

Driving South Africa's Digital Future

A New Era of Business Starts with SAP + KPMG

Is Your Business Struggling to Keep Up?

In a fast-changing economic environment, **South African businesses** across both public and private sectors are facing mounting pressure to modernise.

Disconnected systems, manual processes, and limited visibility make it hard to stay competitive, compliant, and customer focused.

To move forward, you need more than just new software. You need a transformation engine.

SAP S/4HANA, especially when paired with **SAP Business AI**, is that engine. It empowers organisations to streamline operations, make smarter decisions in real time, and scale innovation across the enterprise. It's not just about upgrading IT it's about reimagining the business model itself.

KPMG's SAP practice is purpose built to meet this challenge. With up to 7,000 SAP professionals in over 40 countries, we combine global expertise with local insight. Using tools like **SAP Signavio**, **SAP LeanIX**, and our proprietary **AIM Tool**, we help clients move from legacy systems to intelligent enterprises aligning technology with business outcomes and delivering measurable value every step of the way.

Reimagining Performance with SAP + KPMG

Simplify. Accelerate. Transform.

SAP's technology offers more than digital infrastructure — it provides a launchpad for intelligent growth. From finance and procurement to HR and operations, **SAP S/4HANA** and **SAP BTP** give you the tools to make faster decisions, automate processes, and lead with agility.

But transformation isn't just about technology. It's about execution.

That's why **KPMG's SAP team** brings a powerful combination of **global tools**, **local expertise**, and **proven methods** to help organisations unlock lasting value — fast.

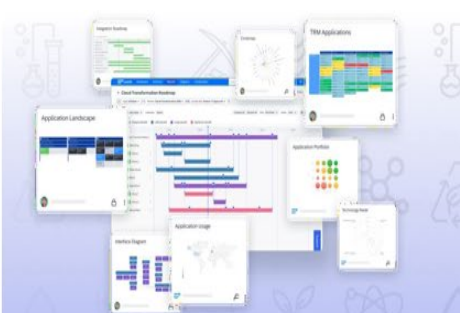

Gain complete transparency and track KPIs with cost simulations for business decision making with respect to SAP Licenses

AIM Tool

Analyze, optimize, and manage your processes fast and at a scale to become an agile and resilient enterprise.

SAP Signavio

Visualize and assess the as-is landscape and confidently navigate towards your to-be IT architecture.

SAP LeanIX

The KPMG Approach:

SAP's technology has the power to transform — but the real value lies in how you implement it.

At KPMG, we partner with clients to move from complexity to clarity. We go beyond traditional implementation — helping you design a transformation strategy that is actionable, sustainable, and built around your unique operating environment.

From **finance and procurement** to **HR, supply chain**, and **industry-specific operations**, we make sure your SAP ecosystem becomes a true performance platform.”

01
