based solution that gives you access to the full suite of KPMG Tax technologies built to support you and your tax department in all aspects of tax and financial reporting, strategic planning, compliance transformation, data and asset management and more.

KPMG Digital Gateway provides you with direct access to our extensive investments in machine learning, data analytics, powerful visualizations and AI technologies all in one place, all driven by the rich data you already have on hand. The platform combines the expertise of KPMG's global network of professionals, our alliances and our technology solutions to form an integrated platform that has been built to support tax leaders and the evolving needs of their functions.

Tax leaders can use the suite of technologies available to help you tackle a range of business challenges, including direct and indirect taxes, transfer pricing, trade and customs, analytics and more. With KPMG Digital Gateway and its wealth of KPMG solutions and third-party tools, you can tackle regulatory change, streamline processes and reporting, experiment with scenario planning and transform data into value.

Potential benefits

Leveraging KPMG Digital Gateway helps you to transform your business function for the modern demands you face.

- **Manage** planning processes, workflow and documentation across borders, ensuring the right balance of central and local delivery in reporting and enhancing collaboration
- **Connect** and operate efficiently and effectively on a global basis, across your teams and with the KPMG member firm teams that serve you
- **Optimize** your business activities, technologies and data management, so you can spend more time benefiting from your data and less time collecting it
- **Balance** the need to react with the opportunity for proactive insights, so you can track and respond to fast-moving regulatory changes and perform scenario-planning for future needs
- **Transform** your business function through the adoption of modern technology solutions and data-driven business management techniques

Key capabilities of KPMG Digital Gateway

One stop access to KPMG's suite of Tax & Legal technologies, personalized for you and your team members for the services you use

Spend less time working on your data and more time having it work for you — transforming data into value

Optimize project and document management, workflows and planning

Transform cross-border tax compliance and reporting

Identify and mitigate risks through modeling and scenario planning tools

Benefit from billions in investment

The KPMG Digital Gateway platform enables you to benefit from our significant investments in technology across KPMG International and its network of member firms. We're in the midst of a 5-year US\$5 billion investment journey in technology, people and innovation to accelerate the digital transformation of KPMG firms and our clients, including more than US\$1 billion in tax & legal technology specifically. Digital Gateway puts these investments at your fingertips.

Contacts

To find out how KPMG Digital Gateway can add value to you and your organization, please speak with your local KPMG member firm contact or reach out to one of our global leaders.
